

THE FLOYD COUNTY HESPERIAN

VOLUME NUMBER 27

FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, MAY 13, 1920

NUMBER 10

EARL NORMAN AND ELBERT MUNCY WIN F. H. S. HONORS

Class of Six Boys and Eight Girls to Graduate Monday Night, May 17th

Earl Norman, son of Mr. and Mrs. L. O. Norman, will be valedictorian for the graduating class of 1920, Floydada High School and Elbert Muncy, son of Mrs. Birdie Muncy, will be salutatorian. The boys ran a close race for first place, Norman's lead over Muncy being two-sevenths of one per cent.

The class consists of 14 students—six boys and eight girls. Angie Stiles leads in averages for the four year's high school work. She was forced to miss part of the first term of this year's work and could not qualify for honors of the year.

The members of the class are: Earl Norman, Elbert Muncy, Angie Stiles, Eddie Bishop, Burl Bedford, Robert Menefee, Truett Butler, Emma Lou McKinney, Delise Mitchell, Cecil Mitchell, Lela Swain, Roma Swain, Minnie Schneider and Lola Porterfield.

The Senior Play will be presented tomorrow night at the High School Auditorium. "The House Next Door" is its title. It will be a benefit play, the proceeds to go to the library fund.

The baccalaureate sermon will be preached by Rev. G. M. Parks, of Abilene at the Methodist church on Sunday night, the 16th, and the graduation exercises proper will be held Monday night, May 17th at the High School Auditorium.

On Saturday night, May 15th, the Grammar School Graduates will have their formal graduation exercises at the High School Auditorium. This is one of the largest classes yet graduated from the grammar grades of this school. Inez Morris will be valedictorian, second honors going to Era LeMay who will be salutatorian.

LAUNDRY TROUBLES IN AMARILLO REFLECTED HERE

Laundry workers and laundry plant owners in Amarillo have been having trouble the past week, newspaper reports of the situation seeming to indicate that it is a fight over the open shop. Less than 40 per cent of the workers stayed on their jobs the latter part of last week when most of them walked out.

A large per cent of the laundry work from Floydada is sent to one of the three plants at Amarillo, and the tie-up there has been reflected here in shortage of clean shirts and collars and barber's towels, et cetera. Bachelors have been hard put to it to find enough clean raiment to tide them over without buying.

MORE ABOUT THE 1918 WOOL CLIP CLAIMS

Claims of Texas People Must be Made to Accounting Board of War Department

The County Agent is in receipt of a letter from the Bureau of Markets, Washington, D. C., regarding the filing of claims for losses in the sale of the 1918 wool clip to the Government. The letter is quoted in part:

"The facts developed (at a hearing called by the Secretary of Agriculture) showed that nearly all the questions at issue as far as the Texas growers are concerned can be handled only by the War Department and arrangements are being made for adjudication by the proper authorities in that department. The complaint of the Texas growers, primarily, is that too large deductions for dirt and other impurities were made in valuing Texas wool, and that, therefore, the growers received too little for their wool."

"... In stating the matter to the (Board of Contract Adjustments, War Department) we suggest that you give the Government lot numbers of the wool and any other information relating to the claim in question."

The above statements are given in order that interested sheep men of Floyd County may know exactly how matters stand, and what is wanted as data in filling claims. If each man wanting to make claim for reimbursement will bring his sale statement and any other data at hand to the County Agent, affidavits will be taken, and the claims sent to the proper authorities. It will be noted that there is no assurance of any adjustments being made by the War Department.

COMMISSIONERS' COURT

The Commissioners' Court of the county has been in session this week. This being their regular quarterly session quarterly reports of various officials of the county have been examined and approved.

Wednesday the court spent in a body on an inspection tour of the roads of Precinct No. 3, Commissioner Brown's territory.

622 HEAD STEERS DELIVERED IN FLOYDADA MONDAY

I. E. Martin, of Whiteflat, Monday delivered in Floydada 622 head of one and two year old steers to R. L. McMurry, of Happy, and the steers were sent out on Tuesday morning's freight, to the latter place where they will be put on grass.

The steers were from Mr. Martin's Motley County pastures.

BANK DEPOSITS INCREASE \$44,000 OVER FEBRUARY CALL

Increase Shown Despite Demands for Planting Expenses—Rain Brightens Prospect

Bank deposits in Floyd County were \$44,000 more on the May 4th, 1920, government call than they were on the February 28th, 1920, call. In the sixty-six day period deposits increased in the four banks in the county by \$500 per day. This condition is unusual and indicates prosperity over the entire county, the increases at the banks being substantiations of the claims made by publicity agencies including The Hesperian to the effect that the large portion of the grain crop unmarketed the first of the year would continue to bring in a big surplus of money throughout the first four months of the year. This period has been extended a full two months by the inability to get cars for transportation of the crops. While the biggest per centage of the new money that has kept rolling in has been from surplus maize, wheat and oil money have both been much in evidence. The increases shown does not represent all the new money which has come into the county by any means, since practically half of the expense of planting a crop this year has been absorbed already from the money in the banks.

On February 28th, total deposits in the county were \$2,277,000 in round numbers. On May 4th the figures were in round numbers \$2,321,000, increase \$44,000. Normally, bankers say, there should have been a decrease of \$350,000 or \$400,000 in the total deposits of the county.

Figures for the four banks of the county, taken from condensed statements for May 4th give: First State Bank, of Floydada, \$736,000; First National Bank Lockney, \$609,000; Lockney State Bank, Lockney, \$510,000; First National Bank, Floydada, \$466,000.

The rains of the past week are assurance of at least a part of a wheat crop, and give good planting seasons over nearly every part of the county.

These conditions, with the already excellent financial condition of the county, give every reason for an optimistic outlook on the future locally. While big bankers are talking panic and tight money and manufacturing districts are greatly disturbed, every reason exists for optimism so far as Floyd County is concerned.

Incidentally, it may be stated that there are yet in the county to move something over 200 cars of surplus grain, which will aid materially in holding up bank deposits against the heavy demands that will be made during the next sixty days for planting expenses and the approach of the wheat and oat harvest.

J. C. WESTER ACCEPTS PRINCIPALSHIP AGAIN

J. C. Wester, recently re-elected by the School Board of the district of Floydada, yesterday notified the board of his acceptance of the place of principal of the high school.

Mr. Wester has served one year in the capacity of principal. He is the third member elected by the board on the 1920-21 faculty to notify them of his acceptance, Mr. Parks having accepted the place as superintendent and Miss Ivey as principal of the North Side School.

CHESTER DAY REPRESENTS F. H. S. AT AUSTIN

Chester Day returned home Sunday from Austin, Texas, where he had been since the previous Wednesday representing Floydada High School in the State Inter-Scholastic Meet in the ex-tempore speaking contest. He was among the last ten men to speak, winning in the preliminary try-outs but losing in the finals.

He had previously won easily here and at Lubbock in the district meet.

Miss Sidney Menefee, of F. H. S., has an essay entered in the essay contest at Austin, but no reports to date have been received from this division.

ATTEND CONVENTION OF HARDWARE DEALERS

J. T. Kirk, of Kirk & Sons, and O. P. Rutledge, of O. P. Rutledge Company, attended the hardware dealers convention in Amarillo from Monday to Wednesday of this week.

The dealers of the panhandle meet annually, their organization being known as the Panhandle Hardware Dealers' Association.

LOCAL RAIN GIVE PART OF COUNTY BEST SEASON

Heaviest Fall in Southwest Part of County—Other Sections Get Moisture, Too

Portions of Floyd County have as good season as ever known, and practically all the county has had an inch or more of rain in the past week. The southwest part of the county has perhaps the largest precipitation record, reports indicating that that territory has had as much as three inches of rain. At Floydada the rain had been almost exactly an inch Monday morning, the heaviest rain coming here Sunday forenoon. The extreme southeast and northwest and northeast parts of the county also had good rains during the period, the rain at Lockney being, according to reports about the same as at Floydada.

The rains came in the form of local showers, some covering a wide scope of territory, while others would rain on small localities. Reports state that Motley, Hall, Cottle and Dickens counties on the east and all counties eastward from them had almost a week of heavy rain. The same is true of the country west of Plainview toward Runningwater, and northward from Canyon. All the territory of the Plains and Panhandle has from a half inch to five inches of rain from Tuesday of last week until Monday of this week.

Floyd county small grain had made perhaps the best showing of any in the plains territory, March rains having added much to the prospects in practically all the county. However, small grain has been cut to some extent in production, according to wheat raisers. All agree, however, that the early planted wheat will make some grain, while spring wheat, barley and oats had apparently not suffered any, growing satisfactory throughout the spring.

Planting operations have been taken up all over the Co. this week, and an occasional crop is found where a good stand is already up and started growing.

SCHOOLS GET EXTRA DOLLAR FROM STATE; TOTAL \$8.50

Schools of Floyd County have received the extra one dollar per capita from the state school funds promised them some weeks ago for about June 1st, by Miss Annie Webb Blanton, State Superintendent of Public Instruction.

The check for the total county per capita reached the Lockney State Bank the first of the week and Judge Howard was mailed a certificate of deposit for the amount Monday.

This extra dollar from the state makes the total disbursement from the state fund \$8.50 for each scholastic in the state during the school year now closing.

R. O. Fields left the first of the week for Wichita Falls on business.

LAKEVIEW PUBLIC SCHOOL ANNOUNCEMENT

We wish to announce the closing exercises of Lakeview Public School as follows:

Friday night, May 21, program by school.

Sunday morning, May 23, baccalaureate address—Supt. Claude V. Hall, of Slaton, Texas.

Tuesday night, May 25th, program by school.

Friday night, May 28th, musical program, by pupils of Mrs. J. W. Smith's class.

Saturday night, May 29th, graduation address—Prof. J. L. Duflot, of the Normal College, Canyon, Texas. Admission to all exercises is free.

The night programs will begin at 7:30 p. m. The Sunday morning address will begin at 10:30. We hope to make Sunday a red letter day among our list of programs. There will be dinner on the ground, followed by a general singing for everybody in the afternoon. Everyone is cordially invited to attend any or all of these programs, but we extend a special and urgent invitation to all singers and class leaders, with their classes, of Floyd and adjoining counties. Let's have a real sure enough singing with out having to wait for a convention. Let every singer notify every other singer, and class leaders be sure to bring your books. Then come, friends, bring a loaded dinner basket, a song book, and a wreath of smiles.

PRICE SCOTT,

Principal of School.

EMBARGO HOLDING BACK GRAIN MOVEMENT TO MARKET

No "Empties" Coming in—Six Loaded Cars Here Await Raising of Kansas City Embargo

Since three weeks ago when cars began to move into Floydada in fairly good quantities, following an appeal made by local grain dealers and business men, the movement of distress grain from Floydada had been fairly satisfactory until the latter part of last week, when the embargoes placed by the carrier companies began to slow down the "empty" car receipts and finally stopped all movement of grain from the yards here. Most of the grain from this point is at present moving northward, Kansas City being the principal market point. An unqualified embargo to that point from Panhandle points has put an effective stop to shipments, and several cars are loaded here and waiting for the lifting of the embargo to go forward. No empties have been received, two or three grain cars having been made this week out of in-bound merchandise cars received here.

The embargoes are effective on account of the switchmen's outlay strike, which is about 80 per cent effective, private advices indicate, though the carriers deny this statement.

H. R. BROWN WILL NOT BE CANDIDATE AGAIN

Commissioner H. R. Brown says that the sacrifice of personal interest in the conduct of the affairs incumbent upon a commissioner, is too great and that he will not be a candidate to succeed himself as commissioner of his precinct this year.

A commissioner is paid by the day for his work. While in actual attendance on court he is paid \$3 per day, and is also paid \$3 per day for his work as road supervisor while actually engaged in these duties. Commissioners of Floyd County are not sufficiently remunerated to pay their gas and lubricating oil bills and their board and lodging while away from home in the conduct of the affairs of the county. It will thus be seen that a commissioner must serve at a financial loss for the welfare of the county. Mr. Brown will have been commissioner four years in November. He thinks it is somebody else's turn now.

3 SUBJECTS FOR SPECIAL SESSION LEGISLATURE

Austin, May 8.—Proclamation was issued by Governor Hobby late today calling a special session of the Thirty Fourth Legislature to convene on Thursday, May 20, at 10 o'clock.

Three subjects are embraced in the proclamation, first, the passage of a measure to deal with the pink bollworm situation; second, to make provision for the maintenance of the public schools and educational institutions of the state during the next scholastic term, and, third, deficiency appropriations for the support of the State Government. The Governor also reserves the right to submit any additional subjects that may be deemed expedient during the special session.

ADDITIONAL STORAGE PLANNED BY MAGNOLIA HERE

An additional storage tank was recently unloaded here by A. J. Ryals, agent for Magnolia Petroleum Company, and this tank will be set up soon for use in increasing the capacity of the local plant.

BORN—To Mr. and Mrs. F. P. Brookfield, Campbell, May 11, a son.

Miss Elfie Savage left Wednesday morning for the bedside of her sister in Oklahoma, a message received Tuesday indicating that the sister was quite ill and not expected to live.

Mrs. George Dunavant underwent an operation at the Childers Sanitarium yesterday morning for appendicitis, and is reported doing satisfactorily today.

W. H. Hilton, proprietor of the Palace Barber Shop, has been unable to attend his business the past three weeks on account of illness. He is confined to his bed only a part of the time.

W. M. Windsor who has been at Pecos and Toyah the past several weeks, returned home Tuesday afternoon.

HAIL KILLS 200 SHEEP ON BLEDSOE RANCH IN LUBBOCK

Friday Morning's Downpour Drifts Hail in North Lubbock and South Hale

Last Friday morning when a large portion of Floyd County had its biggest rains little hail damage was done in this county. However, just over in the edge of Lubbock county southwest of Petersburg one of the biggest hails in history fell, and did great damage.

The Bledsoe ranch in that county sustained the heaviest damage reported here. According to this report Mr. Bledsoe had 200 head of sheep killed outright by the hail and several more head injured more or less seriously.

In the southern part of Hale county the hail was also said to have been heavy, drifting in places as high as the running board of an automobile.

The Allmon community in the south west corner of this county had two inches of rain in the two hours, but little or no hail damage was done.

MISS LEONA LEONARD MARRIED SUNDAY, MAY 2

Miss Leona Leonard, daughter of Mr. and Mrs. V. A. Leonard, this city, was married in Chicago on the afternoon of Sunday, May 2nd, to Mr. P. W. Bell, of Des Moines, Iowa.

Following their wedding the couple left for Des Moines to make their home.

Miss Leonard spent much of her early childhood in Floyd County and later with her parents resided at Clarendon, where she attended the public schools and Clarendon College. It was while attending the latter institution that she first knew Mr. Bell. Following the return of the family to Floydada Miss Leonard taught in the Floydada Schools and later went to Washington, D. C., to work following the outbreak of the war. Mr. Bell was a lieutenant in the army of the war spending two years in Europe. The Leonard family are known over this section of the county and Miss Leonard has a wide circle of friends here.

PARKS ACCEPTS PLACE AS SUPERINTENDENT

Superintendent James E. Ivey, who was some weeks ago offered the place as superintendent of the Floydada Schools to succeed himself, first of this week accepted the place.

He had been undecided as to his future plans until an agreement was reached by himself and the board which was mutually satisfactory.

With the closing of the schools this week he ends his fourth year with the schools here and his third year as superintendent.

Miss Roxye Ivey, primary teacher and principal of the North Side School has also accepted the place offered her by the board.

KANSAS CITY MARKET

Shippers profited by the mistake they made last week when they grouped their offerings in the first two days of the week, and this week found the opening run moderate, with indications of a more equal distribution throughout the week. Trade in cattle opened early at strong 25 cents higher prices, hogs were strong and sheep were strong to 50 cents higher.

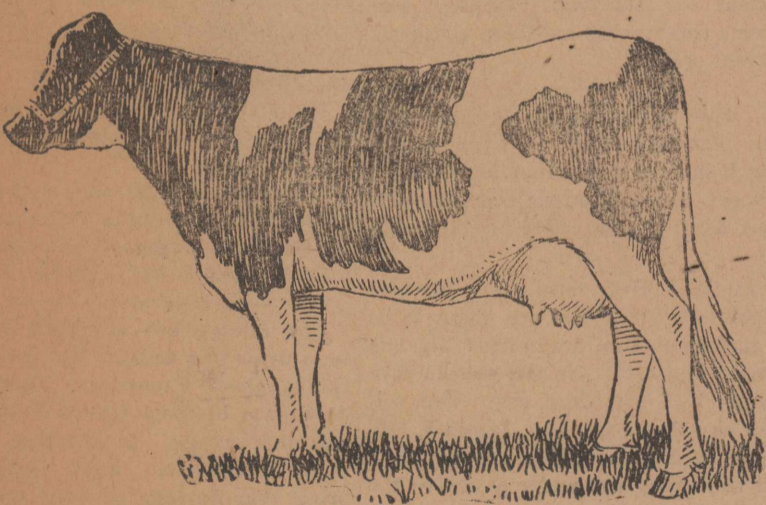

Receipts today were 9,000 cattle, 16,000 hogs, and 5,000 sheep compared with 15,000 cattle, 16,000 hogs, and 20,000 sheep a week ago, and 15,200 cattle, 19,550 hogs, and 13,500 sheep a year ago. Today's receipts came from a rather wide scope of territory and included increased offerings from Texas, and a few consignments from Arizona, New Mexico and Utah.

WILL ORGANIZE SECURITY BENEFIT ASSOCIATION

A local council of the Security Benefit Association, successors to the Knights and Ladies of Security, will be organized in Floydada, according to W. T. Dykeman of Amarillo, District Manager for the Panhandle.

The organization has both insurance and fraternal features, and has a large membership. In Amarillo the council membership is above 1,200, a large per centage of the business and professional men being members.

Several people in Floydada are already members of the organization, and will become members here when it is established. The society is for both men and women.

Tilly Alcarta

THE CHAMPION DAIRY COW OF THE WORLD, OWNED BY A. W. MORRIS, Yobo, Cal., From a Photo.

Tilly, in a twelve months test just completed, gave 33,424.8 pounds of milk, or about 16,712.4 quarts, worth \$2,172.00.

It cost only \$704.00 to feed her. Is it worth while to keep good cows?

The next son or daughter of this lady will bring a fortune to her owner. During the next few years an investment in Dairy Cattle will pay larger dividends than anything of which we know.

When it comes to thoroughbred stock of this character, don't let the matter of finances worry you. We have the money. Come in and talk it over with us.

FIRST NATIONAL BANK
FLOYDADA, TEXAS

S. E. DUNCAN, Insurance Agent

Office Rear First National Bank---Day Phone 221---Night Phone 159

HOW MANY TIMES in your experience have you seen the results of six months effort-hard persistent work, wiped out in less than thirty minutes by a force that no skill or foresight on your part could prevent; and if you have been fortunate enough to escape yourself, how many times have you seen it happen to your neighbors and friends?

HAIL STORMS are not respectors of persons or localities; they are becoming more frequent every year and no section is immune from them; if you have thus far escaped it is no warranty that your good fortune will continue.

WHY TAKE CHANCES? The loss of your crop means the loss of a year's income, a year wasted and lost which cannot be recalled. If you are an owner and farm-

ing it means a loss of both income and returns for your labor. If you are in debt you surely need it for the protection of your creditors and yourself.

The successful business man of to-day takes no chances; he protects himself by insurance against every known contingency or hazard, believing that institutions in that business can better carry such liability than he. Is a farmer any different than a business man? Can he better afford to jeopardize his success by taking chances that a man in business would not take? Certainly not.

A moment's reflection will convince you. See us at once before our capacity in your section is exhausted, as we only assume a limited amount of liability on any one section.

FARM BOYS' SPECIAL COMPETITION OPEN TO CLUB BOYS

How Texas farm boys may compete for berths on the Texas Farm Boy Special which will tour eighteen states and part of Canada during the first three weeks of August is told in information which has been furnished all farm agents and commercial organizations of the state, by Walton Peteet, manager of the agricultural department of the Texas Chamber of Commerce.

Any one of the 30,000 Texas farm boys affiliated with the extension service of the A. & M. College may compete for a free ride over the 4,000 mile route through corn or peanut growing, pig raising, live stock judging or any other of the farm boy club activities.

The special train of five or more pullman cars will leave College Station, July 31, at the close of the Farmers' short course and farm agents meeting, and will be conducted under the joint auspices of the Texas Chamber of Commerce and the A. & M. College.

Stops will be made at the best cotton, corn, wheat, alfalfa, vegetable and livestock farms, co-operative creameries and dairies, fruit and vegetable packing plants, agricultural colleges and experiment stations and all other points of agricultural interest. The special train will also stop at big market centers and many places of scientific and historic interest will be visited such as Niagara Falls, the national capital, Smithsonian institute, the National Bridge in Virginia, and the farm of U. S. Secretary of Agriculture Edwin T. Meredith in Iowa.

The tickets are sold for \$300, which includes all expenses of travel, to commercial organizations and business firms of the state to be presented to the prize winning farm boys. No farm boy will be allowed to purchase his way with the special.

A map of the United States showing the eighteen states which will be visited has been distributed among farm agents and commercial organizations for the inspection of boys who wish to compete.

SANTA FE INCOME

New York, May 6.—Gross corporate income of the Atchison, Topeka & Santa Fe Railroad for 1919 aggregated \$59,715,202 against \$47,196,263 in the previous year, according to the annual report issued yesterday.

Net income of \$43,089,658, compared with only \$28,348,344 in 1918, and surplus to credit of profit and loss at the end of 1919 totaled \$65,366,690.

"Work and save" is a pretty good motto for any one. Too many people these days are trying to let the other fellow do all the working and saving while they do the spending. The war savings stamp way is a good way to save.

GALLAHER MADE GENERAL FREIGHT AGENT SANTA FE

T. B. Gallaher, division freight agent for the Santa Fe, has been appointed general freight and passenger agent, to take effect May 1, succeeding C. C. Dana, who has been transferred to Chicago to become assistant to the first vice president of the traffic department.

Mr. Gallaher has been in the traffic department of the Santa Fe at Amarillo for about fifteen years, beginning as a clerk. Some time ago he was appointed division freight agent, which position he has held until his recent promotion. Mr. Dana has held the position of general freight and passenger agent here for about four years. He and his family will move to Chicago.—The Amarillo News.

RAIN REPORTS

PLAINVIEW, May 7.—Rain ranging from one-half inch to three inches in some parts fell over Hale county. The precipitation amounted to one-half inch in this city but reliable reports from southern and western parts of the county place it at three inches.

Small grain crops are practically assured and soil is now in shape for the planting of row crops.

Miss Irene Daily returned home last Friday from Belton where she had been attending Baylor Belton College.

LUBBOCK, May 7.—An average rainfall of approximately one-half inch fell here and over the eastern half of Lubbock county this morning. Several other light showers have been received over the eastern portion of this county within the past few days and it is believed the moisture is sufficient for planting. Weather continues threatening and crop prospects appear good.

TAHOKA, May 7.—A good rain has just fallen over Lynn county which insures good crops here. Farmers are very optimistic over the outlook for a bumper yield for this year.

James J. Hill once said: "Do you want to know if you are going to be a success or a failure in life? You can easily find out. Are you able to save money? If not, drop out. You will fail as sure as you live. James J. Hill made a fortune following his own advice. Why not make a trip to the bank or postoffice today and get that other War Savings Stamp?"

Mr. and Mrs. S. L. Rushing are in Oklahoma City attending the Billy Sunday meetings. The large tabernacle is filled to overflowing every service, Mr. Rushing said in a recent card.

W. T. Dykeman and Mrs. Fontella D. Lindsay, of Amarillo, are here this week working with local organizers for the Security Benefit Association.

With the Government selling Thrift Stamps for 25 cents and War Savings Stamps for less than \$5.00, there is no excuse for any one not to save. To get ahead one must get a head and use it. Bought your War Savings Stamp this month?

LOCAL HAIL AGENCY LEADS ALL OTHERS IN SIX STATES

The S. E. Duncan Insurance Agency has been notified in a recent letter of the fact that their agency is the leading one in six southwestern states in volume of business written and amount of net premiums paid, through one of the largest general agencies writing in the southwest territory.

Only two of the companies for which this local agency is writing are represented through the general agency which has written them.

All local agents in this county have had a good hail business this spring and the rains of this week have given the game a big spurt. The fact that this general agency has written Mr. Duncan of his leading position in the hail underwriting game, is indicative not only of the hustling qualities of the local agency but also of the heavy wheat and other small grain acreage in the county as compared with the acreage in other sections of the southwest.

There is just one difference between the good fellow and the solid fellow. One has a bank account and the other hasn't. It pays to buy War Savings Stamps regularly.

NEWLY WEDS RECIPIENTS OF MISCELLANEOUS SHOWER

An impromptu miscellaneous shower for Mr. and Mrs. Arthur Savage was given last Friday evening at their residence in rooms of the Viles House, when a large number of their friends and relatives "showered" them with many valuable presents, including china, cut glass, aluminum and other miscellaneous gifts.

Mr. and Mrs. Savage were married on Thursday morning last at the Baptist Parsonage.

The many valuable presents bestowed are indicative of the high esteem in which these young people are held by a wide circle of friends.

The savage has gumption enough to provide for today. But he never thinks about tomorrow. That's the difference between the civilized man and the savage. In thinking about your tomorrows, don't forget to bring War Savings Stamps into your calculations.

MARRIAGE LICENSE ISSUED

A license to marry was issued by County Clerk Tom W. Deen Monday, May 10th, to Mr. Archie Crager and Miss Mae Whitfill, of Lockney.

Miss Whitfill is a daughter of Ben Whitfill of that city and Mr. Craiger a son of J. A. Craiger.

The tie-up in the laundries of Amari-
llo has been an eye-opener in Floyd-
ada as to the amount of work sent
out every week from this point to
outside laundries to maintain workers,
who in turn maintain homes and help
build up institutions in other cities.
Apparently, there is sufficient laun-
dry business here and close enough
around in adjacent territory to just-
ify the establishment of a laundry in
Floydada. There may be good and
sufficient reasons why the establish-
ment of such a plant should not now
be attempted either in Floydada or
elsewhere, but a laundry would surely
do a good business here. It is a pro-
ject worth investigating, we believe.

Down at Tahoka an "Overall Club"
died a-borning. Practically every-
body in the town signed a pledge to
wear overalls or khaki for 90 days
beginning May 1st. The alternative
was to pay a fine of \$5 to the cem-
etary fund of the city. The Lynn
County News says that practically all
the signers "re-nigged" when the day
came to don the emblem of the work-
ing man and that none of them have
paid the fines as yet, and The News
declares that those who did don the
khaki ought to crawlfish by wearing
the best rags they can afford.

Readers of newspapers have prob-
ably gotten the idea that newsprint
is becoming a hard commodity to buy.
If they have gotten this idea, they
have the situation sized up just about
as it is. Small newspapers, unable to
contract for large portions of the out-
put of any particular mill are, as
Courtland Smith puts it, "fighting
with their backs to the wall," and at
that a good big number stand a good

chance to end their existence before
another twelve months. Despite all
efforts to placate all interests and let
everybody have a little paper, the
scramble for print has developed into
a "knock down and drag out" affair,
in which the devil will get several of
the hindermost.

LAKEVIEW ITEMS

Lakeview, May 11.—Mrs. Laura
Van Meter is visiting her niece, Mrs.
F. P. Donathan.

Miss Lucy Donathan is spending a
few days with her parents.

The rain prevented the meeting of
the Council Friday night, and preach-
ing and Sunday school Sunday. The
rain has not been as much as we
would like to see, but we are certainly
thankful for what has fallen. It will
be a great help.

Lovel, Roscoe and Miss Hazel
Jones, and Clifford and Henry Willis
visited at Mr. F. P. Donathan's Satur-
day night.

Mr. and Mrs. T. W. Hopper enter-
tained the young folks with a sing-
ing Saturday night.

Miss Evelyn Pitts, Mrs. G. T. Wake-
field and little Bernice Donathan are
on the sick list this week.

Little Wayne and Leo Cowand spent
Saturday with their grandmother.

Mr. and Mrs. D. F. Rogers spent
Tuesday with Mr. and Mrs. J. H. Mc-
Murray.

W. H. Darrow met with the Stock
Judging Class of our school Friday
afternoon. The boys report a very
pleasant and interesting lesson.

Miss Lennie Widener spent Satur-
day and Sunday night with Miss Pearl
Hall.

Tate Jones spent Sunday night with
Tom Hall.

Misses Lucy Donathan and Margie
Camden visited the school Monday
afternoon of this week.

Tom Harlan is building a new
house. It is beginning to look very
pretty.

Misses Letha Cowand and Ida
Bunch spent Monday night with Mr.
and Mrs. Scott.

Miss Gladys Elliott spent Monday
night with Miss Annie Donathan.

Mr. and Mrs. Williams are visit-
ing Mr. and Mrs. Elliott.

We had a nice shower accompanied
by a hail yesterday afternoon.

**HIGH WAR TAXES WORKING,
FOR MIDDLEMAN ELIMINATION**

Dallas, Texas, May 8.—That the
movement to eliminate the middleman

in cotton handling is far reaching and
is being developed in England at this
time is the contention of A. H. Wick-
er & Company of Dallas. This move-
ment is closely allied with the heavy
tax imposed upon cotton as a result
of the World War, they state.

"Few people realize the heavy tax,
imposed on cotton as a result of the
World War. The tax is, in fact, trem-
endous, and is said to even exceed
the price paid the farmer for the cot-
ton.

"The American spinner is reported
to be making profits of no less than
one dollar per pound, and in many
cases it is rumored, very much more,
possibly double. But even on the
basis of one dollar, the major part of
this goes to the government in Taxes,
the spinner in fact, adding to the
amount of his profit sufficient to cov-
er his tax.

"Even there, the American spinner
has a very decided advantage over
the English spinner, owing to the
number of additional hands through
which cotton goes, to get to the Eng-
lish spinner, each middleman paying
an even heavier pro rata tax than
the American, and there are perhaps
more middlemen handling the cotton
after it reaches the shores of Eng-
land, thence to the mills fifty miles
distant, than is the case in America.
As each must figure larger profits,
to enable him to pay these heavy war
taxes, these taxes multiply as the
bale passes from hand to hand, until
by the time it has reached the Lan-
cashire spinner, there is an added ex-
pense in profits and multiplied war
taxes, amounting to what is variously
estimated, at \$50.00 to \$100.00 per
bale, the latter estimate being applied
to the staples, and this in addition to
the tax on Mill profits.

"The result of all this multiplied
excess war tax, is bringing about a
strange result. It has shaken the
British complacency to the old order of
things. The result is a syndicating
of British spinners with the avowed
intention of cutting corners, and many
of the shrewdest, and more farseeing
Liverpool cotton men state frankly,
that the new move means the elimi-
nation of the greater part of the nu-
merous middlemen.

"Even the stolid, complacent Lan-
cashire spinner has at last awakened
to the necessity, of co-operation, or-
ganization and an end to blind pur-
chasing, just as our complacent, gen-
erous producers, are awakening to
the necessity of terminating blind
marketing."

POSTS AND WIRE.

We have recently unloaded several cars of moun-
tain round RED CEDAR POSTS, from 2 to 6 inch tops,
6, 7 and 8 foot lengths, good ones, and we have barb wire
both in the galvanized and black. We want to furnish
you.

Screens and Screen Doors

We have a nice stock of screen doors, fixtures and
screen wire and can furnish you complete along this
line.

Painting Time

May is one of the best months of the year in which to
paint. If you expect to do any painting this spring bet-
ter take advantage of this nice weather. Remember we
have the B. P. S. Paints, as good as you can buy. Ask
for color cards and plates.

MODERN HOME BOOKS AT YOUR SERVICE

**A. G. McADAMS
LUMBER COMPANY**

**I Am Sincerely Thankful That
We Have Had A Rain.**

And I am glad that we did not have a hail with it. What we need is a
crop, the world needs it and will pay well for it.

I would be glad if we never had another drop of hail in Floyd County.
I would be glad if the hail rates would go down and the companies go out
of business as far as Floyd County is concerned.

Now while I would be glad of this I have no reason to expect it. Our
rates are high here because we have lots of hail. A few years ago the rate
was \$4.00. Today it is \$13.00. Other counties are still getting their insur-
ance at the \$4.00 rate. Why? Because of our excessive losses. Knowing
this I have insured my own crop.

No one company will carry more than \$12.00 per acre on one crop so
if a million dollar insurance company does not count it good business to
carry all the risk how can the owner take all the risk himself, and feel
safe? Let my companies carry part of it for you.

I have eight old line, reliable fire insurance companies that are writ-
ing hail insurance in Floyd this year. They are prompt to pay and able to
do so. The policies go into effect in 24 hours from signing them. I can
give you as much as \$40.00 per acre. A hail storm can mean the difference
between luxury and hard times, with the crop protected it can make the
difference of only luxury and ordinary times.

THE JACK BEAN—A VEGETABLE GOLD BRICK

Savage disciples of Voodoo worship in the American Tropics ascribe supernatural powers to the jack bean. These tribesmen plant a row of the seed around their rude gardens in the belief that the plant will punish trespassers. This custom was doubtless brought by Negro slaves from Africa, where the very similar sword or fetich bean is thus worshiped. But the Bureau of Plant Industry, United States Department of Agriculture, fails to support this weird belief concerning the bean. Nor do these scientists find much else to recommend this plant stranger from the West Indies.

The jack bean, it appears from abundant experiments, is a prolific plant. It is not unusual for the seeds in their 14-inch pods of a jack-bean plant to outweigh its own herbage; and the herbage, if cut green, frequently crops at the rate of 16 to 20 tons per acre. This wonderful productiveness makes the bean a favorite of the get-rich-quick gentry who seek to introduce a new and marvelous commercial plant. This popularity among unscrupulous promoters accounts in part, at least, for the numerous aliases under which the jack bean is known. "Pearson bean," "wonder bean," "Wataka bean," "Gotani bean," "South American coffee bean," etc., are only a few of the names in which the jack bean has been rechristened.

It has some value in the South as a green-manure crop, and there is evidence to show that it may be a good silage crop when cut green.

Cattle do not relish the jack bean hay, nor do they make gains upon the ground seed, which product they must be taught to eat.

The bean is eaten by natives of Mexico, but most experiments describe it as flat and coarse in flavor.

The seed contains a large portion of a material known as urease, and used in medicines, but the demand for this product is extremely limited.

After all, the scientists warn the prospective buyer of "wonder beans" to have a specimen identified, or else confine the first plantings to small areas until the doubtful values of the bean are better established and a better market provided than seems to exist at present.

ASIA BIRTHPLACE OF ST. NICHOLAS

Contrary to General Belief in This Country, He Was Not of German Origin

BORN IN SIXTH CENTURY

Worshiped by Italian Sea Traders as Their Special Protector—Played Double Role in This Country in Early Days.

Just why so many Americans think of the good Saint Nicholas as a German saint, and on second guess accredited him, with Dutch ancestry, is not known. But it is undoubtedly the general belief in our country that the saint, whose birthday, December 6, is celebrated in some countries as the "gift festival" of the year, was of Teutonic extraction.

The Christmas saint really was born in Asia Minor, in Panthera, in the province of Lycia, some time in the sixth century. St. Nicholas of Bari, he is oftenest called by Europeans, but only the bones of St. Nicholas reposing for eight centuries in the crypt of a handsome cathedral at Bari, Italy, have given him that title. He never lived in Bari. Italian sea traders, who worshiped him as their especial protector, stole his body from its resting place in Myra in the twelfth century and brought it to the Italian seaport. Since that time the celebration held there in the saint's honor is unique.

The Eastern world knew and loved him first, but it is from Western Europe that we learn of many of the quaint customs connected with the celebration of his birth. In Lycia he lived to a good old age, filling his days even in childhood by doing good deeds and giving lavishly to the poor of the fortune he inherited. It was Christlike to give, so, as a steward of God, his wealth belonged to God's children, Nicholas believed. Finally he was made bishop of Myra, where he went to live after a pilgrimage to the Holy Land.

It was not strange that after such a life of charity he should become a saint of the common people, even as St. George was a saint of knighthood. He was invoked by the laborer toiling for his daily bread, by mariners, by merchants! He was protector of the weak against the strong, the poor against the rich, the captive, the prisoner, the slave. He was especial guardian of maidens, schoolboys, the orphan poor. Throughout all Catholic Europe children are taught to reverence him, and to believe if they are docile and attentive to their duties he will fill the cap or stocking with dainties; if they are naughty or idle, he certainly has a rod in pickle to bring along for them.

Saint Nicholas has found his way to America in double role of benefactor and bugaboo. Among the Pennsylvania Dutch parents still admonish children: "Be good, Pelznickel will get you!"—Pelznickel being a species of talking Santa Claus and closely related to the "Old Nick." In some sections Kris Kringle appears in combined role of Santa Claus and Christchild. He has other names—Samtlaus, Claws Niglo, Nikolo.

Although strangely little is known of St. Nicholas in America, a few churches scattered over the country bear his name. No saint of the calendar has as many churches, altars and chapels erected in his honor. Most towns in England boast churches bearing St. Nicholas' name. There are more than a hundred in Belgium and thousands scattered over Europe. But wherever he is worshiped and his birthday observed it is always in remembrance of the fact that he is a follower and disciple of the Christ, whose coming was the greatest gift of all.

Charity at Christmas.

There can be no holier sentiment attached to a gift on Christmas day than charity, for charity combines all that is good and tender in human ideal, impulse and emotion. There is a double joy in charity, for it blesses two. It not only gives happiness in the act itself, but it quickens and develops, for all after life, pure, precious qualities of mind and heart that are a well-spring of peace. Charity comes nearer to spanning the immeasurable space between the sin of this world and the holiness of heaven than any other blessing that mankind knows.

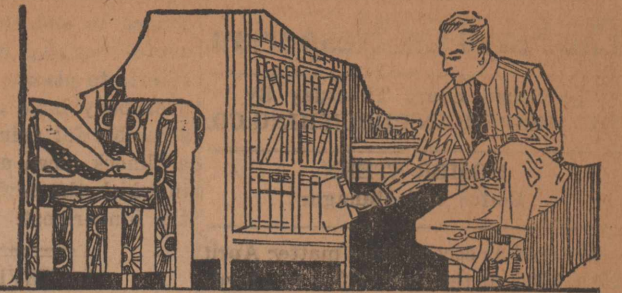

An ideal Christmas which would really mean genuine good will among men is one in which none should be cold, hungry, shelterless or friendless—one in which they who have would think first of them who have not.—Christian Herald.

Boxing Day in England.

Boxing day is little known in America, but its observance is general in Great Britain. It is the day after Christmas day, and is observed as a holiday, Christmas being reserved for religious observation. A feature of the day is the giving of gifts by employers to employees. These are called Christmas boxes.

Christmas Joys.

We get most of the enjoyment of Christmas out of the dreams that come before and after. Oh, to dream of it before it comes, to enjoy it while it is here, and to appreciate it when it has gone!

**WHY A BIG 1920 COTTON
ACREAGE MAY HURT THE
SOUTH FOR YEARS TO COME**

The South for a long time produced cotton first with slave labor and then with free labor at starvation wages. We practically gave away the crop. Now cotton has at last reached a price which offers the producer a chance for something better than a shanty to live in, side-meat to live on, and a crop-lien to live with. But because this price is higher than they used to pay, many manufacturers both here and abroad declare that present prices are excessive.

The truth is that all farm products for a generation past have sold too low, and cotton lower than any other. For a generation, male farm labor in the South averaged just about half the wages of male farm labor in the North—\$13.94 a month in the South Atlantic states in 1890, for example, as against \$24.72 in the North Atlantic states—and women and children worked in Southern cotton fields almost for nothing. Southern boys and girls were kept out of school plowing, hoeing and picking cotton, while Northern boys and girls attended eight or nine months' school terms under strict compulsory attendance laws.

All these conditions are now changing. Southern farm negroes have largely gone to the towns and to the north, and wages in the south are fast approaching the full American average. Farmers are deciding that their women folk have as much right and duty in the home as the women folk of other classes have. Then, too, we have gotten over the idea that we must keep our children in the cotton fields this year in order to make an over-production of cotton which will in turn so beat down prices as to force these children back into the fields next year—and so on until they die in ignorance. The south is beginning to adopt compulsory attendance laws for its children just as practically all other civilized states and countries have had for a generation.

The meaning of all this is that the South is never again going to make cotton on the old starvation slave-labor basis on which it was made from 1880 to 1910. Nevertheless, it is going to take some time to drive these facts into the minds and consciousness of manufacturers and business men. If we can keep prices high through just one more season, we ought to be on a permanently higher level of cotton prices. On the other hand, if the bears win next fall and force prices down, all the work that has been done in educating the world to the necessity for permanently better cotton prices, will have to be done over again.

Thus a big acreage of cotton in 1920 will play into the hands of bear-speculators and manufacturers. If we fail to grow ample home supplies, we give the enemy a stick with which to break our heads. The failure to provide reasonable warehouse facilities will likewise play squarely into the hands of the bears.

Let us get ready for the great battle next fall by (1) planting only a reasonable acreage in cotton, (2) planting an abundant acreage in food and feed crops, and finally (3) by putting up sufficient warehouses to enable us to hold the crop away from the bears if they set out to get it without paying decent wages for the labor that has made it.—The Progressive Farmer.

Have the courage of your convictions. Save. Buy W. S. S. regularly.

Mix up a few War Savings Stamps with your good intentions and you won't supply Mephisto with so much paving material.

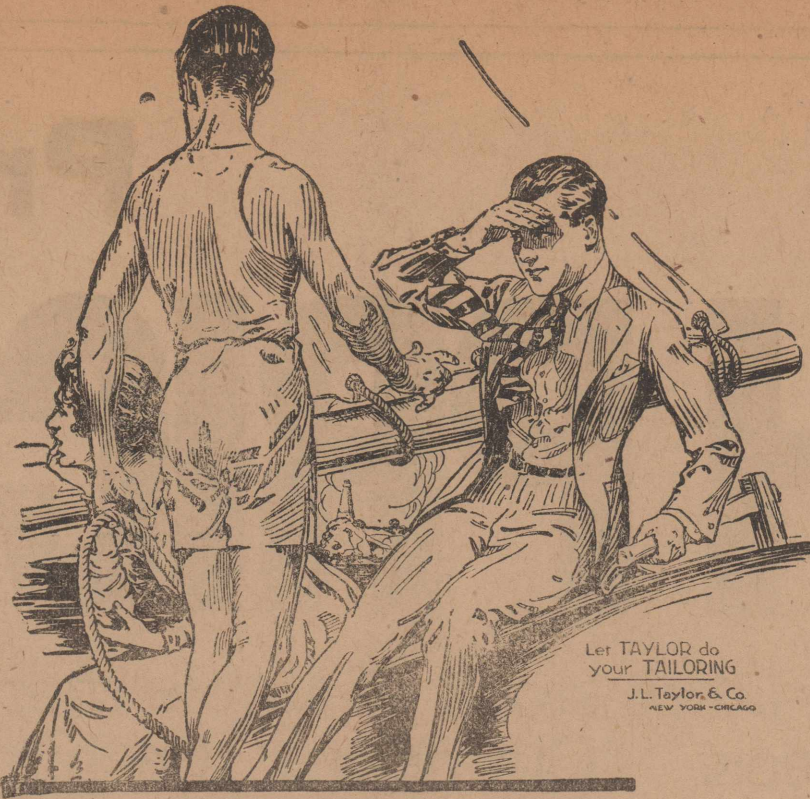

Politicians may come and politicians may go, but War Savings Stamps and Liberty Bonds keep on paying you interest as long as you hold them.

Matt Nix is convalescing at the Childers Sanitarium following an operation Monday of last week for appendicitis. His condition is satisfactory.

Mr. and Mrs. J. F. McCarty are in Kansas City, Mo., for medical treatment, having left Tuesday of last week for that place. They will be away from home indefinitely.

Mrs. G. M. Bullard is in Kansas City for treatment and is doing nicely, G. M. Bullard who returned from that city Monday afternoon said. They left Tuesday of last week. Mrs. Bullard will likely remain at Kansas City some six weeks.

Mr. and Mrs. Tom B. Triplet and little daughter, Mary Elizabeth, left Tuesday morning for Chico, Texas, where they will visit Mr. Triplet's parents. They were accompanied by D. E. Pitts, who will spend sometime at Burkburnett.

CENTER

Center, May 11.—We have had some showers and good prospects for a big rain but to date it has passed us by, but each time it gets a little nearer to keep us hoping anyway.

The Misses Goodman had a lot of company over Sunday and Miss Vergie Fawver is spending the week there.

The party at Mr. Johnson's was rained out or rather threatened out. The Rev. Rainwater came down from Plainview to preach at Fairview but the rain Sunday morning kept everybody indoors, so he spent the day at the Johnson home.

Mr. and Mrs. Robert Rogers spent Sunday at the Warren home. Miss Maria Warren accompanied them home for a visit.

Miss Maudie Meredith visited Sunday with Miss Fannie Bolding.

W. C. Spence and wife, Charles Spence and family and Mr. Cox spent Sunday with Alonzo Spence and family.

Lots of people in town Saturday. Mr. Scott and Mr. Bolding went to

PLAINVIEW SATURDAY.

Mesdames Bolding and Sims visited Mrs. Barton Thursday afternoon. Mr. and Mrs. Hammitt of Sunset, spent Wednesday night at the Jordan home because their car went dead on them and they couldn't get home. Mr. Lemons has company.

Just two weeks more of school after this one.

FAIRVIEW

Fairview, May 11.—Our community has received a much-needed rain, which has helped the wheat greatly. Bro. Rainwater preached at the school house Saturday night. The crowd was small however on account of the rainy weather.

Mr. Nix, who was operated on for appendicitis last week, is rapidly recovering.

Mr. Reid went to Pecos last Friday, returning Monday night.

The young people enjoyed a singing at the Bullard home Sunday night. Armon Irwin spent Saturday night with Edd Bullard.

Fairview and Roseland matched a ball game last Friday afternoon. The

score stood 24 to 27 in favor of Fairview.

Mr. and Mrs. Bullard left Tuesday morning of last week for Kansas City, where Mrs. Bullard is taking treatment. Mr. Bullard returned home Monday.

The Lakeview school is to play a match game of baseball with Fairview Friday on our grounds. Everyone come.

Miss Lewis spent the week-end with Mrs. Reid.

Miss Kate Bullard taught school Monday in Mr. Reid's room, during his absence.

BORN—To Mr. and Mrs. G. N. Standlee, May 9th, a daughter.

Every one is expected to purchase at least two War Savings Stamps this year. Have you come up to expectations?

Arthur Brisbane said one way to eliminate stupidity is to make it expensive. The man who sells his Liberty Bonds, when he can keep them, is stupid and his stupidity costs him money.

SHIPS CAR OF HOGS

E. C. King last week shipped a car of fat hogs to the Fort Worth market, going to market with the swine.

Mrs. V. A. Leonard spent the first of the week in Plainview visiting with her daughter, Mrs. Ed Ashley.

R. L. McMurtry, cattleman of Happy, was in Floydada Sunday and Monday of this week.

The Postmaster has a \$100 Registered Treasury Savings Certificate for you this month for \$83.20. Want it?

Mrs. Gus Loyd, of Devol, Okla., has been here since last Saturday on a visit with her parents, Mr. and Mrs. J. A. Fawver.

P. T. RUCKER

PRODUCE

GOOD EGGS FOR THE SUMMER MARKETS

Large Numbers of Eggs Lost Annually Through Bad Methods of Handling

Of the 1,957,000,000 dozen of eggs produced annually in the United States, it is estimated that nearly 8 per cent of those marketed are a total loss.

This is due largely to improper handling between the farm and the market. Many farmers look upon eggs as a by product, and the returns as so much clear gain. The hens forage for a living; eggs are gathered whenever convenient and kept almost anywhere. With such carelessness and a combination of mongrel stock, dirty nests, stolen nests of broody hens, unconfined males, late-maturing pullets and other undesirable conditions, is it any wonder that the product includes a high percentage of small, cracked, dirty, stale, heated, and even rotten eggs?

Care Should Be Given Market Eggs

Occasionally the accumulations of all these kinds of eggs are taken to the country merchants and exchanged for merchandise. The merchant usually buys these eggs, "case count," paying the same price for all kinds and sizes, provided the shells are unbroken. Small production results in small or infrequent shipments.

If possible, only nonfertile eggs should be produced for market; fertile eggs deteriorate rapidly and are the cause of much loss. A broody hen on the nest, or exposure to a temperature from other sources sufficient to start incubation, causes all such eggs to be rejected when they are candled.

Eggs should be cared for carefully. Provide plenty of nests and keep them filled with clean nesting material; gather the eggs at least once a day (twice would be better), and store them in a well ventilated place, which must be kept as cool as possible. It is preferable not to wash eggs which are to be marketed, as washing removes the natural mucilaginous coating of the egg and opens the pores of the shell, so that washed eggs do not look or keep as well as eggs not washed. However, dirty eggs should not be marketed, and such eggs should either be used at home or cleaned before marketing.

In spite of the great care it sometimes happens, under ordinary farm conditions, that an occasional bad egg appears among those sent to market. All eggs from stolen nests or any not picked up daily from the nests should be candled if they are to be marketed. Candling is the process of testing eggs by passing light through them so as to reveal the condition of the contents. A simple candling outfit may be made of an ordinary pasteboard or small wooden box, sufficiently large, after the ends have been removed, to be placed over an electric light or a small hand lamp. A hole should be cut in the box on a level with the flame of the lamp. Several holes, to supply air to the lamp, should be cut in the edges on which the box rests. The box should be large enough to prevent danger of catching fire.

Candling is done in the dark. Each egg is held to the hole in the side of the box, so its condition may be seen. An egg that shows any defect should not be marketed.

Show me the young man who saves something out of each paycheck and I'll show you a successful man. It is only a few blocks to the postoffice where War Savings Stamps may be had.

S. E. DUNCAN TO HOT SPRINGS FOR TREATMENT

S. E. Duncan left yesterday morning for Hot Springs, Ark., where he will spend an indefinite period of ten days to three weeks taking the baths and treatment for nettle rash with which he has been troubled for many years.

If you want to come out ahead instead of behind at the end of the year, you had better start buying a War Savings Stamp every pay day.

ATTENDING HARDWARE CONVENTION AT AMARILLO

F. C. Harmon, of Mitchell Bros., accompanied by his wife, spent the first of this week in Amarillo at the Annual Panhandle Hardware Dealers Convention held Monday and Tuesday. They returned home Wednesday afternoon.

Carter Andrews returned home Saturday from Dallas, after spending a week in the Ford plant there studying repair methods as followed in the larger shops. He will have charge of the repair shop of the Barker Bros. Agency here as soon as the establishment is opened in their new location on West Missouri Street.

Cleve McGhee, of Lockney, was in Floydada Tuesday on business.

CITIZENS SPEND OVER \$500 ON SECTION 12 HILLS

Following the appropriation and expenditure by the county of a total of over \$500 on the Section 12 Crossing of Blanco canyon on the Floydada Ralls Road, local business men and a number of residents of the Starkey Community have joined in raising something over \$500 additional to be spent on these hills. Each year some work is done on this crossing toward a general plan of reducing the grade and widening the road so as to make it more easily passable.

The expenditure of private funds on the crossing totalled \$542.50. It was donated by the following individuals and firms:

Nothing Lost by Keeping in Mind "Safety First."

Government Bulletin Lists Varieties of Accidents in Industries That Might Easily Be Avoided by the Exercise of Care.

Electric signs blink the slogan, "Be Careful," around the big mills. From mother's apron strings to the latest newspaper the voices of safety first call "Be Careful."

Now comes the United States labor department and tells how many ways you can get hurt by falling. There are three kinds of falling: (1) Falling from a high place to the level; (2) falling from the level into a place below level; (3) falling while walking or standing on the level.

In the first classification we find all kinds of high places to fall from. In the card indexes of the safety engineers they have records of people falling from benches, boxes, chairs, tables, bridges, dams and docks, cranes, elevators, derricks, hoists—elevated bins, pockets, tanks (falls from but not falls into)—buildings in construction or demolition—floors—ladders, scaffolds, staging—boilers, engines, machines—poles, trees, roofs, runways, balconies, platforms, gangplanks, stairs and steps, tramways, trestles, windows, walls and wall openings.

Ladders, by the way, are the worst and trickiest of all. More falls from ladders than from any other high spots are recorded. As the safety engineers classify ladder falls: (1) You hit the ground because the ladder broke or a step in the ladder went to pieces under your foot; (2) either you slipped and twisted or the ladder slipped and twisted; (3) somebody or something knocked you off the ladder; (4) or how it all happened was a mystery.

Getting into Class B, where the fall is from the level into territory not on the level, people fall into excavations, pits, shafts, bins, vats, floor openings, man-holes. If standing or moving on the level you slip or stumble, you get into Class C. A stumble, however, may be caused by fixed objects or loose objects. A sleeping dog or a hunk of pig iron may trip up the feet that do not respectfully elevate.

The number of falling objects that knock people down and get their names into the accident records are collapsing buildings, walls, scaffolds, stagings, chutes, conveyors, slides, stacked, stored or piled-up material. Also racks, shelves, machines, work benches, temporary floors, trees, ditch and trench cave-ins, mine and quarry coal, rock and ore.

Experiences with "injuries due to scuffling, larking or horseplay" are noted in the federal labor department bulletin by Commissioner George Kingston of the workmen's compensation board of Ontario, Can. A railway porter wrenched his foot but was denied compensation because he "was larking with two young ladies" and showing them how nifty he was at jumping trains. Claims were allowed "where a Chinaman employed in a factory was the innocent victim of horseplay—blown up by hose; where a man had been teased by another workman suddenly turned in revenge and hit an innocent party; where a man about to punch the time clock was hit from behind by another workman, injured man innocent of any horseplay."

All of which gives us a hunch as to what the electric signs mean blinking late at night and early morning, "Be Careful."

His One Consolation.

One of the best of many good stories in "As a Tale That Is Told," Rev. F. W. Macdonald's book of reminiscences, concerns a theological argument he once overheard between two Scottish cattle drovers.

One belonged to the Free Church of Scotland the other to the United Presbyterians, known for short as the "U. P.'s."

From belittling each other's churches (says the author) they descended to personalities, and finally the U. P. man roundly denounced his opponent and all his ancestors, winding up with:

"Your father was a thief, and your mother was a witch."

"Maybe they was," replied the other. "Maybe they was. But they wasn't U. P.'s!"—Pearson's Weekly.

Where He Would Begin.

"I have made up my mind that I should like to devote the remainder of my life to serving my fellow men," said the man of wealth.

"Fine idea," said one of his friends. "I presume you will now start out to help the poor and devote yourself to charitable service."

"No, that isn't my thought exactly. I had an idea I should like to start my public life in the United States senate."

Willing to Learn.

"I see where a college professor advertises for a job that will pay him a living wage."

"Does he say what he can do?" "No; but he says if somebody will give him a chance he will forget that he studied abroad and got a string of degrees."—Birmingham Age-Herald.

Legal Wisdom.

Young Lawyer—If our case fails, what would you suggest?

NOVEL BOOTLEGGER CAUGHT

Wichita County deputy sheriffs claim to have captured a novel Diamond Dick as well as one of the best equipped liquor transporting automobiles yet discovered in the state of Texas.

The capture came after a watchful waiting that covered several weeks. The officers learned that a man driving a car carrying a New Mexico license had bartered liquor in this vicinity. He escaped, however, before they were able to apprehend him.

Expecting his return, the officers guarded the roads entering into Wichita Falls for night after night.

Finally the light "with a queer glare" appeared. The officer in charge of the squad switched on the lights of his car and started in pursuit of the long sought automobile.

After an exchange of several pistol shots, the New Mexico car was ditched.

Search of the car revealed two carefully concealed tanks containing fifty gallons of rye whiskey. One of the tanks was located under the rear seat of the car and was so constructed that the officers had difficulty in finding it. The other tank was a subdivision of the gasoline tank.

The man, who gave his name as Merk, is believed to have made several trips to Wichita Falls and to have brought the whiskey from points near the Mexican border.—Childress Post.

ALLEGES CONRER EXISTS IN PAPER MARKET

Washington, May 7.—The plight of the country press, pictured as "fighting with its back to the wall" and direct charge that the print paper market had been cornered, was put before the senate investigating committee today by Cortland Smith, of New York, president of the American Press Association. Mr. Smith was the first witness before the committee to allege a conspiracy to regulate output and prices. He declared unless quick relief was brought the country newspapers half of such properties would be wiped out of existence.

POLITICAL ANNOUNCEMENTS

The following named persons have authorized The Hesperian to make the announcement of their respective candidacies for the office indicated over their names, subject to the action of the Democratic Primary in July, 1920:

WHITE-FAGAN

Thursday evening at the parsonage of the Polk Street Methodist church, Miss Pearl White of this city and L. E. Fagan were quietly united in marriage, Rev. H. F. Brooks officiating.

Mrs. Fagan is a teacher in the public schools of this city. She has made Amarillo her home for a number of years, and is highly thought of in this community.

Mr. Fagan is a ranchman residing sixty miles west of Amarillo. He is also well known and highly thought of here. And the many friends of both young people join in extending to them sincere wishes for a happy future. At the close of the present school term Mr. and Mrs. Fagan will go to their ranch where they expect to make their future home.—Amarillo Daily News, May 3rd.

Miss White is the eldest daughter of Mr. and Mrs. A. D. White of this city. She was reared here, and has a wide circle of friends in this city and county.

TEXAS NATIONAL BANKS SHOW HUGE DEPOSITS

Dallas, May 3.—Total resources of the national banks of Texas for the close of the year 1919 were \$965,855,000 and the total deposits \$777,942,000 according to information supplied by W. J. Evans of the Dallas Federal Reserve bank to the research department of the Texas Chamber of Commerce. Figures for the Eleventh Federal Reserve district for the same date show \$1,082,582,000 total resources and \$877,236,000 deposits.

Upon the same date, the state banks of Texas showed total resources of \$405,130,000 and total deposits of \$336,018,000.

It pays to advertise in the Hesperian

Clarence Maddox left last week for Paris, Texas, on a visit with friends and relatives. Wm. Pearn returned home the latter part of last week from a stay of several days at Spur.

There is but one time to picture them as they are to-day.

The House Next Door

PRESENTED BY THE SENIOR CLASS OF 1920
 FLOYDADA HIGH SCHOOL
 FRIDAY EVENING, MAY 14th, 7:30 P. M.

DRAMATIS PERSONAE

The Cotswold Family:
 Sir John Cotswold, baronet..... Eddie Bishop.
 Margaret, his wife..... Minnie Schneider
 Ursula, his daughter..... Angie Stiles
 Cecil, his son..... Truett Butler
 Captain..... The Honorable Clive Trevor

The Jacobson Family:
 Sir Isaac Jacobson, M. P..... Burl Bedford
 Rebecca, his wife..... Delise Mitchell
 Esther, his daughter..... Lola Porterfield
 Adrian, his son..... Earl Norman
 Yoshido, his servant..... Emmy Lou McKinney
 Walter Lewis, musical agent..... Elbert Muncy

ACT I.

Scene—Morning room in Sir John Cotswold's house in Cotswold Park Estate, Kensington, London.
 Synopsis: Sir John, through his extravagances has brought the family to the verge of want. Through the efforts of the mother and daughter the son has been given music lessons. He returns a successful opera singer, anxious to relieve the conditions of his family. Sir John disapproves of his son being a professional singer.
 The son and daughter become attached to the son and daughter of Jacobson, next door, Jews who gained control of the Cotswold Estate.

ACT II.

Scene—Drawing room in Sir Isaac Jacobson's house, next door. The same afternoon.
 Synopsis: Sir Isaac Jacobson, a successful financier, inclined toward philanthropy, desires to befriend the Cotswold's, which desire is thwarted by his wife, who is socially ambitious. Sir John's hatred of Jews and especially of the man who bought the Cotswold Estate, overshadows the happiness of his own and Sir Isaac's children.

ACT III.

Scene—Same as Act I. Three days later.
 Synopsis: Sir John's temper does not improve. Cecil takes things into his own hands. The reign of tyranny is over.

HIGH SCHOOL AUDITORIUM

Admission 50c. Reserved seats 25c. Benefit School Library. Reserved seats on sale at Floydada Drug Company Wednesday.

FIRST ANNUAL MEETING
 PANHANDLE-PLAINS
 CHAMBER OF COMMERCE

June 3rd, 1920, is the first anniversary of the Panhandle-Plains Chamber of Commerce and on that date its first annual convention will be held at the office of the headquarters in Amarillo, on the third floor in the City Hall.

The meeting will convene at 10:00 o'clock a. m. on June 3rd, hearing the address by the president of the organization, Hon. A. S. Stinnett, followed by a report from the traffic manager and executive secretary, showing the accomplishments of the years work.

The executive session will conclude at 5 o'clock in the afternoon and a banquet will be spread at night to which all attendants of the session will be invited and which will constitute the gala event of this annual convention.

A reorganization of the chamber will be effected at this meeting which is considered of paramount importance to every business interest of the Panhandle and Plains country.

LOCALS WIN BALL GAME
 FROM TULIA FRIDAY

Local baseball players had their second game of the season with Tulia, having won their first game the previous Friday here. The score in the game at Tulia was 10 to 8.

Neither team has had a big lot of practice and frequent changes in line up were made to give all a chance to work out. However, the error column seems to show that a fair grade of ball was played, 4 errors having been made by the locals and 5 by the Tulia boys. The locals made their 10 runs on 10 hits, the Tulia boys garnering 6 hits off Mickey and Curry. Mickey did good work for early season playing, pitching 6 innings, and was relieved by Jim Curry who finished the game with Hollis Moore behind the bat. The line-up for the locals at the beginning of the game was:

Curry, Catcher; Aubrey Bishop, l. f.; Barrow, 3b; I. Bishop, 2b; Carter, 1b; Moore, c. f.; Smith, ss.; Eubank, r. f.; Mickey, p.

BUYS TEAM REGISTERED PERCHERON MARES AT SALE

M. D. Ramsey was among the Floyd County farmers who attended the sale of registered Percheron mares and stallions at Amarillo last week.

Mr. Ramsey bought two registered mares at the sale, which were received here by him Friday afternoon.

The mares are 3 and 6 years of age, and make Mr. Ramsey probably the best team in Floyd county.

H. L. Snodgrass, G. L. Snodgrass and I. D. Evans also attended the sale, and Snodgrass & Evans bought one of the best Percheron stallions put on the block.

RESERVE SYSTEM EARNS
 \$100,000,000 IN YEAR

Washington, May 6.—Earnings of the Federal Reserve System this year were estimated at \$100,000,000 by Governor Harding of the Federal Reserve Board in testifying yesterday at the House Rules Committee hearing on the resolution proposing an investigation of the Federal Reserve administration. These earnings, he said would exceed by \$10,000,000 those of last year which he said represented a return of 110 per cent on capital stock. Without explaining his statement Governor Harding told the committee that serious problems confronted the country in the next six months. Referring to complaints of country bankers against the universal par clearance order of the Reserve Board he said such protests were to the board "like fleas to a dog who must have fleas to know he is a dog."

PEASE RIVER BRIDGE FINISHED

The bridge across North Pease river, in Cottle county, has been completed this week and will be ready for use just as soon as the approaches are completed. It is expected to approaches will be made next week.—Childress Index.

O. P. Rutledge, N. W. McCleskey and J. H. Donaldson spent last Friday afternoon in Tulia.

J. W. SAFFLE, Pastor.

T. B. HILL, OF LOCKNEY,
 RETIRES FROM SHERIFF RACE

T. B. Hill, of Lockney, has retired from the race for sheriff and tax collector of Floyd County, according to a signed statement in The Lockney Beacon last week.

Mr. Hill gave as his reason for withdrawing from the race, the fact that it will conflict with other business, which will require his attention.

The high cost of low thinking runs into millions of dollars every year. For instance, take the fellow who hasn't bought a single War Savings Stamp this year.

R. M. Tarpley, of Collinville, Texas, left the first of this week returning home after a week spent here on business. Mr. Tarpley owns real estate here. He was the guest of J. C. Dickey while in Floydada.

M. C. returned Wednesday of last week from Indiana where he spent the winter and early spring at his former home.

Up in Fate, Texas, there is a little woman who believes that Thrift is the good management of the business of living. Every two months she goes to the postoffice and salts away her savings in a \$100 Registered Treasury Savings Certificate. She believes that working and saving is a pretty good combination.
