Bits Of THIS-N-THAT

By BETTY BOYD

I want to thank everyone who was so nice to me in reference to the article I wrote in my last column.

Here is what a boy, in prison for nearly six years and there still had to say about it in a letter to his parents, and I quote: "I got the paper (Burkburnett Star) tonight and I am real happy. I know now that there is someone in that town that will stand up and say what she feels. I hope she keeps on and don't let those people change her mind. I am for Betty Boyd all the way. I feel like writing to her myself. I could sure tell those kids a

thing or two. Let them know pulling time is no fun at all. Well, just the same, I hope she keeps up the good work."

I hope every boy in town will receive this message.

Running each day, if only for a few hundred yards at a jogging pace, is good for the heart and will help one to shed pounds and waistline inches.

Well, it sure beats giving up all those good foods!

A man in Lansing, Michigan, named Joseph G. Salmon, sure takes a ribbing from his friends. He can't swim.

Did you read about the gal in Wichita Falls who went to the County Court House saying she was filing for a divorce and would like to have a temporary restraining order issued against her husband as soon as possible?

Well, the clerk told her it would take a day or so to get it out and the lady replied, "Oh, that's all right. I've got him locked in the bathroom now."

I read recently, that crime in the United States is increasing twice as fast as the population. There is one chance in 58 that YOU could be the next victim.

Gives one something to think about, doesn't it?

A man and his wife boarded an elevator along with several other passengers. Suddenly the lady burped. Turning to her husband, she said, "You and your darned ventriloquism!"

Fast thinking, gal!

Researchers are trying to find a vaccine which will prevent cavities and toothaches. They have discovered bacteria called streptococci, which are connected with cavities.

If they produce the vaccine to prevent cavities and toothaches, they may give dentists and manufacturers of aspirin products, a headache.

You are only young once. After that you have to think up some other excuse.

—Billy Arthur

It seems that Johns Hopkins, world famous medical school, is performing "trans-sexual operations." That is, they are changing men into women and vice-versa.

Are you ready for a change? Really!

A robbery convict was plotting an escape. He dressed as a woman and used a plausible looking visitor's pass and yet the attempt failed.

He got so flustered when the guard flirted with him, he wobbled off his high heels and all when for naught. "He looked beautiful," said the guard.

CARD OF THANKS

Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow in the loss of our mother, Mrs. Callie Roberts. For the beautiful service, cards, phone calls, floral offerings and other kindnesses, we are deeply grateful.

OPTIMISTS HEAR BRADSHAW SPEAK AT THURSDAY MEET

The Optimist Club gathered at Underwoods in Parker Plaza, Thursday, August 10, for their regular meeting, to hear John Bradshaw, from the District Attorney's Office, speak about juvenile offenders and to present certificates of appreciation to several deserving citizens.

Joe Viavattene, president, presided.

John Bradshaw explained procedures used to rehabilitate or prosecute teenage offenders in Wichita County. Persons 17 years old or over are remanded to his office.

"If the youth is a first time offender and appears repentive and receptive, he is put on non-judicial probation. We do all in our power to steer him straight and prevent the stigma of a record from following him into the future," stated Bradshaw.

He went on to say that this process works only if the parents are cooperative.

This year, of 127 cases handled in this manner, 1 1/2% only have been remanded for prosecution.

Bradshaw spoke of the law which gives teenagers the same rights and protection adults receive. They are warned of their rights when they are apprehended.

"The efforts of individuals and organizations such as the Optimist Club," he said, "can do much to help fight the problem of juvenile offenders."

Certificates of appreciation were presented to Don Hughes, chairman of Girls' Softball; Clarence Morrow and Vic Fore, of Boys Little League. Bill Holland, not present, will receive a certificate, also.

Optimists Present Certificates

Joe Viavattene, President of the Optimist Club, presented certificates of appreciation to these men for their participation in the Little League Baseball program. From the left they are: Joe Viavattene, president of the club; Don Hughes, chairman of the Girls' Softball League; Clarence Morrow and Vic Fore, of Boys' Little League. Another award recipient is Bill Holland, who was not present.

John Bradshaw Speaks

John Bradshaw from the District Attorney's Office in Wichita Falls, was guest speaker at the Optimist Club Thursday. He spoke about the procedures for handling juvenile offenders in Wichita County.

UNIQUE PROJECT

Caravan America, a privately financed project for the betterment of relations between Americans and the peoples of other lands, is demonstrating that even a program with international aspects can be conducted effectively without the expenditure of taxpayers' funds.

This unique project, which is sponsored by the Wally Byam Foundation of Bakersfield, Calif., a non-profit organization, makes automobiles and travel trailers available to foreign visitors for cross-country tours of the United States. This summer 40 British and French families are taking such trips in caravan fashion.

As explained by Mrs. Carolyn Bennett Patterson, chairman of the Foundation's board, the organization arranged for the use of the cars and trailers without cost to the foreign visitors "because of a strongly held conviction that this method of travel offers the surest and best means for them to acquire clear, well-rounded and lasting impressions of America and Americans."

"Trips of this people-to-people nature without the constraints that sometimes inhibit governmental involvement, are certain to help erase misconceptions that may prevail abroad about our country and its citizens," she added.

As the caravans roll through grass-roots America, let's wave a hearty hello!

Incentive and Opportunity Essential

The oil industry provides an excellent illustration of why this country cannot afford government policies that restrict or, in any way, curb capital investment for expansion. In reviewing the year 1966 and looking forward into 1967, R. G. Follis, retiring head of a worldwide oil company, cites figures on petroleum output and demand that speak for themselves.

U.S. domestic demand in 1966 was up nearly 5 per cent over the preceding year. Free world demand gained more than 9 per cent in the same period. Expansion of the economy and increasing military requirements spurred the general advance in U. S. oil consumption. Motor gasoline and commercial jet fuel demands were particularly strong—the latter rising nearly 22 per cent. The outlook for 1967 is for a further increase of 3.5 per cent domestically and about 9 per cent abroad.

The company official reports that by 1976, the free world is expected to be consuming 50 million barrels of oil a day, 75 per cent more than in the current year. To meet this astronomical demand will require new capital investment probably in excess of \$150 billion. "Nevertheless", in the words of Mr. Follis, "the industry is fully capable of meeting its capital requirements, given a price structure that permits capital generation, and government policies—both at home and abroad—that encourage reinvestment."

The price of a gallon of gasoline 10 years from now will hinge to a great extent on the degree of incentive and opportunity that is preserved in all branches of the oil industry

The rule of liberal fallacies, with respect to policing, housing and welfare, must be shattered by realistic, respectable citizens determined that this great land, which we wouldn't give back to the Indians, won't fall into the hands of urban savages bent on murder, theft and destruction.

The idea that one group of Americans possesses an unrestricted right to break local laws, to demonstrate and to engage in civil disobedience is at the root of the terrorism striking many cities in this land.

The riots of this tragic summer point up the truth that "law and order" will have to be the watchwords of responsible Americans in the year ahead. The presidential election campaign should be keyed to civic security, for decent citizens must have security in their homes, businesses and communities. The ordeal by urban terrorism must be ended.

facts of junglelike behavior evidenced in the Detroit rioting, for example. If this kind of behavior is confronted with, then the civilized people of Michigan and other states have to employ sufficiently strong police and population control methods to prevent cities becoming jungles. It won't suffice to pay blackmail by means of anti-poverty programs. Detroit, for that matter, had one of the biggest anti-poverty programs in the nation. It didn't prevent rioting and looting.

ATTENTION

PARENTS OF SIX YEAR OLD CHILDREN

Pupils entering 1st grade of the Burkburnett Public Schools for 1967-68 will be admitted by birth certificate and shot record showing immunization for smallpox, diphtheria, and polio. This is very necessary in helping us to establish records on each child that is so necessary in today's living and establishing facts necessary for Social Security and other essential information.

We ask that you extend every effort in having this birth certificate and present same in enrolling your child in school.

LIBRARY CORNER

Did you know Burkburnett hit the big time this month in a national magazine? The Burk Kings football team is the subject of the opening paragraphs of "Roughing It in the Football Bushes" in Harper's Magazine, one of the glossier periodicals at 75c per copy. The library also subscribes to SPORTS ILLUSTRATED, a weekly sports potpourri, and has several books on football, including HOW TO WATCH FOOTBALL ON TELEVISION.

If we are a little short on football books, we make up for the lack with baseball books with at least a dozen — from books on the American League and the National League to HIGHLIGHTS OF THE WORLD SERIES, and a special book, THE GIANTS AND THE DODGERS. We have half a dozen on baseball heroes past and present and some single biographies.

We are almost as well prepared for golfers and if you play with the Joe Salters, watch your swing, for they have been reading the game. We have one entitled THE NINE EAD SHOTS OF GOLF in case you haven't learned all the bad shots yet. For those interested in the history of golf there is a beautifully illustrated encyclopedia-sized history of six centuries of the game.

Available at the library is at least one book on each of the following sports: basketball, soccer, fencing, auto racing, billiards, horseback riding, water skiing, sailing, falconry, canoeing, fishing, hunting, and shooting. TEACHING KIDS TO SHOOT is a compact guide for fathers and instructors. THE SPORTSMAN'S NOTEBOOK includes fishing and hunting tips on popular American game fish and small game and has a chapter on hunting dogs.

THE SPORTS ANSWER BOOK from Bill Mazer's "NBC Challenge Round" program may settle a sports argument for you and THE WORLD ALMANAC, 1967 devotes nearly 100 pages to sports records.

Be a sport. Come in and dream a little with THE COMPLETE BOOK OF WINTER SPORTS and its two companions on skiing and ice skating. The pictures are refreshing.

Mrs. E. W. Roderick, Mrs. J. A. Fouts, Mrs. Clarence Payton, and Mrs. James Roderick are the newly elected officers of the Wichita County Home Demonstration Council. They will assume the duties of their office the first of the year but are elected early to receive training.

Delegates to the state meeting of the Texas Home Demonstration Association were recently elected to represent Wichita County. These delegates will bring reports from the state association back to the county. Mrs. J. A. Fouts, Mrs. Doyle McCada, and Mrs. James Roderick are the delegates. Their alternates are Mrs. Floyd Rodgers, Mrs. George Wyatt, and Mrs. Zearl Gilbreath.

Connie Swinford and Alice Eurbank represented Wichita County in the District III 4-H Dress Revue held in Vernon Friday.

Use an elegant upholstery cotton to make a bedspread and matching window shades. The heavy upholstery fabric is ideal for shades. All you need to do is cut it to size, hem the edges, and tack it to a window shade roller. If you like, you can line shades on the reverse side with an iron-on cotton interfacing.

To heat muffins, biscuits, or rolls, place them in a paper bag and twist the top lightly. Moist-

ten the bag, then heat in the oven.

Labor-saving devices mean that the homemaker spends less energy for her usual work, and needs less food. It used to take 240 calories to do the family wash plus 50 calories to hang the clothes on the line. Today it takes only 15 calories to put the clothes in the automatic washer and dryer.

It's good training for the children to join you in shopping to help you carry the groceries home. However, you as a homemaker should do the actual shopping in order to choose better quality and more economical foods.

Make mending before laundering a household rule. A sewing basket in the laundry area is an excellent reminder and handy for quick repairs.

The annual Wichita County Home Demonstration Club Day Camp was held Wednesday, August 9 in the Burkburnett Town Hall, beginning at 9:30 a.m. The annual day of play and recreation is a break in the educational program in home economics for members of home demonstration clubs. The camp is sponsored by the Wichita County Home Demonstration Council.

Wichita County Program Building Subcommittees are meeting to work on suggestions and programs in Family Living for another year. Chairman of these subcommittees are: Clothing, Mrs. John Lofton; Foods, Mrs. J. A. Fouts; Home Improvement, Mrs. Bee Bryant; and

Organization, Mrs. E. W. Roderick. These subcommittees plan for educational work for club and non-club groups and consider suggestions and problems from any and all individuals and groups.

Miss Connie Swinford has been selected Wichita County Cotton Queen and will represent Wichita County at the Rolling Plains Cotton Queen Contest.

Thirty-two counties make up the Rolling Plains Contest which will be held August 26 in Stamford, Tex. The contest will be at 8 p.m. in the Stamford High School Auditorium.

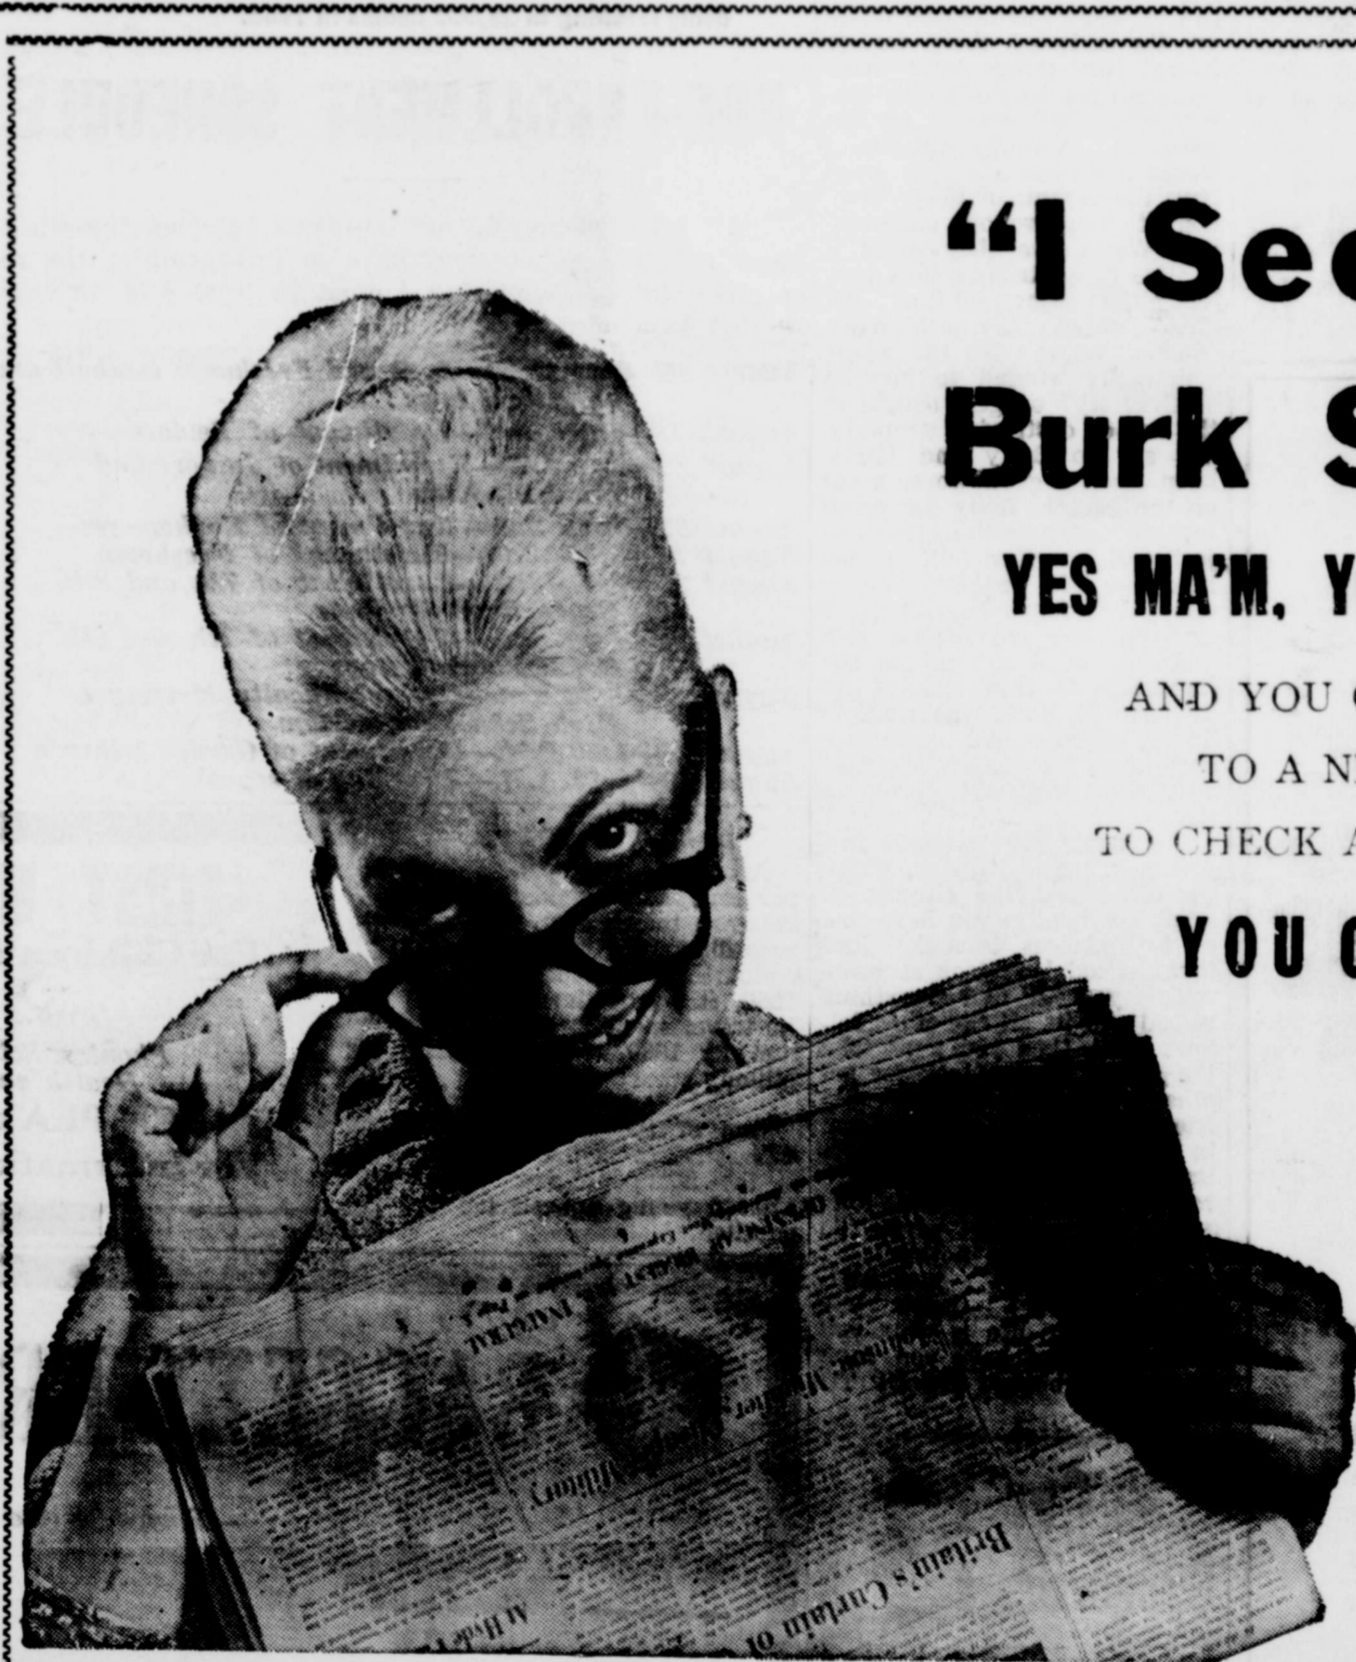

As a contestant Miss Swinford will model a cotton formal and a cotton sports outfit. She will also give a two-minute talk on cotton and answer questions about cotton.

Winners in the contest will participate in the state contest during the State Fair of Texas where a state queen will be selected.

'Back to School for Parents' will be a program series presented by Thelma Wirges, county home demonstration agent, at the Lincoln Street Community Service Center the last of August. The series will include information on the importance of an education, what one may expect from a child with an education, clothing for school children, health and health habits, and food for the school child. For complete information contact the Lincoln Street Center.

Firemen Douse Engine Fire

This car burst into flames, Monday, in front of the Post Office. Firemen quickly doused the fire and prevented further serious damage. Chief Thornton aims the water at a yet smoking area of the engine.

BURKBURNETT OPTI-BULLET

City Manager Gary Bean gave a most informative talk to the Opti Thursday, Aug. 8. Gary tells us that the city is in an outstanding position, finance, water and maintenance wise at the present time. We can give a very big thank you to the city council and Mayor. Gary stated, We too are pleased with our council but feel Gary was far too modest. A lot of the hard work and credit certainly belongs to him. So, the next time you meet a councilman, or Gary — why not tell him what a fine job he is doing. I am sure there are enough "Pessimist" telling them what a lousy job they are doing. **THANKS COUNCILMEN, AND MANAGER.**

Hats off to our favorite gal friend! and to her boss, Harry Dodson. We of the Optimist Club are dedicated to youth work. Our motto "Friend of the Boy" is world known. We work many hours (ALL VOLUNTARY) for the youth of our community. Many of our members don't even have children or they are all grown and married, yet all our efforts to provide a wholesome, constructive recreational facilities can be destroyed by a few, and a very few youngsters.

If the parents of all youngsters in our community would take time to visit the swim pool, the parks, rest rooms in the parks, baseball fields and youth center just to see what has been done by a lot of people, then to have one or two destroy property belonging to everyone, I am sure there would be less destructive, and a lot more of "what for" when their kids are caught in the act! I wonder what the fathers would say if their sons took a can of spray enamel and wrote on the side of their car or house the things that have been written on the youth center and rest rooms in the parks???? Another question I would like to ask is, How much have the parents of these "few" done to improve our community? Where are they when it is time to contribute to a project either money or time? We know where they are when "Sonny" doesn't get the whole community handed to him on a silver tray" or gets caught in the act of destroying property. We say to Betty and Harry, keep up the good work, a pat on the back to Betty for printing the acts, we think the majority of our fine folk are behind you 100 percent. And to our police force, keep doing a fine job, we are behind you, and the judge as well as the hundreds of fine citizens we do have in Burk who want to build, improve and make our community a better, prettier and more enjoyable place to live.

We firmly believe if you feel that you are mistreated, unappreciated and the citizens of Burk unfriendly you have one of two choices to make, first take a good long look at yourself, if you still feel everything is bad and its all the other fellows fault, then you must take the second choice, look for another community to live cause friend you done settled down in the wrong town! We here in Burk have found that we have received, in return, two fold, everything we have given. So if you ain't gettin nothin'... ask yourself... just what your givin'???? Cause you know partner, life is what you make it. What have you done to make it better? ITS UP TO YOU!

ODDLY ENOUGH

(FIRE PROTECTION)

Worship of fire as a thing of mystery was part of an ancient religion in Iran. The origin of fire and myth may have come from the classic Greek tale of Prometheus who stole fire from the sun's chariot to benefit mankind.

In our lives fire has many "real" meanings—some of which are not very pleasant. Fire kills an average of 11,500 people, injures another 69,000 and causes an average of \$1.3 billion in property damage each year.

The tragic and costly consequences of raging fire are often prevented by modern steel pipe fire protection systems. Built-in automatic sprinkler systems not only help extinguish fire, they also provide immediate fire detection, and when supplied with suitable instruments act as a fire alarm.

Mrs. Roberts Services Held

Mrs. Callie C. Roberts, 96, 111 North Avenue D, died at her home Tuesday following a long illness.

Born June 22, 1871, in Tennessee, she moved to Burkburnett in 1941, where she lived with her daughter, Mrs. Gertie Erown. She was a member of the First Methodist Church.

Services were held at 2 p.m. Wednesday in the First Methodist Church, with Rev. Don Youngblood, pastor, officiating. Burial was in the Hopewell Cemetery near Bowie under the direction of Owens - Brunley Funeral Home of Burkburnett.

Other survivors include a son, George of Burkburnett; six grandchildren, 16 great-grandchildren and six great-great-grandchildren.

Pallbearers were grandsons: Wilbur P. Roberts, George Roberts Jr., Guy J. Roberts, Paul R. Roberts, George Hodges, Eddie Eastman and Jerry Hodges.

September Vows Set For Couple In San Antonio

Mrs. Rupert J. Friedls announces the approaching marriage of her daughter, Paula, to Gary Baldrige. The wedding will take place Sept. 2 in Our Lady of Grace Catholic Church. Miss Friedls, daughter of the late Mr. Rupert J. Friedls, is a graduate of Providence High School and attended San Antonio College.

The Bride-Groom Elect is the son of Mr. and Mrs. Jim Matvey of Fresno, Calif. He is serving in the U. S. Army stationed at Fort Sam Houston.

Miss Friedls is a granddaughter of Mrs. Audred Friedls and the late Paul E. Friedls of San Antonio. She is also the great granddaughter of Mr. and Mrs. S. E. Malone, Sr. and Mr. and Mrs. J. D. Welch, old time settlers of Burkburnett.

The 4-H motto is: To make the best better.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article IX of the Constitution of the State of Texas be amended by adding a new Section 13 thereto to read as follows: "Section 13. Notwithstanding any other section of this article, the Legislature in providing for the creation, establishment, maintenance, and operation of a hospital district shall not be required to provide that such district shall assume full responsibility for the establishment, maintenance, support, or operation of mental health services or mental retardation services including the operation of any community mental health centers, community mental retardation centers or community mental health and mental retardation centers which may exist or be thereafter established within the boundaries of such district, nor shall the Legislature be required to provide that such district shall assume full responsibility of public health department units and clinics and related public health activities or services, and the Legislature shall not be required to restrict the power of any municipality or political subdivision to levy taxes or issue bonds or other obligations or to expend public moneys for the establishment, maintenance, support, or operation of mental health services, mental retardation services, public health units or clinics or related public health activities or services or the operation of such community mental health or mental retardation centers within the boundaries of the hospital districts; and unless a statute creating a hospital district shall expressly prohibit participation by any entity other than the hospital district in the establishment, maintenance, or support of mental health services, mental retardation services, public health units or clinics or related public health activities or services, public health units or clinics or related public health activities within or partly within the boundaries of any hospital district, any municipality or any other political subdivision or state-supported entity within the hospital district may participate in the establishment, maintenance, and support of mental health services, mental retardation services, public health units and clinics and related public health activities and may levy taxes, issue bonds or other obligations, and expend public moneys for such purposes as provided by law." Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 11, 1967, at which election all ballots shall have printed thereon the following: "FOR the constitutional amendment to permit municipalities, other political subdivisions, and state-supported entities located within hospital districts to participate in the establishment, maintenance, support, or operation of mental health services, mental retardation services, or public health services." "AGAINST the constitutional amendment to permit municipalities, other political subdivisions, and state-supported entities located within hospital districts to participate in the establishment, maintenance, support, or operation of mental health services, mental retardation services, or public health services."

This highway began to decay the day that it ceased to be used and repaired. Deterioration sets in with the onset of neglect. When a nation's spiritual life is neglected there is a possibility that nation will not long endure. Let us strengthen our nation and our society by attending church regularly and reaffirming our faith in God.

"And let us consider one another to provoke unto love and to good works: Not forsaking the assembling of ourselves together as the manner of some is; but exhorting one another: and so much the more, as ye see the day approaching." Hebrews 10:24, 25.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

FISHING LINES

By DICK WOLFF

THIS FIGHTER CAN REALLY HIT

Arguments about the fighting-est game fish will go on as long as snow melts in the spring. Devotees of the Atlantic salmon insist that pound for pound it is the roughest battler that swims. Tuna fans rally to their cause, pointing out big horse mackerel build a lot of muscle because they never once stop swimming in their entire lives. Then the bonefish clan comes on strong with tales of streaking across salt flats faster than the eye can see. And the trout and tarpon addicts, bluefish buffs, yellowtail enthusiasts have their say on into the night.

Perhaps not the title holder among finny fighters, the lowly jack crevalle nevertheless rates a line or two in his favor. Some weeks ago, I had the good fortune to push off with Bob Marvin, who specializes in guiding anglers after bonefish, tarpon, and permit. Marvin operates out of Key Biscayne, his home port, but covers the keys down to Key West.

We scanned at least a dozen flats for telltale signs of bonefish, spooking a few and catching no more than a glimpse of fast-departing schools.

"Let's go catch some fish," Marvin said a bit discouraged, and shot the flat-bottomed skiff to a new location where the water suddenly turned deep blue between the light green water of the sandy flats. While Marvin held the boat steady against the current, I followed his lead and whipped a luster-lure, a plug that actually is a three-dimensional spoon, into the running tide. It sank fast and I retrieved it quickly — for at least 10 feet. Then it walloped the plug and charged off 20 yards of eight-pound test Bonnyl monofilament off my Ambassador 5099-C baitcasting reel. It was a good five-minute give-and-take battle before I caught a glimpse of the jack crevalle.

About 15 feet from the landing net, my fish was accompanied by two or three of his relatives which I could see swiping at the luster-lure as it dangled from the hooked jack's mouth. One swipe, two swipes, then everything went slack. The slashing frenzied jacks cut the line. Jack family teamwork succeeded two or three more times in liberating "my" fish. I foiled them by tying a short length of 30-pound test leader next to my lure.

Switching to ultra-light spinning gear with four-pound test Bonnyl monofilament line, the tempo of angling action picked up. With plenty of deep water around, it is possible to handle a fair-sized fish on a sporty light reel, like the seven ounce Mitchell 408 and a feather-weight Conolon 2121 hollow fiber glass rod. The school of jacks, averaging four to five pounds each, kept banging away. Never had I recalled more plentiful, determined, and appealing fish. A first cousin to amberjack, pompano, permit, and yellowtail, the blunt-headed jack crevalle is silvery blue on top and bright yellow underneath. Its forked tail is shaped like the tuna's.

Moving with the fast ebb tide, our pack of jacks drifted out to sea after two hours of fast action. Aaaa-weary, I was happy to see them go. And while guide Marvin was apologizing for a bad day of bonefishing, I thanked him for offering a tough contender, the jack crevalle.

LOCAL BOYS IN VIET NAM

Listed below are the names and addresses of local boys who are serving with the U.S. Armed Forces in Viet Nam. We are sure they would appreciate receiving letters or cards from Burkburnett residents regardless of whether you know them or not.

The Burkburnett Star-News will be glad to publish the names of other local boys in Viet Nam if parents or friends will call 569-2191 and give us this information.

Family FINANCIAL PROTECTION
 Policyholder Questions Answered by the Health Insurance Institute 277 Park Ave., N.Y., N.Y., 10017

Q. Hardly a day passes that I don't read an item in the paper which says that the cost of medical care is high and getting higher. I'm insured. What does this mean to me?
 A. It could mean a good deal if you have an outdated policy. Unless you've kept your coverage up to date, rising costs of medical care could weaken your family's health insurance. A wise thing is to give your coverage a thorough check once a year. That means that you should read your policy or your certificate of coverage (under group insurance) and note everything you don't understand. Take these points up with a specialist — your agent or the company personnel department or union welfare officer in charge of group insurance where you work. If you have an individual or family policy, the date on it could well provide the first clue as to the adequacy of your program in relation to present day costs. For example, if the policy was written in 1960, it is very possible that its benefit provisions in it are geared to hospital-medical costs of that year. Consider that hospital costs have gone up over 50 per cent since that year. You may be just in time for a change of program which could save you a lot of money later on.

Q. I'm self-employed. I think I need some insurance which would pay me cash if I should become disabled. Would I have to have a physical examination for this type of coverage?
 A. A physical examination is usually required if the applicant for disability income protection is over 40 years of age. It is not required for younger men unless stated in the policy. However, if a man who is under 40 wants to purchase an unusually large amount of disability income protection, an examination is usually required.

News From The County Agent
 Wichita County cotton farmers are urged to check their cotton fields weekly for insects. Boll weevils and boll worms have increased during the past week. The increase in boll weevil activity is due in large part to the emergence of first generation boll weevils. Boll worm activity has been on the increase for several weeks now. Fleahoppers remain heavy also in our cotton fields.

The Wichita County Livestock Judging Team won third place at the Texas Junior Hereford Association Field Day held at Sweetwater last week. The team consisted of Connie Swinford, James Foster, Clint Swinford and Glenn Thorman. Connie was also the 4th high individual in the contest. The team was accompanied by Eob Benson, assistant county agricultural agent.

Kathy Wright and Brenda Gibbs will represent Wichita County at the State 4-H Horse Show at Odessa, August 10-12. Kathy and Brenda qualified for the State Horse Show last Friday and Saturday at Vernon in the District 3 4-H Horse Show. Kathy took first place and Brenda third in Western Pleasure. Brenda also had the reserve champion mare and won first place in Showmanship.

The girls will be accompanied to the show by their parents and Bob Benson, assistant county agent.

It is not too early to begin preparing for this fall's grazing, advises County Agent B. T. Haws. The first step is to follow land now for September seeding of oats, wheat, other small grains or ryegrass or mixtures of these. Following is a good summer practice that will help get plants off to a good start for early fall grazing. To make winter grazing really pay off, we need 75 days of good grazing before freezes stop or slow plant growth.

In buying seed, the county agent emphasizes the importance of getting the best seed available of adapted varieties. Then he suggests using high rates of nitrogen, phosphate and potash in accordance with recommendations from an earlier made soil test.

The 17th Annual Beef Cattle Short Course will be conducted at Texas A&M University on August 14 and 15. The event, sponsored by the Texas A&M Department of Animal Science, is open to all persons interested in recent developments and changes in the beef cattle industry. The short course will be conducted in the Ballroom of the Memorial Student Center.

Dry weather earlier in the summer brought on lawn problems for home owners. Chinch bugs are now a major problem, says county agent B. T. Haws. Several effective insecticides are available for controlling these pests.

When buying insecticides, an important consideration is the cost for treating a given area. Some of the prices and sizes of containers will confuse the buyer who doesn't read the label carefully.

Find out the amount of dilute solution or dust it will take to treat the lawn and then divide this into the cost of the concentrated insecticide. If the dilute "cheaper" insecticide doesn't cover as much area then it stands to reason that it is not really cheaper. Figure the cost on the basis of the label recommendations.

The only time it is necessary for the home owner to use a more expensive insecticide is when it is either more effective, results in less danger of excessive residues or is safer for use so far as humans, plants or animals are concerned, says Haws.

Texas agricultural producers in 1966 submitted more soil samples for analysis and used more fertilizer than ever before.

In commenting on the fertilizer use growth, the county agent noted that the movement

Happiness Is Birthdays
 by Betty Crocker

Happiness is the birthday song . . . or blowing out all your candles . . . or when you're young, just being surprised in little ways. So when a birthday rolls around, proclaim it the birthday child's day — "Jane Jones Day" — all day long, and start with tiny presents at the breakfast table. For the birthday cake surprise later in the day, try cupcakes. They're pretty, personal — and practical. Especially baked in no-wash, paper-lined muffin cups. To frost cupcakes quickly, twirl cake tops lightly in a bowl of fluffy-type frosting — and see how they peak. Now for a cupcake recipe that's sure to make your kitchen happiness headquarters. Mom.

VELVET CRUMB CUPCAKES
 1 1/2 cups Bisquick
 3/4 cup sugar
 3 tablespoons shortening
 1 egg
 3/4 cup milk
 1 teaspoon vanilla

Heat oven to 400°. In large mixer bowl, combine Bisquick, sugar, shortening, egg and 1/4 cup of the milk. Beat 1 minute at medium speed on mixer, scraping sides and bottom of bowl frequently, or beat vigorously by hand. Add remaining milk and vanilla; beat 1/2 minute. Pour into paper baking cups set in muffin cups. Fill 1/2 full. Bake about 15 minutes. Makes 18 medium cupcakes.

Cupcake clue: Use medium-sized ice-cream scoop to put cupcake batter in muffin cups.

Decorating ideas? Almost anything goes. Frost cupcakes and decorate with crushed peppermint candy, animal crackers, gumdrops, chocolate sprinkles or colored sugar. Or try these ideas for children's cupcakes.

Chocolate-Mint Cupcakes: Immediately after removing cupcakes from oven, top each with a chocolate-covered mint patty. When the patty melts, spread lightly for marbled mint frosting.

Little Clown Cupcakes: Make faces on frosted cupcakes with bits of candied fruit.

Porcupine Cupcakes: Stick peanut halves or slivered almonds into frosted cupcakes.

Serve with the birthday child's favorite ice cream. And all together now, "Happy Birthday to you."
