Mrs. C. T. Jones Speaks At Rotary Club Meeting

"My richest heritage was teaching boys and girls," Mrs. C. T. Jones told members of the Rotary Club at the Thursday noon session.

Ferrel Coston was program chairman for the day and introduced the guest speaker.

Educated at Mary Hardin-Baylor, and a teacher for 35 years, Mrs. Jones gave an interesting description of the first school she taught. It was in a one-teacher school with no desks, books or globes. At that time the students furnished their own books, including the blue-back speller, the guest speaker said.

She received her state certificate at age 16 and began teaching at \$45.00 per month.

Mrs. Jones, who taught John Kimbrough, is a pioneer of the Weinert community. She is the mother-in-law of school superintendent, Hooper Wilkinson.

President H. V. (Woody) Wodard presided over the meeting and Henry Withers gave the invocation. R. C. Couch led in song. Phil Simmons of Rochester was a visitor at the Thursday luncheon meeting.

DONKEY BALLGAME IS SLATED HERE NEXT MONDAY NIGHT

The Haskell Jaycees will play the Stamford Jaycees in a "Donkey Ballgame" here next Monday night, July 26, 8 o'clock, in the rodeo arena. Ralph Godfrey, of Crescent, Okla., will furnish the stubborn critters... the donkeys, that is... for the Jaycees. Godfrey, who is well known over this section of the country for his performing donkeys, said that he will also bring along his trick mule act.

Advance tickets are going for 75c for adults and 50c for children, but at the gate Monday night, admission for adults will be \$1.00, a spokesman for the Jaycees said.

The Haskell Jaycees "went in the red" about \$500.00 due to their "rained-out" rodeo back in May, and have staged the ballgame to help get on the black side of the ledger.

The city is putting in new water mains and extending the system further west and other improvements are being made to give better service to the patrons.

The injunction against the Swift Gin Company who are building a gin in the north part of town was dissolved before District Judge Bruce W. Bryant here Monday and the permit granted, on a statement of the company that the gin to be erected would be both noiseless and dustless and would not prove a nuisance. The injunction was brought by a number of residents of the north part of town who opposed the building of the gin on the present site.

Friends of Marvin G. Potteet of this city will be pleased to learn that he has entered the practice of law at Vernon, Tex.

Few times in the history of Haskell has there been larger gatherings than those attending the Hogg meeting. Last Sunday and Monday night it was estimated that 2,500 people heard the services. The preaching of Will Hogg is different. It is not the usual sing-song whim that so many have. Dr. Hogg is a man of power in eloquence and commands a flow of language that is seldom ever heard by a minister.

Miss Lucy Lee Davis was injured last Friday afternoon while plowing for her father, Mr. Joe W. Davis of Sayles. The team became frightened and ran away. She suffered serious cuts and bruises.

B. Baker; benediction by Rev. Shepard.

J. B. Hash, west side grocer, returned a day or two ago from a trip through the western and northern portions of the county, taking in Pinkerton, Marcey, Carney, Knox City and Munday on his round. Mr. Hash remarked to the Free Press reporter that he never saw a prettier country or finer crops in all his life than were in evidence on the entire trip, which must have included about 60 miles of travel. Mr. Hash's statement takes on additional force when it is remembered that he is from Bell county, in the central portion of the state, which has the reputation of being the greatest farming section of the state.

Dr. Duncan, eye and ear specialist, will drive from Haskell to Munday, Texas, and give free consultation and advice, also fit your eyes with the famous Brazilian crystalline lenses.

Texan Explains Why We Should Support Our Effort In Vietnam

EDITOR'S NOTE: The following letter was read into the Congressional Record-House on June 24, 1965, by Mr. Graham Purcell. A copy of page 14217 of the Congressional Record was called to my attention by Frank Cadenhead, M. D. After reading the letter, I think it should help greatly in putting a stop to our criticism of our policies in South Vietnam, particularly from some of our college campuses. The letter was written to the Editor of the Denton, Texas, Record-Chronicle by a resident of Denton, serving in South Vietnam, Lones E. Taylor, AMHS, U. S. Navy.

A LETTER ON VIETNAM June 13, 1965

Dear Editor: Whether or not you print this letter is up to you and your paper, but I feel I must write what I and many men over here in the Vietnam war feel.

As for myself, there were many reasons I stayed in the Navy (of which money certainly wasn't one) love of my home, family, and most of all my country. I've never thought of myself as being very patriotic, but the more I read of papers back home, it turns my stomach to think that people can think so little of this wonderful country that we live in.

Among other things, the Navy has helped me to grow into a man and accept my responsibilities as a citizen of America, for which our forefathers fought and died so graciously and willingly.

Has everyone forgotten the basis that this country was founded on? Or don't they teach that in our colleges and universities today?

I have always regretted that I didn't attend college first instead of going into service, but now I'm not too sure. I would hate to think that I had the outlook on life and would so willingly turn down responsibility as students over the country today are doing.

They are making a mockery of everything that true Americans believe in today. When they protest the war in Vietnam and policies of our Government leaders by picketing the White House, burning their draft cards and doing many other disgraceful and unpatriotic things, it only shows their lack of learning and understanding. They don't care what they protest, or even care whom or what it hurts.

Youth Will Govern World

I realize they are only a small percentage of our young students, but if left to grow, could be our entire country, for the youth of today will govern the world tomorrow.

Most of this is caused by fear. No one wants war or to die in a far land that has little meaning to their lives.

This is not so. We over here know what we're fighting for. It isn't like the Korean war. We know now that we must fight communism anywhere over the world where it threatens free people that are depressed, poverty stricken and that are being eaten alive by the Communist machine. Not only for these reasons but for our wives, families, and even our forefathers that have died before us.

We are over here now trying to do our job as we know it, but it is hard to have faith and fight for what we know to be right when people at home have no faith and aren't backing us as they should. Sometimes we wonder if you even care about us or yourselves.

Every day some of our shipmates fail to return to the ship (USS Midway), but they go each day knowing if they die we will carry on to win over communism in the end.

One Lone Comfort

We left our comfortable homes, our wives and families to spend lonely, endless days at sea, our only comfort the fact that someday we'll be able to return in peace, for a while anyway.

We sacrifice everything dear to us, some even their lives. Is it too much for us to ask and expect that you at home have faith and back us just a little?

We are the ones fighting now and we're not complaining about it. Are people so afraid that they might be asked to fight a little for what (if anything) they believe in?

There isn't any one of us here who wouldn't like to change places with any student back home, but we believe in freedom. Doesn't anyone else believe in freedom anymore?

Everyone wants peace, but to me it matters a great deal the price I have to pay for it. How can we expect to have peace and freedom at the expense of countries like South Vietnam if we turn our backs on them?

No Longer Angry

When I started this letter I was angry, but now I have compassion for those who believe that peace is good no matter what they have to do or what rights they have to give up to get it.

If we follow this line of thinking, we'll soon have nothing else to lose and will be lost and buried by communism, because there will be nothing else to hope, believe, or fight for.

Has our morality dropped so low?

I've lived all my life in Denton prior to joining the Navy and I love the town and people. When this is over (the war), I plan to take my discharge with 6 1/2 years active service and return to my wife and children to take my place in a community that I'll be proud of.

I have heard of no such demonstrations from the campuses of Denton and this makes me proud and very happy.

If this letter serves no other purpose, I hope it will make a few people realize what I have tried to say and just understand a little of what is facing us.

We'll do the job. You just give us some support and we'll all be fulfilling our job. Give us back our faith in the American people again.

Respectfully submitted, Lones E. Taylor, AMHS

Miss Judy Gibson, cousin of the groom sang "Because" and "The Lord's Prayer," while Charles Merritt, youth leader of the First Baptist Church, provided traditional wedding music.

The bride was given in marriage by her father. She wore a formal Giovanni Original

gown of imported organza, fashioned with a round neckline encircled with sculptured Venice lace, fitted long sleeves ending in a point over the magnificent spread of skirt with chapel train falling from a huge organza bow in back. Her fingertip veil of imported silk illusion was attached to an open pillbox hat trimmed with seed pearls and tiny organza cabbage rosebuds. Her bridal bouquet was of white carnations carried atop a white Bible, and long satin streamers.

Mrs. Rodney Davis, of Las Cruces, N. M., sister-in-law of the groom was Matron of Honor. Bridesmaids were Miss Carolyn Booe, of Munday, and Miss Doris Marie Marion, of Knox City, cousins of the bride. They were attired in identical dresses of bright turquoise peau de soie, styled with round neckline, fitted bodice, small sleeves, and bell shaped skirt

with a large bow in back. Their head dresses were pillbox hats of matching peau de soie with rounded veils. They also wore white gloves and white pumps and a necklace of pearls, a gift from the bride. They each carried a large white mum.

Lee Ann Bowden, of Munday, cousin of the bride, was her little flower girl. She wore a white dress with a wrist bouquet and headband of turquoise flowers. Her ring-bearer was little Mike Hix, Wichita Falls, who was dressed in a black suit and bow tie to match the groom's. The best man was Rodney Davis, of New Mexico, brother of the groom, and the groomsman were Darel Anderson and Arthur McDonald of Haskell. Ushers were Derrell Marion of Knox City and Jerry Stocks of Haskell.

The reception was held immediately after the ceremony in the annex of the First Baptist Church. The tables were covered with matching floor-length covers with tulle and lace over cotton. The bride's table was centered with a turquoise flower arrangement encircled in a rain spray, and a white three-tiered wedding cake topped with a miniature bride and groom. Miss Bobbye Zajokar, cousin of the groom, presided at the bride's book. Miss Judy Gibson, cousin of the groom, Miss Ann Haynes, and Mrs. Jimmy Freshour served wedding cake and punch.

The bride's mother was attired in a pale pink Italian silk dress with matching hat and gloves. She also wore matching accessories, with white shoes and purse. Her corsage was of turquoise carnations.

The groom's mother wore a dress of gray Italian silk with matching accessories. Her corsage was of turquoise carnations.

The bride chose a going-away two-piece suit of mint green lace lined in matching mint green polished cotton. She chose wrist length gloves, pumps and handbag also in mint green and wore a small white feathered hat. She wore a white corsage from the bridal bouquet.

The groom's parents hosted a rehearsal dinner at Sam's Cafe in Haskell, for members of the wedding party. Place markers were of two small white wedding bells showing each person's name.

The bride and groom both graduated from Haskell High School. After a short wedding trip, the couple will be at home at 409 Vernon Street, Plainview, where the groom is employed by Cen-Vi-Ro, Inc.

Haskell County Farmers, Ranchers Have Built Several Farm Ponds

Make your farm or ranch pond safe and prevent unnecessary accidents or loss of life. The National Safety Council and the U. S. Department of Agriculture have proclaimed July 25-31, 1965, as National Farm Safety Week. Hinds A. McGowan, Jr., of the Soil Conservation Service reported.

This is the time of year that many Americans are taking long awaited vacations. Some will spend the time either boating, swimming, water skiing or fishing here at home. These will not only be local people, but also folks from other places. Ponds like any body of water have a magnetic attraction to people. When the two come together there is always the possibility of drowning or other tragedies occurring. This need not happen if people follow certain precautions. Never dive into or swim in a pond that is not familiar to you. There is great danger of severe injuries occurring as a result of hidden stumps or unseen barbed wire. Bites from water moccasins are also highly probable. Most of the ponds were built for livestock water. However, many of the farm or ranch families will want to entertain friends with picnics, swimming and boating, or fishing. Young boys out for an afternoon hike can be expected to do most anything. Farm or ranch ponds can bring many hours of pleasure if they are safe.

Farmers and ranchers in Haskell County have built several farm ponds in recent years. Technical help from the California Creek and Wichita-Brazos Soil Conservation Districts was obtained through the Soil Conservation Service.

You may be planning to build a farm or ranch pond soon. If so, there are some things you should know before beginning construction. Find out what the community and state laws are

concerning your liability in event of an accident or death. The pond should be located where it will not receive runoff from barnyards or drainage from sewers. Decide how you are going to use the water so that the Soil Conservation Technician can provide for swimming areas and other safety measures when he designs the pond.

When construction begins, have the contractor remove trees, stumps, and brush from the area that is to be used for swimming. Wire, discarded machinery, scrap metal and fences that might be dangerous to safe boating or swimming should be removed. Sudden dropoffs from shallow into deep water should be eliminated from swimming holes.

When the pond is completed many things need to be considered to make it safe. Mark the swimming areas. Place warning signs at places where danger exists. Life saving devices such as ring buoys, ropes or long poles should be placed at the swimming areas. Safety instructions for boating and swimming should be posted. Never swim alone. Recognize that farm ponds are hazards to small children. Non-swimmers should wear life jackets while boating.

Do not spoil your afternoon outing or vacation. Do not become a drowning statistic. Make your farm pond safe for all who will use it.

LETTERS . . .

Bandung, Indonesia
Dear Friends:
Time is very near for our departure to America and a year of furlough. I wonder where this term has gone but when we look at our Vicki Lynn (3 years, 8 months) and Jim David (1 year), we know time has passed. We also tell the passing of time by looking in the mirror and by the greeting of newly arrived missionaries. (They look so young). Actually, we are going home early in order to adjust furlough arrangements among the workers in Publications.

"As we look back over these years we naturally ask the question: What have we done to help further the Lord's work in Indonesia? We have been busy, almost too busy, in fact. Most of our time has been spent in office preparing literature to be used in our churches. Our prayer and hope is that it has helped to tell others about the love of Jesus.

"Yesterday, Ibu Salamah, a helper in our home, was buying vegetables at the market. As she placed the parcels in her basket, she noticed the paper was printed with green ink. Being a teacher in Sunday School, she immediately recognized the paper as part of a Bible lesson. She unwrapped the beans, blocks of sugar, and taker (bean curd) and returned the wrapping paper to the storekeeper. She took this opportunity to witness to him and suggest that he read what was on those pages. You see, nothing goes to waste here. Some-

one had sold some old quarters to be used for wrapping paper. Salamah is eager to return to talk with this man again. We pray that he and others who may receive pages of this Bible study book may have an awakening in their hearts and a desire to seek more information.

"We are looking forward to a year at home with friends and loved ones. We pray that this will be a profitable year spiritually as we worship with you (in English) and share our experiences.

"We plan to live somewhere in the area of Houston so we can be near Florence's mother. We cannot give you a definite address now but will get it out as soon as we are located. Until we are settled, we will receive mail at the following address: C. E. Parker, Rt. 2, Box 8275, Alvin, Texas.

"We hope to see many of you while we are in the States. Pray for us that we may be good stewards of the time and opportunities for serving our Lord during this year. We also ask your prayers for the Pub-

FARM SAFETY WEEK IS SET FOR JULY 25 THROUGH 31

July 19-25 has been proclaimed National Farm Safety Week by President Lyndon B. Johnson.

Co-sponsors for the 22nd annual rural safety campaign are the National Safety Council and the U. S. Department of Agriculture. Special emphasis this year is being given to preventing accidents involving slow-moving vehicles, chemicals and electricity and in recreation.

The President urges that vigorous new efforts be made to eradicate hazards and rectify unsafe practices which cause farm and rural accidents.

"Progress toward this objective should be the goal of National Farm Safety Week 1965," he said.

The latest yearly breakdown of farm resident accidents shows a total of 8,400 deaths and 780,000 injuries. Of the deaths, 3,600 were motor-vehicle, 2,000 were in the home, 2,600 were work accidents and 800 resulted from non-motor vehicle accidents.

"Farm families are making a joint effort to reduce accidents," says Howard Pyle, president of the National Safety Council.

"Today's farm family can prepare itself for accident prevention by eliminating hazards and making skillful use of modern farming equipment and production aids."

Location work here in Indonesia.

"We arrive in Houston sometime in late July.

Sincerely yours,
Florence, Gerald, Vicki Lynn, and Jim David Pinkston."

(Editor's Note: Bro. Pinkston was formerly minister of music and education at the Haskell First Baptist Church.

CHRISTIAN SCIENCE SERVICES FOR JULY 25

Lead me in thy truth, and teach me: for thou are the God of my salvation; on thee do I wait all the day.

The supplication from Psalms will begin this Sunday's Bible lesson at all Christian Science churches. The subject of 'Truth' will be explored with particular emphasis on the teachings of Christ Jesus.

In addition to selections from the Bible, there will be readings from the Christian Science textbook. This passage will be included: "Christianity as Jesus taught it was not a creed, nor a system of ceremonies, nor a special gift from a ritualistic Jehovah; but it was the demonstration of divine Love casting out error and healing the sick, not merely in the name of Christ, or Truth, but in demonstration of Truth, as must be the case in the cycles of divine light." (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 125).

The Good Earth

by MRS. B. F. COBB

I visited Mr. and Mrs. Pierson's spacious yard last week, and was enthralled by its beauty.

The large shady patio was graced by huge white urns filled with caladiums. Numerous pots of the same color were placed artistically on tables throughout the patio.

A large fruitless mulberry with a half moon of caladiums at its feet cast a thick shade on the yard.

The caladiums were all red and green mingled, giving a look of Christmas to a hot July day.

A rustic cedar fence surrounds the back yard. Ivy and morning glories twine themselves around the posts. Tall, bronze foliage cannas give a slightly oriental air to the place.

A bird bath nestles beneath a large mimosa tree. Watermelon red crepe myrtles add a splash of color throughout the back yard.

Mrs. Pierson has a poinsettia about 3 feet tall growing in a bed beneath a tree. The foliage of this plant is very luxuriant, showing a loving hand has cared for it.

The caladiums are all very healthy beautiful plants. Mrs. Pierson puts some in the soil and others she plunges into the ground still in pots to be used at church socials and such like.

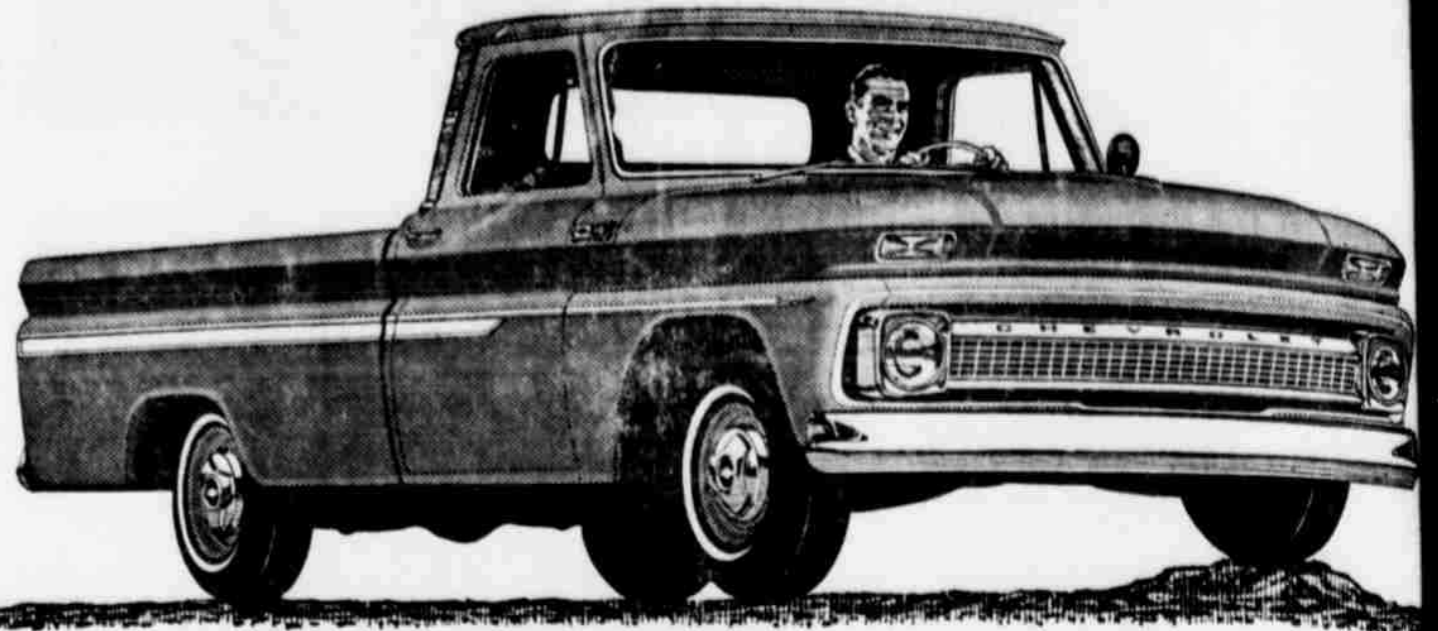

Mrs. Pierson took me on a tour of her beautiful home. They indeed have a place to be proud of. The family eats breakfast and often other meals on their cool patio. Many relaxing hours are spent there also.

Watch roses for thrips. The tiny little insect that causes roses to curl up and scorch just after opening.

If thrip are present, spray with blackleaf forty and soap suds.

A good way to detect thrip is to rap an open rose across your palm. If these insects are present, they will be crawling in your hand.

By AL HINDS

How late some people sleep on Sunday morning depends on the length of the sermon.

Did you know there is a MONSTER on the north side of the square? This one should hold Lion button-snitcher, Don Muenzler.

While "coffeeing" up Friday morning at Felker's Cafe, R. V. Black happened to glance through the partly drawn curtains and remarked that someone passed by along the sidewalk who looked like Porter Oakes. It turned out to be Dede Gay. I don't know whether R. V. should apologize to Dede, or to the Mineral Wells Crazy Water Kid. "The Thang," Dorster Pokes... I mean, Porter Oakes.

The hardest work is dodging work.

I got a bang out of A. C. Pierson relating some of the pranks pulled during the time he served as president of the Lions Club. One, in particular, struck me as being a dilly. At one of the meetings a waitress, as she was serving the food, all of a sudden jumped back and said in a shrill voice that could be heard by all... "Mr. Pierson, stop pinching me." It was kinda embarrassing at the time," Mr. Pierson said. Of course, prior to the meeting, some of the Lions had asked

the waitress to go along with the gag.

Here's what pops into my mind when I hear these local names... Jim Sampson, strong man, Samson of the Bible; Ben Charlie Chapman, Charlie Chaplin, the silent film comedy star; Garth Garrett, Garrett snuff; Alvin Sherman, "Sherman was right, war is hell"; Bill Holden, movie star, a Bill Holden; Bob Wheatley, a field of golden wheat; Don Muenzler, Frankenstein; Fred Boon, Daniel Boone; Trav Hadaway, "had a way, but wouldn't go."

You ain't seen nothing yet... if you have never witnessed a donkey ballgame... so better make plans now to head for the rodeo arena next Monday night, July 26, 8:00 o'clock. Ralph Godfrey, of Crescent, Okla., will bring his stubborn jackasses (not Jaycees) to Haskell Monday night for the Jaycee donkey ballgame.

Now listen, youse' guys and gals... this has got to stop! Last week I mentioned in this column that Gene Long had taken the Tiger out of his tank and dropped in a rabbit, for short hops... now along comes Mrs. Steele over at the Do-Nut Shop. She wants a tank dropped in her car's gas tank since she is going a Fur Piece.

Mark this on your calendar. Haskell County's Third Annual Hey-Day, Thursday, Friday and Saturday, August 5, 6, 7.

Thursday, August 5, at 8:00 p. m., Miss Hey-Day will be crowned at the Texas Theatre.

Friday, August 6, 8:00 p. m., Crowning of Little Miss Hey-Day at Rice Springs Park swimming pool.

Saturday, August 7, at 2:00 p. m., "tilt" at Rice Springs Park. Fun Festival: 2:00 p. m., Fiddlers' contest; 4:00 p. m., Fun Festival; 5:30 p. m., Bar-B-Que; 6:00 p. m., square dance; 7:30 p. m., special entertainment, featuring THE SCHOLARS—Recording group.

Rev. and Mrs. Wayne Blankenship and little son, Wayne Alan, spent last week here visiting her parents, Mr. and Mrs. Therman Rhoads and Carolyn. They had spent a part of their vacation in Artesia, New Mexico, visiting his relatives, before coming to Haskell. Carolyn returned home with them to spend this week.

Rev. Blankenship is pastoring the First Baptist Church in Rio Vista, Texas, while he is attending the Southwestern Baptist Theological Seminary in Fort Worth.

Duncan of Rochester and Mrs. Billie Neeley of Lubbock; nine grandchildren; one brother, P. B. of Big Spring; and three sisters, Mrs. Arthur Owens of Wichita Falls, Mrs. Barney Helton of Hereford and Mrs. Mary Ellen Less of Big Spring.

Last Rites Are Held For Mrs. Ben Bristow

Mrs. Ben (Zona A.) Bristow, 70, of Rule, died at 1:10 a. m. Monday in Stamford Memorial Hospital after an extended illness.

Funeral was held at 2:30 p. m. Tuesday in Sweet Home Baptist Church, Rule, with the Rev. Jack Key, pastor, and the Rev. W. T. Priddy, officiating. Burial was in Rule Cemetery under direction of Pinkard Funeral Home.

Born August 26, 1894, in Floydada, she had lived in Rule since 1910. She married Ben Bristow August 7, 1910.

Surviving are her husband; two sons, Etheridge and Donald Wayne, both of Amarillo; two daughters, Mrs. Arch McGinley of Glenwood Springs, Colo., and Mrs. Norman Cluck of Ackerley; six grandchildren; four great-grandchildren; and six sisters, Mrs. Nell McMillin of Anson, Mrs. Charlie Tribbey of Old Glory, Mrs. Jesse Day of Stamford, Mrs. Nolan Carroll of Amarillo, Mrs. W. TAX MAN SAM SEZ:

Planning for retirement is a popular subject nowadays. However, most folks fail to think of their tax problems as a part of their retirement plan. Our good tax folks point out that Congress has been very liberal in providing benefits for our retired taxpayers. You can save yourself several hundred dollars in taxes if you plan ahead.

It will pay you to get a copy of Document 5869, "Tax Benefits for Older Americans." Read it and get Internal Revenue to answer your questions. It takes planning to retire from paying taxes as well as retiring from working.

Julian said, "We sincerely urge all our members to attend, and we will welcome any others who are farmers or involved in agriculture related industries to hear this late report on farm legislation in Washington."

8 Rural County Traffic Mishaps During June

The Highway Patrol investigated eight rural traffic accidents in Haskell County during the month of June, according to Sgt. Frank Jirek, Patrol Supervisor of this area.

These wrecks accounted for three injuries and an estimated property damage in the amount of \$2,880.00.

The rural traffic accident summary in Haskell County for the first six months of 1965 shows a total of 36 crashes resulting in three persons killed, 26 persons injured, and an estimated property damage of \$38,500.00.

"As of the first of this month, there had been a total of 1,090 fatal crashes in Texas taking lives of 1,261 persons," the Sergeant stated. This is approximately two percent less than for the same period of 1964; however, if past trends continue, we will in all probability exceed the all-time record high of 3,006 persons killed in traffic crashes experienced in Texas last year.

Texas was fortunate over the 4th of July weekend in that the predicted number of persons were not killed, but we cannot brag, as 25 persons were killed over the holiday while in the rest of the nation we experienced a great increase over last year, and set a new all-time record for deaths over the 4th of July holiday just as we did the previous Memorial Day holiday. The veteran Patrol supervisor concluded that with the vacation season well underway more vehicles will be traveling streets and highways, and he called on all motorists to become more thoughtful in regard to complying with traffic laws in an effort to reduce the rising trend of traffic crashes.

PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

The Industrial Foundation, another tool for economic development

As a tool for economic development, the industrial foundation is a community-wide financial organization with the principal objective of creating additional pay-rolls.

Today, it is considered essential for the community that is working to increase and broaden its economic base through diversified industrial growth to have an active industrial foundation. Varying widely from community to community, its basic functions are —

- Development of industrial sites
- Construction of plants for lease or sale
- Cooperating with other financial institutions
- Furnishing management counseling
- Assisting personnel training

As a PATTERN FOR PROGRESS, the industrial foundation works with existing industries as well as prospective new industries.

WTU's area development representatives have information about the establishment of industrial foundations. These facts are available to growth-conscious communities on request through your local WTU manager.

WTU area development representatives are available to assist growth-conscious communities in planning economic development programs
