

Water Works Bond Election

City Council Will Order Election
 Next 12 for \$20,000 Water
 Works Bonds.

Announcement was made officially Wednesday that the City of Floydada would, at its regular meeting, July 22, pass an ordinance to hold an election to be held on the 15th of September, the purpose of determining whether or not the city shall issue bonds to the sum of \$20,000 for the water works system.

Thirty days notice being required for this kind of an election, it will be held somewhere about the 15th of September, which gives ample time for free discussion of the matter among the citizenship.

According to plans, drawings and estimates in the possession of the council this amount of bonds will reach approximately three-fourths of the city and give ample protection and plenty of water to those reached. Should the election carry favorably the \$20,000 will be expended so as to reach as far as possible, and leave further improvements to a later issue.

According to estimates furnished by the council the present tax rate will furnish ample funds to take care of the bonds, paying the interest and creating a sinking fund for the purpose. It is their idea to build as far as the mains extend so as to accommodate the future needs of the town, saving the expenditure of funds at a later date in tearing up and replacing the mains so built. Thus the foundation for a system to give ample protection and plentiful water supply to a town of 5000 inhabitants, would be laid, to which additions could be made later at a minimum cost.

A water system is the first move toward a sewerage system so badly needed in this town and there is certain to develop a strong sentiment in favor of this issuance of bonds. In fact, there is at present little doubt that the bond issue will carry when the council gives the people an opportunity to vote upon it.

Miss Mattie Taylor, of Crosbyton, is spending the week in Floydada with relatives.

Sheriff Holds Boy for Written Orders.

In the legal tangle over the right of Elbert Muncey, son of Mrs. J. Muncey, whose habeas corpus trial was held here last week, to refuse to testify on the ground of self-incrimination, counsel for the defense forwarded an appeal to the Court of Criminal Appeals at Austin for the release of Elbert. Saturday Judge W. L. Davidson set the case for hearing on October 8th, and meanwhile issued an order in chambers for the release of the boy on \$500 bond pending the hearing. The clerk of the court then telegraphed Sheriff Goen of the action of the judge. Mr. Goen in turn telegraphed the clerk to mail the order granting bail, which to date has not been received by him.

After the receipt of the telegraphed orders for bail by Mr. Goen, friends of the defense made a good \$500 bond which they presented for acceptance by him. In refusing to accept this bond he says he is doing so because he has no authority to release any prisoner on a telegram, and is acting in this case from his own view of his duties and upon the advice of the district attorney and district judge.

Defense attorneys say, however, that he is acting from a mistaken point of view and that the telegram from the Clerk of the Court of Criminal Appeals is sufficient authority for giving the boy his freedom on \$500 bond.

Should the papers be received this afternoon the boy will be released immediately.

Will Stake 135 Sections in Block One.

This morning G. A. Lider with a surveying crew of several men began the survey and staking of 135 sections of land in Block One in this county, the work laying to the south and east of Floydada. This is pursuant to an agreement between the landholders to be affected by the survey and has been under negotiation for over a year.

Block One has the oldest established corners of any adjoining and none of the parties to the survey will lose or gain land, the survey being for the purpose of permanently establishing corners and boundaries. However, other blocks may or may not be affected by the survey and readjustments to this survey may be necessary at a later date in these blocks. Also some few sets of improvements in Block One, lying near the established lines as fenced may have to be moved to conform to the new lines.

About a month will be required to complete the work, as each of the 135 sections will have to be staked with iron pipes and in instances half and quarter section corners will have to be established.

Early Maize is Made.

Early maize and kaffir corn is made in Floyd County.

This is the report of farmers, who say that the grain is good and the heads large and well-developed. Very little, if any, of the crop is on the market yet as the grain is not dry enough for storage in barns without sweating.

Late feed will need rain shortly, but is reported not suffering just now.

Farmers' Union Has Own Plan

Not Connected with Southern Cotton Corporation Says Radford. Co operation Needed.

To the Membership of the Farmers Educational & Co-operative Union of Texas:

On account of certain statements appearing in the public press concerning the meeting held at Dallas of the Southern States Cotton Corporation, seemingly connecting as we believe the Farmers Union of Texas with said corporation, we deem it necessary to give out a statement as officials of the Farmers' Union of Texas.

We wish to officially state that at no time did the Farmers' Educational Co-operative Union of Texas in any of its regular meetings, through its regular elected and authorized delegates, endorse the marketing plan of the Southern States Cotton Corporation, and no state official in connection with headquarters of the Farmers' Union has done so at anytime. We make this statement because through the statement in these articles the membership throughout the state may be made to believe that the Farmers' Union or its officials had given their endorsement to the marketing plan of this corporation. The state officials of the Farmers' Union of Texas are strictly adhering to the marketing plan of their own organization, and have not and do not now endorse the marketing plan of any corporation or selling agency for cotton except that of the Central Selling Agency established at Houston by the Farmers Educational and Co-operative Union of Texas, with E. F. Shropshire, as its Manager. It is the only organized Farmers Union Selling Agency for Texas that is in this State, and we believe that the farmers can come nearer getting the value of their cotton through the Central Selling Agency of the Farmers' Union than through any other system now organized, whether it be 15 or 20 cents per pound, and no well informed person will contend that middling cotton is not at all times intrinsically worth 15 cents per pound, and at times 20 cents. The Farmers Union in effect, through its efforts in the past eleven years, has clearly demonstrated that fact, and they have succeeded in selling cotton through their warehouse twice during that time for 15 cents per pound.

The matter of securing money for handling of the cotton crop has not always militated against getting the price for cotton that it was worth, for last year and the year before ample arrangements were made by the Farmers' Union to take care of the distressed cotton to market the same slowly so that the law of supply and demand could assert itself and have tull sway; but the farmers failed to use it because they believe that 13 cents in that their judgment was bad.

Now what we need most with plenty of money, is the co-operation of the farmer with the Central Selling Agency established at Houston. The Farmers' Union represents the farmer, and has experienced men to handle their business at the least expense to the farmer, and plenty of money at 6 per cent to

INTERESTING MEETING OF THE MOTHER'S CLUB.

"Cleaner Floydada" Is Slogan of Meeting.—Ladies say Weeds and Rubbish Must go.

The Mothers' Club held one of the most interesting and important meetings during its history last Friday afternoon at the home of Mrs. Sawyer in south Floydada. The subject of "clean-up day" for Floydada was discussed. It seemed that the meeting had been called for the special purpose of arriving at some plan by which the town could be made more sanitary and attractive. The Club, at this meeting, represented about fifty of the best homes of the city.

In an effort to secure the co-operation of the sterner sex, several men were invited to address the club on the subject of civic improvement. Those present were E. C. Nelson, F. E. Savage, Judge McKinnon, Dr. G. V. Smith, Rev. G. W. Shearer and Dr. Robt. S. Bailey. All the speeches were interesting and to the point. Special emphasis was given to sanitation and the ravages of the house fly. Civic pride came in for its part of the discussion. Messrs. Nelson, McKinnon, and Shearer urged the necessity of a dumping ground for the city, realizing the impossibility of "cleaning up" without some place to put the garbage, etc. Dr. George Smith made an interesting talk. He gave some instructive ideas concerning the house fly, its breeding place, and methods of disposing of the fly. He said the doctor of today is not the man who limits his practice to the sick, but the man who can handle the germ and prevent sickness. We heartily agree with him.

Each man present commended the work of the Mothers' Club and assured them their unlimited assistance. Every man in town, business or otherwise, who has any progress

Mrs. Muncy Out on Bond.

Mrs. Birdie Muncy was released Saturday last from custody on \$10,000 bond after an abrupt closing of the habeas corpus hearing in Floydada last Thursday afternoon, when the defense had put only a few of their witnesses on the stand.

The bond was made in Floydada principally and was certified to the Hale County Sheriff by Sheriff Goen as a good and sufficient bond.

Mr. Peters, whose hearing was held jointly with Mrs. Muncy's was granted bail in the sum of \$2,500, which he readily made.

Violates the State Law

Throwing Cans, glass Bottles, Etc., on the Streets, Alleys, etc., is misdemeanor.

A bill passed by the legislature during its thirty-third convention, aimed primarily to aid the autoist and road enthusiast, will also prove a benefit in a sanitary way to the public health and is worthy of the attention of the citizenship in connection with the present propaganda for a Clean Floydada. Its application, it must be remembered, is general over the state and is to public roads all over the state as well as the streets and alleys. This law took effect July 1st, and reads as follows:

HOUSE BILL No. 171.

"An act making it unlawful for any person to throw or deposit any glass bottle, glass, nails, tacks, hoops, wire, cans or any other substance in the public road street or alley, likely to injure any person, animal, automobile or vehicle, and to provide a punishment for the violation of this act.

Be it enacted by the Legislature of the State of Texas:

Section 1. That hereafter it shall be unlawful for a person to wilfully throw or deposit in or on any public road, street or alley any glass bottle, glass, nails, tacks, hoops, wire cans or other substance likely to injure any person, animal, automobile, or vehicle, and any person violating any of the provisions hereof, shall upon conviction hereof, be fined any sum not less than five dollars nor more than two hundred dollars."

Glancing over the Record today, Republicans discovered that Mr. Stephens starts off like this in his printed speech:

Mr. Speaker: I hold no brief to speak for the present democratic administration in relation to the Caminetti-Biggs controversy, but I cannot remain idly by and permit stand-pat Republican politicians to traduce and in my judgement willfully misrepresent and misinterpret the action of Secretary Wilson and Attorney General McReynolds in this matter, etc."

Realizing that the Texan had "beaten them to it," the Republicans are now laying for the Texan who asks consent to print a speech without confiding what it's going to be about.

Rev. Britain Home Again.

Rev. G. I. Britain who became seriously ill at Matador some three weeks ago, recovered sufficiently to be brought home Tuesday by auto. He has been improving steadily for over a week and though he is far from strong his condition grows better each day.

His friends will be glad to see him on the streets and in the pulpit again at an early date.

Stephens Slips One by the Republicans.

Washington, July 21.—Republican members of the house awoke to the fact today that Congressman Stephens of Texas had put one over on them. Last night at the Baptist Church to which all pastors, superintendents, teachers and...

denominations are invited, Mr. Adams is expected in Sunday School methods and management. He has had many years of experience as superintendent and in other lines of Sunday School work.

Enthusiasm and inspiration for better work in the Sunday School are the objects of the meeting. Don't forget the date.

Wilson Pardoned Texas Bankers.

Washington, D. C., July 21.—President Wilson pardoned T. F. Baker and John Wishard, convicted at Abilene, Texas, April nineteen and twelve of violation of the National Bank act, and sentenced to five years in the penitentiary. No part of the sentence has been served, and the pardon was granted on the ground of their innocence.

The friends of Mrs. Tom P. Steen will be glad to learn that she is enjoying her stay in California and that her health is improving somewhat.

John N. Farris, E. C. Nelson and C. W. Mitchell attended a conclave of the Plainview Commandery of Knights Templars at Plainview Saturday night last where Mr. Mitchell was initiated in the workings of this order.

Texas Wins Oil Suit

Greenville, July 21.—The Standard Oil company of New Jersey today sent \$500,000 into Texas by wire, paying the entire half million as a penalty for violation of the Texas anti-trust laws.

The settlement was a compromise with the state. It wiped the records clean of the big \$102,161,000 penalty and ouster suit which the state filed recently against four oil companies, five New York banks and twenty-eight individuals, including several of the country's leading oil men.

The penalty is based on violations under the Texas laws prior to 1909. The suit covered alleged violations from 1900 to 1913. The verdict specifically says the Magnolia company, the chief Texas interest in the suit, has not been guilty of violations.

TEXAS SUITS SUCCESSFUL

From a financial standpoint Texas has found it profitable to prosecute oil companies. The famous suit against the Waters-Pierce company resulted in a judgement for \$1,600,000, which after large deductions for attorneys fees, was turned into the general fund of the state and made possible a material reduction of the tax rate for the last year of Governor Campbell's first term. Other suits against Standard Oil subsidiaries were compromised at that time for approximately \$200,000.

The suit which has just been terminated at Greenville is, in one respect, an echo of the former suit, the basis of the charge being that the defendants have continued to operate as Standard Oil subsidiaries in defiance of the law.

The fine of \$500,000 entered at Greenville today brings the total collected by the state from oil companies up to approximately \$2,300,000.

The question is certain to arise, as it arose in the Waters-Pierce case, shall the fine be appropriated to some specific use by the legislature, or shall it go into the general fund and be considered by the automatic tax board in determining what the tax rate for 1913 shall be.

CRUDE OIL ADVANCES FIVE CENTS A BARREL.

Independence, Kans., July 21.—Another advance of 5 cents a barrel in the price of crude oil was announced here today by the Prairie Oil & Gas company, making the new price 98 cents for all grades in the midcontinent field.

A similar advance was made two weeks ago.

Horse Shows up Well in Circuit.

Rev. Leon Henderson, of Lockney, has a little black pacing horse, Gambrou, that is making quite a showing in the Texas-Oklahoma Racing Circuit, one meeting of which is now being held at Quanah. He is in charge of an experienced racing man.

He was raced in the Sydney Smith Sweepstakes at the Dallas Fair last fall and was third horse out. His form continues to improve and he will likely make the best horse in the 2:14 class look out for their laurels again this fall.

Excursion to Galveston.

The Cotton Carnival to be held at Galveston in August will have many visitors from the Plains from the third to the fifth, when an excursion will be run from all points to Galveston, giving a three-days lay-over in the Gulf Port.

The extremely low rates will be a strong inducement for attendance. The rate from this point is \$12.90 round trip fare.

Frank Dodson, of Lockney, was in Floydada Wednesday as a witness in county court.

ONLY BIG CITIES FOR CONSTITUTION AMENDMENTS

Fort Worth, July 22.—Fairly complete returns from Saturday's election demonstrate clearly the decisive defeat of all the state amendments submitted. The proposals met with practically no material support outside the larger cities.

The general bonds, proposed for the state educational institutions, were disapproved by a vote of almost four to one. The anti-fee system amendment fared slightly better but the ball fell far short of being close. The district judges amendment by three to one, and the plan to authorize the issuance of improvement bonds in certain state districts was no less emphatically turned down.

El Paso, Austin, Galveston and San Antonio gave the constitutional bonds good majorities, but he telling opposition country and smaller cities rolled up a big majority against the proposal. The supporters of the fee system demonstrated that this basis of compensation for county officials has no place in the public heart.

While some sections report a comparatively light interest in general was manifested.

TOTAL REPORTED VOTE.

Following is the total vote reported up to Sunday: General Bonds—For 16,937; against 66,617. District Judges—For 21,573; against 58,981. Official Salaries—For 29,340; against 59,623.

HOW IT STOOD IN FLOYD.

From the first holler of "a nigger in the wood-pile," until the deed was actually done, there was little doubt in the mind of any citizen that every one of the amendments and especially the bond amendment, would be badly defeated, and official reports show that Floyd county citizens did their part full well.

Computing from the totals, the "judges" amendment was beaten here 6 to 1, the "salary" amendment 7 to 1, and the bond amendment 9 to 1. This ought to please the most fastidious. The vote was as follows:

Precinct.	11		18		41	
	For	Against.	For	Against.	For	Against.
Allmon	0	11	0	11	0	11.
Lockney	7	164	10	164	10	161.
Floydada	33	40	19	53	22	49.
Sandhill	3	24	1	26	4	21.
Baker	7	16	6	17	5	18.
Starkey	0	11	0	11	0	11.
Providence	0	9	0	9	0	9.
Sunset	2	17	2	17	2	17.
Lakeview	1	15	2	14	1	15.
Flomot	0	8	0	8	0	8.
Meteor	1	7	0	11	2	7.
Cedar	0	23	1	22	0	23.
Lone Star	6	9	0	15	7	8.
Center	0	7	0	7	0	7.
Totals	60	361	41	386	53	345.

A much better vote was polled in the county than was anticipated, especially in the country boxes. Every box held an election and some of them turned out over half of the vote. Lockney voted a little better than a third of its strength and Floydada about a fourth.

The University of Texas Library has seventy-six thousand catalogued volumes. Its reading room has a capacity for two hundred students working at the same time. Due to the rapid increase of enrollment it has been found necessary to order fifty additional chairs, for many times during the past session students were unable to secure places in the reading room due to its congested condition.

J. F. McRee, who has realty interests in Floydada, was in town Wednesday from his place in the northeast portion of the country transacting business.

Farming embraces both pro-
duction and marketing and they
cannot be segregated.

Science in farming is useful
insofar as it contributes toward
successful farming.

No American farmer will
wear a bridle—independence of
spirit is his chief asset.

Farm peasantry is the most
alarming specter that confronts
the public of Texas today.

If a man look sharply and at-
tentively he shall see fortune;
for though she is blind she is
not invisible.

The Texas farm is operating
under financial conditions which
if applied to other lines of in-
dustry would wipe every rail-
road off the map, close every
factory and paralyze every other
branch of commerce.

Suffrage Leader is Jailed.

London, July 14.—Emmeline
Pankhurst and Annie Kenney,
militant suffragette leaders, de-
fied the government and the
courts today by appearing at the
weekly meeting of the Women's
Social and Political Union. Miss
Kenney was arrested during a
clash between police and suffra-
gette sympathizers.

Mrs. Pankhurst was captured
later by a detective who saw her
leave the place in a taxicab. He
pursued her in another. The
two vehicles engaged in a wild
race through the crowded streets
but the fugitive militant leader
was at length caught and taken
to jail.

Mrs. Pankhurst said she had
come to the meeting against her
doctor's orders, but said if she
was well enough to be tortured
in prison by Reginald McKenna,
the home secretary, she also was
well enough to attend a meeting
of her comrades.

Holding up two of her licenses
under the "cat and mouse" act,
Miss Kenney asked for bids for
them and they were sold by
auction for \$30 each.

Mrs. Pankhurst had been re-
ceived with an ovation by the
meeting. She said:

"I mean to be a voter in the
land of my birth or die. My
challenge to the government is,
"Give me my freedom or kill
me."

Worth Remembering.

Admiral Dewey, who has just
celebrated his seventy-fifth
birthday, was asked in Wash-
ington by a financier how he keeps
so young, both in looks and
spirit.

"At 45," said the financier,
gloomily, "I look older than you,
and I certainly feel older, if
your cheerful optimism indicates
how old you feel. What is your
secret?"

Admiral Dewey, with a sym-
pathetic smile, replied:

"My general rule is to take a
certain quantity of open-air ex-
ercise and to attend no banquets,
but even more important is the
cultivation of a cheerful disposi-
tion."

"But," interrupted the finan-
cier, "a cheerful disposition is a
gift, not an acquisition."

"Ah, no," the admiral said.
"If we keep our faces toward
the sunshine, the shadows will
always fall behind us."—New

**Advertising
Is Insurance**

By HOLLAND.

AN advertisement is an
insurance policy. It
insures against loss through
the purchases of goods of
inferior quality. When you
buy goods that are adver-
tised you know you are
getting the best. Makers
of poor articles can't afford
to advertise them. Unre-
liable merchants are not
allowed to advertise in this
paper even if advertising
would be profitable to them,
which is unlikely—unlikely
because truth and reliability
are the essence of success-
ful advertising.

You don't take chances
when you buy advertised
goods, because if by any
chance there should be any-
thing wrong with the goods
there is the reputation of
merchant and manufacturer
back of them, and any ar-
ticle that is not up to the
advertised specifications will
be replaced.

Glaciers of the Alaskan Coast.

It is very probable that more
American travelers are familiar
with the picturesque fiords and
glaciers of Scandinavia than
have viewed the incomparable
scenery afforded by the coast of
their own Alaska, where the
somber inlets are bounded by
sheer and towering cliffs and
where the great fields of slow-
moving snow-ice lose themselves
in some bay or inlet or pitch
off suddenly into the ocean itself.
The stream of visitors to this
splendid American scenery is
annually increasing in numbers,
and to those who indorse the
"See America First" program
Alaska offers a magnificent field.

**Uncle Sam Teaches "Banking by
Mail."**

Washington, July 17.—"Bank-
ing by mail" is the latest inno-
vation entered into by the go-
vernment in connection with the
postal saving system. Hereafter
deposits and withdrawals may be
made by mail.

When the postal saving system
was first put in operation, Post-
masters were forbidden to permit
deposits by such persons as were
not patrons of the postoffice in
which they sought to bank.

This was found to work a real
hardship on a certain class of
would-be depositors, and Post-
master General Burleson abro-
gated the rule. Postmaster
throughout the country now are
being advised of the change.

There are times in every woman's life when she
needs a tonic to help her over the hard places.
When that time comes to you, you know what tonic
to take—Cardui, the woman's tonic. Cardui is com-
posed of purely vegetable ingredients, which act
gently, yet surely, on the weakened womanly organs,
and helps build them back to strength and health.
It has benefited thousands and thousands of weak,
ailing women in its past half century of wonderful
success, and it will do the same for you.

lawyers also came to the verdict
of "never again" on the ques-

O.V.B. PAINT

OUR VERY BEST

Why We Sell It:

Because it's a paint that you will buy again after the first time. The more durable a paint is, the longer it looks well. To paint with O. V. B., "all that's best in a paint," means just the difference between paying for paint troubles and avoiding them. O. V. B.'s pure lead and zinc, pure colors and dryers, pure linseed oil, are uniformly mixed in high power mills. The mixture sets into a **SOLID COAT OF METAL** on your house. This is why O. V. B. paint outwears ordinary adulterated paint.

We want YOU to KNOW O. V. B. BEFORE you paint. Come in today, if you can. Let our color cards and suggestions help pick out your shade combinations.

Taylor County Sues Former Official.
Abilene, July 17.—Suits for \$3,698 against former County Judge T. A. Bledsoe and his bondsmen have been ordered by the county commissioners. This is to cover an alleged shortage which resulted in Bledsoe's resignation recently and the issuance of a warrant for his arrest.

Bledsoe made a spectacular escape from this county. He eluded officers here and started toward Fort Worth. Near Baird he left the train as he was about to be caught by the Callahan county sheriff. While on the prairie near there he wrote his resignation and returned it to Abilene.

Suit was also ordered against E. P. Scarborough and his bondsmen. Scarborough was former paymaster of road District No. 1 and filed suit against the county for \$290, which he claimed was due him by the county.

The reports of the auditor showed that Scarborough is indebted to the county in the sum of \$300 after allowing him all offsets which the auditor claimed were due him.

Must Extend Line.
A prominent official of the Santa Fe railroad was in Plainview and Floydada, and stated that it was only a short matter of time until the Santa Fe would be forced to extend the road from Floydada to Fort Worth. Under the present condition the Santa Fe has to give the major portion of its Fort Worth and Dallas passenger and freight receipts from this section to the T. & P. from Sweetwater and the Denver Road from Amarillo. By extending from Floydada, a very short line would bring Plainview and the plains country into much closer relation with the Fort Worth market.—Plainview News.

Dublin Woman Seeks News of Pat Cleburne.
Cleburne, July 16.—Mayor Charles W. Breech of this city today received a letter from a woman in Dublin, Ireland, asking for information regarding the disposition of the estate of General Patrick Cleburne, one of the heroes of the civil war on the southern side, and for whom the city of Cleburne and Pat Cleburne camp No. 188, were named.

The letter is as follows:
"His lordship, the mayor of the city of Cleburne, Texas, U. S. A., the capital of Johnson county, fifty-five miles southwest of Dallas, sir: Pardon me in addressing you, in fact the subject is a strange one that I presume to approach you with. If you could forward me Miss Nanno Cleburne, a poor Irish woman, all information respecting Patrick Cleburne, who was killed in the battle of Franklin, Tenn., 1864.

"He was my father's only brother, and joined the American army and bravely fought in it, and was killed. We lost sight of him. I am a very poor Irish woman and I want to know if he left any property after him, and how it was disposed of. I would feel forever grateful for the slightest help you could give me, for I am very poor indeed.

"Respectfully awaiting your kind consideration, I am yours, Respectfully,
NANNO CLEBURNE.

"My address, Miss Nanno Cleburne, care Miss Goonan, 12 A. Phibs Road, opposite St. Peter's church, Dublin, Ireland."

Mayor Breech will make an effort to secure the information asked for from some of those who personally knew General Cleburne.

G. R. May, of Midlothian since Christmas, formerly living in Baker neighborhood in this county, was in town the later part of last week on business, leaving on the return the first of the week.

Asked when he would return he said: "Well, I have a cotton crop on the blackland. I am going back to gather it and then come back to the plains and raise some more kaffir corn, I guess."

Mr. May makes a good citizen and the sooner he returns the better pleased his neighbors and friends here will be.

Tax Rate Set in August.
Commissioners' Court of Floyd County will meet in regular quarterly session the second Monday in August, when besides the routine business, the tax rate will be determined for collections the ensuing year.

This will throw heavy work on the assessor's shoulders for a period of about two months, owing to the shortness of time in which to make out the rolls.

Mrs. Mary E. Franks, of Abilene, Texas, a sister, and Mrs. W. E. Holder, of Wayne Okla., a daughter, of J. H. Tackett, are out on a visit with him, they arrived last week.

Advertised Letters.
The following is a list of letters remaining in the Post Office at Floydada, Texas, July 21 1913, to be advertised. If not called for in one week, will be sent to The Dead Letter office.
Buster, Mr. J. A. 1
Moore, Mr. E. M. 1
Rogers, Mrs. Ethel. 1
Persons calling for above letters, will please say advertised, and give date of list.
J. D. Starks, Postmaster.

Mrs. J. T. J. Dawson and son, Leland, returned Monday from Galveston where they spent the two weeks previous.

Robert Hall, of Petersburg, Cashier of Petersburg Bank, was in Floydada Monday transacting business.

W. L. Ketchum, auditor for the Santa Fe, with office at Amarillo, was in Floydada Monday checking the local office.

Ice Cream Supper Pleasant Occasion.
The Ladies of the Presbyterian Church gave a benefit ice cream supper on the lawn of Judge McKinnon's residence in West Floydada Friday night of last week which was a very pleasant occasion and was well attended.

Music and conversation engaged the mingling crowd of a hundred people present and detained them till a late hour, and all the time cream and cake were served freely.

The occasion netted the ladies a sum which will be used in connection with their church work.

Christian Meeting Closed.
The Christian Meeting being conducted in Floydada during the past week by Evangelist Fred Adams, at the tabernacle closed last Sunday night.

Rev. Adams left Monday for Brown County where he has begun another meeting.

Prof. J. F. Copeland, who led the singing at the meeting here left Saturday for Hereford, where he is engaged in a similar meeting.

Adams is a clear, logical speaker and makes his points in a straightforward manner.

W. L. Morris and wife left Tuesday for Mineral Wells and Parker county where they will visit with relatives and former acquaintances. Parker county is their former home.

Count Bouscham Does Day Labor
Detroit, Mich., July 17.—Guests of the Hotel Pontchartrain of Detroit were very much surprised several weeks ago to see a dapper young man in a rough working suit making his way from the elevator to a waiting taxi while a person, evidently a valet brought up the rear with a suit of overalls carried openly in his hand.

Inquiry brought out the fact that the young man was Count Paul Von Bondscham, of Vienna member of one of the oldest houses in Austria. The count spent considerable time in this country studying American industrial methods and while in Detroit he worked at the plant of the Ford Motor Co., in the motor assembling department. He asked no favors and worked steadily for two weeks.

His employment brought him in \$2 per day while the suite at the hotel he occupied with his valet was costing \$12 per day. When the young man was leaving he asked for a letter stating that he had been a faithful workman, saying that he wanted it to show that he had actually been working with his hands in this country. It was cheerfully given. The count had several other letters from various institutions where he had been employed in this country.

Mrs. S. W. Shaver and children left Wednesday morning for their home in Fort Worth after three weeks spent at Matador with her father, Rev. G. I. Britian.

Declares Q. A. & P. Road Will be Extended.

Daily service over the Quanah, Acme & Pacific railroad from Paducah to Roaring Springs was started Sunday. President Sam Lasarus of the Quanah, Acme & Pacific came to Fort Worth Monday after riding over the extension from Paducah to Roaring Springs.

The Quanah, Acme & Pacific will be extended through to El Paso, he said, "When we get the money." Mr. Lasarus was reticent about where the necessary money was coming from, but said it would be found and that the line would be extended.

"When we extend the line we will have to have some money. We have to get it somewhere. We probably shall be able to find it somewhere within the limits prescribed by the law. Where we are going to get the money to complete this line with is the problem to be solved. Can you tell me where to get it?"

It is understood money will be forthcoming for the completion of the line when the money markets get easier. Present plans are for a complete line through to El Paso and probably extension into Mexico.—Ft. Worth Record.

Famous Oil Case Finally Settled.

Austin, Tex., July 21.—The Attorney General's Department this afternoon gave out a statement announcing the settlement of the famous Magnolia Petroleum Oil Company oyster suit, today at Greenville. A compromise was reached, and an agreed judgment entered in favor of the state against the Standard Oil Company of New Jersey for \$500,000 penalties.

The Texas company pleaded not guilty but agreed to a trusteeship, and Judge F. A. Williams of Galveston was appointed as trustee. This settles this famous litigation.

Veterans Are Waiting for "Last Man's" Banquet.

St. Paul, Minn., July 21.—The "last man's banquet" will take place at Stillwater, Minn., today. Eight men will attend and twenty-three vacant chairs, draped in black, will be placed at the table, on which will rest a chest containing a bottle of champagne. Some day, when death has depleted the veterans of company B. First Minnesota, to one man, this survivor will attend the annual banquet, and after closing the roll he will drink to the memory of his thirty-one comrades who fought with him at Bull Run and Gettysburg.

The first banquet took place in 1886, when Louis Hospes, father of one of the "boys" presented the champagne on conditions that the bottle remain unopened until the "last man's banquet."

"That last banquet is going to be more heart-rending than any of our battlefield scenes," said one of the veterans, "and none of us hopes to hear the cork pop."

Good Idea.

Organist (discussing the music for a special service)—"And after that chant I'll put in something lighter, something to relieve the heavy classic style of the Te Deum." Blikins (on the committee)—"Ah, anything to relieve the tedium will be appreciated."—Tattler.

Fixing Their Relations.

Mrs. Jameison-Smythe (to the man in her first job)—"You mustn't keep on calling me Mrs. Jameison-Smythe every time you address me. You should say, 'Yes, mum,' or 'No, mum.'" Sally—"Oh, I can't call yer mum, becos that's wot I calls me mother. But I'll call yer auntie if yer like!"

Musical Criticism.

A western musical critic thus speaks of a prima donna: "She had, and we suppose still retains, a magnificent voice for a fog whistle. Its compass was perfectly surprising. She would shake the chandelier with a wild whoop that made every man instinctively feel for his scalp, and follow it up with a roar that would lame a bassoon."

Says Special Prayer Healed Child

Wednesday afternoon Eldon, the 16-month old child of Mr. and Mrs. Robert Jones was playing in the kitchen at the home of Rev. and Mrs. C. J. Menefee, where its mother was visiting, when it suddenly became ill from the effects of drinking a cup of kerosene which had been left sitting in a corner of the room. The child became limp and unconscious very soon and began turning blue and black in spots all over its body. Immediately its mother and friends began special prayer for the restoration of the child which was thought dying. After a short time the child regained its healthful condition, seemingly entirely normal. The mother and father attribute its restoration to the special prayer offered up.

The child vomited only slightly after drinking the fluid.

Mrs. Robert Jones left this morning for Plainview where she will visit friends during the progress of a meeting being held there.

Miss Sybil Fisher, who has been visiting her here the past week, accompanied her as far as Plainview, going on to her home north of Tullia.

N. W. Morgan, of Amarillo, Texas Harvester salesman, is in Floydada this week looking after the interests of his company in this county.

Miss Amy Glenn, of Plainview, spent Wednesday night in Floydada. She was enroute to Matador to visit friends at her former home.

S. E. Stiles, of the Baker community, left Monday for Hamilton County, where he will visit for awhile with relatives.

John Severn, of Hays county, who has been in Floydada the past month on a visit with his daughter, Mrs. C. R. Biles and family, left Tuesday returning home.

Judge W. B. Joiner, of Plainview, was in Floydada yesterday and today in county court where he represented C. S. Lowery defendant in a commission case brought by J. W. Blair.

Falling Appetite.

At breakfast in a country boarding house a girl of 12 got away with a dish of prunes, a bowl of cereal, three eggs, two muffins, three slices of bread, two glasses of milk and two cups of coffee. "Well, Mary," some one remarked, "you seem to have a good appetite." Regretfully the child answered, "Not very; 'tisn't nearly as good as it used to be."

Truth About Domestic Duties.

There is absolutely nothing in domestic duties themselves, or in any form of manual labor that develops the mind or elevates and broadens the character. The idea that every woman needs practical instruction in housekeeping as a part of her education is as absurd as would be the claim that every man needs to be taught in school to plant corn or milk a cow.—Mary Leal Harkness.

Available Womanhood.

"The American nation will have lost considerably by having utilized in the production a mere material wealth the best years of a great part of its available womanhood, when the nation itself is so much in need of sons and daughters born under the flag and reared in the traditions of all that has made the United States progressive, powerful and enduring."—Sir Thomas Lyer.

New York's Big Industries.

New York city has twenty-one industries in each of which the annual product is valued at more than \$20,000,000. The largest of these industries is the manufacture of clothing, and next comes the printing and publishing business.

F. M. Butler Married Plainview Girl.

Wednesday Frank M. Butler, accompanied by his sister, Miss Kate, A. N. Gamble and Miss Clyde Hodge, and John H. Reagan; where he was married at 2 o'clock in the afternoon to Miss Lee Shropshire at the Shropshire home.

The wedding was a quiet affair, only a few intimate friends and relatives of the bride being present besides those mentioned above. The house was simply but prettily decorated for the occasion.

After the congratulations of friends the newly-wed groom with his bride and party returned to Floydada.

Miss Shropshire has an extensive acquaintance in Floydada and is well-known in Plainview. She taught in the North Texas Normal School during the scholastic year just past.

Mr. Butler is bookkeeper and assistant cashier in the First National Bank of this city. He has lived here some two years and during the time has made a host of friends. He is a son of Mr. and Mrs. H. D. Butler west of Floydada five miles who are counted among the best citizenship of the county.

The young couple will live in east Floydada. They have been the recipients of congratulations and well-wishes from many friends.

Mrs. Roy Curry, of Waxahachie, who has been visiting her parents, Mr. and Mrs. W. A. Shipley, left Tuesday returning home.

Make prepared chalk into a paste with sal volatile and olive oil, equal parts of each of the latter; apply the paste with a soft brush, let it dry, then put on another layer; let it remain on two or three hours, then rub off and polish with a soft brush and a duster.

Animals Hate Solitude.

In all the animal world there is a voluntary recluse or hermit. No animal, whether wild or domestic, ever likes to be alone for very long at a time. Even the birds, of all kinds and species, hate solitude. Parrots, particularly, and all gregarious birds of the tropics begin to mope and pine away if kept in solitary captivity.—St. Nicholas.

Hard to Get Right Course.

Playfulness is a good means of softening social distances. A stiff, grave man is always in danger of being feared too much. On the other hand, as the self-love of many people is suspicious in the extreme, you must expect that your innocent playfulness will often be mistaken for ridicule.—Sir Arthur Helps.

Indeed, Who Would?

"Listen to this, wifey," said Mr. Hubby, looking up from his newspaper. "For every missionary sent abroad last year Christian America sent 1,496 gallons of liquor." "Merciful goodness!" exclaimed wifey. "Who'd ever think missionaries were such drinkers?"

First United States Stocking Factory.

The first United States stocking factory was set up at Cohoes, New York, in 1832. The machine for knitting was the invention of Lee, an Englishman, who took out a patent in 1839. The Lee machine was introduced in the Colonies during the Revolution, but a sharp Yankee improved on it, and set up the first factory at Cohoes.

Less Tapioca Now.

"Tapioca is dearer owing to the fact that large areas formerly devoted to its planting in the Straits Settlements are now being used for rubber planting." While we were still in the nursery we registered a vow never to eat tapioca pudding when we were once in a position to order our own meals, and this information leaves us cold.—London Globe.

William Penn's Sepulcher.

It is in the Church of St. Mary Redcliff, in Bristol, that the remains of Sir William Penn, father of the proprietor of Pennsylvania, rest. A tablet to his memory has been on the walls of the edifice ever since Sir William's death. Above it are hung his armor, his sword and his flags.

Your Hands Experienced?

A wide girle at the waist is the latest fad, so that the top of the skirt will coincide with the bottom, and only an experienced hand will be able to tell which is the belt line and which is the hem.

Fort Scott Witticism.

At a recent banquet in Fort Scott the Tribune says, a man was called upon to make a speech. Of course, he was surprised that he should be asked to talk, but he was equal to the occasion, and he stood up and said: "Gentlemen, you have been eating turkey stuffed with sage, now you will listen to a sage stuffed with turkey. Everybody laughed, and the man immediately became known as a famous wag, and the mot is highly esteemed in those parts.—Kansas City Star.

Neck Rings.

What the women in the Shan Hills of Upper Burma wear is a long neck. Beauty is estimated from the extended head pivot. From childhood the women wear tight rings of brass about the neck, and at the slightest relief from the strain another ring is added. Besides the rings around their necks, they wear heavy rings on their legs.

Bryan and Burleson.

It is announced that Secretary William Jennings Bryan's expenses are high. He occupies the home formerly owned by Mrs. John A. Logan at a rental of \$4,000 a year and employs three servants. The government furnishes him carriage and horses and a coachman, and often a messenger of the state department acts as footman. Secretary Bryan has a saddle horse. In addition to this he has one automobile, a \$3,000 car, but no driver. His private fortune is estimated by the New York World at from \$300,000 to \$500,000. Part of it is tied up in real estate, which is not earning anything now. He has a home in Lincoln. He has a winter home in Florida. He has lands in Texas. These properties are bringing him no returns. According to a Lincoln correspondent, his real estate holdings in Lancaster county, Nebraska, are worth \$100,000 or more. He owns 160 acres of land in the suburbs of Lincoln which is improved. Mr. Bryan owns 240 acres of land in Mission, down on the Rio Grande, which he is now improving, but which is not a revenue producer. It develops that Secretary Bryan is the second richest of President Wilson's cabinet. Postmaster General Albert Sydney Burleson has the distinction of being the wealthy member of the cabinet. Fate has been kind to Burleson as well as Bryan.—Ft. Worth Record.

Book for Baby.

When baby arrives at a taste for books a durable one can be made of brown holland or linen. Buttons round the leaves with bright silk or thread, and paste in bright colored pictures cut from magazines. A row of stitching made with an unthreaded needle will mark an even border and serve as a marker for the insertion of the needle when doing the button-holing.

Water Always Best Drink.

Mrs. T. B. Triplett Entertains.

Tuesday afternoon from 3 to 6 o'clock Mrs. T. B. Triplett entertained a host of friends at Rock, for which five tables were set. Much enthusiasm was manifest as the games progressed. Mrs. J. W. Golden was winner of high score. Orange julep was served during the games followed by a delicious light lunch in which a pretty color scheme of green and white was carried out. Two courses were served: Peas and egg sandwiches, peach and cheese salad, chipped potatoes, sliced tomatoes, celery, gherkins, crackers and iced tea with mint followed by green and white brick cream and angel food cake.

Covers were spread for the following guests: Mesdames Veale, Hancock, Hughes, Farris, Steen, Snodgrass, Pitts, Darsey, Webster, Smith, Golden; Misses Hodge, McKinnon, Golden and Pauline Goins, Grace and Virginia Rucker, and Miss Adams. Mrs. Young of Houston, who is visiting her parents, Judge and Mrs. A. P. McKinnon, was an out-of-town guest.

Stella Edwards left Tuesday for her home in Plainview, at which place and at Hereford, she will spend a six-weeks' vacation. She will return when school opens in September to take charge of her music class.

W. M. Windsor is in Chicago this week where he is on a buying expedition for Kirk & Windsor. He left last Friday and will probably return Saturday or Monday.

Millet Being Baled.

Millet as baled hay is more popular with feeders today than the bundled millet, though formerly nearly all millet was cut with a binder.

This week and last all available workmen have been busy in the hay fields and much of this fine hay is in evidence on the streets of Floydada and is selling at a good price.

Some are baling and holding their millet for winter feeding while others are preparing to ship later.

Millet is fine this year with most farmers. 100 acre fields of the grain are plentiful and much of it is producing, where it is being bound, as high as 1200 bundles per acre.

Had No Use for Names. An Atchison reporter asked a woman if she could give him a news item. She thought and thought, and finally admitted regretfully that she didn't know a single solitary thing. "I am too excited to think, anyway," the woman added, "because my brother broke his arm this morning, and I am on my way to his home to see him."—Kansas City Star.

Origin of "Spinster." "Spinster," as a term, owes its origin to the fact that in olden days the law did not permit a woman to marry until she had spun a complete set of linen. There was a particularly wholesome restraint about some of the old laws.

Interesting Meeting of the Mothers Club.

(Continued from first page) Massie, Mayor Montgomery, A. D. White, G. W. Shearer and others were heard presenting different phases of the subject under consideration. A petition was circulated at this meeting to the City Council asking for the purchase of a dumping ground for cans and refuse of a nature that could not be burned. It developed during the meeting that the council had almost exhausted their resources in a search for a site which could be purchased and used for the purpose, and this is now the mooted question, and for that matter is the bone of contention, or better said, probably, is the foundation of the misunderstanding between the citizenship and the council. It will take co-operation and not contention to find the proper grounds and pay for them. The dumping grounds must be had, can be had and will be secured, the imperative demand for a cleaner town making the question of "where" one of vital importance.

Following a plan which has been extensively used over the state a committee was appointed to select committees to have charge of a "clean-up" crusade and to select a date for the "cleaning."

SECTION LEADERS APPOINTED.

The Committee appointed at the Mass Meeting last Monday night met at the Fair Store Tuesday evening and divided the town into sections, appointed a leader who will be in each section have general direction of the work and assistants to help. Those who live in these sections are expected to do their first work in their section, and then help their neighbors if they want to.

Section No. 1 consisting of all between Main North and California West, Committee Mes. J. A. Price, Mrs. Liston, Mr. E. C. Nelson, Mr. John Mathis.

Section 2 consisting of all between California West and Main S. Mrs. T. Bister, Mrs. W. Sawyer, Mr. O. B. O'Connell, Mrs. Flinn.

Section 3 consisting of all between Main South and California East Mrs. E. C. Slaughter, Mrs. Hodge, S. E. Dinean Elder Morris.

Section 4 consisting of all between California East and Main North Mrs. Huskey Mrs. Bailey, A. D. Wait, C. Surginer.

All are to meet at the First National Bank corner Monday morning at 8:30 with tools and start from there. The committee for each section will have decided what is the most important things to be done in that section. And every one is requested to work under the direction of the committees as near as possible.

The stores are to be asked to close from 8:30 to 11 A. M., and all hands turn out and work.

The Town Council will provide wagons to haul the trash away probably, if they do not other means will be secured. As the plague of flies is the direct cause of this effort, special attention will be given to destroying their breeding places.

The following merchants and business men have announced that their stores and places of business will be closed from 8:30 to 11 o'clock and that they will turn out masse and assist in the tin can and weed crusade:

From Gay to Grave. After a good-looking reaches the age at which he ceases to be in demand as an usher at weddings, he falls easily into the role of pallbearer at funerals.—Philadelphia Ledger.

Prehistoric Monster. Eighty feet long and thirty feet high, the atlantesaurus was one of our prehistoric animals.

Sources of Wealth in Arkansas. Arkansas produces coal, silver, galena, slate, oil stones and clay of very description.

Was Welcome, All Right. "What reason have you to think that my campaign contribution was gratefully received?" asked Mr. Dustin Stax. "The fact," replied his secretary, "that the gentleman immediately came back for more."—Washington Star.

True Mollycoddle. There is nothing more contemptible than a bald man who pretends to have hair.—M. Valerius Martialis.

After the Battle. The Comedian—"From the sounds in your dressing room I judge that you girls had a hair-pulling time." The Rough Soubrette—"Not me. I poked her in the eye. It wouldn't hurt none to pull the hair she wears."—New York Globe.

His Labor Doubled. Kostrov, a Russian post, labored for years translating Homer's "Iliad" into his language and the highest offer he received for it was \$35, which discouraged him so much that he threw the manuscript into the fire. Afterwards when he was famous in his own country he did the job all over again.

Personal Investigation. An old woman walked into a bank in Inverness, threw down her deposit-book, and said she wished to draw all her money. Having got it, she retired to a corner of the room and counted it. She then marched up to the teller, and exclaimed: "Ah, that'll do, ma man; jist pit it back again I only wanted to see if it was a right."—Dundee News.

It Happened in School. The story is told of a teacher who recited to her pupils "The Landing of the Pilgrims," after which she requested each pupil to try to draw from the description a picture of the Plymouth Rock. One little fellow raised his hand and asked: "Please teacher, do you want us to draw a hen or a rooster?"

Old Egyptian Wall Painting. Probably the earliest wall paintings are the ancient Egyptian. They employed a distemper containing dissolved gum, and their principal pigments were white chalk, a vegetable yellow, ochres, Ethiopian cinnabar, blue powdered glass stained with copper and charcoal black. Their drawing was technically skilful, and, as is the case with the modern decorator, their coloring was purely decorative and their designs fanciful and extravagant.

Waist Occupation. Stubb—What's the trouble, old chap? You look angry enough to fight. Penn—Oh, I'm sizzling. It took me an hour to button up my wife's waist in the back, and then I told her a joke and she laughed so much the buttons all flew open. What's the use in telling a woman a joke, anyway?

Farmers Union has Own Plan.

(Continued from first page)

advance on cotton to those who need it, and at the same time the cotton never gets out of their hands or control of the farmer until he receives full value for same, unless he elects to do otherwise himself. We know that some people do not believe that the farmer is competent to attend to his own business through his own system, but we believe that the average farmer is just as competent to do business for himself as those of any other calling or profession. The only thing the farmer is short on is co-operation, and they are improving in that every day. Therefore, the whole matter is a farmer's problem and can only be solved through him, and he can solve it only through his own organization, and the Farmers' Union is the only safe and sane, strictly farmers organization that he can depend upon; while other friendly agencies can and will help him materially he should not allow himself to be used for the purpose of sacrificing any principle of the Farmers' Union for the sake of such help, for we can afford to lose the help of any and all rather than sacrifice any principle whatever of the Farmers' Educational & Co-operative Union of Texas. At the same time, we ask for the co-operation of all legitimate and honest interests that want to see justice done to the farmer, as well as all others who do something for the country's good, and we believe that all loyal members of the Union will support their own institution.

Wear Special Eyeglasses. Small eyeglasses, fitting closely, and with flesh-colored nose pieces, are made for actors needing them but who, in deference to the parts they play, do not wish to wear the usual-sized lenses.

Gold Trodden Into Floor. The wooden floor of a jewelry shop becomes valuable after a few years because of the gold dust that is trapped into the pores of the wood and into the cracks. A manufacturing jeweler, who moved not long ago, got permission from the landlord to tear up the old floor and replace it with a new one after he moved. The boards and dirt were burned to ashes and yielded a profit of \$125 in gold after all expenses of the new floor and the smelting were paid.

Tonic Laughter. There is no spice like laughter in one's meals, the most salutary of all the bodily movements. It involves both body and soul. A good, hearty laugh stimulates the circulation, promotes digestion, and enlivens every vital organ. It is, in short, a sort of shower bath of the spirit, invigorating the whole man, and it is the cheapest luxury at our command. Moreover, cheerfulness is largely a matter of habit, and there is nothing that yields larger returns for the effort involved.

Softening Light for Invalid. When any one is ill electric light in the room, if very strong, will tend to hurt the eyes and probably induce headache and cause a rise of temperature. A little bag made of green silk, large enough to slip easily right over the light, shade and all, can be fitted on and will look dainty and pretty. Run a drawstring in so as to tie it on quickly, otherwise the patient will object to the fuss.
