Rev. Leon Turner of Gainesville, Tex., was a Burk Burnett visitor Wednesday. Rev. Turner is a former pastor of the First Methodist Church here.

TEENAGERS PAY FINES FOR SWIMMING POOL MISCHIEF

Ten teenage boys, aged 16, 17 and 18, appeared before Judge Cruce last Wednesday to answer charges of malicious mischief brought against them. The Judge fined each, in turn, \$25 and warned them not to repeat their actions.

The boys had decided to enjoy themselves at the Burk Swim Pool one evening and got carried away by their adventurous spirit, turning their bit of fun into destructive actions. Pool property loss was estimated at approximately \$50, which the youths will have to pay.

This bit of adventure could easily have ended in tragedy, for one of the items removed from the pool area was a very long metal pole, used when vacuuming the pool.

It was tossed over the fence and lay beneath a hightension wire. If one of the boys had raised it straight into the air and touched the dangerous wire, he would not have been able to appear in court. He would be dead.

One parent only, attended the short trial of his son, and heard him promise the Judge, as did the others, that such activity would not happen again by him.

The Court suggested that in future they utilize the Youth Center and Swim Pool as they were intended. He explained how much effort, time and work were donated by the citizens of the town to raise money to build and operate these places for their pleasure.

Local School Superintendent Is Recent Lions Club Speaker

Superintendent of Schools, L. C. Evans, was the guest speaker, July 25th, at the regular Lions Club meeting held in the Town Hall.

He told the members of the growth of the Burk Burnett School System since 1950.

In that year, there were just 977 students enrolled in all of the schools. By 1967, there were 3,167; a growth of 2,190 pupils. The projection for the school year of 1967-68 is 3,698; an enrollment upsurge of 531 students.

In 1950, Hardin Grade School consisted of 15 acres and the High School contained 8 acres of campus.

Southside School was built on 12 acres in 1960 as was the Sheppard-Burk Elementary.

In 1961, 42.7 acres of ground was purchased and the new High School on Kramer Road, was erected. The old High School then became the Junior High.

24 GIRLS ARE GRADUATED FROM BABY SITTING COURSE

A class of 24 girls received diplomas stating they have graduated from a baby sitting course. They are now certified sitters.

The classes were organized by the Community Service Center whose director is Mrs. Ken Blankenship, and taught by Miss Thelma Wirges, Wichita County Home Demonstration Agent and Mrs. Kay Crone, Associate County Home Demonstration Agent.

Part of a series from the Home Demonstration Office, the project was carried out in the Texas Electric Reddy Room from July 24 to 28.

Sue Toalson, one of the students, walked three miles to attend the classes.

Some of the subjects covered were: understanding children; their need for both physical and emotional care; how to amuse small children, what things they enjoy doing; what toys to use to keep them safe and amused; points of first aid for use in emergencies which some times arise while one is baby sitting; do's and don'ts for sitters; dressing, feeding and preparing a child for bed; the requirements of a successful sitter; such as, love and understanding for children; being in good health when accepting the job; having businesslike ways; always being neat and clean and prepared for the job; using good manners and ethics and being mature and able to adapt.

The subject of keeping a memo sheet, with telephone numbers of the parents, police and fire department on it and how to proceed in an emergency. Also, a doctor's number. Then sitters reports and an

experience records were talked about.

The sitters were told how to keep a report, written to present to the parents, so that they wouldn't forget to pass on to them, anything important.

The experience record would be a record of all the past sitting jobs held by the sitter, to be used as a recommendation when going to another job.

Teenagers are welcome sitters to most parents, as they are young and children enjoy being with them.

There are over 1 million teenage baby sitters in the country and not all of them are girls.

Boys are more and more, becoming interested in the job of baby sitting and children love them.

Safety was stressed as the most important part of the job. Keeping the children safe, by picking up any item with which they might harm themselves; keeping matches out of reach; and never leaving a small child in a bath tub alone — even for a second.

One more important item was mentioned. That is that the sitter should always let her parents know where she is sitting and what time to expect her home.

One bit of advice given with emphasis, was to never open the door to a stranger and if anything unusual occurs, to call the police immediately.

Baby sitting is a fine way to earn money for an evening of fun or to begin to save for that college career.

If you are interested in baby sitting, or know of a teenager who is, call 569-1831, which is the Community Service Center, and they will be glad to tell you how to go about it.

BABY SITTERS GRADUATE

A class of 24 girls was presented graduation certificates by the County Home Demonstration Office, Thursday, in the Texas Electric Reddy Room. The class was a project of the Community Service Center. Mrs. Kay Crone, Associate County Home Demonstration Agent taught the girls.

SITTERS' AIDS SHOWN

Sue Toalson, left, who walked three miles to attend the classes, and Evie Richardson, display the kits they made of towels. The kits are filled with toys, books and other items which will help to amuse small children with whom they may sit.

READY FOR A NEW CHAPTER

IN THE PUBLIC INTEREST

Some interesting facts regarding the public interest in national labor law reform came to light when Local 1264, International Brotherhood of Electrical Workers, recently went on strike at WALA-TV, Mobile, Alabama.

The union leaders urged the station's advertisers, both local and national, to withdraw their advertising. H. Ray McGuire, manager of the station, estimates that between \$150,000 and \$250,000 worth of advertising was lost by this pressure during the strike which lasted more than a year.

Local retailers, who handled some of the products for which national advertising went off the air, continued to advertise throughout the strike, and apparently benefited. Even local institutions particularly sensitive to local public opinion, such as banks, and savings and loan associations, continued their advertising over the station.

These local industries and institutions defied the boycott, and even the smallest and most vulnerable local businesses survived its terrors. This outpouring of public support may be another indication that the public is ready for national labor law reform. A recent public opinion survey by Opinion Research Corporation showed that the public has never shown a greater interest and concern across the board for labor matters than it does today. The time for labor law reform is now!

Close Up Public Records?

When the United States became the "Land of the Free" so many years ago, the Founding Fathers decided on a pretty good method of keeping it that way. They insured that all public records would be open to the public—period. No extra special breed of person had any kind of fancy rights that any of the rest of didn't have.

But now the bureaucrats seem to think that too much information about ourselves may be bad for us. There's a big move on in a number of places to close up the public records letting only the privileged few have a peek at them when somebody with a title says it's all right.

The idea behind it seems to be that by hiding all information, the state can protect us from direct mail firms who provide information on new products, new services, new industrial techniques.

When someone starts "protecting" us by locking up the public records—for whatever purported reason—beware! To give someone the right to say what part of the public record will be revealed and what will be hidden is giving away part of your American birthright.

When someone decides to shut up sources of public information—for our own good—we're in trouble. Watch out!

Color is one of the best tools for bringing a fresh look to the interior of your home, suggests Thelma Wirges, county home demonstration agent.

Remember these guidelines for selecting colors for walls. The walls of a room serve as the background for furnishings. Off-white or warm beige are always a safe choice, but you can use almost any color if it is light and neutralized—not bright. Gold or green are harmonious with many colors.

Rooms with off-white walls need accent colors in the furnishings to keep them interesting. Consider the color for rugs, furniture, upholstery and draperies in planning your wall color or any new upholstery.

Remember that a large amount of green, blue, or blue-green will make a room seem larger and cooler. A large amount of red, orange, yellow, or red-orange will make a room seem smaller and warmer.

If you are planning new draperies, you can make them appear a part of the background if they are similar color to the walls and are plain in design. Figured draperies can be the main accent in a room. An odd window can be made into a charming focal point for the entire room, particularly with the use of whimsical shades, unusual valances, and surrounding appointments.

If you don't like strong contrasts in colors used together, choose related colors. These are colors that have something in common such as orange, orange-yellow, yellow, and yellow-green, green or blue, and blue-green and several other combinations.

If you like more contrast, use contrasting colors such as red and green or blue and orange together. Have one more grayed than the other for the larger areas and use the brighter one in smaller amounts.

Policyholder Questions Answered by the Institute of Life Insurance 277 Park Ave., N.Y., 10017

Q. For years I was a self-employed civil engineer. I carried a family health insurance policy which provided comprehensive hospital and medical coverage for me and my wife and four children. A few months ago, I took a salaried position with a municipal government and came under a group program which provides a major medical plan for me and my family at little cost to me each month. Should I drop my family policy?

A. Now is the time to check both health insurance programs which protect you. If necessary, get help from your insurance man and the personnel director at your office. You may find that you have overlapping insurance in some areas of coverage and not enough in another. If this is the case, your insurance man will help you tailor your family policy to augment your group coverage. You probably will save some premium dollars here. You might want to consider putting the money toward a disability income policy which would pay you straight cash when you are disabled—money you can use to pay ordinary living expenses while your health expense programs pay the hospital-medical bills.

Q. How many insurance companies in the United States provide health insurance?

A. In 1965, the total was 1007. That's probably higher now. That year there were also 75 Blue Cross plans, 75 Blue Shield plans, and nearly 600 independent programs, providing coverage. The number of insurance companies issuing health care expense coverage nearly doubled in 10 years. In 1965, there was 587 companies.

Q. How much money do insurance companies pay out each year in health care expense benefits?

A. In 1966, the total was \$5.6 billion, or about \$400 million more than the year before.

Mrs. John Jones, chairman of the Wichita County Home Improvement Subcommittee, will take suggestions for programs and other educational material of interest to the Wichita County homemaker.

Style is the key word in floor coverings this year, says Thelma Wirges, county home demonstration agent.

For the woman who wants a faddish touch, the man who wants a comfortable den, and the college kid who wants the stylish dorm room, there are furs for the floors. There are jungles of skins in all kinds and prices—the small to giant size calfskins with all kinds of markings, the real zebra, and the ferocious (but fake) tiger, these colorful, flamboyant fur floor coverings are predicted to be as big next fall as they were last season.

Shags of the rough plush texture are very popular. They are used mainly in solid colors of deep red, pale blue, and rust. Solid colored plush wall-to-wall carpet emphasizes the bronze or burnished shades of gold and olive or celery green.

Generally speaking, pattern in on the subdued side. The no-design prevails, but some originals and Bokhara type rugs and floral needlepoint are appearing.

Color, when it is used, is brilliant, but there is presently a trend toward the no-color look. Oyster white, parchment, Spanish straw, and putty are some of the more popular natural colors appearing on the market. Bright colors include cerise, bright marigold, earth tones of burnished shades, and green.

PRIDE AND JOY!

Proud Father... you bet... this is my child... she's sweet, trusting, lovely and brings great joy to my life. I work harder in order to better my income so that I can provide for her. She thrills me, and already I am making plans for her future. Right now we are all dressed up and getting ready to go to church. I love her, and I want the best for her. I want her to know early about God, and that he means a lot to me, and I want God to mean a lot to her, too!

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Question and Answer Column No. 67-28

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q—My wife and I both work. Can I claim her exemption for income tax withholding purposes?

A—Yes you can if she does not also claim her exemption. The law does not permit two taxpayers to claim the same exemption.

To make a change in the number of exemptions claimed, file a new withholding certificate, Form W-4, with your employer. If you decide to take your wife's exemption, she must file a Form W-4 to drop her exemption with her employer.

Q—Do I have to keep track of the value of our wedding gifts for tax purposes?

A—No, these gifts won't be taxable to you.

Q—Are there any booklets that explain the federal tax on trucks?

A—The highway use tax on motor vehicles is explained in Publication No. 349, Federal Use Tax on Trucks, Truck Tractors, and Buses. Send a post card to your district office for a free copy.

Those liable for this tax must file Form 2290, Federal Use Tax Return on Highway Motor Vehicle, by August 31 to cover the tax period beginning July 1.

Q—Is a foreign exchange student taxed on income earned in the U.S.?

A—Money earned in this country will most likely be

Employee if more than the maximum of \$290.40 is withheld from your combined salaries for the year, the excess may be taken as a credit against your income tax when you file your return next year.

Two pictures taken during the private conversations between President Lyndon B. Johnson and Premier Aleksei N. Kosygin of the Soviet Union during their history-making Hollybush conference in Glassboro, N.J. The pictures portray vividly the earnestness and intensity of the talks. The third man in the picture to the left is the interpreter.
