

**SNOOTER KNOWS**

LITTLE ABOUT  
EVERY  
THING  
AND  
NOT MUCH ABOUT ANYTHING

FROM the Jayton (Kent County) Chronicle, of last week, we read an editorial squib from Editor Wade, that revealed a dark foreboding for the people of that community, "if it didn't rain, and be quick about it. The people are supplied water for domestic purposes from a lake, which in turn, depends on rainfall for its water. Water wagons, water barrels on sleds, truck with barrels, all, are seen daily getting water at the lake. Soon it will be dry, if rain does not come to the rescue, and then, as Mr. Wade says, "what are the people going to do?"

1-7  
Unfortunately indeed, is the community that has to depend on the annual rainfall to provide it with water for domestic use. If Kent county is like most West Texas counties, it has wells, that produce sparkling cold water, but so highly charged with gypsum as to make a drink of it bitter as gall, and its after effects like a charge of dynamite.

2-2  
West Texas has a habit of going on the "water wagon" ever so often, and when it does, it usually has made up its mind to stick to its decision as "stick-to-it-ively" as a flea to a dog's back, in which case it means that all water lakes go as dry as a powder house.

3-2  
The West Texas "water wagon" is still rumbling about over Martin county. It invaded this district two years ago, and to this very date, it hasn't given the least indication that it is going to move from these parts. Fortunately, for the town of Stanton, the water supply comes from wells drilled right in the heart of the town, from which point water is sent gushing through pipe lines to all homes where it provides the household with good drinking water and for general domestic use. Apparently, the water comes from wells whose supply is inexhaustible. All through the dry period of last year, besides furnishing an ample supply to the citizens, it supplied thousands of gallons daily to the road contracting company for use in wetting down the new road bed on the Bankhead highway, and furnished water for domestic use to many who lived in the country.

4-2  
Emerging from a year so dry that the county suffered a total destruction of crops and severe damage to grass lands on the ranches, the hand of fate has so far decreed that Martin county is to experience another dry year. Here we are well on our way in the new year with not enough rain having fallen during the fall of 1933 and the winter of 1934, so far, to wet a duck's back. Some farm lands have been plowed, hoping that rain would soon be forthcoming so that the farm operations could be carried on successfully through out the year.

5-2  
Saturday and Sunday brought sandstorms, Sunday furnishing the most violent of the two. The wind of Saturday came from the southwest—a gentle zephyr, to be sure—carrying along pebbles from the size that fit snugly in the corners of the eyes to those of a dimension that should one find lodgment between the eyes would knock the victim cold. Sunday put a little more steam behind its zephyr, sending it headlong out of the north on the wings of a wind that shot the temperature down to a degree that made overcoats and heavy wraps comfortable. Monday brought a considerable abatement in the wind and sand but slid the temperature down to 28 degrees, and Tuesday morning little change was noted for warmth over Monday.

6-2  
Laying aside the possible extravagance of the language used in describing the two sandstorms of the past week, the fact remains that Martin county has completed its voyage through the winter months, so far, without having received a half inch of rain, no rain to speak of falling last fall, is creating some uneasiness about crop prospects for this year. The more optimistic inclined farmers of the county, those who have lived in the county many years, tell us they are not yet blue over year's outlook for good crops. They claim that March and April are the two months they depend on for rain. If rain fail these two months, then the grain crop failure stalks over the la

## SERVICE CLUB SELLS 900 TREES TO SET OUT HERE

WITH THE 100 TREES THE CLUB AGREED TO BUY MAKES AN EVEN 1,000 FOR STANTON AND MARTIN COUNTY.

The high spot at the luncheon Tuesday noon of the Stanton Service club, was set up on its pedestal when French Gray, a member of the committee selected by the Service club to take orders for trees from the citizens of Stanton and Martin county, when he reported the committee had received orders for 900 trees, which, with the 100 added that the club had agreed to purchase, made the total of 1,000 orders now in the hands of the committee.

Mr. Gray, being a little tardy at luncheon, Rev. Sharp, vice president of the club acting in the place of the president, J. L. Hall, who was away on account of sickness, assessed a fine against Mr. Gray by calling on him to explain the best way to set out trees. He did so to the interest of all present but the reporter who is not looking for any job of digging any holes for trees, and the only excavation of earth we expect to be to blame for will be the one dug when we wont know anything about it.

But Mr. Gray is a hole digger. If you don't believe it, go out to his fine fruit farm sometime.

The groceryman were scheduled to put on the program at the meeting, but they saw their chance to get out of the job at the last minute, we suppose.

See SERVICE CLUB page 2

### most bounteous crop yields they have experienced in the county, rain, and plenty of it, fell in these two months.

8-5  
But to this writer, who has lived in the West most all his life, and he is no spring chicken at this date, will take plenty of moisture during the winter months to insure a general crop production. We have been "slipped up" upon on several occasions depending on the spring and summer rainfall to insure crops. The fall was dry, the winter was dry—as a last resort we depended on the spring rains to make a crop—well—they didn't come.

9-5  
This writer is the last fellow to "yell calf rope," but when he sees his country approaching a "hazardous risk," such as our county is approaching at this moment, we can't help but begin to show a little white around the gills.

10-5  
Conditions confronting our county does not cast a roseate complexion over the populace. The county has suffered a drouth of acute proportions, and at this writing prospects loom that we have a good start on to another. We want to see pressure brought to bear on the federal and state authorities so strong that liberal measures will be accorded the drouth stricken area of West Texas. That when the CWA has been abandoned in favor of the PWA that special concessions be made to the people of this area by supplying work that will give steady employment to the needy.

11-5  
It is surprising the number of new subs this paper has added to its subscription list since it made the offer to accept 50-cents for six months' subscription. One fellow remarked that if he didn't realize but one benefit from the six months' subscription it would be well worth 50 cents to him—that benefit was to start fires with the paper or use the copies to place on the pantry shelves." But he said that in a jocular way. The new subscriber did say, that a neighbor's wife who is a Reporter subscriber, informed his wife that a certain article of dry goods the neighbor lady had purchased could have been bought a month ago for \$1.00 less than she paid for it. The advertisement was printed in The Reporter.

12-5  
The Reporter placed this 50-cent offer for six months subscription we knew under conditions, a \$1 looked mighty big. If you have not been taking the Reporter, come in today and take advantage of this new low offer. We are paying up our old subscribers at the rate of 50 cents for every year of their old subscription.

## Club Has Interesting Year's Program

MISS WINIFRED DEAVENPORT IS COUNTY LIBRARIAN

The Stanton Study Club is enjoying a pleasant year and the programs have been very enjoyable. The study for the year is the plays selected as outstanding for the year 1932 by Burns Mantle.

Since a report has appeared in the paper Mrs. Phil Berry, Mrs. J. E. Kelly, and Mrs. Morgan Hall, have been hostesses. At Mrs. Berry's, Mrs. O. S. Bryan reviewed "Animal Kingdom;" at Mrs. Kelly's, Mrs. Morgan Hall, assisted by Mrs. Calvin Jones, gave the Bible program; at Mrs. Hall's, Mrs. Berry reviewed, "The Left Bank."

The Martin County Library, which is sponsored by the club is growing. In charge is Miss Winifred Deavenport, who is proving a very capable librarian. The position is no easy job especially when the exchequer doesn't warrant a janitor. After a sandstorm like last week, Winifred had to have a general housecleaning before the library hour. To those of you who are not familiar with the location, it is opposite the office of W. A. Kaderli, in the little brown building, and thank's to Hilton Kaderli, a sign now hangs outside, as does the latch string.

Several have books out which they should return and this is just a reminder that it is costing them every day they keep them overtime. The rural teachers who wish reference books are urged to come in and take it over with the librarian.

The library is indebted to Miss Ida Belle Mashburn for twenty books which she donated, also to Mrs. John Whitson for twenty books. It is such gracious gifts as these that give the committee the heart to go on. If you have some books that you have read and would like to pass them on for the pleasure of others, bring them to the Martin County Library.

### McCLINTIC BROS. IN TOWN BUY CAKE FOR RANCH

Charley McClintic, of Midland, who with his brother H. L., own a fine ranch south of Stanton, popped into this office Tuesday morning and scared the office force and awakened the peaceful repose of the office cat—sleeping in the back office when Charley signed the check with a smile.

### OLD SUBSCRIBERS RENEWING NEW ONES BEING ADDED

The past week has seen several old subscribers renewing for the Reporter for another year, and many new names placed on the subscription list, accepting the opportunity to subscribe six months for 50 cents. This bargain seems to have struck the key note with many who wanted the paper but just didn't see how they could afford to part with a dollar. As the \$1.00 per year and the 50-cents for six months subscription to the Reporter will soon be brought to a close, we are going to offer another bargain that no one can afford to miss. We will accept 25 cents for three months' subscription. Now, we know this proposition is so liberal and low in price, that even the school girl or boy can afford to take advantage of it.

How about coming in today and let us put you on the subscription list 3 months for 25 cents. That's almost too cheap to use for kindling a fire.

### Earl Powell, accompanied by J. E. Kelly, spent Thursday night in the home of Mr. and Mrs. Lay Powell in Colorado.

Mr. and Mrs. Elmer West and son, Junior, have moved to Brownwood, where Mr. West has employment in a garage.

## MIDLAND P. D. C. A. OFFERS THE WAY SHORT TIME LOANS

W. A. KADERLI IS THE QUALIFIED APPLICATION WRITER FOR MARTIN COUNTY. MOST LOANS RUN FROM 3 TO 12 MOS.

The 1934 season will mean the beginning of a better system of credit for many farmers who are preparing to finance the year's farming by means of a short-term loans through the production credit associations which are being organized under the Farm Credit Administration throughout the State.

Under the Farm Credit Administration the Federal Land Bank of Houston will continue to make long-term real estate mortgage loans; but the administration is also providing a long-needed system of short-term production credit for farmers and stockmen—loans to be used for producing crops and for breeding, raising and fattening of livestock. This is a comprehensive credit system and it is designed to be permanent.

Farmers and stockmen in this locality will be served by the Midland Production Credit Association, which was chartered on January 8, 1934, to serve producers in Andrews, Crane, Ector, Glauascock, Howard, Martin, Midland, Upton and Winkler counties. About four or five counties is the average size of an association. There is no fixed number of counties stand-ard for all associations, but each must include enough territory to give a volume of business sufficient to secure efficient organization and a low cost of operation.

The Midland Production Credit association was organized of representative farmers of the counties included, with the assistance of the Production Credit Corporation of Houston. There is one of these corporations in each of the 12 land bank districts in the country. The local association will obtain loanable funds from the Federal Intermediate Credit Bank of Houston, which will discount well-secured notes of farmers and stockmen. All of these institutions are a part of the Farm Credit Association.

A production credit association does not lend Government money. The funds that will be loaned are obtained by the Intermediate Credit Bank sell short-term bonds, or debentures, to the investing public. In other words, the money is being borrowed to be loaned to eligible farmers to enable them to produce a season's crops. The association is not a charity institution; but a business credit institution for business-minded farmers. The purpose is to make loans that farmers can afford to use for a season's operations, and which will be repaid at the end of the season. It is a pay-as-you-go plan for agriculture.

Most of the loans will run from 3 to 12 months, depending on the length of time required for growing and marketing the crop or livestock which the loan is made to produce. Loans for crop production will usually mature in less than a year, although loans such as those on dairy and breeding cattle may run longer.

Applications for the short-term loans are handled in this territory by Bruce Frazier, Midland, Texas, and assistance may be had in properly filing applications from W. A. Kaderli who is the qualified application writer for Martin county.

Applications will be acted upon quickly when they give a clear financial statement of the applicant's farming condition, listing all assets and liabilities, and estimating net worth. The applicant should name specifically all of his farming assets offered as security for the loan, and give a plan, or budget, showing how he is going to use the loan applied for and how he is going to repay it.

Primary security for production loans consists of livestock, farming equipment, growing crops, or other personal property most appropriate loans consists of livestock, farming make up a chattel mortgage. It is not intended that loans shall be secured primarily by mortgages on real estate. Where this type of security is taken it will be regarded only as additional collateral.

The minimum loan is \$50 and no loan may exceed 20 per cent of the authorized capital of the association. See MIDLAND P. D. C. A. page 2

### SISTER BURNS TO DEATH

Mrs. J. P. Boyd received a message Wednesday morning that her sister, Mrs. Irah E. Simon, living in Cherryville, Kans., had burned to death.

### CLEMENTS MANAGER FOR BRYANT-LINK, PADUCAH

Mrs. Elvis Clements and children are leaving this week for Paducah, Texas, where they will join her husband to make that place their home. The household goods were loaded out Thursday.

Mr. Clements has been at Paducah for sometime where he is manager of Bryant-Link Co., one of the pioneer companies in the mercantile field of West Texas. He is an excellent business man, one that makes and holds friends, and a business getter that if there is any around Paducah to be gotten, he will get it.

The Clements family have lived in Stanton a number of years, where they have made a host of friends who regret to see them leave.

The Reporter will follow them to their new home and we are certain after consuming the 52 doses, the family will have become thoroughly satisfied with their home.

Paducah is not new to this writer. He knew the town when it wasn't as large as Stanton, now four or five thousand people, and the very best of farm and ranch lands surrounding it that can be found anywhere. There are no drawbacks in that town. Even Editor Carlock of the Post, has to be chained to keep him from overworking for his town and county.

### OLD TIMER IN NEWSPAPER GAME BACK IN THE HARNESS

A gentleman who has seen service in a printing office from "away back when" all typesetting was done by hand on up to and including the present day of setting type on linotypes, has assumed the management and editorialship of the Fort Stockton Pioneer. The gentleman in question is G. W. Rose, one of the pioneer residents of Pecos county, all of which time until a few years ago, had been spent publishing the Pioneer. Outside interests necessitated Mr. Rose to sell his interest in the newspaper a few years ago, and during that period Mr. Rose had served his town as mayor, or, and made a good one. Recently, circumstances came about which resulted in the company owning the Pioneer prevailing upon Mr. Rose to accept the editor-manager of the newspaper. His old spirit of giving his people a newsy paper revived in him with the very first issue after taking charge. Mr. Rose knows a news item when he sees it and he knows how to put it together to make it interesting to his readers.

Many favors from Mr. Rose were extended this writer the few short months he was employed on the Pioneer some four years ago. The favors came in the form of giving us many tips on news items and where to go to get a news story, and we deeply appreciated the voluntary interest that Mr. Rose displayed in us because he knew we were new in the town and county, and items of very much importance would have been overlooked had we not been advised by Mr. Rose.

With each issue the Pioneer is getting "better and better," under the efficient guidance of Mr. Rose.

### EB DICKENSON REPORTS HIS CATTLE NEVER BETTER SHAPE

Ed Dickenson in town Wednesday conversing with a reporter from this office, said he had never seen his cattle in as good shape at this time of the year as they are now. He attributes this to having them well scattered over his pasture lands, and in spite of the long drouth he is not feeding yet.

He believes in preparedness and has his feed all bought and stored preparatory to start feeding in the near future.

Ed has had a recent tussle with old man "flu" but is looking good now.

### FIVE COPIES WANTED

IF YOU HAVE A COPY OF THE STANTON REPORTER OF FRIDAY, FEB. 9TH, BRING IT TO THIS OFFICE AND WE WILL PAY YOU 5-CENTS FOR IT.

## Local Pastor To Be His Own Evangelist

REV. JIM SHARP  
Pastor of the First Methodist Church, South of Stanton, who will begin a revival meeting Sunday, morning. Night services 7:30 at the church, and day services, except Sundays, will be held down town at 10 A. M.

## REVIVAL MEETING TO START SUNDAY METHODIST CHURCH

LOCAL PASTOR WILL FILL THE PULPIT AT BOTH THE DAY AND EVENING SERVICES. SPECIAL MUSIC.

Rev. Jim Sharp, pastor of the First Methodist church, will commence a revival meeting next Sunday morning at 11:00 a. m., in the Methodist church. The meeting is scheduled to continue for two weeks, and Rev. Sharp will do the preaching at all services. It is hoped that since the pastor is doing the preaching that the people give the meeting the same support they would a visiting pastor.

Sunday services during the meeting will be held at the church, as well as all evening services during the week, the time being 7:30. Day services will be held down town in the building just north of the Purser furniture store, every morning at 10 o'clock.

It is hoped to have the business to close for the downtown services in the mornings so as to afford the businessmen the opportunity to attend.

"We are beginning a series of revival services to which every person in the town and community, and the county for that matter, is invited to come," remarked Rev. Sharp, "and we are hoping and praying that we will have the help and support of all."

Special music, combining the singers of all the churches, will be had at the meetings.

## P. O. Hughes Seeks Re-Election As Commissioner

P. O. Hughes, present county commissioner of Precinct No. 4, authorizes the Reporter to announce him as a candidate for re-election to the same office, subject to the action of the Democratic primary July 28.

In making the race for the second term Mr. Hughes invites the voters to investigate his record of work for the time he has held the office.

He said: "If re-elected I will continue to serve my precinct and the county to the utmost of my ability. I believe in a square deal for all and special privileges to none.

"I believe that I am in a position to render greater service in the future on account of having had some experience with solving the problems that come before the commissioners' court.

"I will try to see each voter between now and election, and will appreciate your vote and influence."

### MRS. STRAUB IMPROVING

Mrs. Albert Straub, who had major surgery at a Big Spring hospital, Sunday, is reported improving nicely.

Clyde Smith of Hamlin, was here last Thursday, for his father's 89th birthday.

WELCOME

Sarah Henson, Prop.

He complimented the club for its large membership present, stating that with such a body they could go out and get anything they went after. His address was punctuated with many jokes.

A. M. Limmer, superintendent of the Stanton schools reported that the county Interscholastic League meet would be held in Stanton on March 16 and 17, and asked the support of the club in helping to defray the expense of the meet, which the club agreed to do.

Rev. Garnett, pastor of the Baptist church, suggested that inasmuch as Rev. Jim Sharp, pastor of the Methodist church, was to begin a protracted meet on Sunday, and that on week days services would be held in the mornings down town, that all business places close for the Monday morning services at least, if not for every morning during the meeting.

Saturday is the next Trades Day in Stanton, and Johnny Whitson, was the unanimous choice of the club to act as auctioneer for the day. So if you have anything you want to dispose of in this way, notify Mr. Whitson.

MIDLAND P. D. C. A.—

(continued from page 1)

unless the loan is adequately secured by collateral and approved by the corporation. The amount of the loan should correspond with the actual need for credit. Perhaps more farmers and stockmen have become heavily involved in debt because of too much credit than because of the lack of it. Loans from production credit associations will only be made as needed; and proper precautions will be taken to prevent over-extension of credit so that farmers and stockmen will not have to pay unnecessary indebtedness with resulting interest.

After a farmer's or stockman's application is received his financial statement is checked and the property offered as security for the loan personally inspected by a loan inspector of the association. Regulations about inspection charges and collection may be changed as required by the Production Credit Corporation. Usually no charge will be made for inspection if the loan is not granted.

The authorized capital stock of the Midland Production association is \$60,000.

A farmer or stockman who gets a loan from the association does not have to advance any money to pay for his stock, as the purchase price may be included in the loan, one \$5 share being purchased as each \$100 or fraction thereof of the loan money is advanced.

The interest rate charged the individual borrower may not exceed by more than 3 per cent the rate at which the association gets money from the Federal Intermediate Credit Bank. The interest spread of 3 per cent between the rate paid by the association and that paid by the borrower goes to the association to meet operating expenses and build up a guaranty fund or surplus, needed by any carefully managed business institution.

**Mrs. Helen C. Early**  
Director of Essay  
Gives Information

The essay writing contest in the University Interscholastic League has been changed this year to allow essay contestants to qualify for next higher meets on up to and including the final state meet, according to Mrs. Helen C. Early, who has been chosen Director of Essay Writing in the Interscholastic League of this county.

"Subjects for the contest will be furnished as heretofore by the State office. The topics, according to the Constitution and Rules, are all to be within the range of the study, observation and experience of the average pupil. The contest is in writing, that is, composition, and does not involve any special research into public

questions, as is the case in the debate and extemporaneous speech contests. "In previous years the rules have provided that the winning essay in the county meet be forwarded to the district meet for judging, and that the winning essay from the district meet be forwarded to the state meet for competition with the winning essays from other districts. This method has been changed, and instead of the essays being forwarded, the winning contestant in the county meet goes in person to the district meet to compete in this contest with other county winners. The district winners then go to the regional meets, and the winners in the regional meets qualify for the state meet, and participate in debate privileges on the same basis as contestants in other contests scheduled by the League.

"It is believed that the change which gives successful contestants an opportunity to advance from one meet to another will greatly increase interest in essay writing."

**4-H CLUB NEWS**

"To Make the Best, Better"

MISS MYRTLE MILLER  
Home Demonstration Agent

**BEDROOMS**

**Woodwork, Floors, Floor Coverings**  
Painted woodwork gives a room a light, cheerful dainty appearance and can be cleaned with ease. Woodwork painted the same color as the wall or one tone darker, or lighter, helps to tie the room together.

The floor is the foundation of the room; and should be two or three tones darker in color than the walls, with a mellow, inconspicuous finish. A good quality of hard clear varnish applied to the floor and waxed makes a satisfactory floor finish for new floors or floors in fairly good condition. For old worn floors two coats of deck paint with a final coat of varnish will be satisfactory. Waxing and polishing will add to attraction and durability.

A smoothly finished floor partly covered with rugs that can be taken outside for cleaning is probably the best management of a bedroom floor. Many lovely rugs can be made at home from material on hand and in this way practical appropriate floor coverings may be had if the workmanship is good and careful thought has been given to the colors. Such hand made rugs on a painted floor go far toward giving the room a home-like atmosphere. The rugs, whether braided or hooked, should be heavy enough to lie flat and firm on the floor and not wrinkle when walked on.

**"BETTER BEDS AND BEDROOMS"**  
TALK AT FLOWER GROVE CLUB

The Flower Grove Home Demonstration club, met with Mrs. J. R. Belt, Friday at 10 a. m. Miss Miller, county demonstration agent, gave a very interesting talk on "Better Beds and Bedrooms."

Lunch was served at 12 o'clock. A roundtable discussion was given after lunch.

The next meeting will be with Mrs. J. Archer, and cheese making will be the program.

There were 17 members present. Mrs. Kaderli of Stanton, accompanied Miss Miller.—Reporter.

**WOLCOTT COMMUNITY CLUB**

The Wolcott Community club met

Monday morning with Mrs. Dick Knox, at 10 o'clock. Everyone enjoyed the interesting and helpful talk made by Miss Miller on improving our bedrooms. After the talk and demonstration a short business meeting was held. Since our president Mrs. Brewer had moved, a vice president had to be elected. Mrs. Graves was made president and our former secretary, Mrs. Knox, was elected vice president; Mrs. Epplet, was elected secretary.

A buffet luncheon was served to Mmes Gillespie, Fulkerson, Cox, Epplet; Miss Miller and the hostess and her mother, Mrs. Wolcott of Midland. The next meeting will be at 2 o'clock Monday afternoon, March 5th, at the home of Mrs. Cox. Every club member is cordially invited to attend

**THE LENORAH 4-H CLUB**

The Lenora H. D. club met at the home of Mrs. T. H. Bass. A bed making demonstration was given by Miss Myrtle Miller, and also bedroom arrangements. There were seventeen members and two visitors present.

The next meeting will be with Mrs. D. A. Blanton, which will be a cheese demonstration March 5.—Club Reporter.

**WELL KNOWN RACE HORSE DIES WHEN HE LICKS POISON**

Billy B, equine racer whose name requires no qualification, died Thursday night.

Winner of numerous races at meets over West Texas, Billy B, pride of L. E. Cook and his son, Curtis, licked arsenic that had been put out for prairie dogs several months ago. With him died Fanny Bell, bay pony belonging to Cook, and a pony Curtis Cook was breaking for Sheriff Audy Francis.

Cook, who had expected to race Billy B this spring and summer, is still in the "running," as Clara Bow, well known racing mare, was in another section of the pasture when the poison was discovered in a dump pile.

Brown Jug was the other Cook horse that was poisoned and died. Negro Baby, Francis mount, was discovered in time to be saved.—Midland Reporter-Telegram.

**RETURNS FROM RAINY COUNTRY**

Mr. and Mrs. George Lewis and little son, D. B., Jr., returned Sunday evening from a week's trip through Central Texas. Points visited were Waco, Cameron, and Calvert, and reports plenty of rain in that section.

George said he could never live down in that country as a "dry land terrapin" as he, having lived here all his life, his feet would never grow into the web-foot variety, hence he would drown in that country. But what that country did have that appealed

**DICKENSON SELLS ALL HIS BULLS**

"I've seen plenty of women I wouldn't mind hugging, but O. H. Coleman is the only man I ever wanted to hug."

This was the statement made in Midland Wednesday by E. B. Dickenson, "West Texas' most eligible bachelor." Dickenson said he had this emotion when Coleman told him he would buy all the Dickenson bulls.

Coleman, manager of the Three V Livestock company, of Seligman, Ariz., looked over the bull crop in a large area of West Texas and finally decided to take all the Dickenson's available bulls, which amounted to two car loads. The rancher of Midland

**NOTICE TO CREDITORS**

In the United States District Court for the Western District of Texas.

In the matter of John Albert Clements and Virgil Elvis Clements doing business under the firm name of J. A. Clements & Company, Bankrupt.

No. 116, Bankruptcy  
The creditors of said John Albert Clements and Virgil Elvis Clements

doing business under the firm name of J. A. Clements & Company are hereby notified that they have filed a petition for a certificate of discharge in bankruptcy, and that the same, under an order of said court, will be heard before Ben Randalls referee, at his office in Pecos, Texas, at 10 o'clock in the afternoon, on the 29th day of March, A. D., 1934, at which time and place the creditors of said bankrupts may appear and show cause, if any they have, why the prayer of said petition should not be granted.

D. H. HART, Clerk  
By W. W. Dean, Deputy  
Date February 16th, 1934.

and Stanton said his marketing troubles for this year were ended.—Midland Reporter-Telegram.

Dick Lauderdale writes back from Archer City that it is a busy burg and he has secured a fine job there. He will come for his wife and children shortly and move them there to make their home.

Keno Davis is sick this week, suffering with "flu." We could go down the list of names in the city directory and find some one in each family with colds now prevalent in Martin county.

**Why Doctors Favor a Liquid Laxative**

A doctor will tell you that the careless use of strong laxatives may do more harm than good.

Harsh laxatives often drain the system, weaken the bowel muscles, and even affect the liver and kidneys.

Fortunately, the public is fast returning to laxatives in liquid form. The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you needn't take a "double dose" a day or two later.

Dr. Caldwell's Syrup Pepsin gently helps the average person's bowels back to regularity. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go.

Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. All druggists, ready for use, in big bottles. Member N. R. A.

### How One Woman Lost 20 Pounds of Fat

**LOST HER PROMINENT HIPS, DOUBLE CHIN, SLUGGISHNESS**

**Gained Physical Vigor—A Shapely Figure**

If you're fat—first remove the cause. Take one half teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—in 3 weeks get on the scales and note how many pounds of fat have vanished. Notice also that you have gained in energy—your skin is clearer—you feel younger in body—KRUSCHEN will give any fat person a joyous surprise. Get an 85c bottle of KRUSCHEN SALTS from any leading druggist anywhere in America (lasts 4 weeks). If this first bottle doesn't convince you this is the easiest and surest way to lose fat—your money gladly returned

### SCOUT WEEK

Twenty-two Stanton scouts, Scoutmaster W. S. Garnett and Troop Committeemen Sam Stamps and Henry Hill, were guests of Midland Troop 51 at their regular meeting Friday night at 7:30 in the scout hall.

In a basket ball game between the best teams of the two troops, Stanton scouts were victorious by a score of 16-10. At the end of the game the score was tied and in one extra period, not a point was made. In the second extra period, however, Stanton went in with a determination that gained six points in the two minutes of play.

A game between the five smallest members of each troop resulted in a victory for the Midland troop by a score of 14-7. Other contests were Crows, and Cranes, Bringing Home the Bacon and Tug-of-War. Honors were about even in these contests.

Thanks to the Midland troop and Scoutmaster Day was expressed by the Stanton scoutmaster and troop committeemen for the invitation as well as for work done last fall to organize the Stanton troop. The troop at Stanton was organized and trained by the scoutmaster and members of Midland Troop 51.

Congratulation to Scoutmaster Garnett and his troop were extended by the Midland scoutmaster for work done and for the progress made since organization. Special announcements were made of the Saturday mobilization and all scouts were urged to hear the president's message. Arrangements were made for a return visit in the near future.

The good sportsmanship and clean play in all the contests was especially noticeable, there being not a single protest in any of the close games played.—Midland Reporter-Telegram.

### LENORAH

Mrs. Lee Donelson, sons, Morris and Seth visited with Mrs. C. L. Gerald and family.

Walter Brewer and sister, Mae, arrived Friday afternoon to make their home here.

Mr. and Mrs. Edgar Standifer and Mr. and Mrs. M. L. Koonce and families, spent Friday and Saturday with relatives in Colorado.

I. H. Beene, sister Mrs. Tom Peden and family of Compton, Calif., spent the week end in his home, enroute to Vernon.

Pattern No. 8122: Designed in 7 Sizes: 24, 26, 28, 30, 32, 34, 36. Bust 32 and 34. Length 48. Bust 32 and 34. Size 34 requires 4 1/2 yards of 23 inch material for lower waist portion and skirt, and 5/8 yard for connecting material. If made without connecting material, require 5 3/4 yards.

**It's Different**  
8123—Simplicity and grace are expressed in this unique design. It will at once appeal to the girl who wants something different. The shaping of the yoke, the not too puffed puff of the sleeve, the slightly raised waistline, and the slim line skirt, are all good, commendable features in the assembling of this clever model. Plaid taffeta was chosen for the yoke, sleeves and sleevebands; the skirt is of black velvet. Wool crepe in a soft shade of brown will combine well with orange suede cloth or silk crepe. Checked gingham, with white batiste for the contrast is also suggested.

**Choice of Sleeves**  
8122—This neat morning frock is just right for the larger woman. The surplice line of the closing crosses a becoming V-neckline, and goes straight to a trimming tab that holds the pleat in the skirt front. There is a choice in making the sleeve in wrist length with soft fullness above a band cuff, or comfortably short, and with an up-turned shaped cuff. The fullness on the waist front at crosswise slashes is becoming. The belt does not confine the

**HOW WOMEN CAN WIN MEN AND MEN WIN**  
The Favor of Other Men  
Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. The poisons your whole body. Movements get hard and uncoordinated. You get yellow complexion, low spirits, pimples, dull eyes, bad breath, bad taste, gas, diarrhoea, headache. You have become an unsightly-looking, soul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you. But don't take salts, mineral waters, oils, laxative pills, laxative cathartics or chewing gums and expect them to rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all. Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25¢ at drug stores. Refuse something just as good for it may give you better results. Ask for Carter's Little Liver Pills by name and get what you ask for. © 1933, C.M. Co.

which they are trained to deliver as if they were their own. Emphasis is placed upon straightforward and sincere delivery, hence two very important ends are served: first, the learning of the selection contributes to the mental enrichment of the child; and second, the child gets valuable training in skill in public speaking which will be of use to him all his life.

"The contest is one of the most popular in the League. Tens of thousands of children all over the state participate in this activity. There are divisions for rural schools, for ward schools and for high schools, and also separate divisions for boys and girls. There is a further division on an age-basis. This insures healthful competition."

**THE WORLD IN A LIGHT GLOBE**

When you switch on an electric lamp, you're using materials that came originally from almost every country in the world. In that little globe that cost you 20 or 30 cents, there's autonomy from Mexico, thoria from Brazil, niter and silica from Chili, cobalt and nickel from New Caledonia, bismuth from Australia, tin from the Malay Peninsula, manganese from India, potash from Russia, sodium carbonate from East Africa, arsenic from Greenland—and so it goes down a long similar list of items.

As has been said, the electric lamp is literally the light of the world.

District Attorney Bob Hamilton returned Saturday evening from Jacksonville on legal business. Judge Little of Big Spring, who accompanied Mr. Hamilton on the trip, returned with him.

**SAYS - -**  
"My Gas Refrigerator Changed Our Argument"

Paul Baker, the attorney, will substantiate every argument he makes in court, but when talking to friends he's human like the rest of us and apt to base his opinions on what someone said. That's why he and his wife Edna, classed themselves with those who felt they were paying too much for gas. The Bakers have used gas for cooking and water heating so long that they lost all idea of its value as compared to substitute fuels.

Several months ago Paul gave Edna a new gas refrigerator for her birthday. They were surprised to find that its operation required no more than 1000 cubic feet of gas a month, for which they paid 67 1/2 cents. Since 1000 cubic feet of gas will give three dollars worth of service, they value it at that amount for this purpose. No longer do the Bakers complain about the price of gas. Instead, they praise gas service as their greatest bargain.

By turning to gas refrigeration you can prove to yourself that gas is worth three dollars for this purpose. By comparing the value of gas with substitute fuels for other uses you will find it to be worth \$2.50 per 1000 cubic feet for cooking and \$1.25 for water heating. These amounts are much higher than the price of gas in this community.

**FORD TO BUILD HUGE EXPOSITION AT THE 1934 CHICAGO WORLD'S FAIR**

**A GREAT Ford Exposition**, portraying the tremendous part the auto, sciences and virtually every other industry plays in the manufacture of today's motor cars, is planned by the Ford Motor Company for the 1934 World's Fair.

The Ford Exposition will be housed in a giant building 369 feet long to be built in the heart of the fair grounds on an 11-acre plot bordering Lake Michigan and flanking the main fair boulevard. Construction of the building will start Mar. 1.

In the dominant central building will be housed Henry Ford's "Drama of Transportation," depicting the development of wheeled vehicles from the chariots of ancient Egyptian kings to modern motor cars. Every model of Ford car made since 1902 will be included.

In the smaller building to the left will be housed some of the priceless historic exhibits from the Edison Institute at Dearborn, Mich., including the one-story brick workshop, complete with the original tools, where Mr. Ford in 1893 built with his own hands his first motor car. This first car will be displayed inside the shop.

The main exposition building will display an imposing array of exhibits, most of them in action, show how steel, aluminum and other metals, soy beans, corn, wool, cotton and other farm products and the products of myriad industries are converted into car parts. The building also will house displays of cars and a big movie theater. Along the east side will be an open-air balcony equipped with chairs and lounges where hundreds may relax.

Across the drive fronting the lake will be a big Ford Park, beautifully landscaped and also fitted with seats and other comforts for fair crowds.

Henry Ford and Edsel B. Ford show to Rufus C. Dawes (center), president of the World's Fair, the scale model of the giant Ford Exposition building to be built at the 1934 Fair. (Lower) The Ford building as it will be seen from Leif Erikson drive. Opposite the building will be a huge park bordering Lake Michigan.

**COME AND REST**

Do you ever want to get away from the hurry and skurry of every-day life for a little while... for just a few weeks... or even a few days... to go some place where you can relax and rest... and go back home with renewed vigor... feeling like a new person?
