

## Ed Fund Drive Lags, Hwy Mark Is Passed

A campaign for the Ed fund drive lags, with highway marking barely passed in the drive. The war scare and the disappointing results of the drive are the main reasons, a spokesman said today. The drive is being conducted through generous contributions from the public. If all proceeds are not received by Friday, the drive will be closed.

## Mr. and Mrs. Jack McAdoo to Open New Ben Franklin Store in Haskell

Purchase of the Ben Franklin Store in Haskell was announced this week by Mr. and Mrs. Jack McAdoo of Rule. They are longtime residents of Haskell County and are well known in this area. Mr. McAdoo has over 20 years experience in variety merchandising and also owns the Ben Franklin Store in Rule. "Operation of the store," said Mr. McAdoo, "after being completely rebuilt, will continue to follow the Ben Franklin plan for independently owned variety stores followed by more than 2400 Ben Franklin stores throughout the country. These stores operate in conjunction with Butler Brothers nationwide merchandising organization. This plan enables local variety stores, operated to fit the needs of their local community, to give shopping the benefits of central buying in large quantities," he explained. Ben Franklin Stores professional buyers each year interview more than 10,000 salesmen and travel to all parts of the U. S. and many foreign countries to visit 2,500 factories and sales rooms. On the average, Mr. McAdoo said, buyers examine 20 new products for every one selected as being top quality and value for presentation to Ben Franklin customers. Mr. McAdoo pointed out that backed by this national organization, the Ben Franklin is now the largest group of variety stores in the nation. In the very near future, Mr. McAdoo said they are planning a gala grand opening event to announce their grand opening and help them get better acquainted with Haskell and their friends both old and new.

## Ford Dealership to Sponsor School Football Contest

Other schools in the county would assist. "PP&K" pits the punting, passing and place kicking skills of boys seven through 11 against all other participants of the same age. The youngsters attracted 205,000 young fans last year, when it was launched, and was cited by President John F. Kennedy for its contribution to "the physical fitness of our youth." Mr. Gipson said that registration for this year's PP&K competition for area footballers will be held Saturday, Nov. 3, at Bill Wilson Motor Company, starting at 2 p. m. All eligible youths in Haskell County schools are invited to enter the contest.

## Dr. Bennett Will Speak at Paint Creek Church

He has been asked to bring this same message to the Paint Creek Methodist Church at the 6:30 p. m. worship service Sunday, Nov. 4. A cordial invitation is extended to all who will come to hear this outstanding church leader.

## Indians "B" Team Wallops Anson For 6th Win

The Haskell "B" team roared to its sixth straight victory by downing Anson "B" 44-7 here last Thursday night. The Indians, playing a faultless game the first half, blazed to a 38-0 lead at half time. Quarterback Ronnie Jeter made the first tally for the Indians and then passed to end Jimmy Larned for the two-pointer. With the Indians playing rugged defense, the second quarter proved to be Anson's Waterloo. Led by their running backs of Hester, Perkins and Conner, the Indians tallied 30 points in this quarter. Fullback Gary Conner scored on a dive to open this quarter; try for point failed. It was then that James Perkins and Eddie Hester went to work. Perkins scampered over from the 20 and Hester tallied the two-pointer. With some fine trap blocking by the Indian line, Perkins ran 80 yards to score again. Hester ran off right tackle for the extra point. Hester made the final TD of the half on an end run from the 15. This TD was set up by a 30-yard pass from Jeter to his wingback Jay Gipson. Conner blasted over for the "2." Half time score, 38-0, Haskell.

## Light Vote Expected In General Election Tuesday

PAYNE HATTOX In Sweden for Gospel Meeting

Payne Hattox, minister of the Church of Christ in Goree and a former Haskell businessman, is in Stockholm, Sweden, where he is helping in a three-weeks gospel meeting. Mr. Hattox left Saturday for Stockholm, going first to Dallas, where he boarded a plane for the overseas trip. The gospel meeting is being held by the Church of Christ in Stockholm, and Mr. Hattox said that plans were to put on a house to house gospel campaign. He will be working with about 12 other preachers during the meeting, some natives and some missionaries from the United States. Hattox and his family are former missionaries to Sweden, having lived there from 1957 to 1959. They were among the first group of missionaries to go to Sweden and helped establish the first Church of Christ there. Minister Hattox preached for the church for two years before returning to the States late in 1959.

## Mother Is Charged In Alleged Beating of Adopted Daughter

A Haskell housewife, Wanda Louise Scott, about 34, has been charged with aggravated assault in a complaint filed in County Court in connection with the alleged beating of her 3-year-old adopted daughter, Lori Teresa, on Wednesday of last week. Bond for Mrs. Scott was set at \$1,000, which was readily perfected. Trial date has not been set. The child was taken to the Haskell Hospital around noon Wednesday by its foster father, Grady Scott, employee at a local cotton gin. The little tot was unconscious, and appeared to have been struck several blows on the face and head. County Judge Jas. C. Alvis and Sheriff Garth Garrett were notified of the child's condition and began an immediate inquiry into circumstances surrounding the case. The investigating officers said that Mrs. Scott told them that when the child lost consciousness, she placed it in a bath tub and poured water on its face in an effort to revive the child. Then she telephoned her husband and told him she could not revive the little girl. Scott went home immediately and carried the child to the hospital. After treatment by doctors the child was partially revived and finally regained consciousness. Hospital attendants said that some water had entered the girl's lungs. The child responded to treatment quickly, and by Friday was well on the road to recovery, but and lively as ever except for her injuries. Officers said that doctors and nurses at the hospital were shocked by the alleged severe beating inflicted on the little girl. They said her body was black and blue almost all over, and at first feared that the tip of her nose had been cut off and that a small portion of her left ear was gone. Later, hospital attendants said they did not believe the child would be disfigured, although a few scars might remain. They described the tot as a "pretty little girl, with black, curly hair."

## Heavy Turn-Out Of Democrats Urged Tuesday

County Democratic Chairman Chas. M. Conner today called on all Democrats to go to the polls on election day—Tuesday, Nov. 6—and help strengthen the county's position in Democratic party affairs. "A large turn-out at the polls will serve a dual purpose," said Mr. Conner. "It will help insure an overwhelming victory for the Democratic candidates and at the same time build up our County's strength in the 1964 conventions." The county chairman continued: "The voting strength of Haskell County in the 1964 State Democratic Convention is at stake in this General Election. The kind of voice we have in determining the affairs of the Democratic Party in Texas depends on the number of votes cast for John Connally." Mr. Conner cited provisions of the Texas Election Code which provide that each county is entitled to one delegate to the State Democratic Convention for each 500 votes cast in the county for the party's gubernatorial candidate. Each precinct in 1964 will have one delegate to the County Convention for every 25 votes cast in the precinct on Nov. 6 for John Connally.

Mrs. Arlos Weaver, Haskell High School English Teacher and Counselor, spoke to members of the Lions Club at the Tuesday noon-day luncheon meeting. John Crawford was in charge of the program, and introduced the guest speaker. "Creativity is the ability to see and respond," Mrs. Weaver said. "Creativity is a social need and students, as well as adults must be puzzled at what they see; must have ability to concentrate and the ability to accept conflict and contrast." The guest speaker told the large and attentive group of Lions at the Tuesday noon session. Guests, other than the speaker noted at Tuesday's meeting were Arlos Weaver, Joe Melisner, Wichita Falls, Texas; Judge T. R. Odell, Lubbock, and M. Barnes, of Abilene. The Haskell County Unit A.C.S. is asking the location of a patient lifter, bedside commode, crutches, canes, bed rails, oxygen sets, hospital beds, wheel chairs, over bed tables, invalid walker, traction equipment, folding bed rests, bed pans, or whirl pool baths—and would be willing to loan those items. The sick room facilities will not be picked up, but a record as to the whereabouts of the items will be made for the local unit. Also the Haskell cancer unit would like to have the name of any person, man or woman, who would donate their time at least once a year to cancer patients by sitting by them, reading, giving transportation, baby sitting, and doing household chores, etc. Directors Meeting A meeting of officers and directors of the club is scheduled Tuesday, Nov. 6, 7:00 a. m. at the Drive-In to map plans and projects for November and December. All officers and directors are urged to be present. Prexy Al Hinds said.

## Rumor False That Election Pends On Trapper

A rumor that Haskell County voters will ballot Nov. 6 on the proposition of the county employing a Government trapper has no basis in fact, County Judge Jas. C. Alvis said Wednesday. The rumor spread to all parts of the county, according to inquiries received by The Free Press. Judge Alvis, contacted by the newspaper, said that as far as he knew, the matter had never been mentioned before the Commissioners' Court. "The only way such an election could be called would be by a petition from taxpayers, and to my knowledge no such petition, has been circulated," the County Judge explained.

## Jaycees To Sponsor Law Enforcement Appreciation Week

With the deep hatred of the unrepentant criminals. Why do they do it? These officers of ours. Because some people are built that way; because they are a special breed. For the most part—the great overwhelming most part—the men of the law enforcement team are indeed a breed apart. Pride in a job well done, devotion to a job which must be done—those are the values embraced by the great majority. But they are not such a breed apart that they do not need help; appreciate a pat on the back; delight in credit when credit is properly due. Because they, like everyone, need now and then to hear a kindly word—because the few are only human, there is such a thing each year as Law Enforcement Appreciation Week. In Haskell, this week set aside for an appreciative tip of the hat is Nov. 5-10. Sponsors are the young men of the Junior Chamber of Commerce. Program Planned A special program will be held at the High School auditorium Tuesday evening, Nov. 6, when certificates of appreciation will be presented to all local officers by the Jaycees. Guest speaker at this program will be Sgt. R. C. Smith of the Wichita Falls district office of the State Highway Patrol. The program begins at 7:30 p. m. In addition to this program, the Jaycees plan observance of the week at civic club meetings, and in the churches. Mayor J. E. Walling has issued a proclamation calling attention to the difficult accomplishment so often taken for granted—law enforcement. The Jaycees here are sponsoring the observance in cooperation with the Texas Law Enforcement Foundation. This is an organization of private citizens devoting their efforts to fostering more public support of the law enforcement team. A meeting of officers and directors of the club is scheduled Tuesday, Nov. 6, 7:00 a. m. at the Drive-In to map plans and projects for November and December. All officers and directors are urged to be present. Prexy Al Hinds said.

## Local Gun Club Members Attend Graham Shoot

Members of the Haskell Gun Club took part in a trap shoot at Graham Sunday, and two Haskell men turned in a tie score for top place in the meet. They were W. E. Wooten and Jackie Sonnemaker, both scoring 92 per cent. The Haskell group first went to Olney, where a planned shoot had been postponed, then continued to Graham for the meet there. At both cities invitations were extended area sportsmen to attend the local gun club's Turkey Shoot to be held Nov. 18. Rules governing the shoot are being changed to conform to the standards set by the National Trap Shooters Association. In the group going to Olney and Graham Sunday were O. J. Helweg, David Frierson, Billy Middlebrook, Wooten and Sonnemaker. "STUFFING PARTY" REMINDER Members of the T. B. Association are reminded that a "stuffing party" will be held Monday, Nov. 5, at 6:30 p. m. in the community room of the Haskell National Bank. Purpose is to prepare 1962 Christmas Seals for mailing.

## Celebrate Religion In American Life Month

In the kind of society in which we live, there have always been movements to the right and movements to the left. One exception, celebrating its fourteenth campaign this November, is the Religion In American Life program—an "upward" movement seeking to remind people that life can be lived on a higher plane than materialism.

Protestants, Catholic and Jews—in towns such as ours all over the country—will join with each other in conducting a Religion in American Life community-wide worship attendance crusade.

"You can lift your life—worship this week," is the theme of the campaign. It is based on the fundamental belief that a deep religious faith can guide and strengthen us. The fact that we are never too old to begin to find faith, and that it is never too late to build on the faith with which we were raised, is also basic to the RIAL program.

Twenty-eight national religious groups support this campaign, which is sponsored by seventy-five laymen representing major faiths.

Each of us, as individuals, can join in so easily. We need simply take special advantage of the invitation to worship in the church or synagogue of our choice this week.

## Person to Person Understanding

The importance of person to person acquaintance between peoples of different nations has been stressed as one of the best guarantees of future peace.

Coming closer home, the importances of "Farm-City Week" which will be observed nationally November 16-22, will help remove lack of understanding of the mutual interests of farm and urban citizens and build respect for the activities and problems of each. The sooner people realize how much they depend upon each other, the sooner problems will be solved.

When the city woman pays five, ten or fifteen dollars for some groceries, she thinks someone is getting rich. She needs to study what she is getting for her money at the market, the cost of processing, taxes, transportation, selling, etc.

Farm families need to understand the cost of manufacturing, distributing and marketing farm supplies, household equipment, medical care and professional help.

It will pay everyone to join in any activities scheduled in their community for Farm-City Week which ends Thanksgiving Day. It will help all of us to better appreciate the blessings and abundance we provide for each other, by understanding and working together.

## People, Places & Things

By A. PATE

Developments in the Cuban crisis Sunday, with Khrushchev unable to face the resolute stand of the United States, indicates that the shoe-thumping character is not entirely stupid. Knowing he was up against the real thing, he knuckled under.

Loss of "face" for the pudgy Khrushy has been tremendous, and although he still has the power of starting a world holocaust, his blusters and threats will have a more empty sound in the future. And as for the chicken-picking Castro, he has been fully exposed as a craven puppet, one the Cuban people will soon disown.

The Cuban situation and its rapid-fire developments took the edge off an already dull political campaign. Now that the crisis has eased somewhat, the candidates for Governor may be able to generate a little interest among the voters between now and next Tuesday.

Voters in the general election, in addition to voting for party candidates, will approve or reject 14 proposed constitutional amendments which appear on the ballot.

With the exception of three amendments which are "local" in that they affect only certain areas, Amendment No. 4 is the only one which has wide general support. It would permit the State to acquire conservation water storage in existing reservoirs. This probably has merit.

As to the others, I intend to follow the advice given me by the late "Uncle Wesley" Applegate the first year I voted. His advice was "if you don't understand the reasons for a proposed amendment, vote against it and you'll be right more times than you're wrong."

How long has it been since you attended an old-time Oyster Supper? If you're a member of the local Oddfellow Lodge, you can attend one tonight (Thursday). The lodge is sponsoring an oyster supper with all the trimmings immediately after tonight's lodge session and all members and visiting Oddfellows are invited.

In a recent issue of the Fort Worth Star-Telegram a column titled "This Day in Texas" edited by Curtis Bishop, mentioned what has been referred to as West Texas' first industry. We reprint the item in its entirety:

"The Haskell Free Press on this day in 1886 described a new and flourishing Texas industry, traffic in buffalo bones.

"Fertilizer and carbon companies used the bones in manufacturing their commodities, and paid \$6 per ton.

"The first known shipment was from Abilene to New Orleans in 1881.

"According to The Free Press, the traffic by 1886 filled all West Texas roads. The heaps piled by the railroad tracks at Abilene, Big Spring, and other West Texas towns, were often several hundred feet long and six to eight feet high.

"Long freight trains crossed Texas carrying little other cargo. The Texas Central Railroad reported a half million tons hauled in a decade, with a total revenue of some \$2-million.

"The traffic was short-lived, of course, but during its flourishing decade, ranked as one of the state's leading industries. Certainly the bones constituted the big 'money crop' in West Texas during that time.

Historians record that one of the largest slaughters of buffalo herds occurred in Haskell and adjacent counties, a favorite wintering ground for immense herds.

Early-day ranchers said that vast areas were almost literally covered with bones.

Buffalo Creek east of Haskell was said to have been given that name because of the thousands of buffalo slaughtered there.

An early-day historian of Haskell County, R. E. Sherrill, records that soon after the kill started, large packs of "bones"

or timber wolves showed up for the first time in this section. Doubtless attracted by the carcasses of buffalo and the crippled animals found in canyons, the big wolves found an easy meal ticket.

Later, they became the scourge of sheep herders and cattlemen until they were finally killed out or left the country.

C. C. Middleton, a government trapper here for many years, reported catching a "jobo" wolf several years ago on a ranch west of Rule. It was the last of the big wolves seen in this country.

With opening of the deer hunting season only a few weeks away, W. D. (Shorty) Rogers and Ed Fouts, two of the big wheels in a group of local hunters who have a hunting lease in the Hill Country, reportedly went down there last week to scout prospects.

In reality, we have learned that their trip was primarily for the purpose of putting out a lot of feed to attract the deer to their lease, get the animals tame as possible by the time the season opens.

One member of the elite hunting party who prefers to remain anonymous, states that Ed has perfected a comfortable seat which he hauls up into a tree, attaches to a limb, then sits there in perfect ease until a deer comes into range. According to our informant, the seat revolves and has a foam rubber cushion to make it more comfortable.

Someone has suggested to Ed that he leave the seat there for use of other hunters after he gets his limit of deer.

Ed may do just that if he can figure out some way to attach a meter where the user must deposit a coin at regular intervals or be ejected from the seat.

During the first World War, all passenger transportation was by rail, and it was a daily custom in small towns like Haskell to "meet the train" and see who was arriving or leaving. Probably for lack of any other entertainment, large crowds were always on hand when a train rolled in, especially during the war days of 1917 and 1918, when most of the passengers were service men in the Army or Navy.

One of the big headaches of trainmen were getting the soldiers and sailors on the train at departure time. The serviceman, home on furlough, wanted to remain with his family or sweetheart to the very last minute, and oftentimes they'd have to board the train after it was in motion to the chagrin of the conductor or brakeman who had yelled "All aboard" until they were hoarse.

I have often wondered about the identity of a young sailor who almost missed his train back in 1918. The telescope door above the steps had been closed and the train started up before the sailor finished saying goodbye. As the train pulled off he was standing on the steps, holding the boarding rails on each side of the door. Chances are, he rode there until the train stopped in Stamford.

For a long time I thought the sailor was Sam Parks, but after the war I recalled the incident and Sam said it wasn't him. Whoever the sailor was, he had a cold ride because it happened a few weeks before Christmas in 1917.

"You mentioned wild plum hunting in the early days, but you overlooked two other diversions in which many pioneers engaged," reads a note signed "Old Timer."

He then related that hunting and robbing "bee trees" in the summer and gathering pecans from the many groves along Paint Creek and the Clear Fork were gainful pastimes engaged in by the early settlers.

It took a real expert to "curse" a wild bee and locate a bee tree, and then start fun of robbing the beehives started, with one or more of the party winding up with

Near the north outskirts of town, the trio asked for a ride in the wagon. A few minutes later one man held a gun to Fraley's back and demanded his purse. Then they jumped from the wagon and ran into a nearby field. Due to the darkness, he was unable to give too good a description of the robbers.

**PROGRESS THROUGH SERVICE**

**A CENTURY OF COMMERCIAL BANKING**

A new element has been added to the advertisements of Haskell National Bank.

The additional art element (pictured above) is the seal that will be used by the nation's commercial banks in celebrating the 100th anniversary of the National Currency Act.

Abraham Lincoln signed the Act February 25, 1863, thereby giving life to the dual system of Federal and State chartered banks.

The American Bankers Association has established a Centennial Commission to assist banks in marking the centennial year with appropriate activities. The observance will be carried on throughout 1963.

The theme of the Centennial—Progress Through Service—appears in the numeral one. The zeros completing the figure 100 are reproductions of both sides of the 1863 silver dollar. The 1863 silver dollar today is valued up to \$50 depending on its condition. The United States Mint produced 27,660 of these coins, including 460 proofs which went into general circulation. The design for the coin was originated in 1840 and stamping from the same design was continued until 1866.

LETTERS ... To The Editor

DEAR VOTER: You will have a chance to vote "Yes" or "No" for a Government Trapper Nov. 6th. Please vote "No." Coyotes do harm but the benefits over-balance harm three to one. They control rabbits and rats which do more damage than coyotes. Trappers put out cyanide bombs and poisons that kill more dogs than wolves. These poisons are dangerous. The cost is about \$4,000 a year, using tax money, and we have too much Government controls now. 200 coyotes have been killed with greyhounds this year, another 100 shot, killed by cars and other means. The cost: Not a dime in tax money. For a Government trapper: NO. For the 14th Amendment: NO. Thank you. A Farmer. Not a Hound man. 44p

From A Pastor's Study

By DOUGLAS B. FINCH Pastor, First Presbyterian Church Haskell, Texas We hear much talk about Salvation and how it comes about and whether or not we will have it and who and how many will receive it. It occurs to me that we are preoccupied with that condition too much. The real fact of the matter is that we do not know who will be saved. Only Christ does. And to further confuse us, there is absolutely nothing that we can do to gain it. We will not be saved by our works. If anyone is saved, it will be by the Grace of God. The more we think we will have it, the farther we are from it, in all probability. The strange situation of the Christian is that he must have certainty of God's will to save him, but always be cognizant of his own unworthiness to be saved. And the more perfect we think we are, the more imperfect we really are. The fact of the matter is that a Christian should be more concerned with the Saviour than with Salvation. People who are interested only in the reward which they will get out of the Christian life are going in by the back door, and they lack the basic essential of the Christian life—humility. People who are interested only in the results of the work of Jesus Christ have lost sight of Jesus Christ. This could also apply to our preoccupation with the Judgement, the Second Coming, or the "end of the world." Our concern with our own personal salvation is often a very selfish condition, which, in its essence, could be said to be un-Christian, oftentimes even morally so. We often hear people say that they should live as if Christ were "coming" tomorrow. The truth is that we should live as if Christ were here today. For we do, in reality, worship a living Christ—One who lives and reigns in our midst. If this does not compel men to a higher standard of behavior, expressed in love for our fellowmen, manifested in a desire to serve our fellowmen, rather than "fear" of some form of punishment, then our concept of Christianity and the Christian life is not highly developed. Eternal life is not compensation for good deeds performed or for rules adhered to and not broken. It is a rather the ultimate and precious gift of the never-ceasing grace of God. Our assurance is derived from the fact of God's love—and that

Lions and Rotary Clubs Discuss Amendments

A panel discussion of the 14 proposed amendments to the State Constitution provided the program at a joint meeting of the Lions and Rotary Clubs Thursday at noon in the dining room of the Highway Drive-In. The impromptu program was presented as a last-minute substitute for a talk by Congressman Graham B. Purcell, who was to have addressed the gathering. Appearance of the Wichita Falls Congressman was cancelled Wednesday night when he was called to a briefing of Government officials in Fort Worth Thursday, on the Cuban crisis. Members of the panel were District Judge B. C. Chapman, County Attorney Bill Ratliff, Wallace Cox, and Robert Speer. Tom Barfield served as moderator. Each amendment was discussed briefly with members of the panel answering questions relative to particular amendments. Principal interest appeared to center on Amendment No. 4, which would authorize the State to purchase conservation storage of water in existing reservoirs, and in No. 14, the "trial de novo" a-

Looking into the future let's just suppose it is November 1985, and the International News Briefs may read like this:

President Ted Kennedy, commenting today on the Russian occupation and fortification of Long Island, the Panama Canal and the southern tip of Florida, said: "We are watching these developments carefully and have sent a note of protest to Moscow."

Congresswoman Caroline Kennedy (Dem., Mass.) and Richard King, son of evangelist

Martin Luther King, were married today. The ceremony was performed by Chief Justice of the Supreme Court Frank Sinatra. A lavish reception followed at her home in Hyannis Port. Thirty-three of the guests were thrown into the swimming pool and all ended up in the hospital. It was later disclosed that United Nations Ambassador Peter Lawford had drained the pool the night before as a practical joke. The happy couple will leave tomorrow on a six-month honeymoon in the Congo.

John F. Kennedy Jr., announced today he will be in the running for the Democratic nomination for Senator from Massachusetts. His campaign will be: "I can do more for Massachusetts."

President Ted Kennedy said today his brother, Jack, former president (1960-68) will come out of retirement and be named Secretary of State replacing his wife Jacqueline who will be given the post of Secretary of Defense.

Presidential press secretary, Mrs. Joseph P. Kennedy, mother of the President, celebrated her 95th birthday today and said she has no thought of retiring. She also said that recent talk about a "Kennedy Dynasty" in Washington was just Republican propaganda and a lot of rubbish.

When questioned on Meet the Press TV program last night Secretary of the Treasury, Bobby Kennedy, said he did not think the President's nine hundred billion dollar budget was too large. But he did say that the figure of three hundred and fifty billion for foreign aid could be trimmed a trifle. "After all," he said, "there is such a thing as over doing it, you know."

Secretary of Labor Mike Quill announced his retirement today and will be replaced by Teamsters president Jimmy Hoffa.

President Ted Kennedy said yesterday the recent increase in steelworkers' wages from \$15 to \$17 an hour, and the reduction in the workday to 3 hours was non-inflationary and does not call for a price increase by the steel companies. When told that U. S. Steel closed at 14 cents on the NYSE last night, he said he thought the stock was over priced. Asked about rumors that his family was short 50,000 shares since 1962, he said, "No comment."

Secretary of Agriculture Billy Sol Estes who was appointed in 1962 by former President John F. Kennedy, Sr. announced his retirement.

School boys and girls have their hands full of books and their heads full of many things besides traffic danger. With them walks the future, Mr. Motorist. Don't turn it into a tragic past for some happy family. Don't let your needless hurry cause a needless accident. In the vicinity of a school, re-

member your childhood and your child.

If the Beatitudes are ever revised, I suggest adding this one: "Blessed are they who attend strictly to their own business."

A Haskell lady entered the postoffice and bought a stamp. "Must I stick it on myself?" she asked the clerk. "I wouldn't recommend it madam," he replied. "It will accomplish much more if you stick it on the letter."

Maybe we all have become be-numbed by the staggering blows of taxes and public debt. The figures and facts may just have passed beyond comprehension. Certainly too many people have been deceived into believing that it is all right because other people, or future generations will pay. If that is so, a moral sense has been blunted.

When a lad loses his dog, it's tough. While I was publisher of the Paducah Post, a lady came into the office inquiring if I had seen anything of a little, black Bulldog, that answered to the name of "Butch." Right by the mother's side were a little boy and girl around five or six years of age. With moistened eyes the youngsters listened eagerly when I told them I had not seen "Butch." It seemed "Butch" had jumped out of the car near the post-office, and the little boys walked up and down the streets crying out, "Butch, Butch—come here, Butch."

Yes, I know that good judgment comes from experience—but then, experience comes from poor judgment.

I beamed recently at a small boy trudging along the street with an armful of books. "Do you go to school, my little man?" I asked. "Naw," replied the boy—"I'm sent."

## Newspapers Face \$13 Million Hike In Postage Bill

Newspapers and the public generally will feel the effects of the recent session of Congress early next year, when the first phase of a postal rate increase will go into effect.

As approved by Congress, it was the fastest postal rate increase in history, a \$600 million bite when fully effective in 1965. Second class mail costs will rise about \$26 million, about half from newspapers. The first hike comes on January 7, 1963.

## GOP Leaders Say Primary Pledge Not Binding

Voters can mark their ballot for any candidate of any party in the November 6 election, regardless of how they voted in the first or second primary. Republican leaders of Haskell County declared this week they may vote as they please.

"There is no legal requirement, no moral obligation, regardless of how you have ever voted, or how your poll tax receipt was stamped," Republican party leaders said.

They pointed out that Gov. Price Daniel, while Attorney General, wrote an opinion which said "The courts of Texas have answered the question of party loyalty by holding that the pledge taken at the time of voting in the primary election does not create a legal obligation."

## Check of Social Security Record Should Be Made

By DON AUSTIN

As the social security representative who comes to Haskell every week, I want to give you an important reminder.

All of us are interested in our financial standing; therefore we are always checking on our bank accounts, savings accounts, and on our other assets.

The Social Security Administration would like to remind you of another account — one that should be checked from time to time. This, of course, is your social security account. This is especially important if you have more than one employer in the course of a year.

If you are one of the 9 out of 10 working Americans with a social security card, the Social Security Administration is keeping a record of the earnings reported to your account. Year after year for as long as you work in employment covered by the social security law, regular reports of your earnings are sent to the Social Security Administration in Baltimore, Maryland, to be added to your own personal social security record. It is this personal work history that will be used to figure the amount of social security benefits payable to you and your family in the future.

Your Abilene Social Security office has a post card form with which you can request a statement of the earnings credited to your social security account or you can get one from me on my next visit. You need only fill it out, sign, stamp, and mail it. When you receive the statement, check it carefully.

I will be at the Chamber of Commerce every Thursday (national holidays excepted) at 10 o'clock and will be glad to talk with you about your own social security account and its worth to you and your family.

JOHN CONNALLY

John Connally is a life-long working Democrat. From his student days at Texas University to the present, he has raised up his voice for work wherever needed. He has worked in the ranks in Precincts; in County, State and National campaigns.

Connally pitched in full blast in our fight to rid the State Democratic Executive Committee of Republicans and to turn its control to loyal Democrats. He believes Democratic Party officials should not only be loyal, but should also be active in support of Democrats from Public Weigher to President. True to his convictions, Connally in 1962 enthusiastically supported and worked for the election of President John F. Kennedy.

Let's put our shoulders to the wheel to get out the vote and elect John Connally governor of Texas a man who is qualified and will have the cooperation and support of the next legislature.

## Munday Classing Office Grades 6,228 Samples

Receipts held fairly steady most of the week to allow 6,228 samples to be classed for the week ending October 26, at the U.S.D.A. Cotton Classing office located in Munday, Texas, according to A. D. Peebles, in charge.

Dry harvest weather caused new bright bolls to open and allowed the gins to clean the cotton better resulting in higher grades. The breakdown on grades by percentage is as follows: Strict Middling Light Spot, 5; Middling Light Spot, 31; Strict Low Middling Light Spot, 30; Middling Spot, 7; Strict Low Middling Spot, 15.

Staple percentage as follows: 29/32, 21; 15/16, 45; 31/32, 20; 1 inch and longer, 9. Market activity continues slow with Middling Light Spot 15/16 averaging 30.36; Middling Light Spot 31/32, 30.65; Strict Low Middling Light Spot 15/16, 29.25; Strict Low Middling Light Spot 31/32, 29.70.

## Bond Sales In County \$17,515

J. M. Crawford, chairman of the Haskell County Savings Bonds Committee has announced that Savings Bonds sales in the county totaled \$17,515 during September. This represented 93.5 per cent of the county's goal for the year, the chairman said.

Texas Savings Bonds sales for the first nine months of 1962 totaled \$111,734,186. This figure represents 67.7 per cent of the state's 1962 goal of \$165.1 million.

## JOHN CLIFTON SHOWS SOME IMPROVEMENT

Joe Scheets and Happy Hendrick of this city were in Big Spring Monday to visit John Clifton of this city, who is a patient in the VA Hospital there after having heart surgery in Lexington, Ky. Mr. Clifton has regained partial use of his right arm and leg, and some feeling is returning to his left leg, they reported. However, he has not regained his speech although physicians hold out hopes that he will eventually recover from paralysis which affected his entire body and speech faculty. Mrs. Clifton is in Big Spring with her husband.

The average annual credit for an employee under social security rose from \$932 in 1949 to \$2890 in 1961.

## Haskell Man Has Four Varieties Pecans Bearing

Pecan trees at the home of Rev. H. G. Hammer in this city are yielding a good crop this year and the nuts are well matured, in contrast to some pecan tree owners who say that some of the pecans are splitting or sprouting due to excessive rain.

Rev. Hammer has four varieties of pecans and all have done well this year. He has the Burkett, Western Schley, native pecan and one other unidentified variety.

He recommends that homeowners plant pecans for shade and ornamental purposes, instead of elms or hackberry.

This community received about an inch and a half of rain, more or less in places, Saturday night. Mr. and Mrs. Cliff LeFevre spent Sunday afternoon with Mr. and Mrs. Van Laughlin near Rule. The deer hunters who went to Colorado on their annual deer hunt came back Sunday morning reporting a very good time and a successful hunt. Mrs. R. O. Gibson Sr., entertained the ladies of the Stitch and Chatter Club in her home Wednesday afternoon of last week. Members present were: the Mmes. G. A. Leach, Cliff LeFevre, John Clark, Pete Kitley, Ewell Kitley, M. Y.

Benton, and the hostess, Mrs. Delbert LeFevre and Jill were guests. The ladies worked on cancer bandages for the American Cancer Society. They plan to do this work quite often. Mrs. LeFevre explained the work the American Cancer Society is doing and how they could help. The next meeting will be in the home of Mrs. Ben Hess. Mr. and Mrs. C. E. Stegemoeller received word Monday that they have a new grandson, born Sunday night to Mr. and Mrs. Marvin Stegemoeller at Tulla. The Marvin Stegemoellers had three daughters, and needless to say, they are happy it was a boy! Mr. and Mrs. A. C. ## USDA Discovery May Help Control Boll Weevil

Cotton boll weevils will feed on almost anything that has been dipped in a newly discovered extract of the cotton plant. According to the USDA, the substance that makes the cotton squares appetizing to boll weevils was found in a water extract for the first time by two U. S. Department of Agriculture entomologists. The extract, when applied to cork stoppers, green beans, wood and other unlikely substances attracted the weevils that normally feed on only cotton squares and bolls. The scientists call the substance an "arrestant" and say that though it will not draw weevils a long distance, they feed on anything close to them containing the extract. Tests are now underway to see if the substance can induce the weevils to feed and lay their eggs on plants other than cotton. If this can be done, it may be possible to substantially reduce the boll weevil population, because weevils have rarely been known to survive on any plant except cotton. Also, chemists are carrying

## Opponents Say Proposed New Law Would End Local Self Government September Is Wettest Here Since 1925

Strong opposition has developed to the proposed amendment to the State Constitution (No. 14 - trial de novo) that will be voted on at the General Election Nov. 6. Abner V. McCall of Waco, president of Baylor University, has been named to head a statewide committee opposing the trial de novo amendment which is last on the ballot. McCall said this week that passage of the amendment and implementation by any future legislature will mean "the end of local self-government." Decisions of any governmental unit including school boards, county commissioners, city councils, hospital or water districts, even on such matters as teachers' pay, where to locate a county road
