RICHARD BOONE, the actor, was seriously injured in a sports car accident in California recently. Old Have Gun will be traveling a lot slower now. But it could have been worse — an acute attack of arthritis could have stilled his gun hand.

NBC is putting another political punk on a private program in October. FRANK BLAIR is due a show assignment on Sundays. It is going to be interesting to find out what he is going to sell as a product in addition to his propaganda line.

Have you viewed the NBC morning show in recent weeks? Since when did MARTIN AGRONSKY become a cabinet member — a congressman — a senator — or an elected American official. He swaggers, talks, and acts like a high ranking committee chairman when interviewing the biggest men we have in this nation today. AGRONSKY is for the birds.

Fairs are either concluding the Fall season or opening up in other West Texas communities this month. What has happened to the Martin County Fair the people used to enjoy so much? Our area is blessed with fertile soil, good livestock, champion calibre swine, outstanding poultry, including top capons, et al. We have some of the finest fruit in the state grown here when properly cultivated. Our women are gifted in the culinary and homemaking line. How about making plans now for a Fair next fall?

THE METHODIST CHURCH now claims a membership of 10,234,986 compared with 10,192,052 for the BAPTIST CHURCH in this country. Until the latest Methodist figures, the Baptists were ahead. It's a saw-saw battle, admittedly, with the Baptists and then the Methodists claiming the lead. One reason for the constant change in standing is that Methodists report their statistics in the Spring and Summer. The Baptists figure their statistics in Fall and Winter.

Now in lighter vein we pass along these laugh provokers: The mama mosquito told her baby to be good and they'd go to the nudist camp. And the baby porcupine after bumping into a cactus: "Is that you, mother?"

MRS. J. R. MURDOCK, former citizen here and now of Weatherford is reported doing nicely following major surgery in the Parker County city. Her son, JOHNNY, returned home this week from his mother's bedside. JOHNNY reported his dad, the REV. J. R. MURDOCK, as still up and going strong. We are glad that the preacher's wife is on the road to recovery. She and the REV. were always my friends.

We appreciated the delicious coconut cake MRS. CLAYTON BURNAM prepared for us last week when the members of the REBEKAHS held a cake sale at THRIPTWAY. The next time the ladies sponsor a sale MRS. JIM McCOY has promised to bring up a cake for us from one of her special recipes.

We are happy to extend the hand of editorial welcome to these subscribers this week: LARRY ADKINS, Denton; L. G. ADKINS, Rt. 2, Big Spring; T. D. BARNHILL, Stanton; ROBERT A. Thanks to CHICK BEAVERS, our local highway maintenance manager, for bringing in a supplement section from THE DALLAS NEWS about "The Story of the Texas Highway Department." The section contains a well of good information and we have filed it in our office library for future references when correct facts about our state highway system are needed.

Bisons Play Stockton Here Friday

The Stanton Bisons tangle with a fast Fort Stockton eleven on the local grid Friday night at 8 p.m.

The Buffs will be hunting for their first victory of the season. The local team has played a pair of tie games to date — a scoreless affair with Merkel and a 6-6 game with Coahoma.

Fans are invited to go out and root for the home team. The game should be very interesting.

The editor was unable to contact Coach Bill Milam for a pre-game statement. We also know nothing about Fort Stockton. One thing for sure — the Buffs will be out fighting for victory all the way.

Tax Statements Ready For Mail Saunders Says

Sheriff and Tax assessor-collector Dan Saunders has advised the press that tax statements for state and county assessments will be placed in the mail this week.

A two per cent reduction will be given in November and one per cent will be allowed for payment of taxes in December. After December 31 all tax payments will be collected without credit discounts.

Two-Pay Discovery Assured In County 14 Miles SW Of Tarzan

By JAMES C. WATSON
A two-pay discovery is assured in Southwest Martin County, 14 miles southwest of Tarzan, at Austral Oil company of Houston and Cactus Drilling Corporation of Midland No. 1 J. E. Mabec.

The dual pay opener already has been completed from the Ellenburger and has shown on preliminary production tests that it would complete from the Fusselman as a good well. The potential from that horizon should be reported before the end of the week. It will complete through perforation between 12,960 and 13,024 feet. First Baptist To Present Graham Show

Evangelist Billy Graham addresses the generation growing up in the shadow of the atomic cloud in his newest feature motion picture, "Touch Of Brass" which premieres in our city October 2 at 7:00 p.m. at the First Baptist Church.

Graham's producing organization, World Wide Pictures, took its sound-color cameras to the homes and factories and places of amusement of Manchester, England, where the story of a working man's family actually took place. The dramatic cast was drawn from the locale itself, resulting in a ring of authenticity rarely seen on the motion picture screen. The film was directed by Dick Ross and runs the emotional gamut including something for every age group.

Scheduled with the dramatic feature, is a Musical Featurette, "To God The Glory" which features the talent and artistry of the Billy Graham platform team: Cliff Barrows, song leader and master of ceremonies; George Beverly Shea, internationally known base baritone soloist; Tedd Smith and Don Husted at piano and organ; and the voices of the Christianaires Choir.

Bible Comment—

Tolerance Is A Vital Part Of Christianity

If one reads the earlier history of many churches, the impression spreads that there were individuals whose religion consisted chiefly in the delight that they took in disciplining others. In general it may be said that the church has been far readier to adopt Paul's suggestions about discipline than it has been to put into practice Paul's much more important teaching concerning love as the greatest thing in the world.

A good cause is never well served in intolerant attitudes. There is such a thing as being temperate, even in our advocacy of temperance.

At a temperance convention was heard the loud raucous voice of a rather intolerant man who was haranguing the crowd. My friend, a total abstainer and strong opposed to the liquor traffic, said to me, "I never hear that man advocate temperance without feeling like going

out and having a drink." If a man so thoroughly devoted to the cause could be reacted upon in that way, what must have been the affect upon others? The temperance cause has been served most ably by those who have first of all practiced temperance, and who in their total life and conduct have manifested the beauties and graces of Christian living.

In his letter to Titus, Paul sets forth the things which, as he puts it, "befit the sound doctrine." It is a plea for temperance sobermindedness, love and patience, for well-disciplined, noble living, the sort of thing that will never bring shame upon ourselves or disgrace upon the church. It is as we make all these constructive virtues evident in our lives that we exert the truest influence on others, while attaining what is best for ourselves.

Philosopher Claims Farm Problem About Like Cuba - Nobody Knows What To Do About It

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw is back on the farm problem again this week, his letter indicates.)

Dear editor:

I haven't been invited to attend one, but I understand the Secretary of Agriculture is holding a series of meetings around the nation to sound out us farmers on our ideas of what kind of farm program we ought to have.

Secretary Freeman says he wants to "listen to what farmers are saying and to find out what sort of farm legislation they want." He's scheduled 13 meetings in all sections of the country, and will talk with thousands of farmers.

I'm not sure this is going to be a very fruitful trip. What I mean is, the fewer farmers you talk to, the less confusion you have over what they want.

If us farmers knew what kind of farm program we want, we'd have said so long ago.

I'm like the farm program like I am about Cuba. I think something ought to be done about it, but don't ask me what. Me and a lot of Congressmen stand shoulder to shoulder on this proposition.

The farm program is like high government spending. Everybody is in favor of cutting costs while he's

running, but when he gets elected and gets the facts he changes his mind fast. There hasn't been a President in the last 10 years, Democratic or Republican, who hasn't asked Congress to raise the debt ceiling.

If Secretary Freeman stops by this Martin County grass farm, I can tell him straight out the kind of farm program I want is one that guarantees me high prices, low costs, and 100 per cent freedom. If he asks me how we can write a bill that'll do this, I'll have to leave at once to plow, whether my tractor will start or not.

As I've said before, the last thing us farmers want is a farm program written by farmers. It won't work, and if you're going to have a farm program that won't work, it's a lot more comfortable to have one thought up by somebody else.

The Secretary of Agriculture's job is to think up a farm program. The farmer's job is to tear it apart.

Yours faithfully,
J. A.

Cherried Salamander

This one is reported to drive big bass, MAD, MAD, MAD. (And who knows enough about what a big bass will do to say it won't work?) Tip is to soak a live salamander in a solution of water to which you've added a shot or two of cherry juice. Juice colors and flavors the salamander and he becomes IRRESISTIBLE.

White Motor Company To Show Fords Friday

The complete line of 16 new 1964 Fords will be introduced in dealer showrooms on Friday, September 27. White Motor Company will display many of the new models on that date in Stanton.

Total performance in a completely restyled package, with three distinctive new roof lines and a roomier interior, keynote the Ford for 1964.

"All 16 models in the 1964 Ford lineup—including the uniquely styled 4-door hardtop models—are designed to combine an exterior look of greater luxury with still more of the luxury engineering features that have made the 1964 Ford our best seller," said E. F. Laux, Ford Division general marketing manager.

Mr. Laux said the vehicle has been redesigned inside as well to reduce the front compartment tunnel size by one-third and to increase headroom and seat height over 1963 by as much as an inch.

"Fords are up in sales 28 per cent over a year ago and account for better than one out of every two cars we sell," Mr. Laux pointed out. "We believe we are proving that buyers of low-priced cars respond to the extra value we call 'total performance.' The 1964 Ford line expresses our conviction that more car for the money—in terms of total performance—is the key to sales leadership in the hotly competitive low-priced field."

Mr. Laux said that in terms of weight the 1964 Ford "compares favorably with cars in the medium-priced field."

"Every ounce of the added weight over our competitors is muscle," he said. "Part of it is in deeper rocker panel sections and in a redesigned floor pan for a more solid, longer-lasting body. Some of the weight is in the frame for greater ruggedness and durability. Still more is in a refined luxury car suspension to reduce road shock and noise. "Those pounds add up, we believe, to the quietest, smoothest and most stable ride ever offered in the low-priced class."

Durability and ride improvements are only part of the total performance features designed and built into the Ford of 1964. Mr. Laux pointed out. He said that as a result of regular testing and knowledge gained through competitive events, all engines have longer lasting main bearings and better oil distribution for longer engine life.

New in the Ford power lineup for 1964 is a Thunderbird Special 332 CID V-8 with 4-barrel carburetion rated at 250 horsepower and offering both good performance and good economy on regular fuel. Five engine choices, four different transmissions and five rear axle ratios in specified combinations complete a choice of performance-economy options designed to tailor a 1964 Ford to every customer's exact driving requirements and preferences.

The Cruise-O-Matic Dual Range three-speed transmission will be available for the first time in 1964

with all engines except the Thunderbird High Performance 427. This tried and proven design provides a choice of low gear start for maximum acceleration and of second gear start for smoother, non-skid start-up in ice, snow or rain. The three speeds provide sparkling performance and the second gear provides a "kick-down" for passing at speeds up to 65 miles an hour compared to slightly over 50 miles an hour for two-speed automatics.

The three-speed, manual shift, all-synchronesh transmission introduced last year is again standard on all 1964 Fords except 500/XL models and those powered by the Thunderbird High Performance 427 CID V-8 engine. The fully-synchronized forward gears permit smooth, effortless shifting—even into low gear when the car is moving—to make all three gears usable at appropriate car speeds as desired.

Added to the three year or 36,000-mile major lubrication interval pioneered on the Ford last year are new extended-life headlamps. Together with a new, longer-life battery, they add a more dependable lighting and electrical supply to the reduced maintenance features. The "24-24" total car warranty— for 24 months or 24,000 miles, whichever occurs first—is continued for the 1964 Ford.

Mr. and Mrs. Butch Cain and Mr. and Mrs. Jerry Baugh have just returned from a vacation in California. While in California, the group visited Disneyland and Hollywood, and returned by Phoenix, Arizona, and Ruidoso, New Mexico.

The '64s from Ford are here: The Year of the Test Drive starts today!

Ford cars have changed. Only a test drive can tell you how much. Races and rallies, economy runs, braking and acceleration tests have bred into our 1964 models the kind of total performance you just can't create on the test track alone. They are hard-muscled, fast-moving, sure-footed. Open competition helped make them that way. They offer you substantially more car than anything at their price. You don't have to take our word for it. We're willing to rest our case on our cars.

STANTON GAINS — Stanton Quarterback Ronnie Driggers gains five yards and a first down in football action Friday night. E. McHugh, Coahoma halfback, makes the tackle.

Bisons And Bulldogs Battle To 6-6 Draw

Stanton and Coahoma fought to a 6-6 deadlock here Friday night.

Traditional rivalry was revived between the Howard County club and the locals. In years past both Coahoma and Stanton have played the game as though the championship of something or the other was at stake. The same thing happened in Stanton under the lights Friday.

Stanton commanded complete control of the contest in the first half. They scored a touchdown and led 6-0 when hostilities for the first section of the game ended. It was a Coahoma come-back in the second half.

The visiting Bulldogs battled like Bulldogs and scored a TD to tie the game up then a stubborn defense in the fading minutes of the game quickly mounted by the Bisons kept the Bulldogs from scoring.

Frank Davis, writer for The Midland Reporter-Telegram described the pigskin contest as "what appeared to be two separate football games." That was a good descriptive sentence.

The Buffaloes drew first scoring honors from the pigskin well early in the second quarter. Halfback Ronnie Hartsell scored on a one-yard plunge to cap a 35 yard drive. The try for extra point failed when the kick was blocked.

In the third period the Coahoma Bulldogs drove from their own 27 yard marker to the one yard line and from that point Tony Butler ripped over for the tying counter. Marshall Williams attempted to pass for two extra points but the alert Buffs broke the try up and the game ended 6-6.

Coach Milam received one very pleasant surprise in the game. Larry Merrifield, playing in his second game, was singled out as "the best hustler we had," by Coach Milam and the Stanton chief coach also commented: "He was in on almost every tackle, either assisting or by himself. He's going to move one of my big starters off the first unit."

Both teams missed their extra points conversion attempts.

The game, played before approximately 2,000 spectators, gave Stan-

Hello, again: Progress is at work. The wheels are slowly turning on making Highway 137 a State Highway from Brownfield to Ozona. Our highway committee, with Mr. C. R. Crim as chairman, has been at work with Ozona for the past few months in supporting this project. The Ozona Chamber of Commerce had a meeting with the Texas Highway Commission in Austin September 25, the results of which have not been released as yet. Martin County will benefit from this project should it be accepted, in that we will have more tourists, and a more direct route to that section of the country.

Our thanks to Mr. Cecil Bridges and Texas Electric Service Company for our copy of the Community Survey. This survey lists all the statistical information on Stanton and Martin County, and is of invaluable assistance in the office.

Congratulations to our football team on again coming up with a tie ball game with Coahoma. We are looking forward to seeing the game here Friday night with Fort Stockton. I have already told Nolan Conner, manager of the Fort Stockton Chamber of Commerce, that we are going to beat them this year, so don't make me out a fibber, boys. It's up to you football players to back me up.

A meeting of the Board of Directors is set for Monday evening at 7:30 p.m. in the Chamber office. There are several items on the agenda, so all directors are urged to be present.

REA Expansion (H. R. 6754—Agriculture Dept. Appropriations) — House passed bill containing \$425 million to expand REA loan authorizations. Senate Appropriations Committee expected to act on bill soon.

40 Hours Pay For 35 Hours Work (H. R. 3102) — Hearings scheduled to be resumed in early October before House Labor Sub-Committee.

Cotton (H. R. 6196) — Pending in House. Future believed tied to ARA bill (S. 1163).

Wheat Controls (Various bills) — Outlook extremely uncertain.

possible court action coming from the impounding of the ballots is settled.

Councilman Bob Deavenport stated that the no salary action was taken because the financial affairs of the city are not in too healthy condition.

Secretary Harvey White stated Wednesday morning that the city was lacking in certain funds but predicted the incoming tax collections would substantially aid and add to the general fund which is now on the borderline of depletion.

County Attorney Pickett, in the manner of a suggestion, tossed a proposal to the councilmen, the candidates who led the ticket in the recent September 10 special election, and visitors present for the special session, that a new city government would do well to start off their administration with a general municipal audit.

The four persons receiving high total votes in the September 10 election were present at the Tuesday evening meeting. They included: Ed Robnett, Juil Reid, Sam Houston, and Delbert Franklin.

District Judge Ralph W. Caton ordered the ballots in the special election impounded, pending an investigation as to their validity.

The impounded ballots have been in the custody of District Clerk Doris Stephenson since they were brought to the courthouse on the morning after the September 10 halloing. Ballots were impounded by judicial decree after affidavits had been submitted to Judge Caton concerning persons voting without poll tax receipts.

A Martin County grand jury is scheduled to meet at 9 a.m. October 7. It will possibly be directed to examine the voting records.
Any new legal developments seem to be awaiting the legal deadline for filing of such necessary instruments to further explore and ascertain the validity of the special election's results.

In his letter of resignation to Secretary White, Mayor Wheeler expressed appreciation with having worked with all past councilmen. On this point his letter said: "I regret taking this action and want to thank all of the councilmen that have served with in the past for their fine cooperation and also the many fine citizens of this community who have been an inspiration in their efforts to build a better community for themselves and their children."

The city council voted Tuesday night to also set an election date to fill the places of Mayor Wheeler and Councilman Martin as soon as all other legal hurdles are cleared.

Ex-Page's Financial Story Stirs Vending Industry Talk

A former Senate page boy's amazing success story Sunday engaged the attention of Capitol Hill. Congress discovered it had been hiding a financial genius.

At 35, Robert G. (Bobby) Baker, secretary to the Senate Democratic majority, has financial ties to a rapidly expanding vending machine enterprise, Serv-U Corp., which is the talk of its industry. In the last 18 months, it has acquired franchises grossing in excess of \$3,500,000 yearly.

A \$300,000 damage suit filed here in U. S. District Court revealed the

at the home of Mrs. Homer Henson. Mrs. Jimmy Henson, president, called the meeting to order.

A report was given on the refresher course which was held September 14. The report was given by Mrs. Bob Cox. A discussion was held by the members concerning the course. Each member told what she learned at the event.

The social committee reported on the fall banquet. The Xi Theta Nu Chapter will be in charge of making all the arrangements for the banquet to be held October 26.

Mrs. Jimmy Henson was elected by the chapter to be their Valentine Sweetheart.

A program on the "Sense of Touch" was presented by Mrs. Jimmy Henson.

Refreshments were served by the hostess to Mrs. Ellis Britton, Mrs. Paul Briggs, Mrs. Bob Cox, Mrs. John Graves, Mrs. Jerry Hanson, Mrs. Jimmy Henson, Mrs. Gene Perry, Mrs. Kenneth Gilmore, Mrs. Eddie Avery, Mrs. Darrell Payne, Mrs. Eldon Hopkins, and a guest, Mrs. Burley Polk.

The Mu Lambda Chapter of Beta Sigma Phi met Tuesday night, September 17, at the home of Mrs. J. C. Epley.

Mrs. Epley, president, presided over the business meeting. Plans were discussed for the fall book review, which the Mu Lambda chapter will be in charge of. The book review will be held November 19.

Mrs. Jim Webb will be the chapter's sponsor for the coming year. Mrs. Roy Koonce presented a program on "Self Analysis." Each member took part in a discussion period.

Those present were Mrs. George Costlow, Mrs. John Harvard, Mrs. Bill Johnson, Mrs. Bill Hicks, Mrs. John McIntyre, Mrs. Roy Koonce, Mrs. D. E. Ory, Mrs. Jim Webb, and Mrs. Epley.

Methodist Church Activities

The Women's Society of Christian Service met Monday afternoon at the church. Mrs. J. W. Graham was in charge of the program.

The program was "Officers Training Day." Those taking part on the program were Mrs. James Jones, Mrs. James Biggs, Mrs. Martin Gibson, Mrs. Cliff Hazlewood, Mrs. O. B. Bryan, Mrs. Tom Ed Angel, Mrs. A. J. Stallings, Mrs. Jess Burns, Mrs. Calvin Jones, and Miss Ima Kelly.
The WSCS will meet next Monday afternoon at 3:30 at the church. The program will be on "Maturing Church of Southern Asia." Mrs. A. J. Stallings will be in charge of the program.

wide scope of Baker's business interests. According to the suit, Baker had helped secure a vending machine franchise in the Virginia plant of a government aerospace contractor, thereby causing the plaintiff to lose his contract.

Baker denied the suit's allegations, including the claim that he received a total of \$5,600 in commissions for what the suit said was his part in the negotiations.

Congressional staff members are not prevented by law from pursuing private business careers, and some do.

Baker came to the Senate from South Carolina as a page boy at the age of 14. In 1955, Vice-President Lyndon B. Johnson, then majority leader, appointed him to the job of majority secretary. He became known as "Lyndon's protégé" and a good man to consult in matters involving legislative strategy.

The Senate majority secretary is an important cog in the Senate machinery. Baker is on familiar terms with the leadership. The press knows him as an excellent news source on cloakroom maneuvers.

Capitol Hill first became aware of Baker's outside financial activities in 1959 when he conceived the idea of a luxury motel in North Ocean City, Md., for jaded members of congress. In association with two Maryland builders, Baker purchased oceanfront land for \$75,000 and obtained building loans totaling \$529,000 from three banking institutions.

Last February 25, according to public records, the Bakers sold the resort to Serv-U Corp. at a price, indicated by state tax stamps, of \$1,230,000.

In its first 18 months of operations, the corporation won five large con-

tracts in southern California aerospace market. In all five cases, firms with long experience in the vending business were replaced.

with modern Light for Living

Nothing does more to add to the beauty and livability of your home than modern lighting. Light can make rooms seem larger. Light can bring out the rich color and texture of your furnishings. Light can create an atmosphere of brightness and cheer that makes evenings at home more enjoyable. The well-lighted living room needs three kinds of light: (1) general lighting for over-all room illumination; (2) local lighting for reading, sewing and other close seeing tasks; (3) accent lighting for highlighting focal points of beauty, such as a picture grouping or planter. Your lighting dealer will gladly help you choose the proper lamps and fixtures to enjoy modern Light for Living. See him about it soon.

Goldwater Leads Rep. Fisher's Poll

Well over half of the voters who answered a poll in Texas' 21st congressional district support Sen. Barry Goldwater, R-Ariz., for the presidency, Rep. Clark Fisher of San Angelo reported Friday.

Fisher's presidential poll showed the following percentages:

President Kennedy, 11.5 per cent.
Sen. Goldwater, 57.3 per cent.
Gov. George Romney of Michigan, 8.9 per cent.
Gov. Nelson Rockefeller of New York, 3.1 per cent.
No opinion, 19.2 per cent.

Fisher said his office mailed the poll to 40,000 persons in the 27 counties of his 21st Congressional District in Southwest Texas and had received about 8,200 replies.

"This is an unusually high percentage in such a poll," Fisher said. "In 23 counties we mailed to every person on the poll list and in four others to everyone listed in phone books."

Fisher said he believed the poll to be an accurate barometer of the sentiment of citizens in his district on the presidential race and on public issues.

The poll also showed these results

A Good Name

What's in a name? A man often is said to be as good as his name.

This saying probably developed from the practice of men verbally binding themselves in agreements with others on the strength of their good name.

Texas history records one man, among others, who proved himself to be even better than his name. For this man changed his name.

He changed his name from Otfried Hans Freiherr Von Meusebach so that he could become a citizen of Texas under the name of John O. Meusebach.

Even in the light of the history of innumerable broken treaties between the Indians and the white settlers, the treaty of peace between 20 Comanche chiefs and Meusebach, representing the German colonist, was never breached.

This 1847 treaty is memorialized by a marker on U. S. Highway 190 about 15 miles west of the Central Texas town of San Saba. Those interested in Texas history should stop and see it on their next automobile trip to that area.

Distress Signal

A simple distress signal that can be used by the lost-in-the-woods person — or lost anywhere outdoors for that matter — is the toy balloon.

Keep several brilliant colored ones in your knapsack or boat or tackle box, along with a roll of heavy nylon line and some strong string. A balloon attracts attention and helps point out the spot. In case it breaks away — attach a note telling of your approximate whereabouts and outlining your predicament, needs, etc., if possible.

Brantley Chevrolet To Show New Cars Sept. 26

Brantley Chevrolet Company will display the new 1964 Chevrolet lines here Thursday, September 26.

Included will be the industry's only all-new car for 1964 — the Chevelle. This much discussed combination of beauty, quality, performance and distinction is sized between the regular Chevrolet and Chevy II.

All Chevrolet's five lines of 1964 cars have styling and engineering improvements which — teamed with the increase in models and options — allow the customer to tailor a car to his particular requirements as never before.

"Car buyers today like diversity," Semon E. Knudsen, Chevrolet general manager, declares. "They like to be able to choose cars from a wide selection of sizes, styles and performance characteristics."

"We expect the broad diversity in our 1964 cars to win the customer votes needed to continue Chevrolet's traditional industry leadership."

Following are the highlights of the five members of Chevrolet's 1964 "family."

REGULAR CHEVROLETS — Extensive new styling is evident in the regular Chevrolet line, again stressing the big car luxury which has made it so popular.

A Super Sport series featuring bucket seats and special interior and exterior appointments in both a convertible and sport coupe has been added for 1964, bringing the total models of regular Chevrolets to 13 in four series.

Although over-all dimensions are the same as in 1963, the regular Chevrolet has a longer, wider look created by new flowing side lines and a smooth, broader styling of front and rear ends.

Crisp, distinctive exterior moldings and interior appointments distinguish between the Super Sport, Impala, Bel Air and Biscayne series.

The 1964 Chevrolet models feature new interior trim styling and materials, yet retain the built-in comfort, convenience, luxury and durability traditional with Body by Fisher.

All of Chevrolet's advanced 119 inch wheelbase chassis features are continued for 1964, including X-built

Fourteen inch wheels, self-adjusting Safety-Master brakes and a high capacity Delco-tron generators are standard equipment. Four engines — two six-cylinder and two optional V8s — are offered on all Chevelle models. Four different transmissions are available.

CHEVELLE — Chevrolet's new automobile line for 1964 embodies a distinctive styling and will be offered in 11 models in three series — the top-of-the-line Malibu Super Sport, the Malibu and the 390.

Quality and vehicle width are stressed in the front end design which makes use of dual headlights and horizontal grille bars. Side treatment is clean and a peak line which carries throughout the car gives a look of length.

The rear end design accents car width with tail and backup lights at the extreme ends of the rear back panel. A textured molding extends the full width of the car.

A special feature of the Chevelle body is the use of curved side windows to give a lower look. A strikingly wide instrument panel is part of the distinctive interior styling which includes trim styles and materials color-keyed to the new exterior colors.

Built on a 113 inch wheelbase, the chassis is completely new, featuring a perimeter frame. Front suspension makes use of coil springs and rear suspension is of the coil spring four link type.

Sure Fire Fire Starter
A small propane torch of the kind that's so popular these days works as an auxiliary stove and doubles as a neat fire starter. Just hold her in position and blaze away. Presto! A blaze, even in wet weather.

Powder Dipper
Handloaders, attention: Cut a slant on the end of a .30-30 shell about where the shoulder starts down toward the neck. Then solder on a suitable piece of wire coat hanger for a handle. You've got a good dipper for shifting the last few grains of powder on to your weighing scale.

ston, photographer.
The officers presiding in the FFA are Bobby Deatherage, president; Corky Perry, vice president; Keith Howard, secretary; Kenneth Pribyla, treasurer; Mike Roman, sentinel, and Norbert Gonzales, reporter.
Cheerleaders this season are Naomi Caughman, head cheerleader; Sophie Perez and Diane Massengale. The majorettes are Veneta Oaks, Genevieve Carmichael, and Mary Etta Glazes. The drummers are Faye Langston, Patsy Oaks, and Lupe Gonzales.
Cheering the junior high boys on to victory this year are Cindy Glaze, Ann Dennis, and Joy Oaks. The majorettes are Fran Creighton, and Sharon Miller.

Flower Grove Names Staff, Officers

Students in the Flower Grove School System have elected their staff workers and organizational officers for the 1963-64 school year.

The seniors have started preparations for the 1964 annual, the "Dragon's Trail." The staff officers are David Cave, editor; Richard Cafarello, assistant editor; Dannie Langham, business manager; Veneta Oaks, class editor; James Howard, sports editor; Martha Carmichael, organization editor, and Ervin Cockrell, acting editor.

The first edition of the school paper, the Dragon's Den, will be published at the end of the six weeks.

The paper staff for this year are James Howard, editor; Naomi Caughman, assistant editor; Corky Perry, business manager; Richard Cafarello, sports editor; Veneta Oaks, girls' sport reporter, and Rodney Oaks, boys' sports reporter.

The FHA officers are Veneta Oaks, president; Brenda Davis, vice president; Naomi Caughman, secretary; Dena Robertson, treasurer; Diane Massengale, reporter; Becky Haggard, parliamentarian; Martha Carmichael, historian, and Faye Lang-

Expect great things from Chevrolet again-for '64

Today...Jet-smooth Luxury '64 CHEVROLET

'64 Chevrolet Impala Sport Sedan—one of 15 Jet-smooth luxury Chevrolets.

Chevrolet was luxurious before, but you should see it now. With smart new styling, the '64 Chevrolet looks even longer (but isn't). There's even a whole new series this year—the Impala Super Sports—with front bucket seats

as standard equipment. (The new Impalas and Bel Airs are more luxurious, too. Even the lowest priced Biscaynes have new foam-cushioned seats front and rear and are fully carpeted.) Of course, you expect more than just

luxury from Chevrolet. A choice of 16 power teams, for instance—a 6 and six V8's up to 425 hp (optional at extra cost). And quieter transmissions. Jet-smooth ride with Full Coil suspension. Flush-and-dry rocker panels, Delco-

tron generator, self-adjusting brakes and other low-upkeep features. If you've ever wondered how luxurious Chevrolet could get—with all the extra-cost options there are to choose from—that's entirely up to you.

Take your first look at the first CHEVELLE!

CHEVELLE! by Chevrolet

New Chevelle Malibu Super Sport Coupe—one of 11 models in three great series.

You've never seen anything like this totally new line of cars before. Chevelle is new in everything but Chevrolet quality. Chevelle is a good foot shorter than the big cars, so it parks easily. Yet the interior of its Body by Fisher gives you a generous

supply of passenger and luggage room. The ride is surprisingly smooth with a rugged coil spring at all four wheels. And not so surprisingly for Chevrolet, the new Chevelle offers a choice of engines ranging from an economical 120-hp 6 to a 220-hp

V8 (optional at extra cost). Choose the Chevelle you like best from the three series — the Malibu Super Sport, the Malibu and the 300 Series, eleven models in all — at your Chevrolet dealer's. (This good-looking Malibu Super Sport maybe?)

The Launching Pad

By NEAL ESTES

WE talked briefly with MR. and MRS. HENRY RINGHOFFER Saturday afternoon. MRS. RINGHOFFER has been on the ill list for sometime but looked and talked like a woman in her early thirties. She is a very talented and remarkable person and has won more prizes, awards, plaques and ribbons in community fair competitions than any other individual in West Texas. Just last week she latched on to 27 ribbons out of 30 entries at the DAWSON COUNTY FAIR. A few days before that, she won 30 ribbons for exhibits in Abilene. Her record of achievement is as superb as her grape jelly.

FRIENDS are happy to see two long-time Martin County residents out and around on the streets again after hospital battles in Big Spring and Houston. MIKE ANDERSON is back home and looking foxy and healthy. JIM WEBB is also home from Houston where he underwent medical treatment.

CARMEN and BOB WHITAKER have been visiting in Stanton and Big Spring. The WHITAKERS are living in Batesville, Arkansas where they own a store. We learned from BOB this week that the State of Arkansas, known to many Texans as the Diamond State, is really booming. A famous financier, WINTHROP ROCKFELLER moved down to GOV. FAUBUS' state a few years ago, is making a fine citizen and industrial leader, serving as chairman of a statewide committee to secure new industry, and owns some of the finest cattle and land in Arkansas. BOB told me that two outstanding plants had been located in Batesville alone since he moved there.

COUNTY JUDGE JIM McCOY'S order for a proposed election to determine whether or not Martin County taxpayers and qualified voters, (those holders of poll taxes only), or exemptions, want to separate the sheriff's office from the tax assessor-collector office, appears in this edition. The call for the election followed the passing of a resolution by members of the Commissioner's Court authorizing same. The election will be held on the first Saturday after the first Monday in November.

CECIL BRIDGES, manager of TESCO in Stanton, presented us with an attractively bound index binder containing complete Community Development Survey information about our city and county. The survey was compiled and published by the Area Development Division of TEXAS ELECTRIC SERVICE CO. We are happy to have the file and will put it to many useful purposes.

OUR friend, BAREFOOT SANDERS, U. S. DIST. ATTY. for the Northern District of Texas, reports that his office has had a very successful year. SANDERS' office was one of the 15 top districts out of the nation's 91. His office has received a citation based on a list of qualifications, fairness, efficiency and success. SANDERS reported that his office collected \$1,216,153 in the past fiscal year. This figure included fines collected as the result of court action. The other side of the balance sheet showed district office expenses amounting to \$283,062. BAREFOOT SANDERS has definitely given the taxpayers the financial report of one of the top expenditures of federal funds in Texas. BAREFOOT SANDERS has done a good job.

PRESS reports from New York last week announcing the address of PRESIDENT KENNEDY before the United Nations Assembly, stunned us. Of course MR. KENNEDY has a right to address the convention of delegates anytime he desires. After all, we have paid the bill for the continued operation for this cancer cell of communism in America for months now. But what irked the American people was when it was announced, and here are the exact words: "KENNEDY follows Soviet Foreign Minister GROMYKO before the General Assembly." HOW COME? WHY? Russia has not paid a thin dime to the support and upkeep of that "congress of bums" up there in New York. And we taxpayers have to stand back and see our President shoved into second place. I don't like it.

El Dorado, Kan. Times: "Conservation practices employed by the petroleum industry have made possible the recovery of untold billions of barrels of oil which otherwise would have remained trapped forever in the earth. A few decades ago oil men could recover as little as 10 per cent of the petroleum in a given field. Once the natural pressures which forced the oil to the well declined, the field was abandoned. Today . . . between 40 per cent and 80 per cent of the petroleum in a field can be made available to meet the nation's growing energy demands."

Smoke Free Frying

Oh, the smarting of eyes, the shouts of protest, the downright misery as smoke from your frying pan chases you around the campfire. Why go through this when there is a simple way to stop it. Like this: After main campfire is built, transfer a little of it to a smaller fire pit, several feet away from main area. Four rocks support frying pan. Tiny fire made from small stuff is easily controllable. You have less smoke and it isn't right under your nose.
