SNOOTER NOSSE

FRIDAY NOV. 11

This tribute on Armistice Day is to the dead and the living. It serves to stir memory and remind nations of their obligations to those who answered the call to arms and threw themselves into the walls of defense in a cause that was deemed just. . . . Greater honor goes to the dead . . . those gallant souls that even in their fear marched straight into the cannon mouth . . . Great honor also to the living . . . to the last man of them, we know full well would never have turned back so long as the life of our nation was threatened.

We record this tribute so that fellowmen and citizens may not forget and so that we may never be charged of lacking in loyalty . . . This hour in 1938 has brought forth its problems . . . but in our perplexity as to the solutions which will mean justice to all . . . let it not be said that we failed to tribute where tribute is due.

**TO THE READERS:** If you get the Reporter on Thursday of this week, remember that Friday, is Armistice Day, a legal holiday, and should you receive it Saturday morning, remember we just couldn't make the boat. This effusion is being written early Monday morning with mittens on our hands, earmuffs on our ears and summer neather garments freezing our neather extremities—caught without a winter change. The thermometer is down to freezing and a light mantle of snow is doing a pretty good job at covering the ground. Something has to be done to fill this column, and as it doesn't matter that it be anything of importance, we here-with blaze away.

If we don't make the routes Thursday morning the boys in the hot-stove league will have something to talk about our rushing "rushing the season" with a part of this column.

We like to take the bright and early Monday mornings following a Saturday night visit to all the night clubs (not here) and passing Sunday by gathering up the debris of the night before and nursing pains and aches that follow the night before.

But experiences of that kind have been scooted into the limbo by this conductor long, long ago, but one who is a close observer of this column thinks the conductor still in that "morning after" trance and the keeper of the caboose on a "slow train through Arkansas."

LEST we not forget, Saturday, November 26th, is the day set for the election on the \$50,000 road bond issue. It's a third try by its proponents to put it over. We just wanted to jog your memory so you wouldn't have that alibi "I clear forgot to go vote, or, "the proposition will carry, anyway, whether I vote or not.

WITHOUT one word being said to us about it, Wm. J. Tucker, executive secretary of the Game, Fish and Oyster Commission, Austin, has honored the writer with a membership on the Wildlife board for Martin county. Wildlife has been our hobby. At the game we are a master of ceremonies. Oh boy, just give us the wild women, wild wine and wild song—it's the life supreme if you don't weaken. Our friend Tucker evidently has not been a visitor of our fair community. We haven't the makings here to go wild over. We will have to

## MRS. MOSE LAWS ENTERTAINS

Mrs. Mose Laws entertained the Methodist Sunday School Junior Department, Tuesday night November 1, with a Halloween party. The house was decorated with black cats, pumpkins and witches. Each child costumed. A prize was given to Bobby Hittson for having the best makeup.

Several games were played during the evening. Refreshments of cookies and hot chocolate, were served. Balloons were the plate favors.

Those present were: Bobby and David Hill, Thomas Morris, Bobbie and Babs Hittson, Betty Gibson, Betty Ree Alsop, John-Beth and Hardin Zimmerman, Mary and H. C. Burnam, Johnnie Howse, Rodger and Culver Southall, Mary Cauthon, Barbara Barnhill, Jane Anne Cox, James and Beanie McCoy, Taylor and Johnnie Van Zandt, Jerry Hall, Bobby Don Renfro, Margaret and Bert Laws; Mmes. Barnhill, Van Zandt, McCoy and the hostess.

## A NICE ARRANGEMENT

We have often noticed a stop sign in Cisco by the Burton Lingo Lumber Company which offers a \$12.00 fine for not observing the sign, by order of the mayor. We have often wondered how many fines Mayor J. T. Berry, who has his office in the lumber yard building collected. In some towns stop signs are not observed as carefully as they should be, but we have never noticed a violation of this particular sign. Mayor Berry and his location are too well known in Cisco. Mr. Berry takes an active interest in civic welfare and inspires the folk to abide by all laws, because of their justice and aid to the public in general. We believe Cisco has a good mayor which in a large part promotes the progressive spirit of the town.—Mildred Yeager in her Window Seat in her Putnam

There can be no question of Mr. Berry being a good mayor, if he is like his son Phil Berry of Stanton.

## COURTNEY SCHOOL TO OPEN MONDAY

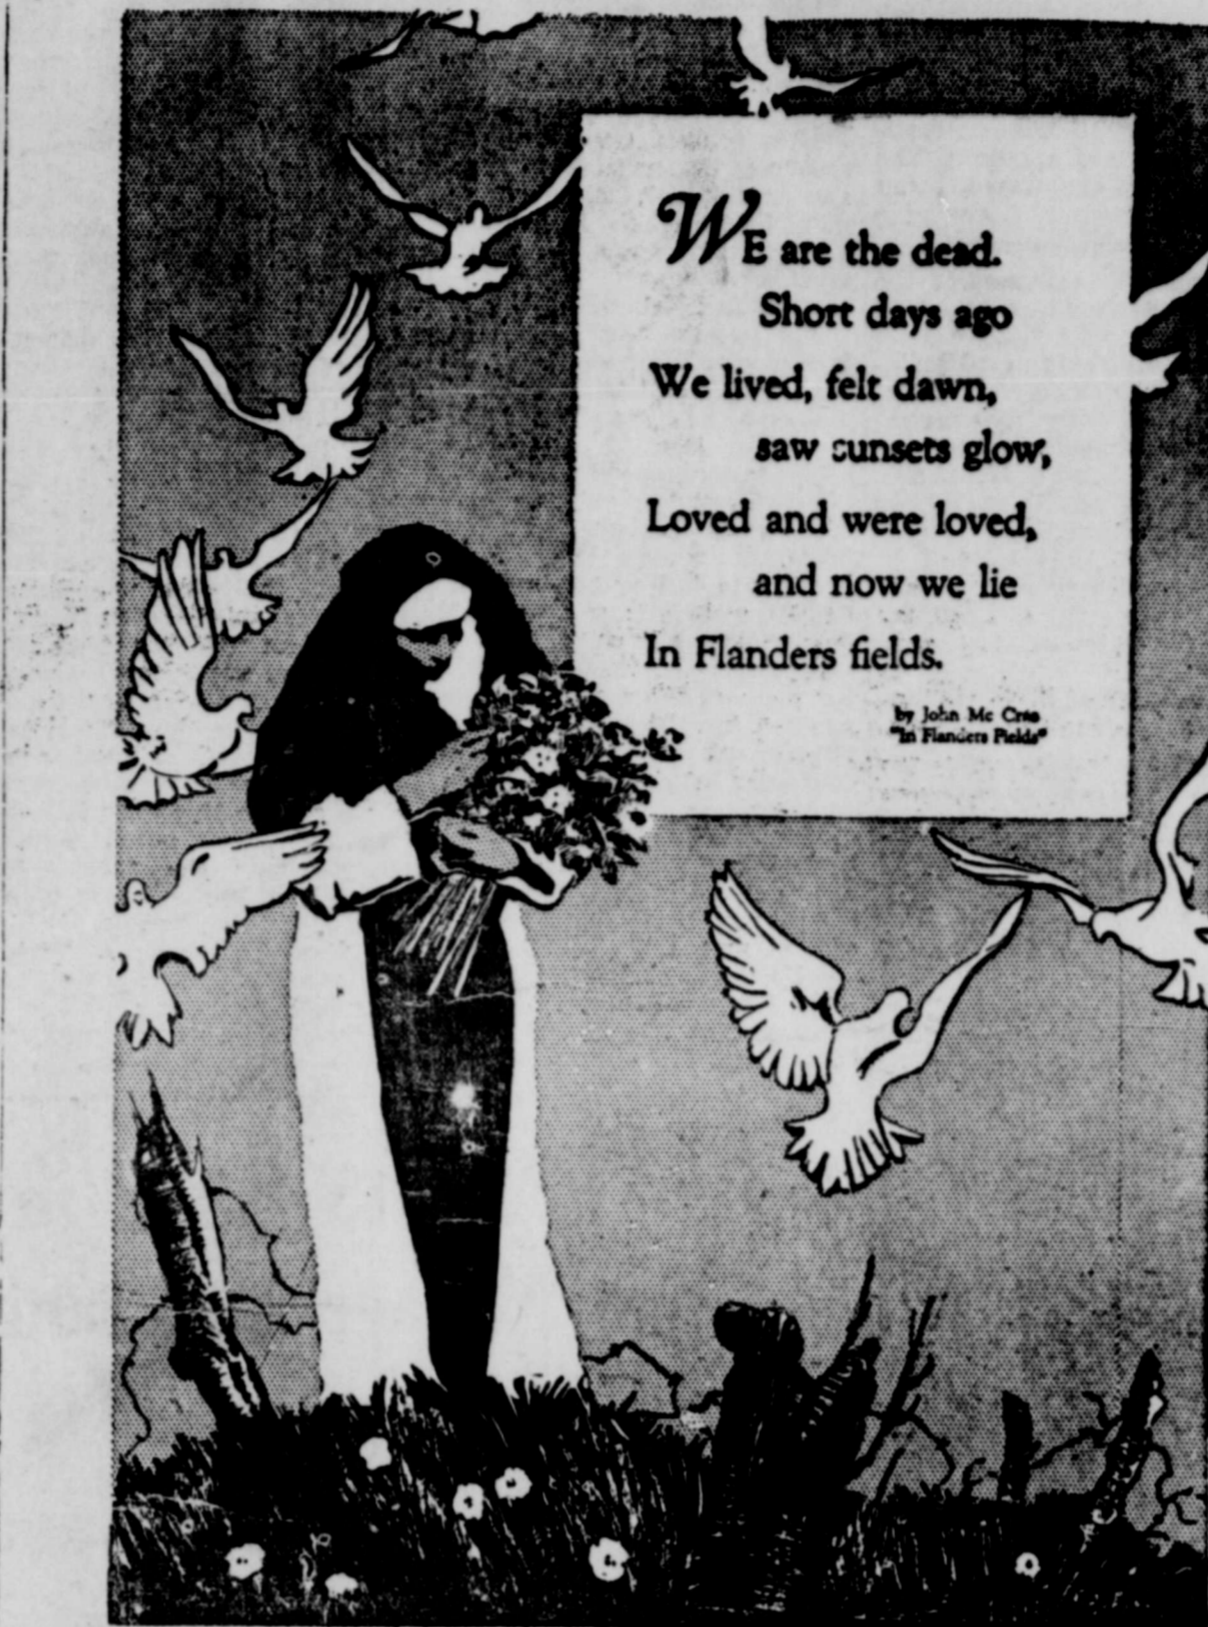

Monday morning November 14, the Courtney high school will open for the remainder of the term after being excused several weeks for the cotton picking season.

According to Riggs Sheppard, superintendent of the school, there is the largest attendance at the Courtney school than ever before, and after this month's vacation the school is to go forward at a great pace. The buss schedules will be as they were before school closed.

intrude on the ranges of Paul Barron, Midland; Ralph Shuffler, Odessa, and if these boys can't produce enough wildlife in the raw, perhaps, we can coax Johnny Smith of Monahan's to move over a little.

But all jokes aside Mr. Tucker has made the writer, according to his letter, appointed us a member of the Wildlife Planning Board for Martin county. The Game, Fish and Oyster Commission of the State of Texas, has reached a decision to organize in each county of the State a Wildlife Planning Board. Members of the board will be appointed through the office of the Game, Fish and Oyster Commission in Austin. A County Wildlife Planning Board will give the Game, Fish and Oyster Commission, a medium for closer contact with the people in any county of the State who are interested in the restoration and development of wildlife resources.

All Wildlife Planning Boards will be composed of interested and informed citizens, who in harmony can discuss, recom-

Through their efforts they will get any necessary support from the legislature and administrative branches of the government that are compatible with sound public policy."

## HUSBAND AND WIFE KILLED IN TRAIN-ANTO COLLISION

Mr. and Mrs. Barney Cravens, who were killed in an auto-train crash in California, Oct. 30, were buried in Brownfield, last Saturday. Mr. Cravens is a brother of Charley Cravens of Stanton.

Barney Cravens operated a farm, 25 miles north of Stanton for his brother Charley, and had recently moved to California.

## WARNING AS TO ENDORSEMENT OF GOVERNMENT CHECKS

The United States Treasury Department is now issuing a large number of government checks which will ultimately be presented either to merchants or banks in the ordinary course of business. We call to the attention of the public at this time the absolute importance of requiring most positive identification of the persons presenting those checks. Assuming that a government check is made possible to one "John J. Doe" it becomes of great importance that no other person other than a "John J. Doe" endorse or negotiate such check. If the person presenting the government check is not personally known it is important that whoever identifies such person also endorse the government check for such purpose; this latter person should be reliable and financially responsible.

The suggestion is made that business establishments adopt a definite rule requiring every employee to initial all government checks tendered to them regardless of the fact that some person, other than the first employee is charged with the responsibility for "Ok-ing" such checks. This method will assist in later identification of the check and transaction in the event of claim or controversy.

The Government reserves the right to come back on the endorsers at any time — often many years after the transaction has occurred—hence this warning notice is more significant than for other types of checks which are usually cancelled and returned by the bank monthly or a short term period.

This information is released in order to call attention to this type of transaction which might otherwise not receive special attention.

Do not cash any kind of checks for strangers, more particularly Government Checks. Demand and receive positive identification at all times before you extend such accommodations!!!!

## AS TO CLOSING ARMISTICE

The Reporter has no reliable information as to whether or not the business places of Stanton will be closed for Armistice Day. About the places we are certain will close for the day are the local bank and the post-office. A rush is being made by the Reporter to mail the papers so they will reach the subscribers on the routes Thursday.

The Stanton school will take a half holiday in the afternoon of Armistice Day.

The feature entertainment anywhere close to Stanton for afternoon of Friday is the football game at Midland between the Pecos Eagles and the Midland Bulldogs. This is an annual grudge battle, and as both teams are evenly matched, a fine game and a record attendance is promised.

## West Leave for Baird

Mr. and Mrs. Charley West, who have been living in Stanton for some time coming here from Hamilton, are leaving Sunday for Baird to make their home. Mr. West has been employed at the Toggery. Last Sunday Mr. and Mrs. West and Mrs. Jim Tom and Mary Sue Moffett, went to Abilene where Mrs. Tom and Mary Sue visited Mrs. V. Y. Sadler and Mrs. Gilbert Graves. Mr. and Mrs. West went to Baird and there made a deal whereby they became owners of the Elite Cleaners, which was the property of Mrs. Magee.

## NAGGING BACKACHE

May Warn of Disordered Kidney Action, Don't Neglect

Modern life with its hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, and strain, keeps doctors crowded. The after-effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar illnesses there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting tired, swelling, puffiness under the eyes, a feeling of nervous anxiety, and loss of strength and energy. Oil of turpentine, after or bladder disturbance may be a sign of kidney trouble. All over the country, people are grateful for the help of Doan's Kidney Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at drug stores.

Cognizant of tremendous losses in human lives and of permanent injuries resulting from accidents in homes, on farms and highways, and around industrial plants as well as in the basement workshop, officials of the American Red Cross have been directing a systematic fight against what they term "this economic waste."

As part of this nation-wide effort to reduce deaths and permanent injuries from accidents, a recent statement from Red Cross headquarters in Washington reports that during the past 12 months certificates have been granted to 295,023 persons completing courses in the administration of Red Cross first aid.

Holdings of these certificates have followed detailed courses of study and have been taught how to splint fractured limbs, stop flow of blood, treat poison sufferers, care for victims of heat, electric shock, and handle other common emergency situations. The courses emphasize methods of caring for patients until professional medical aid can be summoned to scenes of accidents.

Since 1910, the report reveals, 1,725,406 persons have received this training from qualified Red Cross instructors, and at the present time 20,429 persons are qualified to give such instruction.

Bringing help nearer scenes of possible accident, 2,454 emergency first aid stations have been established in strategic locations on principal highways throughout the nation, operators of the stations receiving the prescribed Red Cross instructions and maintaining full first aid equipment on the spot.

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.  
Symptoms may be sagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

### TESTED RECIPE

By Frances Lee Barton

WITH the departure of summer sunshine and the arrival of cold weather, mothers naturally will plan to serve more substantial food. Here is a dessert for a nippy day which not only supplies important food values, but is also supremely good to eat.

**Coconut Molasses Cake**

2 1/2 cups sifted cake flour; 2 1/2 teaspoons double-acting baking powder; 1/2 teaspoon salt; 1/4 teaspoon soda; 1/2 teaspoon allspice; 1 teaspoon cinnamon; 1/2 cup butter or other shortening; 1 cup brown sugar, firmly packed; 1 egg, unbeaten; 3/4 cup molasses; 1/2 cup milk; 1 1/2 cup shredded coconut, coarsely cut.

Sift flour once, measure, add baking powder, salt, soda, and spices, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg and beat well; then molasses. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Fold in coconut. Bake in greased pan, 8 x 8 x 2-inches, in moderate oven (375° F.) 45 minutes, or until done.

### TESTED RECIPE

By Frances Lee Barton

TO have suggested an improvement on quince jelly in grandmother's day would have been branded as positive sacrilege—and there is no doubt but that the old lady's quince jelly was delicious. But our generation prides itself on improving on perfection itself!

So in this spirit some inspired jelly maker with a talent for combining flavors introduced the quince to the cranberry—and created a masterpiece of jelly-making. Try it—and make it by the short boil method with bottled fruit pectin.

**Quince and Cranberry Jelly**

4 1/2 cups (2 1/2 lbs.) juice; 7 cups (3 lbs.) sugar; 1/2 bottle fruit pectin.

To prepare juice, remove cores, blossom and stem ends from about 1 1/2 pounds fully ripe quinces. Do not peel. Grind fine; add 1 pound fully ripe cranberries and 4 1/2 cups water; bring to a boil, cover, and simmer 15 minutes. Place fruits in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 1/2 minute. Remove from fire, skim, pour quickly. Pour hot jelly at once. Makes about 11 glasses (6 fluid ounces each).

### Freshman's Not So Green in Politics

Leader of the largest freshman class in history of Texas State College for Women is the title accorded Miss Hope Read of Lubbock, who was elected "Frosh Prexy" by 1155 classmates. Miss Read brought a record of many high school activities to college with her, which were used to good advantage by her supporters during the week of stump-speaking and banner-waving before the election. The daughter of Mr. and Mrs. Charles Read, she was chosen out of more than fifty nominees.

Continue for two or three days and you'll hear little more from that tough old hang-on cough that nothing seems to help—if not joyfully satisfied—money back.

**FUNERAL HELD FOR MARTIN COUNTY STOCK FARMER**

Final tribute was paid to George Machlen Long, 73, Martin county stock farmer, who succumbed at his home north of Stanton at 7:40 p. m. Monday following a long illness.

Following rites Tuesday afternoon at the Church of Christ by the pastor George Shelburne, burial was made in the Evergreen cemetery.

Mr. Long, who was born in Indiana on Oct. 21, 1865, came to Stanton in 1917, and was well

known in this area. Several years ago he became ill, and six months ago a recurrence of the ailment confined him to his bed.

Surviving are his widow, Joan Alvis Long, and four children, Elmer Long and Allene Long of Stanton, and Curtis Long and Mrs. Bill Fox, of Goldthwaite. He leaves four grandchildren.

Pall bearers were Marner Hamnie, Ovie Allen, John Epley, Earl Rowden, Mack Henderson and Edmund Morrow.

Honorary pallbearers were W. W. Eiland, John Atchison, S. E. Walker, J. L. Hall, Dr. P. M. Bristow, Mr. Caldwell, J. L. La-

mar, T. E. Mashburn, W. G. Morrow, N. Kaderli, and Dick Houston.

*Armistice Day*

MARCHING FEET, thousands of them now stilled. . . They carried brave souls to their supreme sacrifice to give their all for us. . . We therefore pause again to pay tribute, a sincere and grateful tribute, to those soldiers brave. May gratitude for their sacrifices never cease to exist in this nation of ours. . . In the stress of the present we sometimes fail to remember the trials of the past, those war-torn years of sacrifice of loved ones, losses far greater than of any material standard. Armistice Day is observed each year so that we may not forget. . . Let us ever remember to pay grateful tribute in a sincere acknowledgement that "no greater sacrifice can any man make than he give his life for his fellowmen."

That is true of the lowest priced car or the highest. All have one important thing in common—inherent quality. Their quality comes from fine materials, precision workmanship, and from the fact that back of these cars is the only automobile plant

of its kind—where production processes are controlled from iron ore to finished car—and savings passed along as extra value.

Things are happening in the automotive world this year! Nowhere is the advance more marked than in the Ford Quality Group. See our dealers before you buy any car at any price.

**HARLEY SADLER SHOWED TO CROWDED TENTS**

After a 2-night engagement showing to a crowded tent each night, the Harley Sadler show folded its tent Tuesday night and silently stole away, leaving behind a warm spot in the hearts of Martin county folk for the clean wholesome entertainment given by the company. The members of this company, even down to the stake drivers, are a fine lot of folks. Harley Sadler won't tolerate any other kind.

A very unusual trait of Harley Sadler, and one this writer has never seen before carried along by road shows of any kind, but one that is received with MUCH pleasure by the editors of print shops wherever the show is scheduled to play, is the "pay-off" method employed by Mr. Sadler. His director of publicity and advertising man, Connie Munde, sends the publicity dope and the advertising to the newspaper office ahead of the show. When the company arrives in town the first fellow from the company to visit the newspaper office is Connie Munde, calling for the bill for advertising, pays for same, at the same time handing the editor a liberal supply of reserved seat passes for the engagements. Our experience with road shows is on the night of the performance, (if the show ever shows up at all), is stuff the bill in our pocket with half a dozen of our papers as evidence the advertisement was printed, go to the entrance of the show, fall-

ing over kids and worming ourselves through the crowd, only to find that the "pay-off" man is at the elephant's exhibit at the far end of the tent, or is out and will be back presently. At any rate an hour is consumed standing around on the show grounds.

Another amiable trait of character about this man Harley Sadler, is that he is as common as an old shoe, no fortunate circumstance comes his way that causes his chest to expand far out beyond his chin, if so, the election of Jerry Sadler, his cousin, as railroad commissioner defeating a senior member of

the commission in the July primary, for whom he stumped the state for, that would have enlarged his hat band to considerable proportions. At each of his performance Mr. Sadler takes occasion in his curtain talk to pay tribute to the home newspaper, the fire department and American Legion Post.

A headache's nagging pain handicaps physical and mental efficiency. Most headaches are symptoms of organic disorder. Their causes may be glandular imbalance, obscure infection, digestive disorders or other ailments.

Many types of headaches are entirely preventable and their causes are removable. A physician should be consulted for accurate diagnosis and effective treatment.

#### EAGLES BEAT BUFFS 34-13

The Pecos Eagles beat the Stanton Buffaloes easily last Friday night, much as was expected, but the surprising thing about it was that Stanton scored as much as they did. Until Friday night the Eagles had never had more than one touchdown per game scored against them—Stanton had two.

Howard Pinkston scored two markers for the Bison. He was a threat to the Eagles at all times. In the second half Hull calling the plays the Buffs seemed to come to life and made a bid for several counters that they didn't receive. On the whole the first half was dull with the Pecos crew marking up 21 points in the first quarter.

The Stanton club takes on the Crane Cranes in the town of the same name Armistice Day. The Cranes are favored and will probably win. It is a cinch the Buffs will score.

The Stanton Six-man club has been idle for a while and are reaching for a game now. . . Supt. Southall has tried to arrange a game with the Garner club but Garner had declined to take on the Buffs and they are still willing to take on all comers.

#### New Park to be Donated

Future generations of Texas will enjoy one of the most beautiful scenic sections of the Trans Pecos region under plans now under way by the State Park Board and the Legislature to set aside a tract of 1600 acres in the Guadalupe Mountains as a State park and wildlife sanctuary. The land has been offered as a donation by J. C. Hunter, Wichita Falls oilman. It includes beautiful McKittrick Canyon and El Capitan, famous peak. The country contains bighorn sheep, mule deer, and a colony of elk numbering 400, introduced from Yellowstone park's herd several years ago. The State Highway department will develop plans for a road into the area if it becomes a State park and game preserve.

### SCHOOL EVENTS

## Waterfowl Back on Production

More ducks than sportsmen have seen since 1929 are now southbound. Top, a pair of blacks, or black mallard, the varriest of all. This is one of the most popular species east of the Mississippi. Middle, a baldpate, or American widgeon, coming back in large numbers along the Pacific Flyway. Bottom, broadbill or big bluebill, a favorite of open water. Plentiful again as the duck depression ends.

### What is an Enjoyable Radio Program Worth to You?

Football games, news stories and other events are brought to your easy chair by the magic of radio, for a cost of less than 1 cent an hour!

Isn't that a small price to pay for an hour's radio entertainment for you and your family?

Other electric appliances in your home work for you just as cheaply. Your reading lamp (150-watts) uses about 1 cent's worth of electricity an hour. That is why we say that electric service is the biggest bargain in your home.
