

THE FLOYD COUNTY HESPERIAN

VOLUME NUMBER 26

FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, JUNE 5, 1919.

NUMBER 13

JIM CRIE'S DEATH RESULT OF SCALDING

Was in Charge of Electrical Crew
When Fall into Vat Results
Fatally.

Further details of the death of James G. Crie, a former Floydada boy are given in the following account carried by the Lynn County News, of Tahoka, last week:

The many friends of James G. Crie, son of Mr. and Mrs. H. C. Crie, of this city, will be pained to learn of his being severely scalded by falling in a vat of boiling water, at Hurley, New Mexico, last Saturday afternoon, from the effects of which he died late Sunday.

At the time of the accident, Jim, (as he was familiarly known) had supervision over a large number of men in the light plant of a large copper mining outfit near Hurley, and although the exact details of his death are not known at this writing, it is supposed that he accidentally fell into the tank in performing his duties about the plant.

A message was received here by the parents Saturday night telling them of the accident, and Mrs. Crie left at once for his bedside, but failed to reach her destination before he passed away. Later a message was received by the family, that the young man died at 3:30 o'clock Sunday afternoon, in a hospital at Santa Rita, seven miles from the scene of the accident.

James was editor and manager of the Lynn County News for several years, having charge of the plant up to the time the paper changed hands in January, 1918.

In December, 1916, he was married to Miss Lorene Boswell, of Plainview. To this union one child was born. Soon after disposing of the newspaper business, he moved with his family to Floydada, and held a position on the Hesperian at that place a short time, later moving to Hurley, New Mexico, to accept a position with a mining company.

The body, accompanied by his wife and child and mother, arrived here yesterday and burial will be had in the Tahoka cemetery Friday, (today).

MONUMENT TO MRS. MAUD HENRY IS UNVEILED

Sunday afternoon Floydada Grove of the Woodmen Circle unveiled and dedicated the monument to the memory of Mrs. Maud Henry, deceased wife of R. L. Henry, at the Floydada cemetery.

Mrs. G. A. Crum, guardian of the grove here officiated at the unveiling and the address was made by Rev. O. A. Mealer.

At the request of the home grove of Mrs. J. E. Vardaman the monument to her memory was also unveiled Sunday afternoon with ceremonies. Mrs. Vardaman's death occurred on December 15th, 1909. Her husband was the first manager of the A. G. McAdams Lumber Company yard in Floydada, and her death occurred after the family had lived here for a little more than a year.

Miss Cleo Andrews, who spent several days at Vernon on a visit returned home the latter part of last week. She was accompanied by her cousin, Miss Ina Boyd, who will visit at the Andrews home.

MISS STELLA CURRY MARRIED AT HALSELL

Miss Stella Curry, daughter of Mr. and Mrs. D. T. Curry, was married at Halsell, Texas, to Mr. Alvis Chaving on Monday, May 26th. The family formerly resided at that place and Miss Curry was there on a visit with friends when she was married.

The wedding had not been announced and came as a surprise to the family here.

In a recent letter to the home folks Mrs. Chaving says they will probably remain at Halsell for several weeks before coming out on a visit with her parents.

COUNTY SAVINGS ORGANI- ZATION IS PERFECTED

E. C. Nelson, vice president of The First National Bank, has been chosen this year as County chairman of the War Savings Division of the Treasury Department and has announced the following appointments of sub-chairmen: Vice chairman, Geo. A. Linder; Chairman of the Woman's section, Mrs. L. V. Smith; J. G. Wood, Director of sales; W. L. Boerner, director of War Savings Societies; Homer Steen, director of Publicity; and W. B. McDaniel, director of Speakers' Bureau. With the exception of Mrs. Smith, all of these have consented to serve. Mrs. Smith is out of town at present.

Following the visit of Territorial Savings Adviser Robt. L. Dudley here Tuesday and Wednesday, the announcement of the appointment of Mr. Nelson and his chairmen was made, and two savings societies were organized.

FARCE BASEBALL GAME STAGED YESTERDAY

Six innings of a scheduled nine-inning ball game were played yesterday afternoon on the local diamond between a team of Floydada ball players and a team representing the Elk's Lodge at Plainview. The visitors were unable to bring a complete line-up of their regular players and made a very poor showing. The score at the end of the sixth was 13 to 0 in favor of the local boys.

Willis and Brashears were batteries for the visitors and Womack and Curry for Floydada. Womack is a portside heaver. He did excellent work in his first effort with the team.

\$30,000 REAL ESTATE DEAL MADE HERE

Considerable interest is being taken in Floyd County real estate and trading is beginning to brighten up. This week a \$30,000 deal was made by the J. A. Fawver agency between J. E. Stephens and W. C. Lee.

In this trade Mr. Stephens will be given title to a half section of land in Lakeview community and Mr. Lee is given a quarter section in Cedar community and land in Stephens and Haskell counties.

PRICE SCOTT TO SPEND SUMMER AT TEXAS U.

Price Scott left this week for Austin, Texas, to take a summer course at the State University.

He has contracted to teach at Lakeview the ensuing term as principal.

KIRK SCOTT RECRUIT FOR AIR SERVICE

Long Joy Ride in Plane to Taliaferro
His Introduction to Service

Kirk Scott, eldest son of Mr. and Mrs. R. C. Scott, is the first Floydada boy to join the air service of the United States Army since the recruiting campaign for this branch of the service has been in progress. He made application for entry into the service the first of last week and Thursday a plane from Taliaferro Field, Fort Worth, in charge of Lieut. A. D. Hart, landed here to convey him to the field to enter the service. The landing place chosen by Lieut. Hart was the same as that used by Lieut. Elliott here during the Liberty Loan campaign. He reached here a short time before noon and together with young Scott left about two o'clock. They landed first in Childress and later flew on to Taliaferro.

TWO SAVINGS SOCIETIES ARE ORGANIZED HERE

County officials of Floyd county organized a Thrift Savings Society here Tuesday afternoon, electing Judge J. W. Howard president of the association and Mrs. Lillie Britton secretary-treasurer, thus setting an excellent example for their constituents to follow.

Wednesday morning the postal clerks and carriers at Floydada, including Postmaster Henry organized into a Savings society also. J. G. Wood is chairman and Wells Henry secretary-treasurer.

The county officials organization has ten members, the postal clerks and carriers eight.

The organizations were started by Robt. L. Dudley, territorial savings adviser for what is known as the Lubbock district, consisting of twenty-one counties. Mr. Dudley was here Tuesday and Wednesday. The campaign, since the war is over, is being carried on as an educational feature of the Treasury Department's activities. A nation of people practicing thrift is the aim of the propaganda. The difference between a successful and an unsuccessful person is very slight, Mr. Dudley declares. The person who sustains himself and family and saves a little money is a successful person, and the person who spends more than he makes, not being self-sustaining, is not successful. Thrift stamps furnish the means for the small as well as larger savings in the most convenient way ever devised in America.

COLD SNAP MAKES B. V. D.'s UNCOMFORTABLY COOL

Light weight summer clothes do not go well with heavy-weight spring weather and the thermometer hovering from 45 to 50 degrees. Neither has it been favorable to sprouting row crops the past three or four days. Wheat and oats are thriving on the change from the sultry weather of last week, however.

Floyd county was in the tag-end of a norther which was cold enough for snow on the extreme north plains and cold enough at Amarillo to be called a "cold snap". It most rained for three days to Wednesday morning.

The Middle West is reported by travelers to have been bothered with the cold for a long period, so much so as to be a material set-back to growing crops.

RAY V. RANDERSON AND MISS GALLOWAY WED

Ray V. Randerson and Miss Lillian Galloway, of this city, were married Thursday afternoon, May 29th, at seven o'clock at the Baptist Parsonage Rev. W. B. McDaniel officiated at the wedding.

Mr. and Mrs. Randerson left the latter part of the week for Comanche, Texas, where they will make their home.

FRANK MOORE NOW DEPUTY COUNTY CLERK

Frank Moore Monday morning began work with County Clerk Tom W. Deen as deputy.

He has been salesman for Brown Bros. grocery for more than a year, resigning the first to take the place in the clerk's office.

FRED KING MARRIED

Fred King, of Roaring Springs, brother of Miss Myrtle King, of this city, and former student in the Floydada schools, was married the latter part of May to Miss Ila Hobbs, an Oklahoma girl.

Mr. and Mrs. King were here visiting Miss Myrtle the first of last week spending two days here.

3 AMENDMENTS GET MA- JORITY IN FLOYD COUNTY

All but Governor's Salary Amend-
ment Get Majority in This Co.

In the official canvass of the vote on the four state constitutional amendments in Floyd County made by the Commissioners' Court Saturday it was determined that three out of four of the measures carried in this county, prohibition, Woman suffrage and state's credit each getting substantial majorities while the amendment to increase the governor's salary from \$4,000 to \$10,000 lost by almost a hundred votes out of 772 votes cast.

The figures for the county are as follows: For prohibition 604, against 164; for woman suffrage 530, against 247; for increase in governor's salary 340, against 432; for state's credit 498, against 274.

CALL FIELD IS READY FOR AIR SERVICE RECRUITS

The Hesperian is in receipt of the following letter from the commanding officer at Call Field, Wichita Falls:

"Some time ago we wrote you a letter concerning enlistment in the Air Service, with the statement that an airplane would very probably visit your city in the near future. Due to the continued rains we have not been able to visit as many towns as we intended.

"Since my last letter, we have received authority to give men who desire to enlist in the Air Service a ride in an airplane from their home to the Field here. We can fly men in from almost any point in Central West Texas, including the panhandle, and southwestern Oklahoma, all that will be necessary for airplane to fly to get a man will be for him to either telegraph, write a letter, or telephone the Commanding Officer or the Adjutant at Call Field, Wichita Falls, Texas, stating where recruit may be found and on what date he will be ready to enlist. An airplane will then be promptly sent to get him."

MARRIAGE LICENSE ISSUED

Last Friday license to marry was issued by County Clerk Tom W. Deen to Floyd Love and Miss Estelle Wiggington.

Miss Wiggington is the daughter of W. L. Wiggington who lives several miles northeast of Floydada.

MR. AND MRS. J. K. GREEN ENTERTAIN CLUB

Mr. and Mrs. Jas. K. Green entertained the Social Club at their home in northwest Floydada last Thursday evening.

84 was the principal diversion of the evening, several enjoyable progressive games being played.

A salad course and sherbet and cake were served.

Mrs. Homer Steen was elected secretary of the club to succeed Miss Mabel Yearwood, who is spending the summer in Washington, D. C.

Members will be notified of the next meeting place of the club.

TEACHERS WILL SPEND SUMMER IN COLORADO

Misses Jessie Green and Daltis Rea left this morning for Colorado where they will spend the summer. They will visit Pueblo, Denver, Colorado Springs and other points of interest for a short time and will then go to the State University at Boulder for a summer course. Both have accepted positions in the Floydada School for next term and will return to Floydada shortly before the term opens in September.

TO VISIT IN TENNESSEE AND MISSOURI

Mr. and Mrs. R. H. Willis left Monday for Russellville, Tenn., where they will visit with relatives at Mrs. Willis' childhood home.

Before returning home they will also visit at Kansas City and Moberly, Mo., with relatives.

They plan to be absent from Floydada about six weeks.

E. J. HOFFMAN'S MOTHER ILL

E. J. Hoffman and family left Tuesday morning for Henry, Ill., where they go to be with Mr. Hoffman's mother in what is feared will be her last illness.

Mr. Hoffman had a telegram from his mother's home Monday afternoon which held a little hope for her recovery.

GOOD WOOL AND LAMB CROP THIS YEAR IN FLOYD COUNTY

The sheep-shearing season has opened in Floyd county and a few herds have already been sheared. The clips are proving most satisfactory in every report made to date. Several farmers will begin shearing this week.

The lamb crop is also excellent this year. Several reports have been made of more than 100 per cent increase.

There are many herds of sheep in the county and the good prices of wool and lambs coupled with good crops of both will give the sheep industry in the county a big profit on the investments made.

COUNTY SCHOLASTICS SHOW DECREASE OF 82 CHILDREN

Floyd County's loss in scholastic population in 1919 from 1918 is only 82. This will make interesting reading to many who expected to see a much larger decrease marked up. The figures for this year are 2,486 scholastics. The loss is shown to have been greatest in Floydada and Lockney Independent School Districts, some rural districts showing a material gain.

Some estimates of the loss of scholastic population in the county had placed it as high as 200 or 300, because of the exodus to the oil fields and the fact that last year was the most unprofitable for the wage earner in the history of the county. The figures indicate, however, that practically as many people moved into Floyd County as moved out during the period.

STREETS AND ALLEYS ACCUMULATING RUBBISH

The Mothers' Club has called attention to the fact that the benefits of the "Clean Up Day" may be lost in the down-town district of Floydada through the carelessness of property owners. Papers and rubbish are collecting in the streets and alleys of the down-town district.

The club is making a request that all owners and occupants in the business district take care of the accumulation of rubbish and that which can be burned destroyed that way and the remainder not allowed to scatter over the streets or alleys.

ROBT. MCGUIRE LANDS

Robt. McGuire has landed in the United States again, and is stationed at Camp Merritt, N. J., for the present, a card received this week by Mrs. Jno. W. Smith says.

His outfit, the 142 Infantry, landed at New York City May 31st on the Pueblo. He is in the Headquarters Company.

Camp Merritt has been used as a demobilization camp for the past few months and he is expected to be home probably within two or three weeks.

MISS MARIE HENRY RETURNED FROM DENTON, TEXAS

Miss Marie Henry returned Tuesday from Denton, Texas, where she has been in school at C. I. A.

WHEAT CROP CONTINUES TO LOOK GOOD

Estimate of Number of Cars to be
Needed Here Placed at 600

The wheat crop in Floyd County continues to look good. With dry weather for ten days the crop is getting back its good color and the rust on the late wheat is doing much less damage. About one-fourth of the crop is late. This looked doubtful for a time as to probable production. Late weather conditions have added materially to its prospects and grainmen are counting on it to add considerably to the heavy production.

"Early wheat is just fine in this territory," W. H. Edwards of the Edwards Grain & Elevator Company said Tuesday after spending almost a day in the fields. His estimate on various early crops runs from 22 to 35 bushels per acre.

It now appears that harvesting will not begin by the tenth though the fifteenth is expected to see some harvesters in the fields.

The total production in this territory is expected to run easily 500,000 bushels, though some acreage and production estimates place the figures much higher. The acreage in the territory surrounding Floydada is typical of the entire county and county totals will reach a million bushels or more. Floyd County will easily lead in the production of wheat in the territory south of Amarillo.

What is taken as a thoroughly reliable report indicates that the Santa Fe railroad, whose agents have been in this territory, believes the production in this territory will equal the conservative estimate made above. The carrier company figures that 600 cars will be required at Floydada, it is said, and the grain cars being used will average above 1200 bushels, so that their figures would place the probable production marketed at Floydada three-quarters of a million bushels. All cars which will serve for grain are being mobilized in the panhandle country and several of these cars have been set out here.

Lack of labor may prove to be a hindrance to the rapid marketing of the crop, but grainmen express the belief here that storage is going to be the big problem after the first few days that harvesting is begun.

BOARD OF EQUALIZATION SITTING AGAIN

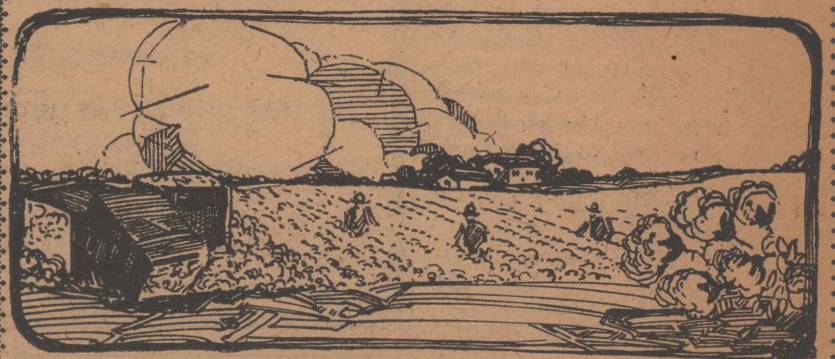

The Board of Equalization for Floyd County is sitting again this week, beginning Wednesday, after adjourning last Saturday.

The board will likely finish its equalization work by Saturday night. The same basis of valuations as used last year for both town property and farm lands has been adopted by the board.

Miss Loraine Stephenson left last mid-week for Fort Worth. She will visit in Sanger and attend a house party in Denton after which she will spend the remainder of the summer in Fort Worth.

First State Bank

Cancelled Checks

OFTEN we are called on to produce cancelled checks which settle an account in dispute. There is no arguing about the evidence—the check—its amount, endorsement and date are final.

Is it not strange that there are still some people who do not apply this insurance against double payment to their own personal bills?

And it does not cost anything, either.

BROWN BROTHERS

COOPERATIVE EGG MARKETING CUTS LOSSES, HELPS PROFITS

A community egg circle is really a modern revision of the old fashioned knitting bee or spelling school, with the exception that it aims toward financial profit rather than social benefit for its members. The annual egg crop of Uncle Sam amounts to approximately \$700,000,000 in value. Largely because of improper handling and inferior methods of marketing there is an annual loss of approximately 8 per cent of the eggs marketed.

Many farmers look upon eggs as a by product, and the returns as so much clear gain. Their hens forage for a living, eggs are gathered when convenient and stored almost anywhere. With such carelessness and a combination of mongrel stock, dirty nests, stolen nests of broody hens, unconfined males, late maturing pullets, and other undesirable conditions, it is any wonder that the ultimate product includes a high percentage of small, cracked, dirty, stale, heated, and even rotten eggs?

Occasionally the accumulations of country eggs are taken to the cross-roads merchant and exchanged for merchandise. The merchant usually buys these eggs "case count", paying the same price for all kinds and sizes, provided they have unbroken shells. Small production results in small or infrequent shipments.

How to Prevent Losses

How can these losses be prevented? By selecting pure breeds that lay more or larger eggs, such as the White Leghorns, the Wyandottes, Plymouth Rocks, Rhode Island Reds, or Orpingtons; by giving better care, food, and shelter to the flock and providing dry, clean, vermin-proof nests; by confining males except during the breeding season; by collecting eggs frequently, especially during hot or muggy weather; by storing eggs in a dry, clean, cool place; by using the small and otherwise unmarketable eggs on the home table; by marketing frequently, with protection at all times from heat; by selling for cash on a basis of size and quality, "loss off" instead of "case count"; by using an attractive package; and by combining shipments as a measure of economy. By uniting several egg producers in an association or egg circle more can be accomplished in these essentials.

One successful egg association has a large incubator house of 12,000 eggs capacity, where early chicks are produced for the members at low cost. This is done in order to obtain early maturing pullets, thus when the supply is usually scant. The association also has a receiving room for eggs where they are candled, sorted to weight (about 24 ounces to the dozen), packed in cartons and shipped on contract orders. All eggs are guaranteed to be according to grade. The association advertises the fancy grades on their cartons and cases and market prices are paid to the members. Twice a year dividends are paid each member in proportion to the amount of eggs marketed through the association and the time of year the eggs were brought in, a larger dividend being paid a dozen for eggs marketed in the fall and winter than for those delivered in the spring and summer. A regular trade is established with discriminating consumers, with city clubs, with the best class of hotels and restaurants and with fancy grocers for a supply each day or week. The reputation thus established enabled this association to obtain a price several cents a dozen above the regular market quotations, as fancy trade is willing to pay a premium for a guaranteed article. Most egg circles also co-operate in buying their chicken feed and other poultry supplies.

Fancy Package Attracts Public

All food products should be delivered in clean, attractive packages. Some of the most successful egg shippers have discarded the dirty wooden case and are using a heavy fiber board case, which will hold from 15 to 30 pasteboard cartons. Each carton has compartments for 12 eggs. Upon the carton, and the case can be printed such advertising as may be wished. This style of package is especially desirable for the fancy retail grocer who can have his firm name included in the advertising. The fiber board case is not expensive, forms a good protection for the eggs in shipping, and is of trial. Write for information.

that is, 150 miles. Each egg should be wrapped in paper to hold it snugly on end and in its own individual compartment of the container; and after the container is closed it should be securely wrapped in strong wrapping paper and tied with coarse, strong cord. When there is a successful creamery established in the country neighborhood, eggs can be delivered to it with the cream or milk. Creamery officials can often work up a fancy trade among their butter customers. Farmers desiring to organize a community egg circle should correspond with the United States Bureau of Markets, which will supply them with detailed information regarding its organization, operation, and management.

SHERIFF'S NOTICE OF ELECTION FOR THE ISSUANCE OF SCHOOL BONDS

THE STATE OF TEXAS, County of Floyd.

Notice is hereby given that an election will be held on the 14th day of June, 1919, at Liberty School House in Common School District No. 24 of this County, as established by order of the Commissioners' Court of this County, of date the 4th day of March, 1911, which is recorded in Book 3, page 7, of the minutes of said court to determine whether a majority of the legally qualified property taxpaying voters of that district desire the issuance of bonds on the faith and credit of said Common School District in the amount of \$3,200, the bonds to be of the denomination of \$100.00 each, numbered consecutively from one to 20, both inclusive, payable 20 years from their date with option of redemption after four years from their dates, and bearing five (5) per cent interest per annum, payable annually on April 10th of each year, to provide funds to be expended in payment of accounts legally contracted in constructing and equipping a Public Free School building of wood material and to determine whether the Commissioners' Court of this County shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity.

All persons who are legally qualified voters of this State and County, and who are resident property taxpayers in said district shall be entitled to vote at said election.

Said election was ordered by the County Judge of this County by order made on the 19th day of May, 1919, and said notice is given in pursuance of said order.

Dated the 20th day of May, 1919.
J. A. GRIGSBY,
11-4c Sheriff Floyd County, Texas.

Tom Messenger left Tuesday for Amarillo on a business trip.

INFORMATION GIVEN ON HOME NURSING CLASSES

Mrs. A. P. McKinnon, chairman of the Floyd County Red Cross, has received the following bulletin from division headquarters at St. Louis, relative to the classes in Home Nursing, which she gives to the press for the general information of those who desire to know more of the plans for the classes which will probably be arranged this summer:

"In paragraph 29, permit me to refer you to a recent communication from Mr. Alfred Fairbank, Acting Manager, under date of March 28, directing your attention to Class Fees. May I again remind you that though money required for conducting classes in the past was derived from revenue of class fees, and though it may be desirable that this course should, as far as possible, be self-supporting, the chief purpose is to disseminate to the greatest extent possible the information and knowledge which the course in home hygiene and care of the sick offers and to this end the chapters will in the future assume the financial responsibility of this class work and may conduct them free of charge to the students. Chapters will use their own discretion in this matter however and will, when desirable, require students to make contributions to the chapter for this instruction.

"Kindly give your attention to the following suggestions:

"1—That the object of the course is to instruct women in the fundamental principles of Home Hygiene and Home Nursing so that the homes of our country may be centers of health.

"2—The Red Cross purposes to prepare women of our country not only to be more efficient in their homes, in the prevention of diseases, but to make them more effective in their co-operation with public health authorities in times of epidemics, and a greater support to the Public Health Community Nurse in her daily work of health education.

"3—The course is primarily educational and it in nowise qualifies a woman as a professional nurse.

"4—It is not a preparation for nursing as a measure of earning ones livelihood. Students taking the course are not nurses and should not be spoken of as such.

"5—While the Chapters should keep a list of the young women who have completed the course, they should not conduct a Registry with a view of providing the community with nursing assistance.

"6—In giving both the certified and modified courses such portions of the text as relates to nursing should in every instance be done by an enrolled Red Cross nurse. But the Hygiene may be taught by a teacher in physiology or such other teachers as may be qualified to do so.

"7—The health instruction is a permanent activity of the National Organization and will be continued and promoted until the course has been instituted in every school in the country and until some member of every household has received this instruction.

"We believe that our Chapters when they recognize the importance placed upon this activity by our National Red Cross will immediately perfect their organization and prepare to carry out the instructions in every detail."

O. P. RUTLEDGE

HOW SAILORS "LAY GHOSTS"

Men of the Sea Give Short Shift to Matter-of-Fact Spooks That Annoy Them.

The first lieutenant had just been relieved, writes "I. S. T." in the London Mail, and was wending his way from the destroyer's bridge to his cabin. It was fairly calm, but very dark, and there was little to be seen but a line of waves on each side and the dim form of a second destroyer in station astern. Even for this "No. 1" had no eyes, for he had had a weary middle watch and bed was his only interest. But he did notice a weird figure, apparently human, crawling about near the "handstand" of the after gun.

He went to investigate and found the surgeon probationer, clad in a chamois leather overall suit, in which he had been sleeping on the ward-room couch below—for every one must sleep more or less clad, ready to turn out at a moment's notice. He was feeling about in the dark, apparently in search of something.

"What on earth are you doing, Doc?" he asked, and got the brief answer, "Laying a ghost." The first lieutenant granted and disappeared below, leaving the doctor to insert a paper wedge between a loose rattling shell and the side of the stand in which it was placed.

A ghost, in naval language, is a noise which cannot be accounted for. In a destroyer one becomes a connoisseur in noises.

The steering gear clanks heavily at intervals and the rhythmic beat of the engines is always there, changing only when the speed is altered. In heavy weather the washing and beating of the water makes a hundred noises.

But ghosts are extra noises and should be avoidable. Some misplaced or ill-fitting article or a loose screw may cause the noise, and with the ship's vibration it will knock or rattle with a regular persistency that will drive the most placid mind nearly to frenzy, and sleep will rarely be the victim's portion until he has left his warm bunk and found the cause of the trouble and the ghost is laid.

COIN TOOK FANCY OF ARABS

Austrian Maria Theresa Dollar Has Long Been the Principal Money of That Region.

The only coin in general circulation in Abyssinia is the Austrian Maria Theresa dollar, of silver. It is also the principal money in Arabia, and the story of its introduction in those regions and all the neighborhood of the Red sea is quite interesting.

More than a century ago trading Arabs got hold of some of these dollars and found the effigy of the queen (which they bore on one side, the reverse showing the Austrian double eagle) so attractive that they sought to obtain more of them, for sale as jewelry. Later on they became highly popular as a medium of exchange in mercantile transactions in Arabia; and when at intervals the Turkish government prohibited their importation a large and profitable business was done in smuggling them through Aden and other seaports.

They are all dated 1780, being even now minted from replicas of the original die, which is of rather crude workmanship. Any change would not be understood by the Arabs and Abyssinians and would render them less acceptable.

Bankers and merchants in the Red sea region import the Maria Theresa dollars in bulk from Trieste, selling them at a good profit or exchanging them for native merchandise. They are somewhat larger than our silver dollars, but weigh less than an ounce and are only a little over four-fifths silver.

Wrought Iron From Ore.

Wrought iron is not commonly produced direct from the ore, but a California metallurgist, using petroleum as fuel, claims to avoid the usual troubles and to obtain pure iron at a much reduced cost. The ore, after grinding to pass through a sixteen mesh sieve, is mixed with some heavy oil, such as asphaltum. The mixture is made into cylinders, each of a size to yield about 150 pounds of reduced iron, and these cylinders are placed in the furnace and gradually heated to the welding point of the iron, then taken out and compressed into blooms. A little silicate rock is added to give slag enough to hold the semifluid mass together. To avoid reoxidation—the great difficulty in previous processes—a reducing atmosphere is maintained in the furnace, and the bloom is compressed before entirely removing from the furnace. The time required for heating through and reducing is given as four or five hours.

Generous Royal Gambler.

One of the most romantic gambling stories is told by Mr. Threlton-Dyer of a plainly dressed stranger who once took his seat at a faro table, and after an extraordinary run of luck succeeded in breaking the bank. "Heavens!" exclaimed an old, infirm Austrian officer who sat next to the stranger. "The twentieth part of your gains would make me the happiest man in the world!"

"You shall have it, then," answered the stranger as he left the room. A servant speedily returned and presented the officer with the twentieth part of the bank, adding: "My master, sir, requires no answer." The successful stranger was soon discovered to be no other than the king of Prussia in disguise.

EMMETT FOSER'S TROOP WILL HAVE PART IN PEACE PARADE

The following letter addressed to Mrs. W. T. Foster is from a former comrade of her son, Emmett, written from the comrade's home in Olanto, S. C., under date of May 17th:

Your son, Emmett, being one of my dearest comrades both in San Antonio and in France, belonging to the same organization, Troop L. 6th Cavalry, I thought I would write you and tell you what he is doing and his welfare in France. But first I must tell you what I am doing home, ahead of the rest of the boys. You know I lost my dear little sister with pneumonia last October while I was in France, which left mother all alone. I have no other brothers or sisters and my father is dead, so I had mother to put in affidavits as to the necessity of my being home for her protection, and now I am home with her for good. It was a joyous meeting after so many years absence.

Now I will tell you about Emmett. Emmett joined the Troop in Marfa, Texas, in 1917 and was assigned to my squad. I being a corporal at that time, I became acquainted with him and found him to be a Christian and a gentleman of the highest type. Emmett soon gained the respect and love of all his comrades, and through his quickness in learning he arose to the rank of sergeant which rank he now holds. I left him on April 11th. He was then in excellent health and very much satisfied in his present surroundings. It was very hard for me to part from the boys but on thinking of home, the sadness at heart gradually wore away.

The regiment now is in beautiful quarters owned by the French government, known as "Quartiers Rocheambeau". There is quite a history connected with these quarters. It is said that General Rocheambeau trained his soldiers at this place before coming to America to help her gain independence in 1776. On one side of the barracks is a beautiful brooklet so you see he is very comfortable. Our Troop has the prettiest horses in the regiment, being of three colors, dapple grey, iron grey and snow-white horses. At present the regiment is very busily engaged in extensive drill for the participating in the Peace parade. The sixth cavalry having the distinction of being selected for that purpose. It will be a grand affair and will be marked down in the pages of history as well as being shown in the moving pictures throughout the world. All the allied armies will have a part

in this parade. I am very sorry that I could not take part with the boys but everything always happens for the best. I do not know when the regiment will return home but do not think it will be long. Emmett requested me to write you before leaving France and I believe I have told you all that I know.

Hoping you will have the pleasure of seeing him before many days elapse I remain very respectfully,
GROVER C. HINDS.
(Former) Sgt. Troop L. 6th Cavalry.

SHERIFF'S SALE

THE STATE OF TEXAS,
County of Floyd.

By virtue of a certain order of sale issued out of the Honorable District Court of Floyd County, on the third day of May, 1919, by Tom W. Deen, the clerk of said court against Walter R. Perdue for the sum of Ten Thousand Five Hundred Eighty Five and 02-100 (\$10,585.02) dollars and costs of suit, in cause No. 1217 in said Court, styled Minor C. Keath, et. al. Trustees versus Walter R. Perdue and placed in my hands for service, I, J. A. Grigsby as sheriff of Floyd county, Texas, did, on the 3rd day of May, 1919, levy on certain Real Estate, situated in Floyd County, described as follows, to-wit:

The north one-half (N. 1-2) of the northwest one-fourth (N. W. 1-4) of section No. sixty five (65), block D-2, certificate No. 641, T. T. Ry. Co. containing eighty acres of land; and levied upon as the property of said Walter R. Perdue and on Tuesday the first day of July, A. D. 1919, at the Court House door of Floyd County, in the town of Floydada, Texas, between the hours of ten A. M. and four P. M. I will sell said property at public vendue, for cash, to the highest bidder, as the property of said Walter R. Perdue by virtue of said levy and said order of sale.

And in compliance with law, I give this notice of publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Floyd County Hesperian a newspaper published in Floyd County.

Witness my hand, this second day of June, A. D., 1919.

J. A. GRIGSBY,
13-4tc Sheriff Floyd County, Texas

Lee Howard left Saturday for Amarillo to attend Federal District Court for the Amarillo district as a grand jurymen from Floyd County.

FREE TRIP TO PICTURE-SAN ANTONIO

Owner of a beautiful addition to San Antonio will give FREE, round trip ticket, including sightseeing tours of city, to limited number of men and women in your community, to acquaint them with the wonderful development now taking place, and thus extensively advertise the resort, industrial and other highly attractive features of the addition. No obligation to invest. Post card will bring full information.

Address: Manager, 428 Gunter Bldg., San Antonio, Texas.

SAVE THE SURPLUS

The canning season in Texas has found an abundance of berries, grapes and fruits. No doubt, there will be an unusual quantity of peaches, plums, cherries, pears, muscadines, figs, etc., go to waste unless they are saved for winter use by canning, preserving or pickling.

Have you made preparation for the canning season by providing supplies, such as jars, cans with solder-headed caps, canning outfits, etc., so that you will allow nothing to go to waste?

No one can read the future and the food question is of vital importance to everyone. Prices are now high and may go higher. The demands of the nations of the world for food are very urgent. Every load transported reduces the supply at home. As intelligent citizens it behooves us to make every provision for a bountiful supply during the coming winter by conserving each ounce of food possible. It is right and proper that we should help in feeding a starving world and the greater the amount of food which is conserved by preserving, canning and pickling and stored in the pantry, greater the amount of food which able food which may be released for shipment to those in need.

The squirrels, ants, etc, make provision for the winter months, and why should mortals be less provident?

If you can all you can in the summer you may eat all you can in the winter provided the work is well done.

Talk to your County Agent, Home Demonstration Agent or write to the Extension Service of the A. & M. College for instructions regarding canning, preserving and pickling. Do not permit the fruits, berries, watermelons, cantaloupes, etc, to go to waste from lack of effort on your part.

SENATOR SHEPPARD FAVORS ADOPTION OF BUDGET SYSTEM BY GOVERNMENT

New York, May 31.—Charles D. Orth, Secretary of the National Security League and Chairman of the League's "Committee on Congress," received the following letter today from Senator Sheppard, of Texas, endorsing the adoption by the government of the Budget System.—

My dear Sir:

In reply to your letter, I beg to send you the following statement in behalf of the Budget System.

The Budget System means efficiency in Government; it means the application of plain business principles to the expenditures connected with the National Administration, expenditures which are growing by leaps and bounds, and which must be controlled along more definite and systematic lines if waste and scandal are to be avoided.

I am,
Yours very truly,
(Signed) MORRIS SHEPPARD.

Mr. Chas. D. Orth,
19 West 44th St.,
New York City.

Nation-Wide Campaign

The National Security League is conducting a nation-wide educational propaganda to impress upon the people the evils of the present system of handling the government's finances and to create a demand upon Congress for the adoption of the Budget System. In addition to Senator Sheppard, the League has already received endorsements of the plan from Senators Robinson, of Arkansas; Owen, of Oklahoma; Wadsworth, of New York; Williams, of Mississippi; Capper, of Kansas; Frelinghuysen, and Edge, of New Jersey; Harding, of Ohio; New and Watson, of Indiana; Townsend, of Michigan; Moses, of New Hampshire; Myers, of Montana; Beckham, of Kentucky; McCormick, of Illinois; Lodge, of Massachusetts, and Thomas of Colorado. To this list should be added Senators Penrose, of Pennsylvania, and Kenyon, of Iowa, who have publicly expressed themselves in favor of the Budget System.

ONLY PROHIBITION CARRIED IS AMENDMENT OUTLOOK NOW

Complete returns from all counties in the state have not been tabulated yet in the amendment election held Saturday, May 26th, but it now looks as though all the amendments save prohibition were defeated, including the state's credit amendment which at

first appeared to have carried. Tuesday's reports indicated that the majority against this last was only seven votes, but this is a reduction from a majority of 12,000 for it as first announced and is made up from reports from only seventeen counties, indicating that the counties further distant from the centers are going against the amendment. Woman suffrage and governor's salary amendments continue to lose as returns filter in. The salary amendment Tuesday was more than 66,000 votes behind while woman's suffrage was more than 20,000 behind.

None of the reports seem to indicate the likelihood of the failure of prohibition to carry.

Floydada people continue to build sidewalks, and cut weeds and make the town a better and prettier place to live.

Our advice to the town men is to get all this weed cutting off their hands within the next two or three weeks, because there'll be a howl from Dan to Beersheba for harvest hands in the latter part of June and during July, when an able bodied man is going to be a valuable presonage to have about. A town man couldn't be expected to qualify as a heavy weight in the wheat fields but most any of them ought to be able to successfully guide Judy and Beck up to the side door of a wheat granary.

W. S. S.

I AM THE WORLD'S GREATEST POWER.

I am the difference between success and failure.
I am little in size.
I am little in cost. But—
I am mighty big when the time comes to use me.
I am already for use.

I am always worth all that you pay for me and I increase in value every month you keep me.
I am the safest investment you can make.
I am for sale everywhere.
I am wisdom, thrift and safety combined.
I am worth ready money anywhere at any time, because
I am issued by the U. S. Government.
I am cashable upon ten days' notice at any postoffice.
I am a WAR SAVINGS STAMP.

ROAD ELECTION RESULTS

Following is the vote on the Special Road Tax in Commissioners' Precincts Nos. 1 and 4, determined by count of the Commissioners' Court Saturday:

Precinct No. 1:
Floydada, for 158, against 24.
Starkey, for 19, against 21.
Allmon, for 18, against 8.
Sand Hill, for 29, against 18.
Total, for 224, against 71.

Precinct No. 4:
Center, for 22, against 11.
Baker, for 20, against 13.
Antelope, for 2, against 3.
Lakeview, for 38, against 3.
Total, for 82, against 30.

BORN—To Mr. and Mrs. Q. B. Olson, City, May 27th, a daughter.

Jim Curry returned yesterday from Clay county where he had been some weeks.

Miss Okler Bagwell returned home this week after several months visit in Fort Worth and Cisco.

Mrs. G. R. Gibson and Miss Dona left this week for Taylor, Texas, where they will make their home.

Mr. and Mrs. R. O. Fields returned to Floydada last mid-week from Wichita Falls and Mrs. Fields will remain here several days. Mr. Fields returned to the oil fields this week.

Mrs. H. D. Adkins has been here this week for a visit with her parents, Rev. and Mrs. W. M. Lane.

Miss Gertrude Conner left Wednesday morning for Canyon to attend the summer school of West Texas State Normal.

Arthur B. Duncan, Jr., left this morning for Pittsburg, Kansas, to spend two weeks visiting with his sister, Mrs. J. E. Pitts. Mrs. Pitts will return with him for a visit with her parents here.

James Tedford who has been in the service with the 46th Infantry something over twelve months returned home Tuesday after having been discharged on the 31st. His outfit was not sent across. The last six months of his service he was stationed at New Orleans.

Dr. and Mrs. V. Andrews and daughter, Maurine, leave today for Alamo Gordo, New Mexico, where they will spend several days, following a tour of the Pecos Valley country.

WHY HE QUIT "THE ROAD"

Ex-Drummer Voices Regret for the Disappearance of Oldtime Boniface and Clerk.

"Oh for the old-fashioned hotel clerk, smiling, accommodating, always friendly, who never forgot a face, obliging and always making a fellow feel like he was at home," said Frank Whitesell of Portland, Ore., according to the El Paso Herald. "What a difference between the old professional hotel clerks of 25 years ago, even up to 15 years ago, and the automatic, mechanical clerks who never try to oblige—I might call them automatic grouches—of the present day behind the hotel registers. If you ask one of them a question he or she, nowadays, intimates that you get your room and meals, just exactly what you pay for, and not a thing more, please understand that. I was a commercial traveler for a quarter century up to six years ago, and I know. Why, we old drummers, as they used to call us, felt at home in those old hostleries of the western states, just on account of the clerks. Say, they were God's noblemen, those old-timers. They seemed to anticipate a fellow's wants and would go to all sorts of trouble to accommodate one. The milk of human kindness flowed in their hearts. And it made business, too. I have stopped at an inferior house, many a time, because I had been treated so well by the clerk. And I can say, too, the proprietors were much the same way in those days. Hotels were made homelike, not a big box with compartments, where you are to be tucked away at so much per. That was one of the reasons I quit the road, the chilly, purely mechanical hotels of the present day."

CANNOT BE TAKEN ALIVE

Gorillas Will Fight to the Death, and Are to Be Feared, Even When Mortally Wounded.

The most perilous job that any one can undertake in the jungle is the capture of a full-grown gorilla. It is said that no gorilla has ever been captured alive after he was full grown. He would be a bold man who would attempt such a feat. Gorillas fear nothing. Even when mortally wounded they show an agility, strength and ferocity which is astonishing. A famous traveler once stated that it would take 150 men to hold down a gorilla with any degree of safety.

On the other hand, all other apes are said to be pathetically easy to capture. The usual method is for a trapper to seat himself where he is certain to be observed by these creatures and pretend to drink from a bottle of crude spirits. When he is sure that he has been observed, he leaves the bottle and goes away.

The moment his back is turned the monkeys rush to appease their curiosity concerning the contents of the bottle. They like the taste of the spirits, and quarrel among themselves for it till the bottle has been emptied. They are soon overcome by the intoxicant, and the trapper returns and gathers them in.

Change of Fashion.

Indeed, so completely have fashions and materials changed in a century that the articles included in the following advertisement of goods to be sold on Fishbourne's wharf, "back of Mrs. Fishbourne's dwelling," have scarcely any meaning for us. Among the numerous articles to be disposed of were: Tandems, Isinghams, nuns, bag and gullxall shirtings, buckabacks, quilted bum-hums, turkettes, grassetts, single alopeens, children's jumps and bodice, whalebone and iron busks, men's Newmarket caps, allbantes, dickmansor, cushloes, chuchloes, cuttanees, crimson dannador, chained soogees, lemonoes, byrampants, moree, maffermany, saxlingham, pruneloe, barragons," etc.

Hunhums was a sort of towel made of coarse Indian cotton cloth; curtane a kind of piece goods of silk and cotton, also imported from India; barragon is the barracan of today, a fabric made of camel's hair, used widely in the Levant for robes and mantles; but for the most part the articles named in the advertisement have long become obsolete.

Length of Arms and Legs.

According to many measurements made at the Anthropological laboratory in London, the right arm in human beings is in a majority of cases longer than the left arm, while, on the contrary, the left leg is longer than the right leg.

Sometimes, however, the relative proportions are exactly reversed but seldom does perfect equality exist between the two sides. The tendency of the right arm to exceed the left arm in strength is sometimes greater in men than in women, while equality of strength in the two arms occurs almost twice as frequently with women as with men.

Time to Reform.

The sailor, returning a trifle fuddled from a peace celebration, found his hitherto respected and respectable ship newly camouflaged in the most modern cubist style.

Running his eye over the whole mess of conflicting squares, triangles, lines, circles and sundry other nameless blobs of paint which graced the sides of his "home," and blinking stupidly at the hideous screaming color scheme, he slowly raised his hand while the tears coursed down his cheeks and murmured, wearily: "Never again!"

MERCHANTS HAVE CONTINUAL PENNY SHORTAGE

Despite the fact that numerous shipments of pennies have been made to Floydada for the benefit of the merchants by the banks, dealers continue to be bothered with a penny shortage. The shortage is ascribed to the fact that being given out to customers, the one-cent pieces are allowed to get out of circulation by customers, most of whom have heretofore not been in the habit of carrying them allowing them to collect in penny banks and drawers about the home.

Until a plentiful supply of pennies has been brought into the country merchants are anxious that their patrons help keep the pennies in circulation.

Col. Thos. Montgomery left this morning for Fort Worth on a business trip of indefinite length. This is his first visit to that city for seven months, the longest period of time which has elapsed between his trips since he established himself in business there as a young man in the early days.

Dr. J. W. Morris left this morning returning to the oil fields. The doctor is headquartered at Cisco.

John Hilton, of San Antonio, was here this week for a two-days' visit with his cousin, W. H. Hilton.

IMPORTANT TO WOOL GROWERS

The meeting of the Floyd County Sheep Raisers' Association, as previously announced, will be held Saturday at the Court House in Floydada, at 4 p. m. Let no sheep man fail to attend this most important gathering.

Miss Ruth Burrows will succeed Miss Lillian Galloway as chief operator on the local exchange of the Southwestern Telephone & Telegraph Co. Miss Galloway had been an operator on this exchange for three years prior to her resignation last week to marry Ray V. Randerson.

E. S. Randerson
THE PRACTICAL VULCANIZER

John Deere Two Row Lister Cultivator

Note Extreme Simplicity Levers Within Easy Reach

Set for First Cultivation Set for Second Cultivation
High Clearance, Steel Wheel Standards, Oscillating Seat Bar, Steel Swing Arms.

Ease of Handling—An Important Factor

CONVENIENT LOCATION OF LEVERS—All levers incline far enough toward the center to be easily reached and operated. Nothing hard or awkward about the operation of these cultivators.
EASY LIFT—The action of the wheels, the position of the seat and the weight of the driver all assist in lifting, making it very easy to raise both discs and shovels, which is done by the front lever. A coil spring makes it easy to raise the shovels for shaking out trash, this being done by means of the rear lever.
EASE OF ADJUSTMENT—This adds immensely to the comfort and economy of using this cultivator. Any adjustment required for the setting of the discs, shovels and wheels can be made in a very short time WITHOUT REMOVING A SINGLE BOLT.

GUS HERBERG
SUCCESSOR TO REAGAN'S GARAGE

Weekly Club Letter to Boys

W. H. Darrow, County Agent.

The cultivation of your crop, will, from now on for a month or more, be your chief concern. Probably the most important single operation in raising a successful crop is the thorough preparation of the seed bed, and this includes some work which may properly be termed cultivation. The frequent harrowings which I recommended in a recent letter for destroying young weeds are really cultivations, and in addition to the destruction of weeds these harrowings do a great deal of good in stirring the top soil so that sunlight and air can penetrate below the surface. This, you will remember from other reading, starts the soil bacteria working in greater numbers to release plant food for the use of the crop. It is said that one half of cultivation is done before the crop is up, and this is mainly true, for the early working of the top soil eliminates most of the weeds and puts the seed bed into good pliable condition.

The reasons for cultivating are: (1) to allow sunlight and air to act in the soil, thereby setting up, as was stated above, bacterial action which makes a favorable condition for plant growth (2) improving the condition of the soil by making it more open and porous, thereby increasing its capacity to hold moisture, and also preventing the formation of a crust which retards the normal expansion of the root system, (3) to destroy weeds, and (4) to conserve moisture.

It will be seen at once that the principal object of cultivation is to save moisture for the crop. While weeds are a great enemy of a crop by being a nuisance in harvesting, by reducing the value of the harvested crop when they are found in it, by interfering with the development of the root system of the crop, weeds are mainly to be destroyed because they sap moisture and food that the crop ought to be getting. We can therefore state that cultivation is almost entirely a matter of saving moisture.

The root system of row crops is very shallow, and unless forced to go deep to obtain the necessary moisture the roots will feed near or at the surface of the ground. This is a bad thing, for unless rains are frequent, keeping the top of the ground moist, the crop will be unable to get enough

moisture to grow. Another bad feature to having the roots feeding at the top of the ground is that cultivations will tear up the roots so badly that the crop will suffer and may even die. It is wise, therefore, to get the root system going as deep as possible for moisture. The best way to do this is to make the first two cultivations deep, (3 or 4 inches) especially close to the plant. This dries out the moisture near the top of the ground and forces the young plant to go down for moisture. Once established, the roots will continue, for the most part, to feed deep throughout the season. A crop rooted in this way will stand severe drought without a great deal of damage.

After you have gotten your crop deeply rooted in say the first two cultivations, it is only necessary to work the top of the ground to keep down the weeds and to preserve a mulch on top. In other words, cultivate as shallow as possible and still get the weeds. Stir the ground after every rain so as to prevent the formation of a crust and to kill the young weeds that start up. If you have your crop free of weeds, and the ground is mulched, you will gain nothing by cultivation. In fact, stirring dry soil such as this will accomplish nothing but a greater loss of moisture.

Questions arise as to how long you should continue to cultivate. Early cultivations are the most important, for it is in the first weeks of the life of the crop that the weed proposition is worst, and the loss of moisture from the ground is greater than later because the ground is not shaded. If you do the work of the early cultivations well you will have a crop that is fairly deep rooted and clean, and later cultivations will only be necessary to break any crust that forms after a rain. If such a crust forms when the crop is up high and past the bloom it will pay you to cultivate, even if you have to use a one horse walking cultivator.

To sum up: cultivation serves the main purpose of saving moisture; cultivate deep the first two times and shallow after that; early cultivation is more important than late; and keep the top soil in loose, pliable condition at all times.

NEWS OF LOCKNEY

From The Beacon:

Wheat Growers in Meeting

Wheat growers and thrasher men of the north part of Floyd county held a mass meeting last Saturday afternoon at the old Red Cross work room in the rear of the First National Bank when the question of harvesting, thrashing and labor was discussed. Mr. W. J. King, wheat grower east of town, called the meeting which had for its purpose the arriving at some conclusion as to the price of labor and that of thrashing. After a thorough discussion, the meeting adjourned after expressing itself informally to the effect that a fair price for labor would be \$3.00 to \$3.50 for single hands and from \$5.00 to \$6.00 per day for man and team. No binding agreement was reached in the matter and it was practically left as it was before the meeting for the law of supply and demand to govern the matter. The consensus of opinion, however, was that Floyd county would have to furnish its own labor to harvest the present crop. There were divisions as to the best methods of thrashing, some wanting to work independent and some dependent. The thrasher men stated that it would be impossible for them to set the price definitely on the thrashing until they knew what labor would cost them. Several persons stated that they would be willing to thrash for 15 cents provided they could get hands at \$3.00 for single men and \$5.00 for men and teams.

Practical Christianity

One of the greatest examples of practical Christianity that has come under the observation of the writer was the gathering of Irick people on Monday of last week at the home of Mrs. W. K. Collier, recently bereft of her husband, where they planted her entire crop. There were 24 men engaged in the work with eighty four teams employed. Sixty acres were planted Monday for Mrs. Collier which included maize, kaffir and cotton. This kind act on the part of the people of Irick is indeed commendable more so as the work was done at this time when everybody is behind with their work. No greater example of practical Christianity can be found anywhere than that exemplified by the splendid farmers and citizens living in the Irick community.

Laying Sidewalks

Grover Fahey is laying the forms for a long string of walks in the west

part of Lockney. The walks begins from the south corner of R. M. Broyles property, and extends the full length of the street, connecting up at the corner of the Baker property on West College street. Mr. Guthrie alone is having more than \$400 worth of walks put in around his place.

Dedicate Baptist Church

Rev. J. T. Burnett, of Iowa Park preached the sermon that dedicated the handsome Baptist church. The church was built while Bro. Burnett was pastor, who was instrumental largely in the successful undertaking. The Baptist people have a handsome building on South Main Street, which would do credit to towns of larger proportions than Lockney. It represents the loyalty and sacrifice of the Baptist people of this community.

Mr. C. R. McCollum is busy this week with a force of laborers building a new concrete business house on Main Street just north and adjoining the old Lockney Supply corner building. When completed the building will be occupied by the Lockney Undertaking Parlors, with Joe McCollum as manager.

The Beacon is pleased to report the improved condition of B. O. Downs, who has been seriously ill for some time. He is able to be up and hopes are entertained for his speedy recovery.

OCTOBER 10th THRIFT DAY AT THE FAIR

Dallas, Texas, June 2.—Friday, October 10th, will be War Savings Society day at the State Fair of Texas. On that date, Thrift will be the dominant theme at the great exposition and Fair officials are looking for a record-breaking attendance. There are several thousand Savings Societies in the Eleventh District and the members of each will be invited to help make this day one ever to be remembered.

An interesting morning program will be given at the Coliseum and it is probable that, if the weather is good, a vast open air meeting will be held in the afternoon. Booths will be provided at which all members of Savings Societies will register and prizes will be offered for the Society having the largest representation and for the one from the greatest distance having members register.

Martin George returned the first of this week from the oil fields.

LOOKING GOOD FOR THE BOND ISSUE IN BRISCOE

Silverton Star: The promise of \$65,000 Federal money for a road from county line to county line through Briscoe county, on conditions that the \$100,000 bond issue which is to be voted on the 14th of next month, makes it look good for the carrying of this issue. If this issue should fail to carry, there probably would never come a time when such a large per cent of Federal aid could be secured, and besides this, the auto tax money in the county, which amounts to several hundred dollars a year cannot be held unless we make some arrangements to comply with the requirements necessary to secure it.

As can be seen by the way things have been going the taxes will have to be increased by raising the valuations for road purposes until we pay almost as much taxes as we would if we had the bonds, and have no roads either to amount to anything, besides we will lose all the auto tax money and also the \$65,000 Federal aid. The rise in the tax already amounts to something like 20 cents, and we have not sufficient road funds to do scarcely any road work at all.

The Quitaque district has paved the way and will this year receive the auto tax money and not only that, but will get her share of the promised Federal aid whether we see fit to get our part of it or not, and that district is going to have some roads, too, and if the people in Precincts Nos. 1 and 3 will look at the proposition from every side and take into consideration all to be gained by voting the \$100,000 bond issue on the 14th, we feel sure that it will carry easily.

STARKEY ITEMS

June 2.—We are having some nice weather at the present. Hope it will continue until we farmers get up with our crops.

Miss Opal Foster spent Sunday with Mr. Lowrance. S. E. Lowrance and wife spent Sunday with them also.

Jodie and Chester Day visited in this part of the community the first of the week.

Mr. Jones and wife, Tom Foster and wife and Roy Foster and wife, visited at the home of Mr. Roberson in McCoy community Sunday.

Amos Davis visited with John Kropp Sunday.

Quite a number from here attended the program at McCoy Friday night which we all enjoyed very much.

Mr. Roland entertained the young folks with a party Saturday night. All reported a nice time.

Mr. Lowrance entertained the young folks with a singing Sunday night. A large crowd attended. All enjoyed themselves very much.

Preston Feagan and family of McCoy community attended the singing. Elzie Morris spent Sunday with Floyd Hammitt.

Buster Allmon and wife visited in McCoy community Sunday.

TRAGEDY IN TWO ACTS

A very sad accident was witnessed in Slaton one morning recently by quite a number of people who were on the downtown streets early. A beautiful young lady, arrayed in the latest spring dolly of the new-fangled hobble variety, was wending her way down town at quite a satisfactory gate considering her handicap, when suddenly she dropped a package she was carrying in her hand.

About the same time a fat man approached in close proximity and both made a grab for the parcel. The young lady, in stooping on short notice, evidently forgot her hobble, for it caught her just above the calves on the east side (she was facing west) her knees popped through her skirt. The fat man too must have been absent minded for as he stooped the buttons on the back of his pants flew into the air and his suspenders climbed about the back of his neck like a striped snake trying to get away from a small boy.

The young lady was placed in an automobile and taken home. The fat man went his way muttering about cheap-john clothing and the cussedness of hobble skirts. What the young lady said was not audible to the merely human ear.

All of which goes to show it takes a culmination of circumstances to bring about a catastrophe.—Slaton Slatonite.

WILL HARVEST ONE THOUS. AND-ACRE WHEAT CROP

Frank Dougherty, of Gainesville, Texas, is here to spend several weeks, during which time he will build granaries to store the large wheat crop on the Zimmerman and Dougherty farms southeast of Floydada, on which are growing more than a thousand acres of wheat.

Mr. Dougherty will remain until after the harvesting and threshing season.

Hesperian Want ads bring results.

Fewer Grasshoppers This Year

This seems to be an off year for grasshoppers, according to entomologists of the United States Department of Agriculture, who recently made a survey of the grasshopper situation in a number of counties in southwestern Iowa that were badly infested last year. According to the report only a few counties in that section are likely to suffer this season. A comparatively small number of eggs were deposited last fall, probably due to parasitic insects having killed most of the hoppers before that time. Except in the counties mentioned, fully 85 per cent of the eggs that were deposited have since been destroyed by insects that feed on them. The success of the use of poisoned bait was also noticed by the entomologists. Very few eggs could be found on the farms where poisoned bran was used last summer, but on other farms near by the eggs were unusually abundant. This difference was so great as to be noticeable even in adjacent fields.

Claude Dane was home the latter part of last week from Lubbock.

SMITH-TINNIN

Miss Maggie Smith and Mr. Ollie W. Tinnin, both of Sand Hill community, were married in Petersburg last Friday afternoon.

Miss Smith is a daughter of Elder Chas. W. Smith and Mr. Tinnin is the son of O. B. Tinnin. Both families have resided in that community a number of years.

The young couple will make their home at Sand Hill.

NC-4 WILL BE DISASSEMBLED AND SENT HOME

Washington, June 2.—The American naval seaplane NC-4, which arrived at Plymouth, England, Saturday, thereby completing the first trans-Atlantic flight, will not attempt a non-stop or any other kind of a flight back to the United States, Secretary Daniels said today. The seaplane will be disassembled and shipped to this country.

Make It a Point—

To bring that boy of yours to our studio today for photographs. He's growing, expanding, changing daily, more subtly than you realize. He'll be a youth—a man—before you know it, and unless you heed our warning you will have nothing to remind you—or him—of his happy boyhood.

Our Photographs Are Not Expensive—But Permanent Real Likenesses—Too!

"S. & H." Green Trading Stamps ANNOUNCEMENT

When we began the distribution of GREEN TRADING STAMPS among our customers we made the announcement that the stamps would be given on CASH BUSINESS, our idea being that the stamps would obtain for our customers at no additional cost valuable articles and stimulate the per centage of cash which we should receive in return.

Today we have not seen our way clear to change this policy. Should we give the stamps on weekly accounts the good customer who pays every two weeks would want the same kind of treatment, and the 30-day customer would want the same as the two-week customer and so on. We greatly appreciate the customers who buy our goods on thirty days time and are anxious to hold the trade where payments are made promptly. But to give trading stamps on accounts would defeat the aim we had in view,—increasing the percentage of cash-over-the-counter business.

We feel sure that with a little consideration of our viewpoint you will agree that this is the correct policy and that we may count on your continued good will and patronage as long as we are able to give you good goods at "LIVE AND LET LIVE" PRICE.

Respectfully,

Morris-Nelson, Grocers Woody Drug Company

**Lazy, Fat Hens Lay Few Eggs;
Good Summer Care Is Needed**

Hen obesity and hen languor are opposed to profitable poultry production because excessively fat hens, as well as languid, lazy hens, lay few eggs and devote their energies to storing up surplus avoirdupois instead of concentrating on the manufacture of an egg every other day. Hustle yourself, old lady hen, and do not develop ennui to the extent that you become portly and ambitionless. Remember that all the consumers love a fat hen on the table while all the producers deplore too fat a hen in the flock. Hence, be forewarned and forearmed—do off your sluggish, phlegmatic tendencies, or else you'll have to execute some clever dodging to escape the ax.

Early molting hens may lay well during the spring season, says the U. S. Department of Agriculture, but when the summer is on in all its glory they slump and decline in production to the extent that it is extravagant to keep them longer in the flock. Good spring layers often are not good summer layers.

No hen should be sold while she continues to lay. Occasionally a hen that has become broody may again resume laying after a brief period and continue profitable production through out the summer. Generally speaking, all hens that begin to molt in June or July should be disposed of as soon as they stop laying, advise United States Department of Agriculture specialists.

Keep Egg Basket Full

Where a full egg basket is desired, it is essential to provide the flock with plenty fresh air and sunshine during the summer as well as an abundance of shade, as hens can not withstand excessive heat. It is necessary to provide plenty of green feed,

such as beet, turnip, carrot and onion tops, as well as waste leaves from cabbage and lettuce and also such material as potato peelings, watermelon and cantaloupe rinds and grass clippings. Bread and cake crumbs make desirable filling food for the hens. The suburban housewife whose neighbors do not maintain flocks should request them to save their cake and bread crumbs as well as their table scraps for her hens. In the main, the small flock can be maintained in this manner at slight expense while the fowl will be provided with plenty of essential food.

Meat scraps from the table, with such bugs and worms as the range provides, supply plenty of animal food. It is preferable to run the meat scraps through a meat grinder and then to mix them with three parts of corn meal and one part of wheat bran. This mixture should be fed at mid-day, while the grain supply, consisting of craked or whole corn or oats—about one-half a pint to ten hens—should be fed in the litter during the morning so that the birds will scratch for it. If table scraps are not available in plenty, grain should also be fed at night. In case the hens show a tendency to get too fat it is advisable to reduce the amount of grain.

Buy Beef Scraps

In case the meat left-overs from the family table are not sufficient to provide scraps for the hens, it is desirable to purchase and feed beef scraps. Furthermore the hens should be given constant access to grit or small stones which the fowl can readily swallow, and they should also be supplied with crushed oyster or clam shells. Laying hens, during the period of hot weather, require plenty of fresh, clean water which should be kept in a clean fountain or pan placed in the shade.

Such provisions for the comfort and convenience of the flock are usually responsible for a steady and continuous flow of eggs during the period when eggs can be produced at the minimum expense.

Practical Poultry Pointers

Keep the hens confined to your own land.

Don't keep a male bird. Hens lay just as well without a male.

Don't overstock your land.

Purchase well matured pullets rather than hens.

Don't expect great success in hatching and raising chicks unless you have had some experience and have a grass plot separate from the yard for the hens.

Build a cheap house or shelter.

Make the house dry and free from drafts, but allow for ventilation.

Fowls stand cold better than dampness.

Keep house and yard clean.

Provide roosts and dropping boards.

Provide a nest for each four or five hens.

Grow some green crop in the yard.

Spade up the yard frequently.

Feed table scraps and kitchen waste.

Also feed grain once a day.

Feed a dry mash.

Keep hens free from lice and the house free from mites.

Kill and eat the hens in the fall when they begin to molt and cease to lay.

Preserve the surplus eggs produced during the spring and summer for use during the fall and winter when eggs are scarce and high in price.

Exterminate the Lice

An effective remedy for lice on chicks is a small quantity of melted lard rubbed under the wings and on top of the chick's head.

The free use of kerosene or crude oil on the roosts and in the cracks of the house will help to exterminate mites.

Whitewash is effective against all vermin.

It is possible and thoroughly practicable to keep the poultry flock reasonably free from lice and mites. Such practices should be the aim of every one who is endeavoring to establish a successful flock of poultry.

Market white-shelled and brown-shelled eggs in separate packages.

Eggs irregular in shape, those which are usually long or thin shelled, or which have shells otherwise defective, should be kept by the producer for home use, so that breakage in transit may be reduced as much as possible.

White-wash is effective against all vermin.

In extremely hot weather special care is necessary to prevent chicks from being overheated by exposure to the sun, confinement where ventilation is bad, or overcrowding. The brooder should be under shelter, with good circulation of air around it, and the number of chicks should not be greater than it will accommodate comfortably under hot weather conditions.

Skim milk, either sweet or sour, and buttermilk are especially valuable feeds in hot weather, making the diet lighter without reducing its nutritive value. The milk should be fed in a drinking fountain or a dish covered with wire netting so that the chicks can not get into it and become solid with milk. The use of milk does not do away with the use of water, which should be given as usual.

Unless the premises where chicks are kept and all appliances used are known to be absolutely free from lice and mites, and it is certain that chicks have never been exposed to them, it is a wise precaution to paint or spray the brooder with a mixture of 4 parts crude petroleum and 1 part kerosene, allowing it to dry thoroughly before using. About once a week puffs of insect powder on the chicks when in the brooder will destroy any lice that may be on them.

COMMUNITY NEAR BROWN-FIELD HAS CYCLONE

It is not often that cyclones strike the plains country, and when they do they never cover much territory, but they can get as fierce as anywhere. Last Friday afternoon one struck the Santa Fe right-or-way between Meadow and Ropes that was some more than a hundred yards wide, out L. H. Plain, owner of the South Plains Phone Co., informed us that it swept things clean in its path. It wrung off two telephone poles for him and one for the Santa Fe, and absolutely left nothing of the strong right-of-way fence, and actually wrung off the grass and the bear grass even with the ground! He says he never did find one of his phone poles. No houses were hit and no one injured that we can hear of, but we bet it will be the cause of some lumber man selling a bill of lumber for a storm house.—Brownfield Herald.

P. T. Rucker left Tuesday morning for Cleveland, Tenn., where he will spend some two weeks on a vacation and visit with his mother. His brother, L. D. Rucker, of Plainview, is with him on the trip.

MANY FIND JOBS THROUGH U. S. AGENCY

Incomplete returns on placements by the United States Employment Service through its 494 offices for the week show that 65,263 secured employment or 63.4 per cent placed of those applying for jobs.—During the week 103,047 registered with the Service seeking aid in securing employment, 94,009 were referred and 65,263 reported back as having actually been placed.

Of those placed 13,051 were females and 52,202 were males. Of the male placements 10,792 were discharged soldiers, sailors and marines.

During the same period employers placed requisitions with the United States Employment Service for 110,446 workers.

E. M. Collins, son of Mr. and Mrs. J. S. Collins, was here on a visit with his parents after having been discharged from the army at Ft. Bliss. He went to the army from Fannin county training at Camp Cody, New Mexico, with the 34th Division. After reaching France he was transferred to the 77th Division with a replacement troop, reaching the front the day the armistice was signed and wears the 77th Insignia. He left Tuesday returning to Fannin county.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood... I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. Nothing seemed to help me until, one day, I decided to TAKE **CARDUI** The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

AN ODE TO SUNNY FRANCE

(Written by a Texas Soldier While Over There.)

I have seen the turgent Trinity swollen by repeated rains, until it seemed almost as large as pictured by a Dallas congressman in his plea for an appropriation, sweeping with resistless force toward the restless sea...

I have seen the Brazos bottom, a wide expanse of water, countless farms enunadated, frightened farmers roosting in tree tops waiting for help and whisky.

I have lived at Beaumont and heard that mighty chorus of frogs as they hoarsely bewailed the cruel fate which compelled them to live in such a place, for in all that mighty marsh there was not even a chunk upon which they could find a resting place.

I have been in the swamps of Louisiana where it is so damp and dismal that even the alligators reach an untimely end through chills and loneliness.

At Houston I have trudged along the Buffalo Bayou and with my own eyes have seen the historic spot where Gunga Din got the famous drink of water for Rudyard Kipling.

At Port Arthur I have heard the mosquitoes, numberless as the sands of the sea shore, singing their songs of carnage, as they Hun-like hunted the life blood of innocent women and children.

I have heard the sobbing pine and sighing cypress as they dropped upon the bosom of mother earth, thousands of pearly tears, relating each to each the tribulations of a hundred years. While I, soaking wet, shivering through a long wintry night, to listen in vain for the morning challenge by the king of gobblers.

I have been hustled unceremoniously from the warm embrace of a downy couch, in the wee small hours of a wintry night, clad in the raiment of a mortal saint, stumbling over furniture maliciously placed in the pathway the evening before on down the cold black stairs, onto a porch covered with ice and snow, all for the noble and glorious purpose of letting the cat out.

I have done squads east and squads west and north into line in the mud and slush and snow, with a cold norther whipping the loose folds of my B. V. D's. against the goose-flesh until the noise sounded like the part of the ways—that the world might be safe for the Democrats.

All this I have done and heard and seen, but never have I seen anything the equal of that French weather. Fortune has decreed and I have escaped that seething sea of mud and slush, and reached once more that clime where the sun is not mildewed; where one's soul is not waterlogged; where teds can be hung outside to dry. Now, oh, now the first fool that sayeth unto me, Sunny France, shall suddenly terminate his useless existence in this vale of tears. None will there be to mourn him, but there will be two million dough boys to sing my praise even to the third and fourth generation. Two million dough boys that fought corned beef, crowned princes and cooties, poisoned gas, propaganda and prunes, beans bullets and bombs. Huns, homesickness and hell, and the dampest damn weather or the damndest damp weather a man ever saw. Sunny France—who said Sunny France?

THRIFT FABLES

The Foolish Ant

Once upon a time there was an Ant who got tired of working with his fellows and started a hill off by himself. And not having the influence of others toiling to keep him pepped up, he loafed on the job. And the rains came and washed the result of his feeble efforts away, while his former comrades were safe in their comfortable colony. While he was debating with himself whether to go back where he belonged, a Dickie bird swooped down and made a mouthful of him.

Moral—Join a War Savings Society and work with others of your kind. Have you bought your Thrift Stamp today?

A. C. Goen has been home this week from Marlin, Texas, on business. Mrs. Goen, for whose health they have been at Marlin, is improving he thinks. After another month's stay in that city, their plans are indefinite he said.

Jim Altmon, of Broncho, Texas, has been visiting his aunt, Mrs. R. H. Willis. He left Monday to return home.

Mrs. J. L. McPeak returned Saturday from Plainview, where she had been visiting her daughter.

Wells Henry returned last week from Waco where he had been visiting with his sister, Mrs. T. M. Bartley.

Mr. and Mrs. J. F. Blanton left the first of the week for Whitewright, Texas where they plan to spend several days visiting with relatives.

SHERIFF'S NOTICE OF ELECTION For the Issuance of School Bonds

THE STATE OF TEXAS, County of Floyd.

Notice is hereby given that an election will be held on the 21 day of June, 1919 at Cedar School House in Common School District No. 15 of this County, as established by order of the Commissioners' Court of this County, of date the 4th day of March, 1911, which is recorded in Book 3, pages 2, of the minutes of said court to determine whether a majority of the legally qualified property taxpaying voters of that district desire the issuance of bonds on the faith and credit of said Common School District in the amount of \$8,000, the bonds to be of the denomination of \$200 each, numbered consecutively from one to 40, both inclusive, payable 40 years from their date and bearing Five (5) per cent interest per annum, payable annually on April 10th of each year, to provide funds to be expended in payment of accounts legally contracted in construction and equipping a public free school building of brick material and to determine whether the Commissioners' Court of this County shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity.

All persons who are legally qualified voters of this State and County, and who are resident property taxpayers in said district shall be entitled to vote at said election.

Said election was ordered by the County Judge of this County by order made on the 26th day of May, 1919, and this notice is given in pursuance of said order.

Dated the 27th day of May, 1919: J. A. GRIGSBY, Sheriff Floyd County, Texas

Miss Lela Windsor is expected home this week from Plainview where she has been in the sanitarium for an operation for appendicitis. She is doing nicely, friends are informed and expects to be entirely recovered within a few weeks.

THE STATE OF TEXAS, County of Floyd.

To those indebted to or holding claims against the estate of W. T. Montgomery, deceased:

The undersigned, having been duly appointed administrator of the estate of W. T. Montgomery, deceased, late of Floyd County, Texas; by J. W. Howard, Judge of the County Court of said county, on the 24th day of April, 1919, during a regular term thereof, hereby notify all persons indebted to said estate to come forward and make settlement; and those having claims against said estate to present them to him at his office in the court house at Floydada, Floyd County, Texas, where he receives his mail.

This May 26th, A. D. 1919. J. C. GAITHER, Administrator of the Estate of W. T. Montgomery, deceased. 12-4tc

The River of Life

Say what you will of whatever part of the human anatomy you please, the river of life is the BLOOD. It is either the swift running stream of health or the germ-laden channel of disease, one or the other.

The new remedy for the blood is

RICH-TONE, The Famous TONIC

the kind that freshens and quickens the circulation, energizes the good corpuscles that fight the battles of life for the sick.

RICH-TONE, The Famous TONIC, is unlike any other known remedy. It works differently, it reaches in and through and down till it penetrates to the seat of the disease and springs at the very throat of the cause of it.

It's the only remedy that does this. And doing this it gets results and effects cures that no other can.

Mr. Wimsett says: "I bought two bottles of Rich-Tone for my mother. She thinks it is the finest tonic. She has used many other kinds, but nothing has helped her like Rich-Tone."

This famous tonic is for sale at our drug store at only \$1.00 per bottle.

THE FLOYDADA NATIONAL FARM LOAN ASSOCIATION

The Ford Motor Company have instructed us to sell the genuine Ford Parts to any and every reliable Garage who will pledge their use in the repair of Ford cars. The genuine Ford Parts are absolutely necessary to the owner of Ford cars that he may get full service from his car. We carry them and so, we hope, in a short time will every reliable Garage. We solicit your service business because we have the Ford Methods, the Ford Parts, the Ford Mechanics and the Ford prices. Incidentally would be glad to get your order for one or more Ford cars.

BARKER BROTHERS Floydada, Texas

"My dealer was right —they do satisfy!"

There's more to a cigarette than "pleasing the taste." Other cigarettes, besides Chesterfields, can do that.

But Chesterfields do more—they begin where the rest of 'em stop! Because Chesterfields "touch the smoke-spot," they let you know you are smoking—they do SATISFY!

There you have it—SATISFY. It's all in the blend—a blend of fine selected TURKISH and DOMESTIC tobaccos. And the blend can't be copied.

That's why it's Chesterfields or nothing if you want this new thing in cigarette enjoyment.

INCREASE NUMBER OF "Y" WORKERS

Five Months After Armistice Signed Welfare Body Has 8,350 "Over There."

Five months after the signing of the armistice the Young Men's Christian association had 8,350 workers overseas, according to an official statement issued by the national war work council of the association. The figure shows an increase of 728 workers since last November, indicating that the Y. M. C. A. has strengthened its forces, despite the return of troops to America, to meet the greater need for its work that came with the end of the fighting.

Of the total number, 5,528 are men, a small portion of whom are directing the "Y" overseas work from the Paris headquarters, while the great majority are scattered from Archangel to Rome, and from Vladivostok to Brest and London and the north of Scotland. There are 2,187 women workers abroad. Most of these are helping to give pleasure to the men who go to the Y. M. C. A. leave areas, on the Riviera, at Aix les Bains, at Caunterets in the Hautes Pyrenees, and elsewhere. More than 40 are assisting in the motion picture entertainment of the troops.

In the overseas entertainment bureau of the war work council there are 635 men and women workers abroad. Of these, 352 were recruited by the Overseas Theater league workers—125 men and 227 women. The remainder, 283, were enlisted by the "Y" entertainment section.

Since the beginning of its overseas work, the Y. M. C. A. has sent 11,229 men and women abroad—8,339 men and 2,890 women. Of these, 2,845 men and 1,000 women have returned, eleven are in action, three died of disease and 56 from disease and other

Y. M. C. A. ENLARGES WORK IN RUSSIA

Doubles Personnel in Non-Bolshevik Sections—Large Sums Being Expended.

An urgent cable has been sent from Vladivostok to the Y. M. C. A. national war work council headquarters in New York requesting that 200,000 feet of up-to-date English comedies and dramas and an enormous repertoire of Russian titled films be rushed to that part in addition to 725 reels of committee on public information educational films.

In response to appeals made by the Russian government and other allied authorities, the Y. M. C. A. has doubled its personnel in non-bolshevik Russia, and has enlarged the scope of its work proportionately. There are now 97 American Red Triangle workers in Siberia and 50 on the arctic front in European Russia. In addition there are more than twice this number of Russian and Czech secretaries.

The national war work council is now expending \$150,000 a month for Y. M. C. A. work among allied and American troops in Siberia, and an additional \$50,000 a month among the troops in northern Russia.

Rev. J. T. Howell, who is now pastor of the Higgins Methodist church, was in attendance at the Methodist District conference of the church here Tuesday and Wednesday. Rev. Howell was pastor at Floydada in 1911.

BORN—To Mr. and Mrs. Kenneth Bain, City, June 4th, a son.

Joe Bullock has returned to Floydada for a visit with friends, after having served with the A. E. F. in France. He was discharged about a month ago. He was in the Ambulance Corps attached to the 82nd Division of the Tennesse and Alabama boys, coming home unscratched except for a slight gas wound.

Judge J. B. Bartley left this morning for Martin, Texas, where he will spend a few weeks while he takes treatment and baths for rheumatic troubles.

Gen. T. Moore and son, Major Robert R. Moore, of Kansas City, are here this week on business, having arrived yesterday noon. Major Moore is just recently home from France where he served in the 309th Field Signal Battalion.

Mrs. O. L. Stansell and children of Plainview returned home Saturday after a two-weeks visit with her parents, Mr. and Mrs. J. S. Collins.

Mr. and Mrs. T. M. Cox, Miss Pauline Bishop and Sion Edgerton left last week for Hunt County where they will visit Mr. Cox's father.

Carl Broyles returned last Saturday from an extensive trip over New Mexico.

Paul Barrier has been spending the past several days at Brownfield, Texas, on business, where the firm owns and operates a store.

Miss Ruth Collins have returned from Sanger, Texas, their home, the past week. Miss Collins will probably spend a month or

KANSAS CITY LIVE STOCK MARKET IN DETAIL

Kansas City Stock Yards, June 2.—Trade in cattle today was extremely dull at unevenly lower prices. Hogs were quoted up 15 to 25 cents and sheep down 25 to 40 cents. The cattle market suffered because of continued liberal receipts, and hog prices went higher, notwithstanding liberal supplies.

Today's Receipts
Cattle receipts today were 14,000, hogs 15,000, and sheep 14,000, a decrease of 3,000 cattle, an increase of 4,000 sheep, and the same number of hogs compared with a week ago. Cattle came from nearly all western states, and the bulk of the sheep and lambs from Arizona, Texas and California.

Beef Cattle
Cattlemen did not take the warning of last week's decline in prices, and today there were nearly as many cattle at the five Western markets as a week ago. Prices were unevenly lower. In most cases, steers were down 15 to 25 cents with trade dull. Western steers are selling at \$10.00 to \$14.75, and native steers - \$9.50 to \$15.50. Prime corn fat steers are quoted as high as \$16.00, cows and heifers are selling at \$7.00 to \$14.25, and yearling steers and mixed grades at \$9.00 to \$14.50, bulls \$7.00 to \$10.00. In the past seven days, declines amount to \$1.50 to \$2.00. Veal calves are steady at \$9.00 to \$14.50.

Stockers and Feeders
Prices for thin cattle show about the same decline as fat grades. The market today was 10 to 25 cents lower and dull. Feeders are quoted at \$10 to \$14.50. Those above \$13.50, carry considerable flesh. Stockers are selling at \$9.00 to \$13.00, stock cows \$7.50 to \$10.00, and stock calves \$8.00 to \$13.00.

Hogs
Though hog prices were depressed 50 to 60 cents from the high level a week ago, and Wednesday was the low day last week, the market has rallied 25 to 35 cents. Today 15 to 25 cents was added and trade was active. The top price was \$20.75, and the bulk of the hogs sold at \$20.20 to \$20.60. Demand showed considerable urgency. Pigs are quoted at \$15.50 to \$19.50.

Sheep and Lambs
After reaching the high point of the past two weeks last week, the sheep market today turned down. In most cases declines of 25 to 40 cents were quoted. The bulk of the offerings were from the Southwest and California. Sheep sold at \$9.50 to \$10.00, and spring lambs \$17.75 to \$18.50. A big bunch of Angora goats sold at \$8.50.

CHARLES M. PIPKIN,
Market Correspondent.

McCOY ITEMS

June 3.—The farmers are all taking advantage of the pretty weather. Quite a large audience witnessed the play which was presented here Friday night by the school children. This marked the close of the school.

PLANS BEING MADE FOR SUMMER SCHOOL

I am planning to teach a summer school in Floydada and would like to meet prospective students and their parents at the High School building Monday morning, June 9th, at 10 o'clock, to discuss the matter. My present plan is to teach two months beginning Monday, June 16th. Tuition fees will be governed to some extent by the number of students who attend.

MISS SUSIE STANLEY.

METHODIST ORPHANAGE SUPERINTENDENT VISITS HERE

Rev. W. T. Gray, of Fort Worth, Superintendent of the Methodist Orphanage in that city, was among the out-of-town visitors in attendance at the Methodist Conference. He was here Tuesday afternoon and night and made a plea for the support of the pastors of the panhandle for the orphanage.

Rev. Gray, while here was the guest of J. C. Bolding, his boyhood friend in Northern Alabama.

BARTLEY-McCAULEY

J. B. Bartley, Jr., and Miss Avis McCauley were married at the McCauley home last Sunday morning at seven o'clock. Rev. W. M. Lane officiated at the marriage.

Mrs. Bartley is the daughter of Mr. and Mrs. R. L. McCauley, who live west of Floydada, and Mr. Bartley the only son of Judge and Mrs. J. B. Bartley, city. The McCauley family have resided here some two years while the groom has been reared in Floydada, his father, J. B. Sr., having been a member of the Floydada bar since the early '90's.

Mr. and Mrs. Bartley will make their home in southwest Floydada for the present.

METHODIST DISTRICT CONFERENCE CLOSED LAST NIGHT

Methodists of the district closed a conference last night of two days' duration, which began Tuesday and in which problems of the church were discussed by laymen and pastors of churches in the district. About 100 Methodists representing churches all over the district were present as delegates. They were entertained in the homes of people here.
