Q. How will I pay the tax?

A. When you buy something that is taxable, the retailer will add the tax to the purchase price. He will determine the price tax by applying a tax "bracket" stated in the law. For example, purchases under 25 cents will not be taxed. If the price is between 25 cents the price is between 25 cents and 74 cents you will pay a tax and 74 cents you will pay a tax of one penny; the tax will be two cents on items costing from 75 cents to \$1.34, and so on. Over the long haul, this bracket system is designed to average out to a 2 per cent tax on what you buy, and it enables the retailer to collect the tax without the nulsance of stamps or tokens.

Q. Can I get credit for this tax when I pay my Federal income tax?

Sales Tax for Texas

Texas has crossed the great divide of controversy and entered the field of general sales taxation,

To the central collection point for the operation of the state's business, this means some \$320,000,000 in the next two-year pe-

To the individual taxpayer, the cost is unknown, but educated guesses are already being made.

James McGrew, research director for the Texas Research League, has estimated it will cost the average Texas family \$25 frained from any beer sales on to \$30 a year, "maybe less it they don't buy any furniture or Sunday until recently. home appliances.

With some exceptions, the general sales tax will be two per cent on purchases of 75c or more.

Passage of the tax bill and the attending publicity caused many a man-and woman-on the street to suddenly realize that already there was a state sales tax on on such things as cosmetics and appliances.

Actually, the sales tax bill was only part of the tax package handed down by the lawmakers. In addition to the \$320,000,000 estimated to come from this source, they passed a corporate franchise tax worth \$20,500,000. They increased driver's license fees by \$7,250,000. They made a bookkeeping transfer of motor fuel tax funds totaling \$4,000,000. They also taxed dedicated gas reserves \$3,330,000. And they passed a bill designed to bring in some \$3,000,000 from abandoned property.

In addition, the Legislature previously had passed a tax on

private clubs, calculated to raise some \$4,000,000. Roughly, it is figured that all these things will cover the state's needs for the next two-year period. and provide for a school teachers' pay raise of \$810 per year.

Back Door Spending

The federal budgets are coming perilously close to the \$100 billion-a-year mark. One reason is what is known as "backdoor spending." This is a procedure by which a federal agency may obtain funds for a project or program without previous or later annual scrutiny by the appropriations committee of Congress.

A current example is found in the housing bills, which carry price-tabs of close to six billion. As the Citizens Public Expenditure Survey points out, this is a type of spending "over which Congress has little or no say-except to pay the bills as they come due." And that amounts to an abandonment of one of the most important duties laid upon Congress by the Constitution,

If there ever was a time when every item of expenditure demanded the closest examination and control, this is it.

Of course, it didn't go into the records until the Army made it official. You know how low things move in Army hannels, so it's easy to understand the delay in the promotion coming through.

We are glad to acknowledge | farm labor supply. They face financial loss if a bumper cotton crop materializes and then dogger, roper, rider - in the cannot be harvested in a normal length of time.

These threatened labor strikes and in a true sense that's all there is involved - will eventually work to the disadvantage of the Braceros. Farmers will turn more and more to mechanical harvesting and in a few years the need for Braceros will disappear.

A local investigation of reported discontent among Mexican field workers employed here revealed that none existed. To the contrary, the workers were contented and eager to stay on their jobs.

Most of the agitation and claims of discrimination came from three resident Mexicans who had made complaints to crowd breaking into cheers, county and city officials. Then, to carry their point the men, all working at good jobs here. threatened further complaints that would "black list" Haskell so far as Mexican workers were concerned.

lames L. Fowler Takes Summer Course In D-E

James Larry Fowler of Haskell is one of 16 Texas instructors who studied methods of driver education at North Texas State College in Denton this summer under an All-state Foundation scholarship,

Fowler, teacher in the Callisburg school, is the son of William A. Fowler, 1108 N. 8th St., Haskell.

The foundation made a \$2,-500 award to NTSC this summer, the seventh consecutive grant made. It brought to \$23,-500 the amount given to the college.

The program is designed for teachers who will participate in driver education in their high schools starting in Sep-tember. The foundation was established by the Allstate In-surance Co. to stimulate more and better high school driver education courses.

Teachers prepared in an NTSC summer program have, on the average, taught about 2,300 high school students the following fall.

Chaplain Barnett Is Promoted to Lieut.-Colonel

Announcement has been received from the Department of the Army that Chaplain J. R. (Robert) Barnett has been promoted to Lieutenant Colonel, effective July 24, 1961. Chaplain Parnett is present-

ly assigned to Darmstadt Subpost in Germany where he has resided with his family for the past year. He has served in the Army

of the United States as a Chaplain for over 16 years in many assignments in the States and also in foreign countries, in-cluding Europe, Japan, Korea, and Alaska, He is also a grad-Talaro of Ha- uate of the Advanced Course to the Catho- of the Chaplain School located in Fort Slocum, New York where he attended in 1959.

Chaplain Barnett is a former pastor of the Pinkerton Baptist Church and is the son of Mrs. R. Barnett and a brother of Police Chief Tom P. Barnett, both of this city.

Cream two sticks of oleo; add two cups sugar and continue creaming. Add six whole eggs, one at a time, and beat after each addition. Using a rolling pin, crush a 12 oz. box of vanilla wafers. (These are used instead of flour and there is no baking powder used.) Add the wafers and one-half cup of milk, alternately. Then add one package of angel flake cocoanut (buy a 7 oz. package, not a can.) Fold in one cup chopped pecans. Grease and flour a tube pan, then add the batter, bake at 275 degrees for ater, bake at 275 degrees for about one hour and 15 minutes

Q. Just how do I get the 3 per cent discount?

A. By the middle of the second month of the quarter, you must estimate and pay a tax for the entire quarter. For example: You estimate you will sell \$100,000 worth of taxable announced as follows: goods during January, February and March. Before Feb. 15. you file an estimated tax return with the Comptroller and send him a check for \$1,970-\$2,000 estimated tax less 3 per cent discount. Then in April you will file an amended or final return. If it shows you actually owed the state a tax of \$2,100, you would remit an additional \$99.00-the amount due the State less the normal 1 per cent discount to which you are entitled on taxes remitted at the proper time.

tax needs of the State by \$19- Budget for New School Year Is Set at \$353,920

A budget of \$353,920 covering estimated expenditures for the 1961-62 school year was adopted by the trustees of Haskell Independent School district at the last regular meet-

Slight revision of the budget may be necessary, it was explained in making adjustment for the increase in salaries auhorized last week by the Leg-

Total expenditures estimatthe 1961-62 budget are ed in almost \$20,000 under expenditures for the 1960-61 school year, which amounted to \$373,-

Total operational expense for the coming school year is budgeted at \$310.949, with capital outlay, debt servicing, etc. accounting for the remaining

The budget anticipates total revenue receipts of \$359,475, of which \$169,555 will be from local sources and \$187,788 from State sources.

Teacher Pay Raise The teacher pay raise auth-orized by the Legislature will cost the Haskell school district money, a check of the bill's provisions show.

Actually, teachers in Haskell schools will receive a total of \$41.142 as a result of the pay raise, with only \$2,557 of this amount coming from local funds. This means a net increase of \$38,585 coming into the district in the form of pay increases for teachers.

Shows Decline In For Mrs. Miller Lone Star State

ndustry continued its headlong decline during 1960. The Lone Star State lost a million out of state visitors

last year, according to the 1960 Texas Tourist Industry Report released today by the Texas Highway Department,

Herbert C. Petry Jr., of Carrizo Springs, Chairman of the Texas Highway Commission, said he is "deeply disturbed" at the consistently downward trend of the Texas tourist industry in recent years.

Tourism is a vital factor n the economy of our State," Petry said. 'Tourists pay \$17 trade means a loss of multions of new dollars to our economy Year-to-year decline in tourism since 1957 is the direct result of aggressive competition from other States. We are engaged in a 'wat

between the States' for the tourist dollar," he said,

Heavy Summer Rains Em Need for Soil, Water Pro

Unusual amounts of rainfall during June and July in this his ranch loss Rule, west of part of West Texas should awaken everyone to the great need that still exists to prevent Fred Gillian 4-J Cattle soil and water losses, states Hooker of A stier of Harry G. Koehler, Conservation with the Conservation Service, Haskell. Conservation |

This area is considered dry with only about 22 inches of livestock with rainfall annually. Heavy rains land of Hand during the past months have ess of control washed out crops and caused one of his h excessive silting, soil losses, of Haskell.

A lot of new gullies have cut their scar across the face of the earth. Advance prepara-tion, planning and the application of conservation practice is necessary if we are to preler said.

Terrace construction is again underway for the summer season, but is lagging far behind previous years.

Koehler stated that Dennis Ratliff of Haskell, Harlan Weinert, M. W. Phemister, Eddie Sanders, Wayne Josselet and R. L. Edwards of Weinert cooperators with the Wichita-Brazos Soil Conservation District have recently completed the lay-out work for new terrace systems. Construction of these systems are now under-Way.
