

SNOOTER KNOWS

LITTLE ABOUT EVERY THING AND NOT MUCH ABOUT ANYTHING

THE political battle lines are taking definite shape now—and what promises to be the fight of past campaigns is in the offing. Candidates for state offices are shelling the woods of East and Central Texas quite vigorously, and are now canvassing the highways and byways of prairie lands in West Texas.

To West Texas it matters little to West Texas which way the "cat jumps" when it comes to receiving any recognition from candidates who are fortunate enough to warm the seat of a state office. All the cat can do is sit on his haunches and howl his head off. The big vote centers is where the "pie counter" is situated, and the successful candidate must first take care of the pie hunters of that section and if there are any crumbs left, West Texas may stand some show getting them, but the trouble is there are rarely any crumbs lying around when those East Texas "pie goozlers" get their fill.

The Martin county candidates have swung their heavy political artillery in position this week, after learning "who was who" following the meeting Monday of the county democratic executive committee. All doubts of withdrawals were dispelled, and the race was on to the "bitter end." From here on out to the closing of the election polls Saturday, July 28, much explosion of political ammunition to be heard as the missiles are fired at the voter.

No reports from the local county candidates kissing the babies or holding them while the lady voter hangs out the family wash, have reached the political editor of this newspaper. That condition is perhaps due to the fact coming she hides her offspring—not taking any chances on it being kidnapped.

Some of the county offices are holding up well under the strain of carrying some three and four applicants on their shoulders until the last of the coming month. All of them can't be elected and if we are to accept the great things each espouses he will do if elected, it's just too bad the office is not in a position to give them all a job.

There is one thing the candidate has learned thus far in the campaign, and that is his bank account is not so bulky as it was before he announced to a suffering public it wanted to act as their servant. Monday of this week the "bankers" of the campaign met and set a price each officer seeker shall pay to get on the primary ballot. Then the incidentals that have had to be met up to the present time have required the expenditure of of nickels and dimes that were reluctantly released in these times of hot dry days.

One thing can be said of the Martin county candidates and that is they are all a handsome looking bunch of office seekers that any lady voter would be proud to cast her vote for. Any one of them would fill the office to which he aspires with credit to himself and to his constituency. Under such circumstances the voter has something on his mind that is puzzling him. He wants the best man to fill the office—that's natural, but to arrive at that conclusion, is the nut he has to crack at the coming primary election.

WHAT'S the matter with the old time rainmakers? Here we have the Middle West parching for months, offering the biggest of opportunities for the professors, and not one of them shows up to demonstrate his power and relieve suffering crops and animals.

Older residents of Stanton will re-embarked areas, with fine-spun theomember the gentry. They came into ries of the upper air and moisture, and often with guns, kites, balloons and other paraphernalia to be used in their mystic rites.

Sometimes luck stayed with them and shortly after their incantations rain fell. Often the citizenry believed in their magic and crossed their palms with silver contributions. Today, however, the profession has faded.

ed, because people are more intelligent or the present drought surpasses their power.

The idea for rain-making was gained from Fourth of July celebrations. In the days gone by all manner of explosive devices were turned loose during the day and night. To send the day off to a good start in the early morning of the Fourth loud reports that deafened the ears of the inhabitants and shook the windows for blocks around came from the blacksmith's anvil A hand ful of powder was placed in the hole of one anvil and another placed on top of the loaded anvil. Then a long iron heated to a white heat was applied to the powder, and the explosion followed. Then followed in quick succession the discharge of six-shooters, shot guns and rifles poked up into the air. Throughout the day small firecrackers, canon crackers and torpedoes boomed. At night skyrockets, roman candles and the like illuminated the sky, and on many occasions, either that day or the one following, rain fell. It was supposed the concussion from the explosives set the elements in motion and sent rain down upon the country.

EVERY newspaper man knows of people who borrow his newspaper every issue and read it—although "there's nothing in it."

THIS newspaper does not intend to try to hold up business men, or to fool them into spending money foolishly. In the long run such a policy could not help us. Our business must grow as our advertisers profit—only through their gains will we make progress. Hence, there is absolutely no temptation to overload a business with advertising. We seek results for our advertisers and solicit their business because we know, and so do others, that advertising in The Stanton Reporter is profitable to advertisers when used correctly.

Thomas Riley, 59, An Itinerant, Died Here Last Friday

Only Immediate Surviving Friend Was A Young German Police Dog

A man giving his name as Thomas Riley, and his age 59, died in a tourist camp in Stanton last Friday and was buried in the potter's field Monday. Rev. Jim Sharp, pastor of the Methodist church had charge of the funeral services.

Riley was discovered under the cotton platform last Monday by E. Price, station agent for the T-P railroad. He complained of being ill, and was removed to a local tourist camp and medical aid summoned. It was found that Riley was in a serious condition suffering from kidney and bowel trouble.

According to his statement Riley served both in the Spanish-American World Wars; had come from Ireland to New York City when 8 years old, and from there moved to Pennsylvania. He claimed to have a sister living in that state from whom he had not heard in 8 years. He had in his possession two small photographs, one of himself and the other of two ladies one of whom it was thought was his sister. According to his statement he was a bachelor. With him he had a young German police dog and as he grew worse he called for the dog.

City Marshall White had the dog in his possession, and when brought to the room of the sick man the dog heard his master cough and strange, and rushed to the bedside, arriving too late to hear the usual kind words from his master—for the man was unable to talk. He stroked the dog's head, looked briefly into the animal's eyes and died with the semblance of a smile on his lips.

SNYDER LOSES TO LOCAL GOLFERS IN SUNDAY'S MATCH

SCORE RESULTED IN STANTON CHALKING UP 26 ON SCORE BOARD WHILE SNYDER WAS GARNERING 14.

T. W. HAYNIE

Our Sand Belt team played a close and enjoyable game with Snyder golfers Sunday afternoon losing two personal matches and one low ball on the 19th hole, which, with the 8 points given to each team game Snyder 14 points.

It looked like we could not win on the extra hole until C. Burnam and Adams won their double match on the 19th.

The afternoon was warm and the players drank very liberally of the ice water which we provided, and then proceeded to burn up the fairways with drives that fairly smoked, and pitches that curled right up to the pin.

We always enjoy playing with Snyder over there and on the home field. The teams are about evenly matched and we get a thrill out of every shot because of the even matches we play.

First Flight

Glaser shot a 75 to defeat Robert's 77.

Woodard shot 74 to tie Earl Fish with 74.

Woodard lost his match and he and Glaser lost their double match on the 19th hole. Snyder 6, Stanton 4.

Second Flight

Haynie shot 73 to win from Wilmoth's 77.

Henson shot 74 to win from Scott's 77.

Stanton won the doubles match.

The writer's 73 gave him medallat honors for the afternoon. Snyder 2, Stanton 8.

Third Flight

Adams shot 78 to win over William's 79.

C. Burnam shot 78 to win from Farmers' 80.

Stanton won the doubles match on the 19th hole. Snyder 2, Stanton, 8.

Fourth Flight

Purser' 77 tied Cotton's 77, and Purser short putted No. 19 to lose his personal match.

J. Burnam's 78 was too good for Kelly's 85.

Stanton was the winner of the low ball. Snyder 4, Stanton 6.

So long Snyder—see you next year

A REAL TREAT AWAITING METHODIST NEXT SUNDAY

There is a real treat for the Methodist people next Sunday morning. Brother Hankins, a good layman will hold the service at the 11 o'clock hour.

We are not sure who will preach Sunday night but we want every one that can to attend all the services.

The first Sunday in July we are going to have our services at 8:30 in the morning. There will be only 45 minutes for Sunday school and 45 minutes for the preaching service. That means that we will be through with the morning services by 10 o'clock and ready to go home. The pastor will be here for that service and it is our hope that every one will help us in the services that we hold early.

We are starting off in a good way at Coahoma in the revival. We are preaching three times daily.

Jim H. Sharp, Pastor

"BEST QUALITY, BEST SERVICE"

Stanton Service Club Planning Barbecue

At the meeting Tuesday noon of the Stanton Service Club it was decided to investigate the matter of holding a county-wide barbecue at which state and county candidates will be invited to come and participate in the festivities of the day and also "speak their little pieces" on why they should be elected to the office to which they aspire. The matter of making definite plans and setting the date on which the occasion will be held has been placed in the hands of a committee.

French Gray reported for the road committee that conferred with Judge Ely of the state highway commission relative to gaining aid to build a road to connect up Stanton with Ackerly. Result of conference was at the present time little assistance could be expected from the highway commission but the committee was informed by Ely to "keep hammering away" on the project.

A quilt made by the Courtney

Home Demonstration Club was displayed on the wall of the lunch room and a representative of the Courtney club explained that the quilt was one to be given away.

The ladies of the County Home Demonstration Council served the luncheon, and the complaint coming from the Service club members was they were suffering from eating too much, because the edibles were too inviting and their appetites got away from them.

Mrs. Allen Kaderli, on behalf of the Council expressed thanks to the club, and reminded the assemblage of the County Clothing Contest to be held Saturday in Stanton at the high school building. Also, gave each member of the club a year book of the home demonstration clubs of Martin county.

The Shipley demonstration club will serve luncheon to the business men at their meeting.

Miss Alice Mae Pegues and Scott Pegues, Jr., of Chrystal City, visited last week end in the home of their aunt, Mrs. Claud Houston.

Ceremony Held At Home of Bride At Robert Lee

Robert Lee, June 12.—Miss Wilma Jean Key, special correspondent for the Standard-Times, was married this afternoon at 2 p. m. in the home of her parents here to G. B. Shelburne, Jr., of Abilene. Elder L. W. Hayhurst of the Church of Christ, with whom Mr. Shelburne is now engaged in a meeting at Mereta, officiated.

Mr. and Mrs. Shelburne left immediately for Mereta, where they will continue in the Mereta revival with Elder Hayhurst until Sunday. They will probably be in the Reynolds community next week, where Mr. Shelburne has tentatively planned a revival. Thence the couple will proceed to several West Texas points where they will be engaged in revivals this summer.

Mrs. Shelburne, for nine months the principal news gatherer for the Standard-Times in Robert Lee, was graduated from Robert Lee High School as honor student in the class of 1932.

That fall she attended Abilene Christian College. She is the daughter of Mr. and Mrs. D. P. Key of Robert Lee.

Mr. Shelburne is the son of Mr. and Mrs. George B. Shelburne of Stanton, Texas. He is to begin his senior year in Abilene Christian College the early part of September. After the summer's work is over Mr. and Mrs. Shelburne will be at home in Abilene, where he will continue his ministerial duties as well as school work.

The above clipping appeared in the San Angelo Standard, arriving here too late last week for reprint in the Reporter. Lucky it was this paper has an exchange connection with these San Angelo newspapers or we might have printed the obituary of "GIP" before we had found out he was married, yet Stanton is his old home town, a graduate of the Stanton high school, carrying the distinction of receiving his diploma with the honor student of his class, and proving valuable to this paper as a sports writer and writing special features. Anyway, the entire populace of Stanton, send to this happy couple their heartiest congratulations.

The writer glories in his reputation of never allowing anything pass him but a rifle shot but "GIP" put one by us this time.

WTCC President Makes King Director

M. F. King, Stanton, director in the West Texas Chamber of Commerce has received notice of his appointment by James D. Hamlin, president, as a member of the regional chamber's Commission on Agriculture and Livestock for the fiscal year.

The objectives of the commission are set forth by Hamlin as follows: (1) execution of any emergency assignments having to do with the welfare of agricultural and livestock industries; (2) in cooperation with the State Agricultural Extension Service, launch live-at-home campaigns in the various agricultural counties; (3) inaugurate campaign to secure one or more subsistence homesteads for each of the ten West Texas Chamber of Commerce districts; (4) promote maximum competition in cotton buying; (5) organize county allotment committees for the purpose of securing maximum allotments of cotton under the Rankhead bill, and of cotton and wheat under the Agricultural Adjustment Act; (6) continue cooperation on program of making cattle a basic commodity under AAA and to secure tax on imported vegetable oils; (7) determine whether processing tax penalizes the West Texas grade of cotton and if so work to reduce the tax; and (8) cooperate in securing maximum benefits for West Texas from various services of the Farm Credit Administration.

An administrative board of five has been created within the commission of forty-six members with power to act for the commission on short notice as follows: Clifford B. Jones, Spur, chairman; Knox Pittard, Anson; P. B. Ralls, Ralls; W. J. Morton, Dumas; E. K. Fawcett, Del Rio.

To carry on the entire program of the regional chamber, Hamlin has created four other commissions similarly organized and with definite objectives. They are: Commission on Public Expenditures and Taxation; Commission on Territorial Development; Commission on Mineral Resources and Traffic; Commission on Publicity and Promotion.

HOW BIG A LUBRICATING JOB CAN A QUART OF OIL DO?

HERE is a record of motor protection and low consumption that conclusively proves how big a lubricating job a quart of oil can do. Six strictly stock cars, with one fill—five quarts only—of six different, nationally advertised motor oils were run to "destruction" at the Indianapolis Speedway under AAA Supervision. Under exactly similar conditions the cars were operated until their motors failed. Here is the result: Oil No. 4 went 1713.2 miles; Oil No. 6 went 1764.4 miles; Oil No. 5 finished 1815.9 miles; Oil No. 1 completed 2266.8 miles. Oil No. 3 totalled 3318.8 miles. Oil No. 2, New and Improved Conoco Germ Processed Motor Oil, piled up the amazing total of 4729 miles! That was 3000 miles farther than the first oil to go out, and 1400 miles farther than the last oil to fail.

Such demonstrated superior qualities of greater film strength, ability to withstand increased heat, resistance to dilution—such proved performance should guide your future oil purchases. Be safe—look for the Red Triangle Sign.
