several in this area are members, will hold a cutting horse contest at the Haskell Rodeo Arena next Sunday afternoon, April 9, at 2 p. m. Felix Mullino, president

now residing in Austin, Texas.

He and Mrs. Dickerson hope to return to the Congo in the welcome to come as conteststates that there will be fresh cattle to work and anyone is ants or spectators.

Three Members Of School Board Thomas and Sego Named Aldermen

"Gold" Strike To Be Developed As ballots in the annual city elec-Copper Mine, Abilene Owners Say

Owners of a "gold mine" discovered in a river bed in Stonewall County, are hoping that enough gold and silver ore can be found to pay for developing the find as a copper mine.

Robert Ford and Paul Harrelson, Abilene co-owners of the Cortez Mining Corp., confirmed the strike but said the primary object is the mining

They said that high grade, hand-picked ore samples from the mine site have assayed as high as \$138 per ton in gold, \$178 per ton in silver and \$202 per ton in copper-but in order to make the operation produce at that rate, large quantities of ore must be concentrated and refined.

However, Ford said it is not believed that the gold and silver content is sufficiently concentrated to make mining a profitable venture for those metals. Copper is the main object of the mining venture, Harrelson said, "and we hope we can make the amounts of gold and silver pay for the cost of mining the copper."

Course in First Aid Completed By Class of 19

A class of 19 persons comclation. Instructor for the ccurse was Geraid McCoy. Science teacher in Haskell High School. Assisting him was Ray School. Assisting him was Ray Lusk. First Aid chairman of the Haskell County Red Cross chapter.

The 10-hour course consisted of five sessions which, started the last week in February and ended Monday night.

Completing the course were Mesdames Doris Brueggeman, Marion Urban, Roy Wiseman, Ed Hester, Janice Browning Tommie Ballard, Ben Curd Jerry Yost, Dwanna Klose. Euster Gholson, Lee Burson, Billie Champion, Dorothy Woodard, Yvonne Black, Vir gil Cobb, Gentry Middleton, Jerry Sorrells and Messrs. Buster Gholson and Roy Wiseman.

All Offices In Courthouse Now On 5-Day Week

Newspaper Advertising Moves Goods

Editor & Publisher quotes the head of a large retailing or mization, which has 36 stores around the country, as saying that "couldn't do business today without the 84 papers in which

The magazine adds: "Other retailing establishments are aying the same tribute to newspapers every day in the year ough their advertising dollars. They know which advertising medium sells goods with speed and economy . . . Newspaper advertising moves goods off the retailers' shelves into the hands consumers regardless of whether the sales effort is made by the manufacturer or the retailer.

Nothing replaces the printed word-and most particularly, from an advertiser's standpoint, the printed word which the thousands of daily and weekly newspapers of this country bring to their tens of millions of readers.

Your Tax Bill

When income tax time comes around, most of us throw up our hands in despair as we come face to face with the high cost of government. We consider the billions spent by the government in various fields and its effect on our own pocketbooks, but that there's little we, as individuals, can do about it.

Actually, however, there is a great deal that we can do about 11. The country's banks are tackling this problem of high government spending head-on by distributing free of charge a small question-and-answer booklet titled "Watch Your Billions." Published by the Committee for Economic Growth Without Inflation of the American Bankers Association, the booklet points out the need for all of us to give greater attention to our nation's fiscal policies, not only at tax time but the year round.

The Committee debunks the theory that most of the increased government spending goes for defense and foreign aid. It points out, instead, that the bulk of the increases in government expenditures in recent years has been for non-defense purposes and that much of this money represents "special subsidies to

In addition to overhauling some of the government's big standing programs, the committee emphasizes the importance cl paying off the public debt during prosperous years as another real way of combating inflation. Until we manage to do this, it says, our Federal budget will continue to be inflationary.

How can we help carry out these ideas? By letting our elected representatives know just how we feel, since all of us are afforted by what the government does with our money-not only taxpayers but as consumers whose living costs are pushed by unsound fiscal policies.

Unless we take the trouble to "watch our billions," the Comnotice warns, we can't expect someone else to do it for us.

CROP HAIL INSURANCE

ises consumption.

April 15 is the deadline for securing the 1961 Inspection Stickers, required on all motor vehicles. Enforcement officers say the deadline will not be extended.

The widely-publicized "gold strike" in Stonewall County has created a wave of excite ment throughout this area and brought inquiries from points all over the country.

Following news of the valuable find, visitors have flocked to the area where work is being done on a copper mining dow and onto the highway. project north of Old Glory, in the rough breaks of the Salt Fork of the Brazos.

What it will eventually a mount to remains to be seen. But there are many people who are familiar with the country and its early history who say the discovery of gold is merely proving up legendary stories of mineral riches in that area.

First ranchers and settlers coming to the area found evidences of mining operations along the Salt Fork near Kiowa the word only in all possible Peak, and that area has always been a magnet for treasure seekers.

Some earlyday attempts were made at mining in that section, but none ever proved profitable and were abandon-

G. W. Reese of this city lived on a ranch in that area 52 years ago, and he recalls some of the mining attempts and treasure seeking expeditions which frequently came into

he country He recalls that his brother, now 92 years old, worked on a mining venture near Klowa Peak when he was a youth of

W. C. (Crawford) Allen, now living in Denver City, was in northwest Haskell County and heard many of the legends of old Spanish mines in that area when he was a boy. He hired out when a young man to help dig for supposed ly buried treasure around Kiowa Peak, but the promoters ran out of money and digging halted without any treasure being found.

Letters From Our Readers . . .

The Women Speak

The Dorcas Sunday School Class of the East Side Baptist Church met in the home of Mrs. Ocie Garrett Friday eve-It's time to wake up! Do we want to progress? Or, Do we want to be against ning, March 31, for their six everything the way some of the weeks business and social leaders of this community would have us be?

Mrs. Garrett presided in the The women of the town could absence of the president. Louise Smith, who was unable do a better job of understanding and managing the affairs to attend. Group captains were of the city. They are concernelected and a new social comed . . . why, if they managed their homes as the city has Mrs. Lillian Banks led in been lately what kind of homes prayer and brought the devowould we have? tional from the 20th chapter

It takes only a small amount of reasoning to realize that something that has been voted after many hours of work and quite a bit of expense on a project such as the North Centes, Fritos, cookies and punch ral Texas Municipal Water Au were served to two visitors, thority and then abandon it Mrs. Alma Collins and Little Vicki Taggart of Abilene, and members Mrmes. Alta Harvey, No matter how one felt at

first, or even a year or so ago -think of the expense, the money wasted, just thrown away-if this project is not com-pleted at this stage.

Fought, Lillian Hodgin, Marie Smart, Beunis Faye Shelton, Bessie Melton, Miss Nelda The idea of going to Lake Rose, our class teacher, Mrs. Stamford presented to the people now! What do they have to offer us? "They" are the cnes who say "we can go" and expect you to accept their statement without question.

A reliable source has it straight from Stamford that there has been no such thing as their contacting them concerning this.

will let Haskell have water at any FIRM PRICE. Those fighting the project go on the assumption Haskell can get what we would have to pay Mrs. Georgia Mae Fouts was fighting the project go on the hostess for a meeting of the assumption Haskell can get assumption Haskell can get Stamford water on the same March 28, at the Fouts cabin at the lake. Members combinbasis and for the price quoted several years ago.

Even then we could not go to Stamford without an ad valorem tax. Do you people know that this would cost more per month than the Miller Creek plan? It would be far too much.

It is time to find out the TRUTH and not go on these sion, officers gave their reports FABLES of false ideas of some and other routine business was of these people who want to transacted. Mrs. Fouts receiv- keep Haskell the same as it has always been.

Wake up! You cannot stand still-we either go forward or backward. We of the younger genera-

tion want to build a better town for our children and our grandchildren. How can

Delia Ashley, Clara Parks, Thalia Jenkins and the hostess, Association WMU Meeting April 11 At O'Brien

BELTS TO FIT ALL CARS

Batteries for all cars, Delco and Remy, and service for any make. Any brand of oil, filters for all cars, and motor detergents. We

one have any faith in people who are always the "again-

Let's rise up and do what is best for future generations. It takes money to make money. If we let this opportunity pass and lose the water rights on Miller Creek, then we'll be in the same boat as we were when we lost the Paint Creek water rights to Stamford.

We have a chance to sell water to other towns, to oil companies, etc. (Think of the man with the talents). Let's not bury our talent, let's let it make other talents! We can have many more opportunities if we have the lake.

It would be utterly imposs ible for us to go to Lake Stam ford on a revenue bond, i would make the cost of water prohibitive! Wake up, people of Haskell, and avail yourselves of the information you need.

Do not be railroaded into a failure to do what is best for the town. Don't let Haskell be in the position that Rotan is in today. They pulled out of the Sweetwater and Roby deal thinking they could get water cheaper by buying it. Now they can't get water there at any price and are having to have a Legislative bill passed to create a new district in order to get money to go to Lake Thom as near Snyder-which is go-Stamford has not said they ing to cost them much more

> Stamford for water. They would be in a position to ask their own price. Then we would find ourselves in the same place as Rotan.

Think, people, think! It's la ter than you realize! Can people be so naive as to be led into believing that it would be best for the TOWN to DIS-SOLVE the NCTMWA? Can people really be honest with themselves and to the community when they will not avail themselves of every opportunity of obtaining the informa - THE TRUTH - of this project, and not be swayed by all the false information that has been flaunted before the people with no grounds for it.

Has this become an obsession with a few who can NOT be for anything-but always AGAINST everything? Why can't they let the ones who want to help improve our community do something? The least they could do if they don't want to go along is not to fight EVERYTHING any one else tries to do.

We women would like to have a chance to have our hand at this. We firmly believe that we would be for "going ahead" or progressing instead of fighting and tearing down everything that is presented.

What's the matter? Is it that these people didn't have their 'fingers in the pie?" Sounds like a lot of spoiled kids-not having their way so they want to tear it down. Looks like they need a spanking! That's what we mothers would do if they were our children!

Spring Clean-Up Most peaple find the attic is the most logical place to start

ibles you may have stored there. You may have old magazines you no longer want.

The same holds true for any discarded old clothing, bedding, broken furniture or other combustible trash you may have placed there. The Kitchen

As part of your Spring Clean-Up job, give the range a thorough cleaning. Remove grease from the broiler, oven and burners if it has collected there. And make a note on your kitchen memo calendar to clean the range frequently.

If you have curtains at the kitchen windows, and the windows are near the stove, make sure that the curtains are fastened so they will not blow over the flame. The same holds true for towels. The wall towel rack should be in a place where there is no chance of the towels blowing over the burners.

In the kitchen, also check the cords on electrical appliances, such as the toaster, waffle iron, coffee percolator, electric grille or rotisserie. Avoid use of multiple at

tachment plugs. And see that there are plenty of outlets so that you do not overload the circuits. Always use 15-ampere fuses on household lighting circuits.

If a fuse on an electrical circuit continues to blow, something is wrong with either the appliance or the circuit, and a careful check should be made of the appliance and wiring. A closed metal wastepail is best for the kitchen because

it will not burn. Check the position of your television set. It should be in a place where there is enough space for proper ventilation around it.

START NOW !!!

What You Can Do For "Clean-Up Week"

CITY--WIDE CAMPAIGN

- 1. Clean out basements, attics, garages, etc., of things that might be a fire hazard.
- 2. Clear your yards or lots of all rubbish.
- 3. Trim shrubbery, hedges, etc. Repair and paint fences.
- 4. Clear off any vacant lots or space you are going to to use for gardens. Plant a border of flowers next to the street.
- 5. In business section, keep windows and sidewalks clean, rear entrances free from unsightly rubbish.
- 6. Don't throw garbage or refuse of any kind in back yards, or vacant lots.
- 7. All garbage and trash should be put in boxes or containers for easy pick-up and placed in accessible location.

PLEASE HELP CLEAN UP YOUR CITY!

City Council City Of Haskell

Repairing, remodeling or rebuilding anything in your home is a lot easier than you think. Just a little common sense, a right choice of tools and quality material is all it takes.

So be a real "handy man" in your own home . . . Buy materials you need from SPENCER LUMBER CO. and see how easily you can put your home in good shape.

Did you know Gasoline is Taxed at a Rate 5 Times as High as Diamonds?

IN TEXAS, YOU PAY 90 TAX ON 10 GALLONS OF GASOLINE

Gasoline taxes will be loweredif the latest temporary Federal gasoline tax increase expires on June 30th as scheduled by the 1959 Federal Highway Act.

Along with all good citizens, we are in favor of building the roads that the motoring public needs. But, in the last 10 years alone, Federal and State taxes nationwide on gasoline have skyrocketed 51% - skyrocketed to a point where gasoline, a basic commodity, is actually taxed at a rate five times as high as luxuries like diamonds and mink coats.

Must gasoline taxes be so high? Most people believe that gasoline taxes are high because the money is needed to pay for our national highway program. This is not so.

The fact is that out of every highway-user tax dollar collected last year by the Federal government, more than 40 cents was diverted to non-highway purposes.

If these highway-user tax revenues were spent for highways-as they should be-gasoline taxes could be lowered, and the highway program given a boost.

In fact, the Federal-Aid Highway Act of 1959 provides that when the added temporary Federal gasoline tax expires on June 30th, 1961, as scheduled, some \$802 million a year in highway-user taxes-now diverted to the U. S. Treasury's general fund-will instead be deposited in the Highway Trust Fund.

As a result, if the latest Federal temporary gasoline tax

increase expires on June 30th as scheduled-the national highway program will actually get \$225 million more each year than it now receives from the latest Federal temporary gasoline tax increase.

In January of this year, after an exhaustive 2-year survey of national transportation policy, a special U.S. Senate study group confirmed the wisdom of this decision.

This will be good news for you. You will be able to enjoy a steadily improving highway system, at a lower gasoline tax-rate.

HERE ARE THE FACTS ABOUT TODAY'S HIGH GASOLINE TAXES

- In Texas, you pay 90¢ tax on 10 gallons of gasoline.
- You pay 9¢ tax a gallon—4¢ in Federal taxes plus 5¢ in State taxes.
- Gasoline is taxed at a rate 5 times as high as diamonds.
- The average Texas motor vehicle owner pays \$78 a year in gasoline taxes.
- Since 1951 there have been three increases in the Federal gasoline tax alone.
- In the last 10 years, gasoline taxes nationwide have skyrocketed 51%-yet the nationalaverage price of gasoline itself has risen only 5.5% during the same period.

The Gasoline You Buy Is Taxed Too High!

send this free booklet to industry leaders mother step in our area development program

THE business of West Texas Utilities Com-pany is growing because the area we serve is

But our plant expansion is growing faster than our business. That's because we work hard to stay ahead of the additional area growth we are convinced is coming.

To stimulate even more growth, we are engaged in an extensive program designed to invite new

industry our way.

The campaign includes an advertising schedule in national publications, personal visits to industrial areas, development of statistical data, and area booklets such as the one shown above. This is one of the ways we work with and for our communities to assist in local development. We do so with enthusiasm and vigor because of our conviction that this area faces GROWTH. our conviction that this area faces GROWTH UNLIMITED.

WHEN YOU BUY SEED

See the HASKELL WAREHOUSE COMPANY at Haskell, Anson, Hamlin or Rochester. This year plant only quality seed. It costs only a few cents per acre to have the best.

THE HASKELL WAREHOUSE COMPANY

offers this year

"610 HYBRID MILO"

That is Triple Treated and Fertilized to give it the quick growth that milo needs.

With this seed you will eliminate the stop growth period of 5 to 10 days you have always had in your milo crop. Ask us about this seed.

We have the largest stock of Field Seed in West Texas . . . See us for all types of Grass Seed.

We have a complete line of chemicals for weed control in milo, wheat, oats and barley. Also all types of fertilizer.
