Preparing to Handle Your Wheat

We are this week completing the instalation of additional equipment to put us in etter position to handle your wheat this seaon. The addition will triple the loading caacity of our elevator.

Of course, Floyd County people can't eat all the wheat they raise. If they could it would be unnecessary to build more elevators for shipping because the Flavo Mill is here to grind the grain and mill it according to nature's process.

You can depend on our keeping the cream of the wheat of Floyd County for use in our own mill to sell back to you at a big saving to your pocket book,—a saving of the haul to he distant mill, then back as flour again, which adds tremendously to the cost. And inidentally you help keep home industry on ne move when you buy Flavo.

About Mood Music

Mood Music is the result of a two year research by Mr. Edison into the effects of music. The psychological work was under the direction of Dr. W. V. Bingham, Director of Applied Psychology, Carnegie Institute of Technology, and other psychologists. The remarkable discoveries, which they made through countless experiments, are now in booklet form for your practical use.

If you do not own a New Edison, we will gladly loan you one for three days—so you can discover what Mood Music and the wonderful New Edison will do for you.

MARTIN DRY GOODS CELE-BRATING 12th YEAR

At that time it was known as the Mathis-Martin Dry Goods Company and Jnc. P. Mathis, now a resident of Amarillo, was its manager.

Later J. G. Martin and associates acquired the interest of Mr. Mathis in the business and Mr. Martin has since been the company's head. In the many years of successful merchandising the company has been in business here, faith in Floyd and adjoining counties and their assured future has been one of the guiding thoughts in the minds of the management of the business, and the wonderful progress of Floydada and the great development of the country surrounding it has amply sustained this belief.

MANY WARRANTS OF SMALL DENOMINATIONS COMING IN

Although many warrants of small denominations are being received at the First National Bank here, following the announcement last week that that institution would act as holding agent for persons having script against the county, in the movement being udertaken by the Commissioners' Court to refund a large portion of its outstanding debts, the totals to which the figures reach are far below expectations. Although it is known that approximately \$60,000 worth of non-interest bearing warrants have been issued and are outstanding, less than half this amount of warrants are in the hands of the bank.

However, other banks of the county are also said to be assisting their customers in gathering up the warrants and it is possible that a greater aggregate amount of the script can be accounted for in this manner than is shown above.

Persons who hold these warrants and desire to have the assistance of the banks as formulated in the formal

To Holders of Floyd County Warrants or Script

We are informed by the Commissioners Court of Floyd County that they are making an effort to borrow money for the purpose of taking up outstanding warrants (or script) held by various people over the county for road work or other work, and have signed a contract to make an effort to get these warrants together in the hands of one person or institution by the 20th of October, at about which time they will get the money to pay the script off, they think.

On Request, this bank is offering its services for the purpose of getting these warrants together. If you hold a warrant against the county and want to leave it here for collection in the event the court borrows the money, we will be glad to accomodate you in this way.

However, we do not in this offer take any responsibility except for the safe-keeping of warrants, for which we will receipt holders when turned over to us.

ANOTHER CAR LIGHT CRUST FLOUR

We are expecting another car of Light Crust Flour the last of the week. The sale of this flour in Floyd County has surpassed that of any other high grade flour sold in the county. We have never sold a flour that has given the universal satisfaction that Light Crust has given. Our sales on this flour have steadily increased from year to year until we are now selling about three times asmuch Light Crust as we did the first year we handled it. Give Light Crust a trial the next time you order flour. We guarantee every sack to be what you expect the best flour milled in America to be. Your money back on any sack of Light Crust that fails to satisfy.

NOTE: We would appreciate your grocery and hardware account for the month of September. Try our groceries and service for a month. We know we can please you. We carry the most complete line of groceries of the better class to be found in Floydada.
