NUMBER 21

1968 BURKBURNETT BASKETBALL QUEEN

BASKETBALL QUEEN at Burk Burnett High School for 1969 is Nikki Radanovic, daughter of Mr. and Mrs. N. J. Radanovic. She's a senior, and her escort was Howard Hinkle. (Burk Star Photo)

Profile . . .

"Profile" is a new feature of the Burk Burnett News. It will appear weekly, giving the inside story of many of your friends and neighbors.

Profile, we hope, will give you some new and interesting information about friends you've known for years.

Subject of the first Profile is C. J. Lippard, a resident of Burk Burnett for 23 years, the last six of which have been in the insurance business.

For 17 years before that, he was in welding, both as an employee and contractor.

C. J. was born June 25, 1922, at White Flat, Okla., near Mangum, son of the late Wade and Jessie Lippard. He attended school at White Flat, graduating in 1941. The school closed right after he received his diploma from high school, but he can't say if there was any connection between the two events.

A short stint as a shipyard worker followed, and then several years in the old U. S. Army Air Corps. Lippard served almost his entire military career at San Marcos, from the opening of the field, to its closing after the war. He was then transferred to Ellington Field at Houston, where he was discharged as a staff sergeant in February, 1946.

He came to Burk to take a job, and has been here since.

On his birthday in 1966, he married the former Patricia Harrington, a native of Burk. With the marital vows he acquired two sons, Bob and Jay, now 12 and 13 years of age.

He's a stalwart member of several organizations, including the Lions Club, Chamber of Commerce, Masonic Lodge and a Shriner, and is on the Board of the County Red Cross Chapter and the Cancer Society.

C. J. LIPPARD

He serves on the board of the Wichita Falls Board of Health as well.

He's a member of the Methodist Church, and member of the board.

Two terms as a member of the Burk City Commission, and one year as mayor are among his record of duties to the community.

Next to his wife and family, Lippard is most proud of his 6-gallon of donations to the Blood Bank. In fact, he needs just two more pints to become a member of the seven-gallon club.

As for the future, C. J. holds all the confidence for the continued prosperity of Burk and the surrounding area.

"I believe 1969 looks good for Burk Burnett. Of course, better times won't come naturally, but if we all do our best for the community, our jobs and our churches, I believe the future can become brighter," he said.

Father Beaumont Is Named New Administrator

Father Richard Beaumont has been named administrator of St. Jude Thaddeus Parish in Burk Burnett. His Excellency Thomas K. Gorman, Bishop of the Diocese of Dallas-Fort Worth announced the appointment effective January 12, 1969.

Father Beaumont, a native of Cleveland, Ohio, has served as assistant pastor of Sacred Heart Parish, Texarkana, St. Cecilia and St. Thomas Aquinas Parishes, Dallas. He has been vice rector of Holy Spirit Minor Seminary in Dallas, and on the faculty at Notre Dame High School, Wichita Falls. He has been in residence at Sacred Heart Parish, Wichita Falls.

Father Beaumont attended St. Gregory Seminary and Mt. St. Mary Seminary in Cincinnati, Ohio and was ordained in 1958 by Archbishop Edward Hoban.

LETTERS TO THE EDITOR

To the editor (?)
I notice you been taking pictures of what in your opinion are unsafe buildings. Well, I have a building that just about fits that description, and I warn you now, don't take any pictures I don't want my building picture in the paper, or there will be some fireworks.

I mind my business, Why don't you?

The above letter was unsigned. Since we do intend to take more pictures of eyesore and unsafe buildings, your building may yet be pictured, as we don't know which one is yours.
The Editor

To the editor of THE BURKBURNETT STAR:

I wish to commend you on publicizing the unsafe and unsanitary conditions of the old buildings in your city.

Your city council, too, is to be commended on making a wise move to eliminate these conditions.

Of course, printing the pictures will not prove popular. The truth usually hurts.

I am looking forward to seeing more of these pictures. I hope the pictures will arouse the populace and get the job done quicker and more economically.

Good luck to you and your city council on your campaigns.

This move was long overdue. Of course, Burk Burnett has had a long and glorious history as an oil center.

But I'm sure you do not need buildings of this type to bring your history to mind.

Respectfully submitted
J. H. Winters

Something new has been announced by several merchants of Burk Burnett.

That's a monthly city-wide bargain spree, with merchants of all types offered for sale at mighty appealing prices.

The first of these monthly events will be unreeled Wednesday, Feb. 5, called Burk Bargain Bonanza.

There will be many ads in The News of Feb. 4, listing much of the merchandise for sale.

Of course, just because a certain item you want may not be listed in the ads, it doesn't mean that the item isn't available.

Chances are you will find it on the shelves of your favorite Burk merchant, and at a price that is right.

And you merchants that haven't been contacted by The News for your ad, just give us a call.

Thursday is the deadline for ad copy, any size.

So, if you haven't been contacted, call us and get in on the action.

Mutual funds are hitting a new high, with millions of shares of stock being sold and bought every day.

The funds are okay if you are in a position to take a chance with your money. But for us, we'll take a savings account in Burk Burnett, with a guaranteed income, and account insurance up to \$15,000. And that was not a commercial, just an opinion.

The Little Miss Burk pageant, sponsored by the local Jaycees, is scheduled for March 21. We'll have more details soon.

H. Lohofener, Reid McCandless and John Brookman are expiring.

Narcotics Raises Its Ugly Head In Burk Burnett Area

The story of marijuana, pot, reefer and other drugs have been well publicized throughout the nation.

Not too much has been heard from Burk Burnett.

Are we, a typical small town, immuned to this threat to our youngsters and youths?

Unfortunately, no.

In the last year, there have been more than 50 arrests on narcotic charges in Burk.

Ages of these offenders ranged from seventeen to fourteen.

The 14-year-old was a girl from a more or less typical home. She was the youngest of the group.

Other young girls were included in the total.

The Burk Burnett Jaycees have taken an alarming view of this situation. While the numbers seem small, they do show that these drugs are taking a foothold in our town and community.

In order to enable parents to recognize the symptoms of various drugs, the Jaycees, with the cooperation of Burk Burnett Chief of Police Buck Abbott, have com-

plied the following information:

The most common pills in our area are plain pep pills, Bennies, shaped like a football or a heart. Regular cold remedies such as Anacin, aspirin, should be kept on hand in minimum quantities.

Stay-awake pills such as amphetamines are stimulants when used improperly. They tend to create reckless behavior, lead to serious accidents, wild parties, assaults and burglaries.

Barbiturate type pills are the sedatives. These react like common alcohol. Overconsumption is a leading cause of deaths, coma, delinquency, accidents, intoxication.

The drugs mentioned are not narcotics, but are illegal if used without a doctor's prescription. If used improperly are extremely dangerous and harmful to the human body.

Stimulants act on the nervous system. Look for nervousness, restlessness, with tremors of the hands, dilated pupils, dryness of the mouth and heavy perspiration. Use of a large quantity results in dangerous, aggressive be-

haviorous with anti-social efforts.

Depressants are referred to as Downs, Barbs, Redbirds, Yellow Jackets and Goof Balls. These tranquilizers depress the central nervous system to relieve tension or produce sleep.

Taken with alcohol, they can cause death. Symptoms of use are same as for common drunkenness but there is no order of alcohol.

A small amount brings a feeling of relaxation, sociability, and good humor. They are slow to react, and a large dose brings sluggishness, depression and for some, a quarrelsome disposition. The tongue thickens and speech become slurred and indistinct. Loss of physical coordination and mental and emotional instability are other signs.

STUDENTS EARN PLAUDITS FOR DIMES DRIVE EFFORTS

Leaders of the 1969 March of Dimes Drive in Burk Burnett paid high tribute to citizens and student volunteer workers in the initial stages of the campaign.

Tuesday night, Burk Burnett High School students, making a house-to-house canvass, obtained \$577 for the campaign to fight birth defects.

Tom Nieklas, treasurer, commended the students for their efforts.

A coffee day last week, during which cafes and drug stores donated coffee proceeds to the drive brought in more than \$40.

This week, high school students are striving to donate a dime a day to the March of Dimes.

Efforts of the students are being coordinated by Mrs. Glen

Veach, student council sponsor.

Mrs. Peggy Bohenek, co-chairman of the local drive, said the work of the students was highly satisfactory, and she was much appreciative of their work.

Jingles Hayes, co-chairman, expressed thanks to the Burk Fire Department, for signalling the opening of the March Monday night by a blast of the fire siren, and for the loud speaker which spread the word through the residential areas.

Letters have been mailed to business firms in the city, seeking their financial assistance.

Anyone who was not contacted in the Monday March may call Hayes or Mrs. Bohenek to make their donation, or take them to Nieklas at the Burk Burnett Bank.

NOTICE

The Board of Directors of the Burk Burnett Youth Center will meet Monday night, Jan. 27 at the Youth Center for a regular business meeting. Time of the meeting is 7:30 p.m.

Everybody interested in the youth center is invited to attend.

THIS IS WEED, or marijuana, or pot, or reefer, or stick, or any one of several names given this dangerous weed. Easy to grow, it is also easily identified, by sight or smell. The Burk Burnett Jaycees have opened a war against illegal drugs, and are informing parents of the results of use. (Burk Star Photo)

Overdoses frequently cause internal and accidental suicides.

Hallucination drugs are considered an "IN" drug they are dangerous, but the extreme danger point is still unknown.

Signs of use are distortion and intensification of sensory perception with lessened ability to discriminate between fact and fancy. The use will hear sounds, see colors, etc.

There will be a dilation of the pupils so dark glasses are often worn, even at night. Restlessness and an inability to sleep, illusions, panic, anti-social behaviour and impulses toward violence and self-destruction are other evidences of use.

Parents should not let children play with or handle the most common mushroom seen growing in the family yard, as they are highly dangerous as described above.

Airplane glue results in intoxication, dizziness, unconsciousness, slurred speech and foolish and dangerous actions. It is used by inhalation.

Signs to look for are inflamed eyes, irritated nose and lung tissues, loss of appetite and desire for sweets, and causes inflammation of mucous membranes.

User of this drug may be in stages of hilarity, carelessness, distortion and sensations and perception, impairment of judgment and memory and confusion.

Heavy use brings deendency of the drug, or in other words, one becomes "hooked."

Another article will deal with a more serious drug, known as LSD, and other narcotics. Watch for it.

SERVING THE SAVER AND THE HOME OWNER

QUESTION OF THE WEEK

How Do You Think History Will Treat The Johnson Administration? ASKED TO FOLKS IN AND AROUND BURKBURNETT

JUNE COOPER — I think he handled the office as well as it could be handled, and he will be remembered as one of the better presidents.

J. W. DAVIS — Johnson had a trying time in office, in very troubled times. I think his administration will be treated as one of momentous times.

CECIL BRADLEY — I really don't know. Only time will tell.

MELVIN BAILEY — I wasn't favorably impressed by the Johnson years in the White House, and I doubt very much if future historians will.

RAY DALTON — It's hard to say right now, and the full impact of those years probably won't be known for some time.

ANDY BAUCH — I think his administration was one of the best, and I think historians of years to come will treat it just his way.

Ronnie Martin On Aircraft Carrier

USS KITTY HAWK (FHTNC) — Bolerman Third Class Ronnie R. Martin, USN, son of Mrs. Harold D. Cain of 307 Mistleton, Burkburnett, Tex., and husband of the former Miss Ella J. Chavis of Sherman, Tex., departed Pearl Harbor aboard the attack aircraft USS Kitty Hawk for its fourth consecutive combat tour off the coast of Vietnam.

The ship completed its third deployment last year and, prior to its recent departure from Pearl Harbor, became the second carrier in history to be awarded the Presidential Unit Citation for action in Vietnam.

During the 221-day deployment for which the award was presented, the San Diego-based carrier and its embarked Air Wing Eleven set numerous records for the vietnam conflict, foremost of which was a 61-day combat period which proved to be the longest for any carrier in the Vietnam conflict.

Prior to the bombing halt the carrier launched air strikes against North Vietnam, striking enemy power plants, rail yards and transportation and communication lines. In south, Kitty Hawk jets helped break the siege of Marine-held Khe Sanh by battering enemy positions surrounding the Allied stronghold.

Bulldogs Edge By Hirschi's Huskies

And what a game that was! The Burkburnett Bulldogs, after trailing the Hirschi Huskies for three and 9/16 quarters, forged ahead in the final seconds to trip the Huskies, 59-58 in a district 4-AAA game here Friday night.

Hirschi held an 11-9 edge at the end of the first quarter, and then made it 29 to 21 at the half.

It seemed like a comfortable lead, and it would have been, if the Bulldogs hadn't taken to the floor with renewed determination after the rest period. The second half was all Burk,

as they whittled away at the Huskie lead, point by point. Burk outscored the visitors, 19-14 in the third quarter, although they still trailed, and had a 19-15 in the final stanza.

It wasn't until the final 45 seconds that Burk took the lead, on Curtis Kufahl's shot to make the count 56-55.

But the Huskies were still in the game, took the lead again, lost it, led again, only to have the Bulldogs forge ahead, with eight seconds left.

The final counter for Burk was a charity toss by Tommy Young.

Friday's win extended Burk's winning streak to two. Both wins came last week, the first at the expense of the Graham Steers.

Burk has two district wins on the record, but has suffered three losses.

Booker T. Washington's Leopards still rule the roost in the district with an undefeated record.

Kufahl led the Bulldogs Friday night, with 20 points, and was aided by Young and Charles Landrum, each of whom added 10 points to the cause.

Other counters were added by Sprague 2, Preston 9, Robinson 4, Kinnard 7 and Rohr 6.

A better than average crowd witnessed the game, heartened by Burk's early-week win, and the crowning of the basketball queen.

The queen was Nikki Radanovic, who occupied a seat of honor on the sidelines, along with her court, for the final half of the game.

WOOD UTILITY POLES

A KEY NATIONAL ASSET

BY TOM CUNNINGHAM

AMERICAN WOOD PRESERVERS INST.

POWER PACKERS

Switching on an electric light, making a phone call or sending a telegram may all be things you take for granted - yet it takes some 1,200,000 people working in America's utilities industries to make them possible.

These "power packers" are backed up by another 602,000 workers in the lumber and wood products industry who manufacture the utility poles that support the wires which put this national reservoir of electrical power at your fingertips whenever you need it.

Among them, in one recent year, they managed to "pack" enough power for over a trillion kilowatt hours of electricity, almost 3,000,000 phone calls daily and all the messages that were speeded over millions of miles of telegraph wire.

Executives Are Country's Unhappiest Workers, Expert Says

"The American executive is the 'Forgotten Man' in this country according to an expert who has spent most of his adult life helping executives solve their career problems.

"Although most people think the high-priced executive is sitting on top of the world, the truth is that executives are the most emotionally-exploited, confused and unrepresented group of workers in our society," says Fred Chusid, Board Chairman of Frederick Chusid & Company, the nation's largest executive career counseling firm.

"Few people realize," he adds, "that nine out of ten executives in any city in the country would pack their attache cases and leave their jobs today if another opportunity should present itself."

U.S. Census figures show that the average executive changes jobs every five years, or moves to eight different companies in the course of a 40-year career.

While a blue collar worker can take his complaints to his union representatives, the executive has no one to turn to. He's usually afraid to talk to his boss, and if he tips his hand to men on his own level, he finds they have similar problems, and what's more, they might maneuver to take his job away from him, Chusid said.

Because success or failure in the executive world often depends on factors beyond the

control of the individual, such as a company being merged into another organization, or a management change, executives often develop strong doubts about their abilities, progress and goals. These anxieties can result in serious personality problems which affect his personal as well as his business life.

Chusid's company does not find jobs for executives. Rather it offers what he considers a more important service.

"We attempt to get the executive to understand himself, that is, to realize just what his strengths and objectives are in respect to his career," said Chusid. "Once his problems are clarified, he is counseled on how to get out of a stalemate situation, and if appropriate, he is coached on how to investigate or test the market for his abilities.

The Chusid company, founded in 1957, has headquarters in Chicago and maintains 10 full service offices in cities from coast to coast. In addition there are 9 branch offices throughout the country.

According to Chusid, as the complexity of the business world increases, the need for professional career counselors will become even greater. Getting a new job is usually not the answer by itself, he stressed. "What the executive really needs is professional advice on career decisions from people who understand his motivations and how they relate to the realities of the business world."

Likeness

The artist is capturing the physical likeness of this lovely girl on her paper. The likeness is amazing. But her inward beauty, her wonderful Christian heart and soul, can only be captured fully on God's canvas. The Bible says that "Man looketh on the outward appearance but God looketh on the heart."

How would God's painting picture you and me?

One good way to improve your heart condition is to attend church and hear God's word proclaimed from the pulpit. Learn God's plan for your life by listening to His word. We invite you to attend the church of your choice this week.

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

TELL ME

HOW DID NAPOLEON MANIFEST HIS RESPECT AND ADMIRATION FOR GEORGE WASHINGTON?

NAPOLEON ORDERED 10 DAYS OF NATIONAL MOURNING WHEN THE GREAT AMERICAN DIED IN 1799!

IN A SAILOR'S LANGUAGE, WHAT IS MEANT BY PORT AND STARBOARD?

PORT IS LEFT, STARBOARD MEANS RIGHT. AS ONE FACES THE FRONT OR BOW OF THE SHIP! THE BACK END IS CALLED THE STERN!

WHY WAS THE MOCKINGBIRD GIVEN THAT NAME?

BECAUSE IT CAN IMITATE ALMOST ANY SOUND FROM A SHEEP'S CRY TO THAT OF AN EAGLE! A TALENTED VENTRILOQUIST, IT ENJOYS MIMICKING THE SONGS OF OTHER BIRDS!

WHO ARE CONSIDERED THE MOST PRIMITIVE HUMAN BEINGS ON EARTH TODAY?

THE AUSTRALIAN ABORIGINES! REACHING AUSTRALIA FROM ASIA THOUSANDS OF YEARS AGO, THEY REMAINED WANDERERS, NEVER DEVELOPING MONEY, VILLAGES OR TOOLS!

Tomorrow's Challenge Today

By the year 2000, the world's population will be double that of today, or over 6 billion people. All over the world, educated men are concerned with our survival and are facing challenges like these:

My country, Brazil, is a study in contrasts. On one hand, our architects have built the city of tomorrow, Brasilia. On the other hand, we are a nation larger than the continental U. S., but have over 2000 miles of undeveloped jungle and less roads than the state of Maine.

In the United States, our population is growing rapidly, and adequate food will become a challenge by the year 2000. In the Imperial Valley of California, man and industry have combined their talents to build huge underground reservoirs and pumps that turn once desert sands into fertile, productive soil. The Central Valley Project has been so successful that a second, costing 45 million dollars, is now planned.

Here in India, we have too much water. One of our major challenges is harnessing the energy of swollen rivers to bring cities and farms needed electrical power. The massive Sabaragiri Power Station, the Kakki and Pamba Dams, will help move us toward an industrial economy by the 1970's.

The universal need of enough pure drinking water is a fourth concern shared by all the nations of the world. Without drinking water, life cannot exist. Will our efforts today be adequate to insure man's survival by 2000? Today, man and industry are working feverishly to answer these challenges to our survival. Some of their combined efforts are presented in a worldwide, filmed report, by the Allis Chalmers Co., called "The Challenge of Six Billion," which is available on free loan to your local school or organization. To borrow this 16mm sound and color film (1 1/2 hour), write to Sterling Movies, Inc., Dept. C, 375 Park Avenue, New York, N. Y. 10022 and give them a preferred and alternate showing date.

Realtors Seek To Light The Night

Policemen and realtors in Alameda County, California have something in common. They make "burglary calls" together!

In the interest of protecting homes and businesses from after-dark prowlers, the Southern Alameda County chapter of the National Association of Real Estate Boards is getting the full cooperation of its local police departments in a "Light the Night" program.

As a part of the program, policemen and realtors are making house-to-house calls together to inspect homes and business establishments for faulty locks and to be sure lighting in and around dwellings and buildings is adequate. Free advice about burglary prevention is part of their service.

Through schools, real estate offices and the police force, the realtors are also distributing 100,000 brochures entitled "Light the Night," which stress the dangers of nighttime crime, and urge homeowners to be sure their property is well lighted.

Similar programs are under way in other communities, including Long Island, N.Y.; Flint, Michigan, and Denver, Colorado.

In an endorsement of the program, J. Parker Heck, Educational Director of the Street and Highway Safety Lighting Bureau commended the realtors' group, saying it "is helping to call attention to residential streets that desperately need adequate street lighting."

Mr. Heck commented, "Barely ten per cent of the nation's residential streets have adequate street lighting. Many have none at all. Since light is a proven deterrent to the nighttime criminal, I heartily encourage these conscientious realtors and policemen to continue and expand their efforts. By making homeowners and businessmen aware of the crime-stopping value of well-lighted neighborhoods, they are making a valuable contribution toward the safety of their communities."

Star-spangled sheepskin.

How do you put aside enough money to put a child through college? Like this: join the Payroll Savings Plan where you work or Bond-a-Month Plan where you bank. When graduation day comes, you may not see the stars spangled over the sheepskin, but you'll know they are there. Because the Bonds that grew enough in interest to pay for college also helped your Uncle Sam.

Buy Bonds—help your country as you help yourself.
