

SNOOTER KNOWS

LITTLE ABOUT EVERY-THING

NOT MUCH ABOUT ANY-THING

We are dropping the "plural" pronoun "we" in this column. There is just "one we" that attempts to fill this column and that "we" is "I," if it's not such good grammar. And anyway, where is the columnist that knows anything about grammar? We mean the good columnist. Just look at the wretched ungrammatical construction of sentences that Paul Barron of the Midland Reporter-Telegram and Ralph Shuffler of the Odessa News-Times put in their columns, and these boys are two of, if not the two best columnists in West Texas, and boy, that's sayin' a mouthful. Why, if either Paul or Ralph should fill their columns with grammatically perfect sentences, it would be a surprise attack upon their reading public as would be a Nazi bomb dropped upon them. Nuff of that. I got the first 5 or 6 inches of this space filled, and that's somethin' again!

For fear our sports editor will not be on the job this with his "Offsides," I'll mention here that it might save Paul Barron and Jess Rogers from losing their shirts—that they keep their money in their pockets on that Wink-Midland game Friday night. No matter how many odds may be given on Wink. Being a close neighbor of Paul's and Jess's, I would like to throw my finance and influence on the Dogs copping the game or getting somewhere within 20 points of the Wildcats, but a gambler is no respecter or person, creed or color, hence I'll have to give 7 points and take the Wildcats.

While on the subject of football, the Stanton Buffaloes have their first conference game of the season on the local lot next Friday afternoon, October 6. The clash is with Andrews. Now the feature I want to get over on this game is, it being the Buffaloes' first appearance this season on the home grounds and, too, the game scheduled as the first in the conference, I honor the business men between now and Friday of next week will have gotten their heads together in a cooperative spirit, and decided to close their places of business for the duration of the game. Out of due respect for the local team Stanton owes the Buffaloes this much consideration. Let all be prepared to go out to the game next Friday afternoon and spend a couple of hours rootin' and tootin' for our home team.

NEW GROCERY STORE APPLICATION FOR ON HIGHWAY 80 MARTIN-HOWARD S. C. D. APPROVED

Friday and Saturday of this week have been designated as the date for the opening of the Whiteway Grocery, on highway 80, at the western edge of Stanton by Mr. and Mrs. Bill Dawkins, whose marriage was solemnized two weeks ago at the home of the bride's parents, Mr. and Mrs. Sam Turner.

On the site of the new grocery a nice stucco building for the store, modern, has been built to place the new and fresh stock of groceries and cured meats. A modern ice refrigerator has been installed to care for the meats, butter, eggs, etc., with the balance of the store so arranged as to make it easy and convenient for the purchaser to select his or her merchandise. In connection with the store the Dawkins will handle gasoline and lubricating oils for automobiles and tractors.

Other improvements on the location of the Whiteway Grocery, comprise new windmill and well, and modern little home, occupied by Mr. and Mrs. Dawkins.

GOLDSMITH HOME DEMONSTRATION CLUB

The Goldsmith home demonstration club met Thursday, Sept. 21, with Mrs. M. S. Estes. A brief business meeting was conducted by the president. The demonstration on bedroom necessities was very interesting. The accessories consisted of three units: the dressing table bedside table and desk. The last unit was especially interesting because of its three-fold purpose, namely, reading, writing and sewing center. A sewing machine was used for the desk and a wall shelf hung above it.

Certain Legal Questions To Be Cleared Up Before Election Could Be Held To Decide The Matter

Word has been received this week that the application of Martin-Howard counties for the establishment of a Soil Conservation District within the two counties had been approved and that it was now up to the people of the two counties to determine whether or not they wanted such a district.

In a letter addressed to the county agents of the two counties, Mr. V. C. Marshall, chairman of the State Soil Conservation board, advised that there were certain legal questions up before the Attorney General department on the elections before they could be held and that as soon as these questions were decided the district would be notified and instructed as to holding the elections.

If the district is approved by the people, those landowners or others who are interested in doing soil conservation or erosion control work on their farms or ranches will be able to secure technical assistance from the Federal and State agencies in carrying out the work, but it will be purely volunteer. If the district is not approved no assistance can be secured from these agencies. Martin county is now being served by the Soil Conservation Service but its activities are limited to work on water facility projects. If the district is organized their services might be utilized by a large number of the people who are interested in doing the work.

P. T. A. NEWS

Forty patrons and teachers enjoyed an interesting program at the Stanton P-T. A. meeting Tuesday afternoon. The program was presented by members of the second, third, and fourth grades. Miss Hamilton gave a number of educational value suggestions. The following numbers were given: "The Three Bears"—A play by Raymond Straub, Jo Ann Jones, Fate Keisling, and Patsy Kelly.

Song—Lealie Jean Tom, Jo Ann Jones, Faye Keisling, Raymond Straub, Patsy Kelly, and Frances Kennedy.

Song and Tap Dance—Nora Allene Pursor and Babs Hittson. Reading—Patricia Richards "The School Lunch"—A talk by Miss Hamilton.

The meeting was called to order for a business session following the program in which the members voted to furnish the band with new woolen pants and seven new suits. It was also decided by vote of the members to equip one bus with an overhead luggage carrier for transporting band instruments.

Great interest is being shown by everyone who is attending the P-T. A. meetings. All members are enthusiastic and progressive in their efforts to improve our schools.

Mrs. E. Todd-Buck of Alameda, Calif., spent several days visiting Mrs. Z. E. Ebbersol and the J. B. Colliers and Mrs. Ode and Loyace Hazlewoods. Mrs. Buck is making the trip to Miami, Fla., via San Antonio. She will be gone thirty days, returning to her home in California by a more northern route.

Sells Laundry

Jess Angel sold his Help Your Self laundry this week to the Drenners laundry, and the Angel laundry closed.

How's this for a thrilling moment in real life?

A friend stopped in a tavern on a highway near a large city for a bottle of beer. He was the only customer in the place. A car halted and three rough-looking men came up on the porch and, as they stood in the doorway, one of them asked in a low tone, "Is that him?" One of the others said, "No," and they drove away.

The thought of a narrow escape from being "taken for a ride" in a gang war practically deprived him of his thirst!

Even when men's hearts are heavy, they must have their jest—and so the jokes that were told during the first World War are again heard. Thus does the wheel of fate spin about.

One of the classics was the tale of the negro soldier who crept out into No-Man's Land with a keen-edged razor as his only weapon. Encountering an enemy, the darkey swung at him with the razor. The other smiled and said, "Missed me," to which the negro replied, "You just think I did; wait till you turn your head."

Then there was the Mississippi merchant who told a group of negroes that Uncle Sam was going to put 200,000 colored soldiers in the front line trenches and 100,000 white soldiers in the second line trenches. One of the colored listeners spoke up, "Yes, sah, and 100,000 white soldiers is gwine to be trampled to death."

And don't you recall the negro who defined "T. N. T." (the high explosive) as standing for "Travel, niggah, travel?"

Then there was an American soldier in Paris who wanted to buy a bottle of eau de cologne but he couldn't think of the French name for it.

Soon after the outbreak of the World War in 1914, a mountaineer rode into an East Tennessee village. The storekeeper told him the news: "Germany and Austria are at war with England and France; Belgium has been invaded; Rumania is in it; so is Russia; it is the biggest war in history."

Then the merchant stopped to hear the mountaineer's reaction. Feeling the eye of everyone in the store on him, the new arrival said:

"Well, they got a purty day for it, ain't they?"

Still on the subject of war but in a more serious vein:

"It is the women who pay the greatest price of all for war," said State Railroad Commissioner the other day in a speech in San Antonio to the Democratic Women's Club. "It is sad enough for a man in the twinkling of an eye to lay down his life on the battlefield but what about the mother and the widow of that hero? They must go on living; they must face the dark and troubled present and the uncertain future and they can not forget the memories of the happy past."

Over Texas:

A sign on a Dallas residence reads: "Spiritual adviser and tea-leaves' reader."

Like a scene from "The Wizard of Oz" is the peanut store in Fort Worth, the walls entirely hidden by strings of thousands of peanuts in shells.

A study in contrast is presented on the Cisco-Rising Star highway. Above the doorway of

Engineer in Howard and Martin Counties Last Week Picking Np Service Contracts

Work has been started on the preparation of maps showing where the rural lines will run in the Martin-Howard Counties rural electrification project. H. N. Roberts of Lubbock, who is serving as engineer on the project, was in Martin and Howard counties last week securing the service contracts signed by those people who plan to use the current. He is using this information to determine where to route the lines, so as to serve the most consumers.

Riggs Shepperd, coordinator on the project, met with the Howard county workers Wednesday night and assisted them in getting all of their service contracts corrected so they might submit them to Mr. Roberts. As soon as the territory is completely signed up, maps will be prepared for submission to Washington for their approval.

STANTON-KERMIT GAME SATURDAY NIGHT

The Stanton Buffaloes will play Kermit at Kermit, Saturday night, Sept. 30, instead of Friday night, Sept. 29, at the request of the Kermit school because of the Midland-Wink game. All of Wink and half of Kermit will attend the Midland-Wink game, it is said, so that the Kermit folks were of the opinion they couldn't make expenses on this game unless the date was changed to avoid the conflict.

a modern farm home have been placed an ox yoke and an airplane propeller.

A favorite story: Hearing a noise in the hen-house one night, a farmer grabbed his shotgun and yelled: "Who's there?" From the hen-house came a voice: "Nobody but us chickens boss."

There was a Texas newspaper man who submitted an article in a nation contest. The entry didn't even win honorable mention; it came back with a printed rejection slip. He tore the manuscript up and two years went by. He decided he would try to sell the story again. Using the same material but putting it together in more polished fashion because of the previous "practice round," he sent it to the biggest, best-paying magazine in the United States, and the editor bought it.

There is no such thing as failure—at least, there needn't be. Today's defeat can be made the foundation for tomorrow's success.

CRANES SLAUGHTER THE BUFFALOES

The very muchly outweighed Stanton Buffaloes were trampled by the Crane Cranes last Friday night in a non-conference game at Crane. The clash was the second start for the Buffs this season, the other being a nothing to nothing tie with the Colorado Wolves.

The Cranes had the game from their first touchdown until the game ended because of their large team and the amount of man power. Only three of the Buffaloes were large enough to stay the whole game.

The chief runner for Crane was Mynard. He took off on several long runs for touchdowns. He uses the Frances method, the Midland Bull Dog ace, of dodging and twisting through holes. Also another colorful man was Woodfin. He also took several long jaunts across the goal line. High score man of the night was Chaffin of Crane, with three touchdowns and one extra point.

Leading man for Stanton was Turner with two first downs and a pass interception. Yardage man was Woody who made 45 yards on a pass from Hay in the final period, this being the only pass completion of the game.

The Buffaloes go to Kermit to make another start next Saturday night.

Lineups:

Stanton—Woody and Purser, ends; R. and L. White, tackles; Clinton and Wilson, guards; Crow, center; Sprawls, Thomason, Hay, Chandler, backs.

Subs—Blackford, McElvain, Turner, Egger, White, Spinks, and Haislip.

Crane—Crownover and Howard, ends; Davis and Grounds, tackles; Ingram and Fisher, guards; Brunett, center; Chaffin, Howard, Woodfin, Maynard backs.

Friday night, September 15, the Stanton school band made their first trip for the year. The band accompanied the football squad to Colorado to the first football game of the year. The band gave a stunt at the half which drew a lot of applause.

They formed a "C" honoring Colorado first, then an "S" for Stanton.

The band will stunt at the half of the games the Buffaloes play this season, and has a lot planned for their football trips for the year.

Saturday night, September 23 the band made its second trip for the year going to Crane to play for the football game and to back the football boys. The band made a "C" and "S" and gave a yell both for Crane and Stanton. Next Friday night the band goes to Kermit and will do a stunt there.

Our prediction on the outcome of the game is that the Wildcats will win but we are not making any rash forecast that the Cats will carry off the honors by any top heavy score.

O'Donnel, is a squad the Buffaloes are to meet sooner or later in a conference game. Last week O'Donnel defeated the Big Spring Steers B team 7-0. Just how strong that score means O'Donnel is, we don't know, but O'Donnel can figure that a tough game awaits them when they play Stanton.

Odd enough, we should say! One week end the Stanton Buf-

faloes, in their first game of the season, played the Colorado Wolves to a 0-0 tie at Colorado City. The next week end the Colorado Wolves met the Big Spring Steers at Big Spring, held the Steers to a 7-0 score in favor of Big Spring. And Big Spring is a class A, scheduled to play such teams as San Angelo, Sweetwater, Etc.

The first game to be played on the Buffalo field this season, and a conference game, will be played here Friday, afternoon, October 6, with the Andrews school team. Last week end the Andrews squad played the Ropesville squad a tie game, 0-0. This department fails to get any dope on the Andrews team, since we have failed to get the Andrews paper the past 3 weeks (continued to back page)

THE SUN ROSE THIS MORNING

GOOD ELECTRIC SERVICE DOESN'T JUST HAPPEN!

• The sun rose this morning shortly after 6 o'clock. How many persons thought of this as a most important event? But what if the sun didn't rise? Chaos would overtake the world!

The sun rises and sets EVERY day. It never misses; it never rests. We all know this, but seldom think of it, so commonplace has this indispensable service of the sun become.

So it is with your Electric Service. Like the sun, electricity never rests; it has no holidays. It works for you 24 hours a day—every day!

But good electric service doesn't just happen! Thousands of dollars are spent annually to keep your electric service GOOD. Many employees spend their entire time in keeping intricate electrical devices, hundreds of miles of wire and other electrical equipment in first class condition so that your electric service shall be as dependable as skilled human hands can make it.

a touchdown! and a skinned knee!

Football on the corner lot! Enthusiasm and boisterous play make thriving youngsters. But scan them for skinned knees or cut fingers when they come home. Each broken skin area is a potential source of infection. Clean, disinfect and watch! If soreness remains or a cut does not heal promptly it's time to tell your physician. Remember, neglect opens the door to sickness and disease.

OFFSIDES—
(continued from page 3)

Come on Editor Roberts, send us your paper, don't be holding back anything on us!

This department acknowledges a season pass to all Winkcat games on the Cats' field from Coach Les Johnson, for which, Les, please accept our greatest gratitude. Now, if we could only get Coach Taylor of the Midland Bull Dogs to see things the same way, what a dignified and stimulating effect would our presence add to Midland fans—whenever we were present, through the courtesy extended by the Mid-

land coach.

We hope Stanton merchants and business men will show their appreciation to eleven Stanton high school boys comprising the Buffalo squad who will be out there fighting in that game with Andrews next Friday afternoon October 6, and close their places of business during the game.

Brewers Convene On Public Service

BREWERS of America who have been conducting a three-fold educational, advertising and self-regulation campaign to align their industry with the public interest, will review progress and plan future operations at the United Brewers Industrial Foundation's Convention in New York City, on Wednesday, October 4.

All brewers in the country have been invited to attend the Convention, to discuss long range plans for an industry which has made tax contributions, created employment and stimulated local business in six and a half years to the extent of 10 billion dollars. The Foundation was established three years ago as a non-profit organization to interpret the brewing industry to the public and the public to the industry.

State directors of the industry's self-regulation movement will present reports of active cooperation during the past year with local law enforcement officials to "clean-up or close-up" establishments where objectionable conditions surround the sale of beer. This phase of the program is being pursued to date in Nebraska, Alabama, Kansas, Tennessee, North Carolina, Mississippi, Oklahoma and West Virginia.

Plans for continuance of the self-regulation activities and of the newspaper advertising campaign which the Foundation has been conducting in many states will be discussed at the meeting. Following the Convention, brewers and their guests will participate in Brewing Industry Day at the New York World's Fair, on Thursday, October 5.

HOME OWNERS MEET AT FORUM

PAINT on stucco offers limitless possibilities for colorful decoration as well as protecting the surface against disintegration resulting from weathering or severe usage.

For durability under the most exacting conditions—often including extremes of temperature and humidity—paint must have a pigment and vehicle combination which reacts to form a firm but elastic film resistant to wear and weather, capable of expanding and contracting with the surface as climatic changes demand.

Years of experience have proven that three coats of high quality exterior paint—such as pure white lead and oil—are the economical means to lasting beauty on stucco.

Apply priming coat composed of 3 parts soft paste white lead, and 5 parts of a half and half mixture of linseed oil and lead mixing or lead reducing oil.

Follow with body coat mixed with equal parts soft paste white lead, lead reducing or lead mixing oil.

For flat finish apply 3 parts soft paste white lead and 4 parts lead mixing or lead reducing oil.

Q—Of what is furniture wax composed, and how should it be applied?
A.—The principle ingredients of wax are pure beeswax and turpentine.

Wax is usually applied over shellac, lacquer or varnish base.

Obtain even coating by squeezing through cloth during application.

After fifteen minutes drying, polish surface well with soft cloth to obtain luster.

Several coats may be necessary.

Q—Can varnish be applied on a waxed floor?
A.—No. Varnish will not dry over wax. It will be necessary to remove wax before varnishing.

RUPTURE

H. L. Hoffman, Expert, Minneapolis, Minn., will demonstrate without charge his "Perfect Retention Shields" in **BIG SPRING** Wednesday, October 11, at the Douglas Hotel From 10 A. M. to 4 P. M. Please come early.

Evenings by appointment

Your physician will tell you about this serious condition. Any rupture allowed to protrude is dangerous. My "Retention Shields" will hold your rupture under any condition of exercise or work. They are sanitary waterproof and practically indestructible. Naval Ruptures and those following abdominal operations, especially solicited.

Do not wear trusses that will enlarge the opening and don't neglect the children. Many satisfied clients in this community. No mail order.

NAGGING BACKACHE
New Wave of Disordered Kidney Action. Don't Neglect It!

Modern life with its hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, etc., keeps doctors busy, hospitals crowded. The after-effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance may be burning, scanty or too frequent urination.

In such cases you are better to rely on a medicine that has won world-wide approval than on something less favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores.
