

HOME DEMONSTRATION NEWS

MRS. ELSIE GILKERSON, Agent

ARRANGING OF FURNITURE EXPLAINED TO FLOWER GROVE CLUB

"Always place the furniture parallel to the wall, and rugs parallel to the furniture," Mrs. Elsie Gilkerson told members of the Flower Grove home demonstration club in their regular meeting, March 1, at the home of Mrs. Ralph Mullins.

"The bed should be close to the windows so it may have sunshine and ventilation. Dressing table and closet should be close together. Over the writing table a book shelf may be hung to hold books and bric-a-brac. A drawer in book shelf is handy for holding writing material and pens. The shelf can be made by anyone handy with tools, and is very attractive constructed of gly-board and varnished.

"Very old but good pieces of furniture can be made into more modern and beautiful pieces by removing all old varnish, sandpapering, and then applying hot linseed oil and wax. If they are too tall, the legs can be sawed off some before refinishing.

"Ivory and peach are good colors to paint the wood work in a bed room."

Present at the meeting were Mrs. Robert Dunn, C. W. Butcher, Dick Butcher, Ralph Mullins, Elsie Gilkerson, and three visitors, Mrs. E. M. Cave, Covey Williams and Jack Harrell.

Next meeting will be March 15, with Mrs. Robert Dunn.—Reporter.

INSECTS DISCUSSED AT CLUB MEETING

"There are two different kinds of plant lice—one sticks on plant life, while the other bites," was the information given the girls by Mrs. Gilkerson, county home demonstration agent.

These insects are very dangerous to plants so they should be destroyed by spraying or dusting them.

Those present were Lois Francis, Ruby Jo Henson, G'adys Mattingly, Geraldine Davis, Leana Jo Bryson, Paula Taylor, Edna Earl Jones, Nettie Mesingill, Laura Francis, Dora Nelson, Sue Henson, Jewel Fay Roberts, Vida Norman, Ella Rita Norman, Mary Francis Howard, Billie Evelyn Lindsay, Bobbie Douglas, Mozelle Coker, Joyce Reed, Margie Boren.

The president called the meeting to order then followed a talk by Mrs. Gilkerson.—Reporter.

ARRANGING SHELVES AND DRAWERS FOR FOLDED GARMENTS

Clothes must be kept clean, free from wrinkles, and well pressed, if one is well groomed. This information was given to the girls of Tarzan 4-H club by Mrs. Smith, the sponsor.

In arranging shelves and drawers with folded garments, one should fold the clothes nice and smooth.

Moths hate smooth, new paint and light, therefore, it is well to have your clothes closet well finished inside.

Twenty-one members were present.—Reporter.

GIRLS INSTRUCTED HOW TO ARRANGE DRESSER DRAWERS FOR FOLDED GARMENTS

"Get some boxes of different sizes to fit into the dresser drawer in which to put folded garments," Mrs. Ralph Mullins sponsor of Flower Grove 4-H club, told the girls at their meeting February 21 at the school house.

"When not using garments that are out of season, they may be put away in newspapers, then in boxes, moths do not like printer's ink. Bags to put around garments may be made by sewing newspaper together," said

NUMBER TWENTY-THREE

MRS. P. M. BRISTOW MEETS TRAGIC DEATH

The entire town was shocked Wednesday afternoon by the sudden death of Mrs. P. M. Bristow, wife of Dr. P. M. Bristow. She was driving to the office from her home in the south part of town, when the car in which she was riding was struck by a T&P through freight which comes through Stanton at 1:29. The accident occurred at the second railroad crossing east of the depot. The impact was so great that it is believed death was instantaneous and the car was carried a distance of 300 yds before being extricated from the cowcatcher of the engine.

W. L. Gregg and his son were plowing in their field across the track south and they with W. A. Keisling, Clark Hamilton and City Marshall White, were among the first to reach the scene of the accident. Dr. Bristow was in his office with a patient when notified and with Leo Turner driving, reached the place of the accident at once. He gathered the still form of his wife in his arms and was driven from the scene to their home, immediately notifying his daughter Mrs. Paul Rix and Mr. Rix at Odessa, they came and body was taken in charge by the Rix Funeral Home at Odessa.

Sorrowing friends and neighbors gathered at the Bristow home and remained throughout the night. The other daughter, Mrs. George Long of Ft. Worth was notified and was the son Prentice who had just gone to Waco to re-enter Baylor, and the two of them came together arriving early Thursday morning.

Mrs. Bristow was born May 24, 1879, at Burksville, Ky., daughter of John and Laura Williams. She became a member of the Baptist church in early childhood. Married P. M. Bristow January 7th, 1900, at Burksville, Ky. The couple came to Texas in April 1900 from Martinburg, Ky., and settled at Westminister where Dr. Bristow began the practice of medicine.

Besides her husband and three children Mrs. Bristow is survived by two brothers, P. R. and C. S. Williams of Chicago, Illinois.

Funeral services were conducted at the Baptist Church in Stanton, at 3:00 o'clock Thursday.

Mrs. Mullins. The recreation was led by Iona Richards, La Rue Teague and Dorris Bertram. Poem was given by Gwendolyn Bass.

Those present were La Rue Teague, Onetta Pittman, Mavis Langham, Gwendolyn Bass, Juanice Penn, Louise Burns, Iona Richards, Iola Richards, Hazel Barkowsky, Iria Mae Lambright, Dorris Bertram, Ruth Mullins, Mildred Powell, Naomi Ruth Adams, Marjorie Adams.—Reporter.

WINNING CALF FROM MARTIN COUNTY

Winner of grand championships in the recent baby beef shows at Stanton and Big Spring and of the heavy milked crown in the recent San Angelo Fat Stock Show was RUSSELL SADLER, 16, of Tarzan, a gold star 4-H Club boy and pupil of George Bond, Jr., former San Angeloan, now Martin County agent. The 1,015-pound senior winner held by Russell here was lauded generally when shown here, M. E. Grote of Mason joining in saying "That calf ought to win at Fort Worth." But Mr. Grote's boy, Oliver, had one the judge thought better. Sadler had the reserve champion in the El Paso show.

MRS. DANIELL FIRST FOR MIDLAND

Mrs. P. L. Daniell of Stanton, wins the \$1.50 cash prize in the Midland misspelled word contest. The following win a ticket each to the Yucca Theatre in Midland.

Iwanna Hayworth, Star Rt.
Mrs. Poe Woodard
Mrs. Ruby Robertson
Mrs. E. W. Morrow
Mrs. Joe Stewart

Friday afternoon, Rev. Fred McPherson, officiating minister.

The active pallbearers were Leo Turner, Hall Kennedy, J. K. Bassfield, Andy Widner, Sam Martin, and B. J. Eidson.

Honorary pallbearers were Jess Blackford, J. D. McCreless, Ogal Avery Morris Zimmerman Earl Burns, Jack Jones, Ben Carpenter, Albert Straub, Sam Turner, Chas. Widner, Clayton Burnam, Dr. O. E. Dickenson, W. F. Rogers, J. H. Burnam, A. C. Eidson, E. Price, J. H. Zimmerman, S. D. McWhorter, John Atcheson, G. A. Glazer, N. Kaderli, and Joe Hall.

Mrs. Bristow, a quiet unassuming woman who went about serving her fellowman, cherishing her family, and doing kindly neighborly acts, was a devoted Christian, member of the local O. E. S. of which she was a past matron.

It is indeed sad when the grim reaper sees fit to gather one so loved in such a tragic manner.

BIG SPRING PAGE IN THIS WEEK

The business men of Big Spring are devoting half a page for the Misspelled Word contest starting with this issue of The Reporter.

Scan this page closely for misspelled words, and send in the word correctly spelled and the name of the firm the misspelled word was found.

HIGHWAY PATROLMAN WINS FOUR FIRST PLACES AND JESS WOODY WINS, TOO

Coral Gables, Fla., March 9.—Two entries from Big Spring, Texas, L. P. McCasland and J. N. Woody, initiated their respective campaigns for honors in the National Pistol matches here Wednesday with brilliant exhibitions.

After winning fifth place in the tyro matches (20 shots slow fire at 25 yards) with 181 of a possible 200 points) and ninth place over the Camp Perry Police course with 272 points of a possible 300, McCasland, a highway patrolman, won first place as a tyro in 50 yards slow fire competition with 175 of a possible 200 points, first place in the tyro class in the timed fire match with 173 of a possible 200 points, first place in the rapid fire tyro class with 183 of a possible 200 points and first place in the tyro class over national match score with 282 of a possible 300 points.

Woody began by scoring 282 of 300 points for individual qualification match, won first place in timed fire match with 199 of a possible 200 points, eighth place in the rapid fire match with a score of 192 of a possible 200 points, and seventh place in the Flamingo .22 caliber championship match, an event with approximately 60 of the nation's top flight entries.

MACHINE WENT HAYWIRE

Owing to some adjustments on our Linotype getting out of adjustment necessitating the calling on a Linotype machinist for aid. All of Wednesday the machine had to stand idle, we were compelled to let "ride over until next week, a lot of news matter.

If we had our way about this printing business we would have a million dollars and we wouldn't be in the business.

Visited in Bryan Mrs. W. C. Glazer and son, Stanton, spent the week end in Bryan Station with Mr. Glazer.

COUNTY COMMITTEE ISSUES WARNING TO FARMERS

Farmers are warned by the County Committee that the harvesting for seed, of cane, or sudan which has been turned in under the government program as neutral is a violation of the regulations and that any acreage so harvested is automatically classified as soil depleting acreage and that such acreage above the general acreage allotment is subject to a heavy penalty to be deducted from the government payment. Failure to report such harvesting after applications for payment showing such acreage as neutral have been executed could be considered as an attempt to defraud the government and could be prosecuted according to the laws governing such cases.

Cases of this nature will be investigated by the committee and any irregularities found will be handled in proper manner according to the regulations and provisions of the law.

SILLIMAN HAYNIE FIRST IN STANTON

In the misspelled word contest for Stanton, Silliman Haynie wins the \$1.50 cash prize and the following win a ticket each to the Queen Theatre in Stanton:

Mrs. E. H. Morrow
Howell White
L. Hayworth, Star Route
Corrinne Blackford
Vera Blackford

MARTIN BOYS TOP FEEDERS IN THIS AREA

(Big Spring Daily Herald) Martin county Sadler boys, by this time, have established themselves as the top 4-H club boy feeders of mid-West Texas. Consider their records for season. Billy Sadler took first place at Stanton in the Martin county show with his calf, "Old Draw." Russell Sadler, his brother, was in second place with his calf, "J.C."

At El Paso, Russell took his seventh place steer in the Martin show and won reserve championship of the show. Billy made a good showing in the lightweight milkfed division. In Big Spring, Billy was again on top with "Old Draw" as champion calf and Russell's calf "J.C." was once more reserve champion. At San Angelo Russell's calf was top in the senior milkfed division and a gallery choice for championship although the practiced eyes and hands of the judge relegated him to two others.

Tuesday at Amarillo Billy's calf was top in its division and good enough that the judge departed from the custom to name it reserve champion of the show. George Bond, Martin county agent, has several other boys who have done creditable work this season. Among them is Owen Kelly who had an eighth place calf at San Angelo. His boys swept honors in both milkfed classes in Big Spring.

MORE THAN 7,000 GROUPS OF FARMERS BORROWED \$4,404,132

From the office of the Farm Security Administration, in Big Spring, comes this report:

The Farm Security Administration announced this week that more than 7,000 groups of small farmers had borrowed a total of \$4,404,132 to purchase equipment and services for group use from the beginning of its Community Service Loan program in July, 1935, up to January 1, 1939.

William H. Gore, county farm supervisor, said there are 64 cooperatives in the part of Texas

UNCONCIOUS MAN FOUND NEAR NANCE HOME

...Sunday afternoon about 1:30, M. H. Nance and Irvin Graham found a man at the side of the road near the Nance farm home three miles and a-half southwest of Stanton, in an unconscious condition. They brought him to town and turned him over to Sheriff Zimmerman, who placed him in the local jail. He remained unconscious late in the afternoon of Sunday and told the following story:

He engaged Frank Holly, a taxi-driver of Odessa, giving him \$3.00 to take him to Younger's Camp, near Odessa, but accompanied by one Jack Burns a day laborer they came to Midland, Roberts then gave the driver \$7.00 to take him to Big Spring. It is alleged that Burns provided the liquor which the driver drank and that given to Roberts contained knockout drops so Roberts alleges. Upon regaining consciousness Sheriff Zimmerman and his deputy, Ogal Avery, took Roberts to Odessa where he identified the two companions, Holly and Burns. They were returned to jail Holly at Midland and Burns to Stanton.

In the examining trial before Justice of the Peace Lynn White Monday, Roberts accused the two, Holly and Burns, taking from him between \$50 and \$60 and leaving him beside a country road. Burns was offered bond in the sum of \$1,000 which he failed to make at the time of going to press. Holly was represented by Kelly, an attorney, and his bond also set at \$1,000, which he made late Tuesday. The charge against Holly and Burns is robbery.

It is rumored that Roberts is suing the Taxi-cab company of Odessa in a civil suit for damages as a result of the ride in their taxi-cab.

included in Region XII of the FSA, with loans amounting to \$30,829.30. There are none in Howard, Glascock, and Martin counties which are included in Region XII.

Such loans have enabled 128,856 farm families, composing 7,183 borrowing groups, to expand and improve the efficiency of their farming operations through purchase of equipment or services not previously available in their communities. These services include combines, silage cutters, pure-bred bulls, stallions, jacks, and boars, cold storage plants, bulldozers and terracing equipment, syrup mills, hay balers, hatcheries, and tractors.

These loans, financing group purchase and use of equipment which no single individual could afford, have enabled small farm operators to compete on more equal terms with the large, mechanized corporation farms. Such loans have been used to purchase canning, laundry, and sewing equipment to lighten the burden of the farm homework. Average size of the loans made during the first three and one-half years of FSA's Group Loan program has been \$91.51 per group, or \$34.10 for each farmer participating. The loans may be retired over a period of five years and bear three percent interest. They are available only to needy and low-income farmers, who cannot obtain adequate credit from any other source.

Full details of the Community Cooperatives service loans may be obtained at the county office of the Farm Security Administration, located at 311 Scurry street, in Big Spring.

Heroine Re-Enacts Rescue

BIG SPRING, Tex.—Mary Elizabeth Davis, 13-year-old heroine, re-enacts the rescue of her brother, Vyrton, which won her the President's Medal and the Life Saving Certificate of the American Red Cross. She is shown here hunting and

World's Poultry Congress to Present Birdseye View of Worldwide Poultry Industry

Visitors and delegates to the Seventh World's Poultry Congress, Cleveland, Ohio, July 28 to August 7, 1939, will find the Hall of Nations and States a fruitful source of interest. This great building has been set aside for the educational exhibits that depict the progress, scope and importance of the poultry industry throughout the world. Elaborate exhibits from at least forty to sixty overseas nations will be found here, picturing poultry raising methods and the economic importance of the industry in those nations. Our own U. S. Government exhibit, constructed at a cost of \$35,000.00, will picture the government's interest and participation in the industry, the surprising importance of poultry as an economic factor and the many ramifications of the industry. State exhibits from every state and territory will feature many of the local phases of the industry. Secretary of Agriculture Henry Wallace is president of the Congress.

Sentinels of Health

Don't Neglect Them!

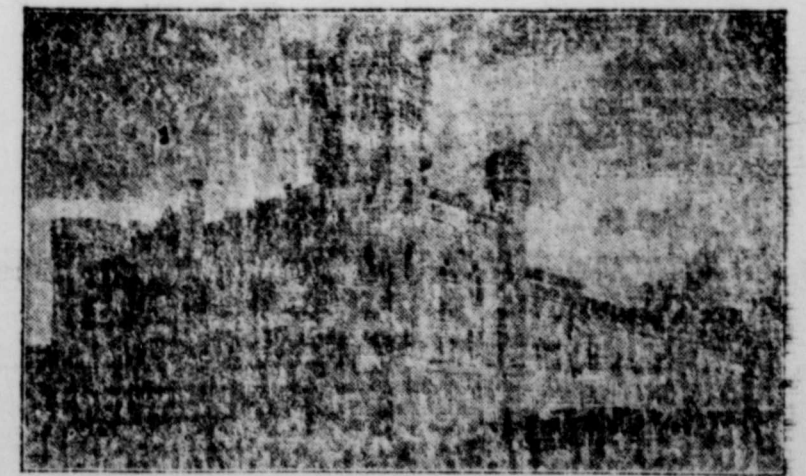

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backaches, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a specific medicine to help the kidneys get rid of excess poisons from the body. **Doan's Pills**. They have had more than forty years of public approval. Are sold in the country over 1,000,000. Sold at all drug stores.

DOAN'S PILLS

Youth Activities at Seventh World's Poultry Congress

Youth will have its share in the Seventh World's Poultry Congress and Exposition to be held in Cleveland, Ohio, July 28 to August 7, 1939. The Hall of Youth, pictured above, has been set aside for the young people. Elaborate programs are being arranged to fill every hour of the day, every day. There will be educational meetings, entertainment, poultry judging and poultry demonstrations, recreational periods, and supervised visits to various sections of the huge exposition—the aim being to give future poultrymen an invaluable perspective of the possibilities the poultry industry holds.

Active plans are under way for attendance of groups representing 4-H Clubs, Future Farmers of America, Boy Scouts, Girl Scouts, and many other youth organizations from all sections of this country. It is also probable that young people's delegations representing many of our overseas neighbors will take an active part in the youth program at the Congress.

Bare-foot Boys Favorite

The bullhead is found from Maine to Florida, from North Dakota to Texas, and it has a score of names. It is a particular favorite of the bare-footed cane pole anglers. The bullhead has been planted on the Pacific Coast, and does well. On the average a bullhead weighing a pound is a big one. Most of them are smaller. Yet it has been known to weigh as much as seven pounds. Bullheads like still water with a muddy bottom. They will bite almost any kind of bait, and are especially active after sunset. The meat is sweet, and much liked by many people, especially if the bullhead comes from clean, cold water. Bullheads make nests, burrowed out of the side of a pond, or in a hollow log, and the young, looking like tadpoles, swim together in a dense mass, guarded by the old fish. The bullhead was painted for the 1939 Wildlife Week poster stamps by Fred Everett.

NOT A SPORTSMAN?

There are about eleven million licensed hunters of large and small game in the United States.

But perhaps you never owned a gun, never fired a gun, don't want to.

There are more fishermen in this country than there are followers of any other sport, not excepting baseball, according to careful surveys.

But maybe you don't fish.

A camera or a flower garden, bird houses and feeding stations, a hiking club, nature study—maybe some of these things represent your interest in the outdoors.

Or, it is just possible, you are an indoor American?

If you should be, don't say "Wildlife Week has no meaning for me."

If you eat, it has meaning for you.

And if your interest in groceries includes the groceries of coming generations in the United States, Wildlife Week has plenty of meaning for you.

Jay N. Darling, founder of the

National Wildlife Federation sponsoring Wildlife Week - which is March 19 to 25 - points out that hunting and fishing are only a very small part of the dividends we draw on our capital of natural wealth.

Conditions of land and water essential to wildlife are highly important to all life, including the life of mankind.

Exploitation that outrages the sportsman and the nature lover because it decreases the supply of fish and game also is a menace to our national well being.

Slaughter of the forests, pollution of the streams, drainage of the natural reservoirs for the control of water tables, abuse of the grasslands and the grazing regions, destruction of marine and lake commercial fisheries are among man's crimes against the outdoors.

Wildlife Week is a summons to all Americans, to join hands for the protection and the restoration of the resources that give us food and employment, as well as sports and recreation.

Disasters Strike 41 States During Year

Red Cross Aids 420,000 Persons Following Catastrophes

That the past year has not been an easy one for the American Red Cross is shown in a recent report listing disasters necessitating Red Cross relief throughout the United States during the past twelve months.

The report reveals that 129 domestic disasters called for Red Cross aid in 247 counties of 41 states, and that assistance was given to 420,000 persons who were disaster victims.

"That this has been a very active year is obvious when one compares this year's operations with the average of 92 disasters requiring Red Cross aid annually for the past 15 years," Chairman Norman H. Davis said in commenting on the Red Cross Disaster Relief Service report.

These catastrophes included cloudbursts, cyclones, epidemics, fires, floods, forest fires, hailstorms, mine explosions, a school bus accident, a shipwreck, tornadoes, typhoons, and wind storms.

"Disaster relief was the first humanitarian work of the American Red Cross after its organization in 1881," Mr. Davis said. "In the ensuing 57 years the flag of the Red Cross has flown upon every scene of major disaster in the United States. The Red Cross has carried relief—food, clothing, shelter, medical aid, rehabilitation of homes and families—to more than 2,200 scenes of disaster at home and abroad, and has expended over \$140,000,000 contributed by the American public in this work of mercy."

The Red Cross policies of relief, the national chairman pointed out, have been established over a period of years through actual experience of its workers in the field. Relief is given on the basis of need of sufferers—not of losses. Loans, he pointed out, are never made, but relief is a gift from the Red Cross in the name of its members and contributors to its work.

"It would not be possible for the Red Cross to carry out such widespread relief activities without the help of thousands of volunteer workers," Mr. Davis said. "Volunteers are the mainstay of the organization, and in the past year's work assistance from many cooperating agencies has made it possible for us to answer the many calls for help."

While relief was being given to victims of natural catastrophes, the Red Cross was not unmindful of the necessity for preparedness plans to meet emergencies that may arise in any American community. Red Cross chapters in hundreds of counties have organized disaster preparedness committees charged with responsibility to map relief plans in advance of need, and to organize resources of communities to prevent duplication of effort and waste of materials when calls for help are received.

These plans are proving especially advantageous in localities subject to frequent floods, tornadoes, or hurricanes, and actual tests of such planning have demonstrated the necessity for such measures.

"The administration of such relief for disaster victims is made possible by annual memberships of millions of Americans in all walks of life," Mr. Davis pointed out. "The extent of Red Cross aid to such sufferers is entirely dependent upon unselfish sharing on the part of all of us."

Red Cross Nurses Aid Million Sick

Red Cross public health nurses made more than one million visits to or on behalf of the sick during the fiscal year 1937-38.

The patients live in mountain communities, on islands off the coast, in isolated swamp regions, and in crowded industrial sections. During the same period the nurses inspected 559,187 school children for health defects in cooperation with local physicians, and gave instructions in home hygiene and care of the sick to 53,754 mothers and young girls.

Red Cross Volunteers Assist War Veterans

Red Cross workers in chapters, in hospitals and on posts of the Army, Navy, Coast Guard, and Marine Corps, assisted 122,355 active service men or veterans or their families during the past 12 months.

Red Cross service to these men included such personal help as letter-writing, shopping and recreational leadership, but it also included financial assistance to their dependents, help in locating missing members of their families, and assistance in filing necessary applications for pensions, disability pay, hospitalization, or for discharge from active service because of home needs.

The average number of men assisted by Red Cross workers each month was 18,790, according to a recent report.

Ancient Holly Still Spreads Holiday Cheer

In homes throughout America this Christmas the holly plant will carry on its age-old duty of spreading Yuletide spirit, a custom that dates back to the pagan tribes of continental Europe.

Originally the holly grew wild in the United States over a range from Massachusetts to Missouri and south to Florida and Texas. But too much harvesting in northeastern United States has destroyed much of the natural growth. Today most holly is grown from Norfolk, Va., to Florida within 50 or 60 miles of the Atlantic coast, and westward in the Gulf region to Louisiana.

Current popularity of the holly is a continuation of the custom of the Druid feasts which honored the mistletoe and holly in pagan rites. In Europe the tribes under Roman rule sent holly branches to each other as

evidence of good will. Homes and churches were decorated with holly laden with crimson berries when the pagans celebrated the feast of Saturnalia, the "turning on of the sun."

Yuletide, the feast made to the Celtic sun god, Yaioul, finally became the celebration of Christmas, and the holly tree, known as the holy tree, became the sacred tree for decorations at our Christmas festivals.

A holly does not bear berries until it is five years old. Before that time the male and female trees cannot be told apart. There are more than 300 species of the plant, all of them native to the temperate and tropical regions of both hemispheres.

Only the American and English holly trees have rich green leaves. These are outlined with sharp spines or teeth, and the fruiting branches have round crimson berries.

World's Poultry Congress to Present Birdseye View of Worldwide Poultry Industry

Visitors and delegates to the Seventh World's Poultry Congress, Cleveland, Ohio, July 23 to August 7, 1939, will find the Hall of Nations and States a fruitful source of interest. This great building has been set aside for the educational exhibits that depict the progress, scope and importance of the poultry industry throughout the world. Elaborate exhibits from at least forty to sixty overseas nations will be found here, picturing poultry raising methods and the economic importance of the industry in those nations. Our own U. S. Government exhibit, constructed at a cost of \$35,000.00, will picture the government's interest and participation in the industry, the surprising importance of poultry as an economic factor and the many ramifications of the industry. State exhibits from every state and territory will feature many of the local phases of the industry. Secretary of Agriculture Henry Wallace is president of the Congress.

UNION MISSIONARY ORGANIZED AT LENORAH

The Baptist and Methodist churches recently at the home of Mrs. Frank Willingham and organized a Union Missionary Society.

The following officers were elected:

Mrs. Grady Standifer, president.

Mrs. Lige Winter, vice president.

Mrs. Dow Willingham, secretary-Treasurer.

Mrs. Bill Epley, superintendent of study.

Mrs. R. K. Howell, reporter.

The society met March 2 at Mrs. Cleveland's and Mrs. O. B. Bryan and Mrs. Raymond Van Zandt of Stanton, met with the society and outlined the work to be done. The society will meet every first and third Thursday in each month. It met March 16 at the home of Mrs. Jim Bunch. The ladies of the Lenora and Valley View communities are cordially invited to attend these society meetings as their help is needed to make a success of this society.

FLOWER GROVE NEWS

The Flower Grove school faculty were in Lubbock, Friday attending the teachers meeting.

Miss Hagen spent the week end visiting in Post.

Miss Alma Jones spent the week end in Lubbock visiting her sister, Jett Lou.

Miss Edna Standifer of Lenora, spent Thursday of last week in the home of Mr. Earl Heald.

Miss R. M. Mays has been on the sick list, but is improving.

Waddie Brasher has had blood poison in his arm. Last report he is improving.

Miss Inez Overbey spent Sunday in Big Spring.

Earl Heald and Mr. Stutphen of Ackerly were in Big Spring, Monday on business.

Flower Grove was defeated Monday by Brown in valley ball.

Vetal Flores spent Sunday in the Earl Heald home.

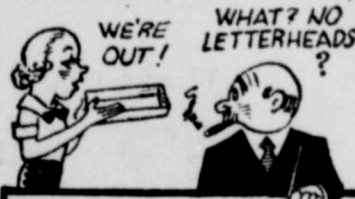

Mrs. Henry Mayfield of Ackerly, spent Monday with her parents Mr. and Mrs. Earl Heald.

Another new home in our community is that of Mr. Boss Mann which is nearly completed and was made into a stucco.

Everybody in our community has been enjoying the warm sunny weather.

Makes Honor Roll

Miss Jeanette Thornton daughter of Mr. and Mrs. E. Thornton of this city, and a graduate of Stanton high school was on the honor roll at Sul Ross Teachers college, Alpine, being in the highest 10 per cent of her class, according to reports sent by the registrar at Sul Ross to Supt. O. C. Southall. Miss Thornton is a junior at Sul Ross and was a straight A student while in Stanton high school.

A New Life in a New Spain as War Comes to an End

Spain turns a new leaf in its history under the Nationalist Government. 1—Method of grinding corn and wheat, centuries old, which is being supplanted by modern methods of farming, using American farm machinery as shown in 2. In 3 the boys of Barcelona show they have not lost their ice cream appetite. 4—Senoritas of Seville start for Lenten services. 5—City girls learn what a sheaf of wheat is. 6—A group of orphans at one of the new nursery homes. 7—An American cream separator goes into service on a new dairy farm, where boys and girls are taught the best methods of handling milk and making butter.

Rodanthe children believe in "Old Buck," an ogre with hoofs and horns who comes at Old Christmas to punish the naughty boys and girls, just as St. Nicholas rewards the good youngsters. None of the islanders remember how "Old Buck" originated, but he's definitely a part of the celebration.

Member Executive Committee, Member General Executive Board.

World's Poultry Congress Comes to the U. S. A. for the First Time

The World's Poultry Congress which meets every third year comes to Cleveland, Ohio, July 28 to August 7, 1939. This is the first meeting ever held in the United States and probably those active in the poultry industry will all be gone before it comes back again. About 60 nations usually participate in the Congress. Every operation in the industry from nest to table will be shown. Every known breed of fowl will be on display. Scientists from all parts of the world will participate. Over 20 acres under roof will be utilized to house the exhibits. The building upper left in the above picture is the Hall of Youth for the junior activities. Also is shown the Cleveland Public Auditorium, exterior and interior, where many meetings will be held and where part of the exhibit will be housed. The two visitors shown are a Polish fowl and a Japanese long tailed chicken. A membership costing only \$1.00 entitles the visitor to attend eleven days of this Congress. These memberships must be bought in advance.

World's Poultry Congress Scenes

In the above pictures are shown some of the scenes where the World's Poultry Congress will be held in Cleveland, July 28 to August 7, 1939. The central picture above shows the Cleveland Museum of Art and grounds surrounding it where some of the activities of the World's Poultry Congress will center. Below are two of the buildings which will house the exhibits. On the right is shown the Hall of Live Poultry and on the left is shown part of the Hall of Nations and States. The two lower buildings cover about four acres and will give room for a great many exhibits. The bird shown on the right above is a mottled Chabo of Japan, while on the left is a Japanese Frizzled Bantam. Over 200 varieties of fowl will be shown at the Congress and almost as many varieties of pigeons. Already several nations have definitely applied for exhibit space and more than thirty have announced their intention of planning an exhibit.

More than "making the motions" when you change to **OIL-PLATING**

...the oil-change *plus*

Dump Winter-fouled oil. Whatever you do, drain and refill now with something. But drain and refill with Conoco Germ Processed oil and then your engine's OIL-PLATED. Then it's got more than swell fresh oil down in the crankcase—it's got another big plus all the way up... It's got fresh surfacing... OIL-PLATING. That comes from the actual union of this patented oil direct with inner engine surfaces. Conoco Germ Processing gives this oil so much "power of attraction" that it cannot drain down and leave engine parts bare, though

your car stands by the hour or speeds by the hour. Never all Spring and Summer, with Germ Processed oil, can your engine suffer rasping "dry starts"... not with every square inch always oiled in advance by drain-proof OIL-PLATING. Nor will four to five thousand revolutions per minute whirl away this implanted OIL-PLATING. It stays on. It helps the oil level to stay up. Your OIL-PLATED engine and Germ Processed oil will both be giving you plus mileage. Change today to Your Mileage Merchant. Continental Oil Company

CONOCO GERM PROCESSED OIL
from Your Mileage Merchant

1/2 MILLION IN TEXAS

Through this telephone, and half a million others like it in Texas homes and offices, Texans talk about oil and cotton and livestock... about who will make a fourth at bridge, and what the doctor said to Henry.

To clear the way for these calls, 8,700 telephone people work along the lines, or in the 314 offices that are the crossroads of the company's 2 1/2 million mile network of telephone wires in Texas. More than 10 million dollars in wages, nearly 5 million dollars in federal, state, and local taxes, help make up the total of over 24 1/2 million dollars this company spent last year to operate its Texas telephone system.

These figures are big because the telephone company has a big job to do in Texas: The job of giving fast, dependable telephone service at low cost to the user.

BUT
no noise means no wear

* Where you hear noise you can be sure there's wear. So when you set out to buy a refrigerator... listen closely to them all. You'll discover one type that makes no noise at all... THE GAS REFRIGERATOR. And that still, cold silence testifies to the long, trouble-free, low-cost life which THE GAS REFRIGERATOR will give you. It has no moving parts inside to wear out and fail.

World's Poultry Congress Comes to the U. S. A. for the First Time

The World's Poultry Congress which meets every third year comes to Cleveland, Ohio, July 28 to August 7, 1939. This is the first meeting ever held in the United States and probably those active in the poultry industry will all be gone before it comes back again. About 60 nations usually participate in the Congress. Every operation in the industry from nest to table will be shown. Every known breed of fowl will be on display. Scientists from all parts of the world will participate. Over 20 acres under roof will be utilized to house the exhibits. The building upper left in the above picture is the Hall of Youth for the junior activities. Also is shown the Cleveland Public Auditorium, exterior and interior, where many meetings will be held and where part of the exhibit will be housed. The two visitors shown are a Polish fowl and a Japanese long tailed chicken. A membership costing only \$1.00 entitles the visitor to attend seven days of this Congress. These memberships must be bought in advance.

World's Poultry Congress Scenes

In the above pictures are shown some of the scenes where the World's Poultry Congress will be held in Cleveland, July 28 to August 7, 1939. The central picture above shows the Cleveland Museum of Art and grounds surrounding it where some of the activities of the World's Poultry Congress will center. Below are two of the buildings which will house the exhibits. On the right is shown the Hall of Live Poultry and on the left is shown part of the Hall of Nations and States. The two lower buildings cover about four acres and will give room for a great many exhibits. The bird shown on the right above is a mottled Chabo of Japan, while on the left is a Japanese Frizzled Bantam. Over 200 varieties of fowl will be shown at the Congress and almost as many varieties of pigeons. Already several nations have definitely applied for exhibit space and more than thirty have announced their intention of planning an exhibit.

More than "making the motions"
when you change to
OIL-PLATING

...the oil-change *plus*

Dump Winter-fouled oil. Whatever you do, drain and refill now with *something*. But drain and refill with Conoco Germ Processed oil and then your engine's OIL-PLATED. Then it's got more than swell fresh oil down in the crankcase—it's got another big plus *all the way up*... It's got fresh surfacing... OIL-PLATING. That comes from the actual union of this patented oil direct with inner engine surfaces. Conoco Germ Processing gives this oil so much "power of attraction" that it cannot drain down and leave engine parts bare, though

your car stands by the hour or speeds by the hour. Never all Spring and Summer, with Germ Processed oil, can your engine suffer rasping "dry starts"... not with every square inch always oiled *in advance* by drain-proof OIL-PLATING. Nor will four to five thousand revolutions per minute whirl away this implanted OIL-PLATING. It stays on. It helps the oil-level to stay up. Your OIL-PLATED engine and Germ Processed oil will both be giving you *plus* mileage. Change today to Your Mileage Merchant. Continental Oil Company

1/2 MILLION IN TEXAS

Through this telephone, and half a million others like it in Texas homes and offices, Texans talk about oil and cotton and livestock... about who will make a fourth at bridge, and what the doctor said to Henry.

To clear the way for these calls, 8,700 telephone people work along the lines, or in the 314 offices that are the crossroads of the company's 2 1/2 million mile network of telephone wires in Texas. More than 10 million dollars in wages, nearly 5 million dollars in federal, state, and local taxes, help make up the total of over 24 1/2 million dollars this company spent last year to operate its Texas telephone system.

These figures are big because the telephone company has a big job to do in Texas: The job of giving fast, dependable telephone service at low cost to the user.

TWO WEEKS' WAGES GO FOR MOTOR TAXES!

More than half of the motorists earn less than \$30 per week and they pay an average of \$50 a year in taxes on their cars. That means that nearly two whole weeks' wages are paid by many motorists for automotive taxes.

HISTORICAL FACTS

NO. 2

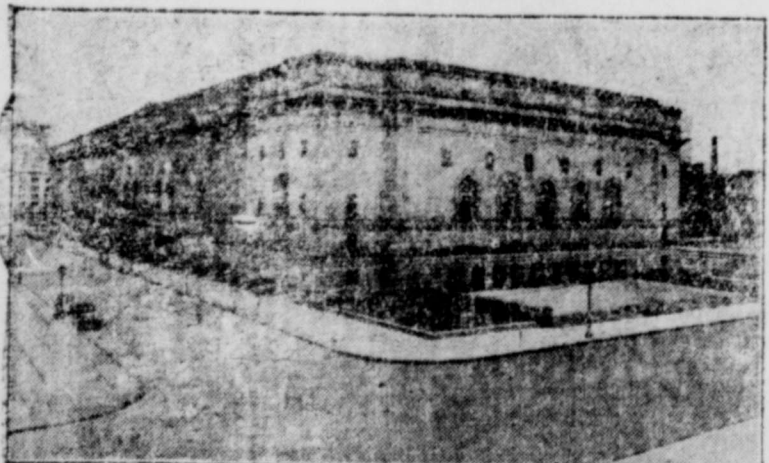

JOHN ADAMS, ONE OF THE FATHERS OF THE UNITED STATES, WAS BORN ON SEPTEMBER 19, 1735, IN BRISTOL, MASSACHUSETTS. HE WAS THE SECOND OF SEVEN CHILDREN OF A FARMER AND DIED ON SEPTEMBER 23, 1826, IN BRISTOL, MASSACHUSETTS. HE WAS THE FIRST PRESIDENT OF THE UNITED STATES AND HIS ADMINISTRATION WAS MARKED BY THE ACQUISITION OF TERRITORY AND THE ESTABLISHMENT OF THE DEPARTMENT OF THE TREASURY.

DR. HIDEOJI NODUCHI, 1878-1928, WAS A JAPANESE BACTERIOLOGIST AND ONE OF THE GREAT DISCOVERERS IN HISTORY. HE WAS INSPIRED BY LOVE OF HUMANITY AND HE WENT THROUGH THE UNIVERSITIES OF THREE CONTINENTS. HE JOINED THE ROCKEFELLER INSTITUTE AND ACQUIRED HIS PH.D. AND BECAME A MEMBER OF THE NATIONAL ACADEMY OF SCIENCES. HE DIED IN 1928 IN AFRICA WHILE SERVING AS A FLYING MEDIC.

WHEN THE KING OF FRANCE IDENTIFIED LAVOISIER AS THE GENERAL CHEMIST, HE WAS THE FIRST TO BECOME THE MOST ADVANCED TO GRANT EQUALITY AND LIBERTY.

A MARSHALL ISLANDER IS IN EXHIBITION AT THE MUSEUM IN ANCHUTZ THIS YEAR. IT WAS REPORTED TO BE A FLYING MONKEY.

Where Seventh World's Poultry Congress Activities Will Center

From July 28 to August 7, 1939, Cleveland's mammoth Public Auditorium will become the Hall of Meetings for the Seventh World's Poultry Congress and Exposition. At the center of the great group of buildings that will house the world's largest industrial exposition, this huge hall will accommodate the scientific and sectional meetings of the World's Poultry Science Association. These meetings, at which English, French, Spanish and German will be the official languages, will attract poultry scientists from every corner of the world. Here, too, official delegations from at least sixty overseas nations will have their headquarters. Here will be a continuous and interlocking schedule of meetings dealing with every phase of the poultry industry—meetings for the poultry raiser, dealing with poultry culture and marketing—and meetings for the processor, the handler and marketer of poultry products—and meetings for the consumer with demonstrations illustrating new and economical ways of preparing poultry for consumption. For a busy eleven days this Hall of Meetings will be the center of interest for a host of a half million or more poultry folk and the "Mecca" toward which worldwide poultrydom will turn its eyes. By securing a membership ticket for \$1.00 the public may attend for eleven days with no additional expense.

His Last Dime

By Katherine Edelman

DAN DRISCOLL was broke. Well, almost broke. He had one thin dime, hiding in the dark depths of a purse that had once held bills of three figures.

He had held it for 20 years, ever since he had found it while ploughing on his father's farm. His lucky dime—that's what he had called it. Dan laughed grimly at the thought. Lucky! Had anyone ever been so unlucky as him? Here was the whole town preparing for Christmas, shopping, spending oodles of money, and he was a penniless, weary wanderer. A lucky dime!

A little place around the corner caught his eye. Dan entered, his nostrils quivering under the tantalizing odors. He looked around with greedy eyes, his mouth watering with longing. Soup, roast fowl, potatoes, luscious mince pie! But he mustn't think about such things. He had just one dime—the price of a cup of coffee and a doughnut, or a hamburger. Which would it be? The

A YULE STORY

queer little man inside the counter waited while Dan weighed the important question. The hamburger won. While it was being cooked to order, Dan dug into his pocket and took the dime from the battered purse.

Hungry as he was, he handed it over before attacking the food. His voice was a bit apologetic. "It's an old timer," he said, "been in my pocket for years and years."

The old man didn't seem to be listening. He was peering through his spectacles at the coin.

"You're sure you're telling the truth about this dime?" he queried. "The absolute truth," Dan answered. "But, if you won't believe me, you can have your coffee and hamburger."

A shrill laugh ran through the place. "It's a good thing you ran across someone who knew, and better, somebody who was honest," the little man was saying excitedly. "Do you know that you have one of the rarest dimes at large? It's—it's worth thousands."

"You mean, this thing I've held on to for years is worth money?"

"It's worth big money," the cafe owner was waving his hands in the air, the dime clasped between his thumb and first finger. "I've been looking for one of them all my life!"

"Hand me that menu!" Dan Driscoll cried commandingly. "I'm going to have a Christmas dinner right now. I'm going clear down the line, from soup to mince pie."

Hawaii Yule Greetings Broadcast to Islands In Pacific Territory

HONOLULU.—For the past three years Hawaii has broadcast Christmas greetings on December 24 to several lonely islands which have become potentially important along aviation's equatorial Pacific area. The messages, from station KGU, go out to the dozen or so young Americans who for three years have been keeping the Stars and Stripes flying on Howland, Baker, Jarvis and other tiny Pacific islands.

State Chairman To Aid Cripples

Ernest R. Tennant, president of the Dallas National Bank, this year heads the sixth annual Easter Seal sale campaign in Texas. Announcement of Mr. Tennant's acceptance of this work in behalf of Texas crippled children was made today by Chas. F. Ashcroft of Sulphur Springs, president of the Texas Society for Crippled Children.

The sale of Easter Seals will commence March 25 and continue until April 15. All receipts from the sale of Easter Seals will be devoted to the hospitalization of crippled children otherwise unable to help themselves.
