American Legion and Auxiliary Banquet

Second Annual Armistice Day Banquet of McDermott Post Held—Underwood Talks

The Second Annual Armistice Day Banquet of the McDermott Post American Legion and Ladies' Auxiliary was a highly successful and greatly enjoyed occasion. More than eighty members of the two organizations, together with a number of friends gathered about the banquet table spread in an inimitable manner by the ladies of the Christian church in one of the Montgomery buildings on south side, the comfort and good cheer being accentuated by a storm of lightning and rain which blew up about the time the festivities began.

The principal address of the evening was made by R. A. Underwood, business man of Plainview, who struck a happy vein and in a thirty minute address not only paid tribute to the ex-service men and legionnaires but told of the hopes which the American people have centered in their returned soldier boys. E. C. Nelson, Jr., commandant of the Post, acted as toastmaster for the occasion. Mrs. T. R. Webb gave a reading not on the regular program, "The Seven Ages of Man," which was greatly enjoyed. The High School Orchestra, composed of Mark Duncan, Macyl Burke and Herbert Hicks, with Tate Fry at the piano, rendered a number of popular and patriotic numbers for the assembled guests.

Opening his address with the declaration that the mercenary spirit among our people should be so controlled that the whole nation will stop each year for 24 hours to pay tribute to the men of '18, Mr. Underwood pled for a thorough annual observance of November 11th as a national holiday. Paying tribute then to the American Legion as the greatest of ex-service men's organizations the speaker said that while the glories of past wars rested on the heads of the few, the glories of the World War, so far as America's participation in it is concerned, are collective glories and that the people of the nation seemed disposed to crown the heads of all its sons who went forth to battle.

What the service men are thinking, what their desires are, what they think the nation should do to show appreciation for a fight so nobly fought and won, Mr. Underwood declared among the things which are now puzzling the minds of American people who were not in the World War Army. That there is a gap in between the ex-service men and the people generally, a gap of lack of understanding, was pointed out at one period of the address, in which he declared that the American people are yearning for an opportunity to show their appreciation of their ex-service men, when it shall be made clear to them what form this appreciation should take. Addressing his remarks particularly to those members of the Legion who had borne the brunt of the fighting Mr. Underwood pled that they not be too hasty in their judgment of the national feeling toward them until such time as the ex-service men themselves should have arrived at a complete understanding among themselves as to the attitude the American people should take.

As a closing tribute to the Legion Mr. Underwood declared that America is expecting great things of its returned soldiers and sailors. It is up to these men to bring the country out of its turmoil and despair, and point the way for a still-dazed and benumbed world to still greater things in the paths of peace, prosperity and understanding among the nations.

The program arranged for the evening was as follows:

- Legion Hymn.
 - Invocation—Chaplain.
 - To our country—T. R. Webb.
 - To the ladies—T. P. Collins.
 - Piano solo—Tate Fry.
 - To the Legion—Mrs. Clyde Davis.

RAINS EAST AND SOUTH OF FLOYDADA TO GULF

Reports indicate that all of Texas from a few miles east and twenty or thirty miles south of Floydada to the Gulf of Mexico have had excellent rains, the only real dry section of the state left being the territory extending westward and northward from this place.

At Abilene private reports state that about three inches of rain have fallen in the last two weeks, and Saturday night the rain was one of the most general to fall the past several months in Central North Texas, reports state.

A peculiarity of rainfall in west Texas was shown Saturday night. On the square in Floydada just enough rain fell to dampen the pavement good. East of town a mile a quarter of an inch fell and four or five miles out a half inch or more fell, getting heavier eastward.

WARD FILLING STATION MAKING IMPROVEMENTS THIS WEEK

The Ward Filling Station is making some added improvements this week. Two new ten gallon visible pumps are being installed, the old driveways are being widened and a new one added.

The work when completed will add to the appearance of the station and will give better facilities for handling the business.

J. E. Ward, owner of the station, spent the fore part of the week visiting with W. G. Paschall, the manager.

Miss Wilma Delaho of Plainview visited over Sunday with Mr. and Mrs. I. M. Pittman. Miss Delaho is a cousin of Mr. Pittman.

Good Premium List For Poultry Show

22 Varieties of Chickens Included in List for November 30th-December 2nd at Floydada

Plans for making the Floyd County Poultry Show to be held in Floydada November 30th, December 1st and 2nd, the biggest and best that has ever been held on the South Plains are under way. The premium list has been prepared and practically all of the money necessary to pay the expenses of the show and the premiums has been subscribed.

Twenty two varieties of chickens are listed in the premium list, and another miscellaneous class covers any other variety that may be shown. Premiums for ducks, turkeys, geese and bantams are also provided. In each variety of chickens, the first premium for the best cock, hen, pullet and cockerel is one dollar respectively and second prize fifty cents. A prize of two dollars for the best pen, old and young respectively is offered with a second prize of one dollar. Ribbons will be awarded for third, fourth and fifth prizes. In addition to this premium list a number of special prizes are being offered by different individuals.

The A. D. White Produce Company is offering a prize of one dollar for the best cock in each class.

The premium list was arranged by T. Scott Wilson and Oliver Allen, and the finance committee composed of A. D. White, R. E. Fry and Maury Hopkins made a canvass of the business district and raised the money necessary to put on the show. Lockney will also contribute to the expense and a subscription list is being circulated there this week. Last year the show was held at Lockney and will probably be held there again next year.

The show will take place probably in the A. D. White Produce building, and suitable show coops will be obtained. A very large number of entries is expected according to Secretary Oliver Allen of the Floyd County Poultry Association who has the details of the show in hand. Something over one thousand birds are expected and a large attendance seems assured for the entire three days.

Floydada Hi Wins District Football Championship; Beats Plainview Bulldogs 16 to 0

1,300 People See Thrilling Armistice Day Game for District Football Honors

Floydada's "Whirlwind Team" swept the Plainview high "Bulldogs" off their feet in the battle for district honors at the game played here last Saturday and won 16 to 0. The Floydada team took the offensive from the very beginning, when Nelson completed a pass and raced for a touchdown in the first fifty-five seconds of play. The Plainview boys played a clean game and were good losers. Although hopelessly defeated they held on and fought like demons to the very last trying to overcome the lead that had been piled up by the Floydada warriors.

Floydada scored all of their counters in the first half. They made two touchdowns, a field goal, and kicked one goal. Plainview tightened up and in the last half the ball was seen-sawed from one end of the field to the other without either team being able to score. Floydada was content to hold their opponents in the last half and they held them well, indeed. Plainview tried desperately to score via the aerial route in the last quarter but the Floydada team broke them up time and again.

As the final score indicates, the Floydada eleven worked as a perfect machine and to select from it the individuals that showed up best would be almost an impossibility. Every man on the team did himself proud and each one could be mentioned as an individual star of the game. Nelson was the most consistent ground gainer for Floydada and might be selected, if that could be done, as the one winning stellar honors. Maurice Burke's passing and punting, Eubank's defense on passes, and Henry's tackling all showed up well. The same could be said of every member of the squad for each one filled his position with perfection.

The largest crowd that ever witnessed a football game in Floydada was out to see the "Whirlwinds" sweep out to victory. There were between twelve and thirteen hundred spectators. Much interest was taken not only by Plainview and Floydada but also by many of the adjoining towns as well. Plainview sent a large caravan of autos loaded with fans and their 30-piece Chamber of Commerce Band, which paraded the downtown section before the game and took a prominent place in the Plainview section of the side lines. Tulia, Lockney, Matador, Ralls, Lubbock, Silverton and other neighboring towns had delegations of people here to see the game.

The parade in the downtown section, staged by F. H. S. pupils at 2:30 got a lot of laughs from the crowded thoroughfare of people. Floats and cars, mostly ludicrous joshes at Plainview, were among the stunts used.

After the game Jno. L. Boswell, secretary of the Plainview Chamber of Commerce, who had charge of the band and has been an enthusiastic backer of the Plainview high squad offered his congratulations and declared the game one of the cleanest he had ever seen. "Floydada won the district honors fairly, and now that we're out of the running, Plainview is for Floydada from the first inter-sectional game you play to the final elimination at Austin. Wherever your boys may go to represent the district you'll find some of us there to root for you."

The game by play: First quarter: Eubank, acting captain for Floydada, lost the toss and received at the west goal. Maurice Burke received on his own 15 yard line and returned 12 yards. The ball was put into play by a line plunge that failed to gain. Maurice Burke then stepped back, passed perfectly to Nelson who completed and raced for a touchdown, a distance of 73 yards. Nelson failed to kick goal.

Maurice Burke kicked off to Tudor of Plainview who received on the 15 and returned 20 yards. They tried a pass, failed, and then made first down on a line plunge. They added 16 more on line plunges and then failed to make downs. Floydada's ball on the 61 yard line. Maurice Burke made 7 yards around right end. Nelson failed to gain on a line plunge. Loran lost 2 yards on a short left end run. On the fourth down, Maurice Burke punted. The ball rolled out and it was

Insurance Commission To Re-Rate Floydada

New Ground Tank of 200,000 Gallons Under Construction will Complete Water Improvements

With the completion of the new ground tank as a part of the city's reserve source of supply against conflagrations, which will have a capacity of 200,000 gallons of water, the city will have finished the additions and betterments started last spring on the waterworks system. This work will be completed within the next month, it is believed, and the city will then be in position to ask a re-rating by the State Fire Insurance Commission, which will amount to a re-classification, so marked will be the number of things for which the town will be entitled to take credit on fire risks.

According to the estimate made by Mayor R. E. Fry and the council the present key rate of 58 cents ought to be reduced to about 40 cents, the city having not had credit for the additions and improvements already made. The commission advised against this suggesting a complete re-rating when all work had been finished.

If the 18 cents reduction in the key rate is obtained, as expected, City Clerk Maury Hopkins declared yesterday that the saving effected by reduced fire insurance rates would equal the interest and sinking fund charges on the outstanding indebtedness against the waterworks improvements. The insurance valuations in Floydada are approximately the same as the taxable valuations—about one and a half millions—which means that a citizen, instead of paying out his money for insurance will pay it into the interest and sinking fund for the waterworks system debt, the saving on insurance equalling the added expense in taxes.

These were some of the matters gone over fully at Tuesday night's regular meeting of the City Council. R. F. Brown, who succeeds V. J. Burke resigned, as alderman, was sworn in.

Among the savings for which the city has already gotten credit on fire insurance is that of a night watchman. Credits on fire insurance is more than paying the salary of the watchman, it was pointed out in this meeting.

That no opportunities will be overlooked to get credit for everything possible in the re-rating, which will be done during the next quarter of a year, is indicated by the fact that the Chamber of Commerce is going to cooperate with the city to obtain a thorough laundering for public and private premises throughout the city limits. "We want to have the town polished up bright when this inspector gets to Floydada," Mr. Hopkins said, "and the Chamber of Commerce is going to put it up to the people of the community on a strictly dollars and cents basis to make the clean up thorough."

CHRISTIAN CHURCH SERVICES

Following are the announcements
for the Christian Church for the week
beginning November 19th:

10:00 a. m.—Bible School.
11:00 a. m.—Preaching "Things
that Make a Church Great".

3:00 p. m.—Church conference.
Every member of the congregation is
earnestly requested to be present at
that hour, as the work for 1923 is to
be considered. Do not think that your
absence will not matter. It may mat-
ter a great deal.

7:15 p. m.—Preaching. "Why I am
not a Christian Scientist." This is the
first of a series of Sunday evening
sermons dealing with the following
cults: Christian Science, Catholicism,
Mormonism, Russelism, Spiritualism,
etc. A cordial invitation is extended
the public to hear these discussions.

Friday, 7:15 p. m.—Prayer meeting
and choir rehearsal.

"What kind of a church would my
church be,
If every member were just like me?"

These lines rhyme well, surely. They
jingle like bells. Repeat them, sing
them, whistle them. Everyone "just
like me." Such a church ought to
please me. Would it please the Mas-
ter? What kind of a prayer meeting
should we have? Every member just
like me. How about the Bible school?
And the church treasurer? How much
money would he have? "Just like me."
What would the unconverted think
of such a church? How soon would God's
will be done on earth as it is in
heaven? Think on these things.

W. T. COCHRAN, Pastor.

Further relieving the congestion in
pasture surrounding Floydada, where
hundreds of head of cattle have been
for several weeks awaiting receipt of

Monday and were loaded out Tuesday
morning with cattle from local dealers
and raisers. About 1,300 head of cat-
tle were shipped.

California, New Mexico, Illinois and
Deaf Smith county pastures were con-
signed the bulk of these cattle but the
Kansas City market got a few of
them. Armstrong & Jenkins were the
heaviest shippers.

nesday night of last week while be-
ing operated upon.

Dr. M. F. Husky, of this city, was
called Thursday morning to conduct a
post mortem examination and found
the cow apparently normal in every
particular, except for punctures in the
heart, apparently done with a probe
in the hands of inexperienced persons.

S. A. Guy, the owner of the cow,
was deeply affected by the untimely
end of the prize cow of his herd, and
expressed bitter indignation over the
situation.

SHERIFF'S SALE

THE STATE OF TEXAS,
County of Floyd.

By virtue of a certain order of sale issued out of the Honorable District Court of Floyd County, on the 21st day of October, 1922, by G. C. Tubbs clerk of said court against G. H. Thompson, et al. for the sum of six thousand fifty six and 73-100 (\$6,056.73) Dollars and costs of suit, in cause No. 1417 in said Court, styled H. C. Pearson versus G. H. Thompson et al. and placed in my hands for service, I, J. A. Grigsby as sheriff of Floyd County, Texas, did, on the 23rd day of October, 1922, levy on certain Real Estate, situated in Floyd County, described as follows, to-wit: The northwest quarter (N.W. 1-4) of survey No. Twenty-nine (29) in block C, Certificate No. Sixty-Nine (69) H. & O. B. RY. Co. situated in Floyd County, Texas, and levied upon as the property of said G. H. Thomason, John Allen, Jr., J. H. Spann, Mrs. H. B. Simpson and husband H. B. Simpson and the unknown heirs of H. D. Burton deceased. And on Tuesday, the 4th day of December, 1922, at the Court House door of Floyd County, in the town of Floydada, Texas, between the hours of ten A. M. and four P. M. I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said G. H. Thomason, John Allen, Jr., J. H. Spann, Mrs. H. B. Simpson and husband H. B. Simpson and the unknown heirs of H. D. Burton deceased by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Floyd County Hesperian a newspaper published in Floyd County.

Witness my hand this 23rd day of October, 1922.

Sheriff Floyd County, Texas.

TIME FOR VOCATIONAL TRAINING APPLICATIONS OUT SOON

Geo. A. Lider, director of the Home Service Section of the American Red Cross for Floyd County Chapter has received advices indicating that the time in which application may be made by ex-service men for vocational training will expire in December, only about one month in the future. It is Mr. Lider's idea that those service men who are entitled to vocational training, or who may think they are entitled to this training should make application at once. Applications should be made direct to the U. S. War Veterans' Bureau, District 14, Dallas, Texas, or they may be made through Mr. Lider, though there is no advantage in making the application through him, he states.

For the benefit of those ex-service men who may desire to take advantage of the opportunity thus presented, the following information is given as coming from the Veterans' Bureau:

"The act making appropriations to supply deficiencies in appropriations for the fiscal year ending June 30th, 1921, and prior fiscal years, and for other purposes, approved June 16th, 1921, contains the following provisions:

"That any person entitled, under provisions of the Vocational Rehabilitation Act as amended, to take vocational training, must make application therefor within eighteen months from the date of the approval of this act." No application for vocational training, under the Vocational Rehabilitation Act, can, therefore, be considered and training furnished by the Bureau, unless such application is submitted on or before December 16th, 1922.

Bureau's Interpretation: "The application for vocational training of any disabled ex-service person will be interpreted in written application or communication from such person, expressing a desire for vocational training under provisions of the Vocational Rehabilitation Act, or the receipt of

any of the forms which are in use, or have been in use, to record the facts concerning applicant, whether such forms have been filled out by the applicant himself and returned, or whether such forms have been filled out by a representative of the Bureau while interviewing the applicant, provided that in all cases such forms bear the signature of the applicant. If any applications from disabled ex-service persons are received on or subsequent to December 16th, 1922, they will be given consideration on their merits, without regard to the time limitation, or if such applications bear a post mark showing clearly that they were mailed prior to or on December 16th, 1922, or other acceptable evidence is presented, showing conclusively that such applications were mailed on or prior to December 16th, 1922."

The above statements speak for themselves, and clearly outline the limitations to be recognized by the Bureau. I interpret the above paragraph to mean that this application, bearing a date or post mark prior to December 16th, 1922, must be received officially at the District Office, or any of the Sub-District Offices, or be in the hands of an accredited staff Member, working out of the District or Sub-District Offices, and that no consideration can be given to any applications that do not fulfill the above requirements. I further interpret the above statements to mean that nothing further is necessary than the simple statement that the prospective trainee desires training or to be considered for training. It is not necessary that such person be actually in training by the date specified.

Because of the fact that many men will otherwise be "out of luck" unless the above facts be given wide publicity I would suggest that a publicity campaign be inaugurated immediately through every possible agency, so that the otherwise eligible claimants for training may have a fair warning as to what is ahead of them unless they comply with its provisions.

MAYFIELD'S MAJORITY IN FLOYD COUNTY IS 12

Earle B. Mayfield, Democratic candidate for United States Senator, won over his opponent, Geo. E. B. Peddy in Floyd County by a majority of twelve votes, according to unofficial returns tabulated in The Hesperian office Monday morning. Totals were incomplete until returns were received from Goodnight, the new voting precinct in the northeast part of the county, where eight votes were cast. Returns from that box were made Monday morning by J. W. Taylor.

The report from Goodnight also made complete tabulation on the Commissioners' race in precinct No. 4 possible. These unofficial figures give Orman better than a two-to-one majority over his Republican opponent, Bradley Yeary. The figures are Orman, 54; Yeary, 23.

The vote for senator in Floyd County by precincts, together with the vote for governor is given here-with:

CALIFORNIA TO TEXAS TAKES 6 DAYS OVERLAND

Mrs. N. A. Armstrong and daughter, Miss Doris, and Mr. and Mrs. Flynn Thagard reached Floydada last Saturday afternoon from Los Angeles, Calif., where they had been several weeks on a vacation trip.

They left Los Angeles in the afternoon at two o'clock, and reached Floydada at 4 o'clock on the sixth day, being one hour less than six days on the road.

They returned by the southern tourist route.

PADUCAH PILES UP BRUTAL MAJORITY AGAINST LUBBOCK

Paducah High School football squad piled up a brutal majority against the heavy Lubbock high school football team Armistice Day at Paducah, making score of 34 while they held Lubbock scoreless.

A number of the Lubbock boys were injured in the game and altogether had a very hard run of luck on their visit to the Cottle county capital.

The ease with which Paducah beat the Lubbock boys was probably due in some measure to the fact that the Lubbock boys made the trip of 126 miles by auto, reaching the playing field 20 minutes after time for the game to begin. However, this does not detract from the fact that Paducah has one of the speediest football machines of any school in the district.

GIVEN FAREWELL SHOWER

Rev. and Mrs. C. B. Meador were given a farewell shower at four o'clock last Thursday afternoon by the Methodist ladies and friends.

Many beautiful and useful gifts were received showing the deep appreciation felt for their good work and many acts of kindness done during their stay here.

Bro. and Sister Meador departed Friday morning for Abilene where they will make their future home.

It is always considered the best of sense and economy to frequently examine the sewing machine, the mowing machine, the automobile and other machinery to see if there is need of adjustment or repair, that they may continue to be serviceable. How different the most of us treat the most complicated of all, the great Human Machine. Some people are so unjust with themselves as to believe that they can and go on forcing their bodies to work until they find they live to, "Three score years and ten" without rest or adjustments and go on forcing their bodies to work until they find they have wrecked their physical machine, health shattered.

Let a competent CHIROPRACTOR look over your HUMAN MACHINE and see if it needs repairing or adjusting.

FITTING FOWLS FOR THE SHOW ROOM

By F. W. Kazmeier
(All rights reserved)

In nearly every case the bird that has received the proper care and training has a much better chance of winning the "blues" than one picked haphazard from the pens. Selections should be made at least six or eight weeks before showing. In selecting the fowl, first see that it has no disqualifications, such as feathered shanks, feet or toes in the clean-legged varieties; lopped combs in the straight comb varieties; wry tails, crooked backs, side springs on all single comb varieties—deformed heads, incorrect number of toes on four and five toed varieties of fowls, and as the American Standard of Perfection has it, "any positive white in the face of Mediterranean cockerels and pullets" except White Faced Black Spanish. Every poultryman who desires to exhibit some of his best specimens can make no better investment than buying a copy of the latest American Standard of Perfection to be had from most all agricultural papers and poultry journals, or by addressing the American Poultry Association of Ft. Wayne, Indiana.

To show to advantage the birds must be in perfect condition, and must have been so handled that they are not "coop shy" and are not disturbed by the inspection of visitors or the handling of the judges, but will pose and show themselves to the best advantage. This can most easily be done by constructing an exhibition coop, being careful to make it large enough, and high enough so the tail feathers will not be injured. Build it of slats or poultry netting with the front so arranged as to facilitate the easy and quick removal of the bird without injuring the plumage. Then make it a rule to handle the bird often and in time the wildest will become tame and docile and will actually pose to the best advantage when the judge comes around.

Remember all show specimens should be reasonably fat. Therefore about two weeks before the show, examine all birds and fatten those below standard weight. Lean raw beef and hard corn, with scalded milk to drink will add between a half pound and a pound rapidly to a chicken. If some of your best individuals are too fat and as a result would be cut for overweight in the show room, this can easily be remedied by putting them on a fish, bran and oats diet, with cabbage for green food and make them exercise.

One of the first things to do is to go over the plumage of the bird and pluck out all broken, stained and foul feathers, so that new ones may grow in time for the show. This is not faking, but simply preparing the bird so that it will show to the best advantage.

"Washing the Birds"

Most all colored varieties look much better when washed properly but for white varieties, it surely is necessary. If washing is done improperly it would be better not done at all. A poorly washed specimen does not show up as well as does one not washed at all.

In washing the birds have three tubs. In the first tub, the real washing is done and a large amount of soap should be used in this water. The second tub is filled with clean, luke-warm water, and deep enough so the fowl can be submerged. The third tub is filled with cool water, which has been blue'd as women blue the

water for their white linen wash water. In washing, thoroughly soap and lather to the skin and have it on long enough to cut out all dirt in the plumage. Then remove to the second tub and by gently rubbing the plumage with a large sponge, remove every particle of soap. If the plumage is left at all soapy, the feathers will not web out to their normal condition, and will catch dirt and will cause the bird to look worse than if not washed at all. Always wash with and rub with the feathers, never against them.

Finally, plunge the bird three times into the third tub of bluing water. The fowl should then be allowed to drain and shake itself. With a towel press out as much water as possible. Next the bird is rolled up in a woolen blanket and placed near a coal fire in a very warm room. If the feathers show a little creamy, after being dry, rub these parts with pure peroxide of hydrogen. If considerably creamy, take the bird as soon as dry and wash all over again in a tub of equal parts of peroxide of hydrogen and luke-warm water. It is surprising how peroxide of hydrogen will color or bleach a creamy fowl.

The color of a white feathered fowl can be improved considerably by sprinkling some corn starch over the feathers and working it well down into the plumage. Do this as soon as thoroughly dry being careful not to use too much.

The legs should be cleaned thoroughly and all dirt removed from underneath the scales, using a common toothpick (wood) and a stiff brush. Use a little vaseline to brighten them up, by rubbing a little of it with a soft rag upon them.

The comb, wattles and earlobes should receive a thorough washing, and then an application of glycerine to brighten them up and bring out that rich bright red color. Rub and wipe off all surplus glycerine.

Feed well, handle carefully and often to get them tame and make them show up more naturally when the judge comes around.

A female fowl is in its best show condition when it is ready to lay its first egg. A male bird is in its best

TOWN FOR PROPOSED ALL-PANHANDLE FAIR TO BE CHOSEN

The second regional meeting of the Panhandle-Plains Chamber of Commerce will be held at Hereford November 21st at 2:00 p. m.

President Sam Braswell states that this will be one of the most important meetings to be held by the organization. The matter of selecting a town for the proposed All-Panhandle Fair will be definitely decided upon. Reports from the various standing committees as to progress made will be heard.

The last regional meeting held at Tulia, October 19th was the most successful in the history of the organization. 102 delegates and directors, representing practically every town in the Panhandle-Plains section, were present. President Braswell is expecting this meeting to be even more largely attended.

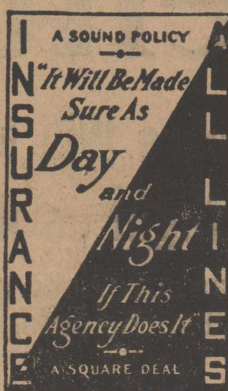

As a courtesy to the delegates coming through Amarillo it is understood Amarillo will provide transportation to and from Hereford.

Olin S. Miller and family spent Saturday and Sunday in Floydada visiting relatives. They are making their home at Irick, where Mr. Miller is principal of the school.

condition just about the time it is maturing. Sunflower seed give an elegant lustre to the plumage. Feed a little of it the last three weeks before the exhibition.

Do not feed very much yellow corn to your white show birds because fat has a tendency to give the plumage a creamy appearance.

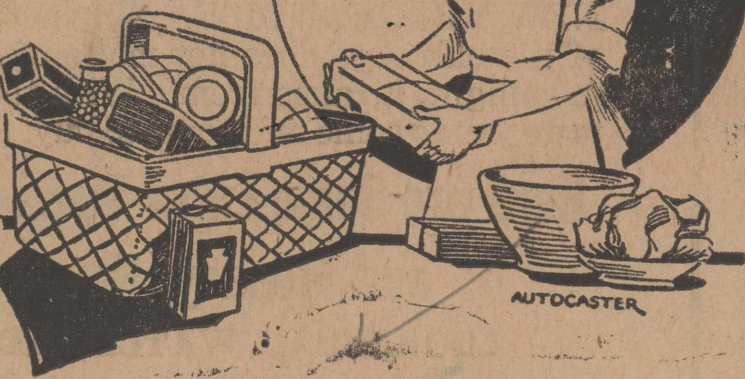

Minor defects, such as slight flecking of a white fowl, I believe, should be removed, and you can do it without hurting your conscience. Some say they do not do it, but I have been in the business long enough to know that all white plumage fowl exhibitors, if they find any flecked feathers, they say nothing, but simply jerk that insulting spot out. It is a lot better to do it than to bring inferior specimens to the show room.

GOOD SHOWER FALLS IN PORTIONS OF FLOYD COUNTY

A good shower fell over portions of Floyd County Saturday night, a few minutes of hard rain falling in Floydada. East of town the shower amounted to half an inch for several miles.

The rain was also heavier southeast of town. It gave further moisture to young wheat just looking through the ground.

LOCAL STORE SERVES LUNCH TO OUT-OF-TOWN TRADE

A local store had an unusual feature Saturday of this week, when between 700 and 800 persons were served sandwiches, cake and coffee in the balcony of the Martin Dry Goods store at the noon hour.

One estimate of the number of people served at the luncheon put the figures at one thousand. The idea was a novel one and apparently met with approval on the part of the out-of-town trade.

The firm has been using an orchestra in the afternoons during the past ten days of their sale. Buying dry goods to music has also been a novel experience to many of the customers of the house.

ARMISTICE DAY CROWDS ENJOY BIG DAY IN FLOYDADA

Saturday, Armistice Day, was a big one in Floydada and was the occasion of a large crowd of out-of-town visitors here. Business houses closed at 2:30 to give clerks and sales forces an opportunity to see the football game, but the holiday aspect was assumed much earlier in the day.

At eleven o'clock the fire alarm and whistles over town were turned loose and bedlam reigned for a few minutes, reminiscent of the day four years ago when the war was declared at an end.

Stores with gay bunting and flags took on a holiday appearance and the crowds in jolly good humor "milled" about. Although stores were closed from 2:30 to 5 o'clock practically every firm reports a brisk business before and after closing hours, which amounted to a normal week-end business.

CITY VALUATIONS FOR 1922 TAXES RUN \$1,553,479

With 100 per cent collections the gross revenue from taxes in the city would be \$20,971.96.

Mrs. B. P. Woody returned Wednesday of last week after a few days visit to Girard. She was accompanied home by her sister Mrs. E. H. Wade who will visit here for a short time.
