A Duty of The Business Community

The shortage of talented young people taking up careers in business can become "crucial not only to individual companies, but also to the economy and the nation. At best, shortages of business talent can only impede efforts to maintain and raise still higher the standards of living in this country."

The words are those of President Frank N. Kard of the American Petroleum Institute. And he implemented them by describing the experience of his own industry. Oil offers practically unlimited challenges, benefits and opportunities. It ranks above average on starting salaries and provides a wide range of opportunities for advancement. It is a stable and growing industry, and advances in the field of research are opening a treasure chest of new uses for oil.

Despite all this, during 1963-'64, the petroleum and allied products industries were able to recruit only 68 per cent of their estimated requirements for technical personnel. And from 1958 to 1964, college enrollments in petroleum engineering declined 77 per cent.

Wherein lies the trouble? Mr. Kard believes that much more needs to be done by members of the industry to show young people, through personal contact, how rewarding a career in petroleum can be. Any young person's career decision should be based on reliable information. One of the business community's important and permanent duties is to provide that information... and it is as certain as anything can be that young people in great numbers will listen attentively.

Life Of A Free Society

Winston Churchill's great wartime speeches, especially those made in the years when Britain was going it alone, and the situation was desperate, are an imperishable part of history. But he could speak eloquently on very different matters as well... including the destructive forces that are a part of a socialized, dictatorial state.

He once said: "I do not believe in the capacity of the state to plan and enforce an active high-grade economic productivity upon its members or subjects. No matter how numerous are the committees they set up, or the ever growing hordes of officials they employ, or the severity of the punishments they inflict or threaten, they cannot approach the high level of internal economic production which, under free enterprise, personal initiative, competitive selection, the profit motive corrected by failure and the infinite processes of good housekeeping and personal ingenuity, constitute the life of a free society."

It can be added that all freedoms are inseparably related, including economic freedom. When we undermine one, we endanger all the rest.

Friends Worth Knowing

National Library Week begins April 25. Its purpose is: "To encourage lifetime reading habits and increase people's use of libraries."

Greater use of our libraries is a goal worthy of the heartiest and most widespread support. Each of us should consider it a personal goal and one to be imparted to our children. The future will belong to those who possess the hard won prize of knowledge.

Libraries have been established to serve practically every community as a result of individual philanthropy; as part of the facilities provided by local government bodies; or in connection with school systems, colleges or universities. In our libraries on the pages of books and on microfilm and recordings, can be found the sum total of information and wisdom which the human race has been able to accumulate since the dawn of recorded history.

A friend is one who gives a helping hand when it is needed, and on this basis, our libraries hold friends of incomparable worth. They wait to lend us the wisdom of ancient philosophers that we may apply it with proper consideration in our own lives. They can unfold to us the healing arts of modern medicine; the wonders of space; the esoteric realms of physics, electronics, and mathematics. And on problems of everyday life, they have useful and good advice to give us on practically any situation that we face. These friends are the books on our library shelves. Let's get to know them better.

MIKE'S MUMBLINGS

By MIKE CAMPBELL

The recent shot to the moon was right on the target, and the close-up photographs taken of the surface of the planet were quite revealing—the best so far. Presently, there is another rocket on its way to the planet Mars, and it is due to make contact with that red star in July.

The scientists probably will leave the planet Pluto off their list, as it is 39.5 times farther from the sun than the earth. It travels approximately three miles per second, and it takes it 248 years to complete its orbit.

Apparently there cannot be an end of space. It is too vast to even try to comprehend.

I have noticed about half of the movies to be shown on the screen are labeled "adult viewing." Does that mean they are too technical for children to understand—or too immoral?

Haskell County History

30 YEARS AGO

(April 4, 1935)

A new cash grocery will be opened by R. V. Robertson on the west side of the square in the building formerly occupied by the W. A. Holt Red & White Store, just as soon as the building can be arranged and fixtures installed.

Showing scant interest, a majority of Haskell's qualified voters remained away from the polls Tuesday and as a result only 192 votes were cast in comparison with over 900 in 1934. Roy A. Sanders, Ed F. Fouts and Anton Theis led the ticket for three vacant positions out of a field of six aspirants.

Only 11,932 bales of cotton were ginned in Haskell from the 1934 crop compared with 55,367 bales in 1933, according to W. P. Trice, of Haskell, special agent for the Bureau of Census of the Department of Agriculture. The 1934 crop was the shortest that has been harvested in the county during the past 15 years.

The following marriage licenses were issued by Jason W. Smith, County Clerk, during the month of March: W. L. Hood and Mrs. Alma Hood; Victor Mendez and Miss Gova Diaz; H. J. Parker and Mrs. Opal Woodward; Marvin T. Warren and Miss B. Adkins; Pragedes Salenas and Miss Jesusa Valencia; Oran C. Benson and Miss Vera Waldrop; J. P. Beckham and Mrs. Ada Davis; George

cries of the sea gulls as they followed the sail boats into the harbor. As I rose to a sitting position, I heard a noise behind me; I turned and beheld, what I thought, was the most forlorn-looking creature that I had ever seen. It was a black and tan pot-licker hound, and he was patting the straw with his tail. I could easily see that he was a veteran of the chase as his face was scarred and his ears were nicked. As he sat there and gazed at me with his sad, brown eyes, I could also see that he, too, was lonely. The old dog walked beside me until we reached the L.&N. railroad park, and there we parted.

(April 3, 1925)

A \$50,000.00 Memorial Hospital was left to the city of Haskell by Mrs. Kate F. Morton, who died on March 10th, according to her will filed for probate in County Court March 25. The Hospital is to be erected in memory of her husband, Francis Marion Morton, who died about 18 months ago.

Mrs. C. V. Payne and Miss Mary Long have been chosen to represent Haskell and act as her sponsors at the coming West Texas Chamber of Commerce Convention to be held at Mineral Wells May 4, 5 and 6.

The merchants of Haskell have arranged to have running horse races at the Fair Park next Monday (Trades Day). The races will start promptly at 2:30 p. m. and the gate receipts, less some little expense, will be entirely divided among the winners. Many real good horses have been entered.

Last Friday, March 27, the County Meet convened at Haskell High School and the following boys and girls together with their schools are the winners: Girls Debate, Thelma Williams and Johnnye Morgan, Haskell; Boys Debate, team from Rochester; Junior Girls Declaration, independent school, Bessie Bee Kaigler, Haskell; Junior Girl declaration, rural, Ada Giddings, Post School; Junior Boys Independent, Jerry Westmoreland, Rule; Junior Boys, rural, Woodrow Adcock, Post School;

CREATORS OF CHEMICALS FOR MODERN AGRICULTURE

News from Weinert . . .

By Mrs. O. W. Vaughn (Substituting for Mrs. Mildred Guess)

We, as Betty Edward's teachers, are extremely proud of her. Winning in spelling is not new to Betty, for she won this contest in the Interscholastic League during her fifth and sixth grade years. She again will represent Weinert in spelling as well as in number sense and ready writing. Mrs. Yearly, her fifth and sixth grade teacher, remarked once that Betty said she wished her teachers would tell her just how much to study, for she never knew when to stop studying. She is a very deserving student and her perseverance and hard work paid off Saturday in Wichita Falls. Mr. and Mrs. Fred Schlee, Mrs. J. A. Ford, Bonnie Killgore, all of Fort Worth, were visiting Mr. Bruce Ford and friends in Weinert Sunday. Seems as though spring is with us. After this nice shower of rain, we are living in a world of green. Old men with fishing poles and old women digging in the flower beds. After all, it is a world worth living in. Mr. and Mrs. Woody Turnbow and children were weekend visitors of her parents, Mr. and Mrs. George Gray. The Turnbows are from Wichita Falls. Mrs. Nanny Robinson entered Knox City Hospital last Wednesday suffering from pneumonia. She is the mother of Mrs. Lenord Alexander. Mr. and Mrs. Clifton Vaughn and Ronnie, of Abilene, visited his parents, Mr. and Mrs. O. W. Vaughn, Tuesday of last week. Mrs. Laura Luckett, of Comanche, Okla., visited in the home of her nephew, Mr. and Mrs. John Hawkins and family from Thursday through Monday and attended church at First Baptist Sunday morning. Visitors in the home of Mr. and Mrs. C. V. Ashley over the weekend were her sister, Mrs. Pearl Self, his sister, Mrs. Eva Lott and her daughter, Mrs. Earnestine Williams, all of Rule and nephew Danny Ray Williams, Fort Worth. Mr. and Mrs. L. D. Vaughn, Elaine and Jerry, of Anson, were Sunday dinner guests of Mr. and Mrs. Leon Newton and children. They also visited her mother, Mrs. F. A. Driggers, and his parents, the O. W. Vaughns. Mr. and Mrs. Buster Tanner, San Angelo, visited his mother, Mrs. W. A. Tanner, Tuesday and Wednesday of last week. Those attending the annual Ginners Convention Sunday thru Wednesday at Dallas were Mr. and Mrs. Buck Turnbow and

Earnest McGuire. Mrs. Johnnie Turner and children of Holliday visited Mrs. A. J. Sanders last Saturday. Mrs. R. S. Sanders entertained nine girls Saturday night, April 3, with a slumber party honoring her daughter, Janice, on her 14th birthday. Those attending were Annie Dunnam, Judy Therwanger, Doris Mae Davis, Kathy Grimes, Donna Adams, Betty Edwards. The singing at the Church of Christ was well attended Sunday evening. There were 10 different congregations represented. Members of First Baptist Church surprised Rev. and Mrs. Anderson and R. W. with an oldtime "pounding" after Sunday night preaching service. Mrs. Frank Garrett, Mrs. Don Elliot, of Abilene and Mrs. Ronnie Kerrington, visited their mother-in-law and grandmother, Mrs. C. L. Garrett, Friday evening. They had attended the funeral of Mrs. Gaither at Monday. Visitors in the home of Mr. and Mrs. Thurman Stout were her sister, Mrs. Jessie Couch of Arlington, and her mother, Mrs. J. D. Turnbow, of Haskell. Mr. and Mrs. Thurman Stout's daughter, Grenetta, took her civil service exam for secretaries at Draughon's Business College in Abilene, and has passed her exam. Mr. and Mrs. Wallace Boone visited Mr. and Mrs. Tom Parrott, Tommie and Bryon, in Throckmorton. Rev. and Mrs. Roy Herrick were in Haskell for a Fellowship meeting Monday, April 5, at the Foursquare Church. Mr. and Mrs. R. W. The Good Earth

by **MRS. R. F. COBB**
Mrs. R. C. Couch has really taken pride in her house plants this year. They add a little beauty of the outdoors to the house. Mr. Couch doesn't feel quite so shut-in, as he recovers from a recent illness, when the flowers bloom inside.

Both Hassie and Carlton have enjoyed the large dark red amaryllis, with a maroon throat. Four huge blossoms afforded two weeks of interest for the couple.

A purple-edged calla lily added a different but pleasing scene to the entrance hall. The leaf-like tract of light green was edged in purple. The throat was maroon.

Purple-edged callas are native of the Holy Land. A passion vine (passiflora) twines itself up a trellis in the entrance hall. Hassie brought seed from Hawaii. It offers many hours of pleasure by checking its growth from day to day and watching for buds to form. Mrs. Couch has pot plants in most every downstairs room. Her interest does not stop with pot plants. A garden just spaded

up, and as soon as spring really arrives, Hassie will find many moments of pleasure outdoors.

Mrs. Ed Fouts plans on planting some new and exotic flowers this spring. Last year, Mrs. Fouts (Bess) grew some of the largest coxcomb (celosia) I've ever seen. The maroon and pink crests of coxcombs blended into a background of ornamental peppers of most every hue. This year, many new plants will be added to the Fouts place. New plants offer a real venture in gardening. We never know if a new flower will adapt to this climate unless we try it out.

Bess enjoys coxcomb the year around, arrangements of this flower grace nearly every room of the Couch home.

Mrs. Ed Hester added red yucca this year to her already

beautifully landscaped yard. Mrs. Hester (Juanita) takes great pride in her bluebonnet patch. Her iris are a great attraction for passersby. Juanita also enjoys her flowers the year around. Arrangements of dried blossoms from the garden, add color throughout the Hester house.

The Hesters are fortunate to have a basement built with shelves, to accommodate Juanita's ever-growing collection of driftwood and dried materials. Tensions relax when one works with dried flowers during winter months.

These three ladies are members of the Haskell Garden Club, and have gained great knowledge through sharing interests with other members. The club is constantly enriching the "Good Earth" by plant-

ing trees, shrubs and flowers. I just talked to Hassie Couch. Her purple edged calla is putting on two new blossoms. The buds came as a total surprise. Hassie thought the plant had finished blooming. Her white grape hyacinths are blooming. They are natives of the Holy Land.

Haskell's One-Act Play Wins First Place In Recent 5-AA Competition

By JUDY ANDERSON

On March 31, the Haskell 1-Act Cast entered competition with six other schools from district 5AA. After a reception, where the judge, Mr. Martin Landers, director of drama of Howard County Junior College, met each director, the plays began at four o'clock. The curtain raised first on "Sunday Coats Five Pesos," presented by Hamlin, Winters High School next presented "When the Fire Dies." The lights next went up on "Mooncalf Mugford." Following them, Stamford High came on with "Summons of Sarcel." Haskell High then stepped into the spotlight presenting "Cradle Song," Colorado City presented "The High School." The last play was "The Death of the Hired Man," presented by Anson High.

The plays were over. No greater feelings of anxiety have been felt at the Emmy Awards and Oscar Awards than was felt in Colorado City High School auditorium.

The best actress award was presented to Miss Millie Holden, and Eddie Hester received the best-supporting actor award. Others receiving awards were Calvin Gervin of Colorado City, best actor, and Judy Wood, of Colorado City, best supporting actress.

The judge, Mr. Landers told the schools that he had rated each play with good, excellent, or superior. During the critique he told the casts that he had given Haskell a superior rating, not only because of the acting but also because of the mechanics, setting and costumes.

The triumphant members of the play cast were Linda Sampson, Shirley Larned, Diane Hester, Glinda Long, Judy Anderson, Millie Holden, Dennis Rueffer and Eddie Hester. With the direction of Mrs. Diggins, the cast is now eagerly anticipating a place in Regional Competition which will be held in Lubbock on April 22-23.

The Haskell One-Act Play is certainly creating a legend. For the third year in a row, Mrs. Kathleen Diggins has led her cast to the top honors in district competition. Mrs. Diggins has entered her cast 10 times and received top honors eight of these times in District, and once to the State Meet. Last year the cast placed second in Regional—the play placing first, won the State meet.

There's only one thing you should buy with your eyes closed

That's a Beautyrest mattress.
All mattresses look alike . . . same size and shape. They all promise a better night's rest. Confused! Take our advice. Close your eyes and lie down on any other mattress . . . then on a new Beautyrest by Simmons.
M-m-m-m.
Immediately, you know Beautyrest is different. It's a difference you can't see, but oh—can it be felt. It seems to soothe every tired muscle. It gives just where it should—supports where it should. You sort of float in perfect body-fitting comfort.
(Now open your eyes) . . . Here's why Beautyrest gives the best rest a body ever had.

ORDINARY MATTRESS

BEAUTYREST

Ordinary mattresses have about 300 wired-together springs that sag down together under weight. Push one down and the others sag down too. Beautyrest is different. Over 800 springs are not wired together. They are separate— independent. Push one down and the others aren't affected.

Since independent Beautyrest springs are separate and independent each adjust to your weight and gives firm, body-fitting comfort. No sag—no curved spine. In a Beautyrest double bed there are "His" springs and "Her" springs—those in between are not affected. Result. Single bed comfort in a double bed. No sag—no rolling together. Another comforting thought. Beautyrest lasts longer—outlasts other mattresses by 3 to 1 according to rigid tests by the Nationwide Consumer Testing Institute. Costs only a penny more per night than so called "Bargains" too.

Come in and make an "eyes-closed" Beautyrest test . . . Just lie down on it. After that you won't be satisfied with other mattresses.

Beautyrest, standard sizes, twin or double . . . \$79.50
Beautyrest, Queen Size (20% more sleeping space) . . . \$199.50 per set
Beautyrest, King Size (54% more sleeping space) . . . \$299.50 per set

B. F. Basing, owner-operator of Basing Jewelry, was in Abilene recently, and just as he was leaving the "Key City" to return home, found a billfold containing \$35.00 and other valuable papers. When he arrived home, he examined the billfold and found the owner to be C. A. Burgess, so he telephoned the Abilene man and told him he had found the billfold and would mail it to him. Burgess told Basing to take out \$6.00 for his reward. Basing refused the reward, and used his own money to mail the billfold back to Abilene. A few days later,

Mr. Burgess wrote Benny the following letter of appreciation: "Mr. B. F. Basing: "I'll give a brief history of the billfold incident. First, 20 of the dollars were not mine, but was money collected for another party. Ten of the other dollars I had just collected on my way to Sears where I had left our T.V. for repairs. "Later when I had gone by a rest home, and then to the hospital to visit a friend and finally to a service station to get gas, then is when I missed the billfold. "It was a rather gloomy picture for my wife and me. A month before we had let go our own rest home. With my wife's 11 days in the hospital... no work in sight... and then had lost \$20 belonging to someone else. My wife offered a little prayer, saying: 'God, please do help the person who found the money to return it.' "In less than an hour your long distance call came. The prayer was answered, the \$20 was returned. This morning in my mail box was the billfold with everything intact. So thanks a million, respectfully, C. A. Burgess."

Kind of a touching story... isn't it? Picking up the mail at the postoffice last Thursday morning, Mrs. James F. Cadenhead handed me this little item: Some little boys are like wheelbarrows—no good unless pushed. Some are like canoes... they need to be paddled. Some are like kites... without a string, they fly away. Some are like kittens... they are most contented when petted. Some are like footballs... no telling where they'll bounce next. Some are like balloons... they'll explode if not properly handled. But most are like gems... they glow better every day.

Readers have probably heard the expression, "A funny thing happened to me on the way to the office... or a rummy thing happened to me on the way home"... but a funny thing did happen when Mrs. Cadenhead opened her purse to give me the above mentioned clipping, out rolled a handful of pennies, nickels and dimes. This scribe and Mrs. Cadenhead were bending over picking up the coins when in came Mrs. Roy Johnson, Mrs. Frank (Lola) Scott and Myron Biard... and they accused of Prattle and Mrs. Cadenhead of "shootin' dice."

Western Auto Mogul Allen Rieves is responsible for this one... about a couple of merchants, Ervin and Mervin: Ervin met Mervin on the street one day and asked Mervin, "How was business?"... to which Mervin replied, "Oh, hadn't you heard, I was wiped out by a flood." Ervin pondered a little while then said: "Mervin, how do you start a good flood?"

My sincere thanks to Highway Patrolmen, Jesse Priest, Frank Jirek, Jim Terrell; Sheriff Garth Garrett, Pete Meerer, W. L. Henry; Constable Ace Davis and City Police Chief Tom Paul Barnett for their fine cooperation in helping Prattle get the facts on the head-on crash south of town last Thursday.

Prattle had a "doozy" of a toothache a few days ago and I sent our girl, Friday, Saturday, Sunday, Monday, Tuesday, Wednesday and Thursday, Patience Phelps over to M&F Pharmacy to pick up some medicine to put on the tooth. Don (Skunk) Moenager, sent back word that he hoped my tooth would give me a fit all day long. It did!

I urge readers of the Free Press to turn to Mike Campbell's Mumbings column found elsewhere in the paper. Mike's reminiscing about his stroll on the beach is just beautiful. To enjoy it fully, you must read it... it is tops in my books, well-written and heart-warming.

Last Thursday night this scribe saw a re-run on TV, and got to thinking, if they begin showing re-runs this early in the year, by mid-summer, we will be viewing re-runs of reruns.

New Activity Of Rotary Foundation Is Announced

Tom Barfield, of Haskell, is chairman of a committee, for Rotary District 579, a new activity of The Rotary Foundation.

"Group Study Exchange," program, sponsored by Rotarians world-wide. Group Study Exchange, opens an exciting and challenging new avenue for the promotion of better understanding and relations among the world's people. The program provides awards for an exchange of groups of young business and professional men between paired districts in different countries for two-month study periods.

"Young business and professional men visiting another country under the Rotary sponsorship can do much to further international understanding. They will bring personal knowledge of their own country to the thousands they meet while abroad," Barfield said.

There are 40 clubs in this district, which covers an area from Brownwood to Childress and Gainesville to Rule.

Six persons may be selected from this district, Barfield said. The deadline for making selections is April 30th.
