Cogdell submits **TDC** bid

Includes unit's clinic operation

A proposal that would pioneer a new concept in operating the clinic at prison sites, has been submitted by Cogdell Hospital to the Texas Department of Correc-

The proposal, approved unanimously by the hospital's board of managers Thursday, calls for a lump-sum payment for a variety of health services to include staffing and operation of the Snyder unit's medical facili-

The hospital, at the request of TDC, has submitted a "capitated" proposal to provide such services as health care at the site, skilled nursing care (infirmary level) at the hospital, out-patient care and ambulance services for the Price Daniel Unit, set to open here in mid-

A capitated plan means Cogdell would receive a set fee for these services, to be paid on a monthly basis and based on the number of prisoners housed at the prison. The TDC is expected to act on the proposal by May 8.

Presently, all TDC clinics or infimaries are operated and staffed by TDC personnel.

This plan is a separate agreement from other services the hospital has agreed to provide to TDC. Such medical services as in-patient care at Cogdell, where inmates would be admitted for stays of more than 24 hours, and emergency room care would be billed separately.

The in-patient care would be charged based on TDCestablished guidelines tied to the Diagnosis Related Group (DRG) formula for which Cogdell now receives Medicare reimbursement payments.

These DRG payments would not be the same paid Cogdell, considered a rural hospital, but would be based on DRG rates paid in the Houston area.

Regarding ER services, Cogdell has proposed to bill TDC its "customary charges," or those billed other patients.

Under the separate capitated plan, the assumption is that actual expenses associated with the services would not exceed the amount paid to the hospital.

The capitated plan is based on a cost per inmate, and the proposal approved Thursday would see Cogdell paid \$1,244 per prisoner per year.

The proposal assumes a minimum inmate population of 95 percent. Using this figure of 950 prisoners, TDC would agree to pay Cogdell at least \$1,181,800 annually or \$98,483 per month.

Administrator Tom Hochwalt, who presented the plan to the board Thursday, noted that this type of a health care plan is a new concept for TDC.

As such, Cogdell would be "breaking new ground," noting, "There's a certain amount of See HOSPITAL, page 11

Lou Hudson, in the Fort Worth Star-Telegram, took notice of the San Antonio man, Buddy Calk, who frets that the traditional Texas word of welcome, "Howdy," is fast disappearing.

Calk had read a wire story that said only six percent of Texans still greet folks with "Howdy. Said Calk, "I thought that was pretty darn sad. Pretty soon, we're all going to sound like we came from Pittsburg or something.

The poll was conducted by some folks at Texas A&M, so Hudson knows the findings must be true. The pollsters talked with 1,008 adult Texans and found that 44 percent said their preferred greeting is "Hi.

State officials still consider likely radioactive dump site

EL PASO, Texas (AP) -Faults and fissures around a possible radioactive dump site in Hudspeth County haven't deterred state officials from continuing to study the area.

Local opponents contend the cracks in the earth portend a powerful earthquake that would allow radioactive waste to escape into the underground water supply. But the Texas Low-Level Radioactive Waste Disposal has made up its mind - before Authority believes the risk is minimal.

We agree on about 85 percent of the data," said Rick Jacobi, the authority's general manager.

Helen Kilroy's comments came Thursday following the arrests of two jail inmates and three others for attempting to extort \$10,000 from the family while they were attempting to find Mark Kilroy, her son who vanished while on a spring break outing in South Tex-

"We were absolutely shocked that people who are in prison for a good reason are able to call out and terrorize innocent people," said Helen Kilroy. "We were really shocked that people can be terrorized from inside our jails."

Two inmates were arrested Thursday on charges accusing them of using jail telephones to call Kilroy's parents in nearby Santa Fe to carry out the extortion attempt. Three other people were arrested and a third is being sought, authorities say.

FORT WORTH (AP) — An Azle man has been arrested in connection with the stabbing and mutilation deaths of four people in 1985 and 1986 and is being questioned about other unsolved slayings, authorities say.

Ricky Lee Green, 28, was arrested Thursday after information about the slayings surfaced through Crime Stoppers programs in Amarillo, Austin and Fort Worth and officers obtained a statement from his estranged

The victims include a televi-Santa Fe Police Chief Mike sion advertising executive, a 16year-old boy, a 27-year-old Fort Worth woman and an unidentified woman whose body was found in Wise County, police said.

Green had been considered a suspect in one of the slayings for some time, but officers said the cases came together when Green's estranged wife told homicide detectives that Green had described killing three people in 1985 and one in 1986.

The woman told police she had kept her husband's secrets for several years because she was afraid of him, but decided to shed the burden Wednesday, Fort Worth Detective Roger SoRelle

Green was being held in the Tarrant County Jail today in lieu of \$1.25 million bond, according to jail Sgt. William Kaesler.

Green has given officers statements in four slayings and is being questioned about others, police said.

"It is definitely one of our main concerns that there might be more bodies," said Fort Worth homicide Lt. T.C. Swan.

Swann identified the victims as Steven Fefferman, 28, an adverusing executive with KAAS-1 v Jeffrey L. Davis, 16, of Fort Worth, Sandra Lorraine Bailey, 27, of Fort Worth, and a woman identified only as "Betty Jo."

Fefferman was found in December 1986, bound to the posts of his bed with neckties. He had been stabbed several times with kitchen knives and had been mutilated. His home had been ransacked and money had been stolen, police said.

Davis' decomposed body was found in April 1985 in shallow water at Lake Worth. He, too, had been repeatedly stabbed.

Two women who were killed in Wise County also have been linked to Green.

Investigators said Ms. Bailey was last seen leaving a Fort Worth bar with one of two men she had met there during a party.

Four days later, her naked body was found dumped in a culvert in Clay County, scarred with at least 30 stab wounds. She also had been bludgeoned with a hammer, officials said.

Girl Watcher's Girlfriend Sees Her Future as Nothing but Hurt

By Abigail Van Buren

this guy I'll call Michael for two years. I really love him, but he does some-thing that simply kills me! He's a heavy girl watcher

When we're out in public, whether it's at the movies, restaurant, bar or just walking down the street, he stares at girls constantly - paying no attention to me or what I'm saying. It's like I'm not even there

I mentioned a few times how hurt I feel when I see him staring at other girls, but he says, "It doesn't hurt to look" — then he tells me it's jealousy and insecurity on my part.

I know he'll never change. His friends act the same way. I don't even want to think about what goes on when he hangs out with the boys. For someone who's 31 years old, he acts like a high school boy.

Abby, I love him, but I can't see myself marrying a man who stares at girls when we're together and makes me feel like nothing. I feel used. By the way, Michael is obsessed with girlie magazines and porn videos.

Please help me.

Hofheinz surprised Houston political observers and left his liberal backers bewildered when he decided to name former Texas Gov. John Connally as chairman of his mayoral campaign.

Formal announcement of the appointment was to be made today, the Houston Chronicle reported.

House tentatively approves bill

AUSTIN (AP) - Patients who receive emergency care would find it more difficult to bring Turning the head, which further malpractice lawsuits under a bill one lawmaker said would curb hospital closings.

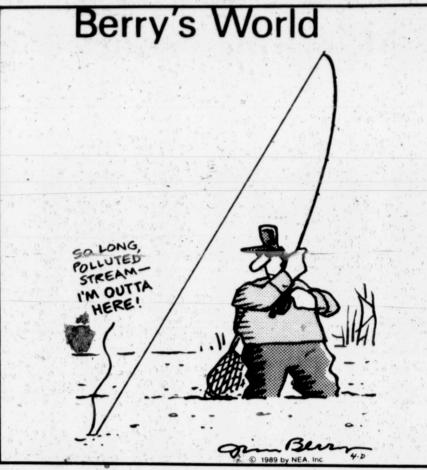

But critics say the provision in a bill tentatively approved Thursday by the House takes the wrong approach to the rural health care crisis.

"There is a problem with rural health care, but the problem is with access to care and not malpractice in the emergency room," said Tom Smith, state director of Public Citizen.

Rep. Al Granoff, D-Dallas, unsuccessfully sponsored an amendment to the bill that dramatically emphasized his concerns.

The amendment would have required hospitals to post this notice: "You have the right to know that if your physical condition is serious enough to require our immediate medical attention to protect your health, we cannot be legally held responsible for any damages you (or in the event of your death, your survivors) sustain if we negligently injure or kill you.'

Milestone victory passes by quietly

By BILL McCLELLAN

It was this past Tuesday afternoon when something maybe I was anticipating the Tigers' baseball game with Lake View later that evening jogged my memory that No. 250 had to be near. If it hadn't already gone by.

It had, of course. It slipped past unceremoniously.

Somebody should have said something, done something.

Somebody should have made a speech. Sent up some balloons. Awarded a plaque. Anything. Somebody should have.

The man who could have didn't. But it would have been out of character for Albert Lewis. He wouldn't have mentioned that when the Tigers defeated Brownfield 9-8 on Saturday, March 18, 1989 in the semifinals of the Snyder Tournament - with that win

he recorded his 250th career

"I don't worry about things like that. I'll leave that to somebody else," he once told

I wish you had worried about it, Albert. I wish my memory had jogged a little faster.

Two hundred and fifty wins is a lot of wins, folks. It represents a lot of smiles, some tears and one whole heck of a lot of hard work and desire. It also represents suc-

Lewis' record - his current record - is 257 wins, 114 losses and 3 ties. That's a .689 winn-

ing percentage; almost 70 percent. Show me a baseball coach anywhere who wouldn't settle for winning seven out of every 10 games.

Lewis has won nine district championships and a truckload of playoff games in his 12-plus years as varsity baseball coach at Snyder High School. He's taken teams to state three times and his 1983 team can lay claim to being the best Class 4A squad in Texas when the bats and balls were finally laid to rest in

What a proud day it was for Albert Lewis, Snyder and Snyder High School.

Snyder can be thankful for Albert Lewis. Thankful for more than the 257 wins, more than a state championship. Albert Lewis represents the education of a lot of Snyder's

sons, both on the field and off. A modest man who had to endure the outrage of segregation in his early coaching years and of reluctant acceptance afterward, he has proven that he is among the best in his profession. His record shows it.

Together, Albert Lewis and James (Speedy) Moffett whose name deservedly graces Moffett Field, home of the Tigers - have put together

a baseball dynasty that few if any other schools in the state of Texas have enjoyed for so long. Since 1949, Snyder has a baseball record of 731 wins, 389 losses and five ties (.650). The Tigers have won district or served as co-champions 25 times and have advanced to state seven times.

Two-hundred and fifty-seven and counting.

Someday Albert, they'll be placing your name over the entrance to a ball field or fieldhouse in Snyder. In the meantime, maybe somebody will see to it that win No. 300 doesn't slip by without notice.

Tigers entertain Monahans tonight

Coach Albert Lewis brings his Monahans Loboes.

Game time is 7 p.m.

Snyder goes into the contest Fort Stockton and Big Spring for the district lead. All three squads sport 7-3 loop records.

Monahans, at 5-5, is one of six teams still in the hunt for a postseason playoff berth. The Loboes bring a season mark of 11-8 into the game.

In the only other 4-4A clash today, Andrews is at Sweetwater. Saturday, Pecos treks to San Angelo to play Lake View and Big

Spring is at Fort Stockton. Mark Kuss, getting only his secolla district start of the season, will lead off the batting order for

Snyder tonight and play left field. Kuss is two-for-four in district play. He'll be followed by Randy Morris at third base, Tommy Lane at center field and John Wright as the designated hitter. Tracy Odom will catch and bat fifth, followed by short stop Bert Otto, first baseman Toby Goodwin, right fielder Bert Merritt and second-sacker Jason West.

Wright will be batting for Lee Fletcher, who will mount the hill for the Tigers. Fletcher comes in with a record of 7-4 for the season; 3-2 in district play. The senior right hander has a district

Peters tries to set record

this evening

BRENHAM, Texas (AP) - Tim Moore's national record of 50 consecutive victories as a high school pitcher from 1977-80 is just now being submitted to the National Federation of State High School Association.

But after Brenham's Jon Peters pitches tonight against A&M Consolidated, it may be only good enough for second place.

Peters tied Moore's record last Friday with a 3-1 victory over Katy Taylor and will have Moore's support when he goes for the

"I hope Jon gets it, I wish him all the luck in the world," Moore said. "I didn't get much recognition for it until last year. I'm sorry it came at Jon's expense."

Moore, now 27 and a management trainee at Carolina Freight Centers in Kings Mountain, N.C., will be in the stands at I iremen 3 Field tonight.

Moore didn't know his record was a national mark until last year when stories started appearing about Peters setting the national record of 34 straight victories. The National Federation of

State High School Associations listed the national record at 33 victories by Mike Pill of West Covina, Calif.

But a Sports Illustrated story enlightened Moore of the record he'd set eight years earlier.

"I really didn't know anything about it," Moore said. "Then I got a phone call one night and a guy told me about the Peters

"I didn't know what he was talking about. I looked through Faces in the Crowd. Then I saw the story and I thought 'Oh, Lord." Moore's first reaction was to

remain quiet and allow Peters to keep the record.

"I didn't want to say anything, I was going to keep quiet," Moore said. "I'd have hated for that to have been me and then someone come along and say 'you don't have the record."

But Moore's 50 victories were listed in the North Carolina state record book and soon the word was out.

Peters was 13-0 as a freshman, 15-0 as a sophomore and 14-0 as a junior, leading Brenham to state Class 4A titles each year.

He has four no-hitters, including back to back hitless victories this season.

He's 8-0 going into Friday night's game with 88 strikeouts and five earned runs in 51 innings. His earned run average is

SEATTLE (AP) - Seattle in the Seattle Coliseum. SuperSonics Coach Bernie The Sonics, 47-35, Bickerstaff says his players are prepared for any surprises the Houston Rockets throw at them, even surprises on defense.

"I would think if you've done something successfully over a period of time, that you probably would stick with it," Bickerstaff said Thursday. "You could conceivably add a few wrinkles to it, however.

They have been doing a pretty good job defensively, but you'll see most teams during the playoffs that have their defense play a simpler game because of familiarity. They get to the spots that you're going to. So it's about execution.'

The Sonics, who won eight of their last nine regular-season games after Xavier McDaniel was moved into the starting lineup, are favored to beat the Rockets in the teams' opening round playoff series.

In November of 1986, two classes, the first defined as all Mexican-Americans eligi ble to presently or in the future vote in elections for trustees to the Snyder Independent School District, and the second defined as all blacks eligible to presently or in the future vote in the elections for trustees to the

Snyder Independent School District, were certified by the court in Malone, et al v. Snyder Independent School District, et al, Civil Action No. Ca-5-85-259, pending in the United States District

Court for the Northern District of Texas, Lubbock Division. After lengthy negotiation, the parties to the above referenced lawsuit reached a settlement which was approved by the Court on

October 15, 1987. Under the agreement, a new method of electing trustees to the Snyder Independent School District was adopted. Four of the seven trustees were to be elected from single-member districts and the remaining three were to be elected atlarge. Subsequently, and in accordance with the terms of the settlement agreement, a fifth single-member district was created to replace one of the at-large spots. By doing this, the trustee, Mr. Ygnacio Benitez, Jr., who was originally elected to singlemember district one was placed in single-member district four. At his request, and believing that he should be allowed to represent those who elected him, the school board for the Snyder Independent School District voted to change the boundaries of the new singlemember district one to include this trustee's residence as well as other surrounding property. No other changes

were made. Because the court was required to approve the original settlement agreement, it must also review proposed amendments to that agreement. A hearing will be held on the 24th day of May, 1989, in the United States District Courtroom for the Northern District of Texas, Lubbock Division, at 1:30 o'clock p.m. at which time the court will consider the amendment. Members of the above defin-

ed classes will be given opportunity to object to the change. Their objections must be written and filed with the Honorable Halbert O. Woodward, Judge, United States District Court, Room C-210, Federal Building, 1205 Texas Avenue, Lubbock, Texas 79401, Mr. Rolando L. Rios, Attorney for the Classes, 201 N. St. Mary's Street, Suite 521, San Antonio, Texas 78205, and Mr. Brian P. Quinn, Attorney for the Snyder Independent School District, 1722 Broadway, Lubbock, Texas 79401. All objections must be received by the court, Mr. Rios, and Mr. Quinn no later than the 17th day of May, 1989.

Since the court may wish to hold a hearing on any objection, anyone filing one must appear at the Federal Courthouse in Lubbock on May 24, 1989, at 1:30 p.m. and be prepared to present his contentions in open court. If he does not, the objection will be waived.

"What we're saying is, If you're going to do big-boy crime, you're going to big-boy time," Rep. Chuck Douglas, R-N.H., said at a news conference Thursday in which he called for harsher penalties for violent juvenile offenders.

Douglas, a former state ed by members of the Republican Research Committee Task Force on Crime to discuss how the attack April 19 in Central Park highlights the need for changing the juvenile justice system.

I can tell you that we have a juvenile justice system that is modeled basically for the middle class," Douglas said. "The children of folks like us, the children of the middle class who may get into trouble with shoplifting at a young age, they may throw a rock through a window, that's where the javenile justice system works.

But the system does not work, Local man and it's no deterrent, and it's no protection and shouldn't be for still critical the kinds of kids who did what happened in Central Park."

Watkins delaying restart of Savannah River reactors

Energy Secretary James Watkins says he is delaying the restart of government reactors that produce a scarce gas used to make nuclear weapons because safety problems have not been fully assessed.

The energy secretary disclosed on Thursday that he has pushed back the timetable for restarting the department's three Savannah River nuclear reactors in South Carolina, which are the nation's only source of tritium gas used in

warheads. Watkins also said, without revealing details, that the Energy Department soon will unveil soon a "new approach" to building the nation's first perma-

As part of the proposal, both TDC or Cogdell would have the right to review and renegotiate the "capitation amount" after the first six months.

Moscow mayor:...

Soviets pessimistic about their future

growing increasingly pessimistic about their future, the mayor of Moscow told President Mikhail Gorbachev during a meeting of the Communist Party's policy-

making Central Committee. Many Soviets believe the party has failed to lead society and have lost faith in their leaders, Mayor Valery T. Saikin told Gorbachev during an unprecedented closed-door exchange Tuesday. Excerpts from the meeting were published Thursday in Pravda, the party's official newspaper.

Officials said one reason for the loss of faith has been that Gorbachev's 4-year-old restructuring program of perestroika has failed to solve many of the country's problems.

Gorbachev, in closing remarks at the meeting Tuesday, agreed perestroika was going poorly and was worsening shortages of housing, consumer goods and food. But, the 58-year-old leader said, people still have faith in the par-

"I do not agree with extreme judgments that the party is nearly losing its position in the country or that it has turned into a debating society and so on," Gorbachev said.

Remarks at Central Committee meetings generally are kept secret, and the publication of seven pages of 20 critical speeches appeared to be an effort to show the people the leadership as heard their complaints.

The officials were told their failures had led to embarrassing defeats in parliamentary elections and that the 20 millionmember party is in danger of losing its hold on the Soviet people.

"The people feel uncomfortable, alarmed, have lost their optimism," said Saikin, who lost in the March 26 elections. "Various generations of people, separate social layers and even regions are quarreling among themselves.

The Communist Party views one of its primary goals as leading society.

But Saikin said party organizations "have lost their vanguard role" because people have lost confidence in the party.

Gorbachev gained strength to push for more extreme action at Tuesday's meeting, when 74 of the Central Committee's 301 members retired.

Because of age, illness or political disgrace, those who stepped down had lost the top government or party job that entitled them to membership. The

Thursday. Among them was Geidar A. Aliev, the 65-year-old former party chief in Azerbaijan and a close associate of former President

Leonid I. Brezhnev. News reports have accused Aliev of corruption and falsifying records to show he was a war veteran. But Aliev told the Central Committee the accusations were untrue and came from people he had fired in Azerbaijan for wrongdoing.

Approximately three dozen party officials lost their bids for seats in the 2,250-seat parliament, or Congress of People's Deputies.

Vladimir I. Melnikov, the party chief of the Komi region, told the committee that many officials are so afraid of the people's wrath that they are refusing to run in the next round of elections on May 14.

"We are losing the workers," he said. The country is "in a real crisis" that Gorbachev is not fully aware of because the Central Committee staff is "safeguarding the general secretary from the severity of the situation."

Because of the failures of perestroika, "the authority of the party is falling in the eyes of the public," said Ivan K. Polozkov, a party leader in the Krasnodar region of southern Russia.

Zoo expansion, RR threaten park rides

FORT WORTH, Texas (AP) — A menagerie including rhinos, giraffes and even a giant Tarantula threaten a Ferris wheel, merry-go-round and amusement park train.

The familiar amusement rides years old," said Hames. at Forest Park are in winter 1922, victims of a holdup at City

"The longer they delay it, the more it hurts," Raymond ago. Hames, president of Forest Park Rides Inc., said.

Miniature trains that delighted youngsters in the park just west of downtown since 1959 are now sidetracked, covered with plastic and parked along the river bank.

New rhino and giraffe habitats forced the amusement park from its longtime zoo location last fall. Hames received approval to relocate the rides to the island a 7.9-acre clearing separated from the rest of the park by a bend in the Trinity River.

But the island is in the path of two proposed routes of the Tarantula, a multimillion-dollar excursion line. With City Council approval, the railroad will transport visitors to tourist attractions around town via antique steam engines and reproduction passenger cars.

Hames says he is waiting to relocate until the Tarantula Railroad route is decided. Relocation of his rides could cost \$200,000 because water, sewer and electrical lines would have to be installed and dirt added to raise the property's elevation to above river level.

"It's somewhat of a gamble," he told the Fort Worth Star-Telegram. "We need to see about the (Tarantula) train. Maybe it will all pan out. Maybe it will be compatible with the rides. I'm just going to have to bide my

Not all uncertainty eliminated

WASHINGTÓN (AP) — The 1990 budget compromise worked out between the Bush administration and Congress earlier this month has eased some of the pressure for cutting farm subsidies but the turmoil is far from

Congress still has a way to go before settling on a spending package for the fiscal year that will begin Oct. 1, and Agriculture Department budget experts say farm programs still are expected to be pared.

The compromise reached two weeks ago calls for \$2.4 billion to be whittled from agriculture functions that are covered in the federal budget, says Robert E. Sherman, deputy director of USDA's budget office.

Initially, he said Thursday in an interview, the Reagan and Bush budget proposals were identical, calling for a \$2.9 billion cut in fiscal 1990 for agriculturerelated programs.

The major target in the original Reagan-Bush budget proposals was the package of farm programs operated by the department's Commodity Credit Corp., a variety of price and income support mechanisms that soared to record spending levels during the 1980s.

The CCC cuts alone would total \$1.9 billion. To help Bush show less of a deficit on paper, part of that is to be accomplished administratively by paying about \$800 million in advance "deficiency" payments to farmers early, so they show up on this year's budget rather than in the 1990 budget.

Bush announced the early payments on April 18, pointing out that the move would "provide some extra money to farmers" as they head for the fields this

Although Bush did not mention that the move also would help reduce his 1990 budget deficit figure, the early payments had long been planned — in both the initial Bush and Reagan budget proposals - as a way to save money next fiscal year.

But that still left \$1.1 billion to be cut from the CCC operations if the 1990 reduction goal of \$1.9 billion for CCC was to be met.

She and her husband were just sitting down to play a hand or two of cards when the phone rang with the good news. "Oh, my gosh!" was her initial reaction. And when we asked her how she might spend the money, she said, "I've always wanted to go to Hawaii."

Rose was one of a quarter of a million Furr's shoppers from cities and towns all across West Texas and Eastern New Mexico who entered the Hidden Treasure Grand Prize Drawing. She collected three sets of Bag O' Gold letters and her winning entry was dated March 19. Congratulations, Rose! And all of us at Furr's hope you enjoy that trip to Hawaii!
