

More Indictments To Be Asked

Grand Jury Will Meet This Monday

Indictments charging felony theft of public funds will be sought against six persons when the new grand jury is empaneled Monday in district court here. It was indicated this week by District Attorney Gil Jones of Big Spring and County Attorney Ralph Caton.

District Judge Charlie Sullivan will convene the grand jury Monday, and it will consist of persons from the panel named this week, which are as follows: Gene Clements, George Glenn, Mrs. Clark Hamilton, Owen Kelly, Mrs. R. S. Lewis, R. K. Rogers, Roosevelt Williams, Mrs. George Lewis, Steve Church, Mrs. T. Lindsay, Arthur Wilson, Bruce Key, George Davenport, M. H. Nance, Curtis Powell, and Mrs. Lila Flanagan.

These indictments, the prosecutors explain, will be asked to cover defects in indictments charging the same offenses that were returned by last summer's grand jury, one of which was quashed in the district court at Sweetwater by Judge W. S. Mauzey May 16 when one of three cases against James Herndon, Stanton contractor, was called for trial there on a change of venue.

Defendants in the grand jury will be asked to re-indict include Herndon on three charges; County Commissioner Joe Froman on three charges; former County Commissioners Oliver Vaughn and Stanley Lewis on two charges each; Whit McMorries on two charges and M. H. McMorries on one charge.

Whit and M. H. McMorries are brothers of James McMorries, former county judge, who is serving a term in the penitentiary, having entered guilty pleas to two similar indictments and having been convicted in a jury trial on a third.

It is also expected that next week's grand jury will be asked to return additional indictments growing out of this county's financial irregularities prior to last summer's extensive grand jury investigation.

Stanton, Martin County People Getting Degrees

Several persons from Stanton and Martin county have received degrees from various colleges this year.

Barbara White, Sammy Foreman, and Benny Welch were among forty graduates who received diplomas from Howard County Junior College Thursday at the school's annual commencement banquet.

Miss White, the daughter of Mr. and Mrs. Bonnie White, of Tarzan and Foreman, the son of Mr. and Mrs. S. J. Foreman, of Lenora, received the associate in arts degree.

Welch, the son of Mrs. Irvin Welch, received a college diploma.

Leon Randolph Hull, Jr., was awarded a degree in Agricultural Education from the school of agriculture at Texas A&M College May 27. He is the son of Mr. and Mrs. Leon Hull of Courtney.

Earl Lee Koonce is one of 413 students who are scheduled to receive degrees from Kansas State Teachers College June 2 in Pittsburg, Kansas.

A son of Mr. and Mrs. M. L. Koonce, he is to receive a B. S. in business administration.

His brother, Gerald D. Koonce, was graduated in May from Sul Ross State College in Alpine.

Ray Parker Simpson, Jr., son of Mr. and Mrs. R. P. Simpson of Stanton was one of 89 who received degrees from the division of agriculture at Texas Tech in Lubbock Monday evening, May 30. He received a degree in animal husbandry.

Highway 80 Work Is About Complete

Within the next three weeks Martin County will be a participant in a tri-county event that will mark the completion of the longest four-lane highway in the state of Texas.

When the project is completed it will be 60 miles in distance. The counties participating in holding the state's top record for four-lane highway building are Martin, Midland and Ector.

The Reporter gathered this information from G. T. Orenbaum, resident engineer of Midland for the Texas Highway Department, who visited the office Tuesday morning.

Orenbaum reported that work on the four-lane project in Midland county will be completed within three weeks.

The first section of the four-lane highway to connect up Ector and Midland counties was completed in Martin County.

REBEKAHS MEET

The Stanton Rebekah Lodge met recently and a school of instruction was held by the lodge deputy, Flossie Burnam. Sammie Laws, noble grand, presided during the business session. Twenty members were present.

Next Monday Is Dollar Day

Next Monday is Dollar Day in Stanton, and once again Stanton merchants have prepared bargains for Dollar Day visitors, which are running in this issue of The Stanton Reporter.

June Dollar Days are usually good bargain events, with many people thinking of vacations and going somewhere, and getting ready for it. And, the June Dollar Day offerings are good ones.

As an extra feature of Dollar Day advertising, the Reporter is sending the paper out to quite a number of people not regularly getting the paper, so they may have the Dollar Day bargains. Extra papers are being sent to Tarzan and Lenora and the routes out of both places and out of Stanton, and to Garden City and the Garden City routes also.

Following is a list of Stanton merchants carrying advertising in the paper this week, with Dollar Day advertisers starred thus (\$):

Dan Saunders Will Cavort Today With Sidewalk Cattlemen as Youngest Sheriff

By JAMES E. KELLY

This day is Thursday, June 2, 1955. It's the publication date of The Stanton Reporter. Nothing unusual about that—it takes place 52 times a year. But there is an event taking place today that is destined to stamp an important niche on the pages of Martin County history.

On this very Thursday, the Madisonville Sidewalk Cattlemen's Association is holding its colorful 15th anniversary celebration at Madisonville in Madison County, Texas. To quote a pre-account of the celebration by the Madisonville Meteor, this event will be "equal to a three-ring circus, where everything will close up shop for a day of fun, foolishness, and feasting."

And to think Martin County is profiting the celebration with one of its major attractions. Dan Saunders, Martin County sheriff, is attending the cattlemen's celebration, and betcha right now he is parading the sidewalks and the celebration grounds wearing a brand new pair of hand-made cowboy boots, as a prize for being the youngest sheriff in Texas.

Saunders was born August 20, 1925. By nine days he won the coveted recognition of being the youngest sheriff over Jim Montgomery of Jayton, Kent County, Montgomery was born August 11, 1925.

The honor of being the oldest sheriff in Texas went to A. S. Fletcher of Hempstead, sheriff of Waller County. He won over S. F. Hunt, by seven months and five days. Fletcher, is already 69 and will celebrate his 70th birthday January 13, 1956. Hunt will be 69 on his next birthday, August 18.

A newspaperman of Madisonville was responsible for originating the Madisonville Sidewalk Cattlemen's Association. Fifteen years ago Henry Fox, the then editor of the Madisonville Meteor, devoted many columns of his newspaper to kidding drug-store cowboys for wearing high-heeled, sharp-toed, gaudy-topped boots, and from that came the organizing of the MSCA.

To read an advance story of the celebration in the Madisonville Meteor, the program has a-bout every kind of an event to be pulled off.

Included: a grand street parade, followed by junior boys and girls horse show, junior livestock show and auction sale, musical programs by Madisonville High School Band and "Texas Village Boys," radio and TV musical group, breath-taking and spine-chilling rodeo that night.

We'll look for our Sheriff Dan Saunders when he gets back.

PRESS CONVENTION SPEAKERS—When the Texas Press Association holds its 76th Annual Meeting in Galveston on June 10 and 11, three of TPA's top speakers will be Erwin Canham (left), editor of the Christian Science Monitor; Texas' Attorney General John Ben Shepperd (center); and Houston Post's Columnist George Fuerrmann, who is pictured on the right. TPA President W. K. Beaumier, publisher of the Lufkin Daily News, reports that advance reservations indicate the attendance of more than 300 daily and weekly newspaper men and women. The convention will mark the completion of 75 years of service on the part of the TPA.

Davis Speaker At Flower Grove Commencement

Ed Davis, manager of Martin County chamber of commerce, was the speaker of the evening at the Flower Grove grammar school and high school commencement exercises, Thursday evening, May 26, in the school gymnasium.

Davis, who was introduced by Superintendent Kennemer pre-spoke on "The Advantage of High School and College Education."

The invocation was given by A. C. Barkowsky and Dugan Butchee pronounced the benediction.

Polly Cave welcomed parents and friends of the classes. After her welcome Wayne Wiggins asked "Does Graduation End All?" in his speech. Laveda Davis spoke on "Studies" and Elena Barkowsky's speech was "What American Means."

Mary Beth Butchee gave the valedictory and a piano solo was presented by Barbara Hill. Superintendent Kennemer presented diplomas to the nine eighth grade students and the five members of the high school graduating class.

Members of the eighth grade class were Sidney Berger, Shirley Burns, Mary Beth Buechee, Kenneth Carmichael, Polly Cave, Joe Deatherage, Delbert Holcomb, Jimmy Merritt and Barbara Weatherford.

The 1955 graduating class of Flower Grove high school includes Elena Barkowsky, Joyce Barkowsky, Wayne Wiggins, Jimmy Wayne Heald and Laveda Anderson.

Music for the professional and recreational was furnished by Ann Hanson.

Ushers for the eighth grade class were Penelope Butchee and Craig Beckmeyer and ushers for the high school graduating class were Margaret Wiggins and Vernon Holcomb.

Methodist Bible School Finished

A "Sharing Program" Sunday evening at the First Methodist Church ended Vacation Bible School for children of the Methodist Church.

Following the program an exhibit of handwork made during the school was held in the church basement.

The school began Sunday, May 22, with registration. An average of 51 children attended each afternoon last week.

Picnics were held Saturday. The kindergarten and primary classes went to the city park and the junior department held a Jewish picnic at the church.

Refreshments were in keeping with Jewish customs.

Mrs. O. B. Bryan was superintendent of the school.

Other officers and teachers were nursery, Mrs. Raymond Phillips, and Mrs. Jimmy Stallings; primary, Mrs. Aaron Done-lson, Mrs. Bob Haislip, Mrs. John Wood and Mrs. Cliff Hazlewood, Jr.; kindergarten, Mrs. James Biggs, Mrs. Jiggs Hall, Mrs. Hatris Curry and Mrs. Ronald Cross; and junior, Mrs. Elmer Cawthorne, Mrs. Charles Powell, Mrs. Bob Deavenport, Mrs. Mrs. Lawrence Adkins.

Stanton Girl Is In Rodeo Parade

Elaine Hazlewood was to have represented Stanton Wednesday afternoon in the Midland Rodeo Parade Queen Contest.

Miss Hazlewood, a 1955 graduate of Stanton high school, is the daughter of Mr. and Mrs. L. C. Hazlewood. The Lions' Club chose Miss Hazlewood to represent Stanton in the parade.

The contest was to have been judged at 2:30 Wednesday afternoon and then the queen and the other entries, attired in evening dresses, were to ride in the parade in late model convertibles.

Courtney Will Vote on Bonds For Remodeling

The Courtney board of trustees met in special session last Wednesday, May 25, and called a bond election for June 11.

The election was called for the issuance of bonds in the amount of \$100,000.00. The Courtney independent school district is out of debt, having paid the last installment of the old bonds the past year.

If the election carries, the funds from the bonds will be used to finance the remodeling of the existing brick school building. The renovating of the building will include new heating facilities, new lighting fixtures, new flooring in all rooms, new roof, restrooms, water fountains, and the arranging of an improved auditorium. The money will also be used to remodel the cafeteria and make major repair on three teacher housing units. The plans call for new furniture, fixtures and equipment in the school plant. The equipment consists of teaching supplies, reference books, etc.

A building and repair program, according to the school board, is necessary if a school is to be maintained in the Courtney community. The State Board of Education has placed the School District on the warning list and has recommended certain corrections be made in the present facilities.

The school board urges that every qualified voter who resides in the District come out and vote on Saturday, June 11. The polls will be open from 7:00 a. m. until 7:00 p. m. so the Courtney Schoolhouse.

Old Settlers To Plan Reunion

Preliminary meeting to make plans for the annual Martin County Old Settlers' Reunion will be held next Tuesday night, June 7, at 8 p. m. in the offices of the CapRock Electric Co-operatives, James Jones, president of the group, has announced.

Anyone who is interested in the reunion this year is asked to attend the meeting, Jones said. W. E. Kelly is vice-president of the association, and Mrs. Morgan Hall is secretary.

Hooks 16-Pounder And Loses Boat

Rather good luck this group of fishermen report on their return Monday from Eagle Pass where they spent a day or two fishing. The poundage of fish they caught mounted to 75 pounds. One of them, a buffalo, weighed 16 pounds.

One of the fishermen, had he been alone, would have declared the boat which upset with him out in the middle of the Rio Grande, was "upset" by a big fish he had caught and let get away.

Granville Graves was running a trot line when all of a sudden a rise in the Rio Grande cap-sized the boat and dumped him into about eight feet of water. With the quick response of other members of the fishing group and aided by old inner tubes of tires, the boat was righted and Granville removed to safety.

His experience didn't interfere with Granville discharging as usual, his duties in the mechanical end of The Reporter when he returned to work Tuesday morning.

Forming this group of fishermen to the Rio Grande were: Billy Avery, Granville Graves, Albert Johnson and Walter Graves.

Davis' To Attend C. of C. Meeting

Mr. and Mrs. Ed Davis plan to leave Saturday for El Paso where they will attend the meeting of the Texas Chamber of Commerce Managers Association. The convention will be held June 5 to 7 at the Del Norte Hotel. The Davis' expect to return Wednesday.

John Holder Breaks Arm in Accident

As a usual thing automobile salesmen are charged with having several tricks up their sleeves, but there are not many, if any have a trick up their pant leg.

John Holder, car salesman for the Alsup Chevrolet Company, was coming down the stairs in the Martin County courthouse, one day last week. As he turned at the top of the stairs to make his descent down them, John's tricky knee went out of control. Arriving at the bottom of the stairs, he found he had a broken arm at the wrist.

But the broken member will in no way stand in Holder's way showing you one of their 1955 Chevrolets.

Panhandle Station Has Changed Hands

Bill Merriman has announced that he has taken over the Triple E Service Station at 806 East Highway 80, and will operate it in the future.

The station handles Panhandle gas and all 17 brands of oil, and will do general car servicing except car washing. Merriman announces a 23 1/2c a gallon price for regular gas and 25 1/2c per gallon on ethyl. The station will be open 24 hours a day.

AT CHICAGO — Pvt. Orvel Bobby Bryan, son of Mr. and Mrs. O. B. Bryan, is stationed with the army at Chicago, Ill. A 1953 graduate of Stanton high school, he was employed by Baker Office Equipment Company in Midland before entering the army December 6, 1954. He received his basic training at Fort Bliss, Texas and is now attending a 3-weeks' school at Fort Sheridan, Ill.

GRADY CROSS WAS IN STANTON from his farm and ranch in Glascock County one day last week. As usual he's in Stanton one or more times each week. But on this occasion there was more significance attached.

Grady's presence, forming a foursome to sit at a coffee table in one of Stanton's popular drug stores, and the jolly gist of his conversation, created some suspicion among the members of the foursome as to what was behind this affable mood of the popular rancher-farmer.

The secret was divulged when Grady announced to his companions "over the coffee cups," that a few nights before his ranch had been visited by a three-inch rain, the like of which it had not experienced, (all at one time), during the four years of dry, hot, high winds and sandstorms.

The joyful mood lifted the lid to Grady's gift box and not one of the three, who, with Grady, made up the foursome, had to pay for the coffee. This columnist, fortunately, happened to be one of the four coffee guests of Grady's.

There was considerable hail, (pebble size) spilled on the ranch along with the rain, Grady said. Hail damaged a small patch of growing cotton, in a field of over 100 acres. Otherwise no damage was done by the hail, and it's a foregone conclusion no damage was done by the rain.

Four years of battling sandstorms, high winds, and drought, causing Cross to move his cattle from his ranch to grazing grounds in Kansas, and then to have a 3-inch rain fall on his land holdings, swelled up in him a feeling that once again the prospects at the moment, were bright for a good stand of grass on his pasture lands and the promise of a good yield of crops on his farm lands. Then, can it be any wonder, Cross was in a rejoicing frame of mind to the point he felt what in heck did he care for opening his purse strings and invest the amount of twenty cents in four cups of coffee on this bright and memorable morning.

IT COULD MEAN THAT COME this September 1, the University of Texas will experience a "sit down strike" among the freshmen attending the higher school of learning. The word has gone out that the Board of Regents have ordered a no-car ban to go into effect for freshmen, except Travis County residents and the physically disabled. Then come September 1, 1956, sophomores will also come under the same no-car ban.

Tom Sealey of Midland, regent chairman, said the board's action was on recommendation of the administration and the faculty committee, and was "occasioned by the dearth of parking space and the extremely crowded traffic conditions and congestion now existing at the campus of the main university."

IN THE PAST WEEK STANTON has taken on an added attractive appearance. Thirty-eight blocks of streets in the downtown section and in the residential district have been treated to a seal coating. Those motorists who are sentenced to labor with a set of artificial teeth, are now assured they can travel the streets without carrying the teeth in their pockets. Heretofore, the chug holes, ranging in various depths and widths appearing at so frequent intervals, the false teeth driver stood the risk of having them jostled out of his mouth.

Whether it was the attractiveness the street improvement program offered that enticed James Biggs, assistant city secretary, to disrobe himself of attending to his official duties, we can't say, but anyway, he served with the crew on the street improving program as one of the "strong-arm" crew in spreading the seal coating on the streets. Evidently, his services were satisfactorily rendered. He served in the manual labor department throughout the street improvement program.

We Should All Help The Firemen

Pity the Volunteer Fireman! The remuneration he receives for the service he renders fighting fires in his home town comes in a sizeable amount of appreciation from the many citizens who are allergic to the sound of the fire siren. These folks are standing by at the front entrance to the fire station ready to lead the fire truck in its race to the fire. As a further hindrance to firemen fighting the fire, they park their car in the path of the fireman carrying the nozzle of the hose up to the blaze, and to shorten the distance to reach a more advantageous point to sit and see the blaze do a good job of burning up the property, they drive over the hose, choking down the stream of water directed at the fire.

There are times when the fire truck leaves the station on its route to the fire that the fire wagon's speed to reach the fire is hampered by a slow moving vehicle right in front blocking the way. But he's a spectator who must get to the fire to occupy a ringside seat. In that way he not only endangers his own life, but the lives of the volunteer firemen. And too, it's his contribution to the delay of the arrival of the fireman to reach the blaze.

When the siren sounds the race begins, winding up at the fire station. The curiosity seekers are there in full force because they have to go to the station to learn where is the fire. It's a scramble for first place in the race to the fire between the curiosity seekers and the volunteer firemen. Along the way to the fire, cars leave the street curb to join in the race to the blaze. If at all possible, these cars will dart in front of the firetruck or cross the street in front of the onrushing fire truck but not until a wreck was narrowly averted and the firemen delayed in reaching the fire.

A newspaper exchange arriving at this desk editorialized on the hindrance its fire department met up with. One incident was where the firemen were called to a fire at a vacant house. The firemen found cars parked all around the fire plug, making it impossible for fire trucks to get to the hydrant and connect up and pump water on the blaze. While the firemen were waiting for water the house next door caught fire and the house behind that one was smoldering as though it might break into flames any minute.

The best policy to pursue by people who are in no way interested in a fire only from a curiosity standpoint, is to pull their car to the curb and stay put, and above all give the fireboys a clear route to the fire and plenty of room for the truck and the boys to get around to fight the blaze.

A vital feature and one of the most important connected with the fireboys is that they volunteer their services—no pay and seldom are thanked for what they do—they face death or serious injury the very moment they leave their beds in the middle of a dark and stormy night to answer a call to a fire.
Give the Volunteer Firemen a break by aiding them to have a clear right-of-way to the scene of the blaze.

Watch Drinking Water On Picnics

This is the season of year when folks are planning to go picnicking in groves and parks, camping, maybe, along a running stream or near a well of water. The most essential item in a picnic camp is water. And unless, it is free of contamination, water is the most dangerous item to be found in the camp. It carries a potent poisonous substance, if used as drinking water, creating sickness and many fatalities.

Dr. Henry A. Holle, State Commissioner of Health, in his communication received this week, said:
"Families away from home on picnics, excursions, or vacation trips should either ascertain that their water supply is safe or they should make it safe for human consumption. Water can be rendered safe by boiling for 15 minutes or by the addition of chlorine. A few drops of ordinary chlorine laundry bleaches can be added to a gallon of clear water and if the water is allowed to stand for 15 minutes it may be used for drinking."

Dr. Holle declared that "contaminated water is usually found in wells with open wood platforms, pits underneath the pump, openings where the pump rod enters the pump, and in pumps that require priming to operate."

Memorial Day Is a Day To Remember

Though the 30th day of May, Memorial Day, has passed by several days, no censure can come from the belatedness in mentioning the event, when the memorable day brought to light some interesting historical facts.

On Memorial Day, the nation paused to honor those who served and died in its service. Established in 1869, the first Memorial Day was intended to honor those soldiers who died in the Civil War, but today the public looks to it as both a tribute to the heroes of other wars and today's soldier as well. It is a solemn annual tribute by 156,000,000 Americans.

And where, did you say, we got this much information? From a communication sent by the Red Cross. And further, the communication stated:

"Last year the Red Cross helped an average of 109,000 servicemen each month at military installations and hospitals around the world, and served approximately 213,000 families of servicemen and veterans each month through chapter home service. A total of \$11,778,000 was given in financial assistance to servicemen and their dependents and \$799,800 to veterans and surviving dependents."

If you are a little hesitant in making your contribution to the Red Cross, just remember we have it from that great humanitarian organization that:

"In all, the Red Cross last year spent 40 per cent of its budget for welfare services to the armed forces, veterans and their families, and for special services and recreation in military and Veterans Administration hospitals, and plans to spend approximately the same amount during 1955 as a 'living memorial' to our servicemen, past and present."

Hunt up that old tintype of Uncle Tom. Ancient family portraits are coming back in favor as items of decoration, according to a report read before a Nebraska photographer's association.

Buckingham Palace recently announced that Prince Charles will mingle with other children at school instead of being tutored at home.

Philosopher and U. S. Both Have Trouble Making Ends Meet

Dear editor:
I know the country is supposed to be booming, making more cars than ever before in history, big manufacturers showing more profit, more workers taking home more pay, Internal Revenue department getting more taxes than ever before, but I was beginning to think I was all alone in finding out despite all the prosperity I hear about I never seem to have quite enough money to make ends meet.

However, I am pleased to know I have company. The Federal Government and most of the State Legislatures are in the same boat.

"General fund revenues the past year have been lower than anticipated," a news article I read in a paper last night reported, adding that the situation was causing the government to wonder how it was going to stay out of the red.

I know exactly how it is. That's exactly my situation out here. Most of my property doesn't last over a day or so. The minute I get to feeling I have the thing licked, that everything is under control, a new expense crops up, and the old familiar nip-and-tuck situation stares me in the face again.

I tell you, spending anticipated revenue is one of the most numerous undertakings ever attempted. If a man could anticipate his expenses like he can his revenues, there might be some chance of getting even, but something always goes wrong, on my farm or in Congress. I can sit down now and figure up just how much my farm ought to make this year, how much the expenses ought to be, how much I ought to have left over, but when the crops are all in and the expenses all faced, my financial situation is as confused as Washington is over how big the Russian air force is.

I know the country must be at the highest peak of prosperity it ever experienced. I keep reading it in the papers, but I'm here to tell you it ain't enough. Everybody is making more money than he used to, but the number of people who can't quite make ends meet seems to be about the same.

If my subscription is due, will you please hold up the bill a little while, three more expenses I wasn't counting on just turned up. In the midst of the country's biggest prosperity, me and the government can't seem to stay ahead.

Yours faithfully,
J. A.

Former Stantonite On Silverton Faculty

Glynn Bunch, a graduate of the Stanton High School, and a former resident of Martin County, for the past six years has been a member of the Silverton high school faculty.

As their advisor, Bunch accompanied the Silverton FFA team to the state contest held recently at College Station. The team was entered in the meat contest and won fifth place.

Tarzan was the former home of Glynn Bunch. He married the former Nank Bearden, daughter of Mr. and Mrs. O. W. Bearden, who reside in the Tarzan community. She also is a teacher in the Silverton high school.

Information given The Reporter by her mother, Mrs. Bearden, stated that Mr. and Mrs. Bunch are going to Fresno, Calif., on a six weeks' vacation, and also where Mrs. Bunch will do some work on her Master's degree.

BIBLE COMMENT

Assembled Worship Fills Human Need

"We gather together to ask the Lord's blessing." Thus begins a famous old hymn, which expresses the spirit and reality of Christian worship.
"Why should we go to church?" someone might ask. Can we not be equally good Christians in our individual way, seeking to live toward God and our fellow men?"

It is much easier to have a vague and general love for all men than it is to have a particular and very real love for the neighbors, or toward one's associates.

The "bond of fellowship" is of the very essence of Christian worship, much as faith and devotion have their beginning and rise in the individual soul. In a community in which the church represents a bond of fellowship among those who live within its area, it becomes a mighty force for mutual encouragement in all that is best.

But there can be danger in emphasizing too much the social activities of the local church. One essential definition of the church is that it is "the body of Christ." This means that if the spirit of Christ be not in the body, no matter how fine the organization it is not the Church of Christ.

And when that first, deepest, essential nature of the church is attained, all its social activities are of great value. For churches are, and ought to be, places of fellowship; social institutions as well as places of formal worship.

Mr. and Mrs. Dan Renfro left Saturday to spend the holiday weekend with her mother in Beaumont.

Members of the 1955 graduating class of Stanton high school were honored Tuesday evening, May 17, with a party by members of the youth center. The party followed the commencement exercises.
Red and white, the class colors, were carried in decorations throughout the center. "Luck to 'Ya" was written in red and white letters on one wall and on another wall was "Seniors '55" also in red and white letters.
The refreshments table was laid with a cloth cleverly designed from red and white crepe paper. The edges were ruffled and red and white streamers fell from the corners of the table. An arrangement of peace roses centered the table.
Red punch and individual white cake squares decorated with tiny red rosebuds, the class flower, were served.
Red napkins with "Seniors '55" printed in white helped carry out the motif.
Various types of roses were used in decorating the rooms.
Games were directed by Mrs. June Graham.
Over 100 young people attended.

What Was The News Of Note? -Twenty-Five Years Ago-

From the files of The Stanton Reporter, May 30, 1930

E. E. (Pat) Murphy, S a n Angelo attorney and candidate for Congress from this district to succeed Claud Hudspeth, retired, has announced he will make a campaign speech in Stanton, Thursday afternoon, June 5.

The entire school faculty of the Stanton school has been re-elected with C. L. Sone, superintendent, M. E. Fincher, principal of high school.

Sunday, the Stanton baseball nine invaded the Penwell territory and in a fast nine-inning game, won a victory over the Humble Oilers, sometimes called the "Aces of West Texas," to the tune of 2 to 1. Timmons was pitcher and Teal catcher for the Stanton team.

Mrs. A. C. Reed, entertained the Kongonal Kard Klub in her home last Wednesday. Miss Vera Burnam held high score for club members.

Beginning Wednesday with an overcast sky, a drizzle of rain began falling, continuing through most of the day. Thursday there was a continuance of the drizzle with heavy showers falling at times.

The Hill Grocery Company has installed a new model Kelvinator meat equipment and opened a meat market in their grocery store.

Mr. and Mrs. Horace Hamilton were present at the closing exercises of the Texas State University, where their son, H. C. Hamilton, graduated this year.

The committee composed of L. W. Woody, Jessie W. Pollock, T. B. Stewart, J. W. Blocker, John P. Priddy, and M. C. Gibson, of the Farmers Cooperative Society of Stanton, returned last week from Dallas, where they had gone to select machinery for their new gin plant.

In a few days work will begin on the construction of the gin building.

It was decided at the Tuesday meeting of the Lions Club to discontinue their weekly meetings until next September, the first Tuesday. The recess was arranged due to the fact that a greater part of the members will be away most of the summer and the attendance would be very low.

The following was clipped from the Fort Worth Star-Telegram:
A. L. Houston, (now deceased), of Stanton, registered at the Metropolitan, said that for 45 years he had "tinkered with windmills, without getting hurt, only to suffer a crushed left hand a few days ago," as he expressed it. It was that injury that brought him to Fort Worth at this time.

"Houston is the president of the First National Bank of Stanton. With his sons he owns 28,000 acres of farm and grazing land in Glasscock and Midland counties. Twenty-five years ago he was a county commissioner.

"When I went to what was then Tom Green County, about 45 years ago, Stanton was a thriving little town," Houston said. "The town was surrounded by farmers raising wheat and

corn. They found it could not be done in that section, and they began moving out. It was not long until the town consisted only of a post office, and it was called Marienfeld.

"After a few years farmers who understood cotton raising began to come in and the town began to thrive. And it was about that time I signed a petition to change the name. The Postoffice Department was getting Marienfeld mixed up with Mansfield. So we renamed the town Stanton.

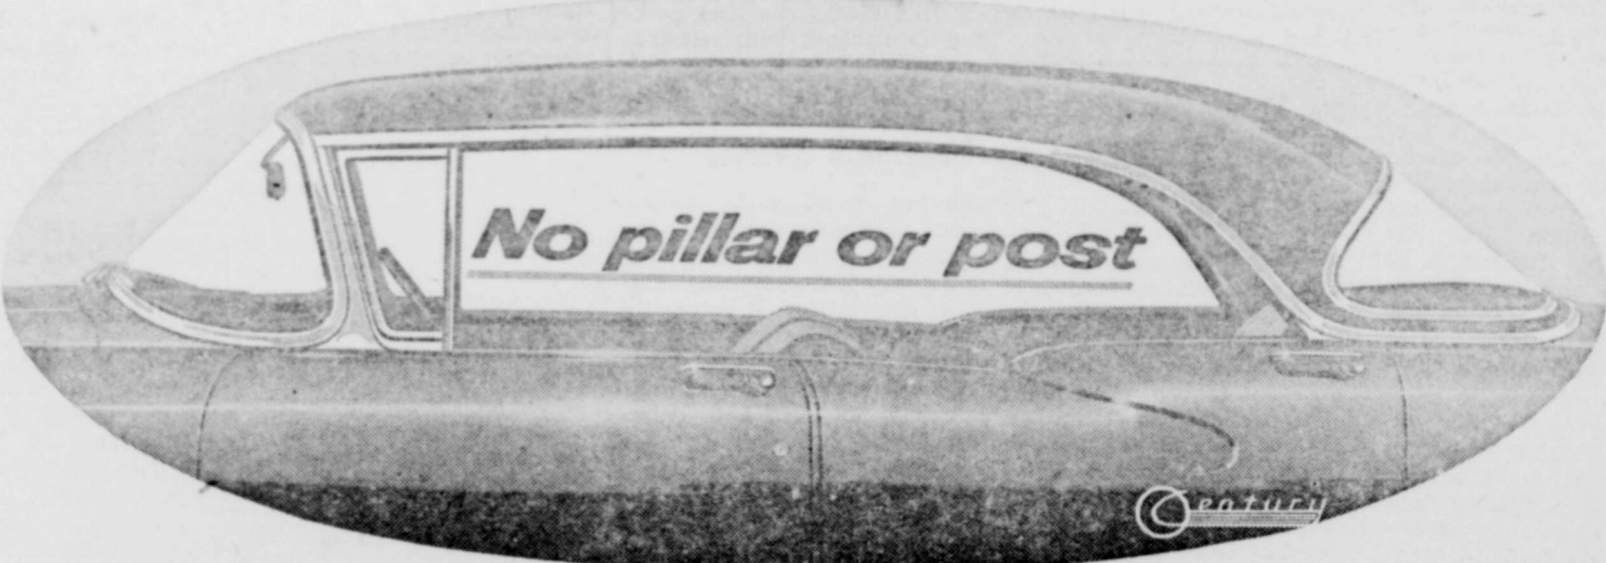

"We get our water from windmills. In low places you hit it from 5 to 40 feet. Up on the benches you have to go from 65 to 100 feet. Today, we raise cotton almost exclusively, but with enough feedstuff to keep our livestock pretty well supplied."

for this wide-open beauty

It's the new kind of hardtop—The 4-Door Riviera!

THERE seems to be some confusion about what a hardtop really is, and we'd like to set the matter straight.

A hardtop is a car that looks like a Convertible with the top up—but has a solid steel roof overhead—and no center posts in the side window areas.

Up until just recently, it could be built in volume only with two doors—not more—because it would take wholly new structural principles to hinge another set of doors without floor-to-roof center posts.

But Buick came up with those new structural principles and is now building—in volume—hardtops with four doors.

You see one pictured here. It's the 4-Door Riviera. And it's taking the country by storm . . .

Because here, at long last, is an automobile with the sleek and sporty styling of a true hardtop—but with separate doors for rear-seat passengers, plus the added room of a full-size Buick Sedan.

On top of that, this beauty is all Buick—with the buoyant ride of Buick's all-coil springing—the walloping might of Buick's record-high V8 power—the whip-quick

getaway and sizable gas savings of Buick's spectacular Variable Pitch Dynaflow.*

And it's available in Buick's two lowest-priced Series—the budget-tagged 188-hp SPECIAL, and the high-performance 236-hp CENTURY, illustrated here.

Come visit us for a first-hand meeting with the 4-Door Riviera—and see how quickly and how easily the last word in automobiles can be yours.

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

Every one now knows that no school can afford to accept transfers without making a per capita charge equal to the per capita cost of its own students. Parents of transferred students have no voice in the affairs of the school to which they transfer. It would be much wiser to consolidate so that all can take part in building the kind of a school the kids are entitled to. And when it is all done there will still be no better place than ours for abstract, insurance, notary services and loans.

NEW PURINA Bite-Size CHECKER PLAN OF GROWING PULLETS

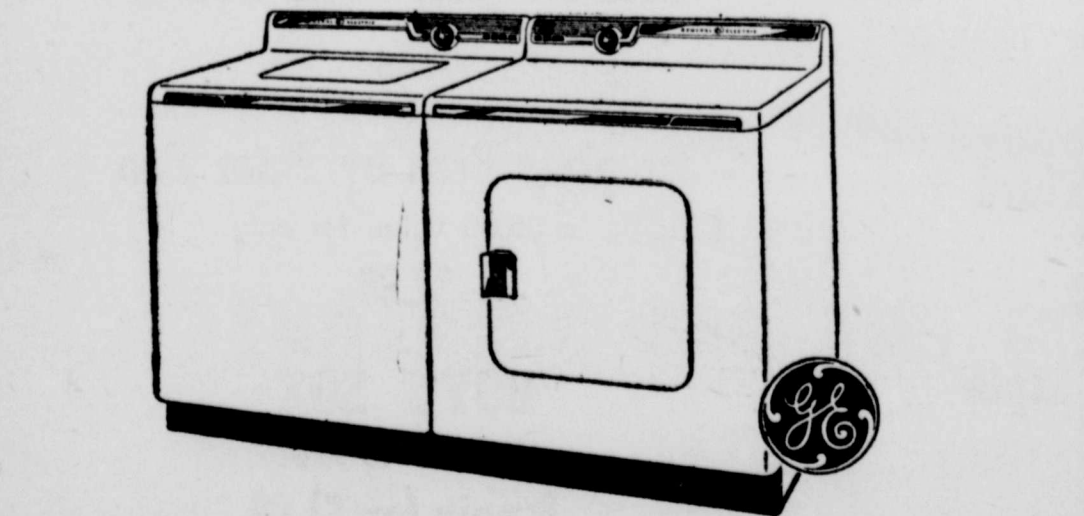

Compared to usual mash feeding, the new Bite-Size Checker plan can make a big cut in your growing cost. Chicks start eating the new, smaller Checkers when only 4 to 6 weeks old. It takes less feed because pullets spill less out of the hoppers. And the few Checkers that are spilled are quickly picked up—not lost on the ground like mash.

runs the sleeper in which the sleeper sleeps so that the sleeper in the sleeper sleeps while the sleeper runs on the sleeper."

THE ELEMENTS SEEM TO hold a grudge against the dry land farmers in Martin County. Four years the elements have held them in its grip. They sent hot dry weather to burn up the crops, and high winds to blow away the soil. Total crop destruction the four years was meted out to the dry land farmers by the elements, wiping out the only way these tillers of the soil had for making living expenses.

Then with this year, as the veil of despair began to lift by the visit of rains which provided sufficient moisture to prepare the soil for planting crops, and a followup of rain showers to bring forth the cotton plant from the seed planted in the ground and send the plant well on its period of growth, the elements directed its crop destructive powers from another angle. This time last May, came a rain and hail storm that visited the sections in and around Lenorah and Tarzan destroying an estimated 6,000 acres of cotton. The storm covered an area estimated to include 35 miles of territory. Five dry land farmers residing in the Lenorah and Tarzan communities shared in the loss of the 6,000 acres of cotton.

So it's a sort of a "be-damned if you do, and be-damned if you don't" business the farmer carries on with the elements in his strife to make farming pay even living expenses. The farmer makes a plea for the rains to come, the elements accepts the plea and sends a rain and hail storm which destroys the farmers crops.

IF IT WERE ONLY SO THAT this column could say this which the Munday Times editor said in his column last week: "What with the swimming pool opening Tuesday, you're going to see lots of cars, lots of boys and girls, and quite a few grownups heading for the southeast part of town to go swimming in one of the nicest little pools in the area."

Munday is no larger town than Stanton, and we doubt that its financial structure is any greater, but those folks of Munday must have more "git up and git", and have a different idea about being interested in the welfare of the teenagers.

A vote held on the proposition of providing Stanton young people with a swimming pool, failed to carry.

WEST TEXAS PRESS COMMENTS

The pile of West Texas weekly newspapers arriving this week at our exchange table, are as charged with rejuvenescence as they are popping and jumping like popcorn on a hot griddle. The reason for their gleeful attitude is easy to figure out. Nearly every weekly exchange had large headlines over news stories of good rains visiting their sections.

It was the most exhilarating piece of news to arrive at this desk from so many newspapers in four years. Every editor spoke in terms which reminded one for the enthusiasm they displayed in their news coverage of the rains, their sections of the country had the promise of harvesting bumper crops this Fall.

"Drifting Sands" in the Andrews County News, reported that the rain that fell in the county on Wednesday, May 4, was as "spotted as a thirty-third generation hound dog." But a rancher living 17 miles west of Andrews reported he had an earthen tank the rain filled and ran over, the first time in 20 years.

The Albany News reported that eight stores at Moran, a neighbor town, were robbed in one night, total \$119. In each instance the robber or robbers, entered the stores with a screwdriver or bar, and upon leaving locked up the places of business.

This from Afton Richard's column, "This Week in Anton" in his Anton News: "Mr. Bass met Mrs. Trout in Anton one day last week—and that's no fish story."

This from the Bronte Enterprise in its issue of last Friday: "The Enterprise is moving today and tomorrow, and next week you'll find us (if you can), three doors west of our present location. And that's enough said about moving."

But will it be all that is said before the moving task is over? The Reporter had a taste of that moving in the back end of the

office last week, that at times, made the force keep the remarks they wanted to emphasize under breath.

The Anton News mentioned last week that eight dogs "bit the dust" through the poison route. One Antonite who lost his dog by poison, said:

"If my dog gets out of line, let them shoot him; but I don't like the idea of some one throwing poisoned food into the yard where children could get hold of it."

Cotton starts off faster, fruits earlier and yields higher when early insect control practices are followed. Extension Entomologist F. M. Fuller says it's good business to get the jump on injurious cotton insects and never allow them to get control of the crop.

Cattle feeding continuously on a pasture can trample a lot of good grazing into the ground. Grazing efficiency studies show that often only 50 per cent of the grazing produced is eaten by livestock. Rotation grazing will help correct this situation.

Behind each of the 8 1/2 million farm operators, hired hands and family workers on U. S. farms there lies an average capital investment of \$14,000. This amount is four times the 1940 average. It does not include approximately \$5,000 per worker invested in houses, automobiles, household goods and savings. The report comes from agricultural economists of the USDA.

Mr. and Mrs. Jimmy Bickley left Sunday for Alpine where they will enroll at Sul Ross for the summer semester. Bickley is a teacher in Stanton schools.

Mrs. Mary Wilson of San Angelo visited over the weekend with her parents, Mr. and Mrs. John Atchison, Sr.

Mr. and Mrs. L. T. Graves visited the first part of the week in Roswell, N. M. They went Monday and were to have returned Tuesday evening.

it's Karo for me, the best-tasting waffle syrup of 'em all"

Yes, indeed . . . biscuits go like hot cakes when you pour on plenty of delicious Karo waffle syrup. There's nothing like it for good eating. Satisfyin' flavor. So rich it stands right up on top of biscuits (keeps 'em light and fluffy). Keep Karo on your table morning, noon and night . . . it tops anything!

Annual Spring Luncheon Closes Stanton Study Club's Silver Anniversary Year

The Stanton Study Club's annual spring luncheon held Wednesday, May 25, in the home of Mrs. Harry Billington closed the club's silver anniversary year.

The past year the club has celebrated 25 years of membership in the General Federation of Women's Clubs with a series of special events.

Decorations carried out the silver anniversary motif. Place favors were uniquely decorated with miniature ladies' heads made of buttons. The ladies wore hats of different styles made of scraps of felt and feathers. "Stanton Study Club, Silver Anniversary" was printed in silver on the favors. Silver doilies and napkins were used.

Mrs. Houston Woody gave an entertaining review of a light romance, "The Cuckoo in Spring," by Elizabeth Cadell. She was introduced by Mrs. Ralph Caton, program chairman.

Mrs. James H. Billington was installed as president for the coming year. Other officers are Mrs. George Dawson, vice-president; Mrs. R. B. Whitaker, secretary-treasurer; Mrs. Ralph Caton, parliamentarian; Mrs. Harry Billington, federation counsellor; and Mrs. S. W. Wheeler, press reporter.

Mrs. S. W. Wheeler, retiring president, was presented with a gift.

The silver anniversary year

was opened in October with a coffee honoring the club's past presidents in the home of Mrs. Jim Tom. Other outstanding events of the year included a special observance of art week by sponsoring an exhibit of china painting done by Mrs. Tom Houston's art class in the chamber of commerce office.

Another outstanding event was the annual senior tea honoring the Stanton seniors held in the home of Mrs. J. H. Billington.

A few of the year's projects were aiding the state hospital in Big Spring and sponsoring the Martin County library. Christmas gifts, magazines, clothing and linens were sent to the hospital in Big Spring.

Attending were Mesdames L. H. Alexander, James H. Billington, Glenn L. Brown, Ralph Caton, George Dawson, Curtis Erwin, Morgan Hall, Bill Livey, B. F. Smith, S. W. Wheeler, R. B. Whitaker, Houston Woody, Miss Marie Vandever and the hostess.

Mr. and Mrs. Sid Cross will go to Lamesa today to join Mr. and Mrs. H. L. Bingham and son on a vacation trip. They will go to Ridgecrest, N. C., for a Baptist meeting, and return.

Mr. and Mrs. H. C. Burnam, Jr. and children Sherry and Randy, of Iraan visited the H. C. Burnams over the weekend.

Farm & Ranch Review

By JAMES E. KELLY

Charles A. Stewart, succeeds Henry Bell, as secretary-general manager of the Southwestern Cattle Raisers Association. Bell is retiring after serving the association since 1937.

Upon Bell's retirement the Association had grown to nearly 10,000 members.

HENRY BELL

Retiring secretary - general manager of the SW. Cattle Raisers Association.

Chas. A. Stewart, is a lawyer, has represented the Association as traffic counsel for the past 20 years. Native of Missouri and has lived in Fort Worth since 1900.

Stewart is familiar with all phases of the beef cattle industry and is personally acquainted with a large number of ranchers throughout the country.

Here is what Douglas Meador, said in his "Trail Dust" column

in his Matador Tribune, about locating the Cowboy's Hall of Fame beyond the border of Texas:

"... is like erecting a monument to the sea in Nebraska; a splendid thought confused in geography. But the gates are wired-up between the forgotten years and the plush-covered doors of a pampered generation, while history stands bewildered and lost with the maps it made. "A futile motive is doomed to perish in bronze and stone as it competes with a more sublime and fitting laureation. Texas sky covers a cowboy's hall of fame and yellow buttercups shaking dew from their petals at dawn, carpet the long corridors. The same stars the lonely riders watched in solitude are fixed in the majestic ceiling and the fragrance of wild-plum blossoms follows the swift passing of spring.

"The wind waving ragged slickers in the night sky, turns phantom herds back to mesquite flats, and each tranquil dawn hangs like a painting on the eternal wall. Mirages dance on the heated plains and twilight has kept its anthelion intact for the chained albums of splendor in the cowboys memorial. It is not of consequence that a cenotaph be erected in a country where the smoke from his camp fires may have drifted."

Livestock men are learning something new about their cattle. They are finding that internal parasites can cause a terrific economic loss when beef is marketed.

Internal parasites have not always been considered a big threat to beef cattle producers but recent research indicates that cattlemen, just like sheep producers, have their profits cut every year as a result of internal infestations.

Watch for the Texas Beef Council's prize winning beef recipes to be served in your local restaurants. The Texas Restaurant Assn. is making these recipes available to its members, and participating restaurants will be able to give copies of the recipes to patrons.

YOUR REFRIGERATED ROOM AIR CONDITIONER
cools more efficiently

WHEN YOU FOLLOW THESE SUGGESTIONS

COOL ONLY AN AREA WITHIN THE SIZE your unit is designed to cool. When cooling a larger area, the unit works harder and its efficiency is lowered.

KEEP AIR FILTERS CLEAN. Clogged filters lower efficiency of the unit and cause it to use more electricity.

INSULATE CEILING AREA above room being cooled. Insulation is comparatively inexpensive and keeps hot air out, cool air in.

LOCATE UNIT IN SHADE if possible. The north side of house is best, followed by east, south and west. Proper shading of unit increases its efficiency.

PROPERLY REGULATE intake of outside air. This is important to operating efficiency of your unit. Follow manufacturer's instructions carefully.

KEEP OUT DIRECT SUNLIGHT. It brings in heat which your unit must work extra hard to remove. Awnings over your windows will help.

AN AUTOMATIC THERMOSTAT is recommended to hold room temperature to 78 to 80 degree level recommended for comfort. Each degree below 78 degrees increases power consumption unnecessarily.

REMEMBER, TOO, that operating cost is governed by hours of use. Turn off your unit when you expect to be away for several hours. You can quickly lower the temperature when you return.

Free Booklet Contains additional information about refrigerated room air conditioners and evaporative coolers. Gives approximate operating costs — tells how to get the most economical service from cooling equipment. Come in or write for your copy.

Lorene Burns, High School Valedictorian, This Year, Becomes Bride of Sand Springs Young Man

In a candlelight ceremony, Lorene Burns became the bride of Jarrell Barbee of Sand Springs Tuesday evening, May 24, in the First Methodist Church.

The bride is the daughter of Mr. and Mrs. Jesse Burns of Stanton. She was valedictorian of the 1955 graduating class of Stanton high school and has been employed in the office of the Martin County Memorial Hospital.

The bridegroom is the son of Mr. and Mrs. Walter Barbee of Sand Springs. A graduate of Colorado City high school, he attended Howard County Junior College before serving in the army. He was recently discharged after spending 18 months in Germany.

The Rev. Hugh H. Hunt, pastor, read the double ring ceremony before a fan arrangement of white stock and fern trees. Blue cathedral tapers burning from four fern-entwined seven-branched candelabra flanked the altar.

Similar tapers in smaller candleholders were used in the windows. Tapers in smaller holders lined the chancel rail and immediately behind the chancel rail were baskets of white stock with accents of blue.

Mrs. James Jones, organist, presented prenuptial music and accompanied Mary Beth Ory who sang "Whether Thou Goest" and "Because." She also accompanied Jan Nichols who sang "You'll Never Walk Alone."

Miss Nichols sang "The Lord's Prayer" as the couple knelt on a white predieu.

The bride, given in marriage by her father, wore a gown of lace and tulle over slipper satin, which she had designed herself. The fitted bodice featured a tulle yoke centered with an applique lace flower and a petal point standing collar of lace. It was fastened with self-covered buttons which extended below the waistline in back. Fitted sleeves tapered to petal points at the wrists and were fastened with tiny self-covered buttons. Her bouffant skirt featured a scalloped lace tunic over tulle and satin.

The bride's fingertip veil of illusion was attached to a tiara of illusion decorated with rhinestones.

She carried a bouquet of blue stephanotis centered with a white orchid on a white Bible.

Mrs. Shirley Connell was matron of honor. Elaine Hazlewood was maid of honor and the bridegroom's cousin, Ina Joy Williamson, was bridesmaid. Junior bridesmaid was Cynthia Wood of Midland, cousin of the bride.

The bride's attendants wore identical waltz-length dresses of winter blue silkaleen, which were fashioned with scoop necklines and were made along princess lines. They carried colonial bouquets of Frenched white carnations surrounded by tulle. Their headdresses were of ruffled net and were trimmed with rhinestones. White accessories completed their costumes. They wore blue rhinestone necklaces, gifts of the bride.

Brenda Henson, cousin of the bride, was flower girl. She was dressed identical to the attendants and carried a basket of tulle with stephanotis streaming from the sides.

Clinton Jenkins of Odessa was

Mrs. Jarrell Barbee

best man. Ushers were Bill Anna Luna and Sunny Lynn Burns, brother of the bride, and Billy Jenkins of Sand Springs. Candelights were Mike Baulch and Burley Polk, the bride's cousin.

Immediately following the ceremony a reception was held in the church dining hall. The couple was assisted in receiving by their mothers and members of the wedding party.

The bride's table was laid with a handmade lace cloth over blue. It was centered with the attendants' bouquets. Large baskets of stock with blue accents decorated the room.

Edwenna Shain and Suzanne Reynolds served punch. Anna Belle Heckler and Linda Cathey served the wedding cake. Blue and white rice bags tied with blue and white ribbons were passed by Barbara Jane Smith and Janelle Jones. Larie Fisher was at the register.

Others helping with the reception were Mrs. Elma Nichols, Mrs. Cliff Hazlewood, Sr., Mrs. Clifford Castleberry and Mrs. James Eiland.

For traveling the bride chose a pink linen sheath trimmed with rhinestones. She wore a white orchid and white accessories. They will make their home near Big Spring where the bridegroom is employed at the Cosden Refinery.

Out-of-town guests were Mr. and Mrs. C. A. Castleberry of Romero; Mr. and Mrs. A. C. Polk, Teddy and Kenny, of Lorraine; Carroll Nail, Wilma Nail, Louise Nail, Mr. and Mrs. Charles Barbee, Mr. and Mrs. Lee Roy Wood, all of Midland; R. A. Whitson of Lubbock; Amelia

Visitors over the weekend in the Tull Ray Louder home were her parents, Rev. and Mrs. N. L. Range, and her sister, Joan, of Beaumont. Mr. Range, a former pastor of the First Baptist Church, spoke Sunday night at the church.

Recent visitors in the home of Mrs. W. W. Eiland were Mrs. Eiland's sister-in-law, Mrs. Verma Smith, of Dallas; Mrs. Eiland's daughter, Mrs. Minnie Falls, of Snyder; and her son, Horace Eiland, and Ed Taylor, both of Snyder.

He completed basic training at Lackland AFB, Texas, before coming to Reese AFB.

Homemakers Class of Baptist Group at Courtney Entertained

By KATHLEEN LEWIS

Mrs. Leslie Hull entertained the Homemakers Class of the Baptist Church Thursday afternoon with a social hour in her home. Mrs. Claude Davis, class president, presided over the business session. The group discussed plans for the nursery they have as a project. It was decided that donations of money would be taken for supplies needed to furnish the nursery, rather than hold a bake sale which had been previously discussed.

Any person who has nursery equipment, such as beds, mattresses, toys, books, etc., that they would like to donate for use in the nursery, please contact Mrs. Jess Angel who is chairman of the nursery committee.

Mrs. Leonard Turner brought the devotional for the group; and Mrs. Marion Yell led in prayer.

Punch and cake were served to: Mrs. Dee House, Mrs. Joe H. Brondie, Jr., Mrs. A. C. Powell, Mrs. Minter McReynolds, Mrs. Leo Payne, Mrs. Davis, Mrs. Turner, Mrs. Angel and the hostess.

Elmer Lee Stroud arrived home Friday evening by air from El Paso, where he has just been discharged from the army. His wife and son and parents

and Mrs. Oliver Vaughn met him at the station in Midland. He is the son of Mr. and Mrs. J. P. Stroud.

Stroud recently returned to California, from Yokohama, Japan after having served in the army overseas for about 17 months.

On Sunday several members of the Stroud family met in the home of their parents to see Lee. They were: Mr. and Mrs. Coy Williams and girls of Snyder, Misses Ruth and Sue Stroud of Midland, Mr. and Mrs. Donald Stroud and family of Odessa, and Mr. and Mrs. Weldon Stroud and family of Levelland.

Mrs. Lee Stroud is the former Lanelle Vaughn. She and their son, Phil, have been visiting with her parents, Mr. and Mrs. Oliver Vaughn, while Lee was overseas.

On Friday afternoon, Mrs. Roscoe Hazlewood entertained with a Stanley party in the home of Mrs. Joe R. Boadle, Jr. Mrs. Alice Angel was demonstrator. The hostesses chose their gift in cash rather than a personal gift item, and donated it to the nursery project at the Baptist Church.

Cakes and cookies were served to Misses: L. B. Hazlewood, Minter McReynolds, M. T. Yell, E. W. Holcombe, Jess Angel, Richard Thomas, T. C. Richardson, L. R. Shoemaker, Claude Glaspie, Jr., Angel, Hazlewood, Boadle, and Misses Elaine Hazlewood and Melvia Cross.

The 1947 graduating class of Courtney high school met Saturday evening in the Cole Park, Midland, for a homecoming picnic.

Graduates and their families attending were: Mr. and Mrs. Marvin Harrison (Mary Clements), Jal. N. M. Mr. and Mrs. Wesley McCullough and girls (Bernice Davis), Amarillo; Mr. and Mrs. L. J. Cherry (Ala. Rea Eastman), Midland; Mr. and Mrs. Eldon Welch, Tarzan; Mr. and Mrs. Troy Powell and daughter, Hereford; Mr. and Mrs. George Anderson, Midland; Mr. and Mrs. Billy J. Smith and son, Courtney; Glenn Stewart and Sam Rhodes, Midland; Johnny Harvard, Stanton; and W. D. Chandler, Tarzan.

Other guests attending were class roommothers for the group who were Mr. and Mrs. W. W. Clements, Mr. and Mrs. Bart Davis and Mrs. Irvin Welch and Glynda.

The group plan to make this an annual affair.

Mrs. J. F. Fields entertained in her home Wednesday morning with a Stanley party. Mrs. Alice Angel was demonstrator.

Refreshments were served to Mrs. Edmond Bond, Mrs. Troy Bradshaw, Mrs. J. E. Angel, and Mrs. Minter McReynolds.

C. W. Whitten, who is a surgery patient in Midland Memorial Hospital is reported to be improved. Mr. Whitten underwent major surgery Wednesday after having been ill in his home for several weeks.

J. H. Webb, who is janitor at the Courtney school, is a patient in the Martin County Memorial Hospital suffering with a heart ailment. He is reported to be improving.

Mrs. Joe Stewart returned home last week after spending several weeks in Dallas with her daughter and family. Mr. and Mrs. R. E. Corley. Mr. Stewart went to Dallas on Saturday and they returned home Wednesday. Over the weekend another daughter, Mr. and Mrs. Ray Collins and children, of Big Lake, visited here in the Stewart home.

Visitors in the home of the Rev. and Mrs. J. F. Fields are their daughter and sons, Mrs. P. E. Cox, Bernice and Robert, from Grand Prairie. Other weekend visitors in the Fields home were Mr. and Mrs. Jim Kingston and grandchildren, from Lamesa.

Visiting here in the home of their grandparents are Ronnie and Wendell Holcombe from Wink. They are the sons of Mr. and Mrs. Price Holcombe. Mrs. Holcombe, mother of the boys, is a patient in a hospital in Houston.

Mr. and Mrs. Ed O'Bannon and Gwen of Sparenburg visited Sunday in the home of Mr. and Mrs. Claude Davis.

Mrs. Wesley McCullough and girls from Amarillo returned home Sunday after visiting here several days with her parents,

County HD Council In Recent Meeting

Four home demonstration clubs were represented when the Martin Home Demonstration Club council met recently in the county agent's office.

Clubs represented were Stanton, Courtney, Valley View and Brown.

Mrs. Lewis Carlile gave a report on the THDA state board meeting she recently attended in Waco.

Mrs. P. E. Little of Knott spoke to the group on cancer. A skit on civil defense also was given.

Mr. and Mrs. Bart Davis. Mr. McCullough drove down Saturday from Amarillo, to take his family home.

Weekend visitors in the home of Mr. and Mrs. O. L. Smalgras were Mr. and Mrs. Bill Sadler and Cindy from Lubbock; Mr. and Mrs. Bud Snodgrass; and Mr. and Mrs. Sam Bryson, all from Midland.

Mr. and Mrs. Marvin Harrison of Jal. N. M. visited over the weekend in the home of her parents, Mr. and Mrs. W. W. Clements.

Mr. and Mrs. M. D. Hall, John and Sandy, visited over the weekend in Cisco with his parents, Mr. and Mrs. Hall. Sandy remained for a longer visit with her grandparents. Miss Judy Britton accompanied them to Loreine where she remained to visit with her grandparents, Mr. and Mrs. Price.

Helen Glaspie, daughter of Mr. and Mrs. Claude Glaspie, Jr. returned home Saturday from a two-week visit in Fabens with her aunt, Mr. and Mrs. Alden George and family.

Mrs. Hattie Clanton of Big Spring visited this week with her daughter, Mr. and Mrs. Richard Thomas and sons. On Wednesday Mrs. Thomas and sons and Mrs. Clanton went to Seagraves where they visited another daughter and family, Mr. and Mrs. H. E. McBeth.

Looks like the Thunderbird— Acts like it, too!

A Test Drive will prove Ford's Trigger-Torque power lives up to the promise of Ford's Thunderbird styling

Ford used the long, low Thunderbird as an inspiration for the styling of its 16 models for 1955.

Ford also captured a lot of the Thunderbird's "Go" ... a lot of its easy handling ... and a lot of its interior beauty.

You'll find Ford's Trigger-Torque power gives you action right when you want it. You'll feel safer—pass faster.

You'll find Ford's Ball-Joint Front Suspension helps Ford hold the road like a coat of paint ... and a new front suspension mounting gives Ford a silky-smooth Angle-Poised Ride.

Then, Ford interiors, like those of the Thunderbird, are rich, colorful and completely new! Come in and see why Ford's worth more.

You can see the Thunderbird look in the long, low lines of the Ford Fairlane Sunliner
