STANTON, MARTIN COUNTY, TEXAS FRIDAY, OCTOBER 6, 1933

NUMBER TWO

THE kids are back to school again and we know just how they feel. We still have a vivid remembrance of the days when we crawled out of bed at the last minute, bolted our breakfast in a few gulps, loped off to school and barely slipped into the class room under the wire.

We can understand just how the pages of the school books become blurred to the youthful eye, how the impatient arm yearns to hurl them out of the window, and what an eternity of time passes between the opening of school in the morning and the noon hour.

We sympathize with the kids today, but we'll be mighty proud of them in later years when they are the leaders of thought and nation.

Then, that old pipe steam, we used to shoot paper wads through to the ceiling, and occasionally land a wad behind the ear of a boy several seats away while the teacher's back was turned. And how we would pass a note along to our sweetheart, only to have the teacher to spy the transaction and make us stand up in the corner before the rest of the school kids.

But we believe the worst treatment meted out to us in all our school days was to have as a seat mate a boy who ate onions, never combed his hair nor washed his hands. Yet he was the smartest one in the class. What surprise it was to us when back home on a visit several years afterwards we met this young man and he was a congressman, who had made a brilliant lawyer and statesman. So boys and girls, you never can tell what your seat mate at school is liable to make who eats onions and never washes his hands. Sanitary conditions didn't prevail then as now. Boys came to school then with the measles and bugs in their hair, and the seven-year-itch was common, yet we all seemed to live over it. Now there is a serum for everything that will prevent these diseases.

But what about the teacher then and now. Then there wasn't so many of them, and taxes were paid in a sufficient amount to pay their wages for each month's work. They ruled the student body with a birch limb or a 12-inch ruler. The limb was applied to the back while the ruler slapped the inside of a bare hand. Sometimes a stove-poker was used on the head of a bully. But all that's different today. More and better advantages for an education are offered today, and we don't know but it's more essential to success today that the young man or woman have a good education. Equip yourselves boys and girls to battle the problems of the day by securing a rounded education.

THE jury in the Urshell kidnaping case has returned a verdict of guilty. The federal judge will set the sentence on the convicted, Saturday. The country is waiting in suspense as to the length of terms in prison that the judge will mete out. It is generally conceded the sentence will be for life as it should be.

The federal government, coupled with Dallas detectives, has made rapid and effective work in capturing the kidnaping gang. It is determined to whip out the gangsters. All agree that is an undertaking of gigantic proportions as the underworld has been allowed to get an almost strangle hold on the country. It had reached the point that no man of wealth or any member of his family, was safe from being overpowered and abducted from his own home and hauled to some secluded spot by gangsters and held for ransom.

To Urshell, the rich oil man kidnaped, goes much credit for running down the kidnapers. His keeping a tab on the movements and the conversation among the abductors and their hirelings he was able to give out valuable information to the officers, that in the main, led to their capture. The information was gained while Urshell was manacled and blindfolded and watched over by aides of the kidnapers with guns ready to shoot.

T&P LOW RATE TO DALLAS FAIR

Round trip rail rates believed to be the lowest in years have been announced for the State Fair season by Frank Jensen, General Passenger Agent of the Texas and Pacific Railway. To encourage attendance at the Fair from throughout the section, railway officials have set a round trip rate of \$7.00 for trains arriving in Dallas each Saturday during the Fair and before 3:30 p. m., Sunday. These tickets are limited to leave Dallas before midnight the following Monday.

Season limit tickets at slightly higher rates are on sale daily from October 5th to 20th inclusive permitting the traveler to visit the State Fair at any time and leave Dallas on return trip up to midnight of Wednesday, October 25th.

In addition to week-end and season rate, Mr. Jensen announces a special excursion to permit attendance at the attractions October 19, when Vice President Garner and Postmaster General Farley, will speak at the State Fair. The inaugural legal fall race meet at Arlington Downs will rate of one cent per mile will be effective for all Texas and Pacific trains open on this date also. A round trip arriving in Dallas Thursday, October 19th. Travelers on these tickets must leave Dallas not later than Sunday, October 22nd.

WOLCOTT COMMUNITY WORKER'S CLUB MEETS

The Wolcott Community Worker's club met at the home of Mrs. W. M. Connolly, Sept. 28. A very pleasant afternoon was spent quilting.

This club was organized recently to afford more social life for the community, to help each other with extra tasks, to exchange new ideas and to carry on the work Miss Myrtle Miller, demonstration agent, has started.

The next meeting will be at the home of Mrs. J. P. Eppler, October 12, at 2 p. m.

Refreshments were served to the following: Mrs. Otto Bearden, W. T. Brewer, Homan Fulkerson, Melvin Graves, G. B. Menton, A. C. McDaniels, Ellis Everetts, J. P. Eppler, R. H. Knox and the hostess.

Leslie Hall is at Texas Tech doing post graduate work in the laboratory there. He received his degree from that school in June.

THE cold norther of Monday found many stanton citizens clothed in their thin summer wearing apparel. The more noticeable of the articles of very seedy and much out of place in the brisk norther. The unfortunate wear was the straw hat that looked thing about the matter was that this columnist was one of the guys that stood out so conspicuous in wearing a jaded and much faded straw.

But the most important matter the norther brought along to solve was the weighty problem of how we were to make it through the winter now rapidly approaching. There is one project under way that is providing work for a good many of Martin county unemployed. That is the Lamesa road leading north out of Stanton. It is hoped that other projects can be landed so that relief work to the unemployed will continue through the winter and early spring.

ABOUT the most heartening word that has come out of the recovery effort so far is the proposal of the Washington authorities to have blue eagle firms in the several cities and communities establish mortgage loan companies for the purpose of making necessary loans to their own local firms, this money to be advanced for the purpose by R. F. C. In this manner firms would be enabled to bear the increased expense of the reconstruction period and carry them along into the era of greater production and increased profit.

As business stands now, it cannot afford to put the unemployed back to work at increased overhead without financial aid, and under present conditions it is the duty of the government to come to the rescue.

The outlook is much brighter because of these new developments.

A PETITION TO PUBLIC SCHOOL TAXPAYERS

OUR PUBLIC SCHOOLS MUST BE SAVED! Calamities may come and calamities may go, but education goes on forever. Our schools have been dropped from the accredited list, the main reason being that of a sub-standard term of school. The short term of school was due to a lack of funds with which to run the schools, and the lack of funds was due to the shortage of tax collections. The school board can not pay out funds which it has not. The business of the board is not to pay the funds but to see that the funds are available for schools. The Stanton Board of Education believes that a perusal of the legitimate expenses of running the budget will reveal that every possible reduction in expenditures has been made. The deputy state superintendent promises approximately \$2000 aid provided the local community collects 75% of the local taxes due the district. With our present low school valuations 75% of the collections would be \$9500. The State available funds for the current year will be, at \$16 per scholastic, \$9440. This, with \$2000 aid, will indicate considerably better support from the State than from the local community. Stanton has not been in the habit of permitting the State to be more concerned about the education of our children than we are ourselves. We, the Board of Education, wish, therefore, to petition the taxpayers of the Stanton Independent School District to do the following things in the interest of our children:

1. PAY YOUR SCHOOL TAXES FIRST. You have been exempt from \$3000 state taxes, and besides the State has many means of securing her revenue. She has access to income tax, poll tax, occupation tax, oil tax, gas tax, automobile tax, inheritance tax, sulphur tax, sales tax, and perhaps others. The local school has access to only the real estate tax.

2. PAY YOUR TAXES NOW OR IMMEDIATELY AFTER OCTOBER 1. The school board has borrowed funds with which to pay the first month's salaries of teachers and employees. Interest has to be paid on these funds and just that much has to be paid for in the final analysis from tax money. The sooner you pay the less interest we will have to pay. All school employees are due their salaries at the end of each month.

GLASSCOCK TEACHERS ASSOCIATION

The first social meeting of the Glasscock County Teachers' Association, was held at Garden City, Friday night Sept. 29. Every teacher in the county and every trustee with their wives, were present. A delicious meal was served. The menu consisted of:

- Fish Salad
- Baked Stuffed Potatoes
- Clover Leaf Rolls
- Butter Cubes
- Prune Conserve
- Olives
- Pickles
- Ambrosia
- Coffee
- Cream
- Sugar

The teachers then elected officers for the Interscholastic League work, as follows:

Director General, N. P. Taylor of Garden City; Director of Declamation, Miss Denman, Garden City; Director of Debate, Miss Dickerson, Garden City; Director of Essay, Mrs. Greenwood, Fairview; Spelling, Mrs. C. C. Tippie, Lucian Wells; Three R., Dan McRae, Panther Draw; Picture Memory, Mrs. Smithson, Line; Story Telling, Miss Wadell, Garden City; Fairview.

Director of Athletics, Mr. Greenwood. The trustees and their wives were then invited to enjoy a round of games with the teachers.

The next meeting will be held at Lucian Wells, November 3, where Mrs. C. C. Tippie and Miss Olera Smith are teaching.

DISTRICT COURT RESUMED

District court resumed its grind in Big Spring this week, entering into the disposal of criminal cases. Judge Chas. Klapproth is presiding and the prosecution is represented by the newly appointed district attorney, Bob Hamilton.

Too, all salaries have been reduced around 20 per cent from last year and living expenses are up about 15 per cent. The need of regular payment is, thus, apparent.

3. It is the opinion of the Board that considerable delinquent taxes could be paid, and we wish to insist on such payment at once. We have been entirely too lenient in this matter, but conditions now facing our schools makes it vitally necessary that delinquent taxes be paid, particularly by those who have or can get the funds for such payment. Dallas, Sweetwater, Abilene, and Paris, are now suing all delinquent tax payers, because it is not in accordance with the New Deal to permit taxes to go delinquent when it is highly probable that much of the same is simply by default rather than by inability. It is the desire of the Board, however, to give each delinquent tax payer, the opportunity to pay these taxes due the Stanton Independent School District, without coercion. It will be a sacrifice, in many instances, but our schools must be saved, so pay your delinquent taxes. Indebtedness has been made against these taxes. It must be paid!

4. We wish to urge that you not only pay your own taxes but that you use your influence in urging others to do likewise. No matter how small the amount may be, it will help in these times of such school distress. Try to be first, not last.

5. The serially numbered voucher system has been set up for the payment of school employees, but no system will work unless funds are available for carrying on the work of the schools. And it will always be easy to adversely criticize the Board when there exists a cramped condition in the treasury. Help overcome the helpless condition of the financial situation and there will be much less room for criticism.

Signed:

- JOHN POE, President
- W. C. HOUSTON, Sec'y.

MARTIN COUNTY STOCKING UP WITH MANY HEAD SHEEP

The sheep industry in Martin county is assuming considerable proportions this summer. A very few years ago all the sheep in Martin county could have been counted on the fingers of one hand, possibly, the count of the thumbs on both hands would have sufficed for the number in the county, but at present many thousands of them are finding homes in this county.

John Poe reports that he has purchased a 1,000 head, while John Cox and Sam Wilkinson have purchased a number as well as Horace Blocker and Sheriff Milt Yater.

Earl Powell, of the Bar X ranch, has recently added 400 head of sheep, giving him approximately 3300 head. This week he is receiving 1200 head, who, with Add Neal, of Glasscock, will share in the deal. The herd left Glasscock county Monday for the Bar X ranch. This flock will be cared for by a herder.

THEATER PARTY AT MIDLAND

Mr. and Mrs. Edd Wilkinson, Mr. and Mrs. Earl Powell, Mr. and Mrs. J. E. Kelly, Mr. and Mrs. Robert Hamilton and their guest, Mr. Orth of Odessa, formed a line party at the Yucca in Midland for the midnight show Saturday night.

The party had been entertained at supper by Mr. and Mrs. Wilkinson.

District Attorney Bob Hamilton and Dr. J. E. Moffett, spent the greater part of last week at Pecos where they had business before the federal court.

Mrs. Allison Tom and children of Andrews county, were the guests last week of her parents, Mr. and Mrs. J. H. Zimmerman.

Sensation Of Game

This is Woodrow Wilson, flashy backfield man of the Texas College of Mines who was the sensation of the tilt between the El Paso team and the University of Texas gridders at Austin last Saturday. He ran back a kick-off 85 yards to score the Miner's lone touchdown.

Wilson is a graduate of the Stanton high school, a student that graded "A" in his studies during his attendance at school here. He was a member of the Stanton Buffalo squad, receiving his early training under Rufus Hyde, the present coach of the local school.

Saturday of this week the Miners and S. M. U. Mustangs clash at Dallas, and it is expected that more will be heard from him in this game.

The sensational play by Wilson at Austin, was an 85-yard return of a kickoff, in the third quarter. Behind good interference he weaved his way through the entire Texas team and sprinted across the goal line.

Courtney School To Open October 16th

To the People of Courtney:

The time is here when we must begin our plans for another term of school. It is to be hoped that regardless the discouragement we have had this year, everybody will forget as near as possible those things and put forth every effort to make this term successful.

School will open Monday, October 16. I know many pupils are away from home picking cotton; but let's all return home by the 16th and enroll.

We must have 70% of our scholastic enrollment from the beginning of school to entitle us to state aid on buses and teachers salaries.

We have many new regulations made by the State Board that affects our school, so let's be there the first morning.

I shall try to have present some good school men to talk for us.

Come, bring new determinations to put over your school work. Also bring your smiles along, as we want to make this a pleasant as well as profitable school year.

L. H. WHITE, Superintendent

Mr. and Mrs. J. L. Hall were called Monday night to Robert Lee by the serious illness of her father, Mr. McCabe. They left early Tuesday morning. Mr. McCabe has been ill for some time and Mrs. Hall has spent a large part of the time at his bedside.

Junior Yates and Gene Parks, accompanied by Miss Margaret Parks, of Midland, were at the midnight preview at the Yucca theater at Midland, Saturday night.

Portions of Glasscock County Is Very Dry

Ranchmen To Suffer Severely Unless County Gets Rain Soon.

In company with Earl Powell of the Bar X ranch, John McWhorter and Felix Cox, the writer made a trip Sunday down in the Garden City sector. Garden City is the county seat of a county that doesn't owe any individual or corporation a thin dime, and pays its debts as it makes them. In other words, they plunk the dollar down on the barrel head when they buy a dollar purchase. The schools, according to a recent statement of Supt. J. P. Jamison, are operating on a cash basis. The Garden City high has eighteen and one-half affiliated credits. All teachers in the county except four hold degrees from recognized colleges. The county board is planning a gymnasium for the Garden City school, the gymnasium will be used for the accommodations of the schools in the entire county. All schools in the county will run the full nine months.

The total crop value of Glasscock county is estimated at \$194,327, while that of the livestock industry is valued \$1,093,500. Miles upon miles of ranch lands are visible to the naked eye. Rolling prairies, with but few native mesquite trees.

There is an unfortunate condition prevailing in the Glasscock country from Garden City south. A drought is on in its very worst form, and if rain does not fall within the next few days the ranchmen will suffer severely.

The writer, Messrs. Powell and McWhorter visited the ranch of John Barry, 12 miles south of Garden City. As customary with true western hospitality, Mr. Barry invited us to dinner, and such a dinner, lots of good things to eat and plenty of it.

Mr. Barry has been in the ranching game on the same place for thirty years, and the unfortunate side of his ranching experience this year is that he is right in the drought stricken section, the worst he has experienced in the thirty years.

Mrs. Berry is a sister of Mrs. J. H. Zimmerman of the Stanton Hotel.

GULF REFINING COMPANY'S NEW STATION NOW OPEN

Of course, you have heard that old story of how proud the boy was with his first pair of red top boots—well—that's just how proud Johnny Whitson is of the new Gulf filling station on the new highway. Johnnie is the agent, ably assisted by Ladd Law.

The new station on Front street, which was erected according to specifications of the Gulf Refining Co. by Messrs. E. Price and Jim Tom, opened last Friday for business with Johnnie Whitson as manager and Ladd Law, assisting.

Johnnie Whitson needs no introduction to the people of Stanton and Martin county, having been associated with his brother Willis in the operation of the Gulf Station, located on the old highway.

The new Gulf station will compare equally with the most modern in West Texas, and with Mr. Whitson's pleasing personality and his excellent salesmanship, fits in admirably with the modernness of the new Gulf plant in Stanton.

JEFF DAVIS RETURNS HOME MUCH IMPROVED

Jeff Davis has returned home from a hospital at Arlington and is very much improved. While it will be necessary for him to use his crutches for awhile, he has laid aside the brace he wore. He is recuperating from a fracture of the leg received while working in a gin last fall.

TO THOSE WHO LIKE TO READ

The Friendship class of the Methodist Sunday School is now taking subscriptions to the Holland's magazine, Texas' own publication. To all who are now subscribers and their subscription is almost expired, their wish to renew for them. Anyone wishing to become a new subscriber will please see any member of the class.

This is a method of making money to carry on the outside work of the class, and every subscription or renewal will be highly appreciated.

BUFFALO BELLOWS
LLOYD BREWER, EDITOR
AN APPRECIATION

A standard elementary school should have a minimum of \$25 worth of library books for each room. Since our elementary school was far below the minimum in this respect, the Parent Teachers Association hit upon the idea of having the elementary rooms search among the homes and ask for donations of books that would be suitable for this purpose.

The superintendent desires to express sincere appreciation to the students, parents, and teachers for this unusual gift to the schools, and with this type of co-operation continuing the Stanton Schools should soon find themselves back on the accredited list of schools of the State. We can not be satisfied until this task has been completed.

Signed: A. M. LIMMER, Supt. HOME ECONOMICS

The sophomore girls in Home Economics are studying "dinners." Last Wednesday they planned a dinner which they prepared and served Thursday. The girls drew for the duties such as host, hostess, maids, and other members of a family of six. The menu was:

- Fried chicken
String beans
Hot rolls
Ice cream
Corn
Butter
Fruit salad
Cake
Tea

The girls of the second year class are: Merle Houston, Dorothy Hamilton, Beth Houston, Tommy Shelburne, Maxine Smith, Lowene Swain, Jeanette Thornton, Louise Whitson, Clema McClane, and Corrine Wilson.

GRAMMAR GRADE GLEANINGS
The library enlargement campaign closed Wednesday, Sept. 27, with a total of 687 books and magazines. The seventh grade won the contest brought in by the different grades, having collected 254 books, while the sixth grade was a close second, with more than 200 to their credit.

Sixth and Seventh Grade Have Picnic
At 12 o'clock Friday afternoon the seventh grade with their guests, the sixth grade, were seen leaving the school building in trucks and automobiles. The purpose of their departure was to have a picnic which was their reward for winning the book contest.

COMMISSIONERS COURT SETS TAX LEVY

Table with 2 columns: Fund Name and Amount. Total: 72

Table with 2 columns: School District Name and Amount. Total: 1.00

Levy of occupation tax 1/2 of the amount levied for the State.

The court ordered that \$500 be transferred from the Road and Bridge Special Fund to the General County Fund.

Martin To Maintain Road
Agreement by Martin county and the State Highway Department that Martin county shall and will maintain after the completion of a 10-mile feeder road by the Highway Department from Stanton to a point 10 miles north, known as the Lamesa road.

The agreement reads: The Political Subdivision, State of Texas, hereinafter referred to as Martin County and the State Highway Department, hereinafter referred to as the State Highway Department, hereby agree as follows:

1. That the Highway Department will submit a project for the improvement of 10 miles of the feeder road highway from Stanton to a point 10 miles north, known as the Lamesa road, and to be designated as N. R. S. Project No. —, and will recommend its approval by the Secretary of Agriculture for construction with funds apportioned to the State under section 204 of the National Industrial Recondition Act; subject, however, to the improvement.

2. That the said Martin county, hereby requests the Highway Department to submit the aforementioned project with the recommendation that it be approved by the Secretary of Agriculture, and agrees that if such project is approved and constructed by the Highway Department it thereafter, at its own cost and expense, will maintain the project in a manner satisfactory to them, or their authorized representatives, and will make ample provisions each year for such maintenance.

Hall and Miss Lila Faye Everett were their sponsors, and everyone reported a good time, with plenty of good things to eat.

Physical Education Program In Full Swing
The physical education program, under the direction of Miss Robertson, is proving to be an interesting and enjoyable period of physical activity.

Everyone for Stanton Elementary School
The Junior class held a meeting Friday and elected Mrs. H. A. Houston as room mother. Wayne Vaughn offered his resignation as class reporter and Leta Ruth Eidson was elected to fill his place.

GOOD CROPS ON FLOWERS PLACE
C. Flowers, who farms across the line in Midland county was in town Robertson as sponsor, met on Wednesday morning. He just recently rented the farm belonging to Ocie Phillips of Big Spring and joining the one on which he has been living for four years.

Mr. Flowers hasn't gotten as much rain as some but being a wide awake farmer planted at the right time and has good crops both feed and cotton. He does his trading and ginning in Stanton.

BEST CROPS IN YEARS
B. T. Wells of Plainview, a nephew of Mrs. A. J. Graham, is the guest in her home for a few days. On his return home he will be accompanied by Mrs. Mary Boyd, who is also visiting Mrs. Graham.

Mr. Wells reports the best crops in years in his section, and is enjoying good business in his general merchandise store at Finney Switch, a small settlement in the Plainview area.

Mrs. Graham has been fortunate this year in having good rains on her farm west of town and while they failed to get in on the plowup cotton campaign, it looks like their feed and cotton will bring them out in good shape.

Earl Ray, representing a cattle commission concern, was here Tuesday from Midland in the interest of his company. Mr. Ray is the son of Virgil Ray, who, recently died from injuries in an auto accident. The father was very prominent among the cattlemen as one of the best barbecuers of beef.

V. A. Bell and wife of Ponomo, California, a section foreman for 30 years visited his mother Mattie C. Bell and brother Joe Bell and family last week.

WIN AT TRI-STATE FAIR

Making four entries and winning four prizes is the record made by Mrs. Henry Ringhoffer Courtney home demonstration member.

- The prizes were: First, plain pillow case. Second, dresser scarf. Third, towel. Fourth, decorated pillow case. Mrs. Ringhoffer was second in awards in the clothing department, Mrs. J. L. Smith of Wheeler county, winning first.

TWO CLUBS MEET

Last Friday night Sept. 29, the two clubs of the O. L. M. Academy had a

social and an old time dance, as they formerly had when they had a large number of pupils, in the recreation room. Luncheon was served after the dance, which consisted of sandwiches, potato chips, pickles, banana boats, cake and lemonade.

The members present were: Mrs. Maimie Tom, Velma Nichols, Winifred Deaven port, Chloe Lewis, Margaret Straub, Elva Russell, Peggy Henderson, Bonita Stroud, Johnnie B. Collier, Jessie Mae Wells. All had a very enjoyable time.—Reporter.

Mrs. A. Petty and daughter, Mrs. Hattie Berry and children Wilma Jean and Harold of Westbrook, visited over the week end with Mr. and Mrs. Joe Bell and family.

BANKERS PREPARE FARM FINANCE BOOK

Tells Bankers and Farmers What to Consider in Making Sound Loans

A book on "Making Farm Investments Safe" has been prepared by the Agricultural Commission of the American Bankers Association, summarizing material published by it during the past ten years. It presents a compendium of scientific facts, practice and experience in farming, with timely and helpful suggestions to serve as a reference and guide in the daily routine of banking and farming. From it practical workers in these fields can obtain an idea as to what extent and in what manner farm loans should be limited by soil erosion, weeds, plant diseases, rodents and fire hazards, etc.

Another section sets forth the precautions that should be exercised by both the banker and farmer when negotiating loans to increase or improve dairy production, or beef, sheep, swine or poultry production, as well as what factors should be considered in the economic marketing of products and the way efficiency in production affects efficiency in marketing. Many other everyday details of farm life that have a practical financial significance are treated in the book. A particular important section deals with experience with farm leases and another with directed farm credit.

MUCH activity will be noted on the 10-mile stretch on the Lamesa road leading north out of Stanton. Local men and teams are at work grading the road and moving fences to meet the required 100 foot right-of-way exacted by the Highway Department. When this work is completed on the 10 miles of road, it is thought that aid will be forthcoming from the highway department to extend the project on to the Dawson county line. In due course of time it is expected that the road will be hardsurfaced and designated as a state highway.

NOW, if a similar undertaking could be put under way leading south of Stanton to Glasscock county, or even go so far as Garden City, Stanton would then be in a position to get much added trade territory as well as tourist travel.

Dr. O'Connell and family and Mr. Waterkay from Fort Stockton, are visiting the Tank White family. They are old friends of Mrs. Thelma Lauder

RUFUS PARKS, JR. MANAGING NEW STATION

The Magnolia filling station on the highway west of town, has just recently been rebuilt and is now one of the most compact and up-to-date stations to be found anywhere.

Rufus Parks, Jr., who has been with the Ever Ready station at Midland, considered one of the best in West Texas, has taken over the management and will be assisted by his brother, Gene Parks.

Mr. Parks is not new to the business as he has sold Chevrolets, both new and old, as well as looking after repairs on same but has been making a special study of conditions relating to the running of a service station and the many needs of the traveling public.

A pleasing personality will be a big asset to him in this new business venture.

HOW WOMEN CAN WIN MEN AND MEN WIN

The Favor of Other Men Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, distention, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you. But don't take salts, mineral waters, pills, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all. Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. Get at drug stores. Refuse "something just as good", for it may grip, loosen teeth or scald rectum. Ask for Carter's Little Liver Pills by name and get what you ask for. ©1933, C.M.Co.

START FIRST VISIT RESULTED IN AUTOMOBILE WRECK

Mr. and Mrs. Bill Wilkinson and little son, returned to their home Tuesday morning in Dallas after spending the week end with his parents, Mr. and Mrs. W. M. Wilkinson.

They started out here on a visit a short time ago and had the misfortune to be in an automobile wreck, at which time the baby sustained a fracture of the leg and Mr. Wilkinson rendered unconscious for a long time. The holiday was spent in the hospital at Abilene instead of visiting the home folks in Stanton as was originally planned for as soon as they were sufficiently recovered they had to return to Dallas.

Mrs. Homer Smith of Canton, is a guest in the homes of her brother J. L. and Morgan Hall. Mrs. Smith has been unfortunate in having a severe case of malaria this summer but hopes to recover in this healthy climate.

Mr. and Mrs. Sam Wilkinson have moved into their cottage in town for the purpose of sending the children to school. Sam is recovering from a tumble from a horse which he received last week. He was trying to act like the Prince of Wales and did a good job of it.

L. H. White and family arrived Monday at Courtney from Mt. Vernon, where they spent the summer. Mr. White is superintendent of the Courtney school and announces that the school will open October 16.

Juniper Yates, who has been visiting for some time in the home of her sister, Mrs. Johnnie Whitson, returned Monday to her home at Texhoma, Okla. She went as far as Big Spring with Mr. and Son Powell, who were enroute to Colorado.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons? The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Not will a mild liquid laxative irritate the kidneys. The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after. The wrong cathartic may keep you constipated as long as you keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious. A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. Member N. R. A.

Announcing The Opening of Gulf's New Filling Station This Station is located on Front Street, facing south on the Broadway of America, the recently completed new highway. Everything about the plant is modern, so arranged as to give the very best and rapid service a modern station can give. Our motto is: "Nothing too good for the customer," and this we give in service and in the quality of goods we sell. There is nothing I can say to introduce myself to the people of Stanton and Martin county. I have been dealing with the public here for a long time, being associated with the Gulf Service Station up to the time I became manager of this new station. I will be glad to have those who know me, and those who don't for that matter, to try me out. I will guarantee courteous treatment and prompt service. Johnnie Whitson, Mgr.

WHAT IS A MINOR ILL

Minor ills are supposed to be those which may cause inconvenience or discomfort but which offer little or no menace to life. But since any little ill may—and sometimes does—lead to more dangerous conditions or complications—who is to say it is a "minor" ill? Evidently a minor ill is simply one which is kept from developing into a major one. That is why you should call your physician promptly whenever illness occurs, regardless of how slighty you may consider it to be.

LET US SERVE YOU WHENEVER MEDICINE IS PRESCRIBED

J. L. HALL, THE DRUGGIST

MERRICK

Mr. and Mrs. H. C. Hayworth and children of Coahoma, visited his brother J. W. Hayworth and family, Sunday.

Miss Alfa Rowland of Big Spring, visited the J. W. Hayworth family, Sunday.

C. E. Story and daughter, Mary Prudie, were Lamess visitors Friday.

Mr. and Mrs. S. F. Goolsby, who are visiting their son, Aron, and his family at Coahoma, were home for a short while Sunday.

Messrs Andrew Pickle, Jesse Merrick and Jordan Johnson, were Big Spring visitors Monday.

Mr. and Mrs. Jordan Johnson entertained the members of the Merrick Sunday school Thursday night with a fruit supper.

Mr. and Mrs. J. Monroe Witten, spent Saturday night in Midland.

C. E. Story and P. W. Malone left Tuesday morning to attend the Lubbock fair.

Mr. and Mrs. L. E. Rose, R. L. Fields and Cecil Griffin, were Stanton and Big Spring visitors Thursday.

Misses Ola and Lois Fields came in Saturday for a visit with their parents Mr. and Mrs. E. L. Fields. They returned to Abilene Monday morning.

Jack Adams, visited in school this past Monday. The enrollment now is 87, since so many have moved away the attendance has fallen off considerably.

STURKMAN FINDS SIMPLE REMEDY FOR SCREW WORMS

J. E. and D. D. Willis were here from Abilene community last Saturday and called at The Standard office to tell of a very effective method of extermination of the screw worm fly, which has been giving stockmen of this section much trouble, not to mention a considerable loss of sheep and stock.

The remedy, recommended by J. E. and D. D. Willis, consists simply of a mixture of the proportion of a teaspoonful of kerosene to a gallon of water. Mr. Willis said that the remedy was first used by a neighbor in the county, and upon the receipt of the remedy, he had lost sight, as the most common name of the insect of the time, and he had lost the deal flies off the surface of the soil and mixture, and the need of leading over.

To get the flies, he had a bucket of water, and he had a bucket of water. The flies have been the most common of a million of the flies, and he had a bucket of water. Mr. Willis believe if more stockmen would adopt this simple method, that the pest could be cleared from Texas in a few days.

When the remedy was first used, Mr. Willis put it out in a bucket. As he, he soon found this method to be some and not as effective as he might wish. Since using a larger container, the results have been gratifying. By using five teaspooonful of the Black Leaf 40 to five gallons of water, sufficient poison is prepared to last about three weeks, as the flies together with evaporation, will consume about a gallon of the mixture per week.

Mr. Willis Saturday was preparing to carry out additional tubs, and will make a determined effort to rid his place, as far as possible, of the pests. He says one big advantage of the remedy is that stock will not bother the dose. Before trying out the remedy, he had at least 50 head of

sheep to his certain knowledge as a result of infestation by the screw worm flies.—Brady Standard.

MOTHER SERIOUSLY ILL

Mrs. E. G. Wolcott, was in Stanton, Monday from her ranch in the northwestern part of the county and reported that her mother, who fell sometime ago and broke her hip, was very ill.

Mrs. B. N. Whittaker, of Haskell, a sister of Mrs. Wolcott, is here to help wait on her mother.

RECEIVE COMP. TICKETS

The editor is in receipt of a complimentary season ticket from Murray H. Fly, superintendent of the Odessa school, entitling the bearer and lady into all athletic and literary events held at the school.

Last season the editor was presented a season ticket from Mr. Fly. Mr. Fly is quick to acknowledge the value of the service of the press, and we bet that every newspaper man in this Interscholastic League district, is the recipient of a pass from Mr. Fly.

We deeply appreciate the courtesies extended to us by the superintendent of the Odessa schools.

been announced from the office of James F. Cox, president. This is the second successive year in which there has been a record enrollment at this institution, Mr. Cox said. Four instructors have been added to the faculty to take care of the increase in enrollment.

Saturday, September 30, with some students still to enroll, the enrollment of the college department had reached 59. One hundred thirteen had entered the elementary and high school departments, making the total enrollment of the institution 622. These students come from twelve

different states: Oklahoma, New Mexico, Arizona, California, Missouri, Ohio, Alabama, Arkansas, Louisiana, Texas, Tennessee, and Kansas.

Among those enrolled from Stanton are: Nola Shelburne, sophomore; Adolie Turner, freshman; J. W. Orr, freshman; Mrs. J. F. Maxey, Tarzan, junior; Dave Foreman, Lenorah, freshman; G. B. Shelburne, Jr., Junior, Stanton.

For Pain Relief In Minutes

Demand And Get

GENUINE BAYER ASPIRIN

Because of a unique process in manufacture, Genuine Bayer Aspirin Tablets are made to disintegrate—or dissolve—INSTANTLY you take them. Thus they start to work instantly. Start "taking hold" of even a severe headache; neuralgia, neuritis or rheumatic pain a few minutes after taking.

And they provide SAFE relief— for Genuine BAYER ASPIRIN

does not harm the heart. So if you want QUICK and SAFE relief see that you get the real Bayer article. Always look for the Bayer cross on every tablet as illustrated above, and for the words GENUINE BAYER ASPIRIN on every bottle or package.

GENUINE BAYER ASPIRIN DOES NOT HARM THE HEART

From the number of delinquents and the amounts published several thousands of dollars in delinquency, and too, some of the delinquencies date back as far as 1911.

A WEEK or so ago Editor King of the Mitchell County News, spoke of his town Loraine, as a "dead one," so far as the stranger would judge from the number of advertisements carried in the News from the local merchants. Last week, if the stranger judged the town by the number of local ads appearing in the columns of the News he would at once declare Loraine an up and coming town. The News was six pages, six columns to the page, and the liberal space taken by the home merchants caused the expansion. Evidently, the Loraine merchants weren't going to allow Editor King to talk about their town in any such language. Advertising of that sort will bring many added dollars to the coffers of Loraine merchants.

THE Merkel Mail came through last week with the start of the publication of the delinquent tax list for the city of Merkel. The mayor, among other "heresies," in the resolution authorizing the publication of the delinquent tax list, stated, "whereas, it is unfair for taxpayers who have made sacrifice to pay their taxes and let others who are able to pay continue delinquent."
