NUMBER NINETEEN

SMOOTHER KNOWS

A LITTLE ABOUT EVERYTHING
AND
NOT MUCH ABOUT ANYTHING

YOU know that squib appearing in this column recently about waste paper that had been piled in front of a downtown building left to scatter, and it did scatter, to the four winds? Well, the next issue of the Reporter had hardly reached the post-office for mailing, when this office was stormed, and when I say stormed, I mean blasted, by a group of teen-age boys and girls from the Stanton schools looking for waste paper, magazines, etc. The pile of old papers that had been accumulating in the Reporter office for two or three months, was shown the youngster, and they pounced on it like a hawk on a rabbit, and off to the school house they toted it. That bunch of girls and boys had hardly slammed the door behind them than another group struck the office in a storm, and while the frequency of the storm has somewhat subsided, there is still some calls for waste paper by the youths.

This invasion of school children in quest of old waste paper was not all on the Reporter office it extends to every business house and home in Stanton. A general cleaning up of waste paper is being made of the town. The power behind this invasion and the stimulus that makes it so thorough-going, come from the fact a prize of a war bond has been offered to the school room that collects the most poundage of old paper, and it's working. Oh, boy, the waste paper drive in Stanton is now at fever heat, and if there's a scrap of paper big as a quarter floating around loose when the drive ends, I'll miss my guess. This department understands the Air Field at Big Spring in coming over to Stanton and hauling the waste paper collection. Some two or three truckloads have already been hauled to Big Spring.

Congratulations goes to the local schools for taking over this very important to collect so vital product needed for the war effort.

THERE is nothing this department could say that would inform the people there is anything but success for the 4-H Boys Calf Show to be held in Stanton this Saturday. All prior shows of this nature have been successes, and nobody has any doubts about this one falling below the very high plane established by such events in the past. We are told the calves, as a lot, will excel those in former shows—if they do, they'll have to go some. We hope this item is read by the subscribers before they all get to the show, but we'll not vouch for it. The Reporter has been running a day behind because of an extra load of advertising from Big Spring enterprising merchants placed on our shoulders. And by the way, these Big Spring merchants are asking for your business when you are in their city, and when it is impossible to get the article wanted from your local merchant.

THE story carried on the front page of the Reporter a couple of issues ago that we were now "down to brass tacks" on this conserving newsprint, and informing subscribers we would have to drop them off the subscription list at the expiration of their date, has brought many renewals the past week, and even gone so far as to arouse some subscribers a way out in the rural district to take down the receiver and telephone the office not to drop their names as they would be in town in a day or so and renew their subscriptions. That kind of doings makes the editor feel good, as it reveals his efforts were appreciated. One lady subscriber called in

instructed us to go to the bank and have the banker give a check on her account for the amount. Then, of course, comes along the fellow to darken the picture who says when you tell him his subscription expired sometime ago and did he want to pay up, and he answers, "You should have stopped the paper when the time was out," and walks away. All the time he removed the paper from his mail box and read it. That sort of a fellow usually beats his neighbor to the rural box to get the paper and read it. But we appreciate the many subscribers who appreciate our predicament and are paying their subscriptions, even before their dates have expired. Remember if the figures opposite your name stamped on the paper reads "2-45" you subscription expires in February, and if the figures read "3-45" it means your time expires in March.

I know what you are thinking. If newsprint has reached so critical stage why is it that all the wastebaskets in the business places and offices are being filled to the brim with non-essential publicity. I'm like you, but I'm not the guy who by the snap of his finger could make the water run up hill or the moon stand still. I'm just a common, meek-mannered country newspaper man, whose living is at the mercy of his advertisers and subscribers, and who takes what his government hands him whether he likes it or not. When I get a little peeved at things not going to suit me, I turn my think tank in the direction of our boys on the battlefronts—things are not going to their liking, but they are wading ice-cold water up to their necks and facing shot and shell for us back home by warm fires and comfortable homes—so why should we ache over anything our government asks us to put up with.

Most of us don't trust people for two reasons: First, because we don't know them; second, because we do.

Through the Red Cross the American people serve the men of their Army, Navy, Marine Corps and Coast Guard.

LOCAL DRIVE FOR NATIONAL RED CROSS FUND GETS UNDER WAY MARCH 1ST.

The 1945 drive for the National Red Cross Fund, starts March 1, to continue throughout the month. The national goal to reach \$200,000,000. Martin county's goal is \$3,300, and it is the hope of County Chairman Cecil Bridges, and his committee that this amount will be raised a few days following the start of the local drive.

"It shouldn't require but a few days to reach our quota. The people are thoroughly acquainted with the great work the Red Cross is doing to give every aid to our soldiers on the battlefronts, in the training camps, and to prisoners of war, as well as relief to people on the civilian front, and every individual should have his mind made up to contribute as liberally as possible to the Red Cross fund when he is approached by solicitors," said Mr. Bridges. "Better still," he said, "many as possible should volunteer their contributions—not waiting to be solicited."

All over the world, Red Cross girls are working in military hospitals. They aren't nurses. In a medical sense, they cannot care for them in countless other

STANTON STUDY CLUB ELECTS ITS OFFICERS FOR THE CLUB YEAR

MRS. JAMES JONES BRIEFS HISTORY OF TEXAS ART

By **MRS. R. B. WHITTAKER**
Election of officers and discussion of course of study for next year, were main features in the business session; and Texas Art and Artists was program topic when the Stanton Study Club met with Mrs. James Jones on February 8.

In the business session the following officers were elected for the club year 1944-1945:

President—Mrs. Paul Jones.
Vice President—Mrs. Ira Williams.
Recording Secretary—Mrs. O. E. Bryan.
Corresponding Secretary—Mrs. J. E. Kelly.
Treasurer—Miss Carrie Alvis.
Parliamentarian—Mrs. P. G. Smithson.
Critic—Mrs. John F. Priddy.
Press Reporter—Mrs. R. B. Whitaker.
Club Musician—Mrs. Edmond Tom.

A slight majority of the fifteen members present seemed to favor a miscellaneous program for next year; but no definite decision was reached and final plans will be left to the year book committee.

Mrs. James Jones acted as program director and introduced the subject by briefing a history of Texas art. She stated that art in Texas began over two thousand years ago with the basket weavers of West Texas and the mound builders of East Texas. Then later all kinds of artisans seeking elbow room came to Texas where they found music in the winds and negro spirituals, and an abundance of visual art material in the gorgeous sunsets, ever-changing skies, the wild flowers, and the Indians themselves. Although we may not think of them as such, cartoons are art because with a few lines and curves they tell a whole story.

Mrs. Jones also discussed the Onderdonk family composed of Robert Onderdonk, the father.

MONTAGUE YOUTH HELD FOR SLAYING OF J. R. TREADWELL

TWO MEN HAD BEEN WORKING IN BIG LAKE OIL FIELD

Sheriff Morris Zimmerman of Martin County, Sheriff Ed. Darnell of Midland County, and Burrell Haney of the Highway Patrol, Big Spring, returned Tuesday night from Austin where they carried car seat, pieces of glass from broken cad window, empty shell from German Luger pistol, bullets extracted from victim's body, to Department of Public Safety, for examination, and all tallied with car and gun in the possession of Frazier. The car seat had bloodstains on it, according to Sheriff Morris Zimmerman.

Bloodstains on Treadwell's car had been painted over, said Zimmerman.

Marion Wilhart Frazier, 18 year-old Montague, Texas youth who recently has been working in the Big Lake oil fields, was charged with murder last Saturday night in connection with the slaying of Jewel Revis Treadwell, 42, who also had been working in the Big Lake fields and whose bullet-pierced body was found Thursday afternoon of last week under the culvert at Mustang Draw, six miles west of Stanton on highway 80.

The murder charge was filed before Justice of Peace Lyndon White of Stanton. Frazier waived preliminary hearing and was denied bond.

The youth is being held in the Midland county jail for safekeeping. He was arrested last Friday at his home in Montague by Sheriff J. L. Jameson at the request of Midland and Martin County officials.

Sheriff Ed. Darnell of Midland County, Police Chief Jack Ellington of Midland, and Sheriff Morris Zimmerman of Stanton, immediately drove to Montague and questioned the youth. They said he made a complete statement, admitting the slaying. The officers returned him to this area Saturday night.

Services In Lubbock
Treadwell was taken to Lubbock Saturday for burial. He was unmarried. Five sisters and four brothers survive.

Officers said Frazier told them he and Treadwell left Big Lake Tuesday night and drove in Treadwell's car to San Angelo, Coleman, Big Spring and Stanton on way to Albuquerque N. M., where they planned to work for an oil operator. Before leaving Big Lake, the youth purchased a German Luger pistol and carried it in the automobile.

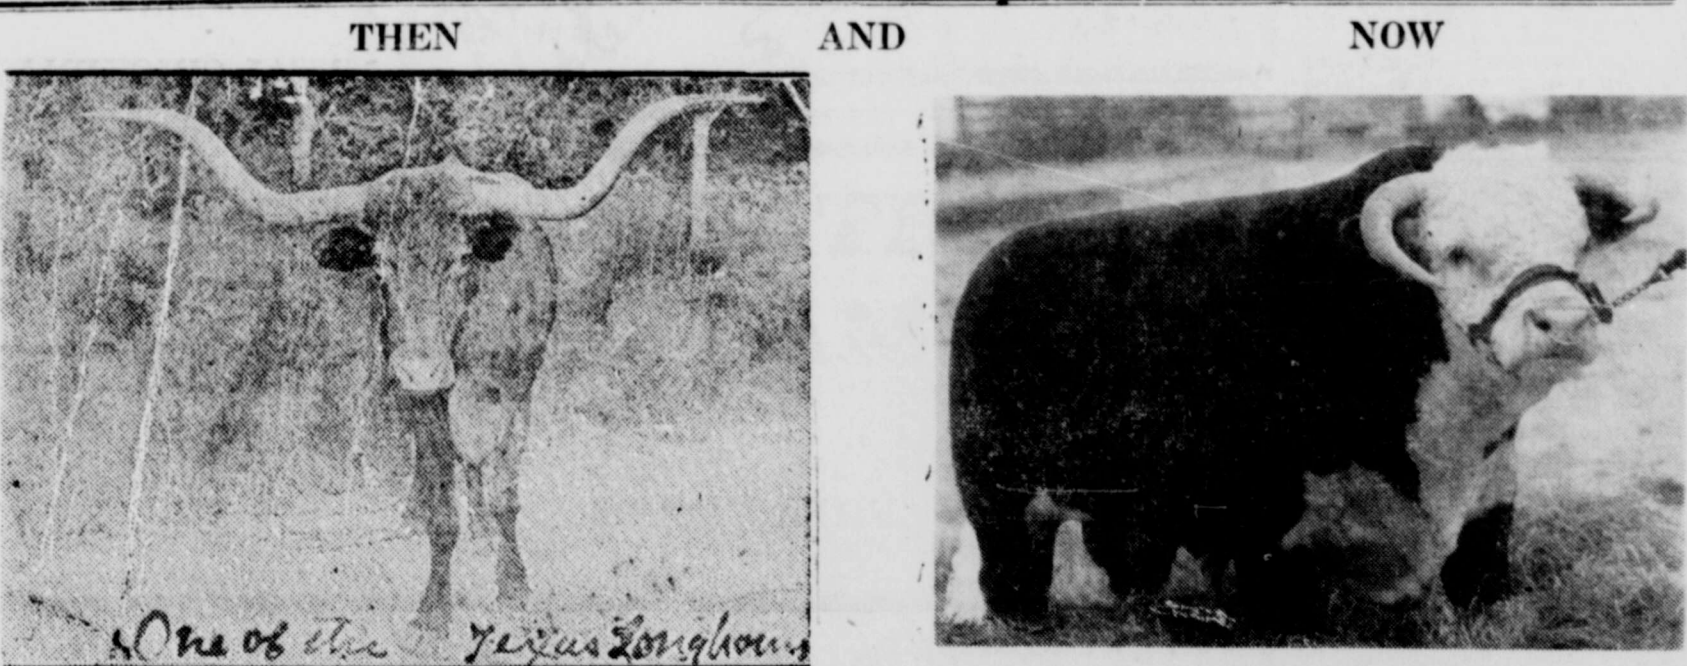

After they drove through Stanton, Frazier said Treadwell attacked him and that he grabbed the pistol and shot his companion. At the time, Frazier said he was driving the car. He said the slaying occurred about 400 yards east of the Martin County culvert where Treadwell's body was found. The youth said the shooting occurred about 10:30 or 11 p. m. last Tuesday night.

He said he had known Treadwell since last year, when the older man worked in the oil fields near Bowie. Frazier came to West Texas last October 1.

After the shooting, Frazier said he drove to Montague in Treadwell's car. The automobile was recovered by officers in Montague and they said the found the pistol in a trunk in Frazier's parents' home.

Treadwell's body, pierced by six bullets, was found under the culvert by a soldier and removed to Midland by officers. They said the body had been dragged down the embankment from the highway and under the culvert.

SATURDAY IS THE DAY FOR 4-H CLUB CALVES TO GO ON EXHIBITION IN STANTON

SEVENTEEN CALVES SCHEDULED TO SHOW
W. L. STANGEL, HEAD ANIMAL HUSBANDRY DEPARTMENT TEXAS TECH., TO JUDGE

Committee on arrangements have decided to have the calves on exhibition at Higginbotham-Bartlett Co., lumber yard, provided the weather is not bad, otherwise they will be housed in the warehouse of the Farmers Gin & Cotton Co., across the railroad in South Stanton. W. L. Stangel, head of the animal husbandry of Texas Technological College, Lubbock, has been secured to judge the calves.

The report is going the rounds shows. This claim comes from that the baby beavers to be shown cattle breeders of authority this year, as a lot, are of a quality that will excel the calves that have been exhibited in prior

form, the visitors at Saturday's show are in for having their eyes bulged out to the nth degree, for former 4-H boys have shown calves here that went right on from their home town and won top honors in all West Texas shows from Fort Worth to El Paso.

The calves will be on exhibition at 10 a. m. at the lumber yard and the judging will be held at 2:00 p. m., Saturday, on Main Street, weather permitting.

The calves will be divided into three classes: calves weighing 800 and under; calves weighing 801 pounds and under 900; calves weighing 900 pounds and above.

Dry lot calves one class. Included in the list of 4-H club boys to show the calves are:

John Dale Kelly, Benny Kelly, L. R. Shoemaker, W. D. Chandler, Box Cox, Maurice Standefer, W. B. and Elmer Lee Criswell, Bobby Airhart, Douglas and Wayne Church.

The Stanton Service club is sponsoring this show.

COURTNEY RAISES ITS QUOTA IN A JIFFY

M. W. Alcorn, superintendent of the Courtney high school was in the Reporter office this week and said at a meeting at Courtney and said at a Red Cross meeting held at Courtney last Friday at which County Judge B. F. White was speaker, they raised their quota of \$275 right there and then.

ways—doing for them the things you, the people who love them, would do for them were they at home. Little extra things that nurses and doctors don't have time for in a theater of war—like writing letters for a boy whose hands are hurt, reading to a boy who is blind, distributing books and cigarettes and magazines in the wards, planning parties and entertainment for boys who are getting well, perhaps just talking to them about home.

These wounded men care about little things very much. There are many instances like that of the boy who was dying in the Libyan desert. The one thing he wanted during those last few days was roses—his mother had grown them at home. The Red Cross girl who had had brought them to him every day out in the hospital in the sand, wrote his mother this: "He said they were almost as pretty as the ones in your garden at home. He used to lie there looking at them, smiling, and he said if he closed his eyes he felt he was sitting in your garden again and there were trees and green grass and the puppy he said you called Sam, and you. He thought that was where he was when he died." She sent the letter to his mother, with his Purple Heart.

CAESAR RODNEY

After a ride that rivals Paul Revere's, Caesar Rodney broke a tie vote in Delaware's delegation to the Continental Congress at Philadelphia on Lee's resolution for independence. Late on July 1, 1776, he arrived home after quelling a revolt in Sussex County where he received an urgent summons to Philadelphia. Mounting a horse, he rode through the night and arrived in the northern city in time to place Delaware with the other colonies backing the resolution. That spirit of service animates Delaware people in buying War Bonds today to insure liberty for future generations.

MARTIN COUNTY FIGURES IN LOOT STOLEN BY MEXICANS

AT LEAST \$2000 WORTH GOODS RECOVERED

A wave of thievery, starting on last election day, by Mexicans, covering the counties of Martin, Dawson, Lynn, Borden, Gains, and Terrey, has been broken by the arrest of five Mexicans, one in Martin county. Two Mexicans, Clemente Garcia and his wife, Francisco Garcia, they were taken into custody at their home southwest of Lamesa after Sheriff Bennett and Deputy Jap Randa of Dawson County, had waited at the farm home from 2 o'clock in the afternoon until about 11 o'clock in the evening. A large amount of stolen property was found there, consisting of furniture, radios, bed clothing, both men and women clothing, saddles, guns, and many other items. Included in goods returned from Eagle Pass were also a large list of the same kind of items, including bedsprings, a trailer, et. The Mexicans arrested and returned to Dawson county were Louis Rangel and Mmelio Cuntro.

It was estimated that at least \$2,000 worth of goods had been recovered. Some fifteen families in the area of seven counties have already identified much of the property.

This series of raids on the farms of some seven counties in this section started last July, it was stated.

Sheriff Morris Zimmerman of Martin county, accompanied Sheriff Bennett of Dawson county and the sheriff of Sterling county, on a trip to Eagle Pass returning with two Mexicans and trailer load of recovered

stolen property. Sheriff Zimmerman has one Mexican lodged in the jail here. Seven farm homes in Martin county were burglarized and stolen property from all but one has been recovered.

Orson Platt and Erastus Snow emerged from the East Canyon the morning of July 21, 1847, and marvelled at the beauty of the Great Salt Lake Valley, Utah. who was a teacher of art; Julian, the son, whose specialty was painting bluebonnet scenes; and Eleanor, the daughter, who took up her father's classes upon his death yet still found time to do miniatures.

As a conclusion to her topic, Mrs. Jones, presented Miss Lela Hamilton, who is a local artist well known to all and called attention to her paintings which were on exhibition in the room.

Mrs. Edmond Tom then spoke on West Texas artists and there certainly is an abundance of them. Most of them paint typical West Texas scenes of cows, cowboys, and prairie brush and skies. She concluded her discussion with Elizabeth Ney, who perhaps was the most eccentric person ever to call Texas "home."

Members present were: Mmes. Patterson, E. Tom, Ben Carpenter, Fred McPherson, Paul Jones, O. B. Bryan, Bryant, Calvin Jones, Echols, Smithson, R. B. Whitaker, Morgan Hall, John F. Priddy, James Jones, and Miss Carrie Alvis. Miss Lela Hamilton, was a guest.

Advice to girls: Never let a fool kiss you; or a kiss fool you.

COMMITTEES ARE—

(continued from page two)

An organization training meeting was planned by the Council. This is to further better organization in the county. Plans include out of county visitors to assist in the training.

Mrs. Stanley Reid, chairman, gave a detailed report of Howard County's organization training meeting she attended in Big Spring on February 14.

There were nine members representing three clubs attending this meeting of the Council. The next regular meeting will be March 17, at 2:00 p. m. in the Agent's office.

NEWS FROM GIRL SCOUTS

Martha Fuquay The Girl Scouts met Feb. 15. We worked on our badges and got a part of them off. Girl Scouting is fun. We could have more fun if we had more Scouts.

We are putting on a program March 12. We want you to come. It will be held at the school house at 3 p. m.

Last time we studied about different countries. We had something from China, England, and Old Mexico, to show.

WORLD DAY OF PRAYER HELD AT M. E. CHURCH

Stanton women participated in the World Day of Prayer Friday by holding a service at the Methodist Church. This day of prayer is a movement over fifty years old and is sponsored by the Federated Council of Church Women.

Mrs. W. C. Houston gave a piano selection as a prelude to the program and served as accompanist throughout the program. Mrs. Calvin Jones, as program director, led the unison reading of several selected scriptures pertaining to prayer and the remainder of the program was as follows:

Prayer—Mrs. O. B. Bryan.
Hymn—"Saviour, Like A Shepherd Lead Us."
Devotional—Mrs. R. B. Whitaker.
Special Music—"Postwar Peace"—Mrs. Jim Tom.
Prayer—Mrs. James Patterson.

SHOWER HONORING MR.-MRS. W. O. MOORE, JR.

Thursday night, February 15, Pvt. and Mrs. W. O. Moore, Jr. were honored with a bridal shower and party at the home of Mrs. Mike Anderson. Decorations were carried out in the Valentine motif.

The hostesses were Misses Verla Anderson, Beth Rowden, Vesta Chandler, Billie Anderson, Mrs. Glen Jackson, and Miss Anna Lou Anderson.

There was a big crowd present and the couple received many beautiful gifts, among them was a nice set of silver.

Mrs. W. O. Moore, Jr., formerly Marie Davenport, is the daughter of Mr. and Mrs. Angelo Davenport. She attended Stanton high school. Her many friends wish her much happiness.—Contributed.

Modern Gas Service

Many women, working long hours beside their sons and husbands on America's production lines, are also keeping things humming at home. Meals must be cooked. Food must be purchased and preserved. There must be hot water for baths. Modern gas engineering is keeping these women on the job, both at home and at defense work. Research carried on years before the war has put such outstanding gas appliances as the automatic water heater, kitchen range and automatic gas heaters in millions of American homes . . . homes that today are operated by these defense working women . . . and they are the people who can truly appreciate every little convenience that Natural Gas is giving to them now.
