Chas. Trowbridge of the Lakeview community, received a communication recently from Congressman John H. Stephens, assuring him that the rural route which has been applied for southeast, is under the most favorable consideration by the postoffice authorities and will, without doubt, be established soon.

The inspector who viewed the road had reported the route favorably it was understood, but the delay in further hearing from the department had caused the fear that it would not go through. This practically stops any speculation as to the final outcome and assures the people southeast a mail service.

Announcement **To Livestock Shippers** 

We are pleased to announce the inauguration of passenger and freight service over our Roaring Springs Extension. We are now prepared to handle all shipments of livestock without delay; we have also recently completed large and up to date stock pens at Roaring Springs, and in building these pens we have tried to construct them so as to afford every convenience to the Stockman in handling cattle, and we respectfully solicit your shipments to all markets and pasture points.

For your ready information, I am giving below list of rates and distance to the principal markets:

Roan	ing S	prings	to	Oklahoma City	262 r	niles,	rate,	24 3-4c
	"	2.2	93	Kansas City	647	"	"	37 1-2c
	, ,	• >>	"	St. Louis	805	"	"	431.2c
Station:	,, .	"	99	Fort Worth	271	"	"	23 3-4c

Minimum car load is 22000 lbs. to all points

By comparing these rates and distances to other shipping points in this territory you will notice there is considerable advantage, especially from the mileage standpoint, which gives the shipper considerable advantage by shipping from Roaring Springs, as he will be able to put his cattle on market several hours earlier. For instance: If you load at Roaring Springs by noon, you get into Oklahoma City next morning by 6:00 A. M. and to Fort Worth about the same time; by shipping this way you also have advantage of all the principal markets. You can ship to Oklahoma City privilege Kansas City, Wichita Kansas or St. Louis markets, and we ask that you compare our distances and schedules with other shipping points, and you will find it is to your advantage to make your shipments from Roaring Springs, even though you are obliged to drive them a few miles farther before loading.

For further information apply to Agent, Roaring Springs, Texas, or

To summer till means to cultivate the land one season with out crop, growing the crop the the value of the viheat on the second year. Summer tillage land cropped every year, would keeps the land free from all be \$12.50 per acre. showing a weeds. The continuous soil mulch conserves the moisture and makes plant food available.

The work of summer tillage Fe System. should begin early in the spring. The first work should be done by double discing the land. The mulch formed by the disc should be kept loose and free from weeds by harrowing after each rain. A dashing rain may make the second discing necessary, especially if weeds begin to grow. Every effort should be put forth to keep down the weeds and to keep the surface loose to a depth of at least three inches.

Plow this land deep (7 or 8) inches) during the latter part of June or early in July. Keep the common harrow going immediately after the plow. It is a good plan at this time to pack the freshly plowed land with a sub-surface packer, or a disc harrow set straight.

The farmer who summer tills must remember; that weeds and crusts are not permissible either Showers Help Feed and Cotton. witnessed before. The good find lost articles. Then as we grew to get dry and hard.

The following successful dem- healped greatly. onstration in wheat growing by Grimes Brothers of White Deer.

Mrs. G. V. Smith entertained the Rook Club last Thursday

The hostess served a light luncheon of pineapple salad, juice and wafers.

Those who enjoyed the evening with the Club were: Mmes. Starks, Cannaday, E. C. Henry, Ivey, W. R. Ivy, Butler, Darsey, Pitts Donaldson, Childress, Jenkins, R. L. Henry, Waddell, of Texico, and Smith; Misses Mc-Kinnon, Pauline Goins, Henry and Marie Henry.

The next meeting will be held with Mrs. W. L. Boerner the afternoon of September the fourth.

## ANNOUNCEMENT

The Calendar at least indicates that Autumn is here and that soon the trees, where there are any, will be shedding their golden leaves. Then if ever come imperfect days of cold blasts demanding that heavy suit, hat, overcoat or shoes, which we are anxious to show you.

During the past few days we have been busy checking and placing in stock new goods which we will take pleasure in showing you whether or not you buy.

## That Palmer Suit Or Coat

Don't worry any more about that suit or coat, come here and put on one of our pretty Palmer garments and your troubles are ended.

Style and Individuality they give you. We guarantee the rest. SUITS FROM \$15.00 TO \$40.00 Others cheaper

## **MEN'S SUITS**

We are very enthusiastic over our line of

HartSchaffner and Marx Fall and winter suits. We like them, we think they are pretty and we know they are good and so do some of our friends who have already bought.

Did you ever read their all wool guarantee? \$100 reward for a thread of cotton in one of their suits.

They also guarantee their workmanship; their fronts to stand, their collars never to roll. The suit to stay like it was when you bought it, except the natural wear, or your money refunded. These are common expressions by those who have worn them, "I wouldn't wear any other kind, they are the best clothes I ever saw. I

## **Perfection and Mothers Favorite Suits**

For boys. Those who have tried these clothes know that they are good. They are made right like the boy deserves. They are priced right to suit the fathers purse.

SUITS FROM \$2.50 TO \$10. Full line of boys overcoats will be shown later.

## Shoes! Shoes! Shoes!

We are now showing a complete line of mens, boys, ladies' and childrens shoes.

We want to call your particular attention to the Buster Brown line. We have bought more childrens, Misses and boys Shoes this season than ever before in different styles, lasts etc.

Particularly strong are we on the low heels for which there is much demand. These shoes are priced from \$1.00 to \$3.00. Shown in Gun metals, Calf

## WATER MOST VALUABLE AGRICULTURAL ASSET.

Enough Wasted Annually to Supply 6,000,000 Acres. **Conservation Urged.** 

The cry of water arising from the arid regions of Texas has caused the Texas Welfare Commission to investigate the subject of irrigation. The report of the commission shows that we now have 425,000 acres of land under irrigation in Texas today, and of this area 275,-000 acres are in rice and 150,000 in general crops and the land is the most valuable in the state.

The report further states that water is our most valuable agricultural asset. According to the report of the division of irrigation investigations of the United States Department of Agriculture, there is wasted into the Gulf of Mexico every nation and the jostle of prop-Trinity river each year upwards of four million acre feet of water, through the Brazos two million acre feet; through the Colorado one and one-half of which we claim. Through these four streams at least ten million scre feet of water is each year lost to Texas which, if conserved, would serve as a supplemental supply of water to at least six million over known. cres of land.

The commission finds millions of forces is the most tremendous event acres of fertile soil in southwest and in human affairs today. This upwest Texas land without an artificial rising in civilization is gathering its supply of water that has very little forces from the hills and valleys of value, and there is no section of the wo continents and its powerful sweep state in which the productive power is startling the nations of the earth. of the soil will not be immensely increased if, when periods of scant No country on the globe ever posrainfall occur, a supplementary water sessed such a powerful asset, and supply is available and applied. are not in a position to derive full benefit from the splendid exposition is in operation, or educational facilities and useful before that time, is not yet degether upon the time of the official opening of the canal. The San Diego Exposition

management is responsible for resulted in definite announcement that the representatives of the navies of all the govern-

ments of the world that main-

such an immense fleet as this event will cause to assemble here, and all conditions surrounding it are favorable for such manuevers and practice operations as may be fitting such an occasion. It is to this harbor that the war vessels of the Pacific squadron come for target practice with their big guns, and here the torpedo fleet of the Pacific, the submarine fighting vessels, and the army and navy airship corps, have their practice the year around.

No estimate can yet be made of the number of war vessels that will gather here on this occasion, but already San Diego and the San Diego Exposition officials are preparing to entertain the officers and men of the world's navies in a fitting manner, and to make of their coming here a great world event; the greatest of its kind ever known.

## Are Coming

FVERY young woman and young man and the little folks, as well, who have begun to plan what he or she will wear at school or college will find tremendous economy in quality and price to visit our store and purchase your shoes.
