T.E.C. Manager Adkins Says Summer Jobs Are Needed For Local Youth

Wayne Adkins, manager of the local Texas Employment Commission office, this week urged local citizens to make plans to use youth whenever possible during the summer vacation.

"With the end of school, hundreds of youth will be seeking summer jobs, and our ability to help them will be determined by the number of jobs for youth we have listed in our files," Adkins declared.

The TEC manager explained that farmers, housewives, home owners and public agencies can often find constructive work for youth in the home or community. He pointed out that short-term jobs lasting one day or less can mean a great deal to a youth seeking work.

"I wish we had 200 short-term jobs for youth in our files to supplement the week-long, monthly-long, or summer-long jobs, which are rather scarce," Adkins said.

He cited such jobs as cleaning a weed-covered lot, painting a fence, cleaning out an attic or a basement and washing a car as jobs which will give youth a constructive work experience and an opportunity to earn needed money.

"We will be as happy to place such job orders in our files as we are to take orders for summer long jobs, and we urge every citizen or group who might have a job for youth of any duration to give us an order as early as possible so that we can be of maximum assistance to youth this summer," the TEC manager said.

The Texas Employment Commission number is 864-2883.

Mr. and Mrs. Myron Biard announced this week they are combining their two cleaning establishments... Biard's and Service Cleaners... and beginning Tuesday, May 31, will operate from the Service Cleaners location at 516 North First Street.

"By combining the two businesses, installing several pieces of new equipment and operating our business under 'one roof,' we feel we will be better able to serve our customers," Mr. Biard said.

Large Crowds Flock To Haskell Jaycee Rodeo

The fifth annual Jaycee-sponsored Rice Springs Roundup and Rodeo, got off to a flying start here last Thursday at 5:00 p. m. with a gala, all-western parade which wound through downtown streets of Haskell, and at 6:30 p. m., a big barbecue was "dished-up" at the Corral building.

More than 5,000 persons viewed the mile-long parade featuring six riding clubs, plus rodeo contestants, specialty groups, and just plain rip-snorting cowboys.

Queen Named
Miss Joyce Cook, 17-year-old daughter of Mr. and Mrs. Roy Cook, was named queen of the rodeo as the result of selling the most tickets to the show.

First runner-up was Miss Donna Gordon, daughter of Mr. and Mrs. Bobby A. Rogers, and second runner-up was Miss Susan Wainscoat, daughter of Mr. and Mrs. Wayne Wainscoat.

The Seymour Remuda Riding Club, with Olaf Shipman in charge, was named winner of the parade event.

The stock, furnished by Ad-

rian Parker of Saint Jo, was just about as ornery as could be expected and only four riders in the bareback event managed to hang on till the horn, Thursday night.

The first man out of the chute was John Averett astride Hadacol, astride for just a second, that is as he soon found himself a few feet from the chute gate "grabbing a handful of sky."

That set the pace for the first night's performance, as most of the broncs proved too tough for their riders.

Rusty Welch, of Seymour, and Bobby Wedekin, of Stamford, judged the riders; and Buzzy Crenshaw of Nocona clowned for the show.

Here are the winners in the first night performances:
Bareback Bronc Riding: Cecil Richardson, Abilene, on Bullet; second, Hunt Sloan, Newcastle, on top of 'Ole Peaceful'; third, Bob Zachry, Henrietta, riding Sue Lady.

Friday Night
Approximately 1,500 spectators watched some 50 youngsters try to sack 14 goats and cowboys fight to stay on the top of wild creatures Friday night in the second performance of the Jaycee Rodeo.

Leading in calf roping for the night was Bobby Tankersley, of Knox City, and first in barrel racing was Martha Josey, of Post.

Ed Workman, Mineral Wells, captured the night's double-mugging contest.

Eight out of 14 bareback bron-

riders rode out their eight seconds, and four out of six saddle bronc riders stayed upright for the allowed time.

A total of 177 contestants were entered in the 3-day rodeo with the winners announced Saturday night as follows:

Jim Sampson presented the idea of having a Horned Toad race in Haskell. It was suggested that the Jaycees sponsor this project in cooperation with the Chamber of Commerce.

A discussion of "Hey-Day," County Fair and Jaycee Carnival to combine the three events was one of the main topics on the agenda. No definite date has been set.

Charles Stenholm, Executive vice president of Rolling Plains Cotton Growers Association, suggested that Haskell designate some date this summer to the cotton production week. The cotton producers is that merchants advertise cotton merchandise during the promotion week. A cotton queen contest will be sponsored in conjunction with the program. Ten counties to date are sponsoring a queen.

Contestants must be junior or senior in high school. Two cotton outfits, a formal and a sports outfit, will be modeled and contestants will be judged on poise, character and beauty. Each county winner will be invited to ride in the New Year's Cotton Bowl with the queen and her escort as guests of the football game.

The informal type question-and-answer session concerned mostly some of the things Haskell needs to do to qualify for industry.

"Proper planning, strong leadership, perpetuity of purpose, and adequate resources will accelerate the growth of most any town," Smith said.

"Profit by the mistakes of other communities... find out what industry wants... then you have an aggressive plan," said Smith.

In considering a location, most industries want first of all good transportation facilities... the No. one is railroads," Smith pointed out.

Saturday Is "Poppy Day" In Haskell

By wearing memorial poppies on Poppy Day, Saturday, May 28, people of Haskell will be paying tribute to those who gave their lives for America in three wars of this century and will aid the living. Mrs. V. W. Meadors, chairman of the poppy committee unit of the American Legion Auxiliary said as preparations for Poppy Day, Saturday Girl Scouts will assist the Auxiliary in the Poppy Sale.

Disabled Veterans make the Memorial Poppies. They are paid for the work they do, regardless of any government compensation they might be receiving, and the job itself is a relief from long hours spent in a hospital ward. For many it is the only opportunity to earn money during the year.

As each poppy leaves the hands of a disabled man it contributes monetary assistance for necessities and amount of savings for the veteran toward the day he can leave the hospital, and financial assistance for his dependents. These men not only make the poppies for money, but because the program offers them the opportunity to do something productive.

H. V. WOODARD APPOINTED TO CITY COUNCIL VACANCY

Horace V. Woodard, local agricultural equipment dealer, was appointed Tuesday night at the meeting of City Council to the seat vacated earlier by the resignation of Councilman Virgil Tall. Mr. Woodard will serve a term of slightly less than one year. The seat now held by Woodard and the one now held by John Thomas will be subject to public vote next April.

Mr. Woodard was appointed by unanimous decision of the City Council at its regular stated meeting.

Other business of the evening included the appointment of two members to the Board of Directors of the North Central Texas Municipal Water Authority. Those elected by unanimous vote of the Council were Gene Elliot to serve a two-year term to fill the vacancy created by the expiration of the term of office of Charles Smith May 31, 1966; and R. C. Couch, Jr., to serve a term of one year, filling a vacancy created by the removal of Wallace Wooten from the Board when he moved out of the City of Haskell, which disqualified him for the office. Mr. Elliot is laboratory technician at the Haskell Clinic, and Mr. Couch is a local rancher and farmer. Both appointees were given the oath of office in the Mayor's office Wednesday morning following council action.

Recommendations for the appointments were made by the Water Commissioner, Carl Anderson.

Discussion was held concerning a statement of charges received from Yeatts & Decker, Engineers of Abilene, in the amount of \$5,322.44 for services rendered to the City under a contract dated March 12, 1966, signed by the former Mayor, J. E. Walling, Jr., and attested to by Kenneth Thornton, then Assistant City Secretary. The Council instructed Ira Hester, City Secretary, to write Mr. Yeatts and invite him to appear before the Council to explain how such a debt could have been incurred in a 12-day period between the date of the contract and the receiving of bids on the project, it being the contention of the Council that the services already prepared for the city when it was thought that the city would acquire water from Lake Stamford some two years ago.

Goode Construction Company of San Angelo, low bidder on the water project, have also requested to be released from

their bond made to the City of Haskell so that they can undertake another project. The City Attorney was instructed to handle this matter with the company's attorney.

Other business included putting a charge of \$5.00 per day per airplane upon commercial companies using the municipal air strip, or the paying of \$100 per year for the same privilege, at the choice of the users. It was noted that crop dusting type aircraft often did serious damage to the strip, and the frequency of landings required in such operations was a big factor in such damage.

The Council also authorized a Tax Equalization Board of three men to be appointed by the City Secretary-Treasurer, and set the compensation for such service.

Upon recommendation of the Sanitation Commissioner John Thomas, the council voted to raise the garbage rate from 75c to \$1.25 as of next billing.

REPORT FROM CITY HALL

By Douglas B. Finch

A summary of the budget for the City of Haskell appears in the newspaper today. I hope that all citizens will read this budget. It is required by law that the Mayor, who is Budget and Administrative officer of the city, prepare such a budget, and that a notice of public hearing on the budget be given 15 days prior to such hearing. Even though this has never been done in Haskell, it is required by law, and will be done during my tenure of office. The law will be strictly adhered to by your current city administration, and especially in the matter of city officials doing business with the city. This matter has been thoroughly discussed by all members of the city council, and each one understands that no services and goods can be provided for the city, either directly or indirectly, by a duly elected official for which goods or services payment is made from the City Treasury. The penalty for such violation is \$1,000.00 fine—or a claim in the amount of money paid out to such officials, whether paid directly or indirectly through a subsidiary of a business associate, can be made, and the full amount of such payments restored to the city treasury.

Persons reading the budget who might not be familiar with the operation of a governmental entity should not be disturbed unduly by the amount of cash and securities reported or anticipated. This does not mean that the city has a lot of money in the bank which it could be using. This money represents money held in abeyance for the operation, depreciation and replacement of city properties; but more importantly, and probably less known, money held for the retirement of outstanding bonds, which money we are required to accumulate to anticipate interest and principal obligations. The total bonded indebtedness of the City of Haskell is approximately \$460,000.00. The amount of cash also, of course, includes our general or operating fund, from which salaries and current expenses are paid. The City, we are pleased to report, is in good condition; but we do not have an excess of money far beyond our anticipated needs.

The City Council met Tuesday night, May 24, and handled items of business which are reported elsewhere in the newspaper today.

of Howard were in Haskell on Saturday.

Dr. D. L. Cummings of this city is building a new Spanish type residence in the northwest part of the city which will have seven rooms and a hall. This beautiful home will be complete by the first of August and ready for the family to move into.

Two inches of rain fell in the city Tuesday night according to a report given out by Judge P. D. Sanders of this city who keeps a record for the Government for Haskell. A severe electrical storm accompanied the clouds and some damage is reported to the West Texas Utilities Company's wires in the city. No damage is reported from wind or hail.

The first Air Mail letter received in Haskell over the Fort Worth-Chicago service was received here today by B. M. Whitaker, Exhibit Manager of the West Texas Chamber of Commerce and was sent to Mr. Whiteker by the Chamber of Commerce of Oklahoma City.

The following young people motored to Bledsoe's lake last Thursday evening and enjoyed a picnic lunch and wished it were warm enough to swim. Weather conditions did not occupy their thoughts for long, however, for they were soon concerned with the beautiful spread that had been prepared by the young ladies present: Misses Leda Bolin, Alberta Smith, Mary Long, Helen Harbison, Louise Kaigler, Aura Lee Tucker, Lucile Taylor, Marguerite McCollum, Nettie McCollum and Messrs. Von White, Johnnie Townsend, Hollis and Henry Atkeison, Joe Rogers, John Rike, John L. McCollum, Reynolds Wilson, Cecil Shumate, Mr. and Mrs. Alfred Pierson, Mrs. John P. Payne and Mrs. Grady Roberts of Chillicothe.

Mr. J. A. Kemp of the southeast part of the county was in town Tuesday and reported that a small cyclone passed near his place a few days ago. He said that it destroyed the mesquite timber in its path but missed the houses and passed over the fields without damaging crops. That portion of the county is sparsely settled.

TURBULENT YOUTH

FBI Director J. Edgar Hoover writes: "The American college student today is being subjected to a bewildering and dangerous conspiracy perhaps unlike any social challenge ever before encountered by our youth. On many campuses he faces a turbulence built on unrestrained individualism, repulsive dress and speech, outright obscenity, disdain for moral and spiritual values, and disrespect for law and order."

Mr. Hoover goes on to say what is obviously true...that the majority of college students are of a different stamp. But the minority he describes are extremely vocal; they have a gift for making the headlines, and they present to other peoples and nations a malevolently distorted view of the American character and the American attitude. Moreover, our communist enemies... who are fighting on the military, political and economic fronts... are making the most of this and intend to make more.

The failure lies in homes, where old virtues are disregarded and discipline is forgotten. It lies, too, in the colleges where, in many instances, there has been a declining stress on those principles which are the rocks on which American freedom, strength and responsibility are built. This country and all its citizens need to remember that, in Mr. Hoover's words "...liberty and justice are not possible without law and order."

WATCH YOUR HIDE!

Taxes have been described as the price we pay for civilization. By the looks of things we may be getting too civilized.

The editor of the Belton, Texas, Journal and Democrat, observes that: "More taxes seem to be coming. Something ought to give...and many of us hope the Great Society will be curtailed, while we are still alive to enjoy the society we already have. Some government economists look upon us taxpayers as sheep, figuring we can be sheared and sheared again. True, but you can skin a sheep only once."

If any of the voters are worrying about this, they might look in the mirror to find the cause of their concern. When we ask for federal handouts we get them for votes...but we pay for them in taxes, and then some. When we send a tax dollar to Washington, the "free lunch" we get back may only be worth fifty cents, with political overhead, carrying charges and inflation taken out. If we want to give our wool for civilization, but keep our hides for ourselves, we can make our wishes known in the voting booth at every opportunity.

Joe Josselet Competes In National Meet

Joe Josselet, Lubbock Christian College sprinter, ended his first season in college track by competing in the National Jun-

ior College meet in Garden City, Kansas, May 20-21. Josselet was entered in the 100 and 200 yard dashes and the sprint relay. He and ten other LCC tracksters made the trip to the national contest. Hampered much of this year by a pulled thigh muscle, he has been unable to compete in very many meets. He hurt the leg during the Howard County Triangular meet while running the final 100 yard race. He was leading the field with only 20 yards to go when he was forced to drop out.

His absence has definitely been felt on the Chaparral team, as he is the fastest sprinter of the group. Trying to save up for nationals, he has run only sparingly, but ran the second leg on the sprint relay team that finished second in the conference.

His prowess on the cinders is merely a continuation of a brilliant career at Haskell High School, where he advanced to state twice in Class AA competition. He turned in a time of 9.7 to place second in the 100 his senior year.

Besides lettering four years in track, he matched that total in both football and basketball. In both sports he made all-district and all-area twice.

"If Joe could have been at full strength all year, he could have won in most of the meets we entered," commented Coach Hugh Rhodes. "His time in the 100 is better than many of the winning times."

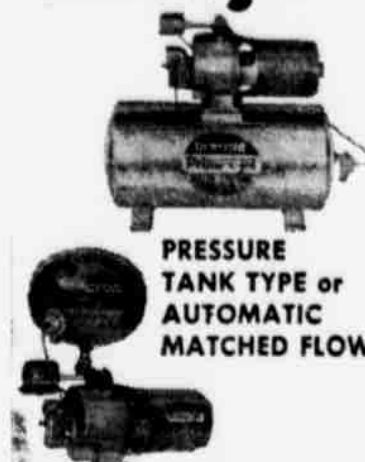

Josselet is already anticipating next year and trying to improve his collegiate record. If he can stay healthy, according to Rhodes, he will be one of the Chaparrals' greatest threats.

He is the son of Mr. and Mrs. Richard Josselet, 105 North 3rd, Haskell. He and his wife, Pamela, live on the LCC campus.

This We Believe ...

BY THE

WEINERT FOURSQUARE GOSPEL CHURCH

THE INTERNATIONAL CHURCH OF THE FOURSQUARE GOSPEL

A Corporation

—interdenominational in spirit, Evangelical in message, international in project — is composed of a company of Christian believers whose aim is to reach with the Foursquare Gospel every nation, kindred, tongue and people throughout the world. This declaration of faith sets forth their fundamental beliefs and incorporates the four major phases of the Foursquare Gospel presenting Jesus Christ as the Savior of the world.

as the Baptizer with the Holy Ghost, as the Healer of our sicknesses, and as our coming King of Kings and Lord of Lords

I. THE HOLY SCRIPTURES

WE BELIEVE that the Holy Bible is the Word of the living God; true, immutable, steadfast, unchangeable, as its author, the Lord Jehovah; that it was written by holy men of old as they were moved upon and inspired by the Holy Spirit; that it is a lighted lamp to guide the feet of a lost world from the depths of sin and sorrow to the heights of righteousness and glory; an unclouded mirror that reveals the face of a crucified Saviour; a plumbline to make straight the life of each individual and community; a sharp two-edged sword to convict of sin and evil doing; a strong cord of love and tenderness to draw the penitent to Christ Jesus; a balm of Gilead, unbreathed by the Holy Spirit, that can heal and quicken each drooping heart; the only true ground of Christian fellowship and unity; the loving call of an infinitely loving God; the solemn warning, the distant thunder of the storm of wrath and retribution that shall overtake the unheeding; a sign post that points to Heaven; a danger signal that warns from Hell; the divine, supreme, and eternal tribunal by whose standards all men, nations, creeds, and motives shall be tried.

Scripture References Where Taught

¹Heaven and earth shall pass away, but my words shall not pass away. Matt. 24:35; Forever, O Lord, Thy Word is settled in Heaven. Ps. 119:89.

²All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: that the man of God may be perfect, thoroughly furnished unto all good works. II Tim. 3:16, 17. ³Thy Word is a lamp unto my feet, and a light unto my path. Ps. 119:105.

⁴We have also a more sure word of prophecy; whereunto ye do well that ye take heed, as unto a light that shineth in a dark place, until the day dawn, and the day star arise in your hearts; knowing this first, that no prophecy of the scripture is of any private interpretation. For the prophecy came not in old time by the will of men; but holy men of God spake as they were moved by the Holy Ghost. II Peter 1:19-21.

⁵Search the scriptures; for in them ye think ye have eternal life: and they are they which testify of me. John 5:39.

⁶Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the Word of truth. II Tim. 2:15. Let us walk by the same rule, let us mind the same thing. Phil. 3:16. (Also I John 4:1; Isa. 8:20; I Thess. 5:21; Acts 17:11; I John 4:6; Jude 3; Eph. 6:17; Ps. 119:59; Phil. 1:9-11.

NOTEBOOK-PATTERNS FOR PROGRESS ECONOMIC DEVELOPMENT ... its benefit to you Economic development means developing all of the basic economic resources of a community or area to their fullest potentials, creating new wealth in the area and attracting wealth from outside the area. It CAUSES a higher standard of living for all of the people, making the community a better place to live, work and play. It PROVIDES improved community facilities, increases job opportunities, especially for the young people, and attracts new people to the town. FIVE BASIC SOURCES FOR ECONOMIC IMPROVEMENT -INDUSTRY—creates new jobs, utilizing and increasing the labor force's value to the community plus helping to share the tax burden for improved community facilities. -TOURISM—adds wealth to the community that was created outside of the area, and makes a favorable impression on tourists as a good place to live. Tourists' dollars circulate many times within a community. -AGRICULTURE—improvement of product yields and quality of products produced plus further processing of the products can add greatly to the economy of an area. -NATURAL RESOURCES—developed in an area change and increase the wealth as well as providing job opportunities. Depletion of the natural resources can cause adverse effects on the economy. -GOVERNMENT—local, state and federal institutions and agencies keep tax money in the area and in some cases, bring in additional wealth from the outside. An object of a sound economic development program is to balance the economy of a community or area from all five sources. ATTENTION and EFFORT should be given to the ones which present the best possible chances for economic development and improvement. Attracting new industries, or the expansion of existing industries, usually provide an excellent opportunity for economic development. Ask your WTU local manager for additional information and services available. Prepared by Area Development Department, West Texas Utilities.

B&PW Members Hear Facts About Parliament Law

Ten members and one guest were present for the regular meeting of the B&PW Club at 7:30 p. m. Tuesday in the Community room of the Haskell National Bank. Mrs. Roy Johnson, president, presided over the meeting and Nettie McCollum read the club collect. Miss McCollum reported \$122.41 in the scholarship fund which came from the "Tasting Bee."

Artie Mae Burkett and Veta Furrh, as delegate and alternate, will represent the B&PW at the state convention in San Antonio, June 3, 4, and 5.

Mrs. Johnson reported that Doris Pace, a graduate senior girl, was the recipient of the scholarship award.

The telephone committee, Ramia Lee Frazier and Dorothy Montgomery were in charge of the program and Mrs. Frazier introduced the speaker for the evening, Mrs. Carolyn Pippin. Topic for the program was "Parliamentary Procedure."

Mrs. Pippin presented some facts concerning the much-heeded subject, "Parliamentary Law," which was first organized in 1215 and adopted in England. In 1295 a model parliament of self government was organized there. Later, in 1873, an Army General, Henry M. Roberts, wrote parliament laws and called them Roberts Rules of Order. Later they were revised and today are our greatest rules for correct parliamentary procedure.

Mrs. Pippin stated that it is very important that a law be adopted and carried out in any form of business.

The projects committee hosted by Clara Bird and Lois Redwine served frosted drinks and candy cup cakes to members and guests during the refreshment hour.

Knipling, Mr. and Mrs. Leonard Kieke, Pastor Gary Erens, Mr. and Mrs. Lewis Corzine, Mr. and Mrs. Fred Kupatt and family, and Mr. and Mrs. Hardy Hewett of Stamford. The occasion was a birthday party in honor of Mrs. Nierdieck.

Guests in the home of Mr. and Mrs. Adolph Ender for supper on Tuesday night of last week were: Mr. and Mrs. Frank Pesch of Bovina, Mr. and Mrs. J. B. Doty, Mr. and Mrs. August Angerman, Mrs. Hilda Koch and Mrs. Emil Kainer.

Mr. and Mrs. Oscar Kainer of Stamford visited with Mrs. Emil Kainer Wednesday evening of last week. On Friday evening Mr. and Mrs. Melvin Lewis of Aspermont visited with Mrs. Kainer.

Several from this community attended the All-Sports Banquet at the Rule High School cafeteria Monday evening of last week. All the boys and girls that participated in football, basketball and tennis and track during the year were recognized as well as their coaches, Bill Tibbetts, football and track coach, Jim McDonald, boys' basketball and tennis coach, Ray Fullenswider, girls' basketball coach, Willie Wilson, girls' tennis coach, and Pierre French, junior high and B team basketball coach. The Good Earth
by MRS. B. F. COBB

Mrs. R. C. Couch, Mrs. Ed Fouts, Mrs. S. G. Cobb, Mrs. I. N. Simmons, Mrs. E. E. Buntyn and I went to Munday to see the flower show, "Banking With Flowers." Although this was Munday's Garden Club's first show to stage...they did it like veterans.

The center of interest caught one's eye as they entered the building. A garden setting of white wrought iron furniture, surrounding a fountain on whose waters floated roses and greenery. A little white cart was ablaze with color from pots of gaily colored flowers, vases of iris lined the window sill. Pots of flowers were so arranged as to look natural.

Each class was given an individual table. Mrs. Emmet Wyche, Haskell Garden Club's National Flower Show Judge, said the show was easy to judge as there was no crowding of classes. Mrs. Wyche was one of three to judge the show.

Mrs. W. E. Brawley, of Munday, was chairman of the show. She escorted us through the exhibits with great pride and praise for all who helped to stage the show.

A rainbow of iris, roses, snapdragons, phlox and Gaillardia made a very pleasing horticultural display.

The Girl Scouts had an exhibit of arrangements that showed real talent for girls so young.

Munday was a riot of color. Yards throughout town were blooming with roses, iris, amaryllis and even a peony of glowing pink. Mrs. Joe Roberts had a row of pink and red roses that were outstanding in color and size. The pink roses were saucer size.

Wheat and field after field of potatoes around Munday show promise of a bumper crop. With all the hail that hit Haskell, there are still many flowers throughout town.

Mrs. Allie Ford has a yardful of red flowers. She says that any other color she plants, died. Red radianse roses and wild, red verbenia turn the front yard into a thing of beauty. Blaze roses completely cover a trellis and stretch across the back yard fence.

Mrs. Dennis Ratliff's yard with its pink bush honeysuckle and roses and iris is truly one of Haskell's attractions. I wish every vacant lot in

Haskell could be as well cared for as is the Dennis Ratliff's vacant one. Pyracantha, pecans and other shrubs and trees make the lot a dream place instead of the nightmare that many vacant lots in Haskell are.

Mr. and Mrs. Bill Holt live in the country, but enjoy color and beauty from blaze roses.

Mrs. Fay Self's amaryllis and iris look lovely against a background of differt shrubs.

Mrs. Beatrice Livengood's snapdragons are literally covered with long spikes of yellow, orange and red blossoms that would rival hot house flowers.

Mrs. Kirby Kirkpatrick is enjoying pansies, amaryllis and many varieties of iris.

Mrs. R. C. Couch, Sr.'s iris have really put on a show in spite of the hail. Her day lilies are budding.

Mrs. Ed Fouts' climbing rose is a conversation piece. It is so covered with huge blossoms the foliage is nearly covered.

Mr. and Mrs. F. W. Martin's yard makes a pretty picture each morning, as I look out my front window. A border of pink oxylis seem to blaze with color. Arbor Vitae, mandina and other shrubs form a background for the oxylis and amaryllis in the front bed. Corn about six and eight inches high gives promise of roasting ears to be eaten in a few months.

Mrs. Alfred Turnbow has a variety of different plants blooming in spite of the hail. Poppies, verbena, roses, iris and annual phlox are all in bloom. Daisies are beginning to bud. Her dahlias are four to six inches tall. One bed is started with periwinkles, marigolds, colens and dahlias.

Mrs. Turnbow's yard should give her color all summer for as one flower fades and dies another should take over.
