ATTENDED CREAM GRADING SCHOOL AT LAMESA

O. S. Maggart and Doyle Straub attended a cream grading school at Lamesa last week. Beginning June 1, cream will be bought in Texas on grade, with a 2-cent premium paid for No. 1 cream over No. 2 cream, and No. 3 cream not bought at all. To aid farmers to obtain the premium and to avoid losses, the Texas A and M Extension Service announces that county agents will assist creamery road men in explaining to meetings of farmers the necessary steps to produce No. 1 cream. The cream grades as set forth by the State Department of Agriculture are: No. 1 sour cream is slightly sour, clean to the taste and free from objectionable odors and flavors and containing not less that 25% butterfat, and shall be free from all extraneous and deleterious matters No. 2 cream is too sour to grade No. 1 and may contain slightly off flavors and odors and shall be reasonably free from extraneous and deleterious matters. No. 3 cream shall be any cream which will not qualify as No. 1 or No. 2 cream, and which consists of all cream containing oily, yeasty, musty, onion or any other similar flavor or foreign fats and scrap butter that would render it unfit for human consumption.

MMES. STAMPS-WHITSON HOSTESSES TO S. S. CLASS

Mmes Sam Stamps and John Whitson were co-hostesses to the Friendship class of the Methodist Sunday school Monday evening with a barbecue at the Stamps Dairy. Weinies, picalli, bread, cake and lemonade, were there in abundance, the weinies being barbecued by the skillful hands of Sam and John.

A large crowd was present but some one must have sneaked up on the bushel basket containing the individual fruit cakes for when the party was over they were all gone and we have the word of Mrs. Whitson that Mrs. Stamps baked and iced 81 little cakes and there were not that many present even counting all the children

Why Doctors Favor a Liquid Laxative

A doctor will tell you that the careless use of strong laxatives may do more harm than good.

Harsh laxatives often drain the system, weaken the bowel muscles, and even affect the liver and kidneys. Fortunately, the public is fast returning to laxatives in liquid form. The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you needn't take a

"double dose" a day or two later. Dr. Caldwell's Syrup Pepsin gently helps the average person's bowels back to regularity. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go!

Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. All druggists, ready for use, in big bottles. Member N. R. A.
