## **SNOOTER KNOWS**

EVERY THING AND

NOT MUCH ABOUT ANYTHING

N another column of this issue of the Reporter will be found a notice issued by Mayor Ebbersol to clean up the town. Right now spring is in the air, and nature, in her annual awakening, is doing her utmost to beautify this world of ours. A little help on our part would not be amiss. In the winter many things are neglected. Vacant lots, yards and even streets become unsightly. Now is the time for a thorough spring cleaning, in the interest of better hailth, safety and improved appearance.

Streets and parkings should be cleaned. Vacant lots, cleared of rubbish, can be made into healthful playgrounds, parks or gardens. 1-t

When a movement to clean-up, paint-up and beautify sweeps through a community, it leaves in its wake a healthier, safer and more sanitary town than it found.

Far ahead OF LAST YEAR'S GREAT SALES RECORD \_and here's what's doing it .... COMBINATION OF FEATURES

It was a great record of leadership that Chevrolet made in 1933. . . . And this year, it's even greater. Sales are already thousands of cars ahead of last year. Production is the largest in the industry. And every day, from state after state, comes the same report on registrations: Chevrolet is leading all others! What's the reason for this success? The pictures tell the story. Chevrolet is the only lowpriced car with this winning combination of five features. Chevrolet is the only manufacturer who can say:

# GULF WINS MORE "HILL TESTS" THAN 32 GASOLINES COMBINED

Will your car have more power on any one gasoline? HERE'S YOUR ANSWER..

Gulf tested a total of 33 gasolines on famous American hills-12 hills in localities from Massachusetts to Georgia-and here is what they found ...

The power of different gasolines varies widely! And of all 33 gasolines, Gulf is uniformly best. 7 out of 12 times, it propelled a car and load up mountain grades farther than any other gasoline tested!

It won more hill tests than 32 other gasolines combined! Prove it! Drive into a Gulf station, fill up, and test the power of That Good Gulf for yourself!

A BORROWED FORD tests 12 competing gasolines on Muldrough Hill, near West Point, Ky., to see which gas can pull the car and 3500-lb. load farthest up hill in high gear.

EACH OF THE BRANDS of gasoline tested is indicated on the chart by a letter, A to Z6. Note that Gulf gas was uniformly best! Other high-ranking gasoline varied widely in different tests.

# there's more power in THAT GOOD GULF GASOLINE
