CLARENDON TEXAS HAS NATURAL FREAKS

A recent issue of the Panhandle Herald recounts the fact that a minature earthquake happened in the new oil field near there in March, 1917. Since this announcement has been made, local old time citizens are able to recall a number of similar instances of where the earth became "freaky". Several years ago a large body of land amounting to several acres sudednly sank some distance east of Memphis. A bunch of cattle had been held on the particular spot the night before, and the cowboys of that early day were dubious of traveling over that section for several years. Again just a few years ago a small body of land sank in the field o fChas. Johnson's ranch some fifteen miles southwest of town. Right near town to the northwest may be seen a large sink in the Dr. Gray place. Large trees are to be seen growing in the sink. Sinks mayhave been caused by water washing away the gyp or soft limestone; but we have yet another freak of a more extensive nature east of town for several miles running in a north and south direction may yet be readily seen a crack in the earth. This happened during a night in the year 1908. The crack opened without disturbing anyone and yet it was from six inches to three feet in width. Some, by way of investigation, dropped large rocks down the crevice only to hear them bounding for several minutes. In some sandy places the crevice did not show plainly. If this freak of nature or territorial phenomena is any indication of either gas or oil, then we have it in Donley county.—Clarendon News

Along in 1914 The Old Dollar Dropped his Head

In about 1918 and 1919 he couldn't command very much respect, and looked about like the traditional "thirty cents."

Nearly everybody treated him rough-slammed and jammed him around recklessly, and handled him like a step-child.

Some few didn't do that, however, and now he's "coming back" Pretty soon he'll be on his feet again, and then WHO DO YOU SUP-POSE HE WILL FEEL BETTER TOWARD?

The man who handled him kindly and took care of him when he was down and out, is going to be in good standing with the old dollar now, and thrift will have its reward.

Thrift ALWAYS pays good dividends, and whether you treated the 1920 dollar with due respect or not, IT IS NEVER TOO LATE TO
