

## Court Cases Monday

Very Light with One  
Case to Come Up.—  
List of Jurors.

Court will convene in  
next Monday, with  
S. Kinder presiding.  
cket is very light both  
d criminal departments  
alleged felony will be  
al.

it jurors for the first  
; J. R. Vandergriff,  
odson, G. R. Tibbitts,  
itlock, W. D. Zion, G.  
e, S. D. Ferguson, J.  
n, Frank Truitt, A.  
ite, T. B. Triplett, G.  
le, W. M. Thornton,  
heard, J. L. Dagley, F.  
han, R. C. Reagan, Joe  
R. C. Ramsey, Will Mc-  
J. M. Cooper, J. W.  
s, C. D. Merrick, R. B.

second week panel con-  
36 jurymen as follows:  
eCarty, J. H. McGehee,  
A. Henry, R. C. Bennett,  
McCormick, H. S. Bolin,  
Fodd, M. F. Husky, J. A.  
n, R. H. Willis, R. W.  
B. Maxey, W. P. Hew-  
F. Jones, T. B. Hill,  
y Massie, Ira Broyles,  
eltz, H. D. Ashby, J. M.  
s, Carl McAdams, W. E.  
nce, J. J. Norris, J. A.  
E. L. Ayres, G. T. Meri-  
r, Albert King, E. C.  
W. P. Kays, R. D. Harp-  
T. Kirk, B. F. Hawkins,  
Hilton, L. H. Liston, L.  
onea, E. J. Hoffman.

n Cope and Burton Thorn-  
of Lockney, were in Floyd-  
over Monday night.

T. S. Thagard, of Lockney,  
as in Floydada Tuesday after-  
noon and Wednesday for a short  
visit with his daughter, Mrs.  
Addie Thagard and family.

W. A. Gound completed re-  
modeling the residence of J. H.  
Tackett, of Center, the earlier  
part of the week. This work  
included joining two buildings  
together making one dwelling  
more commodious.

## Never Leave Money

around your home in the trunk or  
carry it on your person and endan-  
ger the life of yourself and family.  
Don't run the risk of having your  
hard earned money destroyed by  
fire or stolen by a thief. Bring us

### That Old Gold

and let us store it in our safe for  
you, where it is insured against  
burglars. You can get the same  
gold when you want it.

Better bring us that old worn paper  
money and when you need it, call  
for our brand new, own make mon-  
ey, its clean and nice.

When you sell your Cotton,  
Grain or Feed, deposit your  
check in the First National  
Bank.

We will pay checks for  
any and all firms in  
Floyd and adjoining  
Counties  
without Cost to You.

Your money deposited in this Bank  
is guarded by the United States  
Government.

**First  
National Bank**  
Floydada, Texas

## Instructed for Houston Man

Local Pro Eliminators' First  
Choice Tom Ball; S. P.  
Brooks Second.

The delegate from Floyd Coun-  
ty to the Prohibition Convention in  
Fort Worth next Saturday  
left this morning instructed to  
vote first for Tom Ball, of Hous-  
ton; second for S. P. Brooks, of  
Waco. If no chance for the  
selection of either of these to  
bear the standard of the pros in  
the ensuing campaign, the dele-  
gate is to be guided by his own  
conscience and best judgement  
in casting his vote.

The meeting Saturday after-  
noon was presided over by Rev.  
G. W. Shearer with about 25  
present at the meeting, which  
was held in the court house.

After a discussion of the situa-  
tion by various parties the votes  
were cast as shown above. Rev.  
G. W. Shearer was selected as  
the delegate and will attend the  
meeting in Fort Worth Satur-  
day. He left this morning for  
that place.

He will have one vote in the  
convention for every ten votes  
cast in this county in 1910 for  
state-wide prohibition. This  
will entitle him to 29 votes,  
as the vote cast for prohibition  
in that year was 287 in Floyd  
County.

Counting three-fourths of the  
present voting population of the  
county as prohibitionists his  
vote would count 73 on a basis  
of the present poll tax payments.

### Giant Windmill Invented

Denver, Col., Feb. 7.—A giant  
two wheeled windmill, built on  
and within a circular steel-rib-  
bed tower has been invented by  
father J. J. Donolly, pastor of St.  
Francis de Sales Church, which  
bids fair to revolutionize irriga-  
tion. Engineers have pronounced  
a working model of the wind-  
mill practicable and efficient.

Hitherto it has been found im-  
practical to construct windmills  
of sufficient size to develop the  
amount of water required for ir-  
rigation purposes. Father Don-  
nelly's invention seems to fill  
this need simply and economical-  
ly and efficiently. If it proves a  
success there is every indica-  
tion that it will be a vast boon  
to farmers.

## Made Money on Maize

Lewis H. Darrell, who owns a  
section of land four miles east  
of Floydada, has been quite a  
success as a farmer since he has  
been farming in Floyd County.  
He moved here from Williamson  
County.

This year his maize and kaffir  
crop has made him some good  
money. He had about 180 acres  
in cultivation. He sold part of  
his crop in the heads and part  
threshed and is feeding out the  
remainder to hogs and cows.

20 tons of his maize, headed  
green, sold for \$12.75 per ton;  
1200 bushels of his threshed  
heads he sold at \$1.37 per hun-  
dred and 800 bushels at \$1.23 per  
hundred. He has sold much  
other stuff in smaller quantities  
and has 30 tons of heads on  
hand, and plenty of roughness  
and feed for his work stock, 18  
head of cows and 50 head of  
hogs.

Mr. Darrell is breaking out an  
additional seventy acres in sod  
land this year on the section,  
making a total of 250 acres he  
will have in cultivation.

## Last Cotton Ginned Saturday

Local Yard has Handled 1337  
Bales.—3000 predicted for  
this Fall.

Last Saturday the Farmers  
Gin Company ginned the last of  
the 1913-14 season's cotton, and  
G. V. Slaughter, public weigher,  
says it was the 1337th for the  
Floydada yard this season.

The bad weather of Septem-  
ber and October curtailed the  
season's output by 500 bales is  
the opinion among the cotton  
circles. This cotton that was  
lost was part the highest grade  
produced during the year.

The production for the coming  
season, estimate based on this  
year's figures, will be around  
3000 bales. The farmers are  
preparing to increase their acre-  
age about one third on an  
average, while many new farms  
are being put in on which a large  
per cent of the feed crops will  
be produced leaving much old  
land for the cultivation of cotton.

This year's crop was worth  
about \$100,000.

### Ned Bowers in Accident.

The Texas Spur, of February  
12th, had the following:

Ned Bowers, who has been  
with E. R. Rorie at the Spur  
Ranch camp several miles north-  
east of Spur, had his collar bone  
broken Wednesday by a horse  
falling with him while riding  
after cattle near Wilson tank.  
He was brought to town by Mr.  
Rorie for surgical treatment,  
and while the injury was painful  
it is not considered serious and  
requires only a simple operation.

We hope soon to note Mr.  
Bowers' complete recovery.

### Veale Enters Race for District Attorney.

In this week's issue will be  
found the announcement of Hon.  
Chas. H. Veale for the office of  
District Attorney for the 64th  
Judicial District. Judge Veale  
is too well known throughout the  
district to require an introduction  
from us. He is a son of Jno. W.  
Veale of Amarillo, has for the  
past five years been actively en-  
gaged in the practice of law and  
has made a brilliant record. He  
was reared at Amarillo, having  
moved to that place from Steph-  
ens County, and is thoroughly  
identified with the interests of the  
West and more especially of the  
64th District. As a lawyer  
Judge Veale stands at the head  
of the respective bars of the dis-  
trict and if elected we predict  
for him an official record of which  
no one need be ashamed.

Judge Veale is a highly cultured  
Christian gentleman and is al-  
ways found on the right side of  
all moral questions. He is a  
strict believer in the enforce-  
ment of the law and if elected  
we predict that evil doers will  
be brought to Justice and made  
to respect the penal code of the  
State of Texas.

Judge Veale will make formal  
announcement in all parts of the  
District at an early date.

W. H. Cooke, of Clarendon,  
was selling stationery for the  
Hargreaves Company, of Dallas,  
in Floydada Wednesday.

Mrs. W. E. Holder and child-  
ren left this morning for their  
home at Wayne, Okla., after a  
two-week's visit in the Center  
neighborhood with J. H. Tackett  
and family.

## Loss Regained Cattle Market

Normal Run Recorded—Hogs  
Strong to 5 Higher

Kansas City Stock Yard., Feb.  
16, 1914.—The flurry in cattle  
last Monday began to subside  
Tuesday, and by the close Wed-  
nesday most of the gain had  
been lost. Cows and butcher  
stuff sold well all week, and  
steers of known dressing capa-  
city retained a part of their  
Monday gain, but middle and  
low grades of steers, denominated  
"gamblers" were disappoint-  
ing actors. Stockers and feed-  
ers declined 25 to 35 cents first  
of the week, and after this loss  
became effective the movement  
to the country was free, 11000  
head going out, a normal week's  
business for this season. Re-  
ceipts today exceed the estimate,  
a total supply of 12000 head ar-  
riving. Other markets are well  
freighted with beef, and the  
tendency is toward weakness.

An extra large percentage of  
local supply is stockers and feed-  
ers, cattle from wheat pastures  
driven in by the storm late last  
week. This leaves a moderate  
number of beef cattle, and sales  
of same are steady to a shade  
lower, while stock grades are  
unevenly lower. Best Natives  
here today brought \$8.65, and  
some 1200 lb steers from the  
Northern Colorado sugar beet  
district sold at \$8.20. Best fat  
cows range from \$6.50 to \$7.50,  
bulls within the same range,  
veal calves a quarter lower, best  
around \$10.25. Receipts of  
quarantines, 49 cars, are featur-  
ed by a string of Old Mexicos,  
direct, common little steers at  
\$5.40. Some very good yearlings  
from Oklahoma were also includ-  
ed, at \$7.75, and North Texas  
meal fed steers around \$7.50.  
Fancy stockers bring up to \$7.75,  
and choice calves a little better  
than \$8, best feeders \$7.75, with  
middle grades showing least  
strength at \$6.50 to \$7.25. Hog  
markets are the scene of con-  
tinued conflict, with the balance  
slightly in favor of sellers.  
Prices averaged 14 cents higher  
last week than the week pre-  
vious, although closing consider-  
ably below the best time. This  
week opens with a supply of  
8000 head, market strong to 5  
higher, top \$8.57½, bulk \$8.30  
to \$8.55. Light weights sell  
closer to the top than hereto-  
fore, and general quality of the  
offerings is better. Sheep and  
lambs gained 25 to 35 cents last  
week, but the market is off 10  
to 15 cents today, receipts 9000  
head. Cold weather has failed  
to stimulate mutton consumption  
to the degree necessary to spur  
killers into enthusiasm who act  
on the assumption that the mar-  
ket horizon discloses a vast array  
of fat sheep and lambs headed  
toward the shambles. Lambs  
sold at \$7.30 to \$7.55 today,  
heavy western wethers \$5.50,  
light Colorado ewes \$5.30.

J. A. RICKART,  
Market Correspondent.

### Built Farm House Addition.

R. H. Willis completed a two-  
room addition to W. J. Berry's  
residence in the McCoy neigh-  
borhood last week. Mr. Berry  
moved to this county from Hunt  
last winter purchasing the J. L.  
Brown quarter section, and is  
improving it.

Born.—To Mr. and Mrs. W. L.  
Niles, east of town, February  
18th, a son.

## Cattle Wintering Well There

In Floydada District Stock Shows  
No Winter Shrink.

"There seems to be about the  
usual supply of cattle in our  
country, and they are coming  
through the winter in good  
shape," said C. W. Morgan of  
Floydada, Tex., this morning,  
when he arrived at the yards  
with a shipment of 3 carloads  
of heavy stockers. Floydada is  
in the Panhandle country, in  
Floyd county, one of the choice  
cattle districts.

"We were pretty well supplied  
with forage feed, and with the  
mild winter, and cottonseed  
cake, we are sliding through at  
a small expense,"—Kansas City  
Drovers' Telegram of Feb. 10.

### First Wreck On Matador North- ern.

The first of last week the first  
wreck occurred on the Matador &  
Northern, a railroad being con-  
structed by private capital from  
Matador to a point three miles  
from Roaring Springs, when a  
flat car loaded with steel was  
pulled on to the main line by  
mules and on going down grade  
the car was in danger of run-  
ning over the mules so the boys  
got hold of the breaks and  
throwing them on, the car stop-  
ped so sudden that it threw some  
of the workmen off and bunged  
them up pretty bad, however  
no serious damage was done and  
work will be continued.—Roar-  
ing Springs Echo.

Misses Lula and Viola Rush-  
ing and brother Lee, visited their  
parents in Floydada Saturday  
and Sunday, returning to school  
at Seth Ward Monday.

The Misses Rushing were  
visited during the time by Misses  
Rena Bailes and Annie Reeves,  
of Plainview.

Tom Goslee left Wednesday  
for New Orleans, where he will  
visit with relatives during the  
ensuing week of the Mardi Gras.

## Will Build Heavy Tanks

Local Garage Planning Addition  
to their Building to Accom-  
odate New Line.

John H. Reagan, proprietor of  
the Auto Garage and Machine  
Shop, is planning an extension  
to his 70x40 foot garage, and will  
add stock and storage tank build-  
ing to his already large business.  
The new addition will be 40x40  
in the rear of his garage, and  
his plans include extensive ar-  
rangements to take care of a  
large business in the heavy sheet  
metal line.

Mr. Reagan has one of the  
largest and best equipped gar-  
ages in panhandle and his stock  
of tires, tubes and accessories  
would make most credible showing  
in any of the larger cities. A trav-  
eling salesman for one of the larg-  
er tire building companies made  
the statement recently that Mr.  
Reagan carried a larger assort-  
ment of tires and sold more of  
this kind of goods than any  
dealer on the south plains. His  
patronage in this line includes  
auto-owners from all sections of  
Floyd and adjoining counties.

At the same time Mr. Reagan  
announces that he will at an  
early date install an air station  
for the accommodation of his  
trade, and make other improve-  
ments that will keep his garage  
in the front rank of the best  
garages on the plains.

Little Mable Fawver, of Plain-  
view, visited during last week  
and the first of this with her  
aunt, Mrs. J. A. Altman, in  
Floydada. She accompanied her  
father, John A. Fawver, home  
this morning, the latter having  
spent Wednesday night here.

The little girl was run over by  
an auto on the streets of Plain-  
view about three months ago,  
and three operations were nec-  
essary before the doctor recent-  
ly declared her out of danger  
and expressed the opinion that  
she would entirely recover.

"The Store With The Goods"

### Society Notes

#### Entre Nous Club.

The Entre Nous Club met Feb. 13. After a well rendered program Miss Pauline Smith conducted physical culture until 4:00 p. m.

All mothers are cordially invited each Friday. We meet next Friday at 2:30 p. m.

Press Reporter.

The Carnation Club made a successful effort to take the

"hoodoo" out of Friday the 13th by entertaining their husbands and friends on the evening of that date this month, at the hospitable home of W. L. Boerner.

Mrs. Boerner was assisted by her daughter Mary and a Committee of the Club members in receiving some fifty or more of their friends who partook of the evenings hospitality.

The home was tastefully arranged for the occasion and eleven tables prepared for the

Club game of Rook, also a number of pallets for the JUNIOR members of the club; this branch of the Club seems to be noticeably increasing and the enthusiasm of the Juniors for the game is marked, speaking well for the future popularity of Rook. Everybody seemed to evidence a particular interest in the games, especially the husbands who only have an annual shot at this Rook business. Possibly it would do them good to have more opportunities to play Rook with the

Club however it is doubtful if they could keep from foundering if they were led to many such spreads as the Club had prepared for this occasion.

The following were present at this "munchly" enjoyed affair: Messrs and Mesdames; Hughes, Butler, Smith, Truett, Johnson, Donaldson, Darsey, Hodge, Jenkins, Shropshire, Borum, Starks, McKinnon, Cannaday, Lider and Boerner.

Misses Smith, Edwards, Erick, Henry, McKinnon, Warren, Collier, Moorehouse and the daughter of the hostess Mary Boerner, who officiated as scorer. The eligible gentlemen present were: Reagan, King, Bishop, Smith, Barkermeyer (twice) Gamble, Martin and Ross.

It was feared that Miss Boerner might be partial in the capacity as scorer but no one complained of their punches but Bascomb Jenkins. We agreed with him that he had some punches coming, however we did not give him the kind of punches we thought he needed just then, but we will remember that he has them coming to him.

Fourteen games were played, Miss Erick made high score with a total of twelve games won, this seems like a remarkable score but it seems quite as remarkable to me that some of us had a score of nearly twelve games lost.

During the games we were served with "Divinity Fudge" this was very nice and sweet; however it was noticeable that some of the players failed to see these morsels on the table so great was their interest in the game at hand, these were mostly lady players tho, which favored we men as we enjoyed the Fudge and the game too. Some fellow remarked tho that it delayed the game and had a tendency to gum the cards.

We are now approaching the Carnation Club's meal time.

That is one thing about Rook that commends itself to the husbands and no doubt the single men to some extent especially the Carnation Clubs Rook they don't mind playing the game with all their might for they always figure on being refreshed substantially after the game. This was no exception and some present, possibly regretted that they did not increase their efforts during the game period so they could feel fully entitled to the good things placed before them.

The refreshments were served on the several game tables and consisted of; Marshmallow salad in Timble cups with Rosette wafers; Fru Nut Jello served with Cherries and Whipped Cream; and cheese Straws with hot chocolate and Cream.

Some of this was new dope to me and possibly some others but I can vouch for it all being edible and believe that it will produce as many clean plates as any refreshments that can be served.

This brought us to the 'adios' part of the programme which was indulged in reluctantly tho our thanks to the host and hostess for an enjoyable evening were most sincere.

A Husband.

### 27 Per Cent of Tillable Land Under Cultivation.

Only 27 per cent of the tillable land of the United States is actually cultivated, according to estimates of department of Agriculture, based upon reports of 35,000 correspondents. These reports were obtained in order to gain information as to tillable area of the United States, the amount of land that can not be used for crops that have to be plowed but available for pasture or fruits, and the total number of acres that never can be used for agricultural purposes. From the returns, which were generally very consistent, preliminary estimates have been made for each State and for the United States. Further investigation in the Far Western States may modify somewhat the present estimate for those States.

The entire United States, excluding foreign possessions, contains about 1,900,000,000 acres. Of this area about 60 per cent, or 1,140,000,000 acres, is estimated to be tillable; that is, capable of being brought under cultivation by means of the plow. This includes land already under such cultivation and that which in the future may be brought under cultivation by clearing, drainage, irrigation, etc.

Three hundred and sixty one million acres, or 19 per cent, are estimated to be nontillable but valuable for pasture or fruits. Only 21 per cent, or 399,000,000 acres, was estimated to be of no use for agriculture, present or future.

According to the census of 1909, the land area in crops where acreage was given was 311,000,000 acres. This is about 16 per cent of the total land area, or about 27 per cent of the estimated potential tillable area, of the United States, excluding foreign possessions.

In other words, for every 100 acres that are now tilled, about 375 acres may be tilled when the country is fully developed. In the development of the agriculture of the country the land which was most easily brought into a state of cultivation, as the great Mississippi Valley, was the first to be brought into such use. Extension of tilled area will be at greater expense for clearing, drainage, irrigation, etc. The increased production of the future will be the result of increased yields per acre as well as extension of area.

Mrs. Lomax and children left this morning for Plainview, where they will make their home with her sons, Otis and John.

## SPRING DRESS AND WASH GOODS

I am showing this week my new spring dress and wash goods and you will find here a great buying advantage.

In point of Quality or Service, Value and Elegance of Design and Color, this display is one of the most remarkable I have ever shown. You need only to name the style or use of the new dress you are planning in order to find the material best suited to its requirements.

Combinations of strictly high-class and genuinely serviceable fabrics are not to be picked up every day. If you are sincere in your desire to save money on your spring dress goods without sacrificing quality, be sure and visit our store early. Crepe effects are much in demand this season. Not only in silks, but in cotton fabrics as well. Be sure and see our ratine crepes, brocade chermouse, brocaded crepes, crepe foulard and embroidered spot ratine- Prices 20c to 65c.

## It Always Helps

Mrs. Sylvania Woods, of Clifton Mills, Ky., in telling of her experience with Gardui, the woman's tonic. She says further: "Before I began to use Gardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

# GARDUI

### The Woman's Tonic

a trial. I still use Gardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Gardui, the woman's tonic. You cannot make a mistake in trying Gardui for your trouble. It has been helping weak, ailing women for more than fifty years.

## Community Co-Operation

Copyright Farm and Ranch-Holland's Magazine

While stopping in a small Texas town not long ago, I overheard a remark, the significance of which impressed me very much. A prosperous-looking, middle-aged man casually stated to a local merchant: "No, I am not in the market this year for any farm implements, as I am preparing to lease or sell my place and move to the city. My children are getting along, you know, and I feel that I should locate where educational facilities are better than here." To the ordinary person this incident would seem most commonplace; in fact, similar conditions, no doubt, exist in many Southern small-town communities, but the cause for same should not be allowed to exist, and the remedy is to a large extent in the hands of those people residing in and around the towns.

It stands to reason that the town whose merchants are prosperous will afford a good market for the products of its vicinity, and the town whose buying and selling activities will naturally afford ample educational facilities, thereby not only holding its old residents, but offering strong inducements to contemplative newcomers.

The number of stores (and the financial condition of same) in a town depends entirely on the amount of patronage accorded the local merchants, and where all wants are supplied by these local mercantile establishments, the condition is governed by the law of supply and demand. Every dollar spent in your local stores benefits you as well as every other individual residing in your community, as a portion of that dollar will find its way

to some municipal development. It should require no argument to convince the most skeptical persons that they are doing their community a serious injury every time they make a purchase elsewhere.

If a resident of some distant city should ask you for a donation to a fund to be used for the development of his city, you would, no doubt, refuse to comply with his request, with the explanation that you are interested only in the upbuilding of your own town and community and that he should confine his solicitations to his particular locality alone. You would be absolutely right in so doing, and your action in the matter would receive the endorsement of every right-thinking person in your neighborhood. In the very face of these facts, a certain per cent of small-town people accede to identically the same request above mentioned, but a little differently put; in fact, they make donations of this kind every time they make a purchase away from home, and when the articles wanted can be had to as good advantage in their local markets, there is absolutely no plausible excuse for sending or going away for them.

Every small-town merchant can, and should, offer merchandise in his particular line as good as can be obtained elsewhere, and his prices should be the same.

There are many people living in our smaller cities and towns who prefer to shop in the larger city stores. Their impression seems to be that their local stores, being less pretentious, cannot give them as good values,

Mrs. Mandy A. Lee left last Saturday for Munday, Knox County, where she will visit with her son, Dr. T. J. Lee. She has been living with her daughter, Mrs. J. T. Morris, the past eighteen months and was accompanied home by her grandson, W. L. Morris.

## A Hundred New Homes

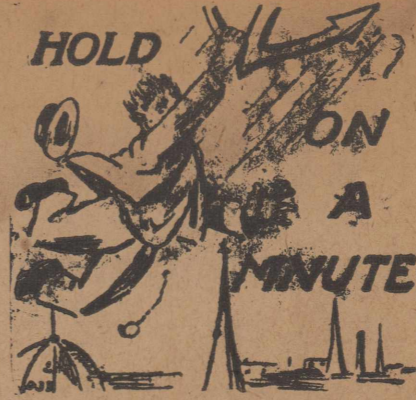

Within the past six months a hundred new homes have been built in Floyd County. This estimate is based on reports of lumbermen and building material dealers. These hundred homes occupy lands which are this year being converted from open ranges into fields, to aid in supplying the ever-increasing population, adding thus to the wealth of Floyd County.

A hundred new homes! The thought is inspiring. It means the worth of our land as an agricultural producer is being recognized,—that there is money in tilling this soil. Where the money is being made there is the business activity. Where the farms produce wealth there the people build their homes to live.

Indeed, Floyd County is a producer. The building of a hundred new homes within a half year is the index which shows.

### New Church at Ralls.

We elucidated the fact Wednesday, that work on the Christian Church will soon be under way, and Messrs. Ralls, Botts and Oliver, were at Floydada Tuesday, on business connected with that matter. Mr. S. A. Oliver, an architect of no little ability, has been employed to draw plans for the building. This church when completed will cost approximately \$4000, and will be among one of the finest edifices of its kind on the Southplains.—Ralls Banner.

styles, etc. If this class of buyers realized the fact that standard or trade-marked-advertised lines of goods offer the same style and quality, and sell for the same prices in their local stores as in the largest city stores, they would patronize their home merchants in every instance.

O. A. Sanders and family left Tuesday for Elm Oklahoma, where Mr. Sanders will engage in the farming business this year.

He has been express messenger for Wells-Fargo from Floyd to Plainview the past two months.

J. D. Griffith, of Lockney, was in Floydada Friday afternoon.

### Land Mark Removed.

Wednesday, one of the oldest, if not the oldest, business houses in Lockney was loaded on trucks and moved to the country. It was the building known as the old printing office that stood alongside of the Ayres building. It was moved here from old Della Plains and the first Lockney paper was published in it.—Lockney Beacon.

Charles Mickey, of Lockney, was in Floydada Sunday for a short time.

J. C. Garrison and O. R. McCollum, of Lockney, were in Floydada Sunday afternoon for a short time.

## CANDIDATE Announcements

We are authorized to announce the following as candidates as shown, subject to the action of the Democratic Primary, July, 1914:  
For District Judge, 64th Judicial District: R. C. JOINER.  
For County Judge: Arthur B. Duncan.  
For Sheriff & Tax Collector: A. C. GOEN, R. M. Bud Broyles.  
For Co. and Dist. Clerk: R. C. SCOTT, TOM W. DEEN, W. B. CLARK, V. F. Hodge.  
For Tax Assessor: B. C. WILLIS, T. F. CASEY, ROBT. E. JONES.  
For County Treasurer: MRS. C. W. THAGARD.  
For Commissioner Pre. No. 1: J. W. Howard.  
For Com. Pre. No. 3: R. L. ORMON.  
For Commissioner Pre. No. 4: Chas. Trowbridge.

Now's The Time.  
Floydada people are reminded that the scientists have proven one fly in the early season produces a million off spring by mid summer, and that one fly killed now means a million less flies to screen against in July. Sanitation and "clean-ups" just at this time, then, is what will pay the biggest in the "fly-swat" season. When the pests everybody will buy a fly-swat. But now is the time to make your efforts toward

a "cleaner Floydada" and a fly-less town.

In order that the best sanitary conditions prevail it is highly important that the sanitary code of the city be strictly enforced not next summer, but now. City officials are active along this line at this season. Their activity is based on the wisdom of forethought.

Every good citizen will assist them in every way possible and give them to understand that the best citizenship is not only with them, but demand that the city go the limit in making Floydada a clean town, and keeping it in this condition.

## Huge Mud Lumps At Mouth of Mississippi.

The territory within a mile or two of each of the mouths of the Mississippi is characterized by large swellings or up heavals of tough bluish gray clay, to which has been applied the name "mud lumps." Many of these mud lumps rise just offshore and form islands having a surface extent of an acre or more and a height of 5 or 10 feet, but some do not reach the water surface. These mud lumps, in addition to being of importance because of their effects on the channels of Mississippi River, are also of considerable purely scientific interest. For their development is not included in the usual conception of delta growth, and although several theories have been advanced, their cause must still be regarded as uncertain.

To an observer at the mouth of the river the idea that the region is a great dumping ground for a large part of the United States is most impressive. The land is being built out into the sea at an estimated average rate of about 800 feet a year; in some places the rate is much more rapid than in others. In one place in Garden Island Bay the land appears to have advanced 2,000 feet in the spring of 1912.

The mud lumps are commonly 20 to 30 rods broad and stand 20 or 30 feet above the adjacent bottom. Their growth occupies from a few hours to several years and is usually irregular. Generally a mud lump rises in a few weeks or months to a height of 4 or 5 feet above the surface of the water. Then it remains quiet and is beaten down by the waves in the course of a few years. Many of them subside, however, and some disappear over night. Those that rise slowly are considerably worn before they stop growing, while those that rise more rapidly and in protected places are capped by

laminated silt having a maximum thickness of 10 feet.

The stories related by sailors and pilots concerning the mode of growth of the mud lumps are fairly consistent. One man, however, states that the growth of a mud lump was accompanied by a rather loud roar as it rose above the water, and another states that he once saw flashes of light rising from a mud lump, but these statements are very different from the great mass of testimony concerning the lumps, and it seems probable that they are not based on fact.

Among the most conspicuous and impressive features of the mud lumps are the mud springs that are active on many if not

all of them. The discharge from these springs consists of salt, watery mud, and gas—in fact, gas escapes at many places on the surface of the Delta of the Mississippi, the vents appearing to be most numerous and largest on and near the mud lumps, though the rate of flow rarely, if ever, exceeds a few cubic feet an hour. Gas rises in bubbles in all the mud springs, though its rate of issue varies.

It is considered by some scientists that the mud lumps are produced by a gentle seaward flow of layers of semifluid clay under the land and the shallow water near the ends of the passes. The mud lumps appear to be the product of flow, be-

cause in no other places have such thick bodies of clay been found, and the fact that they occur almost exclusively near the ends of the passes and that they are most active during and after times of high water seem to support this theory.

The United States Geological Survey has issued a report entitled "The Mud Lumps at the Mouths of the Mississippi," by Eugene Wesley Shaw—Professional Paper 85, Part B—a copy of which may be obtained free on application to the Director of the Survey, Washington, D. C.

## Heavens, What Next?

Only eleven hundred citizens qualified to vote in the election in Floyd County this year. Probably the over-age exceptions and the new-comers will make the total run nearer 1250. But the fact remains that nearly a hundred citizens of the county failed to pay their poll tax this year. These latter have a harder row to weed than they had thought for. The astute framers of our Texas Election Laws, built a law that continues to disclose unthought-of phases. If you have not paid your poll tax glance over the following for your own edification:

Article 6973, Rev. Stat. 1911, Provides that the Tax Collector shall furnish to the County and Precinct Road Superintendent of his county a list of all those citizens subject to a poll tax, by the first day of May each year, who have not paid such poll taxes, and such delinquent persons shall be subject to three days extra road duty, as a penalty to pay such taxes, and in case they refuse to do the work when summoned, or to pay \$3.00 in lieu thereof, shall be prosecuted and fined, in any sum not to exceed \$25.

## Controlling Hookworm in The South.

The annual report of The Rockefeller Sanitary Commission, with headquarters at Washington, indicates that as a result of the work done under the direction of the boards of health of eleven Southern states, 480,651 persons were microscopically examined during 1913. This means that more than 1,573 persons were microscopically examined for each work day during the year; an increase of 60 per cent, over the record of any previous years. In the central and field laboratories there have been examined to date 858,377 persons. The number of persons treated during the year is given as 186,277, an average of

616 persons treated for each working day; a reduction of 12 per cent, from the record of 1912. Considering that the number of persons examined shows an increase of 60 per cent, and that the number of persons requiring treatment a reduction of 14 per cent, these figures are significant. Of the 186,277 persons treated during 1913, 6,960 were treated and reported by practicing physicians, and 960 persons were treated by members of the staff. The number of persons treated during the year is given as 539,107. Infection surveys, based on the examination of a minimum of two hundred country children taken at random between the ages of 6 and 18 years, have been made in 413 counties. A total of 415,250 rural children have been examined, an average of 1,005 per county. The percentage of infection found among them was, for those examined prior to 1913, 55 per cent; for those examined up to Dec. 31, 1913, 43 per cent.—a reduction of 12 per cent, in the degree of infection recorded. Sanitary surveys have been completed in 501 counties, based on the inspection of an average of 478 homes to the county, a total of 189,586 homes inspected. Of these, 95,938, or 50 per cent, had no kind of a privy. Progress in sanitary reform is not as rapid as one might like to see it. It is encouraging to note, however, that although the cost of installing sanitary closets means a considerable item to the poorer families, improved closets are being built at homes and at schools.

## Cows Bring \$65 Round.

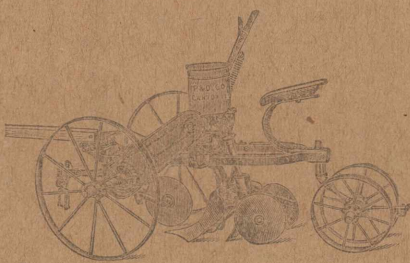

Last week Wolfarth Brothers & Bacon sold to Oklahoma parties about 900 head of cows at \$65 per head, May delivery. These cattle have been wintered in Lubbock county, and are a fine bunch, being above the average of graded cattle, and although the price is a fancy one, at the same time the purchasers have a good deal.

The South Plains has been the scene of much activity in buying and selling fine cattle, and there has been some fine herds exchanged hands.—Lubbock Avalanche.

Mrs. Coke Oliver, of Clovis, N. Mex., visited in the Sandhill neighborhood, with Mrs. Jim Hammonds last week.

Mrs. Oliver was called to this county on account of the death of her aunt, Mrs. C. F. Ramsey, who died in Lockney.

You Win Out  
When You  
Buy The  
No. 23 One-Row Lister

Our No. 23 Cotton and Corn One-row Lister with disc coverers has proven to be the simplest and strongest machine used in the West today, and is adapted to conditions which the Floyd County farmers encounter every day.

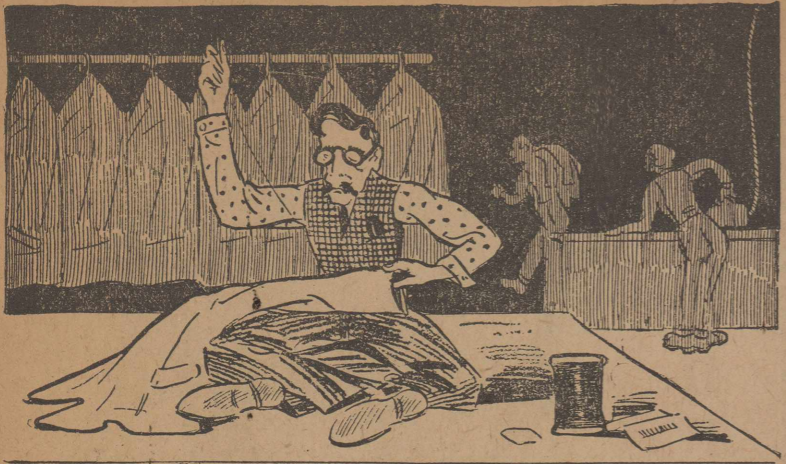

With a half dozen features that prove its superiority over competitive makes, the No. 23 Lister is the one best buy for the farmer, outside the two row Lister of the same make

You'll find it interesting to look over our stock of farming implements. We have a full line.

We can also furnish you in everything needed for improving your place, including windmills,—Star and Eclipse,—casing, piping, cylinders, etc., barbed wire, hog wire and netting.

Get prices on our kitchen cabinets. Kirk & Windsor. 2tc.

H. P. Price, who has been living near Floydada with his brother-in-law, W. B. Prestidge for the past year, left this morning for Bisbee, Arizona.

For good copy work at customary prices, phone Miss Callie Weaver at 19. 2tc.

Some lumber, fencing and tools for sale cheap. 1tc. Barkemeyer Grain Co.

#### Breaking it Gently.

Those of us who have seen the nervous wrecks caused by blundering friends who too abruptly informed the widow of her husband's death can appreciate the gentle touch of the English butler.

On his return from an extended trip abroad, an English 'Squire was met at the steamship wharf by his old and trusted butler. Thinking it strange the old man should have come to meet him, the 'Squire asked if there was bad news.

"Yes, sir," replied the butler, "very bad news. The old magpie is dead, sir."

"What did the bird die of?" "Too much horseflesh, sir."

"Too much horseflesh, John? Where did it get it?"

"The carriage horses, sir."

"What, are they dead, too?" "Yes, sir. Died from over exertion drawing water the night of the fire."

"What fire?" "The mansion, sir."

"You don't mean to say that the mansion is burned, John?"

"Yes, sir; it burned the night of the funeral, sir."

"Whose funeral?"

"Your poor mother's, sir."

"What, mother dead, too?"

"Yes, sir; she never held her head up after your poor father died."

"Great Heaven! Father dead as well? I never heard a word of any of these misfortunes. What was the cause of my father's death?"

"Well, sir, it was this way. He received a telegram telling him that the ship had gone down that had the whole of his fortune on board, and the shock of it killed him."

"John, I am entirely ruined!" "That you are, sir."—Exchange.

#### Advertised Letters.

The following is a list of letters remaining in the Post Office at Floydada, Texas, Feb. 16 1914 to be advertised. If not called for in one week, will be sent to The Dead Letter office.

Howdan, T. S. 1  
Lee, Rev. Wm. J. 1  
Naugle, L. L. 1

Persons calling for above letters, will please say advertised and give date of list.

J. D. Starks, Postmaster.

Chicken feed at Barkemeyer's Elevator 25c per sack while it lasts. 1tc.

#### To the Voters of the 64th Judicial District.

I hereby announce my candidacy for the office of District Attorney of the 64th Judicial District subject to the action of the Democratic Primaries, July 25th, 1914.

In placing myself before the people as a candidate for the office, I do so, not upon the demerits of my opponent, if any, but strictly upon my own merits. I feel that with the experience I have had in the practice of Law as well as my dealing with my fellow man, I am qualified to assume and execute the duties incumbent on such an officer, intelligently and with force and effect.

I believe in the strict enforcement of the law, and prompt attention to all matters in which the State may be a party. If elected I will prosecute diligently all violations of the law without fear or favor, refraining at all times from persecuting, and I shall handle the matters of the State coming within my jurisdiction as expeditiously as is consistent with its best interest.

Should the District see fit to elevate me to that position of trust, I shall earnestly endeavor to conduct the affairs of the office to the satisfaction of the people.

Respectfully submitted,  
CHAS. H. VEALE.

Purified by Love. Man, while he loves, is never quite depraved.—Charles Lamb.

#### Strayed.
