

J. M. Muncey Killed

Wife is Held on Charge and Horace Peters, a Young Man of Lockney as Accomplice.

Saturday morning about 6 o'clock J. M. (Jim) Muncey, of Lockney, was killed at his home with a 38-41 automatic pistol. The family, a wife and two children, were at home at the time. Witnesses arriving at the scene found Mr. Muncey in bed having been shot under the jaw.

As soon as proper officers could arrive the inquest was held before Justice Moon of the Lockney precinct, Judge J. B. Bartley and Sheriff A. C. Goen going up from this place on the morning's train. From testimony secured at the inquest proceedings Mrs. Muncey was arrested on the charge of killing and Horace Peters, of the same place, as accomplice, the charge being murder in the first degree.

Preliminary hearing was set for Monday, but all parties waived trial and Mrs. Muncey was returned to the Hale County jail, and Peters to Floyd County jail. The killing caused much commotion in Lockney and business was paralyzed for three days.

On Monday the question of the custody of the young son of the family, Herbert, 12 years of age, came up, he being an important witness in the case, and after some time an agreement was reached that he should be placed in the custody of entirely disinterested parties, and to be interviewed by the lawyers only. This was done Wednesday.

Lawyers in the case are as follows:
For the state, G. L. Mayfield, district attorney, F. P. Works, of Amarillo; for Mrs. Muncey, Martin & Zimmerman, of Tulia; for Mr. Peters, T. F. Houghton, of Floydada.

Parties having intimate knowledge of the case says that the corpus proceedings will probably come up before Judge Under at Plainview, but will be held before 15 or 20 days. Deceased and other parties to the affair are all of extended families, Mrs. Muncey being daughter of our local citizen John B. Baker, who was one of the earliest settlers in the county. Peters, who is a young man about 21 years of age, attended school at Muncey, between Floyd and Lockney, last

Laymen's Movement Organized.

Sunday afternoon the laymen's movement of the church, was organized in Floydada with E. C. Nelson as president and J. D. Price as secretary. A very successful beginning is reported.

The following were present from Plainview assisting in the organization: R. M. Irick, H. J. Dillingham, J. C. Finley, J. D. Bass, D. W. McGlasson, T. W. Sawyer, and R. C. Joiner. The orchestra from the city was also present and rendered some good music for the occasion.

A meeting is to be called at a later date to lay plans for future activities of the new organization.

Special Term of District Court.

A special term of district court is to be held in Floydada for two weeks in July, four civil cases from Swisher county, having been transferred to this county and set for hearing on the second Tuesday in July the 8th.

These are cases of title litigation.

As was the case on last second Monday in Floydada, there will be bargains of every kind in Floydada, Monday June 9th, and a sale for everything that is wanted to be sold and is saleable.

You are especially warned to bring your trading stock and implements if you want to be rid of it or them, because there will be somebody here that will want what you don't want if it is of any account.

Are you coming?

mother. His brother, D. J. Muncey was at Amarillo at the time of his demise but was called and was present at the funeral services.

Underground wires to Courthouse

A feature of the new telephone exchange being now put in by the Southwestern, will be the absence of poles on the square. In order to carry out this idea and thus save overhead wiring as well as the poles on the square, an underground cable will be run from the company's exchange to the courthouse.

The speech of Hon. Thomas U. Sisson of Mississippi, in the House of Representatives against the alien ownership of land in the United States, was reported to have been very rank, but a perusal of the speech just now at hand in the printed form, reveals the fact that the speech was a gem of logic and reason as well as oratory and contains many facts and little or no prejudice.

Mr. Sisson is a Carroll County, Mississippi friend of Dr. R. S. Bailey, president of the Academy.

The Floydada Public School.

In a write-up of Floydada and vicinity by the Amarillo Daily News correspondent in their issue of May 25, an article on the public schools of Floydada from the pen of Supt. F. E. Savage appears as follows:

The Floydada Public School has just closed one of the most successful years during its existence. The people are full of public school spirit and are willing to support a good school. As a result they have had full nine months term for the past two years and expect to continue on the same high basis. The citizens are represented by a progressive schoolboard which believes in being satisfied with nothing less than the best. The entire faculty for the next term possess college or university training and almost the entire faculty hold permanent certificates. This is nothing unusual for cities, but for towns the size of Floydada is very commendable.

In a short time work will begin preparing two extra rooms to be used for school purposes next year. As proof of the growing condition of the school and community extra teaching force and the school authorities have liberally donated money to purchase a high school library, part of which has been in use during the term just closed. The list will be completed in time for next year's session. In addition to this \$200 has been set aside to improve the science laboratory. With a continuation of the efforts on the part of both teachers and patrons Floydada should have a public school system which would be attractive to the most critical prospector.

The Floydada public school motto is "A town with a future; the school with a purpose."

Stokie Bishop and Mrs. Nora Cox left Monday for Amarillo to visit with their sister, Mrs. W. T. Young.

Ships 3-year-old Steers

E. H. Nichols, of Beaumont, Kansas, was in Floydada over last Saturday and received a bunch of 267 head of three-year-old steers purchased from T. A. Morris and Harry Weatherly, loading and shipping Monday.

He will put the steers on the grass at Beaumont Junction.

Representative T. M. Bartley was in Floydada from his home in Tohoka during the earlier part of this week, returning Wednesday.

Attorney C. S. Williams and wife, of Plainview and Misses Susie and Amie Glenn, passed through Floydada Sunday afternoon enroute home from Matador.

Miss Mary Boerner left Saturday for Lubbock and other points south where she will spend a month on a vacation.

G. C. Tubbs spent last Friday in Amarillo on business.

T. H. Yarbrough left Monday for Montague county where he will visit for a short time with his father.

The city has been doing some weed-killing the past week and is keeping the main streets free of these fly and filth breeders. This is indeed commendable. Tax payers' money couldn't be spent to better advantage. Let it be kept going all summer.

Census Report this Week.

Trustee A. L. Bishop has been busy the past two weeks taking scholastic census and finished Wednesday though the enrollment books will not be closed until the last of the week. According to present information the scholastic population this year is 256 pupils, a gain of 21 over last year, the same as made last year over 1911.

The attention of parents is called to this fact, that every family missed means the loss of \$7 to the district from the apportionment by the state and any who may have been missed should report to the office of Dr. V. Andrews where proper blanks can be found.

B. F. Wagner returned Saturday overland from Comanche and other east and central Texas counties where he has been spending the past month. He visited seventeen counties while away and reports them all in flourishing condition.

James M. Thomas and wife left last Friday morning for Bay City Texas to take charge of the singing for a camp meeting at that place conducted by Evangelist Lee.

The Hale County Herald begins with their first issue in June publishing as a semi-weekly on Tuesdays and Fridays. They announce that the price of subscription is to be raised to \$1.50 at the same time.

This will be the first semi-weekly in this section of the plains.

H. T. Owen returned Friday from the Convention of managers for this district held at Amarillo and reports a fine time with the telephone boys.

He was accompanied down the line by Fred Linington, of Fort Worth, district chief of plant, who inspected the work being done here on the new \$10,000 being put in by the Southwestern.

J. G. Martin is having built a residence in the southwest portion of Floydada.

Teachers' Examination

The State and county examination will be held at the Floydada Public School building on Thursday, Friday and Saturday of next week, the same being 5th, 6th, and 7th of June. Applicants desiring permanent certificates should be there on Thursday, all others on Friday and Saturday. Bring pen, ink and blotters. Paper will be furnished and the applicants pay for their use.

Substituting Gasoline for Air Motor.

This week C. Surginer & Son are fitting a gas engine pump to the city well on the south side square, which will be used in the future for pumping purposes instead of the windmill which formerly stood there and was blown down in a recent storm.

It is thought that the up-keep in the long run for the gas power will be cheaper than the mill. Heretofore, since the erection of the new courthouse, two mill wheels have been bought because of a peculiar suction at the location of the well. With an extra high tower the wheel is often above the wind strata.

A well-house for protection to the engine will be built, also.

Entertains for Miss Boerner.

Last Thursday night Miss Stella Edwards was hostess at the home of Mrs. E. C. Slaughter at a moonlight croquet party honoring Miss Mary Boerner, who left Friday for Lubbock to spend a month.

Games were indulged till a late hour, and refreshments of ice cream and cake were served at the proper time. Those who enjoyed the occasion were: Misses Windsor, Boerner, Strong, Gibson, Baker, Brown, Slaughter; Messrs. L. V. Smith, John Smith, Gamble, Ross.

H. C. Bosley and wife spent Saturday and Sunday in Lockney on a visit with relations.

Resolutions of Respect.

Whereas, we have been brought face to face with a realization of the shortness of life, and the certainty of death; that life is a journey between the barren peaks of Eternity, and like the grass that flourishes by the way-side, it withers and dies; where there is necessarily death, and its blighting effects is felt in all of God's Creation.

Where as, this Lodge has again been brought to a realization of these truths, and it's members have been caused to mourn the departure of one of their respected brothers.

Whereas, In the death of Brother J. M. Muncy, Lockney Lodge No. 867, A. F. & A. M., has lost a worthy member, his Children a devoted Father, his Mother, Brothers and Sisters, an affectionate son and brother, extend to them our sincere sympathy:

Therefore, Be it resolved, that a copy of these resolutions be spread on the minutes of the lodge and a copy be furnished each of our county papers for publication.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

BARKEMEYER GRAIN CO.

Returned Goods,—Merchandiser and Buyer Both lose.

The policy of returned goods is a good one and is needed to establish confidence, but its abuse is a big factor in the merchants expense account, and the consumer, has to bear the loss after all.

W. R. Hotchkiss, a prominent advertising man of New York made the following interesting statement recently which should prove worthy of serious consideration to shoppers:

"In the old days when store-keeping was in its infancy, and some merchants were trying to introduce honesty into selling methods, it was necessary to do drastic things to establish public confidence and one concession after another was made to the public, to teach people that they might buy freely, without putting their money into a trap."

"Your money back, if you want it," was the advertising slogan that did more than all other innovations to establish public confidence and to start people to buying freely from the stores. Today it is the universal policy, and must always remain so.

"But this policy, which in itself is vital to the life of retail business, is today the occasion for such frightful waste as stores cannot continue to endure.

"How many of you merchants have seen the cost of doing business jump up from 12½ per cent to more than 25 per cent?"

"I can well remember the grave alarm that was felt when the discovery was made that 10 per cent of goods were being returned. Today there are probably few progressive stores that do not take back double that amount.

"Think of it! Think of a store selling \$20,000,000 worth of goods and having net sales of only sixteen million! Four millions of dollars worth of merchandise that has been sold over the counters—taking sales-people's time, wrappers' time, carried to the delivery, routed and put on the wagons, delivered many miles perhaps, charged on your books, copied on bills."

"Then all of it returned—your wagons sent to call for it, credits made out, bills to be corrected, goods to be returned to stock—much of it damaged.

"Every part of the work on that \$4,000,000 worth must be done twice—all the work that would need be done to sell \$8,000,000 worth of regular goods.

"So you have actually been to the entire expense and labor of selling \$24,000,000 worth of goods in order get \$16,000,000 actually sold.

"Do you wonder at the present high cost of doing business?"

"Do you think that the public will continue indefinitely to pay so extravagantly for such unnecessary wastefulness?"

"And why is it called for?"

Because foolish storekeeping methods—called liberal advertising policy—have educated the public to send back these millions of dollars worth of goods—just because they thought they wanted to change their minds!

"Today modern efficiency and scientific distribution demand a change.

"Stores have been prodigal with their advertising promises, because it was good advertising and because the dear public didn't know it was all charged on their bills.

"Now we are facing universal public alarm over the high cost of living, and the papers are printing parallel columns showing the vast difference between what is paid to the producer and what is paid by the consumer.

"Of course, you must always take back goods about which there is real dissatisfaction. This may reach 2 per cent of your sales.

"But if you want to conserve your profits, and give vastly better service to the public, you will begin to cure your foolish advertising and the poor salesmanship that lets goods go out of the store without being really sold."

Sheriff's Sale.

THE STATE OF TEXAS, }
County of Floyd }
By
Virtue of a certain Order of Sale issued out of the Honorable District Court of Floyd County, on the 6th, day of May 1913, by the Clerk of said Court against F. L. Mitchell, J. D. Beck, and James W. Robertson, for the sum of Five Thousand and Six Hundred and No-100 (\$5600.00) Dollars and costs of suit, in cause No. 799 in said Court, styled R. A. Childers, versus J. L. Mitchell, et al, and placed in my hands for service, I, A. C. Goen, as Sheriff of Floyd County, Texas, did, on the 6th, day of May 1913, levy on certain Real Estate, situated in Floyd County, described as follows, to-wit:

All those lots or tracts of land, located in Floyd County, Texas, to-wit: Lots No's 1-3-&-5-and Lots seven to Eighteen inclusive, and lots 20-22-and 24-in Block Number one; also Lots No's 3-5-&-7-to-17 inclusive in Block number Two; also Lots No's 7-9-11 13-&-15-in Block No. Three; also Lots No. 2-4-6-8-to 24 inclusive in Block Number Four; also Lots No's 1 to 14 inclusive in Block No. Five; and also Lots No's 1-3-5-7-and 9 to 24, inclusive in Block Number Six; each and all of said Lots, and Blocks being located in Childers Addition, to the town of Childers City, (Floydada Texas,) and levied upon as the property of said F. L. Mitchell, et al. And on Tuesday, the 3rd day of June 1913, at the Court House door of Floyd County, in the Town of Floydada Texas, between the hours of ten A. M. and four P. M. I will sell said Real Estate at public vendue, for cash, to the highest bidder, as the property of said F. L. Mitchell, J. D. Beck, and James W. Robertson, by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Floyd County

Hesperian, a newspaper published in Floyd County.

Witness my hand, this 6th, day of May 1913.

PRINTYPE

Receives the Plaudits of the Public

Vigilant Protector of People's Eyesight Hailed as Benefactor by Many Thousands of Enthusiastic Admirers. "Officer Printype" Responds with Becoming Modesty.

Officer Printype says: "I am overwhelmed by the ovation which has greeted my appearance in your midst. I am simply doing my sworn duty in ridding the Business and Financial Districts of the Bad Characters that for years have made Typewriters a menace to your eyesight. I have mercilessly exposed and relentlessly pursued these dangerous Typewriter Types, which are responsible for more cases of Defective Vision than all other causes combined.

"Report direct to my headquarters, in the Oliver Typewriter Building, Chicago, any machine whose type is violating the Optical Law and I'll have the offender haled before the Court of Public Opinion."

Printype—OLIVER Typewriter

Printype is owned and controlled exclusively by The Oliver Typewriter Company

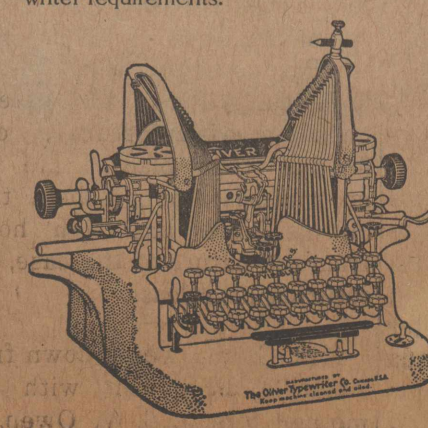

America rings with praise and applause for Printype. This superb new typewriter type has attracted more attention than any typewriter innovation brought out in recent years.

Hundreds of thousands of people have seen this new type and wondered what it was that made Printype Correspondence seem like a spoken message. There's virility strength and charm in Printype correspondence. There's refinement and "class" and style.

Not because of its novelty—it's inherent in the type!

A Vast Improvement

Printype is designed in shaded letters and numerals, like the type in which books and magazines are printed. It is book type transformed and adapted to modern typewriter requirements.

This radical departure from the old style "outline" letters makes it possible to produce, on the Oliver Typewriter, a page of manuscript as clear and attractive as that of the finest book. The Oliver is the first and only typewriter that successfully prints!

The Primary Reason

Printype resulted from our discovery that "outline" type, with its sameness, due to absence of shading, was harmful to the eyes.

The Silent Test

For months, without any advertising, we put hundreds of Printype Oliver Typewriters in to actual service, in many diverse lines of business. We wanted the public's verdict. It came in a burst of admiration and a flood of orders that proved Printype a brilliant success.

Printype letters, wherever seen, excited the keen interest. Business men who received their first Printype letter almost invariably answered, post haste—"Where you get that type?" Thus Printype captured the crowd without firing a single shot.

Price Not Advanced

The Printype Oliver Typewriter sells for \$100. You can pay at the rate of 17 cents a day. The "Printype" is our latest and best model. The new type adds 25 per cent to the value, but not one cent to the price. A small cash payment brings the machine. —248—

DON'T FEED CREAM TO THE CALVES

If you are skimming your milk by any setting or dilution method or are using an inferior or worn out cream separator you are surely feeding a lot of butter-fat to your calves and pigs that is worth from 25 to 30 cents a pound.

You may think this is too small a loss to amount to much, but when you figure that it happens twice a day, 365 days a year, you will find that a De Laval Separator would save its cost every six months over any kind of "gravity" skimming and every year over any inferior or worn out separator.

Get a clean skimming DE LAVAL Cream Separator

as soon as you can and get all the money that is coming to you from the product of your cows.

We can make you a liberal allowance for your present separator, if you have one, and, if more convenient for you, can also arrange for a partial payment at time of purchase and balance on easy payments.

If you want to see for yourself just how much more cream you can get with a De Laval let us set up a machine for you and have you try it out for yourself. Just phone or drop us a postal and we will be glad to bring a machine out to your place.

raise enough cereals and forage crops for their own farm animals. They expend, according to recent census report issued by the Federal Department of Commerce and Labor, \$10,800,000 annually for feed stuff. The official figures show that twenty-seven per cent of the farmers buy feed. Peter Radford, President of the Farmers Union, in discussing the subject, said: "A farmer should, as a rule, raise his own feed. While cotton is our money crop and the moisture requirements of cotton and cereals are in a measure antagonistic, and nature usually favors cotton, yet a farmer should plant enough feed to take his stock through the season."

The farmers of Floyd County expend \$9290 annually for feed-stuffs. 117 of the farmers of this county report purchases of feed-stuffs and the annual expenditure per farms reporting is \$79. By proper diversification of crops this money can be kept at home.

Statistics Of Our Dairying Industry.

C. S. News Service.
The Federal Census Bureau has just announced reports by Counties on dairy products. The annual milk production of Floyd County is 400,632 Gallons and 121,217 pounds of butter is made annually. The reports show 2739 dairy cows in this County that have an aggregate value of \$109,560 and there are 1703 yearling heifers in the county, which will make excellent milk cows.

The annual dairy production of Texas is 30 per cent less than consumption. The value of the annual dairy production of Texas is \$20,162,500. This report for 1910.

Bum Railroad Connection.

The worst railroad connection in Texas, or any other state, maintained by two trunk lines, is that at Sweetwater. The Santa Fe north leaves Sweetwater one-half hour before the arrival of the west bound T. & P. Parties coming from Fort Worth to the Plains country are compelled to stay all night at Sweetwater if they come through on the day train, all day and all night.

Going to Fort Worth the connections are all right, but coming back is about the limit. Just why our Railroad Commission will tolerate this outrage is beyond comprehension. It looks like an arrangement to help out the hotel business in Sweetwater.

Commercial Clubs and business men of the Plains country and a large portion of West Texas, should take this matter up, and see if this inconvenience to the traveling public can be overcome. —Lockney Beacon.

The way Sweetwater and the T. P. are being passed up for the northern route—Amarillo and F. W. & D., will wake them up.

The Spur Deep Well at An Enormous Depth.

Wednesday of this week Driller Minnihan of the Spur deep well informed The Texas Spur that he had reached a depth of 4,489 feet, and that the drilling with small exception continued in the hard flint rock encountered several months ago. Recently a thin strata of shale and dirt was passed through but the hard rock was again struck the first of the week and the drilling is now being done in the granite-like formation.

The well is now near unto one mile in depth and considerably the deepest well in the state, and in all probability the deepest in the United States. The drilling will continue indefinitely unless a flow of artesian water, oil or gas is encountered.

This project is being financed by S. M. Swenson & Sons, of Wall Street, New York, and their success in the undertaking to secure a flow of artesian water for Spur will be of inestimable value to both the town and country.

Our Merry Widows.

Uncle Sam has just put our merry widows on the adding machine and finds we have in Texas 116,712 "sod" 9,283 grass-widows, a total of 125,995 of all ages. We have a total of 64,140 widowers and 57,862 are "sod" and 6,278 grass.

We have 717,000 people in Texas who tread the narrow boardwalk of matrimony each year and 5,000 make their exit from wedded life through the divorce courts. A pessimist has said "eat drink and be merry for tomorrow you may be married." Our divorce records would fare better if, like the English sparrow, people would make themselves at home whether wanted or not.

Insidious Lobby Will Be Probed.

Washington, D. C., May 27.—President Wilson's charge that an "insidious lobby" is at work in behalf of changes in the tariff bill has brought formal notice by the Senate today through a resolution by Senator Cummins demanding an immediate investigation by a committee of five Senators to discover the identity of persons who have made efforts to present arguments or to bring influence to bear in favor of changes in the tariff law.

A similar resolution was introduced by Representative Tavenner of Illinois. Cummins attempted to secure immediate action on the resolution which would authorize greatest investigation of so called lobbying ever undertaken by Congress. Action on the resolution went over until tomorrow.

Roosevelt Not Total Abstainer.

Marquette, Mich., May 27.—Theodore Roosevelt turned his square head and jaw before a jury of miners, teamsters, farmers and woodsmen in court today and gave his character for sobriety as "not a total abstainer," but that he was never intoxicated in his life. His testimony was corroborated by others who followed.

If the sturdy looking man who spent seven years of his life as Resident of the United States saw anything curious in his position of explaining to twelve simple toilers of the woods, farms and mines that he was not really a drunkard as charged in the allegedly libelous editorial by defendant, George A. Newett, his countenance did not betray it, nor his manner, when Mr. Pound, his counsel, after a brief outline of the plaintiff's case to the jury, called Roosevelt to the stand. He stepped briskly forward, and told the jury that "at public dinners, I sometimes drink a glass of champagne, perhaps two; an average, I may say, of one glass of champagne a month."

Roosevelt spoke in his peculiar, distinct and choppy enunciation and added after a momentary pause. "And I do that in public. There is a fine bed mint at the White House, and I may have drunk half a dozen mint juleps in a year."

He said a light supply of wines and liquors was taken on his African trip and the physician of the outfit measured it out to him from time to time for chills and other reasons.

"I touched nothing else in the 11 months" continued he, "and the doctor, apparently out of whim, at the end of the trip, measured what was left and found I consumed just seven ounces."

Roosevelt expressed detestation for whisky and beer. His testimony shows that he drank liquor only when compelled to do so for indisposition or when conventionalities of public occasions required that he accept a rare glass of wine with meals.

Much of the succeeding testimony introduced indicated that the plaintiff's vigor, functional perfection and violence of exercise could not exist in the person of any individual who "got drunk and not infrequently." Several noted physicians so testified.

Friedmann Rapped By Health Officer.

New York, May 26.—Dr. Joseph J. O'Cobbell, health officer of the port of New York, sent a letter today to Health Commissioner Lederle, requesting him to submit to the board of health at its next meeting a resolution prohibiting the administration of the Friedmann treatment for tuberculosis in New York "until such time as those interested affirmatively in its administration shall satisfy the health department of its innocuous character."

"Reports of the investigator for your department," reads the letter in part, "are the dangers which might be apprehended in such a form of treatment are actually present therein. He finds that patients subjected to this treatment have not improved, but have lost ground."

"He finds that where tuberculosis had affected one side prior to inoculation with the serum there was after such inoculation an unnaturally rapid development of the tubercular process on the hitherto healthy side, which indicates that the operation of the alleged cure had a tendency to accelerate rather than retard the progress of the disease."

"It seems to me that it would be culpable for us to longer hesitate and that our duty now is to insist upon such a regulation and supervision of this enterprise as shall prevent the perpetration upon the public of a dangerous and cruel fraud."

"The wide advertisement of the serum has had an effect of awakening a final and pitiful hope in the breasts of the desperately ill, which shrewd and conscienceless men might turn into an immense financial profit. There has been time and opportunity extended to Dr. Friedmann and those who use his remedies to demonstrate therapeutic value of their treatments but there has been no such demonstration. On the other hand we have before us reports of the gravest character."

Farm Facts.

By Peter Radford, president Farmers' Union.

The wages of farming are small.

Co-operation is the force that keeps the wolf from the door.

Is your farm declaring dividends, or are you in the tenant class?

A farm is a business establishment and should be so operated.

A farm should be operated for net, not for gross results.

The net results of good farming are profit, success, a growing business and a good living.

Opportunities sometime come to those who wait but the man who is always on the job does not wait, he creates his opportunity.

No farmer, unless compelled by financial necessity or forced by lack of facilities to hold his crop, will sell for less than it cost to produce it.

Any marketing plan adequate to meet the situation must give the producer the full benefits of its advantages.

The real problem of the farm is how to sell his products.

The farmer should take all uncertainty out of securities before applying for a loan.

The city men can render us the greatest service by helping find new markets and in regulating the present ones.

It is only in extending, enlarging and creating avenues of distribution and co-ordinating supply with demand that we can build up the farm.

Behind all successful farming lies, not only a fundamental philosophy, but an undeviating routine of system.

The savage had no sense of ownership, and today some of the traits of primitive man are reflected in our rural population.
