LITTLE ABOUT EVERY THING AND NOT MUCH ABOUT ANYTHING

KEEP UP THE BRAVE FIGHT

"There's a fortune awaiting for the man who won't quit. For them who refuses to give up in defeat. Who turns from each blow with new vim and more grit. And dares to fight on to victory sweet."

ONE of the communities of Texas that should feel it is obligated to the Red Cross for assistance rendered, is Stanton and Martin county. Last year liberal donation to the needy were distributed in the community, and this year, the services rendered those in distress, have been considerably more. Food and clothing have come from the Red Cross, and the condition now prevailing presents the fact that the community will need further assistance from this organization.

A total of 104,000,000 garments and 10,400,000 barrels of flour have been distributed to distressed families in the United States this year. This in addition to the regular work of the Red Cross.

For the fiscal year ending June 30, 1933, there were eleven disasters affecting 37 counties in Texas—three were floods and eight tornadoes. Altogether 55 were killed, 228 injured, 26,257 persons affected, 385 homes destroyed and 1047 damaged.

The national organization and the chapters spent thousands of dollars in relief operations following these disasters, particularly in the case of the Southwest, and the Rio Grande flood and East Texas-Louisiana tornado.

An opportunity is presented to the people of Stanton and Martin county to fully align themselves with this "Big Mother" organization. A drive for members is now on. O. S. Maggart is chairman of the local chapter of the Red Cross. Committees are now out soliciting members. Memberships are \$1.00 or more. Of each membership of \$1.00 or more, only 50c goes to National Headquarters, the balance is kept in the local Chapter treasury for use here. From this you will see that the member taking out \$5.00 membership is sending 50c to National Headquarters and \$4.50 for local use; of a membership of \$10, 50c goes to the Headquarters and \$9.50 is retained by the local chapter. These roll calls are made only once each year between Armistice Day and Thanksgiving and it is urged that everyone be in readiness to join the Red Cross when the committee comes around.

It is noted that in some quarters where some churches have assumed the stand they will out from their membership roll any member who drinks beer under the new law, or will expunge from their roster any member who works for a man who sells it. The Congress says this beer is not intoxicating; probably of itself, not including the things which accompany it like the saloon and the hard drinking, this beer is not as bad on these employes as cigarettes; it surely is not as bad on them as the over-eating as many of them doubtless do; it is not as bad as the worries which many of them probably indulge. It does not pay to restrict people by force in regard to those things which are not generally accepted as being bad. Intolerance may easily be much worse than limited beer drinking, and one can be as intemperate in his intolerance as he is in his drinking. It's just as intolerant to vote for a man because he belongs to your church as it is to vote against him because he belongs to some other church.

MEN TO COUNT TWICE AS MUCH AS THE WOMEN

Thpporter is in receipt of a note from a member of the P. T. A. of Stanton in which she says: "Will you please run a few notices in the paper concerning the P. T. A. meeting Tuesday night at 7:30? The men are especially wanted to attend. For once in their lives they are going to count twice as much as the women in a contest between the rooms."

NUMBER NINE

E. B. O. MACHINE OILED AND PRIMED TRAMPLE ODESSA

FIVE COMPLETED PASSES OUT OF SEVEN ATTEMPTS IS SUFFICIENT POWER TO SEND NOTRE DAME TO THE SHOWERS.

The E. B. O. (Epley, Bridges and O'Connor) machine of the Buffalo squad swung into action in the game Saturday afternoon with the Odessa Bronchs and clicked smoothly with but little interruption from the opposition. Of course, the machine was given able support by the other eight teammates, as the 19 scores the local squad piled up while holding the Bronchs to a gooseegg will testify.

A good crowd of spectators were present at the melee, together with the writer who was admitted free to all the courtesies extended on the grounds on a season pass presented by Murry Fly, superintendent of the Odessa schools. Right here we wish to extend to Mr. Fly our appreciation for the gift of this ticket, for it is the first and only complimentary season ticket to come from any superintendent of schools in this area. We suppose football officials feel that the matter of playing up the football games in their newspapers is forced upon the editors, who, if they failed to write them up the paper would go to the bow-wow.

The pass was good for the usual "self and wife." We didn't happen to have our'n along but had another, and our popular District Attorney didn't seem to care a whoop if we did claim her at the gate and there was 50c to be saved.

By way of parenthesis, and to make the matter a little more clear, the writer was a guest of Mr. and Mrs. Bob Hamilton in the new Chevrolet to the game and back.

The 19 scores is not indicative to the number the Buffaloes should have made against the Bronchs. The first quarter of play the Buffaloes were two or three times right at the goal line of their opponents, but some measly thing would happen to spoil making the counter.

As the game progressed in the last half the air became "saturated" with passes from both teams, but five out of seven attempted by the Buffs were the only ones completed. Winning of the game Saturday avoided the Buffaloes from occupying the cellar position and shoved the Bronchs down to that place. The game ended the conference schedule for the locals.

Considering the green timber that has been mixed in the team and the almost complete loss of a substitute list, the Buffaloes have played excellent ball this season. The breaks have all been against them. Every tally made was dearly earned. That the team should be holding fourth place in this half of the district, statistics compiled of games played will easily prove. The victory marked up by the Midland Bulldogs against the Buffaloes came about merely through the "skin of their teeth." Yardage gained, number of downs and area gained in punting, all went to the Buffaloes, but when the local squad would reach the stage a touchdown was certain, a costly fumble or a bad play was assessed against the locals. But its the most tallies made that decides the team that wins, hence the victory went to the Midland team by the close margin of one score.

PORK FROM MR. DONELSON

In order to "clear our skirts" of the charge that may be made by our citizens that the editor is going around doing more grunting than usual, we will say R. L. Donelson, living southeast of town is to blame. Saturday, he brought to this office a fine fresh pork rib roast culled from the choice anatomy of a fat hog he killed.

We appreciate the pork Mr. Donelson.

Two Stanton firms have added another employe to their business this week. They are: Stanton Service Station, W. E. Whitson, owner, and the Gulf Station, Johnnie Whitson, manager. Dick Lauderdale is working at the former, and Wayne Moffett at the latter.

"Somebody Come" Visits Johnnie

All-American Champion Athlete Stops and Fills Up On Gas

Johnnie Whitson, manager of the new Gulf filling station on the new highway has reasons to be stepping high as if the very ground under his feet were charged with electricity or it was covered with hen eggs.

One day last week a stately looking copper-colored fellow, drove into the new Gulf station, of which Whitson is manager, and called for service, consisting of a tank full of gas, the crankcase drained and filled with new oil, as well as the sale of a new pair of pliers. The customer stood erect, 6 feet and 4 inches high, Johnnie thought, weighed over 200 pounds, every inch looked the part of an athlete. Polite to the very manner born, was the customer. Imagine Whitson's surprise when in the course of conversation announced his name as Jim Thorpe, athletic fans, or even one reading about athletics, know Jim Thorpe about as well as if they had shaken his hand.

A few years back the sporting pages of the daily newspapers of the country and those of popular magazines glistened with stories about Jim Thorpe's athletic achievements, the greatest of football players, and holder of the All-American athletic championship.

During the summer months Thorpe had been touring the East with an Indian baseball team, and the season having closed, was returning to his home in Los Angeles, Calif. He has appeared in many screen productions, especially, those pertaining to athletics.

There were two attractions prominently displayed that were possibly responsible for Jim Thorpe halting at Johnnie's filling station. One was the handsomeness and newness of the plant, and the other, that high in the air and in front of the station that can be seen at a great distance up and down the highway, hung the large

P. T. A.

The P. T. A. had its regular business meeting November 14.

Mr. Bickley, deputy superintendent of this district, gave a very entertaining talk. He discussed a number of things upon which the Board of Classification judges a school for re-affiliation. He especially stressed the attitude of the people, and the payment of school taxes.

A definite date was set for the next meeting which will be November 28. This meeting will be held at night in order that the business men will be able to attend. The meeting will begin at 7:30.

COMMUNITY KITCHEN SERVED POT LUCK DINNER TUESDAY

MENU CONSISTED OF EVERYTHING KNOWN ON THE CALENDER OF GOOD THINGS TO EAT.

The pot luck dinner given by the ladies of the Community Kitchen, Tuesday, revealed there were more good cooks in Martin county than can be found in any county in Texas the size of this one. Boys, if you are looking for a wife that can cook, come to Martin county—they're here in droves.

Response to an invitation from Mrs. W. A. Kaderil, manager of the Community Kitchen, there were a number of guests that partook of a pot luck dinner, Tuesday. We had heard of pot luck dinners, but this was our first time to hear of or participate in, a pot luck feast. The dinner consisted of about everything known to eat. Meats and vegetables of various kinds, cakes, pies, preserves, chili—oh, well it would take up a whole column of this paper to enumerate the various articles of cooked food, and it was all prepared or had been prepared right in the Community Kitchen. Miss Myrtle Miller, county home demonstration agent, and S. A. Debnam, the newly appointed county agent for Martin and Midland counties, were at the feed. Nothing unusual, however, for Miss Miller to be in this kitchen, as the whole operation of the plant is under her jurisdiction.

Every article of food served at the dinner was a product from the farms of Martin county, and produced in the face of one of the most destructive droughts in the history of this country.

As rapidly as the products are canned they are stored in a large room. A visit to this storage revealed there were in the neighborhood of 5,000 full cans.

Food and employment, both for the needy people of Martin county are being provided by the Community Kitchen, put into operation several weeks ago by Ray P. Simpson, county administrator; Mrs. W. A. Kaderil and, Miss Myrtle Miller, county home demonstration agent. Mrs. Kaderil, is manager of the Kitchen.

So far twenty-two women have received employment at the Community Kitchen through R. F. C. funds, and several thousand cans of vegetables have been canned for relief purposes. Meats are also included in the number of cans put up. A total of 21,972 cans were bought and these are being filled on a toll basis. Farm families can also use the Kitchen and pay toll with filled cans. Many have been helped to get cans.

S. C. Harding and R. W. Wilkinson, check the cans. The Kitchen is conducted under the direction of the Martin County Board of Welfare. Ray P. Simpson, is county administrator, and J. Morgan Hall, chairman. Board members are T. W. Angel, S. C. Houston and E. P. Woodard.

WOLCOTT COMMUNITY WORKERS CLUB MEETS

The Wolcott Community Workers Club met Thursday, October 26, at the home of Mrs. Ellis Evert. Everyone enjoyed another friendly visit together while a friendly quilt was started for Mrs. Evert.

Refreshments were served to Meses. Fulkerson, Graves, Gillespie, Eppler and the hostess.

On Thursday afternoon, November 9, the club met with Mrs. Fulkerson. The afternoon was spent making pot holders, aprons, and a tablecloth. Everyone enjoyed the afternoon very much.

There was some discussion of the Thanksgiving dinner to be held for the members of the community.

Refreshments were served to the following: Meses. Connally, Evert, McDaniel, Graves, Jones, Eppler and the hostess.

The next meeting will be with Mrs. Graves.

Mr. and Mrs. Clayton Burnam and children and Mrs. Mose Laws and children, spent the week end in Rule with Mr. and Mrs. Jim McCoy. Mrs. McCoy returned with them and is visiting her parents, Mr. and Mrs. J. H. Bunnam.

BUFFALO BELLOWS

LLOYD BREWER, EDITOR

BUFFALOES WIN VICTORY

The Stanton Buffaloes dragged the Odessa Broncos with a 19-0 victory Saturday. The powerful Buffaloes scored once in the second period with a pass from Vaughn to Captain Epley for about 14 yards and Epley twisted his way the remainder distance to a touchdown which was about 12 yards.

The second half the Broncos kicked and the Buffaloes returned the ball to about the forty and the teams exchanged kicks which put the Buffs on their own 15 yard line. The Buffs went into a huddle and got a powerful play and Epley again took the pigskin for a long journey before some good blocking but he twisted off two or three Broncoes for his longest run of the season for a touchdown—an 85-yard gallop. The Buffaloes came back with more pep than ever. With mostly line plunging they brot the ball back to the 4 yard stripe and Bridges carried it over. This time the Buffs had better luck for the extra point. Vaughn carried it over on a fake kick. The Buffs kicked it to the Broncoes and they made a passing attack but was incomplete and some were intercepted. One was intercepted by the Buffaloes' star half back, Joe Bell, who has been showing good progress all season. The game ended with the Broncoes on the 40-yard line. The Buffaloes will play the Big Lake team next Saturday.

ENJOY WEINIE ROAST

The high school pep squad attended the Odessa-Stanton game in a body last Saturday, leaving here about 12:15 in one of the school busses. After the game the girls and also the football boys came back to Cloverdale and enjoyed a feast of weiners, pickles, and rolls. Games were played for about an hour, after which the girls and boys returned home.

The trip proved to be a very enjoyable one, especially since the score of the game was in favor of Stanton.

TEACHER APPOINTED FOR THE NEGRO SCHOOL

At a recent meeting of the school board, Fred Watkins, was appointed as teacher of the negro school in Stanton. Mr. Watkins has had three years training at the Prairie View State College for negroes. He comes highly recommended as a young man of good accomplishments along with a fine record in Prairie View.

The colored people of Stanton should be glad to welcome him in

This is a worthy cause. Go and enjoy yourself, and also help the school.

BAG TWO DEER BUT ONE LOST FROM SPOILING

The first deer killed this season by Stanton hunters were slain near Kent. Sheriff Yater, a member of the party killed the first of two, shortly after arriving at the hunting grounds and R. L. Parks, felled the second one the next day. Failure to prepare the deer immediately after killing him together with the hot weather, it spoiled. Mr. Parks was the only one to get home with the evidence that a deer had been killed. Stanley Whitson and Sam Stamps, the other two members of the party didn't get a shot.

RED CROSS RELIEF AIDS DISTRESSED IN 120 DISASTERS

Help Given in Fires, Floods, Earthquake and Epidemics Part of Year's Task

The American Red Cross has reached into the homes of six million families in the past year with unemployment and disaster relief, Chairman John Bar-to Payne announced.

"As the year closed the organization continued in readiness to serve in the forthcoming winter at the point of greatest need and to adjust its service to meet the calls of the emergency of unemployment and disaster," Chairman Payne stated.

In a year of greatest economic distress in the nation's history, in which the Red Cross ably discharged a relief task in distributing flour and clothing to distressed families in all but six of the nation's 3,098 counties, the organization also was called into action in 120 disasters, of which 98 were within the borders of the United States.

Earthquake, floods, hurricanes, fires and other cataclysms riddled death and destruction upon the lives and homes of thousands of people. Red Cross statistics showed that in the 120 disasters almost a thousand lives were lost, 148,340 homes were destroyed or damaged, 12,275 persons were injured, and Red Cross relief was given to 452,879 individuals.

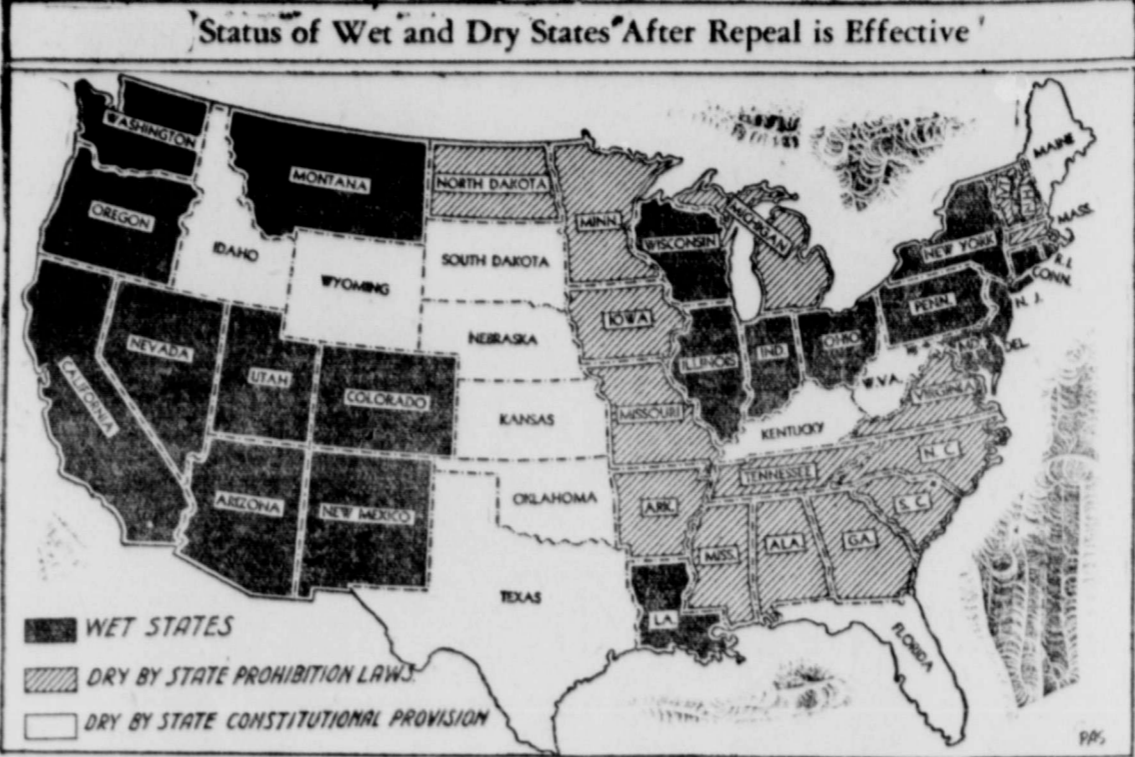

In giving aid in these disasters, in its unemployment relief and in handling the distribution of government wheat and cotton, the Red Cross expended from its national treasury the sum of \$1,070,284.

During one period of twelve weeks, 46 disasters occurred in 23 states. Red Cross disaster workers were hard pressed in meeting all of these needs occurring at once, but everywhere misery was promptly relieved.

Support of the Red Cross work is through its annual roll call, conducted by chapters in the period from Armistice Day to Thanksgiving Day, November 11 to November 30. Every citizen who joins the Red Cross as a member aids in carrying relief to disaster victims and in other Red Cross services, such as preservation of life, child welfare through the Junior Red Cross, and direct service for the public health.

Until that time liquor cannot be legally sold even in

When repeal is effective, there will be three classification of wet or dry states—twenty-one states without State-wide prohibition of any kind, the sixteen states with state prohibition laws and the eleven states with constitutional prohibition amendments. These are shown in the accompanying map.

called for noon December fifth, and repeal will become effective as soon as their votes have been cast. But since these three states, Pennsylvania, Ohio, and Utah are in three different time belts—Eastern, Central and Mountain—the vote of Utah will be the decisive one at noon, Mountain Time, two o'clock Eastern time, or very shortly thereafter.

In the sixteen states with State prohibition laws, liquor sales will become possible only by the act of their legislatures repealing or modifying the existing statutes, whereas in the eleven states with constitutional prohibition, their constitutional provisions must be repealed before they can become wet.

The Federal Government will have certain prohibition responsibilities even after the twenty-first Amendment becomes effective, for the Amendment prohibits the transportation or importation of liquor into dry States, Territories and possessions.

Eleven of the wet states have new liquor control laws, five will return to pre-prohibition law unless new ones are adopted and at least three have commissions preparing new control laws.

Efforts to prevent the return of the old-time saloon, to break up the alliance of the liquor interest with corrupt politics, to eliminate the bootlegger and the speakeasy and to keep the liquor industry from growing so strong as to be a social menace have occupied the attention of the liquor control law commissions throughout the country.

Byrd Expedition "Perfectly" Organized

Ready for the Antarctic Trail

NORFOLK, VA.—When Rear Admiral Byrd sailed the other day for the South Pole, old-time explorers called his the most perfectly organized and equipped expedition ever to leave American waters.

By actual count, there were more than 12,000 separate items of exploration equipment aboard the two Byrd ships, but this in itself did not impress the Polar veterans. What did impress them, however, was the fact that every article of equipment carried by the expedition had been selected only after months of experiments and painstaking research.

The special ski boots which Admiral Byrd and his men will wear on their second dash to the South Pole are an illustration. Knowing that men's lives in the Polar wastes depend upon strong footwear, the admiral personally collaborated with the experts of the Thom McAn shoe factories in New England in designing these unusual boots. With the experts he discussed the extreme weather conditions in Antarctica, where temperatures of 90 degrees below zero are frequent, and winds of 200 miles an hour not uncommon, and how best to avoid the hazards of frozen feet. Above all, he insisted, boots for Polar wear must be BIG. For if the explorer is to be efficient on the trail, his footwear must be large enough to permit the use of a thick felt innersole, have toe room for a big wad of Arctic moss to absorb moisture, and still admit feet clad in several pairs of heavy woolen stockings. Subsequently they experimented, designed and discarded

until they were agreed on a model which offered maximum protection to the explorers. The ski boot pictured above represents the fruit of their collaboration. It weighs 2 1/2 pounds and Admiral Byrd calls it the strongest boot ever manufactured for Polar wear.

Why Children Need a Liquid Laxative

The temporary relief children get from some synthetic, habit-forming cathartics may cause bowel strain, and even set-up irritation in the kidneys. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to give the child "a double dose" a day or two later.

Can constipation be corrected in children? "Yes!" say medical men. "Yes!" say many mothers who have followed this sensible medical advice: 1. Select a good liquid laxative. 2. Give the dose you find suited to the system. 3. Gradually reduce the dose until the bowels are moving regularly without aid.

An approved liquid laxative (one that is widely used for children) is Dr. Caldwell's Syrup Pepsin. The mild laxative action of this excellent preparation is the best form of help for children—and grown-ups, too. The dose can be regulated for any age or need.

T. P. Reduced Fares For Thanksgiving

Texans can do their Thanksgiving traveling this year at bargain prices. According to Frank Jensen, General Passenger Agent of the Texas and Pacific Railway, fares to all points on that line in Texas and Louisiana will be sixty per cent of the one way fare for the round trip for Thanksgiving travelers.

"Such low fares," Mr. Jensen said, "are almost unheard of, especially during recent years. More than that, travel is made safe, comfortable and fast by the most modern of trains and conveniences."

These special low fare tickets, Mr. Jensen explained, will be on sale at all Texas and Pacific ticket offices November 28th, 29th, and 30th with a return limit of December 5th.

"A fare of two cents a mile for distance traveled," the General Passenger Agent explained, "will also be on sale November 28th, 29th, and 30th to Little Rock, St. Louis, Chicago, Minneapolis and St. Paul, with a return limit of ten days."

Fullman fares will also be reduced for these Thanksgiving fares.

Price Reduction On Hand Set Phones

Price Range Will Be From 25c to 15c Per Month, Effective Dec. 20.

Seldom is it that the front office of the Stanton Reporter is embellished by such prominent personages as showed their beaming countenances here Friday at about the noon hour. The two responsible for driving away the low dark cloud of gloom that hung in this office, were none other than Paul Vickers, manager of the Midland chamber of commerce and W. G. (Bill) Riddle, district manager of the Southwestern Bell Telephone Company.

The gentlemen had been traveling from one wet town to another, returning from Big Spring, a beer town and going back home to a beer and (?) town. This fact and the further fact that Vickers wouldn't leave the car led to a minute search for the amber fluid. Either all evidence had been destroyed or they never had any, the no matter how great the suspicion may have proved otherwise, both gentlemen were reluctantly exonerated. Riddle was making his usual business trip and Vickers was along to add luster and "near-do-well" of the occasion.

Mr. Riddle informed the Reporter that a reduction from 25c to 15c a month for handset telephones in Stanton would be effective December 20 by the Southwestern Bell Telephone Company.

Mr. Riddle said that "the handsets cost us \$4.32 more than the best telephone and involve additional recurring charges of \$1.75 a year. These charges include additional taxes, extra maintenance, depreciation and interest on the additional investment. Then, without an additional charge it is apparent practically everyone would want a handset, which would mean virtually throwing away several hundred thousand good desk sets.

"The Telephone Company maintains that handsets are not essential to good telephone service, are in the nature of a luxury item, and that the cost of rendering the extra service should be paid for by those enjoying it, rather than by the customers generally.

"The hand set was first introduced to Texas in 1927. The original

Herblock in Louisville Herald-Pop

charge of 50 cents was made to offset extra costs, and also to prevent the premature retirement of too large a number of desk telephones. In 1928 the 50 cent rate was voluntarily reduced to 25 cents, a figure thought to approximate the additional cost of rendering handset service at that time. Improvements in manufacturing methods and the gradual extension of handset equipment now make it possible to render this service at 15 cents a month," concluded Mr. Riddle.

And They are Masculine, Too!

Such was the headline that our friend R. C. Hankins, of the Midland Reporter-Telegram, put over a news item coming from Martin county, and he's single to boot. How could he be any judge of feminine wearing apparel. Here is what he says:

A pair of pants made from a woman's skirt pattern!

That's the distinction of the trousers worn by J. O. Wheeler, prominent Martin county farmer. Mrs. Wheeler, wardrobe demonstrator in one of the clubs directed by Miss Myrtle Miller, county home demonstration agent, made the pantaloons.

In fact, Mrs. Wheeler made an entire suit for her husband, and it's a nice woolen tweed suit—a "Sunday" suit at that.

"It ought to be nice," remarked Wheeler proudly as he smiled at his energetic wife. "It cost \$2.10."

Mrs. Wheeler bought the tweed cloth for \$2 and bought 10 cents worth of thread. She recruited the buttons from worn out clothes. The point that startles women is that Mrs. Wheeler used the foundation pattern for making her own clothes to make her husband's suit.

"And the darn thing fits!" Wheeler says.

HOW WOMEN CAN WIN MEN AND MEN WIN

The Favor of Other Men Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you. But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all. Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25c at drug stores.
