The Gannaway steer was bred by Paul C. Murphy Jr. of Meridian. Reserve championship honors went to a steer owned by C. A. Thomas III and bred by Heston McBride of Blanket. Despite high wind and dust, the show drew a good crowd.

Nine-Teens Sing For Lions Tuesday Noon

It was beginning to look a lot like Christmas, at the Tuesday noon-day luncheon meeting of the Haskell Lions Club, as the talented Nine-Teens, Haskell High School choral group, under the direction of Mr. and Mrs. Hubert Bell, added emphasis to the Yuletide season with their always fine renditions in song.

Featured on the program were Diann Cadenhead, Barbara Kimbrough, Jerre Sue Couch, Eloise Watson, Donna Josselet, Pamela Druesedow, Patricia Toliver, Peggy Thigpen, Diane Hester and Rita Woodard.

Rev. J. V. Patterson was in charge of the program. The Nine-Teens were presented in a Christmas concert in the sanctuary of the Trinity Lutheran Church Monday night, and the ringing voices of these nine girls were heartily received in the public program of music designated especially for the Christmas Season.

Royce Adkins, chairman of "Goodfellow's" project designated his workers for packing and distributing baskets which will be delivered to less fortunate families on the morning of December 23. Around 87 baskets will "go out," Adkins said.

Tuesday was "toy day," and those Lions who failed to bring a toy for the Goodfellow's Christmas baskets, were fined \$1.00 each by the Tail Twister, George Neely.

Guests at Tuesday's session were Ronnie Leach, Sarah Cox and Mrs. Hubert Bell. Club sweetheart and pianist, Lucy Kennedy, was presented a gift from the club in appreciation of her fine services.

E. O. A. Provides The Tools To Deal With Poverty

"Federal and State Assistance is available to help communities in developing and supporting anti-poverty programs, however such assistance will depend on local initiative and the community's determination to mobilize its own public and private resources for this attack," Bob Allen of the Texas Office of Economic Opportunity told 50 persons in attendance at the Trinity Lutheran Church Thursday night, to hear the poverty program outlined.

Mr. Allen briefed those present on the various programs available through the Economic Opportunity Act and what steps citizens could take in setting-up community action to attack this problem locally.

The challenge offered local communities through the Economic Opportunity Act is to help stamp out poverty to school drop-outs (high school); Potential College Drop-Outs; Multiple problems, illiterates; Low Income Rural Families; Migrant Agriculture Employees and their families; Unemployed parents and needy persons.

"The Economic Opportunity Act can assist the school drop-outs through men and women residential training centers, such as the job corps," Allen said.

LOOKING OVER THE LIST of names of children to be taken on a "shopping spree" by the Haskell Jaycees next Wednesday night, December 22, is A. G. Feiser, JC president, County Judge Jim Alvis, and James Franklin, project chairman.

Sgt. Barrett has been in the service of his country since June, 1961, and has been stationed in Viet Nam since June, 1965.

Rev. Patterson Rotary Speaker Thursday Noon

"Christmas is a season of prophetic idealism and a rebuke to selfish living. It is a time when men are moved to think of others rather than self," Rev. J. V. Patterson told members of the Rotary Club at last Thursday's noonday luncheon meeting.

"Christmas is the one season of the year when we are especially reminded to take Jesus seriously," Rev. Patterson said.

"Christmas centers our affections and thoughts on the child. The season not only reminds us of the Christ-Child, but also what Christ said about all little children, and especially the words, 'Suffer the little children to come unto me and forbid them not,' the speaker said.

"The real Christmas spirit is the taking of Jesus' teachings seriously, the protest against selfishness, the centering of our thoughts and affections on the child, the exaltation of family life, the spirit of goodwill toward men. Such is the essence of Christmas. And why not this spirit every day?" Rev. Patterson asked.

Student guests were Jimmy Yeary and Judy Baitz. Other guests noted at the meeting were Ronnie Leach of M&F Pharmacy and Joe Pechacek, of Abilene.

Thanks To Jaycees . . . Needy Youth Will Be Taken On Shopping Spree

It's better to give than to receive! Thanks to the Haskell Jaycees, 30 underprivileged children here will be taken on a shopping spree next Wednesday night, Dec. 22, by that organization.

Money earned through erection Christmas lights in downtown Haskell by dedicated Jaycees provided \$150.00 for a "Christmas buying spree" for needy children on the threshold of Christmas.

To be accompanied by several of the Jaycees and their wives, the children will be given an opportunity to visit stores in Haskell, purchasing anything they desire, up to a maximum of \$5.00 for each child.

Following the shopping spree, the youngsters will assemble at the Chamber of Commerce office where their gifts will be wrapped for them to present to their parents, sisters, brothers, etc., and they will also be fed ice cream, cake and candy.

This is the third consecutive year that Jaycees have undertaken this program. Elementary school principal, Gerald McCoy, with the assistance of first and second grade teachers, furnished the list of names of the children to Jaycees.

C of C Directors Meeting Held Tuesday Morning

The board of directors of the Chamber of Commerce met on Tuesday morning, Dec. 14, 7:00 o'clock, at Felker's Restaurant.

Jim Sampson, in a report of the Retail committee, said that merchants are well pleased with the Christmas program this year, and the financial part of the project is going well.

In a recent meeting Santa Claus and his world's largest sleigh was asked to return for next year's Christmas opening. Questionnaires have been mailed to the Retail Merchants for their approval of official holidays next year. Approximately 75 percent of the ballots have been returned.

C. of C. Manager, Luther Walker suggested a change of date for the annual banquet, which was originally set for March 11, due to conflict with the Abilene C. of C. banquet. Suggested date for the Haskell C. of C. banquet was March 4. The speaker will be contacted on this change of date.

Haskell Host Haskell was host Friday, December 10, to the sub-committee of Highway 277, with Luther Walker named chairman of the committee. Due to not too great amount of traffic between Seymour and Haskell, it was suggested that Haskell and Munday have a survey count of traffic made.

E. O. A. Report County Judge Jim Alvis gave a report on the Economic Opportunity meeting held at the Trinity Lutheran Church last Thursday night.

In order that Haskell might benefit from the program, a committee composed of representatives from the Chamber of Commerce and civic organizations should be named to organize and outline needs. Walker and Abe Turner will contact all clubs to set-up such a meeting.

Industrial Report A report was given by Mr. Walker on the Industrial activity. He reported fact sheets and site maps have been printed by the West Texas Utilities.

"It is recommended," Walker said, "that a town must have land available . . . also pledges, for industry to be interested in any location. Labor is available in Haskell and the county."

By unanimous vote the board will not hold a meeting on December 28th.

Home Economics: Mary Yates and Betty Edwards of Weimert; Paulette Wilfong of Goree. Safety: Debbie Grogan, Carolyn Hager, Karen Guess, and Linda Brueggeman of Haskell. Swine: Clayton Stegemoeller of Sagerton; Kenneth Dudenising of Stamford; Jerry Brothers of O'Brien; Judy Therwanger of Weimert.

"It will take \$1,000.00, or possibly more, to meet the need in filling the Goodfellow baskets," Royce Adkins, chairman of the Lions sponsored project said.

"There still is time for Haskell citizens to open their hearts and pocketbooks and join the Goodfellows. In behalf of the Lions Club, I make this final last-minute appeal to my fellow citizens to not lose sight of the true meaning of Christmas. We need at this Season to come to the aid of the less fortunate, and I urge you to go by the Haskell Free Press today and make your contribution," Adkins said.

Haskell's Goodfellows are still confident that the money needed to provide Christmas baskets and toys for needy, unfortunate families in the community will be forthcoming. But time is running out and the urgent need is for sufficient funds to pack some 90 baskets that will make Christmas come true to many families in this community.

"Aren't we going to see to it that the Christmas stockings of our less fortunate neighbors suffering by reasons of misfortune or ill health are heeded this Christmas?" Goodfellows are still in need of good usable toys. Those who would like to give toys to this worthy cause are asked to take them to the Fire Station.

Friday, W. P. McCollum, Haskell High School Principal, rattle three large boxes of razor blades, soap, toothbrushes, shaving lotion, and other personal items for men in Viet Nam. It is about two weeks ago that Gene Cross, of Fort Campbell, Kentucky, who is the son of Mr. and Mrs. Sam McCollum, wrote Mr. McCollum, that students write letters and send personal items to men in Viet Nam. Mr. McCollum passed the information to the high school students and they got right down to business in seeing to it that the men were remembered.

The greatest problems generation is the loss of by far too many of people in their voting franchise. It is a problem that political partisanship involves the very fundamentals of our democracy. In our wars have been the freedom of speech, freedom from fear, freedom from fear. The ballot box is the of these other freedoms. It is a fact that millions of non-voters may decide failure to vote, the key of the important 1966 election. The ballot box should to the fullest extent by citizens.

Retail Prices And Labor Costs

When prices rise, great numbers of consumers put the blame on the retailer. This, human nature being what it is, may be natural. The retailer, after all, is their direct connection with the processes of production and distribution, and he is a handy target.

But the retailer, more often than not, is a victim of circumstances beyond his control. As an example, the chairman of the National Association of Food Chains recently said: "Food prices bear a close relationship to labor costs all along the distribution pipeline. Since wage rates continue to rise every year, whether they be for strawberry pickers in California or meat-cutters in Boston, it is only through the application of new and better methods of production and distribution that we are in the food industry can keep food prices from rising at a corresponding rate. Food chain wage rates have been increasing during the last ten years at an average annual rate of 5.8 per cent. If labor wishes to achieve comparable gains in the future without producing an inflation in food prices it must look on change and automation as allies and work with management to improve labor productivity."

Elsewhere in his address he stressed his point in these words: "In waging a constant war against inefficiency, we truly represent the interest of the consumer. We must therefore as an industry preserve our freedom and ability to automate, to invite, to experiment, and to use every new method and device consistent with good personnel practices."

Retailers have no choice save to pass unavoidable cost increases on to the buyer. Their profits are much smaller than is generally realized... food chains, for instance, commonly earn a little over a cent on each dollar of sales. Their constant purpose is to hold prices to the lowest feasible level.

A POLITICAL NOSTRUM

Just why Congress should lean toward the socialistic philosophy in the United States is more than a lot of good people can understand. None of its members were elected on a socialistic ticket. Socialism's various ramifications which Congress has already endorsed in many forms under camouflaged titles are already flourishing here. They are increasing the public debt and inflation.

In the interest of their children and grandchildren and representative government, it is time every citizen who is opposed to socialism should so express himself.

Too many socialistic schemes have already been fastened on us in the name of "the people's rights" when they should be referred to as "the loss of the people's rights."

One can respect men like Norman Thomas who believe in socialism as a form of government and advocate it under its right name. But it is hard to respect proponents of any program who peddle their nostrums to the people under a catch-phrase, or a something-for-nothing "come on."

PAST TIME

It is probable that most of us have largely forgotten the large number of tax changes that have taken place in the past quarter century.

During World War II and the Korean War, the established taxes were raised and new ones imposed. There was a rash of excise taxes, which are the same thing so far as the consumer is concerned as sales taxes. Subsequently, some taxes were reduced and others eliminated. The current Congress took a long overdue step when it abolished numbers of the war-imposed "nuisance taxes" levied on various kinds of merchandise.

But there is one taxpayer who has been given no relief... and who, instead, has been hit harder and harder. That is the motorist. Whether he knows it or not, he carries what many believe to be a grossly disproportionate share of the cost of state government.

A compilation issued by the National Association of Manufacturers tells the story. On the average, fuel and vehicle taxes... of which the gasoline tax is by far the largest factor... account for an average of 25.5 per cent of the total taxes collected by the states. The figure ranges from a low of 7.3 per cent in Hawaii to a high of 48.2 per cent in Nebraska. In numbers of states, it is above 30 per cent. And to this must be added the four cents a gallon tax levied by the federal government.

To cite another average figure, total state and federal gasoline taxes now exceed 10 cents a gallon. That is about half the price of gas before the tax.

Efforts are always under way to further boost this tax on an absolute necessity, even though no out and out luxury, save for tobacco and liquor, bears so heavy a burden. It certainly is time... past time... to call a halt.

The December 16th, 1905 edition of the Free Press presented a historical background of Haskell and Haskell County and paid tribute to a number of its solid citizens and merchants. The following article had this to say about the Haskell National Bank:

"One of the strongest evidences of the prosperity of Haskell is the flourishing banking business transacted by the financial institution... The Haskell National Bank.

The Haskell National Bank was established and commenced doing business in 1890. It is one of the strongest banks in this section of the state, in point of capital, aggregate resources and volume of business.

ADD HISTORY Its officers and directors are men who are always found in the front rank in any manner of public enterprise looking to the welfare and material interest of the community, and it is due to their intelligence and judicious policy that the bank has reached its present standard of usefulness and prosperity.

The officers of the bank are: Mr. M. S. Pierson, president; Mr. Lee Pierson, vice-president; Mr. G. R. Couch, cashier. These men are not only regarded as experienced financiers, but as gentlemen of irreproachable character, whose names are a better guarantee of the funds of their patrons than the vaults in which the funds are kept.

Telephone Bills Will Be Reduced Effective Jan. 1

All telephone bills will be reduced effective January 1, 1966. E. H. Danner, president of General Telephone Company of the Southwest and Southwestern Telephone Companies, reminded telephone customers.

The Federal excise tax on local telephone service and long distance calls will be lowered from the present 10 per cent to 5 per cent as a result of legislation approved by Congress and signed into law last summer.

On each succeeding January 1 an additional 1 per cent cut will occur so that by 1969 the entire 10 per cent Federal excise tax on telephone service will be ended.

"We are pleased that the resulting savings will be received by our customers," the president commented.

Danner reminded customers that no excise tax revenues have ever gone to the company. "The telephone company has merely collected the money for the U. S. government since the tax was put into effect as a 'temporary' measure during World War II," Danner stated.

"We are pleased to have contributed to the efforts to end this discriminatory tax and believe that the legislators who assisted are to be commended," Danner commented.

The class unanimously voted to carry through this operation. Although shipment may be late and articles probably will not reach their destination until after Christmas, the American soldiers in Viet Nam will know that the seniors in Haskell High are backing them.

FUTURE HOMEMAKERS & YOUNG HOMEMAKERS HOLD JOINT MEET

The Haskell Chapter of Young Homemakers met Monday evening, Dec. 13, at 7:30, in the Homemaking Cottage of Haskell high school. This was a joint meeting with their "little sister" club, the FHA. There were 15 Young Homemakers and 25 Future Homemakers present, plus a distinguished guest of the FHA, their beau, Keith Chapman, and the club advisors, Mrs. W. P. McCollum and Mrs. Edwin Jeter.

The program was brought by Mrs. Maureen Dunnaway, representative of Lone Star Gas Company of Abilene. Mrs. Dunnaway began by saying that the best things in life are free. The gifts of nature are free. She used one of the gifts of nature, fruit, as her theme as she demonstrated how Christmas goodies can be decorated with artificial fruits to make pretty and interesting gifts.

Following the program, refreshments were served to all present by hostesses from both clubs. Mrs. W. H. McBroom, Mrs. Elton Klose, Debbie Pharis, Laura Sampson, Brenda Buerger, Abigail Villareal and Charlene Woods.

The clubs divided to hold their individual business sessions. In the Young Homemakers session, roll call was answered with a canned food for their "adopted" family. In addition to this canned food, Mrs. Jon Jameson reports that the club will take the \$35.00 prize money that was won on the float in the Christmas parade, and buy a ham, a tree, and some gifts for the family. The adopted family consists of a grandmother, who is raising three grandchildren, two girls and a boy.

Mrs. Jameson also reported that a group of Young Homemakers will decorate the tree at Rice Springs Care Home as they have done in the past. Mrs. Jimmy Browning, president, read several letters she had received. One was a letter from Wanda Cleveland, State

Vice President-Elect of Abilene, congratulating the club on their winning float. Another was from Mrs. Doris Joiner, State President, concerning the State Convention which is to be held in Austin, Jan. 14-15, 1966.

The Haskell Chapter will be in charge of the Fun Night on Friday night, January 14. This is to be an entertainment night for approximately 75 Young Homemakers, whose husbands are not Young Farmers, and won't be attending the Young Farmer Awards Banquet that night. Eleven members from Haskell are planning to attend the convention. Among these will be two voting delegates, Mrs. Bob Greenroy and Mrs. Jimmy Browning.

Mrs. Roger Weatherford showed some movie films of the Christmas Style Show presented by Lane-Felker and the Christmas parade and the meeting adjourned.

MANY FAVORITE HOLIDAY FOODS RATE DECEMBER PLENTIFUL LIST

You'll find many of your favorite holiday foods especially plentiful this month, says the Texas Agricultural Extension Service.

Pecans top the December plentiful foods list. Also termed plentiful are: apples, onions, cabbage, oranges and frozen orange juice, broilers, turkeys, peanuts and such peanut products as peanut butter.

Pecans promise all kinds of special holiday dishes. Of course, pecan pie is a "must" for the holiday table. Don't fail to have several pounds on hand just for eating, suggests the Service.

How useful the large supply of apples reported by the U. S. Department of Agriculture will be during the holiday season! Serve baked apples often, apple pies and dumplings.

Give your home a holiday theme with baskets of apples here and there for impulsive snacking.

Dramatize your menus with the eye-catching appeal of oranges. You'll enjoy them in fruit salads or as a peel-your-own dessert. Frozen concentrated orange juice is plentiful for the sixth consecutive month.

Use it often in holiday drinks and dishes.

Just think of how handy the abundance of peanuts and peanut butter will be in all your holiday cooking. Peanuts add texture and interest to salads. Peanut brittle and other peanut-oriented candies and desserts have a full bodied flavor to underscore any holiday menu.

Cabbage and onions fill the bill nicely for salads. They're delicious cooked to accent hearty main dishes.

The plentiful supply of broilers and turkeys can round out your holiday meal to make it the most successful ever.

Knits Important In Wardrobes

Knits have become an important part of every girl's wardrobe—since they are both smart and comfortable. Mrs. Barbara M. Elliott, Haskell County Home Demonstration Agent, says that while knits are very much in the news, they do require special knowledge on the part of the buyer.

When choosing your pattern, select a simple one with as few seams as possible. Do not choose patterns requiring cutting on the bias, such as circular skirts, cautions Mrs. Elliott.

It is best to sew seam tape or ribbon into the shoulder seams and waistline of all knits. When hemming knit fabric, use bias seam binding on single knits.

Dinner Meeting Held By B&PW Tuesday Night

A Christmas program was presented by Diane Hester and Peggy Thigpen, students of Mrs. Kathleen Diggs' speech class at the annual Christmas dinner of the Haskell Business and Professional Women's Club on Tuesday night, Dec. 14.

The meeting was opened with prayer by Mrs. Luther Burkett. The t-shaped dining table was covered with white boughs of cedar marking the center.

J. A. WIMBERLY TO CELEBRATE HIS 100TH BIRTHDAY, SUNDAY

A big dinner and birthday cake awaits J. A. Wimberly on Sunday, Dec. 19, in the home of his daughter, Mrs. J. M. Sloan, 505 North 5th St., Haskell, when the Wimberly family will gather to honor him on the 100th birthday.

Actually, Mr. Wimberly is a "mere youngster," as he will not officially reach his 100th birthday.

Mr. Wimberly, a retired farmer, resides at 307 S. Ave. D, Haskell. He was born in Clark County, Arkansas, Dec. 20, 1865, and came to Texas in 1888, settling in the eastern part of the state. He moved to Haskell county in 1911, and lived on a farm until about 18 years ago when he retired and moved to town.

Mr. Wimberly's mind is alert in recalling dates, and he is still very active. He says his vision is not as good as it once was...but he "gets around" pert as you please.

To help him celebrate his 100th birthday will be his wife; two sons, Jim of LaPuen-tie, Calif., and Jack of Albany; three daughters, Mrs. J. M. Sloan and Ruby Wimberly of Haskell, and Mrs. Olive Wadley of Denton.

Haskell Area Is Featured In "Off The Beaten Path"

The Haskell-Stamford area is featured in a now-complete, three-volume, soft-cover collection of Texas' major stories, "Off The Beaten Trail," just completed with release of Volume 3, by Hill Country author-historian-news columnist Ed Syers.

Now in seventh printing, popularly-known OBT has appeared for several years as a weekly metropolitan feature in most major Texas cities. Now topping the 50,000 mark, its coverage is, as one reviewer puts it, "border to border and pre-history to yesterday."

Texas historian Syers claims it primarily dedicated to our small cities and towns, "where too few Texans know how much history was made and what needs be seen."

Waco's Tribune Herald calls it "the different books on Texas"; Fort Worth Star Telegram, "a reading must for Texans"; Amarillo Globe News, "from the best Texas story teller." OBT holds 1964 award from San Antonio's Conservation Society, has been cited by the State Historical Survey Commission as "a major addition to explore old Texas."

The three-volume series is available for \$1.50 per volume, or \$4.25 per full set of the three through "Off The Beaten Trail," Box F, Ingram, Texas 78025.

State Draft Boards To Induct 1,475 In January

State draft boards are scheduled to induct 1,475 men into the armed forces in January, Col. Morris S. Schwartz, State Selective Service director, said.

This compares with a quota of 1,523 in December and 1,456 in November. The January quota of 1,475 is the Texas share of a national call for 38,280 men, 29,300 for the Army and 8,980 for the Marine Corps.

Col. Schwartz also announced that 9,575 men will be forwarded to examining and entrance stations during January to undergo the draft physical and mental examination.

Local board quotas for both induction and examination are scheduled to be placed in the mail to the boards Friday.

The January quota for induction will be filled with single and childless married men, 19 through 25 years old, and volunteers who have not attained the age of 26.

Cotton Classing Report

The USDA Cotton Classing Office in Munday reported 71,691 samples had been classed for the season through last week. A total of 4,942 samples were classed during the week ending Dec. 10, according to A. D. Peebles, in charge of the Cotton Division Office.

The grades of cotton classed last week declined somewhat. The white grades decreased from 43 to 26 percent and light spotted grades increased from 55 to 70 percent. A breakdown on the predominant grades ran: Middling 10 percent, Strict Low Middling 12 percent, Middling Light Spotted 40 percent, and Strict Low Middling Light Spotted 27 percent. Nine percent was reduced in grade because of bark or grass.

Staple lengths for the same period averaged 7 percent 7/8 of an inch and shorter, 31 percent 29/32, 33 percent 15/16, 18 percent 31/32, 11 percent one inch and longer.

Micronaire readings continued to hold up well with 85 percent in the 3.6 through 4.8 range. Five percent read 3.2 and below, 9 percent 3.3 through 3.5, 1 percent 4.9 and higher.

Demand and prices for Strict Low Middling and Lower grades remained the same. A large amount of the higher grade cotton went into the government loan.

TAX MAN SAM SEZ:

During the past few years there have been quite a few taxpayers who went to Internal Revenue and confessed that they owed more tax. These folks felt that the computer would catch up with them so they came in to pay off to try to stay out of jail.

You don't need to worry about the computer if you have been honest in preparing your tax returns and paying your taxes. If you are worried, the sooner you straighten up your tax affairs the better off you are. It's usually better for you to confess tax cheating than to have Internal Revenue accuse you of tax fraud.

British automotive sportsman R. C. Walker knows cars, but one thing he didn't know was how quiet the '66 Ford is.

"1966 Ford quieter than my Jaguar? Not jolly likely!" said Rob Walker ... then he drove the Ford.

Ford's Quiet Man, who recently demonstrated the 1966 Ford to owners of some of the world's most expensive cars, here discusses the '66 Ford LTD with Rob Walker at his family's estate in Wiltshire, England.

"Astonishing ... I believe this Ford of yours really is quieter!" exclaimed Rob Walker, famed British automotive sportsman.
Ford's quiet ride is the result of built-in quality and overall engineering excellence. Other examples of this engineering magic from Ford are: ■ New Stereo Tape Player option with easy-loading cartridges. ■ New Magic Doorgate on wagons—swings out like a door for people and down like a tailgate for cargo. ■ Silent-Flo Ventilation, standard on Ford 4-door hardtops, gives open-window freshness with all windows closed. ■ Quiet-test a '66 Ford, at your Ford Dealer's.

The Good Earth

by MRS. B. F. COBB

Haskell Garden Club is fortunate to have 3 active teachers, 1 substitute teacher, and one who has retired from teaching as members of the club. Mrs. LeRoy O'Neal teaches art, social studies and English for 8th grade. She has one 9th grade art student.

Mrs. K. H. Thornton is librarian for Junior High. She also teaches reading and spelling for the 7th and 8th grades.

Mrs. Scott Green teaches mathematics for the 7th and 8th grades.

Mrs. Gene Overton, Haskell Garden Club president, substitutes both in Haskell and at Paint Creek.

Mrs. R. C. Couch, Sr., has retired from teaching. She and Mr. Couch have continued their education by visiting foreign countries. They also add to Haskell's education by showing slides and making talks on their trips.

Haskell Garden Club has been fortunate in viewing slides of the Holy Land and of Hawaii and hearing Mrs. Couch describe the pictures in vivid words.

Mr. and Mrs. Sam Scott have raised three turnips this year that were so large they are almost unbelievable. All three were white shegoin turnips. One

weighed 3 lbs., one 5 lbs., and one 10 lbs.

Mr. and Mrs. Oscar Tooley ate the 3 lb. turnip and thought it quite large. Mr. and Mrs. Scott took the 5 lb. turnip to their daughter and son-in-law, Mr. and Mrs. Richard Stewart of Fort Worth. It, too, was thought to be a whopper of a big turnip.

The 10 lb. turnip weighed 20 lbs. with the greens on it. From the bottom of the bulb to the top of the greens, it measured 43 inches.

The turnip itself measured 26 1/2 inches in circumference. I saw all three of these giants and believe you, they were the largest I've ever seen.

Mr. and Mrs. Scott live on a sandy farm about half way between Haskell and Rule. The things their soil produces is almost unbelievable. They are fortunate enough to have a good well to water their garden.

We have raised 2 and 3 lb. cabbage heads this year from seed sowed August 18th. We gathered two cabbages this morning. One weighed 2 3/4 lbs., and the other 3 lbs. We have eaten fresh cabbage from our garden for over a month.

The flat ditch is just beginning to head. Early Wakefield are much faster in producing. So far the freeze hasn't damaged the heads at all.

Rev. Mike Herrington, pastor, officiated. Interment was in Tanner Paint Cemetery, with Pinkard Funeral Home in charge of services.

Son of the late Mr. and Mrs. W. W. Kittley, he was born October 2, 1897, at Gatesville and had lived near Rule most of his life. He was a farmer and served in World War I.

Surviving are his wife; one son, Wayne W. Jr. at Kern; five daughters, Mrs. Irene Wood of Dallas, Mrs. Wilma Jean Kerr of San Francisco, Calif., and Sue, Martha and Betty Kittley, all of the home; four brothers, Ollie, Ewell, Bill and Ben, all of Rule; three sisters, Mrs. D. A. Greene and Mrs. R. K. Denson, both of Rule; and Mrs. Ben Beauchamp of Sudan; and four grandchildren.

Funeral Services Held At O'Brien For Mrs. Hayes

Mrs. Hettie Kathryn Hayes, 69, died at 9 a. m. Thursday, Dec. 9, at the home of a son, Delbert, who lives one mile west of O'Brien.

Funeral was held at 2 p. m. Saturday in O'Brien Baptist Church with the Rev. Cecil Foster, pastor and the Rev. Leroy Baker, pastor of the Methodist church there, officiating.

Burial was in the Knox City Cemetery, Smith Funeral Home in charge.

Born Sept. 16, 1896, in Arkansas, she moved to Haskell County at an early age. She married John Wesley Hayes in Rule Oct. 18, 1914. He died October 12, 1965.

Survivors include two sons, Delbert of O'Brien and John of Muleshoe; three daughters, Mrs. Vaughn Brooks of Knox City, Mrs. Dolores Page of Odessa, and Mrs. Felda Sherry of Houston; and three brothers, Ewell Vance of Knox City, Jim Vance of Grover City, Calif., and Oscar Vance of Temple; six sisters, Mrs. Homer Beard of Knox City, Mrs. Everett Matthews of Odessa, Mrs. Cal Jeffrey of Pisky, Calif., Mrs. Pete Knight of Winsboro, Tex., Mrs. Eddie Gore of Imperial, Calif., and Miss Lou Vance, of Knox City; and 15 grandchildren.

Former Associate Pastor of Local First Baptist Church Appointed Missionary

Rev. and Mrs. Roy G. Davidson, Jr., of Lorenzo, Texas, were appointed missionaries to Malawi, Africa, recently by the Southern Baptist Foreign Mission Board, meeting in Richmond, Va.

Mr. Davidson has been pastor of First Baptist Church, Lorenzo, since October, 1964. Previously he was pastor of First Baptist Church, Quitaque; Pinkerton Baptist Church, Rule; Morgan Mill Baptist Church, and Nolan Mill Baptist Church, and associate pastor of First Baptist Church, Haskell. He also did music and educational work for churches in Big Lake, Roscoe and Sweetwater.

He is a native of Memphis, Tenn. Mrs. Davidson is the former Patsy Dodds, of Roscoe.

In Richmond for appointment and a week of orientation at Foreign Mission Board headquarters, Mr. Davidson said he has wanted to be a missionary since he was 9 years old. "My first memorable impression of a call to missions came at a Baptist boys' camp," he said. "One evening a missionary to Africa spoke at the lakeside. From that time, I have known God wants me to take part in His world mission enterprise. That conviction has become stronger through the years, but it was certain even then."

Mr. Davidson had a similar experience as a teenager when a missionary visited her church.

The Davidsons chose Malawi for their place of service about a year ago, after discussing the question with the Foreign Mission Board's secretary for Africa. "The more we prayed, the more convinced we became of God's leadership to Malawi," she said.

Mr. Davidson has participated in two Baptist evangelistic campaigns overseas, one in New Zealand in September, 1965, and the other in Jamaica several years ago.

He attended Baylor University, Waco, and Southern Methodist University, Dallas, and graduated from Hardin-Sim-

TAX MAN SAM SEZ:

A lot of taxpayers don't like to keep records. They are willing to take the standard deduction and pay more tax to get out of the record-keeping chore. You can cost yourself a lot more by failing to keep a record of your deductible contributions, taxes, medical and miscellaneous expenses. A careful record of deductible items is a pretty good idea, even if you don't itemize your deductions every year. Good records help you manage your personal affairs better.

Texas Automobile Thefts Down; Cost Still Exceeds \$8 Million

Automobile thefts were up 4 per cent while Texas car thefts dropped 2.3 per cent during the first six months of this year, executive committee members of the National Automobile Theft were told.

C. C. Benson, manager of NATB's Texas Division, stated at the annual meeting in Dallas that such a reduction is encouraging but that the 1965 statewide economic loss from car theft will still be a staggering \$8.5 million.

Mr. Benson pointed out that for the 12 months ending with August, stolen car recoveries were down three per cent. "This is indicative," he said "of the continued increase in activity of professional, commercial thieves."

Organized rings have moved many stolen cars into other states for sale while a substantial number have been transported to Mexico. Mr. Benson noted that professional car thieves have continued to use stolen counterfeit titles, or titles and serial plates from wrecker cars in their efforts to dispose of stolen autos.

Other facts in the total Texas auto theft picture reported in the NATB statistical survey are that:

The Texas Chiefs Model Club Climax Big, Full Year

The Texas Chiefs Model Club held a party Monday night to climax a big year for model aviation. Kenny Watson was awarded a trophy for his win in the annual race for club champion modeler. This was his second successive year to receive the award.

A brief resume of the year's great moments of modeling included the United States team wins in International competition for radio controlled and Free Flight Gas Powered Models and a 3rd place finish in Glider models; the local club's own contest which attracted a large turnout; and the National Model Airplane championships which was the largest event. The U. S. Coast Navy was again host to this gigantic event. This competition also scored a first as NBC-TV recorded the week-long activities for presentation Christmas Day on their sports in action program.

The club encourages anyone interested in modeling to attend their next meeting to be held January 3, at 1205 N. Ave. H.

No Trace Found Of Reported Plane Crash Near Here

Reports of seeing a flash of light in the rugged country around Aspermont late Saturday night set off speculation that it might have been a single-engine plane missing on a flight from Farmington, New Mexico, to Dallas.

The plane, with two aboard, left Farmington at 9:30 a. m., Saturday and was due in Dallas at 2 p. m. that day.

Several people reported seeing a flash as if something exploded, and disintegrated. Officers searched the area nearly all Sunday and Monday, but found no sign of any wreckage.

Sgt. Frank Jirick of the highway patrol, Haskell, said at press time that perhaps it could have been light from a meteorite.

Pueschel has been breeding Brangus cattle since 1948. Last year he had two top selling animals at the San Antonio bull sale.
