AUSTIN (AP) — West Texas tendency by energy companies in could become home to a substantial solar energy industry if the sun's power is aggressively pursued, an energy expert says.

"There is every reason for that industry to locate right here in Texas," S. David Freeman said. "A good reason is that West Texas is a huge desert ideally situated from the location of large solar-thermal power plants that could transmie electricity through the state."

Freeman is general manager of the Lower Colorado River tric power to 33 cities and 11 cooperatives in a 41-county area of Texas. He previously was an energy adviser in the administrations of presidents Johnson, Nixon and Carter, and board chairman of the Tennessee Valley Authority.

His remarks came in the keynote speech Monday that opened the four-day National Solar Energy Conference, which will include presentations of a wide range of research projects,

workshops and exhibitions. "Frankly, there has been a the past to label solar energy as a joke," Freeman warned the meeting.

'If we keep this up, the joke will be on us. We will see the Japanese come in and put photovoltaic cells on our roofs and solar-powered cars on our roads," Freeman said.

He said historians in the future may wonder why solar power wasn't investigated more vigorously during the late 20th century, while nations so heavily used such technologically difficult and environmentally risky power sources as oil and nuclear energy

"The answer may be that modern civilization is so smart that it is dumb," he said.

"We choose to pursue the most technologically challenging path, such as the 40-year unsuccessful effort to perfect fusion power, rather than capturing the solar power that reaches the roofs of our homes without any effort by mankind."

Freeman said a solar-energy breakthrough is crucial to the survival of a high-energy civilizaMar. 20

Trade deficit

WASHINGTON (AP) The U.S. trade deficit, bloated by a record demand for foreign oil, worsened dramatically in January, climbing to \$9.3 billion, the government said today.

The Commerce Department said the January deficit was 20.5 percent larger than December's \$7.7 billion imbalance. Most of the deterioration came from a 44 percent surge in oil shipments.

WASHINGTON (AP) — The savings and loan bailout enacted last year will fall at least \$30 billion and possibly as much as \$162 billion short of the amount needed to clean up the industry, says a congressional report.

The bill passed last August provided \$50 billion to close or sell failed thrift associations through 1992. However, \$48 billion of that will be needed to cover losses at the 383 institutions seized by the government through March 5, concluded a report submitted by Rep. Bruce Vento, D-Minn.

Administration seeks aviation tax increase

WASHINGTON (AP) — The Bush administration is asking Congress to raise taxes on aviation fuel and airline tickets and allow a new airport tax as part of a five-year plan for commercial aviation.

Transportation Secretary Samuel Skinner included the \$22 billion proposal in the Federal Aviation Administration's reauthorization bill sent to Con-

gress on Monday. The plan would add up to \$12 in airport fees to a roundtrip airline ticket, increase the tax on tickets from 8 percent to 10 percent and hike aviation fuel taxes by 25 percent, which also likely would be passed along in higher fares. Congress is likely to make modifications, however.

It is the first proposal arising out of the administration's new national transportation policy, which calls for travelers to finance a greater share of national transportation systems.

The administration makes a distinction between "user fees" and taxes, which President Bush has promised not to increase. Skinner acknowledged last week,

however, that transportation budget proposals include boosts in both local and federal levies.

The increases would add to an aviation trust fund that the FAA proposes to tap for 85 percent of aeronautical needs through fiscal 1995. Currently, 57 percent of federal aviation costs are covered by users via the tax-fed trust fund, with the remainder from general tax revenue.

FAA Administrator James B. Busey said the reauthorization bill would help meet the growing demand for aviation, allow modernization of the air traffic control system and increase aviation safety.

Overall, it would boost federal funding for aviation projects by 73 percent in the next five years, Busey said.

In addition to the plan for improvements, the FAA expects to spend between \$22 billion and \$24 billion on operations and maintenance over the next five years, including salaries of air traffic controllers, agency budget officials said.

"I believe this administration has put forward a comprehensive proposal to deal with aviation in the 1990s," Busey told a meeting of airport officials.

If approved by Congress, the plan would allow airports to impose taxes for the first time since the early 1970s.

The maximum initial tax would be \$3 per departure, with travelers who make connecting flights paying at no more than one additional airport each way. The legislation would give the transportation secretary power to increase the maximum tax after fiscal 1991.

After the first year, collection of the tax would automatically Do you think it would be inappropridecrease other federal funding available to airports.

North was quick to ask for aces. South, unhappy with the strength of his suit, inexplicably answered with a lie. If West could have looked at all four hands, he would have led a heart, but his natural lead was the queen of spades. Declarer won the king and played a trump from dummy, putting up the queen as East showed out. West now shifted to a heart. Declarer played the queen, losing to the king, and a heart came back. He has a rare safety play to insure the contract. He must waste dummy's spade king, overtaking with his ace at trick one so that he can lead the 10 of diamonds from his hand and let it ride. Before you protest that declarer would have to be peeking, ask yourself this question. Even if East wins the jack of diamonds, can you now possibly lose the hand? The answer of course is that East will be on lead and have no way to develop a trick for his side. The defenders get only the ace of diamonds. For the declarer who finds this play, the layout of the defenders' trumps can be described only as a reward for virtue.

Ways farmers and ranchers can reduce their use of chemicals, and the potential impact such steps will have on a crop and livestock production and the environment, will be examined in Lubbock March 26 at a conference on agriculture policy sponsored by the Texas Agriculture Extention Service.

The public discussion will feature national environmental and government policy leaders, research scientist, educators and enforcement agency represenatives. It is supported by the Texas Agriculture Forum.

It will be from 8 a.m. to 5 p.m. at the Holiday Inn Civic Center, 801 Ave. Q. Registration is \$20 and includes lunch.

Environmental issues facing agriculture will be outlined by Katherine Reichelderfer of Washington, D.C. She is with 'Resources for the Future," a policy planning group.

The ability of technology to

Former press secretary cooks "hottest chili in town" 1 pint ripe olives, drained and sliced

WASHINGTON (AP) -Former White House Press Secretary James Brady is a gourmet cook and an avid fan of chili. In fact, he makes one of the "hottest" pots of chili in town.

Brady's chili has won three consecutive "Chili Bull" contests in the Washington, D.C., area, which has earned him "Lifetime Member" status with the International Chili Society. Brady has also been recognized by the Goat Gap Gazette, a newspaper for chili-lovers, as one of Washington's leading promoters of chili.

"It took more than 10 years of trial and error to perfect this recipe," Brady told 150 food editors at an International Food Media Conference (IFMC) reception recently. His chili was served at the reception, which was sponsored by the Beef Industry Council and Beef Board.

"Anyone can make chili 'hot' that's easy," Brady said, "but to find precisely the right ingredients and make them blend together - an ambrosia, if you will — takes quite a bit more doing. That's what I've tried to accomplish with my recipe."

Brady's chili has been described as fiery, scorching - even tor-

Brady's recipe calls for a 2.4ounce box of hot chili powder, an 8-ounce can of jalapeno peppers, 3 medium onions, 4 cloves of garlic, oregano, cumin and redwine vinegar.

The recipe follows, for those daring to try it:

Kid's Kampus

JIM AND SARAH BRADY'S

3 pounds boneless beef round or chuck, cut into 3/4-inch pieces 3 tablespoons vegetable oil

One 2.4-ounce box hot chili powder (about 1/2 cup) 3 medium onions, chopped 4 cloves garlic, minced

One 7- or 8-ounce can jalapeno peppers, seeded and chopped One 28-ounce can tomatoes and

1 tablespoon oregano leaves

2 tablespoons brown sugar

3 bay leaves

1 tablespoon salt 1 tablespoon ground cumin 1 tablespoon red-wine vinegar

Shredded cheddar cheese for garnish

1 tablespoon masa harina

Brown beef cubes in oil. Add chili powder to meat. Stir. Put aside in heavy iron pot or Dutch

Saute onions, garlic and peppers in oil until golden. Add to meat with tomatoes and cook 20 minutes. Add remaining spices, vinegar and brown sugar. Cook slowly, covered, 2 hours. Add masa harina and olives. Serve with shredded cheese. Makes 6 servings (about 9 cups).

Meanwhile, major league executives worked feverishly to save the 162-game schedule. All teams are set to play 158 games, and efforts are being made to others. restore - the Doubleheaders, filling open dates and adding games at the end of the season are among the ways available.

If games were added at the end, it would push the postseason back. CBS-TV, which has contract rights for the playoffs and World Series, would have to give its approval.

A decision is expected later this week on the missing games. No matter what, it will be strange.

Because the season will pick up as scheduled on April 9, Minnesota now will open with 11 straight on the road and Baltimore will play nine in a row on the road. California and Kansas City each will begin with nine-game homestands.

The Cincinnati Reds, who traditionally start the majorleague season at home, will open on the road for the first time

"We had everything planned," Reds owner Marge Schott said. "It's a very big disappointment to me. The big thing is, it cost us our opening day."

There are other changes, too. With spring training shortened, teams can expand rosters to 27

players, up from 24, in the first three weeks. Starting May 1, it goes back to 24.

Also, because pitchers probably will not be as strong at the beginning of the season, starters will need to go only three innings, instead of the usual five, to get credit for victories in April.

The players' union asked for the shift and the Playing Rules Committee, along with league presidents Bobby Brown and Bill White, agreed.

Starting pitchers like the idea. "That's pretty nice," said Mike Norris, who is attempting a comeback with Oakland at age 35. "Three innings isn't very long, is

RB seeking switch

HOUSTON (AP) — The agent for Indianapolis running back Eric Dickerson talked with the Houston Oilers about a possible trade, a Houston television station reported Monday.

KTRK-TV said Dickerson's agent, Darrell Henry, talked with Oilers general manager Mike Holovak.

The Oilers plan to use a full-time run-and-shoot offense in their first season under coach Jack Pardee.

Dickerson, a former Sealy High and Southern Methodist University standout, has been seeking a trade from the Colts since the end of last season.

Dickerson has gained most of his yards running from an I-formation, but Henry said the Colts did use some of the four-wide receiver offense last season. Holovak said he would discuss Dickerson with Pardee.

Dallas inks Spears

IRVING, Texas (AP) — Defensive tackle Anthony Spears of the Houston Oilers has agreed to contract terms with the Dallas Cowboys, bringing to 15 the number of Coach Jimmy Johnson's signings of Plan B free agents, the club announced on Monday.

Spears, a 6-5, 285-pounder from Portland State, spent the 1989 regular season on the Oilers' developmental squad after joining the team as a free agent rookie. He was activated and played in the Oilers wild card playoff loss to the Pittsburgh Steelers

Spears, 24, a native of Pittsburg, Calif., was the best defensive lineman in small-college football in 1988. NFL scouts named Spears the college division defensive player of the year.

"We feel we've upgraded the quality of our defensive line by acquiring Anthony Spears and Lybrant Robinson in Plan B." Johnson said. "We had them rated as the best two defensive line prospects in Plan B."

Oilers sign players

HOUSTON (AP) — The Houston Oilers have signed three free agents, including former Oiler lineman Doug Williams, the club announced Monday.

Williams, 6-6, 295, played tackle and guard for the Oilers in 1986-87 and was on the injured list in 1988. He was a Plan B selection of the Seattle Seahawks last season before being waived.

The Oilers also signed Jerry Reese, 6-2, 267, defensive end, and Frank Miotke, 6-0, 175, wide receiver.

Reese played at Kentucky and was a fifth-round pick by Pittsburgh in 1988 and played in 15 games for the Steelers. He was waived in 1989 and did not play last season.

But the Mavericks had six players in double figures in their 117-110 victory over Atlanta Monday, one day after losing 114-94 to Detroit.

"This is a great effort," said Adubato, "because, after the Detroit game, we could have done one of two things: We could have come out flat or responded the way we did, which was getting the effort on our shots and playing good defense when we had to.

Dallas led 59-55 at the half, but the Hawks went ahead in the third period, taking their largest lead at 85-79 when Glenn Rivers hit two free throws with 1:08 left. Atlanta led 86-83 entering the fourth quarter.

Brad Davis put the Mavericks ahead to stay at 93-92 on a 3-point goal with 9:04 remaining.

They did just that Monday night, ending a 19-game home winning streak by the Phoenix Suns with a 113-102 victory. The Suns hadn't lost at Veterans Memorial Coliseum since Dec.

Who spoiled the party that night? The Spurs, of course.

"Most of the year, we've felt as good on the road as we do at home," said David Robinson, who had 34 points, 14 rebounds and eight blocked shots. "We're a real confident team and we've had a lot of close games this year and won a lot of them. We know how to win.'

The Spurs, who got 12 of Willie Anderson's 18 points in the fourth period, are one of only seven NBA teams with a winning road record (17-16). The victory was the sixth in their last nine road

"San Antonio just caught us at the right time," said Phoenix coach Cotton Fitzsimmons, whose team missed injured allstar forward Tom Chambers and guard Jeff Hornacek.

Kevin Johnson, who led Phoenix with 36 points — 18 in the final period - and 12 assists, offered no excuses for the Suns' first loss in nine games.

Miswiring caused rocket to fail

DENVER (AP) - A Martin Marietta Corp. rocket failed to deploy a \$150 million satellite because the contractor's technicians wired the craft to carry two satellites when only one was aboard, company officials said.

Technicians in charge of the ill-fated Commercial Titan rocket's electric system miscommunicated with computer software engineers in the same building, company officials said

The rocket's only payload was the 5-ton Intelsat communications satellite that was left stranded in space Wednesday when it failed to separate from the Titan's upper stage, a clamshell-like device that can house up to two satellites.

Space analysts say the mistake may cost as much million, including lost revenue from transmitting telephone calls

and television signals. The satellite remains in an orbit closer to Earth than is useful,

with little chance for recovery.

2 arrested in murder-for-hire plot

DALHART, Texas (AP) - Two men have been arrested in connection with an alleged murder-for-hire plot that went awry when the would-be victim found one of the men in her home, authorities say.

Carl Marcom Jr., 26, of Dalhart, was being held in the Hartley County Jail on charges of burglary of a habitation and a firearms charge. Bond was set at \$35,000, according to Deputy Shane

Dan Corbett, 59, also of Dalhart, has been arrested and charged with solicitation to commit capital murder, according to a spokeswoman for the Dallam County sheriff's office. Corbett is free on \$15,000 bond.

Corbett, the victim's husband, allegedly conspired with Marcom in Dallam County to have his estranged wife killed, Rieken said. The couple was in the process of a divorce, he said.

Students' parents threaten lawsuit

HOUSTON (AP) — Parents of 166 high school students who were suspended after they walked out of class are threatening legal action against the school district, claiming their children have been treated unfairly.

The parents, whose children attend Reagan High School, met Monday night to discuss the mass suspension and the terms the district set for the students' return. They said they planned to file a lawsuit over the issue.

Houston Independent School District Superintendent Joan Raymond said the students could return to class as early as Monday, but she added they would face two weeks detention and would be excluded from extracurricular activities for the rest of the year.

The students, who are mostly Hispanic, walked out of classes Friday to protest the appointment of a black cheerleader to the mostly Hispanic squad. Parents and students claim the selection was made to appease black football players and bypass the election process.

Battery powers newest heart aid

HOUSTON (AP) - Texas Heart Institute surgeons plan to implant a battery-powered heart assist device in a patient this summer if they get federal approval.

Successful use of the device would enable a patient to move freely and perhaps leave the hospital while awaiting a transplant, said Dr. O.H. Frazier, director of the Houston-based institute's cardiovascular surgical research laboratories and heart transplant service.

THI and Thermo Cardiosystem Inc. have applied for a Food and Drug Administration investigational device exemption that would permit them to use the battery-powered device in patients awaiting heart transplants, the Houston Chronicle reported

In Latvia, the People's Front claimed victory Monday in the 50 years, and a spokesman said the group came close to achieving the parliamentary majority needed to press for in-

Life begins at conception, Laredo City Council says

LAREDO, Texas (AP) - An anti-abortion leader says his next move will be an attempt to get the Laredo City Council to pass an anti-abortion ordinance following his success in getting council members to approve a resolution stating that life begins at the moment of conception.

Rex Moses made the remark Monday night after the Laredo City Council approved the controversial resolution by a 4-0 margin with two council

members abstaining. "I didn't do it. You did it," Moses told Laredo residents who thanked him for traveling to Laredo from Corpus Christi, where he heads the Body of Christ Rescue.

struction, expected to cost another \$2 million, will not begin until 1992 "at the earliest."

Asked when the district will start filling the reservoir, he said, "This, like opening the lake to recreation, will depend upon when we are fortunate enough to receive heavy rains."

In anticipation of this, the district will close two roads leading from Farm to Market 2134 and FM 503 to the construction site because even a slight rise will inundate sections of the roads. The county road south from FM 2134 at Leaday, also from FM 305 to the point anti-abortion advocates have where it enters Lake Ivie basin, will be locked.

Ivie Reservoir will hold 554,340 acre feet of water, almost three times Thomas's capacity of 204,000 acre feet.

Recreational access will begin Already, three concrete boat ramps have been completed.

The top of the dam is 152 feet above the river bed, and the lake when full will have 19,150 surface acres and 190 miles of shoreline.

Ivie said he was surprised when the district's board voted to name the reservoir after him. "My wife and I were quite honored to have that done," he

Gov. Clements, saying he will not allow a state tax increase, has promised to veto the \$1.2 billion Senate reform legislation if it reaches his desk. The Republican governor wants to spend no more than \$300 million in new state money on schools in 1990-91, because he said that amount could be covered without new state taxes.

Cytotec prevents stomach irritation

DEAR DR. GOTT: I've been reading about a new prescription drug, Cytotec, that is supposed to help arthritis sufferers' stomach problems. What can you tell me about this medication, its side effects and ability to control arthritis pain?

DEAR READER: Cytotec is not used for arthritis. It was developed to prevent gastritis (stomach irritation) and peptic ulcers, conditions that commonly accompany the use of various medicines to relieve arthritic

pain and inflammation. Anti-arthritis drugs — such as Feldene, Motrin, Voltaren, aspirin and others — can reduce the effectiveness of the stomach's natural, protective coating. Long-term use of these drugs often leads to heartburn, indigestion and injury to the gastric lining. When this occurs, patients must discontinue the anti-arthritis medicine.

By helping preserve the stomach's protective coating, Cytotec reduces the incidence and severity of these complications. Therefore, Cytotec is taken in conjunction with anti-

It is not a substitute for medicine used to treat ulcers, nor is it appropriate treatment for gastric irritation that is caused by factors other than

anti-arthritic therapy.

The major side effects of Cytotec are abdominal pain and diarrhea - both of which tend to disappear with continued use of the drug. Also, Cytotec can cause spontaneous miscarriages in pregnant women; hence, it should not be used by women in the childbearing years unless they use ef-

fective contraception.

DEAR DR. GOTT: "Thirty-five years in hell" could be the story of my life. That's how long I've suffered from bad breath. My childhood was ruined, my employer has received complaints about my poor hygiene, and I've never known true intimacy.

I've been to 23 doctors and dentists.

I've been to 23 doctors and dentists, and no one thinks it's a problem worth delving into. I've seen internists, dentists, ENT specialists, a lung surgeon, periodontist and psychiatrist. I've had a battery of tests including sinus X-rays, liver-function tests, thyroid tests and upper GIs.

The thought of suicide has entered my mind — especially when I've been told by a physician to come back when I'm sick. Can you come up with a pos-sibility everyone else has overlooked? DEAR READER: Alas, I wish I

However, don't give up. Judging from your description, you have exhausted all the resources available to diagnose your problem. The only advice I can give you is a long shot: Make an appointment to be seen in the outpatient clinic of a school of dentistry.
