JANUARY FIRST, 2000 A.D.

We'll have more industry, more schools, more hospitals, more recreational facilities.

We'll have more people in our nation another hundred million, according to prediction.

Your local rural electric system is prepared for today and tomorrow. We'll be on the job with man power, initiative, ideas, and dependable electric service, on January first, 2000 A.D.

Just as we'll be on the job January first,

Cap Rock Electric Cooperative, Inc.

Clean way to winter comfort...flameless electric heat.

IT'S READY AND WAITING IN A TOTAL ELECTRIC HOME

One of the nicest features you'll discover in a home where electricity does everything is the work-saving cleanliness, the comforting sunshine warmth of flameless electric heat. Heat so clean it can't soil woodwork and furnishings. Heat so gentle and even it makes every room a nice place to live in winter. You can live better electrically in many ways on our low rate for all-electric homes. When you buy or build, go total electric.

THE STANTON REPORTER, THURSDAY, JAN. 2, 1969-7

The Launching

send sincere greetings and best wishes to my per sonal friends and the friends of this newspaper when I say Happy New Year. The life of a small: town editor is mightly difficult at times but highly rewarding on occasions. But it seems to me it has been a long time since one of those joyous occasions made it's way to my corner. The difficulties have been numerous recently. This week the flu knocked our pressman down and out and it was necessary to borrow help from our good friends in Midland. Late ad copy also held the paper back and and caused two of us to work through most of Monday ... and Tuesday nights in addition to the 12-hour daily grind. And yet there are those who are ready to sit back and wait for one mistake or an omission to raise cain or poke fun without a thought of what it takes to really run a weekly newspaper. Again, Happy New Year!

rchants were busy this week and some worked until the small hours of Wednesday morning in Stanton taking inventories. This is a vitial part of operating a business. In a sense, it gives the owners of the stores a pretty true description of just what they should have made in 1968 and how much stock they have price hand to start 1969.

Subscription renewals continue to pour into the newspaper, A lot of new names have been added to the mailing list too. And it is nice to acknowledge the orders received from several persons who authorized the mailing of the paper to loved ones for Christmas pre-

ne schools will all be running in high gear by Monday, January 6. The long Christmas boliday period came to an end in Stanton on Wednsedo School opened up here on January 2. The students the town willobserve another holiday until along in May alf

the cold weather has really played havoc with local residents. The traffic has slowed down -even around the pestoffice. Sickness has increased. And on Wednesday morning the temperature stood at, 15 degrees at 3 a.m. Oh yes, the usual number of frozen water pipes developed and my big dog, JEB STUART, had to chained near his house to keep from jumping the fence it was so cold.

et us all hope that 1969 turns out to be a better year than the one experienced last year
