

Worth Man Buys Here

West Side Square Sold by Goins to C. S. Field of Ft. Worth.—Will Build.

Last week W. A. Robbins consummated a deal between T. A. Goins, of this city and C. S. Field, of Fort Worth, whereby the latter will become proprietor of the Goins lot on West side Main, adjoining McCarty Drug store.

Title to this lot will be completed in the July term of Probate court, at which time, Mr. Field will begin the construction of a two-story brick building.

Mr. Field is reputed to a man of means and his interest in the town shows the confidence which men of the larger cities have in Floydada as a coming city. His new building will be quite an addition to the business interests of the town.

It is hoped that at a later date Mr. Field will be induced to cast his lot at Floydada. This was expressed by Mr. Robbins on Saturday who said that Mr. Field was well impressed with the city, as shown by his investment here.

ANOTHER BRICK PROBABLE.

H. J. Willis, of the firm of H. J. Willis Hardware & Furniture, also purchased a lot on West Side Main during the week from A. C. Bowers,—the lot adjoining the Goins lot,—and will probably build at the same time the Fields building is erected. According to our information should this building be erected it will be two story and 130 feet deep.

1350 Voters May Qualify.

According to the count of the poll tax payers completed Saturday by the Board of Equalization, a total of 1350 polls and exemptions are recorded in the county, on tax assessor B. C. Willis' books and may qualify for voting in the elections.

This is an increase of approximately 200 over 1912.

While in session as a board of Equalization only 12 renditions were raised by Commissioners' Court, these 12 being non-residents.

Mrs. Robert Jones spent Monday in Lockney.

Nothing will assist you

In making a good investment, like money. To have it, you should save it.

Nothing Will Pay Expenses

In old age like money. To have it for the purpose it must be saved in days of your earning.

Deposit a portion of your earnings in this strong bank. It was established under authority of your Government for your convenience and protection.

First National Bank
 Floydada, Texas

O. E. S. Installation

Saturday evening the installation of the newly-elected officers of the local Chapter, Eastern Star, was an occasion which was much enjoyed by the members and numerous friends. After the installation a spread of cream, cake, and other delectables was a feature that proved most enjoyable to the jovial crowd which partook.

The officers installed follow: Mrs. V. Andrews, W. M.; E. C. Nelson, W. P.; Mrs. Chas. Trowbridge, Associate Matron; Mrs. J. D. Starks, sec'y.; Mrs. C. Surginer, Treasurer; Mrs. G. V. Smith, Conductress; Mrs. T. H. Buster, associate conductress; Mrs. J. W. Golden, warder; Tom P. Steen, sentinel; Miss Clyde Hodge, Ada; Mrs. Glad Snodgrass, Ruth; Mrs. W. H. Freeman, Esther; Miss Stella Tubbs, Martha; Mrs. R. L. Henry, Electa; Mrs. G. W. Shearer, organist; Mrs. J. B. Bartley, chaplain.

Toll Line to Be Started Soon.

The copper telephone circuit between Floydada and Plainview is to be begun right away and will be carried on in connection with the building of the local exchange under the supervision of Mr. Burnett, construction foreman for the Southwestern. An iron local circuit to "cut in" at Lockney will also be erected at the same time as the through copper, thus more than doubling the present capacity for toll line accommodations out of Floydada.

Lider Surveying for Matador & Northern.

As has been reported in the press the citizens of Matador are financing a tap line of railroad from a point east of Roaring Springs on the Q. & A. P., to their town and will probably build on out to Whiteflat later. At present their plan is only to build and equip the line to Matador, and money for this has already been raised, about \$80,000. This new road is called the Matador & Northern.

Last Friday G. A. Lider, who was surveyor on the Llano-Estacado, now Santa Fe branch, left for Matador where he took charge of the surveying for the extension. He stated that he would be occupied with this work about three weeks, barring accidents, and the work of grading will be rushed as soon as the grade stakes are set.

Dean White, who was on the surveying crew for the 200-section block northeast in the brakes country, also is with the crew at Matador, the work having been completed at the first-mentioned place.

Picnickers Rained Out.

A crowd of juvenile picnickers, the music class of Miss Stella and the expression class of Miss Edith Edwards, chaperoned by their teachers and Mesdames Rodgers, Sawyer and Bartley, left Tuesday morning early for the canyon to enjoy a days outing but rain about mid-day caused the bunch to return home.

G. G. Tye spent Tuesday and Wednesday in Plainview, where he went to find out specifications for the wells which the Pearson Syndicate are preparing to let contracts for drilling. He will bid on some of the work in this county.

Come to Trades' Day the 9th.

Building 200-Ton Silo.

S. A. Greer, of the Sandhill community, completed arrangements this week for the erection of a 200-ton silo on his place west of town nine miles and Tuesday the work was begun. He is erecting the silo known as "Common sense," plans for which and lumber were secured in Floydada.

During the past few years Mr. Greer has been raising stock as well as buying, especially hogs, and feeding out for the market, a thing that he has found remunerative. This silo puts him in position to take care of all the feed and getting the benefit of it without waste, and ensilage is also a much better feed than the uncured product.

Parties in the Ralls country are said to have fed the past winter from silos and have had unqualified success. Most of these are just doubling their silo capacity this year, because of the fact the silo is a money-saver and a money-maker.

Oakes Granted License on Legal Examination.

The Board of Examiners for the Seventh Supreme Judicial District made announcement yesterday that the following had successfully passed legal examination and were entitled to license to practice law: Geo. M. Connor, Fort Worth; A. M. Dobbbs Granbury; M. F. Billingsley and J. M. Oakes, Amarillo. All these were given high grades.

—Amarillo Daily News of June 3.

The last named in the above list, Mr. J. M. Oakes, was a former resident of Floydada and while here formed a wide acquaintance, being connected with The First National Bank as cashier, and a host of friends will be glad to learn that he has now attended the position of attorney and counselor at law.

Carnation Club with Mrs. Wm. Hancock.

Mrs. Wm. Hancock was hostess of the Carnation Club Thursday afternoon. The house was called to order by the President Mrs. J. N. Farris, and the business transacted. Several applications for membership were acted upon and elected unanimously namely Mesdames E. T. Green, Dawson, Starks, Boerner, Cannaday and Ivy.

After the transaction of business the Club adjourned for the social hour.

After playing several games. Mrs. Boerner had the honor of winning high score. After the games the hostess served a very dainty salad course. Those present at this delightful occasion were: Mesdames Farris, Borum, Truett, Cannaday, White, Veale, Dawson, Baker, Hughes, Pitts, Reagan, Ivy, Green, Hancock, Darsey, Smith, Grey, Donaldson, Boerner, Bingham, Biles, Jenkins, Husky, and Miss Windsor.

The next meeting will be held with Mrs. J. M. Hughes, June 12th, promptly at 3 o'clock.

D. T. Heatley Dead.

D. T. Heatley, formerly a citizen of Floydada and a long-time resident of the western portion of the state, died in Plainview Saturday last at 11 o'clock a. m., after a lingering illness.

Mr. Heatley was a son-in-law of Mrs. C. W. Mallard, of Lubbock, formerly of this county, and a brother-in-law of Mrs. George McPeak of this city.

Hopper Scare in Panhandle

Grasshoppers in New Mexico and a-traveling toward Texas, was the bugaboo that kept the farmers, most of the stockmen, and not a few of the business men of this section awake late at nights the past two weeks, but as nothing has come of the scare most everybody is fully relieved.

While the hoppers are said to have been bad in the Wichita Falls country and a part of the way up the Denver, also in parts of the Spur country and parts of Paducah county, these have not been of the migratory breed and have done only local damage. The main scare were the small walking army hoppers said to be in New Mexico somewhere about Elida in the Pecos Valley, 250 miles away. Most everybody old enough to be credited had a long grasshopper story to tell, all of which happened somewhere between Missouri and the Gulf of Mexico or "back in East Texas," in on or about the year eighteen and humpty-hump, when great clouds of them, etc., etc.

Fortunately no parts of this country nor any of the immediate portion of the south plains are said to be infested and as time goes on no further uneasiness is felt.

The following dispatch in the Amarillo Daily News of the 3rd inst., is the latest on the New Mexico situation:

EXPERTS TO GRASSHOPPER DISTRICT.

Harrison F. Smith of the United States Entomological Laboratory at Wellington, Kansas, arrived in Amarillo yesterday and left later with L. L. Johnson for the grasshopper infested section of Eastern New Mexico. The expert knowledge of Mr. Smith will be brought to bear on the situation, which, though showing slight improvement, is still admittedly menacing.

Following this visit, it is thought that effective steps will be taken to slaughter the pests and to halt their onward march of destruction.

Observed Memorial Day.

We are in receipt of the following from Lone Star, N. M.: Yesterday being Memorial Day we hitched up to drive to Monument. After having a runaway scrape in which we knocked down a post or two, and straddling a corner post, we found however, our team didn't have a scratch, and no one was hurt, so we drove on to Monument, where we assembled at the Baptist Church where quite a concourse of people had met. Major Bingham opened up with a speech, following the opening address by Ben Gaiffer. Several pieces by the ladies, the Blue and the Gray by Dr. Black of Monument. After a sumptuous dinner they all drove to the grave yard and there paid tribute to the Confederate dead by strewing flowers on their graves.

It has been very dry here this last month, not having had any rain to fall at all this month. We have had several indications for rain but high winds from the west blew them all off.

Old Dominion.

E. B. McLaughlin, Seth Waddill and Jim Heard, of Plainview attended to business in Floydada Tuesday.

Trades' Day Plans

As is well-known next Monday is Trades' Day in Floydada and fully as large a crowd is expected this day as last. This because of the financial benefit to be derived by those present. About 50 horse trades were reported last Second Monday by the traders and more trading horses are expected this time.

Because of the opportunities to make the day one of interest to buyers as well as traders the merchants are offering some bargains—extra special—for all who may wish to shop. This was true on May 12 and will be true June 9th.

Should there be any merchandise auctioned this will occur in the morning so as not to interfere with the routine of the arrangements for the afternoon. Those who will expect the advantage of being at the sale of merchandise should be at Floyd in the morning.

Auction of horses, implements, etc., will probably occur in the afternoon.

Maynes—Adams.

Last Monday Clarence Maynes, who has been working on the Armstrong ranch southwest of Floyd the past year, and Miss Camilla Adams, daughter of Mr. and Mrs. S. O. Adams, of east of Floydada, were wed in Plainview by Judge W. B. Lewis, of Hale county at the courthouse in that city.

Their marriage came as quite a surprise to their friends at this place, but their friends wish them many happy years of wedded bliss. Miss Camilla was especially popular in the Baker neighborhood where she has lived with her parents a number of years. She had taught the Blanco school the past year and was preparing to attend the summer normal at Canyon at the time of their marriage. Mr. Adams is a substantial citizen of Baker community.

The newly-weds will make their home in Oklahoma, having left Plainview after their marriage for that state.

Showers are Beneficial

Showers over many parts of Floyd County during this week have proven of much benefit to young crops as well as to grass. In portions of the country—small strips the showers did not reach,—but other portions report as much as an inch of rainfall. At this place the precipitation up to Wednesday morning since Tuesday was .65 inches.

Rains on the fourth following Wednesday's precipitation brought the total for the week at Floydada to 1.40 inches,—an excellent season. The showers which fell were of a local nature some portions of the country receiving more and some less than at this place. All report fair seasons.

While crops have been backward in some parts on account of the excessive rain and hail these little showers are just what's needed to bring them out in a hurry.

Man and Woman Held on Swindling and Theft Charges.

W. T. Haywood and wife, of Oklahoma City, were arrested in Floydada Wednesday about noon by Sheriff Goen, upon information from Sheriff Frank Walker, of Quanah, Hardeman County, where the man is wanted on a charge of swindling, he having, according to information from the sheriff's department, given a check for board and money to Quanah parties, on a bank of Oklahoma City.

The woman is accused of theft of a ring at Quanah. She declares however, that she found the ring.

At the time of his arrest Haywood was selling soda fountains and fixtures. He seems to be a business man of good appearance and bearing.

Sheriff Walker of Quanah, will be in Floydada Friday to take charge of the prisoners who will be taken back to that place. Sheriff Goen says there is no doubt that the parties are the ones which the Hardeman Sheriff wants.

Cowpeas.—Their Value on the Farm.

The Texas Industrial Congress has issued a very interesting short treatise on cowpeas, a part of which we produce herewith. It will probably be of worth to the thinking farmer of this section:

What is known as the ordinary Southern cowpea is really a bean and there are many different species included under this one name. They differ all the way from their habits of fruiting, time of maturity, and from making scarcely any vine at all to very heavy vine producers. For pounds of nitrogen collected from the atmosphere these many varieties differ very little in proportion to the number of pounds of vegetable matter made. But that variety will be manifestly best for this purpose that makes the greatest growth under given conditions. Like all plants that

are grown over a wide area, there are many varieties of peas, and the same variety often bear a widely different name. In selecting a variety then, to plant for soil renovation it is well to study closely its growing habits and plant that variety which experience or other information teaches will make the most vine. Peas are probably less affected by change of soil than any other plants, so it is not, as a rule, necessary to pay much attention to where seeds were grown, although, all else being equal, it is advisable to take home-grown seed. Peas are subject to the disease known as root-rot, that is so common in cotton, and, for that reason, care should be exercised in planting them upon such land. There is one variety of peas, however, that will resist, or it is not subject to this disease which is known as the Iron pea. Fortunately, it is one of the best

vine producers known, so it should always be planted where land is affected with root rot.

While peas have a wonderful knack of making a fairly good growth on even the poorest prepared land, they do much better when proper care is taken in this respect. Deep plowing always pays well with them, and the better condition the soil is in the more certain and remunerative will be the crop. The nitrogen gathering power of peas is due to the action of certain organisms that attach themselves to the roots of the plants. Sometimes these organisms do not exist in the soil, and, as a consequence, the peas will not do well. Many of the failures, especially in the dryer sections, can be traced directly to the absence of this germ. When absent, however, it can be supplied in a number of ways. The best, cheapest and surest way of doing this is by the addition of a few loads of stable manure. Scatter it broadcast and harrow it in some little time in advance of planting the peas, and there will generally be no trouble upon this score. One can also inoculate soils for peas by scattering a few hundred pounds of soil taken from a field that has already produced peas, or one can buy a material specially prepared for this purpose.

With favorable weather conditions peas will grow until frost, especially those that make most vine; so, while they can be planted almost any time after the weather gets warm, the sooner they are planted the more growth will they make and the greater will be the benefit from them. While using large quantities of moisture peas at the same time require well drained land, and are able to make good growth on dry soils because their long tap roots enable them to draw moisture from great depths. They can be sown broadcast, in which event they will not require any further working, or, better still, they can be sown in drills eighteen inches to two feet apart and given one or two workings. If the season is dry or it is late in the season the land had best be broken flat, and the drilling done thereon. When sown broadcast it is well to use from a bushel and a half to two bushels of seed to the acre, depending somewhat upon the size of the peas, as they differ very materially in this respect.

Immediately after wheat or oats are cut cowpeas should be planted on the stubbleland. Texas Industrial Congress, Dallas, Texas.

Misses Elsie Savage and Roxie Ivey, teachers last year in the Floydada Public Schools, and elected again this year to the same positions, left Monday for Boulder, Colorado, where they will spend the summer on an outing.

R. C. Reagan, of Sandhill neighborhood, was in Floydada Tuesday on business.

Charlie Turner and Oscar Shurbet, of northwest, were in Floydada Monday on business.

E. M. Randolph, of Lockney, was in Floyd Tuesday transacting business.

It is rather a mystery to The Hesperian why the interests who claim to be representing the farmers as a class can be opposed to the amendment to Articles 49 and 52 of Article 3, of the State Constitution, known as Senate Joint Resolution No. 18. One Statesman asks the following question of the voter:

Is he willing to authorize the state officials to create debts against the state to the amount of a half million dollars, which may be repeated as often as the debt is paid, and which the tax payer must pay?

If this amendment meant the issuance of bonds against the faith and credit of the state, the voter might answer "no," but inasmuch as this amendment does not "authorize state officials to create debt against the state," but against the property of the University of Texas only, and on which the income is a set amount each year and out of which income, should the amendment carry, the interest and sinking fund will be paid, we cannot see the connection.

By the same man the question is asked:

Does he believe it good public policy to issue three million dollars worth of bonds for the penitentiary system which in two years has lost two million dollars?

It is indeed, to be regretted that the penitentiary system has lost two million dollars in past years. In turn, we might ask the question, is it better to allow the legislature to issue bonds on the penitentiary properties and allow the penitentiaries to pay themselves out of debt, or have the appropriation committee of the legislature during the special session add this two million dollars to the biennial budget, to be paid in taxes this fall by the voter? That's fair, and one of these two last things will be actually done.

To meet the demand for plans for rural high school buildings, adapted not only for school purposes but also suitable for use as social centers, The Conference for Education in Texas, Austin, Texas, will soon have ready for free distribution a new set of plans from one to eight rooms, and has recently sent out over one thousand plans to 109 counties in Texas. The request for plans for model buildings is one of the most encouraging evidences of enlightened sentiment in regard to educational conditions and needs. The law enacted by the last legislature and governing the erection of schoolhouses; will do much toward insuring scientifically lighted, well ventilated and properly heated buildings, and thus contribute to the well being of the children and the general efficiency of the schools. The parents should see that large and well drained school grounds are selected and beautified, and that safe drinking water is provided and sanitary outhouses erected.

G. B. Marshall and wife left Monday for Denver, Colorado, Los Angeles, Calif., and other points of interest in the western states and will be gone for some time on a pleasure excursion.

G. C. Fairey just this week completed the brick foundation work on A. E. Johnson's new residence.

Mr. Fairey states that he will move from the farm north of town to town this fall, when he will probably build a residence here.

"Seal Brand" coffee, 'Tis packed air-tight, To Keep it right. —Chase and Sanborn's importations are sold in Floydada only by S. E. Duncan. 2tc.

Jim Heard, of Plainview and M. W. Heard, of Petersburg, were in Floydada Tuesday on business.

E. C. Henry and W. H. Matthews left Tuesday for Amarillo to spend two or three days at a board meeting of the supervisors of the Presbyterian Academy.

S. E. Duncan is sole agent for Chase & Sanborn's "Seal Brand" coffee,—the finest grown, the widest known. 2tc.

City Building Notes.

No one can ever accuse the
fly family of race suicide. Swat
the fly.

"Build while you boost" is the
motto of the ideal booster.

Sticking together is better
than sticking the other fellow.

Paint and prosperity are syn-
onymous in city building.

Encourage the young man and
the small merchant—either may
become a master of industry in a
day. Remember the adage of
the little acorn.

It is the height of folly to seek
immigration unless your town
can make good on its promises
when the prospective investor
arrives.

Modern progressive towns all
have appropriate slogans. A lit-
tle dose of "acting" them at in-
tervals is a mighty tonic to go
along with the "talking."

It will pay the bankers, the
merchants and mechanics to as-
sist the farmer in solving his
problems by lending their heart-
iest co-operation.

Invite the farmers to partici-
pate in the activities of your
commercial organization. You
will find them substantial busi-
ness men.

Wage your publicity campaign
long lines based upon facts—
the truth in city building is
stronger than fiction.

Make your town a magnet that
not merely attracts the business
of the surrounding territory but
strong enough to hold it.

Adequate transportation facili-
ties are necessary adjuncts to
successful growth of every
town and city.

Don't forget that the acorn ad-
age applies to the small town.

The "knights of the grip" are
among the livest wires that visit
your city. Get acquainted with
the traveling men that make
your town.—C. S. Service.

Littlefield Opening and Cele- bration.

Littlefield, Lamb County, Tex-
as, May 28.—Arrangements have
just been made with the General
Passenger Agent of the Santa
Fe Ry. to run special excursions
from all parts of the country,
as the business demands, into
Littlefield July 3rd and 4th, at
which time the formal opening
of the town and advent of the
railroad into Littlefield will be
celebrated. Local train service
between here and Lubbock will
be installed for the occasion and
ample sleeping accommodations
will be provided in tourists sleep-
ers.

A unique program is being
arranged for the occasion. Music
by West Texas Band and speak-
ing by prominent men of the
State will entertain the crowd
on the night of the 3rd, while on
the morning of the 4th one of
the biggest round ups ever at-
tempted on the south plains to-
gether with a realistic broncho
busting exhibition will be "pulled
off", by the cowboys of the
Yellow House Ranch and adjoining
ranches. Dinner will be
served to the visitors from grid-
irons and ranch chuck wagons.
Amusements of general interests
will be provided for the after-
noon program.

A cordial invitation is heartily
extended to the people of the
Panhandle to be present upon
this auspicious occasion and to
co-operate with the new town
of Littlefield in entertaining the
visitors from distant points,
upholding the splendid reputation
of whole-souled hospitality en-
joyed by the Plains citizens.
C. J. Duggan.

Dare Patents a Steel Soldier.

Copenhagen, May 28.—The
dream of a Danish engineer
named Aesen of seeing the next
war waged by automatons in
place of soldiers has developed
into the patenting of an inven-
tion which, it is said, will revolu-
tionize defensive tactics.

Aesen's contrivance is a cylin-
der which may be buried in the
ground for years in the same
fashion as submarine mines
are placed in harbors, doing no
damage until they are fired.

The cylinder is operated by
electricity from a station four or
five miles distant. When a
button is pressed the cylinder
jumps two feet from the ground
and fires 400 shots horizontally,
the shots being effective at a
range of 3,000 yards.

Aesen asserts that crops may
be grown over his invention dur-

ing the time of peace and that
they would be so well hidden
that the enemy would not know
their position.

Gored By Angry Bull.

A telephone message to this
place, Wednesday morning, call-
ing for physician to come at once
to the Ivey ranch 12 miles north
of Plains, bore the information
that T. C. Ivey had been severely
injured while working with
cattle.

Dr. O. F. Peebler responded
to the call, and secured one of
Tubbs Brothers' service cars and
left immediately for the home of
Mr. Ivey. Arriving there soon
after twelve o'clock he found
Mr. Ivey suffering from severe
wounds caused from being gored
by a vicious bull, which became
enraged during dehorning opera-
tions and broke loose. Mr. Ivey
received injuries in the left side,
by two ribs being broken, and
severely lacerated; also a terri-
ble torn flesh wound on the hip.
He was otherwise bruised, and
at the time the physician left it
was hard to tell just how badly
the injuries were, especially in-
ternally. He was resting very
well when last heard from and
with no serious complications to
prevent will recover within a
short time.

The many friends of Mr. Ivey
and family are very apprehen-
sive as to his condition.—Lub-
bock Avalanche.

Quarter of Million Flies Trapped

The boys and girls of Plain-
view have trapped 283,500 flies
since April 1; by measurement,
94½ pints. Harold Baker de-
livered 18 pints, or 54,000 flies
to the Civic League Tuesday,
and was awarded the prize of
50c offered by Blasengame &
Klinger each week to the boy or
girl trapping the largest number
of flies during the week just
ending.

Other contestants are as fol-
lows:

Name	No. Pints	No. Flies
Edward Kerr	20	60,000
Herwin Gallaway	16	48,000
Almina Strange	12½	37,500
James Otis Trulove	12	36,000
Tom Morrison	2	6,000
Vincent Tudor	2	6,000

—Hale Co. Herald.

Mrs. R. A. Taylor, daughter
of Rev. R. A. King, passed
through Floydada last Friday
enroute to Plainview from

his son and incidentally looking
over his land holdings near
Floyd, left last Friday returning
home.

Who's 42—they want you. 1tc

Prosperity For One is Prosper- ity For All

By HOLLAND

IF you are a farmer the
value of your farm de-
pends on the value of the
adjoining farm, and the val-
ue of both depends on the
nearest village or town.
Farms near prosperous
towns are always more val-
uable than those near dead
or dying settlements. And
this is true without regard
to the fertility of the soil.

The farmer depends on
the town just as the town
depends for prosperity on
the farmer. Their destinies
are interlinked; their inter-
ests are common. What
hurts one hurts the other.
Poor crops will affect the
city residents who do not
even raise radishes, and de-
pressed business affairs af-
fects the farmer who de-
pends on soil, weather
and muscle for his living.

Money sent to mail order
houses helps to turn thriving
towns into dead hamlets.
It thereby depreciates the
value of farm land. It de-
creases the population of the
towns that most direct-
ly use the products of the
farm. It lowers the price
for butter and eggs, for
chickens and for fruits and
vegetables.

So, Mr. Farmer, if you
deal with a mail order house
in a distant city you are
taking a course that takes
from the value of your farm
that renders it less desira-
ble as a place of residence
and less productive of pro-
fit. You can't follow a sys-
tem that injures your
neighbors without being
compelled to shoulder some
of the expense yourself.
Take the safer course and
SPEND YOUR MONEY
WHERE YOU MAKE IT

Brick Peeves Negro; Smashes to Bits on His Skull.

Washington, May 29.—William
Moore, a negro, was annoyed
by a headache today when phy-
sicians expected he would have
been occupying space in a mor-
gue. He stopped a brick yester-
day after it had fallen ten
stories. When it struck Moore
on top of his head it broke into
bits. Moore sat down suddenly
and apparently was a subject for
the coroner.

Workmen on the building sent
for a physician. Before the
doctor arrived Moore sat up.

"What'd ye want do dat
fer?" He demanded angrily of
a workman who was bending
over to catch the supposedly dy-
ing man's last words.

Examination of Moore today
revealed no serious injury.

J. L. Gamble and family, of
Memphis, have been in Floyd
this week visiting with their
cousins, the Gamble boys. They
motored cross country.

T. K. Sparks is in Floydada
from Seminole for a three-weeks'
stay, having arrived last Thurs-
day.

F. W. Denham, of Seminole,
spent the latter part of last
week in Floyd county on a visit
with his father-in-law, W. S.
Adams, of the Lakeview com-
munity.

E. Thornton spent last week-
end in Lockney on a business
and pleasure trip.

W. H. Matthews returned
Friday from Abilene where he
spent a week with friends.
His wife is visiting in Brown-
wood.

COAL! COAL! COAL!

When you need coal just phone 69, Bill will deliver it to
you in short order.

We handle Niggerhead, Canyon City lump, Washed Nut,
Domino lump and Nut.

The prices are right, the coal is right and the weights are
right.

We also carry a good line of Grain, Hay, Cotton seed meal
and cake, meat salt and stock salt. If you are not already
a satisfied customer we want you to give us a trial.

NEWELL BROS.

The Iowa Dairy Separator

is the world beater in skimming, the most sanitary
and easily cleaned separator on the market. The
New IOWA separators are lower in price than other
standard high grade separators.

We challenge all competition to produce a machine
at any price that will skim closer under all conditions
than the IOWA.

We furnish creamery cans and will handle cream,
and get the highest market prices.

Blood Was Wrong

All women, who suffer from the aches and pains, due
to female ailments, are urged to try Cardui, the reliable,
scientific, tonic remedy, for women. Cardui acts promptly,
yet gently, and without bad effects, on the womanly system,
relieving pain, building up strength, regulating the system,
and toning up the nerves. During the past half century,
thousands of ladies have written to tell of the quick curative
results they obtained, from the use of this well-known medicine.

TAKE
CARDUI The
Woman's Tonic

Mrs. Jane Calahan suffered from womanly trouble for
nearly ten years. In a letter from Whiteville, N. C., she
says: "I was not able to do my own housework. My
stomach was weak, and my blood was wrong. I had back-
ache, and was very weak. I tried several doctors, but they
did me no good. I used Cardui for 3 or 4 months, and now
I am in the best health I have ever been. I can never praise
Cardui enough." It is the best tonic, for women.

Whether seriously sick, or simply weak, try Cardui.

Matinee Show Popular.

Saturday afternoon shows at
the Happy Hour, for the benefit
of the out-of-town trade, are
proving popular. The pictures
which the management are
showing are good and are thrown
on the screen clearly. Full
houses have seen the pictures
each afternoon to date.

Only one objection has been
raised—the lack of ventilation.
This is prevalent at the night
shows as well. The managers,
Messrs. Biles & Wilson will pro-
bably arrange for better venti-
lation in the near future, which
will make the hour spent at the
show pleasant physically as well
as a recreation.

Choir Elects Officers.

Thursday night last the Floy-
dada Methodist church choir
elected officers for the ensuing
term as follows: A. N. Gamble,
president; G. C. Tubbs, vice
president; Mrs. Sawyer, Sec'y.
and Treasurer; Miss Windsor,
leader; Miss Stella Edwards,
pianist; Miss Edith Edwards,
assistant pianist.

This choir will compete in the
singing conventions during the
summer.

DE LAVAL Cream Separators ARE EASIEST TO WASH

The construction of the De Laval bowl is such that it can be completely taken apart for washing. The discs, bowl parts and tinware have no tubes, crevices, holes or corrugated surfaces such as are found in other machines and which are very hard to clean. The De Laval discs are washed as a single piece and the whole machine can be thoroughly

CLEANED IN FIVE MINUTES

There is no part of the De Laval bowl which cannot be easily reached and seen, so that the operator can always tell whether or not every part has been properly cleaned. The ease with which the De Laval can be thoroughly washed and kept in a sanitary condition is one reason why creamerymen prefer De Laval to other separator cream, and is likewise one of the reasons why butter made from De Laval cream has scored highest at the National Dairy Show for over 20 years.

DUNCAN GROCERY CO.
FLOYDADA

It takes about 5 gallons of O. V. B. Paint for two coats on the average 7-room house. This spread value is due to careful selection and fine grinding of pigment. It makes your cost very reasonable. Besides, you'll find the paint wear you want in

OUR VERY BEST

"All That's Best in a Paint"

Whatever the age or condition of your house, O. V. B. Paint doesn't take long to pay for itself several times over because of its durability. It increases the value of the house with its fresh, bright, protective coat of metal. No adulterants—no cheap ingredients—but a firm weather-resisting surface that's possible only with pure lead and zinc, uniformly mixed by machinery.

Come in today. Let's figure together. Let our color suggestions and cards help you plan your color combinations.

Plans To Improve Marketing Conditions.

Fort Worth, Texas, May—In a recent interview Peter Radford, president of the Farmers' Educational and Co-operative Union of Texas expressed the highest gratification at the plan, David F. Houston, Secretary of Agriculture of the United States, recently announced through the columns of the press of the United States, has to improve marketing conditions.

The idea is entirely in harmony with the activities of the Farmers' Union whose efforts are now being directed to end a "hideous story of waste and inefficiency" in the State of Texas as the new Secretary expresses it his interview.

"What is the most important agricultural question of the day?" Secretary Houston repeated when asked this question recently. "Let me answer in my own fashion" he replied "So far, the States and the National Government have been giving attention to problems of production. We have wanted to know how staple crops might be increased. The results which have been accomplished in that direction are wonderful. We have learned how to produce. Now we must learn how to market our crops. Therefore, organization is necessary.

"Our first attention is to be given to the marketing of farm products. I was glad on coming here to find that Congress had taken a squint at that great question by making an appropriation of \$50,000 with which the Secretary of Agriculture is to carry on an investigation and to acquire and diffuse among the people of the United States useful information on subjects connected with the marketing and distributing of farm products.

"Many things have been done in spots throughout the country to better conditions among agriculturists. These are to be studied and knowledge of them carried to the farmers of all sections. The vision that comes into the minds of those working to develop the rural organization includes facilities for borrowing money at a reasonable rate of interest, good schools, and all the advantages and conveniences found in our cities and large villages."

T. F. Beall, of the Irick neighborhood, was in Floydada Saturday. He says the trustees of the Irick will begin the erection of a school building this summer, bonds for which have already been voted and the money will be at their disposition at an early date.

Bull Cannot be Ridden.

Memphis boasts a bull which cannot be ridden, and the owner, a Mr. Howard is receiving numerous offers by shows, etc., for his use during the summer. This last week the Hale Co. Herald had the following concerning the ability of the bull to "buck."

A pair of peelers, all booted, spurred and chapped appeared here Tuesday morning, alighting from the southbound train. One was a white man giving his name as George L. Hess, or "Colorado George." The other was a sable hued individual giving his name as Bill Brown, of Taylor. They at once got in touch with the managers of the Howard bucking bull and made arrangements to make a try at riding him. At 4 p. m. there was a good crowd down near the stock pens and the attempt was made. The bull was saddled very gently and easily after which the negro mounted to his seat in the saddle. The assistants turned loose the head of the bull and he humped up his back. Two jumps and a twist unseated the negro and he went sprawling full length upon the ground. He said it was a fair throw and he made no further attempt to mount. A bucking pony was brought forward and saddled. The negro mounted him and rode him to a finish and fanned him with his hat without touching leather with his hand. The bull simply wrung in some new twists on the negro. He claimed to have ridden in shows and along with the celebrated rider, "Bugger Red." At all events the bull sustained his reputation for being a hard bucking animal.

PRINTYPE

Receives the Plaudits of the Public

Vigilant Protector of People's Eyesight Hailed as Benefactor by Many Thousands of Enthusiastic Admirers. "Officer Printype" Responds with Becoming Modesty.

Officer Printype says: "I am overwhelmed by the ovation which has greeted my appearance in your midst. I am simply doing my sworn duty in ridding the Business and Financial Districts of the Bad Characters that for years have made Typewriters a menace to your eyesight. I have mercilessly exposed and relentlessly pursued these dangerous Typewriter Types, which are responsible for more cases of Defective Vision than all other causes combined.

"Report direct to my headquarters, in the Oliver Typewriter Building, Chicago, any machine whose type is violating the Optical Law and I'll have the offender haled before the Court of Public Opinion."

Printype —
OLIVER
Typewriter

Printype is owned and controlled exclusively by The Oliver Typewriter Company. America rings with praise and applause for Printype. This superb new typewriter type has attracted more attention than any typewriter innovation brought out in recent years.

Hundreds of thousands of people have seen this new type and wondered what it was that made Printype. Correspondence seem like a spoken message. There's virility strength and charm in Printype correspondence. There's refinement and "class" and style.

Not because of its novelty—it's inherent in the type!

A Vast Improvement

Printype is designed in shaded letters and numerals, like the type in which books and magazines are printed. It is book type transformed and adapted to modern typewriter requirements.

This radical departure from the old style "outline" letters makes it possible to produce, on The Oliver Typewriter, a page of manuscript as clear and attractive as that of the finest book. The Oliver is the first and only typewriter that successfully prints prints!

The Primary Reason

Printype resulted from our discovery that "outline" type, with its sameness, due to absence of shading, was harmful to the eyes.

The Silent Test

For months, without any advertising, we put hundreds of Printype Oliver Typewriters in to actual service, in many diverse lines of business. We wanted the public's verdict. It came in a burst of admiration and a flood of orders that proved Printype a brilliant success.

Printype letters, wherever seen, excited the keenest interest. Business men who received their first Printype letter almost invariably answered, post haste—"Where did you get that type?" Thus Printype captured the country without firing a single shot.

Price Not Advanced

The Printype Oliver Typewriter sells for \$100. You can pay at the rate of 17 cents a day. The "Printype" is our latest and best model. The new type adds 25 per cent to the value, but not one cent to the price. A small cash payment brings the machine.

—248—

Send Printype Coupon Now!

If you or anyone in whom you are interested contemplate going to a Business College, write us first and we will, without charge supply you with some very valuable information on the subject.

WILLIAMS-BROWN

17 Qualify as Notaries.

June second was a busy day at the clerk's office when besides the routine business, W. B. Clark received and approved the bonds of 17 applicants for commissions as notaries public. Thirteen of these are in Floydada and four in Lockney as follows: J. B. Bartley, I. C. Wright, Lydia Steen, W. T. Montgomery, T. P. Steen, S. E. Duncan, J. M. Massie, J. K. Green, F. M. Butler, J. C. Gaither, T. F. Houghton, C. J. Menefee, C. V. Hall, of Floydada. G. W. Brewster, G. H. Brewster, J. N. Stalbird, J. C. Garrison, of Lockney.

For Sale or Trade.

200 Acres of improved land to sell or trade for unimproved land west of town.

JNO. L. WEST.

Mrs. W. H. Richardson and granddaughter, Bessie Cheatham, are out on a visit with W. H. Ellison and family, arriving Wednesday. Mrs. Richardson is mother of Mrs. Ellison.

J. B. Downs, of Lockney, was a business visitor in Floydada over Wednesday night.

Roy Clarke, formerly of Floydada, now of Plainview, is down on a visit with friends during the week.

Mrs. Dan Dillow and children, daughter and grandchildren of S. E. Williams, are in Floyd this week visiting, having arrived Saturday.

4 one lb. pkgs. Folger's Soda at Duncan's for 25c. 1tc.

Scholastic Transfers Before July 1

According to our information scholastic transfers from one district to another for the ensuing school year must be made before July first to be valid. At times there are those who desire to transfer and those who desire to do such this year should give it attention early so as to be not disappointed.

NOW ITS UP TO YOU.

How about building that fence you promised your self if it rained? We have the post and wire to sell. Give us a call.

A. G. McAdams Lbr. Co.

Moving Day.

This week has seen the removal of two businesses in Floydada from one building to another. These are the Floydada Bakery Co., who are moving from the former Bowers stand on the north side to the Fred Ranft building on Main St., south of First National.

H. J. Willis Hardware & Furniture Co., is the other firm that is moving. Their main store will now be the Snodgrass brick which was completed last week, and Mr. Willis began moving Tuesday. They will probably get straightened out this week.

Oil Used As Kindling; Two Perish In Fire.

Waxahachie, May 31.—Elmer Cheatham, a farmer about 32 years old, and his baby are dead as the result of fire that destroyed Cheatham's home last night. The baby died during the night and Cheatham died this morning. Mrs. Cheatham is in a serious condition from nervous shock.

Cheatham was burned to a crisp from head to foot when he attempted to start a fire in a stove and a five-gallon can of oil exploded. Neighbors rescued Mrs. Cheatham, who was sick in bed, and the baby, and then succeeded in getting Cheatham out of the burning building.

The house and contents are a total loss.

Roosevelt Given Six Cents Damage.

Marquette, Mich., May 31.—Colonel Theodore Roosevelt today won his libel suit against George A. Newett, who charged the Colonel with drunkenness, and having waived damages after the defendant had uttered his retraction, the jury awarded damages of six cents as provided for such cases by the laws of Michigan. Each party will have to pay his own expenses. Judge Flannigan instructed the jury to bring a verdict for the plaintiff, which they did without leaving their seats. The Colonel left for Chicago on the East at 5:30 o'clock. The climax of the case came like the conclusion of a powerful drama.

When the afternoon session began the air was charged with expectancy. Rumors were flying fast that the suit would be terminated. It was noted that the attorney for the plaintiff skipped over some depositions and ignored others.

The next move was sudden. "The plaintiff rests," Attorney Pound remarked. "The defense will call Mr. Newett," announced Attorney Belden. Newett carried a manuscript Roosevelt sat with folded hands, but when the defendant began reading a statement, he moved to the edge of his chair and betrayed much excitement.

"If it is fair to the plaintiff to state I have been unable to find in any section of the country any individual who is willing to state he has personally seen Roosevelt drink to excess." At this plaintiff smiled, and his face broke into a grin at the conclusion when Newett read: "I am forced to the conclusion that I was mistaken." The statement admitted a search of the nation had been made to investigate stories of persons who were alleged to have knowledge that Roosevelt drank to excess, but in every case the stories were found to be merely hearsay.

At this, Roosevelt turned to his attorney and began a lively conversation. Attorney Pound asked the court's permission for Roosevelt to speak. The judge nodded consent, and Roosevelt rose. He said he waived the matter of damages and would ask for only a nominal amount provided by law. "I wished once and for all during my lifetime to deal with those slanders so never again will it be possible for any man in good faith to repeat them," said Roosevelt.

McCarty Drug Store announces that, after a long but unavoidable delay, they will receive their new fountain the latter part of this week and that it will be installed promptly upon arrival. Mr. McCarty says the new fountain is a thing of beauty.

Watch McCarty's Drug store for something special when their new fountain arrives. 1tc.

In ready-mades a man must be found to fit the clothes; in tailor made the clothes are made to fit the man. You pay no more for a made to measure.

Come in and see the french hair cloth linen front that goes right in your coat made to measure.

A complete line of Walk Overs and Mens furnishings. Nothing but Hand-sewed gloves.

Good goods worth 100 cents on the dollar is economy.

I appreciate the fact that my business is growing and want yours.

Glad

W. P. Daily has installed electric lights in the Commercial Hotel and this new hooterly shines bright as day in the evenings. He uses a small motor with a gas engine and is getting excellent results from his lights.

The need for an electric light plant in Floydada is demonstrated every day, and Mr. Daily in common with others, is one among the business men of the town who installed the individual motor to take the place of the city plant.

Don't Forget Trades' Day next Monday.

Old Joe Bowers

Appreciates your trade

All I want is a chance to show you the prices and the goods.

Just Received a nice line of goods this week. Come and see what I got.
