THREE'S A CROWD

EMPLOYMENT PROBLEMS

"The Employment Service Act of 1967" would expand the functions of the United States Employment Service and give it additional control over state-operated employment agencies.

The act would establish a Federal-State employment service which would also create an expanded employment and manpower program to be administered in accordance with standards approved by the Secretary of Labor.

It is important that the public employment services remain within the jurisdiction of the states. Voluntary cooperation between the states and the Federal government in the operation of the employment service is justifiable if the degree of initiative is retained by the states.

This proposed expansion would give the Federal government increased authority over employment and job classification requirements within individual states, and in some cases make it difficult for independent business to recruit and retain competent personnel.

THE DAYS OF AUTUMN

It always seems that summer has barely started when someone smells "fall in the air." Many people hate to see the leaves begin to turn. But, if they will look around them when fall is in "full bloom", they will find that they are in the midst of one of the most pleasant seasons of the year. While there is a tang in the air, there is also a new freshness. Crisp mornings and falling leaves tell us winter is coming. We will look to such things as winterizing and tidying up the premises. It is time to think about snow tires for the car and make sure a supply of antifreeze is standing handy.

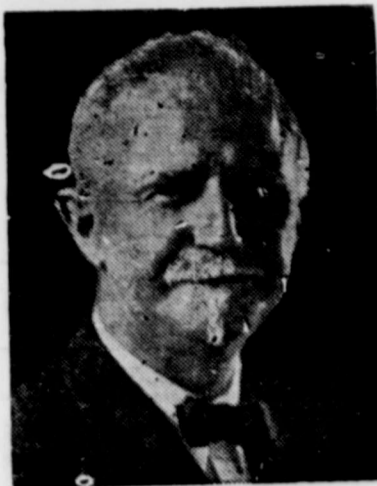

Those who live in the southland may not need to take all these precautions, but the coming of fall for them means that shortly the winter vacation season starts. In many southern communities, visitors will arrive in droves, and it is time to prepare for them. All in all, the passing of the seasons adds zest to life. Autumn begins this year on Sept 23, so those who have been smelling fall in the air will be vindicated on that day. Autumn marks the beginning of the challenging and busy days of the fall season.

GRASSROOTS OPINION

Faith, S. D., Independent: "The latest piece of mail to come across the desk has been a new government publication 'Catalog of Federal Assistance Programs,' and don't let the name mislead you, that is just what it is and it is no small pamphlet either. It is almost identical in size to the latest Sears Roebuck catalog. . . . This new offering . . . has a nice color cover as well as different colored pages, apparently an attempt to make all the give-aways more palatable to the taxpayers."

Atamo, Texas, News: "Any man who thinks he is going to be happy and prosperous by letting the government take care of him should take a close look at the American Indian."

Roger W. Babson Weekly Report

Babson's Point of View On: HIGHER INCOME TAXES

Chairman Mills of the House Ways and Means Committee is now working day and night on President Johnson's proposed 10% surtax. Mr. Mills is a man of great intelligence, boundless energy, — and is a skilled parliamentarian. Prodding here, delving there, he probes witness after witness . . . to satisfy his own mind and the minds of his Committee members. You can be sure there will be no tax jump unless Chairman Mills is convinced it is in the best interests of the United States.

SMOKE OF BATTLE

Back in July we told you in this column that the great tax battle would soon begin. Then there was growing belief that both the President and the Congress were going to pass up a new tax. But Mr. Johnson was just waiting until his economic advisers told him that a business upturn was reasonably well assured. When they did, he fired off his 10%-tax-hike message forthwith. Just as the long lull in any

tax action prior to August led many to think that there would be no Presidential insistence on higher leve.

With business picking up and selling bonds to raise funds, there is little room for heavy competition from U.S. bonds. So probably Uncle Sam would have to meet his deficit by selling his bonds to the commercial banks. History has proved this to be highly inflationary. Hence, if we fail to tax ourselves in this year of soaring war and welfare costs, we will surely run the risk of being coming swamped by surging prices. Better the yoke of a bigger tax load now than the danger of becoming bogged permanently in an inflationary morass.

HORSE TRADING AND THE PATIENT'S HEALTH

Two major points are at issue: (1) Is the federal budget deficit going to be enough to require raising additional revenue? (2) Is the national economy strong enough to stand a tax boost without being thrown into a tailspin?

In grandpa's day, horse trading was a necessary art. The first rule for success was: He who names his last price first is lost! There is a lot of horse trader in all politicians. That is why we feel that the President's first-named budget deficit of \$29 billion may not be his last. But even if he comes down to \$24 or \$25 billion, an awful lot more tax revenue will be needed. We doubt if he or the Congress can slice it thinner. And, as for the health of the business patient, our staff is convinced that the worst of the 1966-67 business slowdown is now over. The country should be able to take the surtax in stride.

INFLATION THE ALTERNATIVE

What, you ask, would happen if no surtax were voted? With hardly a shadow of doubt, your Uncle Sam would go on spending . . . for war, for foreign aid, for farm support, for veterans, for anti-poverty, for slum clearance, etc. And, without new taxes, he would

have to cover ALL the deficit by issuing additional scads of U.S. bonds. These would have to be sold to either (a) investors and investing institutions, or (b) commercial banks.

With business picking up and selling bonds to raise funds, there is little room for heavy competition from U.S. bonds. So probably Uncle Sam would have to meet his deficit by selling his bonds to the commercial banks. History has proved this to be highly inflationary. Hence, if we fail to tax ourselves in this year of soaring war and welfare costs, we will surely run the risk of being coming swamped by surging prices. Better the yoke of a bigger tax load now than the danger of becoming bogged permanently in an inflationary morass.

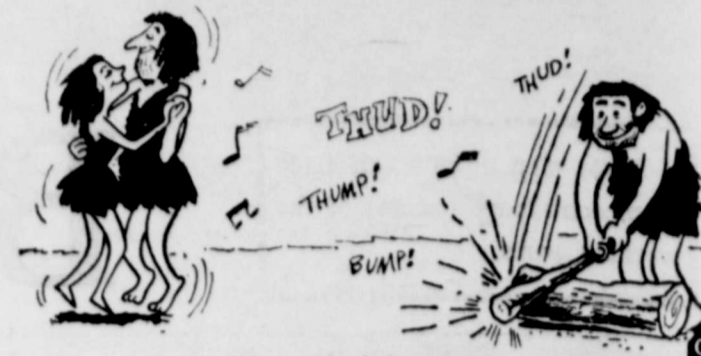

SOFTENING THE BLOW

We are betting that Mr. Mills also will finally come to the conclusion that a tax increase is better than a rip-roaring inflation. Of course, he and the Administration may do a little horse trading too . . . cut the personal levy to 8%, let the corporations pay 10%. When? The October date is touch and go. January 1, 1968 seems more certain. One thing looks sure: You will pay more taxes in 1968 than in 1967.

What can you do to soften the blow? Not much if you're on regular pay, but businessmen and professionals can get relief by postponing expenses to next year and moving all income possible forward to this year. Plan in advance. Consult your accountant now, before the year-end rush.

The tiny town of Stamford, Texas, is host each July 4 to the world's greatest amateur rodeo, reports VENTURE Magazine in the current issue. The event draws 500 contestants and in so doing triples the town's population.

MUSIC FACTS AND FANCIES

You may thrill to the sounds of Debussy or Her- man's Hermits, but historians believe that the thud of one log on another sounded like music to our ancestors 100,000 years ago!

We've had some odd musical instruments since then, including wooden boxes and leather bags. But the largest musical instrument ever constructed is the Auditorium Organ in Atlantic City, New Jersey; completed in 1930, this heroic instrument has 12 "keyboards," 1,477 stop controls and 33,112 pipes—and produces the volume of 25 brass bands!

Who made the first piano? The earliest in existence is one built in 1720 by Bartolommeo Christofori of Padua, Florence, Italy, and now preserved in the Kratus Museum of Florence.

The player piano was invented in 1862 by a Frenchman named Forneaux; called the "Pianista," it operated by means of a handcrank which produced a vacuum to work a set of "fingers" which in turn played the keyboard of an ordinary piano. The player-piano reached its peak in 1923, when almost 350,000

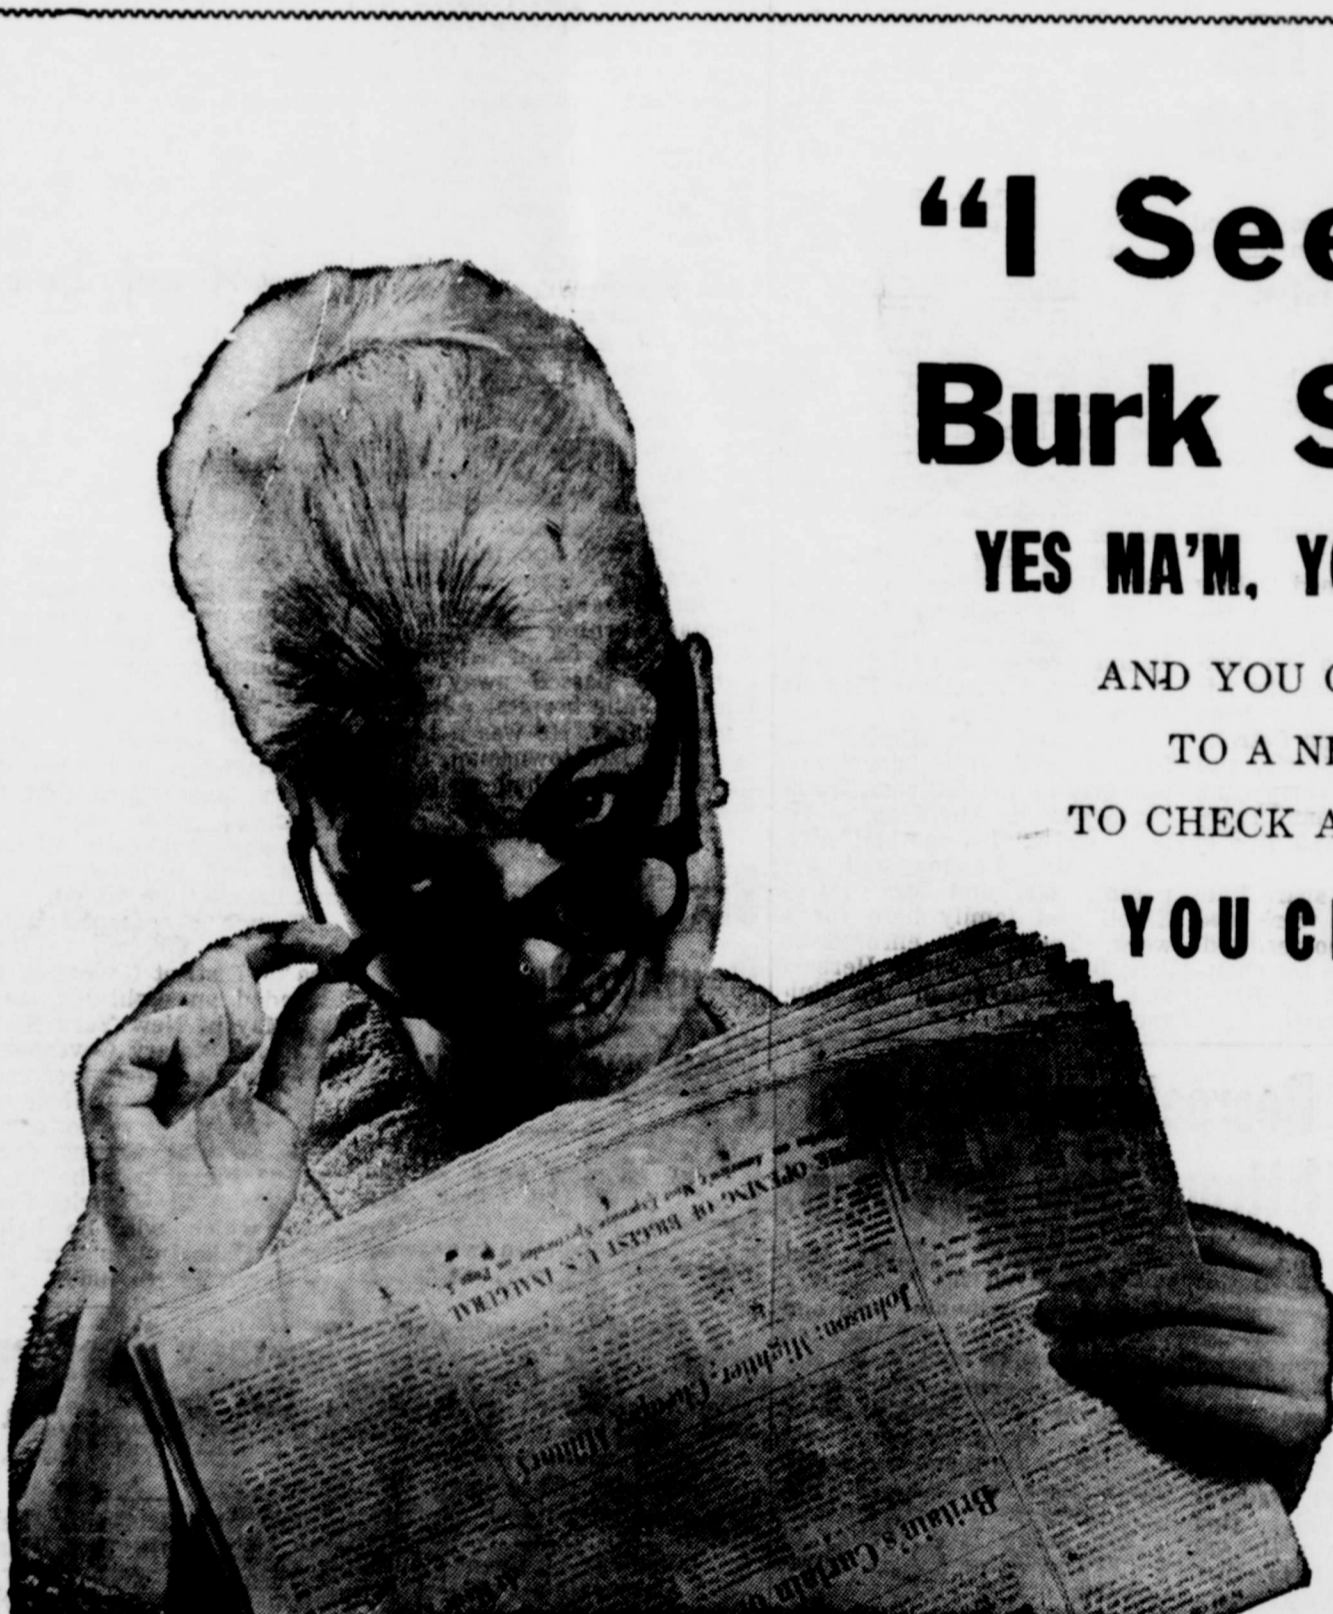

players were produced, but in a few short years, the industry was just about out of business.

Then in 1956, Aeolian Corp. introduced the first new player manufactured in 25 years. Last year, more than 8,500 players were sold! Why the re-birth of interest in players? More and more families are discovering that a player piano can be a lively centerpiece of family entertainment. And piano rolls are available in thousands of selections, ranging from reliable favorites like "The Old Piano Roll Blues" to popular hits such as "Mama" and "Winchester Cathedral."

A modern Pianola piano isn't only a two-way player that can be pumped by pedal or electrically operated; it also fills two basic family needs: a regular-play spinet for lessons, and a fine piano for use by the accomplished pianist.

Who had the "worst ear for music"? Perhaps it was Ulysses S. Grant. Asked how many songs he was acquainted with, he replied that he was familiar with two: one was "Yankee Doodle," and one was a . . .

Forty-Six SAFB Civilians To Receive Performance Awards

SHEPPARD AFB, Tex. — Forty-six additional civilians at Sheppard Air Force Base will receive civilian performance awards through the incentive awards program according to Fred A. Davenport, civilian personnel officer.

These awards, in four categories, were on an agenda approved Aug. 21. "Two additional agendas are awaiting action on the nominations for the annual ratings and awards," explained Mr. Davenport.

Twenty-three employees earned "Outstanding" performance ratings and Quality Salary Increases (QSI), six, "Outstanding" ratings and Sustained Superior Performance awards (SSP), and one, an SSP, and 16 "Outstanding" ratings.

The following from Burkburnett are indicated by an asterisk. Of the 23 receiving "Outstanding" performance ratings and QSI's, 16 are assigned to the 3750th Technical School. They are Henry M. Clark Jr., Melvin C. Crater, Robby G. Littlejohn and Lloyd M. Maxon of the Department of Civil Engineering Training; Mesdames Lena F. Alexander, Mary A.

Hatfield, Miss Virginia Clair, Misters Carlton L. Andrews, Arthur J. Drube, Harold A. Eddins, Robert D. Derrow, Curtis Warren, Marvin C. Tillman and Robert W. Tacker, all of the Department of Communications Training; Thurman Allison Jr. and Clarence E. Bridges, both of the Department of Aircraft Maintenance.

Those receiving "Outstanding" ratings and CSI's from 3750th Air Base Group are Verlagail G. Cox and C. D. Landrum; and from the U.S. Air Force Hospital are Mesdames Mildred O. Baston, Bonnie R. Beck, Letty N. Dunaway, Thelma R. Farrell and Lorraine P. Hayman.

"Outstanding" ratings and sustained superior performance awards will be presented to Frank K. Ezell of 3750th Air Base Group; Mrs. Dorothy L. Glover of the U.S. Air Force Hospital; Mesdames Margaret E. Jasie, Oma G. West, Mary L. Aycock and Mary E. Robinson of 3750th Technical School. These sustained superior performance cash awards totaled \$900.

An additional Sustained Superior performance award for \$100 was awarded for Mrs. Elmer W. Máness of 3750th Technical School.

"Outstanding" ratings went to Mesdames Mary Blackwood, Kathleen L. Baynes, Linda L. Shaw and Marjorie E. Rider of the U.S. Air Force Hospital; Mesdames Georgia D. Choate, Verna Hartnett, Geraldine S. Lane, Misters Wilburn A. Gann, Joe D. Bailey, and Michael Uriniak of 3750th Technical School; Fred A. Davenport Jr., Mesdames Juanita E. Tufares and Iva Loye Williams of Center Civilian Personnel; Mesdames Georgia M. Flanagan and Jodean A. Miller of 3750th Air Base Group; and Mr. Homer E. Mobley of 3750th Civil Engineering Group.

Thirty civilians received awards on the first agenda.

CHOOSING SINKERS — Let the lake bottom determine the kind of sinkers to use. If you want to bounce the bait along with the current, use round or dipsy-type sinkers. If you want to keep the bait in place against the current, try pyramid or flat sinkers that won't roll.

USE TWO DUCK CALLS — Carry two duck calls — one high pitch, the other low. Use the higher pitch on dirty days when there is a lot of wind or rain. The low pitch call is for those "dead calm" days. A high pitch call on a "dead calm" day will sound too loud and unnatural.

DO YOU POP OFF YOUR LURES?

Frequent loss of lures when casting can be caused by two oversights. Either you are tying faulty knots, or there is a seriously roughened guide on your rod tip. Of course, if you're casting a heavy spoon with too light a line—that's a different matter. Just don't do it!

Fall Festival Plans Announced

At a meeting of the members of the Catholic Parish last Thursday at the church rectory, November 4th was the date chosen for the annual Fall Festival and Dinner to be held at the Burkburnett Town Hall.

Father Patrick M. Scanlan, pastor, served as moderator and led the discussion of the various topics. The parish elected the following committee chairmen: General Festival Chairman is Mrs. Edward Simons with Mrs. Ed Michna as co-chairman. Also serving will be posters and tickets, Aldon Smith; ticket sales, Mr. and Mrs. Joe Janeke and Jingle Hayes; publicity, Mrs. Audrey Carse, personnel, Mrs. W. H. Bohner; dinner arrangements, Mrs. Betty Davey; country store, Mrs. Jack Reed; Raffle, Mrs. Dorothy Riska and Mrs. Lee Rivard, and clean-up, Mr. Rudy Kormos.

Feature of this year's festival will again be a turkey and dressing dinner while the country store will feature home-baked pastry, bread, and Czech Kolaches. In order that the many guests will not be disappointed this year, hundreds of

pounds of country-stye Czech sausage will be available.

Proceeds for the annual festival will go toward the construction of the church complex which will begin in the near future.

Local Firemen Participate In Defense Drills

Firemen from five communities participated in a Civil Defense Drill, August 24th, called by Iowa Park.

Each community sent a truck to Iowa Park, which was timed from the time the call was received to the time hoses were connected to hydrants and pumping began.

"The purpose of the drill," stated Claude Reed, Civil Defense Coordinator for Burkburnett, "was to acquaint citizens of Wichita County with the fact that should the need arise, help will quickly arrive in the Wichita County area."

Communities participating in the recent drill, and their scores were: Iowa Park, seven minutes; Wichita Falls, fifteen minutes; Burkburnett, twenty-two minutes; Electra, thirty minutes; and Henrietta, forty-two minutes.

Though they did not take part in this recent practice drill, Sheppard Air Force Base and the State Hospital are part of the Civil Defense program, also.

Seaman Harsh Finishes Nine Weeks Training

SAN DIEGO (FHTNC) Seaman Recruit Jerry W. Walsh, USN, son of Mr. and Mrs. Leonard R. Harsh of 812 Chestnut, Burkburnett, is undergoing nine weeks of basic training at the Naval Training Center here.

He is receiving instructions in Naval customs, courtesies and organization, ordnance and gunnery, seamanship, damage control, first aid, swimming and survival, shipboard drills and sentry duty.

A program of physical fitness, military drill and inspection keeps the recruits mentally and physically alert during their training.

His Navy Classification tests will determine whether he will be assigned to a school, shore station or ship after his graduation.

U.S. Army Sends Plea For Retirees To Re-Enlist

The United States Army has the "welcome mat" out for retired enlisted men who are qualified in any of more than 130 separate specialties.

According to SFC. Larry Wilkins, local recruiter, applications will be accepted from retirees in grades ranging from sergeant, E-5, to master sergeant, E-8.

The enlisted recall program began over a year ago when Army authorities recognized many senior noncommissioned officers were taking critically needed skills into retirement with them. In addition, many veteran soldiers found civilian life less than attractive, applied for reenlistment and were refused because there were no regulations in existence which allowed them to do so.

Retirees who have not reached their 50th birthday, have less than 27 years service completed and meet normal medical standards for retention are eligible for recall.

A report of a current physical examination should accompany the retiree's application. Those interested may apply to the nearest U.S. Army Recruiting Station for assistance in obtaining the required examination.

Regulations also state the period for which the retiree is recalled will vary with the personnel requirements of the Army. This will not normally be for a period of less than three years or extend beyond the applicants 55th birthday or 30 years service whichever is earlier.

SFC. Larry Wilkins has a list of the specialties which are in demand and for which applications will be accepted. He is located at Post Office Room 417, phone: 766-1633.

A DOCTOR SPEAKS

BY H. CURTIS WOOD, JR., M.D.
 Medical Consultant,
 Association For Voluntary Sterilization, Inc.

Voluntary Sterilization

In my 30 years as an obstetrician and gynecologist, I have noticed that the public is often ahead of government on the matter of birth control. People want up-to-date, reliable information to help them limit their families to the number of children they can properly care for and love. Significantly, studies show that a substantial percentage of American couples have all the children they want, and are interested in permanent birth control. The method chosen by over 100,000 American men and women each year is voluntary sterilization—a safe, medically accepted and completely reliable procedure.

A recent Gallup Poll shows that 64% of Americans approve of voluntary sterilization for socio-economic reasons. Probably two million living American parents have already obtained the operation. Yet many Americans (including some physicians) still do not know that voluntary sterilization is legal in all 50 states. There are no legal restrictions as to why it is performed, except in Connecticut and Utah where it is limited to reasons of "medical necessity".

Sterilization is achieved surgically by closing a pair of small tubes in either the man or woman so that the egg and sperm cannot meet. Sterilization is not castration. It does not involve removal of any gland or organ, and should not have any unfavorable effect on the individual's sex life. In fact, a couple's sexual compatibility is often enhanced when they no longer live in fear of an unwanted pregnancy.

Salpingectomy, the female operation, requires a brief hospital stay and is frequently done following the delivery of a child. Vasectomy, the male operation, is much simpler and can be done in a doctor's office

in about 20 minutes.

The Association for Voluntary Sterilization, Inc., a national organization with headquarters at 14 West 40th St., New York, New York, conducts a program of education, research and service on voluntary sterilization; the Association will be glad to answer inquiries, and frequently refers interested parents to doctors who perform this operation.

Some people ask me whether sterilization is reversible. While success ratios of 50-80% for the reversal operation have been reported, a satisfactory result still can not be assured in any individual case. Therefore, sterilization should not now be recommended as anything except a permanent operation.

Regarding psychological factors: if a man or woman fully understands the nature of the sterilization operation and obtains it for valid reasons, without "pressure" from any source, the results should be relief and peace of mind. Psychiatrist Robert W. Laidlaw and Medora S. Bass, M.A., in their article "Voluntary Sterilization as it Relates to Mental Health," state: "Voluntary sterilization can and does contribute to mental health... by reducing the anxiety caused by fear of unwanted pregnancies; by preventing children from being born to irresponsible parents with resultant neglect and social ills... All this can be accomplished without unfavorable psychological effects and with a high ratio of satisfaction."

To sum up: voluntary sterilization is indicated when other contraceptive measures have failed or proven unsatisfactory, and when parents choose to limit their family to the number of children they already have, in order to give them maximum affection, care and opportunity.

Ian Shaw and children of Beaumont, Tex., from Tuesday of last week to Saturday and Donna Veleta and Frank Shaw and Teresa Price, returned home with their grand parents for a visit.

Postal Service Plans Announced For Special Day

Postmaster W. T. Zimmerman announced plans today for colorful local celebration of Postal Services Day on Sept. 20, 1967.

In addition to a number of events designed to tell of the vital role the Burkburnett post office has, the proper five city carriers will dramatize the day by distributing kits made up of eight postal cards which will enable 10,000 residents to update their mailing lists by having ZIP Codes added.

Each completed card will be sent to the post office which serves the address needing a code. There, the proper five digit number will be added before the form is returned to the owner. Postmaster W. T. Zimmerman explained, "No postage will be needed."

"I feel that a day dedicated to the importance of the Postal System in our growing city will be of considerable public value."

Unfortunately, many of the services we offer today are little known to the public. After a number of discussions with Jim Frye, Chamber of Commerce President, I was prompted to announce the local observance of a day in which all Burkburnett can become more intimately aware of the services provided by Burkburnett post office's employees.

"They felt," the Postmaster explained, "that many of the advantages of our city have been advertised often, but rarely have we directed attention to the excellent postal facilities provided."

He noted that the Burkburnett post office this year is marking its 60th year of public service, having started in 1907.

"Locally, the Burkburnett post office today serves 10,000 people, with 15 employees," he added. "Mail volume has now reached a total of 212 million pieces annually. During the past year, service has been expanded to provide one new regular city route, one auxiliary route, six day delivery of parcels not added from curbside to door delivery, extended delivery, strategically located more mail drop boxes.

"I feel, too," he said, "that this will be an appropriate time to call attention to the dedicated services of our employees, whose performance day in day out is largely taken for granted."

The Postmaster said details of the observance still are being worked out, but will be announced as soon as definite plans are developed.

Trinity University's new Ruth Taylor Theater, is one of the few theaters in the world, reports VENTURE Magazine in the current issue, to have swivel seats so the audience can face any one of three stages.
