## Indians To Go Bobcat Hunting Friday Night

Tomorrow night, Friday, September 9, the fighting Haskell Indians will hit the road to Childress to meet the Bobcats at Fair Park Stadium at 8:00 o'clock.

Probable starting lineup for the Indians will be Tim Everett at QB, Thornton Gilmore at RH, Johnny Jossel at LH, Kenneth Felker at FB. The line will be led by Paul Hiebert at Center, Darrel Davis at LT, Ray Herren at RE, Glen Smart at LG, Patrick Pace at RG, James Wall at RT and Stanley Fancher at LE.

It will be the season opener for both teams and there will be a few mistakes, but both clubs are capable of giving the fans a very fine ball game.

Head Coach Sonny Everett of the Indians said that both teams are in the physical shape that is expected so there should be less injuries and a much snappier and hustling game. Also Coach Everett pointed out that the main weakness in this year's team is lack of depth.

Childress has eight offensive and seven defensive regulars and a new coach, Johnny Craig. He is looking for linemen Ben Walker, Elton Shires, Don Martin and backs, Ike Hughes, Larry Moore and Ronnie Sims to help make this season better than last year's 1-9. Haskell, coming back with six offensive and seven defensive regulars, had a 6-4 season.

## Month of August Record Breaker Moisture-Wise

"Each director of the Fair committee will have tickets in their community and town divided among the merchants. In Haskell tickets will be distributed among the merchants, and those persons desiring tickets should purchase them in plenty of time in order that Bob Beauchamp, chairman, will know in advance just how much Bar-B-Q to prepare. Ticket sales will close two or three days prior to September 24," Franklin said.

## Commercial Exhibits

Mrs. Byron Frazier, finance chairman, has started selling space for commercial exhibits at the Fair.

"If you are interested in setting up an exhibit, contact Mrs. Frazier, as the Fair committee needs these commercial exhibits as they help defray expenses for the ribbons, etc. The Haskell Jaycees do not receive any money from the exhibits of the Fair activity," Franklin pointed out.

Money raised from the carnival rides, concession stands and carnival booths will go to the Jaycees which in turn will use their profits for the scholarship fund.

### Haskell County History

**30 YEARS AGO**  
 (September 3, 1938)  
 Twenty-two persons were "checked in" at the county jail during the month of August, records in the sheriff's office reveal.

Prospective members of the 1936 Haskell Indians have been getting a foretaste of what to expect on the gridiron in the way of punishment to muscles and endurance during the past few days, with Coach Bill Richey directing intensive workouts daily.

Despite the blasting effects of an August drought on crop prospects throughout this section, building activity and remodeling of many residences has proceeded at a rapid pace in the city.

A. F. Thurman, former mayor of Haskell and minister of the Church of Christ who recently moved with his family to Bowie, has taken over the management of one of the leading hotels in that city. Mr. Thurman, who came to Haskell from Chillicothe in 1933 as minister of the Church of Christ, was a leader in civic affairs during his residence here and was elected mayor of Haskell in 1934, serving one term.

Dr. and Mrs. O. M. Guest returned Wednesday from Dallas, where they attended the 56th annual meeting of the Texas State Dental Association held in that city. Dr. and Mrs. Guest also visited the Centennial while in Dallas.

Sheriff and Mrs. Giles Kemp and children left Sunday for Dallas, where they will spend several days with relatives and friends.

J. H. Kinney returned Wednesday afternoon from Dallas, where he had gone to return an ambulance and funeral coach which had been left in that city for repairs to body and fenders. The practically new ambulance was damaged when struck by an out-of-state car between Dallas and Fort Worth as Mr. Kinney was returning from Arkansas where he had conveyed a body for burial.

**40 YEARS AGO**  
 (September 2, 1928)  
 Haskell Public Schools will open the 1928-29 term Monday, September 13th, with prospects for the best session in the history of the school system.

The Haskell Fair Directors and the Haskell Brass Band, together with citizens and businessmen have planned to make a number of rural communities in the interest of the coming Fair.

The former home of Judge A. J. Smith on Main Street near the high school building is being torn down. Roy Putman of Anson has the work in charge under the supervision of Gilbert Smith. Plans are made to build two modern stucco Spanish type buildings on the old home site.

These new residences will have six rooms and will be up to the minute in every respect. Work will begin on the new residences as soon as the old home can be torn down.

Publicity experts who have had experience with Fairs, visit Fairs over West Texas each season, and who know what a real fair is, or should be, visited Haskell last week while passing through from fair conference elsewhere and classed the Haskell County Fair, Ballinger, as the best county fairs in Texas. This ought to make Haskell County folks feel mighty proud of their County Fair.

Mrs. F. L. Daugherty was hostess last Tuesday afternoon to the Thursday Luncheon Club, initiating her beautiful new home. The usual custom of this club is to spend the day, but only the afternoon was spent on this occasion, when "42" was the diversion. A two-course luncheon was served those present, a salad and an ice cream course. Substitutes present for out-of-town members were: Mmes. Carlton Couch and O. E. Oates, the hostess' daughter, Miss Ermine Daugherty, helped her mother in entertaining and serving her guests. Club members present were: Mmes. O. E. Patterson, M. B. Lebo, Elmer Irwin, H. S. Wilson, M. B. Whitaker, T. J. Arbuckle and the hostess.

**60 YEARS AGO**  
 (September 8, 1906)  
 Mr. H. O. Schulz, a lawyer, late of Brenham, has located in Haskell. He comes well recommended as a gentleman and young lawyer of ability.

School will begin Monday, September 10, with a six weeks private term. All pupils who expect to attend will please report at the school building between 8:40 and 9:00 o'clock Monday morning. The terms will be reasonable and it is hoped that all the patrons of the school will send their children the first day in order that no time be lost and the pupils have the full satisfactory progress. There will be an opening exercise in the auditorium and all parents and friends are cordially invited to be present. F. L. Morrow, Superintendent.

Mr. W. D. Garren, a farmer of some 12 or 15 years experience in the southwestern portion of the county, was in town Wednesday and speaking of the condition of cotton, said that the bollworms had done considerable damage in his section, but there would be lots of cotton made.

Company has on exhibition at their office several heads of broomcorn 34 inches in length, which was grown by Mr. G. E. Courtney this year on his farm a few miles northeast of town. Mr. Courtney is raising broomcorn and manufacturing it into brooms. His brooms find a ready market in Haskell and surrounding towns.

22 acres of land for sale, 7 miles N. E. Haskell, 30 acres in cultivation, fine tank of water, \$16.00 per acre, half cash, balance on terms to suit purchaser, G. M. Clayton.

Misses Mamie and Ira Draper entertained quite a large party of their young friends on Wednesday night at their home a mile west of town.

Mr. R. A. Brown and Mrs. Mary E. Kegans were married on Monday, Squire J. T. Knowles officiated. Mr. Brown is section boss on the Wichita Valley Railroad, Haskell.

**RETURN HOME**

## School Time Means Time For

When the children start off to school, it's prime time to join the PTA.

And in this school year, PTA's throughout the country are moving forward on programs that seek to involve all parents—and other adults interested in children's welfare—in ever better education, health and opportunity for all children.

"Never in its history has the PTA been more necessary to the well-being of children and our nation," says Mrs. Jennelle Moorhead, of Eugene, Ore., National PTA president. "Never have we had so rich an opportunity to move the nation to great decisions, for ideas that the PTA has promoted for years have come into their own."

Its goal of making preschool education available to all children, for example, is winning broad acceptance. Increasingly, too, educators realize the importance of involving parents in their children's education, something long advocated by the PTA.

This year, the PTA plans to experiment with new methods of reaching the non-participating parents—the working mother, the parent-without-partner, the residents of urban slums or depressed rural areas. New programs, too, will deal with children's health, safety and education.

It's off to school for Jeanette and Michael Ryan—they're first and second graders at Nettelhorst School in Chicago—and back to the PTA for Mrs. Robert W. Ryan, like millions of other Americans, a participant in PTA programs for children. Their message: It's Prime Time To Join!

One such project, undertaken in cooperation with the U. S. Public Health Service, will attempt to discourage 7th and 8th graders from starting to smoke cigarettes.

On other subjects, as well, the PTA has a full schedule of "critical issues" ripe for action. Membership in the PTA, of course, is open to any parent or teacher or school administrator

—indeed, to all who are interested in children and willing to uphold the Objects of the PTA. Membership dues vary among local units and state branches of the National PTA, but only ten cents of each membership fee goes to the National Office, in Chicago, for maintaining the organization and providing the services that enable PTA's to function effectively and serve

children best. The PTA Magazine publication of the series of articles, school education, community service to foster "better living."

"Your Own PTA Start" is one school series of interest to parents of young children. It includes common blocks to elementary school and discussion in another experts will also in Magazine readers areas of sex education, age drinking and

For every parent, head emphasized, an ideal assignment with men and women your concern for youth, to plan and projects, to enjoy the teaching of young family, to take pride in an organization, renown and international.

Membership continues throughout the year. But for parents to accomplish the for their children, school time is "prime time" to join the PTA.

### A FAMILY PROBLEM

Comparing a family budget to federal spending policies sheds much light on current economic conditions in the United States. A family that is living beyond its income and in debt up to its eyes should seek ways to cut its spending to the bone. The head of the family should work to encourage economy by incentive measure; the mother should contribute by trimming the family budget; luxury purchases should be frowned upon.

Government is simply a collective family. There is one great difference. Government has the power to take money from its citizens by taxation and inflation-producing deficit spending. In this manner, it can survive living beyond its means for long periods. But the ultimate end for a family or a government, if thrift is not encouraged, is trouble.

It is time to apply the brakes to free-wheeling spending by government. It is also time for the individual family to curb its demands for gifts and toys from the government.

### Governor Connally Designates Sept. 18-24 As Highway Week In Texas

Gov. John Connally recently designated September 18-24 as Highway Week in Texas. He asked Texans to give serious thought to "the blessings and benefits derived from good highways and a Highway Department with vision."

The Governor called attention to the theme of Highway Week, "Better Highways Save Lives...Time...Money." He said the purpose of the observance was to remind the citizens of Texas of the value of highways today and the importance of even better highways in the future.

"One of our state's most impressive achievements is the 67,000-mile Texas highway system, a system second to none," Gov. Connally said.

He said history has shown that highways pump business, industry, tourism, jobs—and hence prosperity—into a community and, indeed, the whole state.

"The need for good—and better—highways will increase in future decades of unprecedented growth and economic development," he said, adding that "if we are to have a system to match that promise, we must plan now."

Gov. Connally said future demands on Texas' outstanding highway system will be enormous. "The task ahead is clear-cut. Destiny won't wait. We must meet the challenge of the future," he said.

In Texas, Highway Week is sponsored by the Texas Good Roads Association, a citizen movement dedicated to better highway transportation for all Texans.

# WHY PLAY FOOTBALL?

erative action.  
Competition begins with birth and continues unceasingly in every facet of life. Competition is natural and normal. You compete against yourself and against others for his position on the team. Secondly, he will compete against other sons from other schools.

Your son will learn the meaning and value of competition on the practice and the game fields.

If an executive or leader were asked what he wanted most from one of his employees or followers, he would undoubtedly select loyalty. Loyalty goes with teamwork. You will not have one without the other.

Self-discipline is not difficult to master. Sacrifice for a cause or a reason to give up one thing to gain another, is the beginning. Most athletes realize that to reach a goal they must deprive themselves of pleasures to obtain it. This is wonderful training that is necessarily found in football more than in any other sport.

The danger of serious injury is extremely remote. Actually, there is more potential for serious injury to students in automobile and industrial accidents than there is in football.

We have the best equipment available for your son's protection. I personally am a stickler for conditioning and can assure you that your son will be in top physical condition for every game. However, in order to obtain this, he will be required to work hard and long on the practice field. He comes home dead tired at times. But isn't this better than having him riding around in hot-rods or hanging around in gangs all hours of the night?

We coaches sincerely feel that your son's contribution to the football squad will be far overshadowed by the football team's contribution to your son.

The kiddoes usually have two or three weeks of hot weather when school first starts but these first three weeks have been most pleasant. We may have some hot weather for the rest of this month, but nobody could complain about this past month.

The crops are green, the cotton is loaded with bolls, and the Johnson grass and Careless weeds are healthy as can be, and growing by leaps and bounds. If it ever does get dry enough to get into the fields, our farmers have quite a job cut-out for them.

## Mary Sunday School Class Hold Meeting

The Mary Sunday School Class met in the Chapel of the First Baptist Church, Thursday, September 1, at 3:00 p. m., for their business and social session in their last monthly meeting for the church year.

Mrs. Addie Middleton and Mrs. S. G. Cobb were hostesses for the afternoon and were assisted by Mrs. Wint Adkins. Mrs. John McMillin presided over the meeting.

Mrs. Etta Moore was the speaker of the afternoon. She brought a very inspiring devotional from the 5th chapter of St. Matthew, verses 3 through 10, using as her theme, "Message of the Beatitudes." In her words, "Jesus spoke of happiness in the Beatitudes as a poem of deeper insight. Jesus knew by itself it was unattainable, it can be found wholly as a by-product. If we follow God's goal in life, loving Him with all our heart, mind, soul and strength and our neighbors as ourselves, happiness will flow around us as an aroma from some sweet flower... happiness will suffice. Peace of mind, freedom from fear, happiness will not be found on any road but God's road. This is the message of the Beatitudes." She concluded by reading two short poems, "Prayer for Peace," and "Forgiveness" and a prayer.

Mrs. Charley Quattlebaum opened the business session by reading the minutes. She also read the reports of Mrs. Howard Reding, group leader and Mrs. D. A. Jones, flower and card chairman.

Group leaders, Addie Middleton and Ally Ford gave good reports. Mrs. Jim Fouts reported on the good attendance and work of the class all through the year. Mrs. Arthur Edwards closed the hour with a prayer.

The group retired to the kitchen and the hostesses served frosted Fresca to Mrs. Jim Fouts, John McWilliams, Cobb, Charley Quattlebaum, Wint Adkins, Ally Ford, Addie Middleton, Walter Rogers, Arthur Edwards and Etta Moore.

# The Good Earth

by MRS. H. F. COBB

Mr. and Mrs. Horace Woodard derive many hours of relaxing pleasure by working in their yard.

Mr. Woodard is a very busy man. Not only is he mayor of Haskell, but he is busy running his Farm Sales business. When he comes home tense from a heavy day's work, he finds relaxing therapy by working in his garden.

Mrs. Woodard (Dorothy) one of our local elementary school teachers, also finds it very relaxing, after a trying day, to putter around in the yard.

The Woodards have two very charming daughters, Rita and Rhonda, who enjoy the beauty of the flower garden, but are not nearly as enthusiastic about the vegetable garden, especially at pea-shelling time.

The small pea patch has afforded the Woodards all they need for their deep freeze. Their tomatoes not only yield enough for the family, but supply many friends with this delicious vegetable.

A row of pecan trees march across the deep front lawn offering shade from the western sun. A Blue Haven spruce tree guards the northeast corner of the yard.

Mojave roses, pink double ruffled petunias, marigolds, Euponymus, Japonica and tiny, low-growing hedge plants grace each side of a long planter box filled with gold spot Euponymus.

A long row of dark green Euponymus hedge winds down the driveway on the north and gives privacy to the yard. At the end of the hedge stands a rose gar-

den of circus war dance Tropicana, American Beauty and Red Radiance against a background of red Blaze roses.

The foliage on the roses is so dark green it almost appears black. Dorothy diligently works sulphur into the soil. Only on occasion is black spot seen and no mildew is present. Dorothy says she is a great believer in the use of sulphur as a preventative for black spot and mildew.

Arborvitae screen the backyard from the vegetable garden. A row of daisies dance at the feet of the arborvitae. A dark green carpet forms a deep green carpet over the whole place.

A row of fruitless mulberries with dark green, waxy split leaves offer shade for the back yard. Redbud, peach, plum and pecan trees are scattered at random throughout the back yard.

A half circle patio ringed with a lovely brick planter, filled with pink petunias makes a pleasant picture from their dining room den windows.

Mr. Woodard cut back a double pink petunia late last fall and it bloomed profusely all this season and is still covered with blossoms.

Haskell is fortunate to have such a talented and busy family as the Woodards.

Don't forget to enter in the Haskell Show Case of the Haskell Garden Club at the County Fair, September 22, 23 and 24.

## FACTS ABOUT MEDICARE

Q—Does medicare cover the cost of a stay in a psychiatric or tuberculosis hospital?

A—Yes; it covers care in a psychiatric or tuberculosis hospital for up to 90 days in each spell of sickness, with the same \$40 deductible and payment of \$10 a day for each day past 60 days of hospitalization. There is, however, a lifetime maximum of 190 days of covered care in a psychiatric hospital. For care in psychiatric or tuberculosis hospitals to be covered, it must include active treatment to cure or improve the condition.

Q—How many days of post-hospital extended care in a skilled nursing home will be covered beginning next January?

A—Up to 100 days for each spell of illness. The cost of the first 20 days extended care is covered in full. For each day past 20, the patient pays \$3 a

day toward the bill. The post-hospital skilled nursing home care will be covered only upon transfer from a hospital after a hospital stay of at least three days.

Q—Suppose while in an extended care facility, I developed a second illness in addition to the one I had when transferred from the hospital; would I be covered for the care I received in the extended care facility for the second illness? Or would I have to be admitted to

the hospital and then transferred back?

A—You could stay in the extended care facility. Care you received there for the second condition would be covered but only up to the total number of days of care for which you were eligible. Since you would not have been out of the hospital and extended care facility for the 60 days required to mark off the beginning of a new "spell" of sickness, the second condition would still fall within the first "spell" of illness.

### Commended For Leadership In Savings Program

Postmaster Tommy Davis has been commended by William H. Neal, National Director of the U. S. Savings Bonds Division, for his leadership and service to the Treasury Department's School Savings Program.

In a letter to the Postmaster, Mr. Neal said, "The mission of School Savings is in many ways more important today than at any time since the end of World War II. Today's young people, growing up in a world whose troubles admit to no easy solutions, need grounding in the simple truths of their American heritage as preparation for the challenges they face. The lesson of thrift is important in itself, but it becomes even more so when it also involves the investment of dimes and quarters, often saved at a sacrifice, in the future of our country through Savings Stamps and Bonds."

School Savings, which operates in Haskell Schools, is part of the nationwide Savings Bonds Program. Mr. Neal told the Postmaster that "the good service you render plays a major part in its success." Savings Stamps in five denominations, from 10-cents to \$5.00, are on sale at all times at the post office and on Stamp Day in the schools.

Postmaster Davis commented that the "sale of Savings Stamps to the public... especially to young people through the Savings Program... is a service we are proud to offer. I know of no finer way to build for a better tomorrow than by training our youth in the sound American heritage of thrift."

### New Warranty Will Backup Superior Performance of Ford Cars, Trucks

J. B. Gipson, vice president and general manager of Bill Wilson Motor Company, Haskell, announced today that all purchasers of 1967 model Ford cars and trucks will receive a 24-month or 24,000-mile basic vehicle warranty along with a 5-year or 50,000-mile warranty on the power train components, which include the engine, transmission, drive line and rear axle.

The new warranty, Mr. Gipson said, is the best the industry has to offer and will be an important factor in backing up superior performance which customers have come to expect from Ford cars and trucks.

The 24,000-mile warranty was pioneered by Ford Motor Company on the Lincoln Continental and was later extended to the entire vehicle line.

"Extension of this warranty on the power train components

adjustments and engine tune-ups, and for routine replacements of such items as filters, spark plugs, ignition points, wiper blades, and brake and clutch linings. To maintain the power train warranty protection the owner need only present evidence to a Ford Dealer and obtain his certification, once every twelve months, that the minimum services required every six months or 6,000 miles have been performed. This means that the engine oil and oil filter have been replaced and the carburetor air cleaner and filter, crankcase oil filler breather cap, automatic transmission front intermediate band, emission control system, lubricants and engine coolant have been serviced according to recommended maintenance schedule of the vehicle in question.

Terms of the new warranty provide that for 24 months or for 24,000 miles on the entire vehicle, whichever comes first, and for 5 years or 50,000 miles on the power train, whichever comes first, free replacement, including related labor, will be made by authorized dealers of any part with a defect in workmanship or materials.

Tires and tubes are not covered by the warranty; appropriate adjustments will continue to be made by the tire people. Owners will remain responsible for normal power train and other maintenance operations, such as wheel, brake and clutch

Q—My father was killed in military service and I have been attending school under the educational program administered by the VA. I will be married this summer, but intend to return to school and complete my college education. Will my
