'66 ACTION PROGRAM

Yes, this has become an old story by now but along with hundreds of other small towns across the nation we conclude that there is only one way to save our necks and that is through a diversified source of pay rolls as a supplement to our low agricultural income. We all know that the farm labor income is gone. Fate has made the decision for us and we either get in or get out. We know that we are not ready to turn the lights out and go to sleep.

Our greatest asset in selling Haskell to industry is the attitude of our people. Haskell truly has an atmosphere of progress, so let's all get behind our Chamber of Commerce and finish what we have worked so hard to start. The Industrial Foundation which was set up in our community in part and has been completed since Luther Walker left, has the strength to support the economic growth potential that faces us. But, our investment becomes muscle, money and blood to strengthen Haskell in the fight for economic betterment.

The Chamber of Commerce is very concerned that some businesses, doctors, lawyers, teachers, city and county officials and farmers are paying very little into the organization and many businesses are not actively supporting the vital work of the Chamber.

Every business enterprise, every doctor, every lawyer, every teacher and every landowner has a stake in the progress of our community. They each must share in the financing of this organized effort to advance the growth and development.

The average member is paying the same amount of dues into the Chamber of Commerce that they paid twenty and thirty years ago. We held a membership drive the latter part of 1964 to raise dues and add new members. Our budget goal was set at \$13,500.00 yearly but only \$9,364.50 in dues was paid in 1965.

We cannot hope to accomplish our goal if we do not double or triple our dues. We are at the cross roads in our community right now. The writer can truthfully say that it's not hard to do once you have made the hurdle. Our business firm made the hurdle last year in paying \$25.00 monthly, only 83c a day, to help in the progress of our community, not waiting to see what our competitor was going to do. It is most rewarding to know that we are helping in the growth of our community. Someone has said, "but I can't afford to pay twenty or twenty-five dollars monthly." But we can't afford not to pay because with everyone paying their fair share, everyone stands to profit. The load cannot be carried by a few merchants, and it will not be a load if everyone does their part. The town will grow, more industry will provide more jobs and better pay for all, also more workers will generate more sales and more people will be attracted to move to our town.

We cannot afford not to pay when we consider it is an insurance for a better and bigger Haskell in the future. It has been said that you cannot make money without spending money, so let's all together, not waiting to see what our competitor is going to do, do this thing that has to be done and reap our harvest. We can do in our town just what we want to do. Think big and big things will happen. Regardless of how much we pay into our town it will be peanuts when our town starts growing because our speed of growth will increase two hundred fold. Let's show our surrounding trade area what a dynamic Chamber can do.

We desperately need a Chamber of Commerce manager, someone to take the responsibility and allocate the work to different committees. Some of the merchants are leaving their business much more than time permits to do the work of a Chamber manager. No town can adequately operate and progress without a strong Chamber of Commerce manager as their leader.

Eight teams of merchants are currently giving freely of their time and ability to call on and sell the people on their '66 Action Program.

Haskell County History

30 YEARS AGO (September 10, 1936)

Miss Maybelle Taylor and Eloise Couch attended the Texas B.T.U. officers convention at Abilene last Thursday and Friday.

With one of the heaviest dockets in several months, the September term of County Court was convened Monday morning with Judge Charlie Conner, presiding, and up to Wednesday night, nine criminal cases had been disposed of, eight of them on pleas of guilty entered by defendants.

Rule's new gymnasium, built at a cost of \$14,000, was dedicated Monday evening.

Plans for exhibits at the Central West Texas Fair were made at the regular monthly meeting of the Haskell County Home Demonstration Council held Saturday, Sept. 5.

40 YEARS AGO (September 9, 1926)

The Brazos river bridge approach four miles west of Rule which was washed away two weeks ago is reported out again due to heavy rains which fell Friday and Saturday. The bridge being out makes it very inconvenient for the public who have to detour by way of Sag-

erton bridge, which is considerably out of the way.

The Sanders and Crawford Gin in this city is now complete and all the machinery installed and it began the season on time.

Mr. and Mrs. A. J. Josselet and children of the Howard community returned home Sunday from a 11-day visit in South Texas.

Mayor Cahill has just completed a new six-room bungalow in the Gilliam addition and is now building the second nice residence in this section. This is one of the best residential sections in the city and Mr. Cahill is planning to build a number of houses in that part of the city in the near future.

Miss Verna Pitman recently returned from the summer term of McMurry College of Abilene, where she took the summer course of study and will teach the sixth and seventh grade in the Midway school the 1926-27 term. Miss Pitman is one of our Haskell county girls who was reared and educated here and her many friends are elated over her success. She has been teaching several years and is one of the best teachers in the county.

Giles Kemp, Haskell boy who has been living in Tulsa, Okla., and Wichita Falls, has returned to Haskell.

At the home of one of the members, Mrs. T. J. Arbuckle, on last Tuesday afternoon, the Golf Widows Club met and perfected their organization and elected officers. President, Mrs. Hardy Grissom; sec'y-treasurer, Mrs. Jno. A. Couch. They will meet alternately in the homes of members on each second and fourth Tuesdays. On the above occasion, after a short business session the afternoon was spent in playing "42."

Mrs. C. M. Hunt and Mrs. H. E. Fields returned Tuesday

from a visit to Dallas and points in the eastern part of the state. A shipment of eight cars of cattle was made this week by Haskell parties to the Fort Worth market. Messrs. J. S. Boone, G. R. Couch, Jones Bros., F. M. Morton and W. B. Whitman were interested in the shipment, which was made over the Central from Stamford, the W. V. road not having put in their shipping pens at this place yet.

The Ladies Home Mission Society will meet Friday evening, Sept. 21, at the M. E. Church and all members are asked to attend.

Stein moved to Haskell from Holland, Bell County, Texas last week and became actively associated with West Texas Development Company. Mr. Stein was manager of the Bell County Land Agency at Holland, Texas, for many years, making him well acquainted in the real estate business. Haskell Classroom Teachers Map Plans For The 1966-'67 Program

At an executive meeting September 2nd, officers and committee chairmen of the Haskell Classroom Teachers Association mapped plans for a very interesting 1966-67 program. The theme for the Texas Classroom Teachers is "In Search of Quality" ... which will also be the theme of the local organization. In search of quality, Texas Classroom Teachers have pledged themselves to:

1. Uphold the dignity and worth of their profession.
2. To strive to improve the teaching profession through united effort and democratic processes.
3. To help perpetuate the American traditions.
4. To contribute actively to the support, planning and programs of education related organizations.
5. To seek cooperation of their patrons.
6. To practice their profession so that all will say, "My Child is guided by a dedicated and expert teacher."

Several projects were discussed, but "Building Better Public Relations" in the school and community will be foremost in all the teacher activities.

The first meeting will be a get-acquainted and membership drive to be held in the Elementary building September 20, at 4:00 p. m. Each teacher in the Haskell schools is urged to attend and become an active member. Mrs. Garvin Foote, the local president, will report on the classroom teacher conference held in Austin in August. Mrs. Frank Martin, program chairman, will outline the work for the year.

Programs have been planned for September, November, February and April. In November, local representatives will attend the classroom teacher breakfast which will be held at the TSTA convention in Austin. The State convention for classroom teachers will be in March, 1967, in San Antonio.

The Good Earth

I accidentally left Mrs. Jetty V. Clare's name off of our Haskell Garden Club schedule. Mrs. Clare is our publicity chairman and I would like for everyone to know who it is that is doing such a wonderful job at publicity for the show. Thanks, Lillie Mae, for a job well done.

The Haskell Garden Club has its first meeting of the season, September 17th in the home of Mrs. Bailey Guess of Weibert. This is a membership luncheon. Anyone interested in the club should contact one of its members between now and the 17th and plan to attend the salad luncheon.

In order to receive a blue ribbon in horticulture, the specimen must be as near perfect as possible. A dusty, dirty plant will be knocked down several points.

Insects in plants also count off on points. If warm smoke is blown into a flower, hidden insects will emerge and can be picked or blown off, and will crawl out during judging and distract the judges.

Flowers should be well conditioned. Either picked late in the evening or early in the morning.

All vessels holding flowers or foliage should be thoroughly washed in hot, soapy water, scalded and drained dry. Dirty vases or containers will cause a flower to go down fast.

Take a bucket of warm water to the garden with you as you gather specimens for the show. Also carry matches, cigarette lighter or a candle to seal the bleeding plants such as dahlias, poinsettia, etc. Put cut material into the water at once. Air closes pores that feed water to plants. Cut stems on the plant. Let flowers set in the bucket of water for at least two hours. Keep out of drafts and away from open flames.

When you are ready to take a specimen to the show, strip all foliage off below the water line. Put one teaspoon sugar

and one teaspoon vinegar to a quart of water. Sugar keeps blossoms and foliage from fading and vinegar keeps the water fresh. Foliage arranged attractively will win more points than those that are just thrown at a container. Divided boxes used in shipping jars are great for transporting specimens to the show. Get them at your grocery store. Green soft drink bottles makes good containers to display horticulture specimens.

Head-Start For Fall

The snap, crackle and crunch of autumn leaves signal a season that's brisk and exciting. There's so much to do in Fall. Give a party. Touchdowns and celebrations of them are traditional as parties move out of the summer doldrums and into the swing again. Discover a new interest. Fall is the most energetic time for taking those dancing lessons you've put off or for painting the picture often talked about but never done. Or try a new look.

One of the newest hairdos for giving rah! rah! cheers or simply sitting by the firelight is the by-now classic blunt cut—but with a difference. Interest is added by combing a pouf of curls atop the smooth, basic lines of the haircut. For formal occasions, try a velvet bow or glittering barrette to really shine.

Great advantage of this hairstyle is that it can be worn by anyone. If your hair is fine, the

blunt cut of the style will give it body. Coarse hair will look smoother because of the sleek lines. And hard-to-manage hair takes to the easy control of the hairdo.

Finding a shampoo to suit all types of hair is just as easy with Breck shampoos for Dry, Normal or Oily hair. They're custom made to keep your hair shining no matter what kind you have and your glowing tresses will give you a head start on good grooming, whatever the season.

So swing into Autumn with new ideas—about things to do, parties and beauty. Who knows where it all will lead? You might even Fall in love.

4-H DAIRY SHOW

THE 4-H girl or boy who holds the ribbon or receives a trophy for a dairy animal at the fair has put in hundreds of hours caring for the animal. They usually start with a calf from the farm herd or a calf they have purchased with money earned from 4-H projects.

A visit to the 4-H division of the fair and a talk with the 4-H'ers will reveal that they have not only worked hard to make the main event, but have learned a lot in the process. Preparing an animal for the show ring, they say, takes a lot of skill, time and patience.

The 4-H dairy project also is the training ground for cattle judges. Club members making the judging team travel to county and state fairs and to the large regional and national shows as well.

Their achievements do not go unrecognized. This year nearly two thirds of all the counties in the U.S. are expected to name some 6,000 medal winners, says the National 4-H Service Committee. The medals, plus state and national awards will be provided for the 10th straight year by the Oliver Corporation, sponsor of the national 4-H Dairy program.

All winners are chosen by the Cooperative Extension Service which supervises 4-H work.

October Quota For The Armed Forces Increased

State draft boards will be called upon to furnish 2,339 men for the armed forces in November, Col. Morris S. Schwartz, state Selective Service director, said Thursday.

Col. Schwartz also announced that the October quota for Texas has been increased from 2,671 to 2,845, the biggest monthly call since April, 1953, near the end of the Korean conflict.

These monthly quotas compare with 1,889 for September, 1,837 for August, 1,381 for July, 878 for June, 1,927 for May, 979 for April, 1,068 for March, 1,372 for February, and 1,475 for January.

The state Selective Service director said he could not say at this time how many men would be sent for pre-induction examination in November. A total of 8,960 will be forwarded for the examinations in October.

Calls on the local boards for October, with quotas for both induction and pre-induction examination, have been sent to local boards.

The Texas quota of 2,339 for induction in November is the state's share of a national call for 43,700, all for the Army.

The revised October quota of 2,845 for the state is for the Army, the Texas share of a national call of 49,200.

DISABILITY PAY BY SS HAS TENTH ANNIVERSARY

"Just 10 years ago, on August 1, 1956, the social security law was broadened to provide monthly cash benefits to totally disabled workers between the ages of 50 and 65," R. R. Tuley, Jr., district manager of social security in Abilene, said.

"From that beginning, just a decade ago, the social security disability program has steadily grown and developed. In 1958, Congress made it possible to pay benefits to dependents of disabled workers exactly the same as to those of retired workers. The 1960 amendments removed age 50 as the earliest age that disability insurance benefits could be paid, with the Congress recognizing that the needs of a younger disabled worker could be as great if not greater than those of an older worker. In 1965, the law was changed to eliminate the requirement that the disability be of a kind that could be expected to continue indefinitely and substituted the qualification that the disability must have lasted or be expected to last at least 12 months," he said.

abled workers. Built into the disability program has been a requirement that all applicants for benefits should be referred to the State's vocational rehabilitation agency for consideration for services that might restore them to a productive role in the community.

Under the new law, funds are being advanced out of the Federal disability insurance trust fund to help the State agencies provide these services. This should benefit everybody concerned, Tuley said. The disabled themselves, who might be able once again to go back to their old jobs or be placed in employment within the range of their capabilities, would certainly be benefited. The communities would profit by the return to work of one of their residents. And the social security disability insurance trust fund would be safeguarded against losses through payments to people who could be brought back to an active career through special therapy and training.

CARD OF THANKS

For Nice Shower Gifts

Words cannot express our deepest thanks to each and everyone who brought or sent gifts to our wedding shower in the home of Mrs. Lester Hutchinson, Wednesday, Sept. 7 from 2 to 4. We especially thank the hostesses for the effort they put forth in making the shower possible. Again we say thanks, Mr. and Mrs. Henry Ejeems. 37p

Another change in the law in 1965 provides that if a worker who has applied for reduced retirement benefits between the ages of 62 and 65 becomes disabled, he may apply for the higher disability benefits. Previously, he pointed out, this was impossible.

The Social Security Administration has always been interested in the rehabilitation of dis-

Haskell Farm Store and Gilmore Implement Company. A new personal items were taken from the Walling Humble Consignee office.

Raymond Walker, Haskell, was picked-up Sunday, Sept. 4, by Sheriff Garrett and faces three burglary charges. Fields is being held in jail here on charges of break-ins at the Gilmore Implement Company and the Richardson Truck & Tractor Company in June, 1966. A small amount of cash was taken at Richardson Truck & Tractor and two guns from Gilmore Implement.

Elgin King, of Haskell, is being held on charges of burglary of the Tom Cogburn residence west section of Haskell on or about September 2nd, at which place two saws and an electric drill was taken.

Most all items, in all the burglaries, have been recovered, Sheriff Garrett said.

Rotarians Hear Advantages Of Playing Football

"Football isn't just a game played to determine a winner and a loser. It's an experience in the lives of growing young men which presents them with many of the problems they face in later life," Head Coach Sonny Everett told members of the Rotary Club at last Thursday's noon-day luncheon meeting at Felker's Restaurant.

R. C. Couch, Jr., was in charge of the program and introduced Everett, who in turn introduced his coaching staff, Raymond Bennett, Jerry McWilliams and Jerry Anderson. Also present were four of the Indian football players, Riley Couch, Walter Felker, Glen Smart and James Wall.

"During the coming months the players will be required to follow a strict set of training rules. They will either abide by these rules or be dismissed from the team, thus experiencing the discipline so essential in a democratic society," the guest speaker said.

"Self-discipline is not difficult to master. Sacrifice for a cause or a reason to give up one thing to gain another, is the beginning. Most athletes realize that to reach a goal they must deprive themselves of pleasures to obtain it. This is wonderful training that is necessarily found in football more than in any other sport," Everett said.

Invocation was given by Eldon Anderson and Mayor H. V. Woodard led the group singing. Visitors present were Rev. Troy Culpepper, pastor of the First Baptist Church and Tommy Hester.

Workers appointed to care for the Anderson Park this week were Brooks Middleton, Gene Hunter, Shady Lane and Rev. J. V. Patterson.

Troop 36 Will Hold Exposition This Week-end

Troop 36, Boy Scouts, will set-up booths and tents on the Fair Grounds, here, Saturday morning and will spend the day Saturday and most of Sunday at the Scout Exposition.

Purpose of the Exposition will be to acquaint parents on Scout activities. Plans at press time were to hold an early morning worship service Sunday.

Scouts will serve chili and beans at a nominal fee and money raised from the project will go into the Scout fund. Edd Smart is Scoutmaster.

BACK HOME

Mrs. E. W. Andrews and her daughter, Mrs. D. A. New, visited from Saturday until Tuesday of last week in the home of a son and brother, Rev. and Mrs. Doyle Andrews in Mount Vernon, Texas. Rev. Big Beat Will Come To The State Fair In Dallas On October 8-23

The big beat will come to the big fair October 8 through 23 in Dallas!

A Teenage Stage will be the focal point in the Varied Industries Building during the 1966 State Fair of Texas, which will have as its theme "Exposition of Young America."

In a combined production of Melody Shops of Dallas and the State Fair of Texas, the Teenage Stage will jump with the rock 'n' roll beat of dozens of musical combos during the 16-day run of the fair.

Musical groups will play 30-minute programs, rotating during the day until the fair closes at night. Each day, a dozen different combos—big ones, middle-sized ones and little ones, professional and amateur—will keep the air filled with music.

Exhibits in the Varied Industries Building will help to carry out the "Exposition of Young

America" theme, with everything from jazz records to job recruiting and from musical instruments to motor bikes. Young models in modern fashions also will be spotlighted on the Teenage Stage.

And throughout the entire 1966 State Fair, entertainment and exhibits will reflect the interest of youth. In other musical attractions, the big Circus, Cotton Bowl spectaculars, livestock, the Midway and many special events, there will be many things to see and do—all destined for the young at heart!

It takes a full half second—the times it takes a car to travel 14 feet at 20 miles an hour—to move the right foot from the gas pedal to the brake, according to Liberty Mutual Insurance Companies.

Lions View Film At The Tuesday Noon Meeting

Jack Bettis, of Cape Kennedy, showed a very informative and educational film, "Lunar Orbiter," at the Tuesday noon-day luncheon meeting of the Lions Club at Felker's Restaurant dining room.

The film, produced by the National Aeronautics and Space Administration, revealed Lunar orbiting, provided pictures of sections of the moon and recorded data of where to land.

Visitors introduced at the meeting were Philip Hastings, of the Lions International Staff and Aaron Edgar, of Munday, former publisher of the Munday Times, who is helping out this week in the advertising department at the Free Press while Jetty Clare, publisher, is making preparation to go to

Albuquerque, New Mexico with the Haskell County Sheriff's Posse riding club to take part in parade activities on Saturday at the New Mexico State Fair.

Rev. Troy Culpepper, pastor of the First Baptist Church, was introduced as a new member of the Lions Club, having transferred his membership from Linden, Texas.

Hugh Ratliff presided over the meeting; Wallace Cox Jr. led the group singing with Lucy Kennedy at the piano, and Al Hinds gave the invocation.

RETURN HOME

Mr. and Mrs. Raymond Kreger of Black Springs, Arkansas, who have been visiting their mothers, Mrs. Florence Kreger and Mrs. May Larnet and other relatives in this city, returned to their home Saturday.

They also visited his brother, Odie Kreger and wife, and relatives and friends in Fort Worth before coming to Haskell.

Stash That Trash!

This teenager is picking up roadside litter that just one car strews along the nation's highways in a year. Spread out one inch deep, it covers a 108 sq. ft. area. Multiplied by 74,693,000 private passenger cars, that's a lot of litter. To help keep America litter-free and beautiful, Kleenex tissues is sponsoring an anti-litter campaign to encourage the use of car litter baskets, emptied frequently into roadside or home trash disposers. Peak litter season lasts through Labor Day.
