

"South Plains Some Hog Country."--Frazier

Ft. Worth Commission Man says this is "Hoggiest" Country in all Texas.

Tom Frazier, of Fort Worth, vice president of the Rhomé-Farmer Commission Company, visited Floydada last Monday, and spent some two or three days in this country on business, and while here said that the conditions he found fully convinced him of the opinion he held before coming from the market, that this is the "hoggiest country" he has found in Texas.

The South Plains has been furnishing the bulk of the hogs for the Fort Worth market the past year," he said, "Having advantage of a bountiful supply of high class feed for raising and finishing swine for the market."

Mr. Frazier said that his section of the state had fed much West Texas feed the past year, in addition to receiving a large per centage of marketable livestock from this portion of the state. Feed supply in North and Central Texas is better this year, however, and that country will feed out much livestock the coming season.

While here Mr. Frazier looked over several herds or fat cattle and hogs, while renewing acquaintances with live stock raisers and dealers. His West Texas itinerary includes several points, where live stock interests are prominent.

Shipley's Sell Plainview Coal Business.

Shipley & Shipley have sold their coal and grain business in Plainview to Allen & Bonner. The latter company will use the coal shutes and yards of the former for their coal business.

Dan Shipley was in charge of the selling company and W. A. Shipley of this city was interested in the enterprise. Dan Shipley will engage in the cattle business.

Reduced Rates Over Frisco And Q. A. & P. For Fair.

The early announcement of the Floyd County Fair is attracting no little attention outside of the county. By quick work arrangements have already been made for excursion rates over the Quanah, Acme and Pacific as well as the Frisco as far north as St. Louis. These rates are exceptionally liberal both as to fare and time limit. Rates for the Fair Dates over the Floydada Roaring Springs Auto Line, W. R. Cope, proprietor, have also been made especially low for the occasion,—\$5 for the round trip, limit to conform to the limit set by the Q. A. & P.

People at or near points touched by the Q. A. & P. and the Frisco, who have interests here or desire to see the country can come at a nominal cost and see in three or four days an epitome of the varied industries of Floyd County at the Fair September 9, 10 and 11. In the county people are asked to take particular note of the fact that foreign attendance at the fair is apt to be unusually large and that a liberal home attendance and participation in the event with entries in the various departments is much to be desired.

The rate from St. Louis will be one fare plus \$2.10, with a time limit of 15 days. The total cost of a round trip from St. Louis in this manner will be, including the auto trip from Roaring Springs only \$26.50. The round trip rate from Quanah to Floydada via Roaring Springs will be \$7.50 and \$6.50 from Paducah by the same route. Tickets will be on sale at Quanah and Paducah on the 8th and 9th and will be limited for return to September 13th.

It is hoped that the announcement of a similar good rate over the Santa Fe may be made within time to be of much value to the Fair and the county in general.

The liberality of the Q. A. & P. and the Frisco has made quite a favorable impression locally and will be the means of a largely increased attendance throughout points on these routes.

Plans for Singing Normal Includes all-day Singing Sunday

Plans for the Cornelius Normal Musical Institute to be held in Floydada August 17th to September 4th are being made. Two or three good places to hold the normal have been offered.

Prof. Cornelius will come here from Hood County where he begins an institute within the next few days.

Local singers expect that the usual program that includes an all-day singing on Sunday before the school opens on Monday, will be followed and are telling their friends to come on Sunday the 15th before the school opens Monday the 16th.

Texas on Wheels.

"Half of Texas is on Wheels" this summer. Automobiles are serving the purpose of conveying Texas tourists who are seeing the grandeur of their native state. The South Plains is entertaining hundreds of these touring parties weekly. Many parties from other states are also seeing the South Plains country.

P. D. Bartley, mercantile dealer of Cone, was transacting business in Floydada Wednesday.

Gallon cans Crusto cooking oil 85 cents at Duncan's. 2tc

Floyd Boys Add Two, Lose One, at Roaring Springs.

The Floydada Baseball Team added two more games to their string of trophies last Friday and Saturday when they played ball with a fast team gathered from various points under the hill. The main portion of the opposing team was from the strong Acme aggregation.

The locals took the first and third from the opposition and dropped the second.

The first game was much slower than a 13 inning affair is usually. In the 9th inning the game was sewed up, 2 and 2, and ran thus till the 13th when Acme ran in one score and Floydada 2.

The second game was played the forenoon of the second day of the picnic. It went only 7 innings and resulted in a score of 6 to 5 in favor of Acme. The third game was an easy one for the locals resulting in a score of 5 to 1.

Novel Feature of First Fair Day will be Doll Parade

A novel feature of the first day's program of the Ninth Annual Floyd County Fair to be held in Floydada September 9th, 10th and 11th, will be a Doll Parade, the entry requirements for which will be made known as soon as the committee on the premiums have made their report. The present plan is to have the parade form on the northeast corner of the square, parade on Main Street to the southwest corner of the square, from thence up the "pike" to the exhibit grounds at Napoleon Park. The possibilities that this can be made a beautiful and pleasing stunt, are very promising and creates enthusiasm.

The Merchants' Trade Parade will likely be held on the Second Day in the forenoon and Live Stock-Parade on the third day. Definite and exact dates and hours will be set for the various parades at a later date.

We wish to thank our good neighbors and friends who have so liberally helped us since our home and household goods were destroyed in the winds recently.

Your liberality has made us glad we live among such good people.

Sincerely,

Mr. and Mrs. Kent Foster.

Misses Nannie and Lizzie Colville, of Carlisle, Ky., who visited for a month here with W. M. Colville and family, left Monday for San Francisco to see the fair.

Miss Louise accompanied them as far as Plainview.

E. C. Nelson returned home Tuesday from Mount Pleasant where he went the previous Wednesday to be present at the burial of his father, Capt. E. R. Nelson.

D. T. Curry and daughters, Misses Lola and Stella, and son, James, are here from Clay County, on a ten-day visit with Roy Curry and wife. Mrs. Curry has been here some three weeks.

G. W. Gilley and family have been here from Abilene the past ten days, while Mr. Gilley has been looking after his property interests in the southeast portion of the county.

Mrs. C. C. McMillan has returned home from a visit of several weeks in Iowa with her father.

Water Main Tile Ready for Ditches

Most of the tile for the water mains in the water works system of Floydada has been received and laid ready to go in the ditches when they are dug.

Roaring Springs Picnic Has Big Attendance.

The picnic at Roaring Springs last Friday and Saturday was largely attended by local people the second day's attendance from this point being variously estimated from two to five hundred people.

Most of these saw Floydada Baseball team win their 20th game for the season by a score of 5 to 1.

The attendance from all points was large.

Fishing Party on Concho.

G. V. Slaughter, F. E. Savage, H. S. Haines, C. Foster, Raeburn Thompson, John McCleskey and E. T. Green left Tuesday morning for the Concho Valley where they will spend a week or ten days fishing and on an outing.

Mrs. Haines accompanied the party as far as Lubbock, where she is visiting, and Mrs. E. T. Green accompanied them to Lamesa where she will spend a short visit with the family of her brother, Judge George Foster.

Petersburg Man Shot in Altercation over an Account.

Puss Erwin, a cattleman living four miles south of Petersburg, in the edge of Lubbock County, shot a neighbor Wednesday afternoon following a misunderstanding over an account, according to reports that come to Floydada. Telephone connections were poor to Petersburg and the details could not be verified this morning, except one out of four shots fired took effect in the lip and jaw of the wounded man. Just how serious is the wound could not be determined.

Mr. Erwin surrendered to the sheriff of Lubbock County Wednesday afternoon.

Mrs. Ed Asher Recovering Fast.

Mrs. Ed Asher, who was badly injured in a runaway on the streets of Floydada last Thursday morning, is rapidly recovering. She was able to be removed to their home southeast of town within a few days and is now up. Her most painful injury is a badly sprained ankle.

Mrs. Asher's parents, Mr. and Mrs. Van Leonard, who came over from Clarendon as soon as they heard of the accident, reaching here Friday morning, left Tuesday returning home.

Commissioners Give Routine Matters Attention in Monthly Session

The Commissioners' Court of Floyd County was in regular session Monday and Tuesday of this week. They gave routine matters their attention, including accounts allowed and some road work considered.

Court adjourned Tuesday afternoon.

Touring the West.

Mr. and Mrs. C. Surginer, Mrs. Jno. N. Farris and Mrs. W. I. Cannaday left Monday morning for California, to see the Panama-Pacific and San Diego Fairs. They will be gone several weeks.

Flour is down. Get our prices. White Sells for less. tf

New Wheat Testing First Grade Class.

New Wheat is being marketed in Floydada at a fast rate, several threshers being at work in every direction from town. The wheat of this season is testing out all in the first grade class—from 59 to 63. Most of it is testing 62.

The Market opened up at 80 cents and has been fluctuating since with an upward tendency, Wednesday's sales being made around 96 cents at the scales.

Several cars have already been shipped out, and the production it is now believed will run practically twice the estimate made in the early spring. This is not true, however, of many other portions of the Southwestern wheat-raising area, this latter fact having been advanced as the probable reason for the upward tendency of prices at which first sales were made.

25 cent Advertisement Sold Rye Seed for Dr. Morris.

Dr. J. W. Morris sold his entire supply of rye seed by the middle of this week, following the use of a 25-cent advertisement in the Hesperian last Thursday.

The ad-liner always carries a message for somebody, if it appears in The Hesperian.

Since the Doctor used the advertisement and sold his rye, the town cows have been going out to his farm to eat the straw. Dr. Morris is not sure the cows do not read the ads, too.

BORN.—To Mr. and Mrs. W. L. Jackson Tuesday, July 13th, a son.

A. H. Manning motored to Canyon last Friday, returning Saturday with his daughters, Misses Clarice, Lillian and Vivian, and Misses Bettie Shurbet, who visited here Saturday night and Sunday, returning to Canyon Monday. They are attending school there.

Geo. T. Goen of Dallas, an uncle of A. C. and W. S. Goen, is out on a business stay of several days in Floyd County.

Mr. Maddox, of Red River County, who has bought land northeast of Floydada from G. B. Williams, has moved to this section and will make Floydada his home.

Mr. Meddcox was in the mercantile business in Red River County selling his stock to Williams Bros.

RESOLUTIONS PASSED BY FLOYD COUNTY UNION

At Regular Meeting in Floydada on July 5th and 6th 1915.

Resolution No. 2.
 Whereas the Floyd County Farmers Union is in regular session.

Be it resolved that the Floyd County Farmers Union insist and demand that the county school officials make preparations to teach cotton grading in the county institutes and public schools in compliance with our state school law, and

Be it further resolved that a copy of these resolutions be sent to each of our county papers and a copy be sent to the Farmers Fireside and Bulletin for publication.

Resolution No. 3
 Whereas the Floyd County Farmers Union is in regular session, be it resolved that we the Floyd County Farmers Union condemn the action of attorney general Looney in his suit against the Railroads of Texas in regard to the issuing of rail road passes, and be it further resolved that we consider it a direct blow at the Farmers Union organization of Texas, and

Be it further resolved that a copy of these resolutions be sent to each of our county papers and one copy be sent to the Farmers Fireside and Bulletin for publication.

Resolution No. 4.
 Whereas the Floyd County Farmers Union is in regular session, be it resolved that the Floyd County Farmers Union strongly indorse the separation of the A. & M. College and the state University, to be under different boards of management, and:

Be it further resolved that a copy of these resolutions be sent to each of our county papers and a copy be sent to the Farmers Fireside and Bulletin for publication.

Resolution No. 5.
 Whereas the Floyd County Farmers Union is in regular session, be it resolved that the Floyd County Farmers Union strongly indorse the separation of the A. & M. College and the state University, to be under different boards of management, and:

Be it further resolved that a copy of these resolutions be sent to each of our county papers and a copy be sent to the Farmers Fireside and Bulletin for publication.

Resolution No. 6.
 Whereas the Floyd County Farmers Union is in regular session, be it resolved that the Floyd County Farmers Union strongly indorse the separation of the A. & M. College and the state University, to be under different boards of management, and:

Be it further resolved that a copy of these resolutions be sent to each of our county papers and a copy be sent to the Farmers Fireside and Bulletin for publication.

Warehouse and Marketing Men in the Field Now.

Representatives of the Warehouse and Marketing Department of the state are now in the field organizing warehouse and marketing associations wherever they are desired.

The department has sent out notice that any community which desires this kind of an association may have the services of one of these field men for the asking.

Official, Legal Citations, Notices, Etc.

Citation By Publication.

The State of Texas,
To the Sheriff or any Constable of Floyd County—Greeting:

You are hereby commanded, That you summon, by making Publication of this citation in some newspaper published in the County of Floyd, State of Texas, if there be a newspaper therein but if not, then in any newspaper published in the 64th. judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 64th. judicial district, for four weeks previous to the return day hereof, A. J. Dodd whose residence is in the State of Texas, but whose present whereabouts are unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Floyd at the Court House thereof, in Floydada, Floyd County, Texas, on the 13th day of September, A. D., 1915, then and there to answer a Petition filed in said Court, on the 1st day of June A. D. 1915, in a suit numbered on the docket of said Court 938, wherein Mrs. S. C. Dodd is plaintiff and A. J. Dodd is defendant. The nature of the plaintiff's demand being as follows, to-wit:—
The State of Texas, }
County of Floyd, } In The
District Court of Floyd County,
Texas. September Term, A. D.,
1915.

To the Hon. R. C. Joiner, Judge of the 64th. Judicial District of Texas:

Now comes Mrs. S. C. Dodd, who resides in the County of Floyd and State of Texas, hereinafter called Plaintiff, complaining of A. J. Dodd, a resident of the State of Texas, hereinafter styled Defendant, and for cause of action states and shows to the Court as follows, to-wit:

1. That the Plaintiff, Mrs. S. C. Dodd, is an actual bona fide inhabitant of the State of Texas, and has been such an inhabitant of the State of Texas for a period of more than twelve months next preceeding the filing of this suit and has been a resident of the County of Floyd and State of Texas for a period of more than six months next preceeding the filing of this suit. That the defendant is a resident of the State of Texas, but his present whereabouts are unknown to this plaintiff.

2. That on or about the 15th. day of February, A. D., 1896, the plaintiff, then a single woman, was legally married to the defendant, A. J. Dodd and continued to live with him as his wife until sometime during the month of February, A. D., 1897. That at the time of their marriage both plaintiff and defendant were residents of the State of Texas, and were married in

the County of Floyd and State of Texas.

3. Plaintiff further alleges that there were no children born to them by said marriage.

4. Plaintiff further alleges that sometime during the month of February, A. D., 1897, the defendant abandoned this plaintiff and has not since said time returned to her and has remained away from her continuously from said date until the filing of this suit, and that they have lived apart without co-habitation for a period of more than ten years before the filing of this suit.

5. Plaintiff further alleges that subsequent to the abandonment by the defendant of this plaintiff, above referred to, this plaintiff purchased from the State of Texas, out of her own separate estate, the following described land lying and being situated in the County of Floyd and State of Texas, known and described as follows, to-wit: All of Section No. sixty two (62) in Block G, Certificate No. 61-G, Original Grantee D. & W. Ry. Co., containing 640 acres of land. Plaintiff further alleges that she purchased this land from the State of Texas in her former name, to-wit: S. C. Green, and that title to said above described land is vested in her under the said name of S. C. Green.

6. Plaintiff further alleges that the defendant has no claim or right to said land, save and except the fact that he was her husband at the time she purchased same, as above set forth, and that he owns no further interest in and to said land.

7. WHEREFORE, Premises Considered, the plaintiff prays that the defendant, A. J. Dodd, be cited in terms of law to appear and answer herein; and that upon hearing hereof she have judgment of the Court dissolving the bonds of matrimony existing between her and said defendant, that same be annulled and that she be divorced from said defendant; that she be restored to her former name S. C. Green; and that she have judgment investing title in her to the above described property in her former name of S. C. Green, and that, any claim, right, title or interest that the defendant may have or hold be divested out of the said defendant and be fully vested in this said plaintiff in the name of S. C. Green; and for her costs herein incurred; and for such other and further relief, special and general, in law and in equity, as she may be justly entitled to.

HEREIN FAIL NOT. And have you before said Court, on the said first day of the next term thereof, this writ with your endorsement thereon, showing how you have executed the

same.

Given under my hand and seal of said Court, at office in Floydada, Texas, this the 1st day of June, —A. D. 1915.

(Seal) Tom W. Deen,
Clerk District Court Floyd County, Texas. 624-

Notice of Stockholders Meeting.

Of the Crosbyton-Southplains Railroad Company, to be held Wednesday, September 1st, 1915, for the purpose of authorizing the directors thereof to issue bonds, etc.

To the Stockholders of the Crosbyton-Southplains Railroad Company:

You and each of you are hereby notified that on the 16th day of June, 1915, at special meeting of the Board of Directors of said Company a resolution was unanimously adopted calling a meeting of the stockholders of said company, to be held Wednesday, September 1, 1915, at offices of the Company, in Crosbyton Texas, at 10 O'clock a. m., for the purpose of authorizing the directors thereof to execute a mortgage upon the property of the Company and to issue bonds there under to an amount and for a period to be fixed by the Stockholders at said meeting; and to authorize the directors to apply to the Railroad Commission of Texas for authority to issue such bonds; and to take such further and other steps as may be necessary under the laws of Texas for the final approval by said Commission of said bonds; and to obtain the authority of said Commission to register said bonds when issued in the office of the Secretary of State of Texas.

Dated this June 16th, 1915, at Crosbyton, Texas.
624 W. R. Lotspeich,
(Seal) Secretary.

J. R. Neriwether, of Matador, was in Floydada last Friday transacting business.

BORN.—To Mr. and Mrs. R. C. Reagan, of Sandhill, Friday, July 9th, a son.

First Wheat Exported.

Galveston, July 8.—What is expected to be the first cargo of 1915 wheat to be exported from any American port is being loaded on board the British steamship Maltby today. She will take approximately 216,000 bushels. The Maltby is the first ship to take grain from the new Sunset elevator, which replaces the one destroyed by fire Nov. 17, last.

Delinquent Tax Record is Complete

The delinquent tax record of Floyd County has been completed and the Collector A. G. Goen is ready to make collections and file suits for collection under the law which passed the last legislature.

It is hoped by means of this law to collect many million dollars worth of back taxes in the state.

Miss Broyles and J. S. Cope Married

Miss Rosa Broyles was married Sunday of last week in Lockney to J. S. Cope, a young farmer living near that place.

Miss Broyles is a daughter of W. E. Broyles, living northeast of town.

Rev. Sweeney officiated at the ceremony.

P. M. Felton and C. H. Featherston made a trip southwest to Gaines and Dawson Counties the latter part of last week.

\$100,000 to loan on Floyd Co. lands. Quick action.
1tc C. H. Featherston.

WHY ATHLETES GET "STALE"

Coaches Sometimes Keep Their Men at Work Without Proper Resting Periods.

The question of short versus long periods of practice in training the human muscles for any particular kind of work is obviously one having far-reaching application. Some interesting experiments on this subject have been carried out by Dr. K. S. Lashley of Johns Hopkins university. Acquisition of skill in archery was selected as the subject of observation. Twenty untrained persons were divided into three groups. One group shot five arrows with the English longbow per day; another twenty shots per day, and the third forty shots. The results showed conclusively that the group shooting only five times a day improved in accuracy with less expenditure of time in practice than was required by either of the other groups for the same amount of improvement. A report on the experiments says: "The relatively greater efficiency of short periods of practice continuing for many days is in accordance with the results of the study of animals and of speech habits in man, and indicates that in training to muscular feats, in both animals and men, the length of practice periods required is usually too great for maximum efficiency."

SOME GOOD IN PURPLE PATCH

Absolute Condemnation of "Flashes" in Composition Can Hardly Be Said to Be Warranted.

Every textbook on rhetoric contains a warning against "purple passages," and nearly every literary critic has, at one time or another, held them up to wrath. This censure needs some qualification.

A purple patch may not be bad in itself; its fault may be that it accentuates the poverty of the surrounding texture—that it is not a true and rational effect and development of style.

Its writer has often been compared with a man who wears a drab coat which has been mended by a piece of gay cloth designed for some gorgeous wearer.

But if the drab coat offends our eyes, why should we deny them the pleasure of looking on the splash of vivid color?

To write a sentence ending with a preposition is a misfortune; to split an infinitive is a crime; but the man who composes a purple passage may retort on his critics by saying that he was giving a sample of what he could do, had he taken more pains, or were he more happily inspired.

DIDN'T DESERVE IT.

"I gave a seat to a woman in a street car this morning."

"I don't suppose she even acknowledged your courtesy."

"Oh, yes. She acknowledged it, all right. She said, 'I was just wondering how long I would have to stand in front of you before you would get up.'"

AN AFTERTHOUGHT.

"Jack took me in his arms and proposed to me."

"Heavens! Why didn't you make him propose to you first?"

"I—I don't believe he intended to do it until he took me in his arms."

SHOPWORN.

Bess—I think if Alice married Mr. Joblots she will sell herself cheaply.

Jess—Well, she's been on the shelf long enough to go at a bargain.

HARDLY EVER.

"Mamma, is 'man' a noun."

"Yes, dear."

"A proper noun?"

"Hardly ever, dear."—Houston.

EMPTY HEADED.

"He's an empty head. There's absolutely nothing in it."

"Nothing at all?"

"Nothing. Not even a cold."

SPOILING A SCANDAL.

"I hear that Bobbs drinks like a fish."

"So he does. Never touches anything but water."

THE APPROPRIATE PLACE.

"Where do you keep your clippings of the various fights?"

"Where should I put them but in a scrapbook?"

Colorado stock salt 45 cts. per 100 sack at Duncan Grocery.

Cloves Are Dried Buds

The buds of an East Indian tree are picked, dried and then graded according to the percentage of oil they contain—this oil is the source of the clove flavor.

But the buds are taken in grinding, even as cloves lose much of their flavor. After grinding, the cloves must be protected from evaporation by most careful packing.

You see then that it is not only pure cloves you must insist on, but selected cloves which have been handled throughout the best way to keep them full of the oil which flavors.
That's why we suggest that you insist on White Swan Cloves. Selected from the best grade, ground by our "cool" process to retain flavor and strength and packed in air-tight tins. Your grocer sells White Swan Cloves—the cost is a little more, but the economy is greater because a tin lasts longer.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

CARDUI

The Woman's Tonic

a trial. I still use Cardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.

mine the Exact Location
of Bullets.

War is a stimulus to science, and this is reflected very strikingly in matters pertaining to the relief of the wounded. The search for and extraction of fragments of shells is no simple matter, although surgical endeavor has been facilitated by the perfection of the X-rays. But these are insufficient. A bullet may be located speedily, but the difficulty is to ascertain its precise position by the probe and lancet. As a result of study and investigation a simple and effective method of discovery has been perfected, which may be described as telephoning for bullets. Ordinary telephonic receivers are clamped over the surgeon's head, one wire being led to a carbon plate and the second wound round the knife, probe, needle, forceps or whatever instrument is used. With this implement the search is made, and directly it comes into contact with, say, a bullet, a distinct click is heard on the telephone. If the instrument is rubbed across the surface of the buried object a rattle is observed, and by following this clue it is possible to withdraw the bullet or fragment of metal. The idea is by no means new, inasmuch as it was employed for the first time during the Boer war; but the present campaign has served to bring it to a high state of perfection.

CAT!

"How do you like my hat?"
"I like it very much. I always did like that hat."

GUIDE TO JAPAN.

Walk up five months, beginning with January, turn sharply to your right, and there is June.

June is noted for its roses and honeymoons. There are more desolated households in June, on account of outgoing brides, than at any other time. Also more households where mamma experiences a grand feeling of relief and papa hopes that now expenses can be cut down.

To enjoy June properly, take an early start. Begin to make your plans about it in March. Get rid of your moral courage, your character and your regular business. Then, grabbing all the money there is in the cash drawer, enter June with confidence and give yourself up to it with the complete serenity of houseless irresponsibility.—Life.

PERSISTENT CHANGE.

"What are your ideas of the best form of government?"
"Oh," replied the restless agitator; "it isn't a question of what kind of a government we're after. It's merely getting rid of the one at present in operation."

AWKWARD SITUATION.

"For two dollars I will foretell your future."
"Are you a genuine soothsayer?"
"I am."
"Then you ought to know that I haven't got two dollars."

NO WONDER.

"There is one class of employed men who are expected to strike."
"Who are they?"
"Baseball batters."

NO DOUBT.

"Cotton has some dire possibilities as an investment."
"Naturally; cotton is a bale-ful subject."

THE ONE EXCEPTION.

"You have no cross to bear," said the husband.
"Only when you are as cross as a bear," replied the wife.

DRUG PLANTS IN AMERICA

Department of Agriculture Is Not En-
thusiastic Over Possibilities
of Profit.

Government specialists do not believe that the growing of drug plants offers any unusual opportunities for profit. The department of agriculture, in a bulletin entitled, "Drug Plants Under Cultivation," calls attention to the fact that drug plants are subject to the same diseases and risks as other crops, and in addition knowledge of the best methods of cultivation and handling is less general than in the case of other and better-known crops.

On the other hand, the number of drug plants that may be grown in the United States is large. Many native medicinal plants that are found in their wild state in a few sections have been successfully cultivated in situations far beyond their natural range. In suitable soil and under favorable weather conditions the following plants have done well under cultivation in numerous places in the central and eastern states, and if the difference in climatic conditions is not too great will probably be suitable in other regions: Anise, belladonna, burdock, caraway, catnip, camomile, conium, coriander, digitalis, dill, echinacea, elecampane, fennel, henbane, horehound, pennyroyal, sage, stramonium, tansy and thyme.

CONGRATULATIONS IN ORDER

"Fred called last night."
"Are you to be congratulated?"
"I think so; I got him to leave before midnight."

A HARD BARGAIN.

"My dear," said Mr. Jagson, "I wish you could have a more detached interest in hats."

"What do you mean?" asked Mrs. Jagson.

"Why, I wish you could enjoy looking at a hat in a milliner's window without desiring to possess it."

"Well," answered Mrs. Jagson, sharply, "when you reach the point where you can enjoy reading the labels on bottles without any desire to sample their contents, I'll change my attitude toward hats."

INANE QUESTION.

"Well! Well! Going fishing, old scout?" asked Boresum of Gadsby, who was loaded down with expensive paraphernalia.

"Oh, no," answered Gadsby, in sarcastic tones. "I bought this outfit for the express purpose of white-washing my backyard fence."

FISH DAY.

Fond Parent—Johnny, do you study physiology at school?
Johnny—Yes, father.

Fond Parent—Can you tell me how many bones there are in the human body?
Johnny—Before or after Friday.

COOL RECEPTION.

"You look sweet enough to eat!" he exclaimed.
She gave him a freezing look.
"But I do not care for ices."

FIFTY-FIFTY.

"Half the world doesn't know how the other half lives."
"That's the half that minds its own business, probably."

EASILY GAINED.

"I certainly admire your daughter's savoir faire, Mrs. Comeup."
"Yes; it's the latest kind. We got it for her in Paris."

THE RETURNED SOLDIER.

"I tell you, when we went into action, we got the enemy on the run."
"Then I bet you were in front of him."

WHITE CREST FLOUR DEMONSTRATION

At Duncan Grocery Company

FRIDAY, SATURDAY AND MONDAY,

JULY 16, 17 AND 19. 3 TO 6 P.M.

Ladies of Floydada and vicinity are cordially invited to attend this exhibit.

A Daily Luncheon Served Free

From 3 to 6 O'clock P. M.

Mrs. Montebaro and Miss Maupin will be in charge of the demonstration, and the ladies are invited to attend in the morning, 10 to 12, as well as in the afternoon, that they may witness the baking.

Duncan Grocery Co.

S. E. CORNER Public SQUARE.

Cabbage Worms.

Cabbage Worms are troublesome again this year according to reports. The insects, like the poor, are always with us when there are cabbage or other vegetables of the Cuciferae family. The larva of the cabbage butterfly is a very voracious eater, as it requires but a few of these insects to destroy a field of cabbage.

After the larve, the cabbage worm, enters the head of the cabbage it is very hard to reach with spray solutions. The best plan is to begin in time and keep the insects reduced so there will be few left to do damage.

Hand picking is slow, yet it is generally very effective in reducing the insects, especially when the cabbage patch is small. By watching the plants and killing the worms few will be left to reproduce the species.

Spraying may be done with arsenate of lead is preferable generally. It should be used at rate of about two or three pounds to a barrel of water. A "sticker" is sometimes used to make the spray adhere. To do this two or three pounds of resin soap is added. Where Paris green is used one-half pound to a barrel of water is sufficient.

A fairly safe practice is to sprinkle powdered arsenate of lead on the plants. Paris green if used it should be mixed with dry airslaked lime and dusted on while the plants are damp with dew.

Entomologists tell us that there is no ground for prejudice against cabbage that has been

sprayed with poisons as one would need to eat 28 cabbages at one time to get poison to be injurious.—Farm & Ranch.

Farm and Ranch Loans.

Reasonable rate of interest, loans to run 3 to 5 years. Loans from \$1000 to \$100,000. For further information call on Robbins & Darsey, First State Bank, Floydada, Texas. tf.

Mrs. John Norris, of Crowell, visited last week in Floydada with her niece, Mrs. Tom W. Deen. She has also been visiting with relations in lockney.

Elmo Wall, of Weatherford, was in Floydada from Friday to Monday last visiting with his brother-in-law, N. W. McClesley.

D. M. Hopper left last Saturday for San Francisco where he will visit the Panama-Pacific Exposition. He will spend several weeks in the west.

Luther Morris, wife and son, left Saturday morning for Mineral Wells on an extended visit with relatives and friends. Parker county is the former home of the Morris.

Palace Barber Shop.

Hilton and Lauderdale have christened their new barber shop on California Street, adjoining the Post Office, the Palace Barber Shop.

BORN.—To Mr. and Mrs. Ed Dunnvant, of Carr's Chapel neighborhood, a daughter, July 4th.

John L. Sullivan, ex-champion prize fighter of the world, has been engaged to make a speech before the National Prohibition Society at Atlantic City this week.

If John Sullivan can hit John Barleycorn as hard as he formerly hit his companions of the pugilistic ring, he will make himself a new reputation. And it is said that Sullivan is a hard hitter with his tongue, too.

Hall county is the first panhandle county to call an election to vote bonds for the erection of a county hospital under the law which passed the last legislature. Petitions are out asking for the election.

Moody Blake writes the Review from San Francisco, as follows: The letter is published verbatim, that brother editors and others may lead their influence and send their papers and exhibits as suggested. Mr. Blake is on his way to Honolulu after a visit to home folks in Glazier.

San Francisco, June 30th, 1915.

Miss Farrell:—I visited the Texas building at the Exposition today. We have a beautiful building, but no exhibit. The lady in charge told me if anyone would send anything it would be highly appreciated. So far only the Houston Chamber of Commerce has done anything. I thought possibly you would like to send your paper; she says she would be glad to get it—anything for the visitors to read! She sure is working hard to show Texas off; deserves credit for what she has done and has the building very pretty. Her address is Mrs. W. V. Galbrith, Texas Bldg., Exposition, San Francisco. I can assure you any help you may give her will be appreciated. I remain, L. M. Blake Honolulu." (Texas papers please copy.—Editor)—Glazier Review.

The Hesperian did not say anything about sidewalks last week. When it's muddy we can't build them and when it's dry we don't need 'em.

It is reasonably certain that the amendment to the constitution allowing qualified voters to vote for state officers and state questions in precincts other than their home under certain restrictions, will fail to carry. A strong array of members of the 34th legislature including several strong pros have issued a warning against voting for the amendment, and Tuesdays dispatches carried the statement that all the liquor dealers in the state would fight it. With the two strongest factions in the state fighting the amendment it is reasonable to suppose it will be lost.

The Plainview News has found a champion to best the Texas mule. This is none other than the German submarine. One of these sunk a whole shipload of mules the other day. The submarine had the advantage however of being on the water out of the mule's element. The News is the same opinion still,—that on dry land the Texas mule can kick the slats out of anybody's old submarine.

This week we are carrying a statement from the President of West Texas State Normal addressed to the superintendent of Floyd County Schools E. P. Thompson, which statement follows a visit of a normal Faculty committee to the rural schools of this county, and embodies many suggestions for improvements in the school conditions of the county. Each teacher, trustee and patron should read these suggestions and strive to reach the goal in their own communities set by these educators as ideal. There are always limitations in the way of every good movement, but there is a way around obstacles when we seek persistently enough.

Floyd County Schools are probably on a par with schools of

this section and much above the average for the state of Texas it one is to believe reports. This does not imply that we have the best we can have by any means. It merely means that we are in position to advantageously push forward and attain the best.

There are Four in the Ring.

It has previously been announced that there are two aspirants for Congressman Stephens' place in Congress besides himself. Now it is announced that Judge Prescott, of Paducah, who ran last year against Mr. Stephens is in the race again.

"All in the Lodge."

Two Manhattan physicians were enjoying the breeze from the front seat on the "hurricane deck" of a Riverside drive bus one bright afternoon recently, when part of their conversation was overheard.

It ran like this: "I performed an operation for appendicitis on the wife of a millionaire yesterday," said the stouter of the pair.

"Yes," said the other. "What was he suffering from?"

Both Shakespere and Cervantes died on April 23, 1916, yet ten days actually intervened between the two deaths. The explanation is that then England was still using the Julian calendar.

To the Doctors friends and neighbors that contributed in any way during the recent illness of Hallie: We want as one whole family to offer our heart felt thanks for every act of kindness either by word prayer or deed, that we did so greatly appreciate. For so many years we have lived among, known and loved the people of Floydada, but somehow when every thing goes well we give little heed to our surroundings but let the dark clouds of sickness and sorrow hover so close about us, and we have our last and baby girl restored to us, as we feel almost from the dead, we want to pour our hearts out in loving gratitude to a Merciful Savior "who doeth all things well" and to the generous and noble hearted people that altogether makes life worth living. And when the trials and hardships of this life are o'er if we never minister to each other again in this world we can all meet in that Fair City where we'll have no sickness, death nor separation and where there'll be no night; and living trusting we'll all meet in that land that is fairer than day.

Boating Party for Austin Guests.
For her cousins, Misses Josephine and Nellie Holtzclaw, of Austin, Miss Arlie Biles entertained Tuesday night with a boating party on Lake Plainview. Chaperoned by Mr. and Mrs. C. L. Biles and Mrs. W. E. Holtzclaw, the hostess and her friends arrived at the lake at nine o'clock and immediately proceeded to enjoy the pleasures of boating by starlight.

While this was indulged in, candy of good, home-made variety was offered and, later, after returning to the home of the hostess, punch was served to the following: Misses Josephine and Nellie Holtzclaw, Alma Armstrong, Louise Miller, Effie Murphy, Lucy Glenn, Dixie Biles, and Messrs David Hailey, Bert Vaughn, Craig Gilliland and Bransford Hack.—Plainview Herald.

Picnic Items.
A merry folly crowd of Centerties went picnicing last Saturday. All had planned to meet at Fairview 8 o'clock too many to mention each by name, there were quite a crowd of young folks, with just enough older ones to act as chaperons, 2 wagons one hack and 3 buggies were used as conveyances and

they were well loaded, we went east until we reached the brakes then down the caprock on into the canyon, there by a rippling stream of sparkling water where it glided over the little pebbles and under the shade of the cotton woods and weeping willows we selected our picnic ground. With a whoop Hurrah and a skip and jump all began to scatter around. The boys challenged one another in seeing which one could climb the steepest bluff, then some one would lose their foot-hold and come tumbling down, the girls joined in and had their share of the fun. All too soon the noon hour arrived. Some of them were so carried away in play they thought they had no time to eat until they saw that splendid dinner of Bread, vegetables, pickles and saled, preserves, Jellies, cakes and pies, so many nice things to eat, we almost jumped from our seat. The program for the afternoon, was to explore the Canyon, hunt plums and take pictures and often we heard the Click, click of the Kodak, sometimes pictures were made in groups, other times, ascending and descending those steep bluffs. When our thoughts began to turn homeward each expressed themselves as having enjoyed the day very much and, we unanimously agreed it had been one of the very pleasantest outings.

Citation by Publication.

The State of Texas; To the Sheriff or any constable of Floyd County, Greeting: Oath having been made as required by law, you are hereby commanded to summon Eliza E. Lack, if living, and if dead, her unknown heirs at law; Laura E. Stephens, and her husband, John Stephens, if living, if dead, their unknown heirs at law; Effie Riddle, and her husband, Ira Riddle, if living, and if dead, their unknown heirs at law; Sarah B. Pipple, if living, and if dead, her unknown heirs at law; and the unknown heirs of W. H. Beacom, deceased (It not being known whether or not any of said parties are

living or dead, it is hereby intended that this citation is to said parties if living and if dead then to their unknown heirs) by making publication of this citation once in each week for eight successive weeks previous to the return day hereof in some newspaper published in Floyd County, Texas, to appear at the next regular term of the District Court of Floyd County, Texas, to be holden at the court house there of in Floydada, Texas, on the sixth Monday after the first Monday in August, 1915, the same being the 13 day of September, A. D. 1915, then and there to answer a petition filed in said court on the 15th day of July, A. D. 1915, in a suit numbered on the docket of said court No. 957, wherein R. H. Buckingham is plaintiff and Elmer Lewton, Herbert Lewton, Mina Hamilton, and her husband, —Hamilton, Eliza E. Lack, if living and if dead her heirs at law, Laura E. [HOUSTON, TEXAS, JULY 9, 1915.]

Sulkey and Disc Plows

FOR

STUBBLE BREAKING

Every wheat farmer is interested now in getting his small grain land into proper condition for the fall planting.

For flat-breaking the old reliable P. & O. Success Sulkey has been the farmers standby for seventeen years. It is well-adapted to the conditions of the soil in this county, as your neighbors will testify.

If you want a disc plow the Emerson 2-gang is the easiest to adjust to the number of horses you have to use--a simple adjustment cuts a furrow 16 to 24 inches wide. Disc plows are 'dry-time' plows and can be used when the ground is "good and hard."

We have a good supply of both of these 'stubble breakers' ready for immediate delivery. No time wasted and you get the best.

Come to our store for Hard-wear Hardware.

Exposition Safeguards Visitors Against Prices and Petty Extortion

The Official Exposition Hotel Bureau will without charge give all information as to hotels, apartment houses and living charges. Secure accommodations in advance or provide them on arrival for parties of any number at any price desired from \$1 a day upward in good, modern hotels with every known convenience.

The Exposition Hotel Bureau is an official activity of the Panama-Pacific International Exposition, but is conducted with the co-operation and assistance of a committee of representative hotel men of San Francisco, Oakland and Berkeley.

The bureau can be of more direct assistance to you and others who intend visiting the Exposition if you will indicate:

First.—Whether you desire hotel or apartment house accommodations.

Second.—If hotel, whether European or American plan.

Third.—When you will arrive.

Fourth.—Probable length of stay.

Fifth.—The number in your party.

Sixth.—The maximum rate you will pay.

With this information the bureau will furnish the names of a number of hotels, rooming or apartment houses meeting your requirements, and from this list you can make a better selection.

Address the Official Exposition Hotel Bureau, Flannery Building, San Francisco, Cal.

CHURCH NOTES

The Baptist Children's Program at the Baptist Church Sunday evening, July 4th, was planned by Mrs. R. H. Baker, who always succeeds in any work she undertakes. The children had the evening hour on Sunday and they acquitted themselves well. The service was impressive and sweet from the first song,—"Open the Door for the Children" to the "Pantomime" or close.

The offering for the Buckner's Orphan's Home amounted to \$17.

The church house was crowded by friends of teacher and children. We hope Sister Baker will have the children repeat this service.

Mrs. John F. Elder.

This week's issue of the Motley County News will be a novel one in that it will be a Revival Special under the direction of the Commercial Club of that city and will contain no display advertising whatever. It will feature the

church and school as well as the business interests of the town. The plan was adopted at the suggestion of Dr. Finney, an evangelist, who is conducting a revival there.

All Singers Urged to Help.

The committee having in charge the arrangements of the song services for the Revival beginning next Sunday, under the chairmanship of Miss Stella Tubbs, are urging all singers to be present at the opening service and each service thereafter to aid in making this part of the services a success. Singers are not only requested, they are expected to be present and help.

The Revival

Begins next Sunday morning at the tabernacle. Evangelist Sid Williams is known all over the South as one of the ablest and greatest of men in evangelistic work. Bro. Brown will be with the preacher to lead the music. He is great in his part of the work.

Come out and hear these men and get good out of the meeting.

Jno. F. Elder.

Junior Missionary Program

Sunday, July 18th.
Leader—Ora Mae Robbins
Song and Prayer.
Bible Lesson—Acts 12: 5-8.
Roll call—Answer by repeating Third Commandment.
Reading—Holman Flynn.
Piano solo—Ora Slaughter.
Story—Marvin Steen
Reading—Hazel Felton.
Sentence prayers.
Leaflet—Children at work in many lands.

All children who wish to subscribe for the Young Christian Worker should bring 25 cents for their subscriptions on next Sunday.

Mrs. W. A. Robbins

Outing For S. S. Children.

Junior members of the Baptist Sunday School enjoyed an outing at the Park Tabernacle last Friday afternoon, under the direction of Mrs. Baker and other Sunday School workers.

Mayfield to ask Re-Election

From the Plainview News we note that Geo. L. Mayfield, present district attorney of this district will ask re-election to his present office during the next campaign. The News states there are several other aspirants in prospect.

The Eight-Week Club.

The Eight-Week Club met with Miss Myrtle Thompson last Wednesday. The meeting was opened with devotional exercises conducted by the president. After a business meeting we enjoyed a musical program.

A delicious ice course was served. The club meets next with Miss Anna Myrtle Morris, Wednesday July 14.

Geo. R. Ralls, founder of the town in Crosby County, bearing his name, was in Floydada Wednesday transacting business.

ed, are defendants; and said petition alleging in substance as follows, to wit:

That said tract of land is of the value of \$6400.

Plaintiff avers that he owns an undivided five-sevenths interest in and to said tract of land and that the defendants own the other two-sevenths as hereinafter shown.

Plaintiff avers that his claim as title and the defendants claim is shown as follows, to-wit: (a) Said tract of land was patented by the State of Texas to Nelson Lewton assignee of Beaty, Seale and Forwood, May 18th, 1875.

(b) Nelson Lewton died on the 5th day of May, 1883, and his estate was duly administered in the State of Illinois, and County of Pike, as shown by transcript of the proceedings of said administration recorded in the Deed Records of Floyd County, Texas, Volume 24, page 185.

PONDER

Did you ever stop to ponder
What the Picture Show has done;
How it's changed the thoughts of nations
Of the triumphs it has won?
It has given us an insight
Into lives of other climes;
Instructive and amusing
This art of modern times.
We no longer need to travel
And through distant lands to roam,
For we can see them every day
And stay right here at home.

SIMPLICITY AND DURABILITY

Is the keynote in the building of a

TULSA SILO

These two cardinal points, together with cheapness in first cost as well as upkeep, make the Tulsa the logical silo for every farmer to buy.

You who are contemplating building should not delay. Now is the time to build a silo for this year's crop and the winter feeding operations. Let us show you the silo in our yards and figure the cost of a silo to fit your own individual needs. The cost of a Tulsa will be surprisingly low. Read this:

Sylvester E. Jeffries writes from Hale, Mo., Jan. 20, 1915: "My cattle have had nothing but ensilage fed from a Tulsa silo and a little wheat straw for the last 30 days. They are in good condition and gaining flesh every day. The ensilage is just as good at the extreme out edge as it is in the center. The Tulsa is good enough for any man, and is in reach of the small farmer."

A. G. McADAMS LUMBER COMPANY
Floydada, Texas

MILLIONS of American youngsters will profit by their summer vacations this year, for with their parents they will flock to the great Panama-Pacific International Exposition at San Francisco. Realizing that the coming generation is interested in the wonderful exhibits and the general beauty of the Exposition, the Exposition directors made a strenuous campaign for the acquisition of the greatest historic relic in America, the Liberty Bell, and today that treasured emblem of the birth of the nation's independence is being prepared for its long transcontinental journey.

The Liberty Bell will leave Philadelphia July 5 and, making short stops throughout many parts of the country, will reach San Francisco on the evening of July 16. The greatest patriotic celebration in the history of the west will be held in San Francisco on July 17. Every man, woman and child should see this glorious demonstration. It will be an event to be remembered by children during their whole lives.

The city council of Philadelphia, which at first opposed sending the bell to San Francisco, fearing that the widening of the crack that appeared in it a century ago might be greatly increased, finally appropriated \$30,000 to cover the expense of transporting and safeguarding the great relic across the continent. In appreciation of this action 200,000 school children of California have joined in a petition thanking Philadelphia for allowing the famous treasure to be sent to the Exposition.

A special train will carry the great national relic to San Francisco, with an escort of twenty-four members of the select and common councils of Philadelphia. A number of distinguished citizens will accompany the bell.

During its stay at the Exposition the bell will be placed in the Pennsylvania State building, which is a replica of the famous Independence hall, where the bell first pealed out its message of liberty. This most revered historic relic of the nation will be placed in a monster vault and guarded by a special detachment of Exposition guards, who will see that no harm befalls it.

School Visitors of Normal Make Report

Praise Comparative Conditions and Make Helpful Suggestions to Trustees and Patrons.

Messrs. R. L. Marquis and T. F. Reed, of the faculty of West Texas State Normal, who visited the rural schools of Floyd County last April, in a letter to Judge Thompson last week praised the general school conditions, in the county and offered several valuable suggestions to the superintendent and trustees, as well as patrons. Their letter follows:

Dear Sir:—
Without the least intention to criticize the excellent conditions existing in many places in your county, we beg leave to make a few suggestions pointing out lines of effort for the possible

improvement of your schools.

Let all school premises be made sanitary and safe. This can be done at small cost by digging a pit under the back of each toilet for the excrement, and providing lime or ashes to spread over it occasionally. Let every toilet be kept in repair, clean and by all means let some kind of toilet paper or news paper be provided constantly. All of this can be done without money, by the use of a little free labor, which is always available, when some citizen or teacher will take the lead.

Let the boys' and the girls' toilet be as far apart as possible and the approaches screened with boards or trees. Vines and trees might be planted around each toilet. A little attention to these things will retard the spread of contagious diseases, and promote the refinement of the children.

FLOYDADA, TEXAS

The World's Epitome Shown by Displays in the Vast Exhibit Palaces at the Panama-Pacific International Exposition.

Today the great Panama-Pacific International Exposition at San Francisco is being widely exploited throughout the world by the millions of sight-seers who have visited the exposition since its opening on February 20th last as the most beautiful, comprehensive and interesting universal exposition that the world has ever known. The wonderful exhibit palaces house the treasures of the earth, while the grounds, planted to millions of rare bulbs, are a gorgeous mass of color and fragrance. To the visitor entering the gates for the first time, either by night or day, the scene is certain to hold the newcomer spellbound, as the vast panorama unfolds bit by bit before the gaze and the eye wanders from one beauty spot to another in an endless chain of amazing surprises. Entering the main gate at Scott street, for instance, the visitor sees the great Fountain of Energy directly before him. Its giant sprays sparkling and flashing in the light of the warm California sun by day, or assuming the appearance of masses of flowing flames by night under the powerful beams of the great batteries of searchlights trained upon this work of art. As the spell is lifted the eye falls upon the Tower of Jewels, the great center piece of the exposition, and again attention is arrested until the eye has conquered the dizzy heights of this gem-studded tower, every cornice and figure sending forth its share of dazzling lights.

The world's advance in all branches of art, science and industry is amazingly portrayed in the exhibits. Among the electrical exhibits, for example, is the Audion amplifier, invented by Lee De Forest. Through this invention the visitor in the Liberal Arts palace is enabled to converse over the long distance telephone with his relatives at the farthest section of the Atlantic coast and may hear the voice of the speaker in greater volume than was actually given into the transmitting telephone. The intensity of the sound is increased by passing through heat waves. Today it is possible for an orator in New York city to address through the telephone a large audience at San Francisco, the sound being increased so that it is of power great enough to fill a large hall. This single advance in the development of the telephone is paralleled in hundreds of other lines. The railroads have made low round trip rates and ample and reasonable accommodations are to be had in San Francisco and the adjoining cities.

Sanitary drinking fountains could be put in at every school at small cost. Each day's supply of water could be pumped into a barrel placed on a small scaffold. The water could be run out by means of a short pipe through drinking fountains which cost about \$4.50 each for the best. This would reduce the communication of contagious diseases to the minimum. Children with sore lips, or mouths leave pus on the drinking cups and spread diseases. In the absence of drinking fountains each child or each family should be required to furnish its own cup.

The water supply should be carefully guarded. The toilets should be as far as possible from the well. The waste water from the pump should not be allowed to run back into the well. It is unclean and dangerous to allow children to drop crumbs, wash their hands and feet at the pump. When this water disappears, where does it go?

Let all floors, walls and furniture be washed with an antiseptic solution at the beginning of the school and as often as contagious diseases appear.

Let all repairs on the house, including windows, doors and door steps have prompt attention. Let paint be applied externally as often as needed. Out houses should be kept in repair and painted. Let the inside walls be papered with good paper of some soft subdued color. Let the ladies who have taste and culture, in the neighborhood, select the color of the paint for the outside and the paper for the inside.

Modern improvements in heating greatly improve the working conditions of the school rooms, and cost very little more than stoves. Trustees should investigate these systems and install them when possible. There is no good place in a school room for a heating stove. But since we must use them, the pipes should be riveted together and the stoves and pipes should be repaired and polished about once a month.

Plant trees, vines and flowers where possible.

Single desks fastened to the floor make the best sittings.

Each school should have a small organ, a clock, a book case of reference books, dictionaries and as many usable books on suitable subjects as the neighborhood can afford.

A few pictures of famous men, or copies of great paintings in most famous about 14 by 18 inches add greatly to the beauty of a room. (This is a list of furnishings of the rural schools in Page County Iowa, which are said to be equal to any one teacher schools in the United States. I had the pleasure of visiting among them a few years ago.) This is a beginning. We

noticed a few of your schools have more than this equipment. We wish they all could have as much as the best.

Let the teachers try "school gardening" by talking to the older pupils about the growth of plants, the pleasure and profit of the home garden. Our school terms close too early for these gardens to be planted and cultivated at the school houses, but the teachers can give directions for doing this work at home. A friendly contest among the larger pupils in successful gardening under the direction of the teacher will be a source of much interest to the community.

Each school should have a "Library Association" composed of older pupils and parents and teachers. A librarian should be selected, a book case should be provided, and suitable books be procured after consultation or corresponding with those having experience in building rural school libraries. It is necessary to being in the order indicated by the sentence above. It is useless to buy books that the children can not use. It is wasteful to buy books and lose them by careless handling of them.

When possible let the "Baby Beef Clubs," corn clubs, canning clubs, sewing clubs, cooking clubs, debating clubs, any and all sorts of useful clubs be organized to bring the people together once in a while for their pleasure and profit.

Consolidation of school is possible when schools are within three or four miles of each other but impossible when eight or ten miles apart. The purpose of this movement is to assemble children enough to employ good teachers for each department and give them enough time with each class to do good work. Consolidated schools put manual training, domestic science, school music and agriculture in reach of the children. The modern country school conception includes these subjects, but they can scarcely be offered in the school of one teacher for obvious reasons.

When changes are to be made among the teachers of your county, let those new applicants have preference who have had training experience and taste for this work. Such teachers have been known to work great changes in most unfavorable conditions.

This is a pretty heavy program. It will require that Superintendents, teachers and patrons enlarge their views of the general subjects of education, giving great emphasis to the problem of the rural school. The people affected by the schools must view them with greater seriousness, take them upon their hearts and provide for them more liberally, if not generously. Those of us who minister to them must have more information, a fresh

CORNELIUS NORMAL - MUSICAL - INSTITUTE

FLOYDADA, TEXAS, AUG. 16—SEPT. 4.
Prof. R. H. Cornelius, Ft. Worth, Director.

To Lovers of Music! Do you desire to learn more about how to sing? If so, this is your opportunity. Prof. Cornelius is one of the strongest music teachers and writers in the South. His instruction is worth going far to secure. Already the largest attendance of any musical institute ever held on the South Plains is assured. Be one to attend. Instruction in all grades.

Terms Of Instruction

Children under 12 years of age\$2.50

Earl Rainer, Secretary, Floydada, Texas

baptism of love for children and a deeper consideration to our great commission, if we meet the demands of the times and approach the limit of possibilities.

You will misunderstand our motive if you construe in this letter into a criticism of your people, your teachers or yourself. You have a noble people and many good teachers. You are doing much excellent work for your schools. We are trying to help.

Sincerely yours, for the community,
R. B. Cousins,
President.

Miss Vera Featherston, who had been visiting her brother, C. H. Featherston and wife for a week, left last Saturday for

her home in Aspermont, in company with her brother, W. M. Featherston, of Jayton.

Miss Featherston has a class in expression and will return here in September to take up work with the class.

Summer-Followed Wheat Land Yields over 32 Bushels.

J. E. Staley finished threshing his 70-acre field of wheat sown last fall on summer-fallowed land. The yield was thirty-two and one half bushels per acre, a total of 2275 bushels. Part of the crop was marketed immediately, testing an average of about 62.

Mr. Staley says this is the best wheat record he has ever made, beating his former high record of 30 bushels. It is probably the high record for the county to date for a field of the size.

Will Build New Residence.

Sheriff A. C. Goen is preparing to build a new residence on a ten-acre tract owned by him in the Price Addition in the southwest part of town.

C. W. Boothe is making extensive additions to his residence in the east part of town.

A. G. Nobles, of Ardmore, Okla., was in Floydada Sunday afternoon for a short time, which he spent with Mr. and Mrs. H. C. Bosley.

TELEPHONE 51

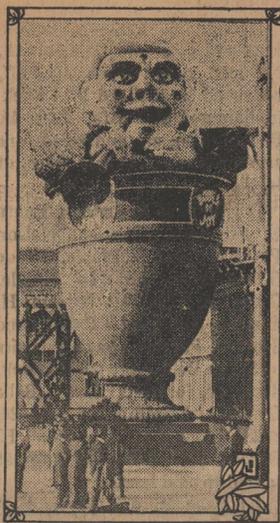

L AMERICA ON EXHIBITION THIS YEAR; RAILROADS GRANT LOW ROUND TRIP RATES TO SEE UNIVERSE'S MARVELS

Privileges of Routing Never Before Offered—Hotel Rates Average Less Than Those of Other Great Cities and 125,000 Rooms Available in Hotels and Apartment Houses in San Francisco.

There is something helpful and inspiring for every one at the Exposition. Said Vice President Marshall recently: "Whoever can, even at a sacrifice of something which for the moment appears necessary, should come to see a real work of art never equaled, even by a mirage. If there be any one in America with a thirst for knowledge and for beauty and a longing for a liberal education, such a one can obtain it here. "This is the university of the world. It has a chair fully endowed to meet the wants and needs of each. The eye, the ear, the mind, the heart, the soul, each may have its horizon here enlarged. I came to bear a message. I remain to become a student. I leave the feet of this Gamaliet of all exhibitions with regret." And Miss Helen Keller, who, as all know, is both blind and deaf, having acquired the faculty of speech, although she has never heard any one speak, said of her visit to the Exposition that it was the most inspiring period of her life. Said Dr. Frederick J. V. Skiff: "Here the world is shown in epitome. The visitor from whatever realm here enters into his native land."

Apart from its costly and comprehensive displays, the great Exposition is an inspiration in itself. In its architectural beauty the Panama-Pacific International Exposition surpasses any of its predecessors. At night the great Tower of Jewels stands out satin-white, sparkling with a thousand changing colors, as batteries of searchlights play upon this pyramidal monument, the loftiest structure at the Exposition and as tall as the average thirty-five story city block. The coloring of the Exposition, the decorative lighting at night, the sculpture and the landscaping are all the work of the

foremost men in their respective fields. Now is the time to see the Exposition. When you reach San Francisco you will, of course, wish to find accommodations without unnecessary delay, and, while you will find

A THRILLER ON THE JOY ZONE.
This giant figure guards the entrance to one of the stupendous attractions on the famous Joy Zone at San Francisco. In the Bows of Joy you are rotated thirty miles an hour in small cars that climb around a giant spiral. The Bows of Joy are but one of hundreds of attractions in the greatest amusement section the world has ever known. Be sure to see the Exposition.

some accommodations necessarily much more expensive than others, you will be able to secure a room at a dollar a day and up. Indeed, one can find all sorts of rooms in the great city of San Francisco, which in reality is a much greater center than the census would indicate, since, with its neighboring cities around San Francisco bay, it forms a group of cities with a population of almost 1,000,000 persons. Hotel rates in San Francisco are no more than they are in any other great city in the United States. As a help to visitors the Exposition maintains the Exposition Hotel Bureau, an official agency which is conducted with the co-operation and assistance of a committee of representative hotel men of San Francisco, Oakland and Berkeley. This Hotel Bureau has no purpose other than to serve the public. It is not a profit making institution. If you want full particulars as to accommodations address the Official Exposition Hotel Bureau, Flannery Building, Market and Kearny streets, San Francisco. In writing, it would be well to state how many there are in your party and how long you desire to stay.

There are accommodations for all in the great city by the Golden Gate, and one need only glance through the classified columns of the San Francisco papers to find how great is the variety of the accommodations offered, while a ride through the rebuilt city will show hundreds and hundreds of hotels and apartment houses, all constructed within the past eight years.

So do not fail to see the Exposition early. The greatest geniuses of the age and the greatest nations of the world have contributed the earth's supremest achievements, and a visit to the Exposition is not only an education, but an inspiration.

IN THE CARPATHIAN PASSES

Wild Country Where Teuton and Slav Are at Present Struggling for Supremacy.

A description of the High Tatra mountains, within whose shadows the titanic struggle between the Teutons and the Slavs for control of Hungary is being waged, has been prepared by the National Geographic society. It is as follows:

"Strongest of all the natural barriers that are opposed to the Russian advance upon their German and Hungarian enemies are the massive, crescent-shaped Hohe Tatra mountains, the central and the highest group of all the Carpathian system. These mountains, forming a gigantic wall of more than forty miles in length and between nine and fifteen miles in width, lie almost due south of Cracow and about due north of Budapest. The passes where the Russians have been forcing their weeks of terrible mountain campaigning lie considerably to the eastward of the Hohe Tatra.

"The Hohe Tatra mountains are the highest in Hungary, rising in a number of peaks beyond 8,000 feet. The Franz Josef, or Gerslford peak, the highest in the Carpathian system, attains an altitude of 8,737 feet. The mountain presents many impassable, high, sheer wall faces, and there is to be found among them some of the wildest scenery beyond the Alps."

SLUMP IN PRICE OF LEAD

Drop Last October Was the Lowest in Fifteen Years, Despite a Big Output.

The price of lead, instead of being enhanced by the European conflict, actually slumped in October to the lowest point reached in the last fifteen years, although 100,000 more tons of the refined metal was produced in 1914 than during the previous year, declares the advance statement just issued by the geological survey. The exports of lead from this country to Europe since the war began have not increased in proportion to the increase in exports of zinc and some other metals.

The total production of refined lead from both domestic and foreign ores was 542,132 short tons, compared with 462,460 tons in 1913. The production of refined lead from domestic ores was 512,794 tons, an increase of 100,916 tons over the record figures reached in 1913.

No domestic pig lead had ever been exported from the United States prior to 1914. Generally the price of lead in this country, owing to the tariff, exceeds the price abroad.

Lead was consistently higher in London in 1914 than in New York, and this, together with the scarcity of Mexican lead, caused the large exports of domestic lead.

JITNEYS TO OUST TAXIS.

The widely known jitney is out and about like the flowers of spring over this whole broad land. It may prosper or it may not, and time will tell; but there are one or two things to notice concerning "the craze," as street railway people call it.

The jitney's success is the taxicab's failure. The latter has never been much more than an instrument of luxury, bluff, or crime in many of our cities (see the movies for proof). The taxicab people have not given the service.

Most folks help pay for paved streets; they like to ride thereon in motor cars, and the jitney gives them a chance as nothing else ever did. If it gives real service, it will last.—Collier's Weekly.

FORCE OF HABIT.

"That old miser has very little to say."
"Possibly he is afraid of spending his breath."

'NOTHER DEFINITION.

Little Lemuel—Say, paw, what is a bachelor maid?
Paw—She is the opposite of a spinster man, son.—Indianapolis Star.

WISDOM OF JOHNNY.

Teacher—Johnny, what animal has the keenest sense of smell?
Johnny—The skunk, sir.

THE PROPER TERM.

Omar—Is failure to support a wife a misdemeanor in this state?
Heiny—No, it's a Mrs.-demeanor.

TRUE ENJOYMENT OF LIFE

Certain Periods of Outdoor Recreation a Necessity for Healthful Existence.

An inquirer, referring to an article in the Bankers' Magazine relative to the health of bankers, is thus answered by Doctor Evans, the scientific hygienist:

"A bank man should have an examination once a year to determine the condition of the kidneys, arteries, heart and nerves. He should arrange so as to have a daily period for exercise in the open air. He cannot keep fit except by following a plan of maintaining fitness, since bank life is one to which the human animal does not automatically adjust itself."

We are all interested in the bankers—that they keep in jocund health, for the general aspect of business takes its flavor from their physical health. But the remark applies quite as well to all our big business men whose work is entirely indoors in comfortable chairs, where the sedentary and unhealthy life is most attractive. The human animal cannot live its best sorting over notes and inspecting ledgers. It needs outdoors among the trees and on the banks of streams where the finny tribe dwells. Get out where the smiles of the blue skies awaken the kidneys and the nerves to action.—Columbus Journal.

PROOF

"Your friend, the actor, is a wonder."

"What makes you think so?"
"He admits that he isn't."

SLIPPER "CAME BACK."

Here is a curious little war story that was related to me by its "hero." He is a British officer who is home from the fighting front on a short leave, having injured one foot rather severely. Meanwhile he is going about in "mufti" and is wearing a carpet slipper on his injured foot.

The other day while he was traveling down from Hampstead to Wimpole street in a London motor bus to see his surgeon, a woman opposite him in the vehicle leaned over and inquired how long he had been back from France. Considerably surprised, and wondering if he was confronted by a seers or a feminine Sherlock Holmes, he explained, and then asked how she knew that he was a soldier and had been in France.

"It is quite simple, really," smiled the fair one. "You see, I made that slipper that you are wearing and sent it to the front!"

AN APPROPRIATE NAME.

In a school in a Jewish district of the city they were discussing a change of name for the school, and the tendency of the board of education to use names of illustrious men as an inspiration had been commented on.

A bright little fellow in the front seat raised his hand for recognition. "I think, Mr. C.," he said, "that we ought to call this the Lincoln school. There are so many Abrahams in it."

PLAYING SAFE.

He—I swear my love for you shall never grow less.
She—Would you — er — mind swearing like that before a notary public?

SOON ENDED.

"We never have prolonged arguments at our house."
"Lucky man! I presume your wife does not argue."
"Oh, yes; but she's so darned clever at it!"

GREEN WAS VERDANT.

"Green tells me that he has an automobile for sale."
"I don't doubt it. I sold him mine the other day."

School

House Meetings

University Station, July 6—The University of Texas Extension Department is issuing a new hand-book for school-house meetings, designed especially for use in small towns and rural districts. It consists of programs of various kinds, some dealing with agricultural matters, community health, school libraries, home economics, marketing, and so on.

During the past year, 282 school house meetings have been held under the general direction of the Extension department, an average of thirty people attending each meeting. The purpose of the Department, according to Dr. A. C. Ellis, in promoting these meetings is to furnish a nucleus for a larger community life and thus enable the community to develop its best ideas incidentally adding to the attractiveness of community life through social intercourse.

A number of the special programs have been prepared in addition to the hand-book, some taking the form of outline of debates upon live subjects, declamations, discussions concerning conveniences and proper decorations of the home, as well as matters that deal more directly with the productivity of the farm. In the latter subject the A. & M. College is lending the valuable assistance of its experts. It is the hope of the department to schedule more than a thousand of these meetings during the ensuing year. The members of the extension staff, the school of agricultural education, and the school of domestic science have all cooperated in compiling hand-book, which will be ready for distribution within the next few days.

Ellis County Leads in Cotton Production.

Washington July 8.—The American cotton crop of 1914—the largest ever produced—reached 16,134,939 equivalent 500-pound bales, which, if placed end to end, would reach more than half around the world. That figure, announced today by the census bureau, is the government's final report. The former record crop of 1911 was 442,229 equivalent 500-pound bales less.

The statistics are 32,789 bales more than the census bureau's preliminary estimate of last March and 168,930 bales more than estimated by the agricultural department's crop reporting board last December. Linter cotton now being used extensively in manufacturing shells for big gues, amounted to 791,464 bales, making a total production of 16,926,394 equivalent 500-pound bales of cotton, including linters.

Texas produced more than one-fourth of the crop—4,592,112 bales—Georgia one sixth of the crop 2,718,037 bales. Those states, with Alabama, South Carolina, Oklahoma and Mississippi, produced more than four-fifths of the entire crop. Alabama's total was 1,751,375 bales; South Carolina, 1,538,819; Oklahoma, 1,265,176, and Mississippi 1,245,535. The remainder of the eighteen cotton growing states each grew less than 1,000,000 bales.

Cotton production in California is increasing rapidly, 49,835 bales having been ginned there, or more than double the 1913 ginning. Arizona also shows a rapid increase, although the quantity still is small—7,142 bales against 2,299 in 1913.

Ellis county, Texas, was the banner cotton county of the United States, having grown 143,714 bales, or approximately 75 per cent more than the entire crop of Missouri or Florida, about three times that of California and nearly six times that of Virginia. Ellis county has an area of 975 square miles and a population of about 55,000.

Western Governors to Hold Conference October 4.

Through the activity of Governor George A. Carlson of Colorado, and former Governor Elias M. Ammons of Denver, member of the Board of Governors of the Congress, an important session, or conference of Western Governors will be held the opening day of the Congress, Monday, October 4.

This suggestion was made to his fellow-governors by Governor Carlson. He has thus far had gratifying response.

Governor Ammons and the Congress officers seconded Governor Carlson's invitation.

General Western development, the general community of interest among the western states, dry-farming reclamation of arid lands, immigration, etc., will be discussed.

Governor Carlson has thus far received favorable replies from:

Governor Arthur Capper of Kansas.

Governor John B. Kendrick of Wyoming.

Governor John H. Morehead of Nebraska.

Governor James E. Ferguson of Texas.

Governor William C. McDonald of New Mexico.

Governor William Spry of Utah.

Governor George W. P. Hunt of Arizona; and these former governors:

George H. Hodges of Kansas.

Joseph M. Carey of Wyoming.

The governors attended by escorts, official attendants, and in some cases officers, will be in Denver for the big parade the opening morning of the Congress session, and the opening exercises themselves. In the afternoon they will confer among themselves with Governor Carlson at the statehouse; and in the evening a Governors Session will be held at the Congress hall.

Holt's Father-in-Law says Dual Personality Evident.

When G. F. Sensebaugh, of Dallas, learned that the evidence seemed to convince the police that his son-in-law, Frank Holt, who exploded a bomb in the capitol building and later attempted to assassinate J. P. Morgan in his home, was the same person who had been missing since 1904 and hunted by the police for for wife slaying, he declared that if Holt was Muenther that he was likewise a dual personality. His statement was as follows:

"If Holt was Muenther, I believe that he was likewise a dual personality. When he was Frank Holt he did not know he was Muenther, and his so-called 'hiding of his past' was nothing more than ignorance of it.

While with us Holt was a man of broad understanding and unerring truthfulness. He was known at Cornell as the mentor of all the students, and was their counsellor in all points of concerted action on which they had doubts. He had nothing to hide from us, I am sure.

"I have read and know it to be a fact well grounded on scientific research, that a man may have had a previous existence of which he knows nothing, if he ever suffered a period of insanity such as attributed to Muenther at one time. If the two lives are one, then it is my belief that such is the case.

"Of one thing I am sure. There was no element of moral turpitude in all Holt's actions, and his breakdown at the last was purely insanity."

Hundreds of letters and many telegrams of condolence have been received at the Sensebaugh home. They were principally for Mrs. Holt.

Why Woman is Restless.

Editor Floyd County Hesperian:—I thank you sincerely for space in which to try and answer the question propounded by W. D. Lewis, president of the Texas Farmer's Union, "Why is woman Restless?"

Woman is dissatisfied with many unjust discriminations against her, with being a menial in the house of her lord; with being an alian in the land of her nativity; with the economic and moral conditions under which her children must live.

The crown of woman hood is mother-hood, and its jewels are her children. In bearing and

caring for these she has not grown restless or weary but she is dissatisfied with the environment into which she ushers and must leave them. She according to Mr. Lewis, alone is responsible. And such grave and great responsibility should make every woman restless while conditions remain as they are.

The ambition of woman could reach no more glorious heights than to be mother of the world's greatest genius, but,—One man achieves greatness, another, has greatness thrust upon him, another steals money and buys greatness and the other 999,997 geniuses are smothered by their environment. Every woman believes and has a right to such belief, that her children are the potential equals of any other children. And because her children do not achieve success, she is restless and rightly indignant.

Nothing will ever quite equal the music of prattling baby tongues and the patter of baby feet in the mother's ever listening ear. But is it possible that the mothers patriotism would be lessened if she should become a citizen of her native land?

"Man bows down and worships" his superiors, meets with courteous respect his equals and treats with scant courtesy inferiors and menials. He does give to woman his name and sometimes his love, but his money is so very, very hard to get she seldom asks for it during his life, and in death he wills all the community property, their joint accumulations, to whom-so-ever he will.

Women do not want "sissies" in Congress, but they do want honest up-right broad-minded men. We want to help select and help elect them. We want to make it impossible for a disreputable or dishonorable man to be elected. Is there anything more worthy than that? And that's why woman is restless. At least it's one of the many reasons.

The government is the true sphere in which the moral consciousness of the nation should be expressed. Woman wants the home moral influence carried into the legislative halls, and this cannot be done without her help, because some business men and farmers for business reasons stand behind pot-house politicians who believe in saloons, slums and red-light districts.

Daisy Linn Chsae, A native Texan.

Floydada, Tex.

Resume of Kansas City Live Stock Market

Kansas City Stock Yards, July 12, 1915. Cattle advanced 25 to 40 cents last week, beef steers getting the full advance butcher grades showing the least gain. Stockers and feeders were in light supply, although shipments out were larger than recently, at 6500 head, prices steady to firm on the best feeders, weak on medium class stuff. Receipts today are 13000 cattle, market steady on the best steers (beef) butcher grades and stockers and feeders, but weak to 15 lower on middle class beef steers showing grass. Missouri corn and blue grass steers sold at \$9.90 and \$10. today, Nebraska dry lot steers \$9.85, and Greenwood County, Kansas, wintered steers, grazed since about May 1st, sold at \$8.75 to \$9.60. Bulk of the native steers sell at \$8.60 to \$9.75. Eastern order buyers complain that cattle prices are too high on the market here, and some of them are trying to pick up cattle in the country cheaper. In the quarantine division 165 car loads arrived, and sold slowly. Quarantine butcher grades sold early at steady prices, and when the steer trade opened up, sales were at steady to 15 lower prices, top \$9.00, fed steers \$7.75 to \$9.00, grass steers \$6.50 to \$8.25. Some Osage, wintered steers, from territory that was in quarantine last year, sold at \$8.50, 1170 lbs. average. Market authorities insist that we are on the verge of a cattle famine, particularly in view of the demands of European countries, now existing and apt to develop in the future. Local packers

exhibit an extraordinary capacity to dispose of beef, and weak spots in the market are not regarded as threatening to its generally stable condition. The hog market is erratic, order buyers paying strong prices for all the good hogs, \$7.30 to \$7.50 today, but packers bidding lower, bulk of sales \$7.10 to \$7.35. Receipts were light, at 6000 head, the slim supply being a rebuke to buyers for the shabby way they have been supporting the market for the week past. Rough heavy sows are slow sale, a considerable accumulation of such selling late last week around \$6.90. Receipts last week were 41000 head, nine thousand less than previous week, but almost double the supply a year ago same week. Sheep are holding up well, but lambs are subject to violent reductions. The supply today is 6000 head, including 9 cars Arizonas; and some native springers, sold early at \$9.25 to \$9.35, but the late market flattened out, and the same class of lambs, sold at \$8.75. Top lambs in Chicago today sold around \$9.25, showing that weak markets are general. Fat ewes are worth \$5.25 to \$6.00 feeding stock very scarce, feeding lambs worth about \$7.25

Willis Building nearly Complete.

The H. J. Willis two-story building on west side is nearly completed. Some plastering, and ceiling lacks being done.

Mr. Willis will move just as soon as the workmen are through and the rubbish can be cleaned out.

The new building will give him more than twice the store room he now has in his main store.

Judge J. N. Stalbird and G. H. Brewster, of Lockney, were in Floydada last Saturday afternoon transacting business.

The State of Texas;
To the Sheriff or any Constable of Floyd County Greeting:

Oath having been made as required by law

You Are Hereby Commanded to summon Elmer I Goshen, Mrs. Nellie Rose, James Rose, Levi Goshen, Mrs. Anna V. Alyard and her husband, whose given name is unknown, and Bell Gosh-

en. If any one of said parties be dead, then you are hereby commanded to summon the unknown heirs of said parties. It not being known whether or not any of said parties be living or dead, it is hereby intended that this citation is to said parties if living and if dead then to their unknown heirs, by making publication of this Citation once in each week for eight successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 64th Judicial District, to appear at the next regular term of the District Court of Floyd County, to be holden at the Court House thereof, in Floydada, Texas, on the sixth Monday after the first Monday in August 1915, the same being the 13th day of September A. D. 1915, then and there to answer a petition filed in said Court on the 15th day of July A. D. 1915 in a suit, numbered on the docket of said Court No 956, wherein Louis Lightner is Plaintiff and Elmer I. Goshen if living, if dead his unknown heirs, Mrs. Nellie Rose and her husband James Rose if living, if dead then their unknown heirs, Levi Goshen, if living, if dead, his unknown heirs, Mrs. Anna V. Alyard and her husband whose given name is unknown, if living, if dead their unknown heirs, and Bell Goshen, if living, if dead her unknown heirs, are defendants, and said petition alleging that plaintiff and said defendants are the joint owners of a certain tract or parcel of land, situated in the County of Floyd, and State of Texas, described as follows to wit:--

640 acres of land known as survey No. 75 in Block D 3, abstract No. 321 situated on the waters of Pease River, about Nine Miles N.-70 degrees East from the center of the County, located by virtue of land scrip No. 104 issued by the Commissioner of the General Land Office of the State of Texas to the E. L. & R. R. Ry Co Decr. 6th 1876 and transferred to Mary A. Newcomb March 24th 1877, and patented to said Mary A. Newcomb Nov. 28th 1879, by Patent No. 145 Vol. 53. Plaintiff avers that he has title to and

owns an undivided one sixth interest in and to said tract of land. That the defendants Elmer I. Goshen, or his heirs at law, Nellie Rose or her heirs at law, Levi Goshen or his heirs at law, Bell Goshen or her heirs at law and Anna M. Alyard or her heirs at law each have title to and owns an undivided one sixth interest in said tract of land. That the reasonable market value of said tract of land is Ten dollars per acre, or Six thousand four hundred dollars. Plaintiff avers that before his death, Levi Goshen, owned the tract of land aforesaid in fee simple, that he died intestate on July 31st A. D. 1895, and left as his heirs at law, his wife Harriett Goshen, who died intestate in 1897, and that the children of the said Levi and Harriett Goshen, inherited from their said father and mother the tract of land in controversy that the children surviving of said parties and entitled to said land are the defendants in this cause and George H. Goshen, to wit;

Elmer I. Goshen, Mrs. Nellie Rose, Levi Goshen, Mrs. Anna V. Alyard, Belle Goshen, and George H. Goshen; That Plaintiff by deed dated the 2nd day of December A. D. 1914, acquired the interest of said George H. Goshen, said deed duly recorded in Floyd County, Texas, in deed records, Volume 36, on pages 427 and 428 that said tract of land was patented to Mary A. Newcomb, by the State of Texas November--, 1879 and Mary A. Newcomb, conveyed said land by deed dated November 29th, 1883 to Levi Goshen, and the said Levi Goshen, is the common source of title as to both Plaintiff and Defendants. Plaintiff sues to have his undivided one-sixth interest in said tract of land partitioned and set apart to him separate and apart from the land of the other joint owners and said interest so set apart be described by metes and bounds. Plaintiff prays for citation by publication for partition of said land and for the cost of suit to be prorated, for the appointment of an attorney to represent the defendants and for general and equitable relief.

Herein Fail Not, but have before said Court at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Tom W. Deen, Clerk of the District Court of Floyd County.

Given under my hand and seal of said Court, at office in (SEAL) Floydada this the 15th day of July A. D. 1915.

children, Elmer Lewton, Herbert Lewton and Minnie Lewton, children of Jasper Lewton, deceased.

(d) Edson M. Lewton and wife, Mary E. Lewton, by deed dated February 3rd, 1887, conveyed their undivided one seventh interest in said land to Joshua H. Lile.

(e) Isaac Lewton and wife, Margaret Lewton by deed dated January 24, 1889, conveyed to Allen Lewton, all their interest in the aforesaid land.

(f) Isaac Lewton and wife, Margaret Lewton, by deed dated January 24th, 1889, conveyed to Allen Lewton all their interest in said land.

(g) Joshua H. Lile and wife, Mary B. Lile, by deed dated April 27, 1901, conveyed to Allen Lewton their undivided one seventh interest in said land

(h) Eliza E. Lack and her husband, H. A. Lack, by deed dated October 24, 1891, conveyed to Allen Lewton their undivided one seventh interest in and to said tract of land.

(i) The Last Will and Testament of said Allen Lewton was duly probated in the State of

Illinois, Adams County, a certified copy of the proceedings of which was filed for record January 8, 1908, and recorded in Volume 15, page 455, in the office of the county clerk of Floyd County, Texas; by which will Mollie E. Tyler took title to four sevenths undivided interest of the said tract of land in controversy.

(j) Hannah Lewton Hollenbeak and John W. Hollenbeak, by deed dated June 1, 1907, conveyed to Richard H. Buckingham and his wife, Lou M. Buckingham, an undivided one seventh interest in said tract of land.

(k) William A. Parrick, Laura E. Stephens, Charles Nelson Parrick, Sarah B. Pipple, Edson O. Parrick, Eddie Riddle, George A. Parrick, Marcus H. Parrick, Andrew J. Parrick and Scott E. Parrick, as only heirs of Sarah Belle Lewton Parrick, deceased, formerly Sarah Belle Lewton, by deed dated July 24, 1908, conveyed to W. H. Beacom their undivided interest in and to said land.

(l) Sarah B. Parrick, by deed dated January 14, 1884, conveyed to W. H. Beacom her interest in the tract of land aforesaid.

(m) Richard H. Buckingham, by deed dated October 4, 1910, conveyed to Mollie E. Tyler an undivided one seventh interest in said tract of land.

(n) Mollie E. Tyler, on the 9 day of October, 1908, executed to Clifford E. Tyler, a general power of attorney to sell her interest in said tract of land.

(o) Mollie E. Tyler conveyed to Clifford E. Tyler by deed dated April 20th, 1912, one-half of five-sevenths interest in said tract of land.

(p) William H. Beacom and wife, Elizabeth Beacom, by deed dated October 5th, 1912, conveyed to Clifford E. Tyler, and Mollie E. Tyler a one-seventh interest in said tract of land.

(q) Clifford E. Tyler and wife, Edna Tyler, and Mollie E. Tyler, by her attorney in fact, Clifford E. Tyler, by deed dated September 26th, 1912, conveyed to William H. Beacom a one-seventh undivided interest in the tract of land aforesaid.

(r) Mollie E. Tyler by Clifford E. Tyler, her attorney in fact, Clifford E. Tyler and Edna Tyler, by deed dated December 17th, 1914, conveyed to R. H. Buckingham an undivided five sevenths interest in said tract of land.

(s) Mollie E. Tyler, by deed dated February 18th, 1915, conveyed to R. H. Buckingham an undivided three-sevenths interest in and to the tract of land aforesaid.

(t) Plaintiff avers that in the event there should be a defect in his title to any part of five sevenths undivided interest in and to said tract of land, then he avers that he and those under whom he claims title to said tract of land have had and held peaceable and adverse possession thereof, cultivating, using, and enjoying the same and paying taxes thereon for a period of five years next before the filing of this suit, and that he has title to said five-sevenths undivided interests in and to said tract of land by virtue of the five years statute of limitation.

(u) Plaintiff avers that in the event there should be a defect in his title to any part of five-sevenths undivided interest in and to said tract of land, then he avers that he and those under whom he claims title to said tract of land have had and held peaceable and adverse possession thereof, cultivating, using and enjoying the same for a period of ten years next before the filing of this suit and that he claims title to said five-sevenths undivided interest in said tract of land by virtue of the ten-year statute of limitation.

6. Plaintiff seeks to have said land partitioned, and his interest

thereto established and his title decreed to be in him, to the extent of five-sevenths of said tract of land.

7. Wherefore, premises considered, plaintiff prays for citation and notice to the non-resident defendants and citation by publication for the defendants whose residences are alleged to be unknown, and if dead, to their unknown heirs.

That upon a hearing hereof he have judgment decreeing title to him to the extent of five-sevenths interest in said tract of land; that his said interest be partitioned and set apart to him by metes and bounds; and that the interest of the defendants, which has been stated as clearly as can be, be partitioned to them according to the interest of each; that commissioners be appointed to partition said land in accordance with the decree of this court, and that title be decreed in accordance with the report of said commissioners; that plaintiff recover costs of court, and that as to non-resident defendants no personal judgment for cost be rendered, but that the cost be apportioned and a lien fixed on the interest of each in said land to satisfy said costs as apportioned; and plaintiff prays for general and equitable relief as he shows himself entitled to.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, Tom W. Deen, Clerk of the District Court of Floyd County.

Given Under My Hand and Seal of said Court, at office in Floydada this the 15th day of July A. D. 1915.

[Seal] Tom W. Deen Clerk,
District Court Floyd County.
