Leaders of Paint Creek Attend Camporee

Scouts and leaders of Paint Creek, Haskell, Texas, more than 500 in all, gathered for a camporee at the Concho Camp, Haskell, Texas, on Sunday, Nov. 11.

Scouting skills were demonstrated in afternoon events such as first aid relay, compass and map contest, and memory.

Saturday afternoon a discussion on the life of the Scoutmaster was held in a room at the Haskell Hotel. The Alpha Phi fraternity of Haskell College. The discussion was conducted by the Rev. Asa Avant, pastor of the First Methodist Church of Paint Rock.

After church the Scouts hiked about the Ranch to inspect the painted Indian rocks for which the town is named. Many of the meanings on the inscriptions and paintings are a guess, but some are known to be accurate. During this narration by Mr. Sims at the Painted Rocks, a grey fox jumped out of the rocks. Many of the Boy Scouts chased after the fox, trying to catch him, but he escaped captivity.

On the return hike to camp, the boys met another Boy Scout displaying a Ring Tail Cat he had killed that morning with his 'bean' shooter. This was the first Ring Tail Cat that the Paint Creek Boy Scouts had seen.

Troop 48 returned to camp prepared their noon meal, and was one of the first troops to break camp and load up for the journey home. The boys enjoyed singing songs on their travels and various times at camp between events. They were accompanied by Waller on his

uke-guitar.

Fashion and 4-H Are Winning Combination

WHETHER it's back to school or back to work, a last minute search for clothes will not hamper 4-H girls who have just completed their 1964 dress revue project. They'll be attired in clothes of their own making.

Three lovely examples of what the modern girl can do with fabric, pattern, needle and thread are pictured here in prize-winning ensembles. They have counterparts in every state.

Marovene Byrd

Patricia Clickener

All set to cheer the home team on to victory is Patricia Clickener who showed off her colorful sports outfit at the Illinois state fair.

Ready for the first chilly fall day is Marovene Byrd, one of the successful North Carolina contestants in the state 4-H dress revue. She made both the coat and dress.

The white chiffon dance frock worn by Georgia co-ed, Claudia Stembridge, is doubly enchant-

ing when she dons the gold satin evening coat she is carrying.

Dress revue entrants are judged on personality, poise and grooming as well as sewing skills. Results achieved by this pretty trio are not uncommon among the more advanced 4-H members.

Beginners learn to sew from the age of 10, and they are likely to exhibit aprons, shirred skirts or simple blouses at local revues.

Joy of accomplishment seems reward enough, but there are some extra special rewards and recognition for the most outstanding girls. These are pro-

vided by the Simplicity Pattern Company of New York, which has sponsored the 4-H dress revue program for 15 years.

A gay anniversary fashion event will be held during the National 4-H Club Congress in Chicago the last week in November, when 4-H'ers from all 50 states and Puerto Rico will model their best costumes.

Claudia Stembridge

The national dress revue is an undertaking involving the Cooperative Extension Service, National 4-H Service Committee and Simplicity. More than 1800 delegates and leaders will be in the audience.

The next setting was all-white, to start the Christmas holidays. The setting for a Christmas dinner followed, with two arrangements and color schemes being shown.

An attractive setting for a Christmas open house, followed with a distinctive setting for the party after trimming the tree. An after-Christmas

breakfast setting followed with the New Year Party. All of the arrangements could be used for occasions. Mrs. L. Friserson explained that everyone had a part in the settings, they were shown by Mrs. Ed Fouts. After an enjoyable meeting was adjourned, Mrs. T. V. Wayne Waincoat.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Although the Congress reluctantly renewed foreign give away spending for another year, there are strong indications that if the vote had been delayed until now, the whole sorry mess might have been eliminated.

Probably there have been few things that have hit Congressmen as hard as the action taken in their recent Belgrade meeting of the 24 so-called "neutral" nations.

For they established without a doubt that they are extremely neutral against the United States.

With a callous disregard of morality, Russia had started resumption of nuclear testing in the atmosphere. No one yet knows what damage there can be to human life resulting from radioactive debris floating around in the air. Scientists of repute warn it could be quite serious; in fact they are more inclined to believe it represents danger than not. And obviously, the Russians don't lack in scientific brains.

Yet despite this weight of informed opinion, the Russians, like mad dogs, resumed exploding in the atmosphere, and it is a certainty that if such pollution damages, it will not distinguish between the peoples of the committed West, and the peoples of the "neutral" nations.

But despite this fact, in their Belgrade meeting the leaders of these "neutral" nations were very chary of saying anything unkind about the Kremlin, more than critical about the United States.

To make their stand even more startling, these nations in the past few years have received over \$6 billion from American taxpayers in foreign give away programs.

The two leaders of this "neutral" bloc, Tito's communist Yugoslavia, and India, have almost evenly divided between them \$4 billion.

Voting through the National Federation of Independent Business, the nation's independent business people have consistently opposed this scheme of seeking to win friends by submitting to blackmail.

The cumulative wisdom of this viewpoint seems now well established by course of events.

In fact, the recipient of some of the American starry-eyed give-away programs appear to go far out of their way, and far beyond logic, to be critical of the United States.

When Russian actions forced the U. S. to resume underground testing, which does not pollute the atmosphere, the head of the government of India came up with a nifty.

He disregarded Russian pollution of the atmosphere, but said the U. S. was doing worse because it was "disturbing Mother Earth." This is what \$2 billion bought.

change the oil tax plan just adopted by the Legislature. Constitution allocates the new sales tax on motor oil to the State Highway fund for road building. Consequently the corner service station man must keep books on this tax separately from sales taxes he collects for the State's general fund.
Calvert plans to suggest to the Legislature that this oil tax be levied at the jobber level, same as gasoline sales taxes. This will simplify bookkeeping and collecting.
Speaker James T. Turman agreed that there are inequities in the new sales tax which the Legislature should correct. First to talk openly about paying the tax under protest were the vending machine people. They can't collect sales tax on items selling for less than 25 cents, but they must pay sales tax on their gross sales.
Texas Merchandise Vending Association plans to ask for a court ruling.

On the Humble Happy Motoring Freeway at SIX FLAGS Over Texas, you can slip behind the wheel of a sleek little sports car, fasten your safety belt, open the throttle and scoot down a drive down the center lane all the way!

This "Driver's Dream" is one of the most popular attractions at the big, new family entertainment center recently opened. In fact, over 185,000 drivers of all ages have "put the foot" to the accelerators of the vari-colored, specially built cars.

Using a Kohler seven horsepower gasoline driven engine, each car has already traveled over 7,000 miles around the scenic route. Their smooth, hard plastic bodies were designed and manufactured by the Arrow Development Company of California. The cars are capable of hitting 35 mph on a straightaway but for obvious reasons they have been governed down to eight miles per hour.

In order to maintain top safety standards at all times, each car on the Happy Freeway is thoroughly checked at the end of each day's run. Tires are rotated and replaced as often as needed, just like regular passenger automobiles.

There is only one pedal in the floor board of these cars. In order to go forward you push the pedal down, as in the ordinary car; to stop, you simply "let up on the gas" and the car comes to a halt.

Even the most inexperienced driver is insured a safe and happy trip around the Happy Freeway... and here you'll never be asked to show your driver's license!

Special Service At Methodist Church

On the evening of Nov. 26th the Vesper Service at the local Methodist Church will be centered on the subject of "Prayer," the Rev. C. R. LeMond, pastor, has announced. This special service is being sponsored by the Commission on Membership and Evangelism, he explained.

Continuing, Rev. LeMond said: "Among the reasons for this special service are a united prayer for deeper consecration and devotion on the part of each member of our church; 2. The beginning of prayers for our revival which is set for April 1 through 8, 1962, with Dr. Woodrow W. Adcock as our leader; 3. We believe that any emphasis on prayer can help in developing the spiritual life of our church, and we hope that this influence can add something to the betterment of our fine community.

"Therefore we extend an invitation to any and all who will come. Our Vesper Service is at 5 p. m. and your attendance would not interfere with attendance at your own church. We believe this will be a good follow-up of the Thanksgiving week and good preparation for the Christmas season. We are hopeful that not only our church membership will participate, but others as well."

Before going duck or goose hunting, be sure you've bought your \$3 Federal migratory bird stamp at the post office.

the car that's just right for just about everybody right size... right price...

You've never seen anything like it, because there's never been anything like it... until today. On the outside the new Ford Fairlane 500 measures a quick 197 inches from stem to stern. A good foot shorter than the cars from which it borrowed its name, it calls the snuggest parking places home. At the same time, on the inside the new Fairlane 500 is every inch as big as some of the biggest Fords ever built.

The new Fairlane 500 is priced way under previous Fairlanes, well under many compacts. But Fairlane economy doesn't stop with a pretty price tag. It runs to amazing gas savings—with the world's first economy V-8 or the nickel-nursing Fairlane Six. Routine service is reduced to a minimum—30,000 miles on many items, only twice a year or 6,000 miles on the rest. And it adjusts its own brakes.

County Has 8 Traffic Mishaps In October

The Highway Patrol investigated eight accidents on rural highways in Haskell County during the month of October, according to Sgt. Frank Jirick, Highway Patrol Supervisor of this area.

These wrecks accounted for 14 persons injured and a property damage of \$53,650.00.

With the indications that fall has changed into winter, it is time for our driving habits to change with it. It is a good idea change with it. It is a good idea to follow the Boy Scout motto. The veteran Highway Patrol Supervisor listed some tips to help the driver winterize his driving.

(1) Frost or ice on bridges means to slow down before you reach the bridge. It is too late to do anything once you are on the slick surface.

(2) Check your exhaust system thoroughly, don't risk carbon-monoxide poisoning.

(3) Be extra careful at railroad crossings with windows up. In a sealed car you cannot hear the train.

(4) Check windshield wipers now. They will be carrying an increasing load from now on.

(5) Clear all fog or any form of precipitation off windows and windshields. Don't just rub a small hole to peep through. Use defrosters to help keep the windshield clear.

(6) Make a definite, conscious attempt to adjust your driving habits to the changing season. Your life may depend on it.

Deer Hunting Season Opens Nov. 16th

The basic deer season on white-tailed deer opens in the State Nov. 16. They will be legal in approximately 200 counties in Texas at that time.

There are a few scattered counties where there are short seasons. The counties west of the Pecos river, in what is generally termed the "mule deer" country doesn't open until Dec. 1, and closes Dec. 8.

Generally, the white-tailed season will close Dec. 31, although there are a number of counties where earlier closing dates have been set.

According to Howard Dodgen, executive secretary of the Game and Fish Commission, the deer population is heavy this year throughout the state.

In a number of counties under regulatory authority, the Commission has authorized the taking of a third or "bonus" deer, in an effort to reduce the herds of does in those areas. The taking of does also will be permitted in many of the counties.

Permits for these already have been turned over to landowners, who will be responsible for their harvest.

Definite information on hunting in any area may be obtained from the local game warden.

Early Filing of Social Security Claims Advised

For the past 7 years, peak claims loads in the Abilene Social Security office have been in January, according to Fay Ford, Field Representative, who visits Haskell regularly. She adds that claims filed in January are thereby usually delayed in processing because of such high workload.

Mrs. Ford suggests that persons 62 or older planning on retiring in January or February of 1962 see her on her next visit here to discuss possible advantages of getting their claims filed before January. With the liberalizations in the 1961 Amendments, everyone over 62 who has had three years or more of social security credits should investigate the possibility of collecting at least some retirement benefits in 1962 even though continuing to work. If expected earnings for 1962 are to be less than \$3,000, Mrs. Ford urges a discussion with her about payment possibilities. The next visits to Haskell will be at the Chamber of Commerce office at 10 o'clock every Thursday during November and December with the exception of Nov. 23 and Dec. 21.

St. Ann Parish Now Includes All Haskell County

Jones and Haskell Counties have been included in the newly established Catholic Diocese at San Angelo. These two counties are known as the St. Ann Parish. With the formation of the new Diocese the St. Ann Parish was extended to include all of Haskell County. Previously only the southern part of the county was included.

The new diocese will encompass 34 counties of 42,000 square miles. In the area there are 51,421 Catholics. The establishment of the new Diocese was necessitated by the growing Catholic population in the area.

It includes such cities as Odessa, Midland, Abilene and San Angelo. In the 34 counties there are 51 priests with the majority of them assigned in the 33 parishes, 36 millions and six chapels.

The new Diocesan Bishop will be Msgr. Thomas Joseph Drury. His appointment by Pope John XXIII was announced through Archbishop Egidio Vagnozzi, apostolic delegate in the United States.

Presently the Pastor of Christ the King Church in Lubbock, Msgr. Drury is a native of Ireland. Born in 1908, he studied in the United States where he was ordained in 1935. Following his ordination, Bishop-Elect Drury served at the Sacred Heart Cathedral in Amarillo for 10 years. During this decade he was active also in work for the diocese, assisting the Bishop in programs for Catholic Action. He studied Spanish at the University of Mexico following his Ordination.

For two years he served as founding editor and business

With the rank of Major, he was released from the service in 1955 in order to take up parochial duties in the Amarillo Diocese.

From 1955 to 1956 he served as pastor of St. Joseph Church, Rowena. In 1956 he was named pastor of St. Elizabeth Church, Lubbock, where he remained until January 1, 1961, when he was appointed pastor of Christ the King Church, which had been built under his direction while pastor of St. Elizabeth.

Msgr. Drury will be consecrated and installed on Wednesday, Jan. 24, at 10:00 A. M. in Sacred Heart Church, San Angelo, according to present plans. He will be consecrated by Archbishop Robert E. Former Resident Notes Changes In Haskell

The passing of 50 years has changed the town of Haskell completely from the way he remembered it, declared Odie Ballard of Uvalde, retired carpenter and building contractor and member of an early day Haskell family who visited here last week with a cousin, Frank Draper.

The Uvalde man left here in 1911 and lived in Arkansas for several years before going to Uvalde. His parents were the late Mr. and Mrs. Josh Ballard who lived in what was known as the old Foster community northwest of Haskell.

While here he visited that area, which has completely changed, with the schoolhouse and all the farm residences he could recall having long since disappeared. However, he did locate the old school well. He also met two boyhood friends, John Sparkman and Willie Harrell, who still live in Haskell.

Most noticeable changes the pioneer noted, was in the business section and the courthouse which was remodelled in 1931. He commented on the absence of the Alexander dry goods and grocery stores and the Robertson stores, two of the town's largest mercantile establishments back in 1911-12.

Haskell Man Is Co-Owner of Dog Show Winner

Glenn Cornett of Midland, Texas, showed Kiowa's Aleta, 11-months-old German Shepherd female, to "Best Puppy Female in Show" at the German Shepherd Dog Club of America's National Specialty Show in Dallas Nov. 12. This largest single breed show in the United States and second largest in the world has never before been held in Texas during its 48-year history.

The female was picked for this honor by Gustave Schindler of Point Washington, N. Y., a German-born petroleum engineer and chemist as well as breeder and judge of German Shepherds. Until recently, he was executive vice president of the Sonnebon Chemical and Refining Co., makers of Amalie motor oil.

Kiowa's Aleta is owned by Langdon Skarda of Clovis, N. M., and Tommy Davis of Haskell, the latter also the breeder. No other dog or female from Texas placed this high at this the largest of all single breed shows in America.

Syria lies on the land bridge linking Asia, Africa and Europe.

County Officials Make Plans for Special Election

County officials began making plans this week for the special election Dec. 16, and a runoff, if necessary, to fill the 13th Congressional seat to be vacated by Rep. Frank Ikard whose resignation becomes effective Dec. 15.

Congressman Ikard announced his resignation last Wednesday and Gov. Price Daniel immediately set an election for Dec. 16. A runoff, if needed, then must be held between Jan. 16 and Jan. 26, 1962.

Election judges and clerks who hold the General Election will serve as officials in the special election and for the runoff election if held.

Balloting will be at all election boxes in the county.

More Than 100 Attend 3rd Annual Turkey Dinner for WWI Veterans

Haskell County Barracks No. 1816 of World War One veterans and its Auxiliary held its third annual turkey dinner and get-together Sunday, Nov. 12, in the American Legion auditorium.

About 100 Barracks and Auxiliary members and guests attended and enjoyed the annual affair.

An impressive Memorial Service was conducted for all World War One deceased veterans, of which the following were members of the local Barracks: Thomas Homer Campbell, Jesse J. Drinnon, Urban Harris, Oscar L. Moore, Luther Forrest Pope, Clifford C. Rose, Porter Sadler, and one Auxiliary member, Mrs. Viola Lee, wife of Commander Arthur R. Lee of the Haskell barracks. Relatives of the deceased were special guests.

Chaplain Joe L. Scheets gave the meditation, followed with a solo by Dorothea Rueffer with Mrs. Wallace Cox Sr., at the piano. The charters were draped by Mr. and Mrs. E. O. Morgan, Mrs. John W. Brock, Mrs. Sam Jennings, Mr. Jennings, and David H. Persons carried the memorial cloth.

Mrs. John Seogins and Leon Robertson lighted the candles. Mr. and Mrs. Martin Rueffer, Mr. and Mrs. W. R. Mason were color bearers. Mrs. D. H. Per-

sons placed the open Bible on the altar. Taps were sounded by Martin Rueffer Jr., and Jimmy Bynum.

The meeting which followed was open to all present. Mrs. A. S. Lockett gave a talk on "Why We Have a World War One Organization." G. A. Smith of Munday spoke on membership. The meeting adjourned at 3 p. m.

Hightower--

(Continued from Page 1)
 Counties. He did not seek reelection.

He was appointed District Attorney, assuming office January 1, 1963, and was elected in 1966 and 1969, each time without opposition.

He is a past president of the Texas District and County Attorneys Association. He also served as a member of the Texas Law Enforcement Study Commission and received the honor of being designated as "Outstanding District Attorney of Texas" in 1959 by the Texas Law Enforcement Foundation.

He served in the United States Navy in World War II. In connection with announcement of his resignation as District Attorney and as a candidate for Congress from the 13th District, Mr. Hightower issued the following statement, briefly outlining his position on national issues now confronting the people of this district and the entire United States.

"I regard the security of the United States and the entire free world as the paramount issue of our time. The maintenance of a strong defense must be given priority over all other considerations. Our defense must be adequate for any emergency, supported by an equally strong national economy. However, it is not necessary to put the Constitution in cold storage or to continue the policy of unbalanced national budgets.

"The international crisis now faced by the free world is not a temporary emergency. Tensions between the Communists and the free nations will continue. Therefore, to deal with this constant crisis as if it were something which would soon pass is to invite disaster.

"America must be strong—strong militarily, strong in industrial productive capacity, strong in public finance and above all, strong in moral integrity.

"The American people have risen to every national emergency in their history. In World Wars I and II our country became the arsenal of democracy and our immense productive capacity plus our willingness to sacrifice quickly brought total victory. The spirit which brought us safely through those days is needed now. We cannot afford the luxuries of waste in either public or private affairs or social experiments or projects not necessarily required for meeting the nation's primary needs.

"I favor continuation of foreign aid but believe our help should be confined to nations which are trying to help themselves and will, if the necessity arises, fight on our side. The American taxpayer cannot carry indefinitely the burden of solving all the problems of the world, particularly in those nations which choose to be what they call neutral or uncommitted.

"I believe the American people can maintain a strong national defense, do everything we need to do in aiding other nations, and continue to grow and progress with a sound economy without continuing to add to the national debt.

"I believe the idea of states rights carries with it states responsibilities and that the best way to combat the creeping paralysis of concentration of authority in the Federal Government is for the states and local communities to solve their own problems. I oppose Federal aid to education and socialized medical service. I support a farm program based on sound economics with a minimum of government control and a maximum of individual freedom in order that American farmers may again enjoy freedom of choice and decision.

"I believe in the right of workers to organize, choose their own bargaining agents and negotiate with management in an atmosphere of mutual respect and freedom without undue pressure or intervention from government representatives.

"I favor maintaining the

present oil depletion allowance as essential to a strong and healthy oil industry which is so vital to the national defense.

"I favor retention of the Connally amendment to the treaty establishing a world court which reserves to this country the right to determine what cases shall be submitted to this international tribunal.

"I am a lifelong Democrat and have consistently supported party nominees. I will be anxious to discuss these and other issues of personal or national importance at any time."

Bill Wilson Co. Local Dealer for Mercury Meteor

A Haskell automobile dealership—Bill Wilson Motor Company, 209 S. Avenue E.—has been appointed to sell the Mercury Meteor, a completely new sized car which will be introduced this month.

The Mercury Meteor will be unveiled across the country on Thursday, Nov. 30, at about 2,000 dealerships in the Lincoln-Mercury organization. Its introduction will climax the auto industry's fall showings of the 1962 models.

The Meteor is regarded by the Lincoln-Mercury Division as a balance between the industry's compact and big cars. Compared to its companions in the Mercury line, the Meteor is nine inches longer than the Comet and nearly a foot shorter than the Monterey.

D. A. Kuhn, Lincoln-Mercury sales manager for the Dallas District, points out that the Meteor challenges the economy of the compact cars yet offers the interior room of regular-size cars and riding qualities of big cars.

"It is not a stretched-out compact nor a cut-down big car. All sheet metal and basic chassis components are completely new and are not borrowed from last year's cars or other 1962 Mercury lines," Mr. Kuhn added.

In appearance, the Meteor emphasizes clean-lined styling. The car, which is built with a unitized body, incorporates features designated to reduce maintenance costs.

The new Meteor will be offered in four body styles—two and four-door sedans in both a standard and custom series.

Overnight Troop Camp Held By Girl Scouts

On Nov. 4th and 5th, Intermediate Troops 2 and 3 of Haskell Girl Scouts went on an overnight troop camp to Camp Boothe Oaks at Sweetwater. Twenty-six girls and four adult leaders arrived at the camp at 12 noon. After a sack lunch, the girls spent the afternoon exploring the camp and playing games.

Supper was cooked over open camp fires. Until bedtime, all took part in stunts and singing before the camp fire. The girls spent the night in the staff lodge, sleeping in their bedrolls.

After breakfast Sunday morning, a Scouts Own Service was conducted by the 6th Grade Scouts. Sunday lunch was again prepared over camp fires. The group arrived back in Haskell at 3:30 p. m.

The following Scouts and leaders attended: Janet Follstaedt, Patricia Hilliard, Dana Stephens, Doris Gordon, Pam Burson, Suzanne Montgomery, Donna Gordon, Kathy Harris, Cora Feenster, Deanna Robertson, Belinda McKelvin, Sheila Gilleland, Sandra Lees, Dorothy Isbell, Paula Wooten, Yvonne LeFevre, Linda Steele, Elaine Marr, Jeanette Glass, Debbie Darnell, Pam Harris, Paula Terrell, Mrs. Burnell Gilleland, John Darnell, C. A. Smethie and H. E. Stephens.

EVERY LITTER BIT HURTS...

Careless tossing of trash from cars soon adds up to a mountain of rubbish! One by one the litter bits grow—and every litter bit hurts! Hurts the beauty of all America—its city streets, parks and highways. Every year millions of work hours and dollars go down the drain for clean-up.

Who's to blame? Millions of good citizens with the bad habit of unconscious littering. So think before you throw! Then you'll place every litter bit in the car litterbag... the street trash container.

Thanksgiving Transition

The very first Thanksgiving Day was celebrated in Plymouth Colony for quite a simple reason. Colonists and friendly Indians shared that first feast in gratitude for a bountiful harvest after a winter of great hardship.

Now, three centuries and forty years later, we are thankful for the growth of our Nation. We are thankful for its great strength which stands as a fortress of protection for free people in a world filled with tyranny and oppression.

Let us, as good Americans, express these thanks and rededicate ourselves to preserve and maintain this spirit of freedom.
