MRS. J. F. CLARK DIES FROM HEART FAIL-URE. REAMINS LAID TO REST IN THE CITY CEMETERY AT ABILENE HER FOR-MER HOME.

The many friends in Haskell of Mrs. J. F. Clark were shocked to learn of her sudden death which occurred last Saturday. Mr. and Mrs. Clark have lived here only a short while, but have won many warm friends, whom the Free Press joins in sincere condolence to the bereft husband, son and daughter, and other sorrowing relatives.

The remains were taken to Abilene for interment.

We clip the following notices from the Abilene Sunday and Monday Daily Reporter, with reference to her death and burial:

From Abilene Daily Reporter

Abilene was inexpressibly shocked to hear of the sad death of Mrs. J. F. Clark, which occurred at Haskell, Texas, a few minutes after midnight Saturday morning.

Death came very suddenly, Mrs. Clark having eaten a hearty supper and retired, feeling well as usual but later in the night she was suffering from insomnia and took a dose of powders she was accustomed to take for such trouble and fell asleep.

Near the midnight hour Mr. Clark awoke, and finding Mrs. Clark breathing unnaturally hastily called a physician, but death came before his arrival.

The attending physician pronounced that death came from heart failure.

Relatives here being notified, Mrs. L. T. Young and Geo. S Brown, sister and brother respectively of Mrs. Clark, left on the early morning train for Haskell, and the funeral party reached this city at 9:35 last night on the Abilene & Northern train.

The funeral will take place from the J. F. Clark old homestead, 410 Cyress street, this afternoon at 3 o'clock.

Mrs. Clark was a member of the Methodist church and always took an active part in

South. She leaves a husband, two sister, Mrs. L. T. Young; a brother, Geo. S. Brown, both living in Abilene; a nephew, W. G. Swedson, Abilene, and niece, Mrs. E. G. Batjar, Abilene; Mrs. Walter Jennings, Abilene and Mrs. John T. Woodson, Kirk-Louise Brown, Abilene.

The family and relatives have a noble, christain wife, mother, sister and sunt.

From Abilene Daily Reporter The remains of Mrs. B. B. Clark, wife of J. F. Clark, were laid to rest Sunday afternoon at 3:30 o'clock, the funeral taking lace from the family homestead, 410 Cypress street, and inter

SCHUYLER'S HAPPY THOUGHT

How Revolutionary General Convertes Dutch Farmers to His Plan for a Canal

It is not known who first conceived the magnificent idea of connecting by a canal Lake Erie with the Atlantic ocean. Experiments to improve the navigation of the Mohawk by means of swall canals and locks had been tried years before De Witt Clinton built the Erie canal. The purpose which was to connect Lake Ontaric through the Mohawk with the Hudson met with a formidable obstacle at Little Falls, where the river descend ed for a mile or two over a series of

General Philip Schuyler of Revolutionary fame had planned a series of locks to overcome this descent of the river. Knowing that the success of the project would depend upon the favor with which the Dutch farmers, set tled near the river, received it, he visited them. Calling a meeting at a tavern, he unfolded his plan. The old Dutchmen loved and honored Schuy ler, for he was the head of an old Dutch family. They were delighted with the prospect of the commerce of the state sailing past their farms, but they could not comprehend how boats could ascend Little Falls.

The general, by means of drawings explained the principle of locks. It was in vain. The stolid Dutchmen shook their heads, saying that they didn't believe a word of it. Water wouldn't run up hill, and it was use less for the general to endeavor to make them believe that it would.

The general went to bed, mortified at his failure. Turning over the thing in his mind, a happy thought suggested itself. He arose, lighted a candle took a knife and a few shingles and went into the tavern yard. Digging a miniature canal of two different levels, he connected them by a lock of shingles. Then he summoned the Dutchmen, who came grumbling at being made of a native stone of rather being aroused from their slumbers Pouring water from a pail into the little canal, he locked a chip through from the lower to the upper level.

"Vell, general, dot beats eferything! exclaimed the astonished Dutchmen. "Now ve understands und ve goes mit you unt your canal!"

Good Thought, Anyway. Little John Brice loves to walk with his daddy through the woods. Last Sunday these two had a famous walk together, scaring up a rabbit or two, and looking for squirrels.

Buddenly John stopped, in a listening attitude. Then, "I know what makes the wind," he announced. "It's the trees whispering," he in-

formed his father, who had been waiting for the result, Perhaps be is right.—Cleveland Lander.

Clever Trick by Which Liszt and Ru bini Packed House for Their Second Concert.

An article in an Italian review contains an interesting story of Lisst. the composer, and Rubini, the tenor. Touring together, they visited a town where a great financial success was expected. But they were disappointed, for when they entered the hall they found only fifty persons present.

Rubini was furious, and said he vould not sing; but Liszt calmed

"You must sing," he said; "this small audience is evidently composed of musical connoisseurs of the town. so we should treat them with respect." Liszt set the example with a grand overture, and Rubini sang to perfection. Liszt gave another piece, and then addressed the audience.

"Ladies and gentlemen," he said, "I think that you have had enough music. Allow me to ask you to take a little upper with us.

The invitation was accepted, and Liszt and Rubini entertained the audience to supper at their hotel, at a cost of twelve hundred francs. When the guests separated the hosts thought the affair had been a joke about which nothing more would be heard, but they decided to give their concert as advertised on the following night. To their astonishment the hall was packed; there was no standing room. The whole town had turned out on the chance of an invitation to supper.

Indian Relics Found in Massachusetts. Moses B. Phillips of the Log Plain road has found and left in the town clerk's office two attractive specimens of Indian implements. One of these is a spear head, apparently unfinished, of native stone and of unusual size, and the other, an ax or tomahawk, is somewhat unusual in coarse grain. Both specimens were found by Mr. Phillips on his farm .-Greenfield correspondence Springfield Republican.

How Attorney General Wickershan Selected His Playmates When He Was a Boy.

When Attorney General Wicker sham was a plain, every day citizen and lived in Tenth street near Fifth avenue, New York, a few years ago, the tide of immigration was already beginning to flow in that direction In consequence, it was a rough crowd of boys of all nationalities that gathered about the curb to play their street games.

Master Wickersham was frequently admonished by his mother to avoid the neighborhood toughs. On one oc casion she emphasized her remarks by saying:

"You know what I mean, son; play only with boys whose fathers are gen tlemen. This speech made quite an impres

HASKELL, TEXAS, Jan. 13, 1912.

The banks are all in good shape and made a splendid record during 1911. To take care of the business interests of the county in a year like 1911 was a big task but the local banks have done all the same. 1912 will have its rewards for the conservative business man. Watch Haskell grow in 1912.

In another column will be found a notice signed by all the local banks, stating that they will on Feburary 1st discontinue the practice of allowing overdrafts. This change of policy may cause some inconvenience to business men, but it may also cause a more conservative policy that will improve financial conditions.

It is time the officers of the law were permitted and required to use up-to-date methods in executing process of the courts. The method of posting legal notices belongs to the ages before newspapers were available as advertising agencies. The interest of the debtor will be served as well as the interest of the creditor, if greater publicity was given in all cases, requiring publicity by posting. It is a great reflection that the Legislature leave the courts and the officers to struggle along under antiquated methods with processes belonging to the dead

The National Democratic Executive Committee, met at Washington a few days ago and selected Baltimore as the place for the national convention on the 25th of June. The meeting was unusually harmonious. Among the reforms made was the approval of the primary election as to choice of a candidate for president in those states and districts, as shall adopt such a method of ascertaining the choice of the people. The daily press almost unanimously agrees that Woodrow Wilson was the candidate that led and predominated with the committee. There was much comment on the fact that Mr. Bryan showed his approval of Gov. Wilson, and it is stated he would so express himself at the right time.

We wish to comment on the fact, that Haskell is better united and there is less strife among her citizens than we have witnessed for years. We would be glad to see every man and woman who makes Haskell their home, strive to keep such conditions prevailing. Strife never added to the joy or pleasure of any one. There is no harm in good natured rivalry. either in the social or business life of a people, but malicious vindictiveness and foolish snobbery, retard civic and material prosperity. Let us all strive to work harder, live within our incomes, cultivate good polite personal deportment toward all whom we meet, and see if we do not become more prosperous and happy. The reader can hardly realize how truly the people show their real character to the local editor. No man in a community has a better opportunity to gauge the people and see and feel the effect of any vice, in the social or business atmosphere than the editor. We mention these things because the progress and development of Has-

kelt is dear to our hearts.

> **Every Young Man and Young Lady Under** 45 Years Old in Haskell, Texas,

ONE HUNDRED THOUSAND BLESSINGS FOR 1912

TO THE BANK OF Henry's Business College Department of Prosperity HASKELL, TEXAS.

A. S. HENRY,

President.

We positively by actual comparison of pupils have proven we give our pupils more in 2 months than they get in the City Schools in 5 to 6 mos. See the testimonial from J. A. Lowe of Snyder and write him-he states cold facts.

Also read what D. M. Judd and J. K. Miller, both of Lubbock, have to say and write them personally. We want you to investigate us. We win out when you put the straight edge to our work.

Several reasons why you should accept our offer in Haskell:

1st. We come to your own door.

We save you railroad fare. 3rd. We keep you from the city influences

which hurt you.

4th. We save you board.

We save you half the time.

We let you go on with your job and your salary and give you a complete Business Education at night and not one hour lost.

7th. In short we give you a thorough and complete course and you know it, for \$50 to \$86 which cost you \$400 to \$500 if you leave home.

We are on the floor over and around you every hour in the day and ready to assist you NOW while in the city schools you often hang up 10 days to 2 weeks on a trial balance or other work before you can get help. Ask any one who has attended at Ft. Worth or Dallas and also see our

When you leave home you pay every dollar in advance and then you can walk. We give you the privilege of paying one-half cash and balance in monthly payments and you make the money while you learn the Business Course. We have 80 pupils at Henrietta now and we refer you to what they say about our work with them and I am quite sure not 3 of them could have possibly gone from home at loss time of 5 to 6 months and \$350 to \$500 cost. We offer you something valuable, something you must have, something you need and something the business world requires you to know if you help them handle their money at a good salary.

Those who do the longest hours and hardest task draw the least salary. Those who work shortest hours and lightest task draw the largest salary. Which do you want, you can and will have either one you want. If you qualify you hold the good job, if not you hold the hard job-all with you, which now?

We cannot fill the demand we have for young people at a good salary who can handle the office, the books and do the shorthand and typewriting. We can place 3 now who can make good in these lines.

Over one month ago we advertised for 10 men from 25 to 45 years of age who could handle all these subjects and we found one who we can risk and recommend. There is room for those who qualify and make good. Now is your chance. We offer you the best chance you ever had and you can't hope for a better one. Get ready by the time our President, Prof. A. S. Henry, calls on you and don't "hang and hum and haw," and say "I need it I know and I intend to take it sooner or later"-now let us say you will never take it sooner and if you put it off after weighing this proposition you will never take it later. Those who get up and say yes "I need it, I want it and this is my chance I will take it" and you sign up and go to work and in 24 months you are drawing \$90 per mo.

and now you are delivering for \$30 per month. Now read these testimonials and determine right now you are going to be among the Henry's Business College Assn. bunch and you will never regret such a decision-

To Whom it May Concern: I have known Mr. A. S. Henry since boyhood, and he has always proven a good citizen of Navarro County. He represent Navarro County in the 23rd Legislature, and had the honor of introducing the school bill which became a law, that put teachers and salaries on a higher basis, and also had hygene put in the curriculum, and in many ways improving the schools of Texas. I take pleasure in saying that any community that might engage him in commercial school work will be fortunate, and he will make good every promise that he makes.

Mr. Henry is doing a commendable work in that he carries a first-class business course to the very door of many young men and women who could not possibly go from home at a large

Lubbock, Texas, Oct. 26, 1911. To Whom It May Concern:

I have just completed a Course in Henry's Business College Association. The course comprised: Regular and Complete Double Entry Bookkeeping, Correspondence, Penmanship and Cotton Grading. I completed all these subjects in 6 weeks time. I understand how to handle the Cash Book, how to open a new set of books and to close a set of books, at the end of the year to show the results of the business. I also believe I can safely buy, sell and grade cotton on the streets. I am 35 years old and have been a school teacher myself, and when I say Mr. A. S. Henry is the best instructor I have ever studied under, I do not lower the value of many good teachers who have given me valuable instruction. Mr. Henry can explain a proposition from so many standpoints you can't help grasp its meaning.

I strongly recommend to young men and young ladies and to parents to attend and patronize Henry's Business College if it comes your way. Every pupil who made an honest effort is highly pleased, and you will be also.
Yours truly.

J. K. MILLER,

Lubbock, Texas. Snyder, Texas, Jany., 1910. To Whom It May Concern:

I attended one of the leading commercial colleges of Dallas, Texas, 5 months and obtained a diploma. However, I failed, for want of personal help, to understand the cash book and how to open and close a set of books. I studied these two subjects 10 days under Mr. Henry and easily learned them to my entire satisfaction. The facts are, Mr. Henry gave me more personal help and instruction in 10 days than I secured in Dallas in 5 months. I was tied up from 10 days to two weeks at a time waiting for 80 minutes help. Mr. Henry will teach you far

Now Down to Plain Facts.

Henry's Business College Assn. with headquarters and permanent all year round school at Wichita Falls comes to Haskell and offers their services to teach a term school of 15 weeks or 4 months, including all lines of Commercial work equal to any school in Texas. We teach regular Bookkeeping or Business Course including Penmanship and Correspondence, Shorthand, Typewriting and Banking, in fact everything in Commercial School Work.

We claim and offer you testimonials to prove it, that we can and do give you more practical instruction in 4 months than you get in the large overcrowded city schools in 6 to 8 months. You ask why we can do this? The answer is, we have 20 to 30 pupils under one teacher and they have 75 to 100 pupils under one teacher-now since it is a fact known to all business men that we cannot teach commercial work by classes, but must give each pupil individual instructions, it is common sense we can advance 25 pupils more rapidly and more correctly than another teacher can advance 75 pupils.

> more in 6 to 8 weeks, giving as much as two hours daily, than you can get in 5 to 6 months in the cities. Respectfully, J. A. Lowe, Bookkeeper for J. A. Lowe & Son, Snyder,

Lubbock, Texas, Nov. 3, 1911. To Whom It Concerns:

I hesitated to take Henry's business course because I had never attended school. I did not know how to multiply and divide. However, Mr. Henry assured me if he failed to do me good he would refund my money, and with this assurance I entered the school. The first few days I worked on addition, subtraction, multiplication and division, and soon found I could handle these subjects. After 10 days close and thorough work on these fundamental principles, I took up the regular Bookkeeping work, and, to make the facts short, I completed the regular Business course in 7 weeks, and I understand the work and I am now keeping my firm's books. I am a partner in the firm of Judd & Son, and I am more than pleased, in fact I am delighted with my work under Mr. Henry. I owe my success to the personal work and interest Mr. Henry gave me. I know from what friends tell me who went to Ft. Worth and Dallas I could never have gotten the work there I did here. I also understand discount and interest. Res-Lubbock, Texas.

Secretary of Chamber of Commerce of Wichita Falls, Texas, Commends Highly Henry's Business College Association

Wichita Falls, Texas, Jan. 1st, 1912.

To Whom Concerned:

I am glad to recommend very strongly Henry's Business College Association. They maintain a permanent college here and they do a firstclass work from every view-point. I am personally acquainted with Patrick Henry, the business manager, and I am pleased to say he is an A1 christian gentleman, including all that word implies. The public need not hesitate to encourdge these people as they will in our belief and from our experience make all promises good. The town securing one of their term schools may consider herself fortunate.

Respectfully. HAPPY DAY, Sec. Chamber of Commerce, Wichita, Falls, Texas.

Superintendent of Public Schools, Wichita Falls, Texas, Commends Highly Henry's Business College Association.

To Whom Concerned:

It is a pleasure to me to commend Henry's Business College Association work. These people know their work and they are thorough and conscientious and the public many rest as-sured they will not be faked by these people as they will make good their promises. Any town in the state may consider themselves fortunate to have these people open a term school to help those who can't leave home for a business education. Encourage them.

Superindent Wichita Falls Public Schools. Haskell, Texas, Jan. 8, 1912. To the Citizens of Haskell:

I have known both Mr. A. S. Henry, president, and his son, Patrick Henry, business manager of Henry's Business College Association for several years and I take pleasure in saying I believe these people will redeem any promises they make to the people. Our town and espe-cially those who need and desire a business education are fortunate to have a business course brought to their doors. I predict and shall be glad to see these people organize a good school

JOHN B. BAKER.

Now read and satisfy yourself we are not fakes, but all we claim to be, and if you cannot give a satisfactory reason why you should not take a business course. Get ready for it. Call on our Mr. A. S. Henry at Fox Hotel, or leave word at Haskell Free Press office and we will call on you. Call for us over phone either at Hotel or at Press office and leave request for us to call and see you and we will gladly do so. We will open in full trim up stairs in the State Bank Building on Monday, January 15th, 1912.

Ideal Grocer.

Muscle Saver.

The woman who lives on the sixth floor of a no-elevator apartment house ordered some things of the grocer and begged that they be sent right around in a hurry. Soon the rattle of ropes in the dumbwaiter shaft proclaimed that the groceries had arrived. The woman took off the basket that held them and emptied the stuff out on her kitchen tubs. Then she followed the usual custom of setting the empty basket back upon the "dummy" and shouting "All right!" to the grocer's lad in the cellar. As she closed the dumbwaiter door a small voice piped up through the shaft. The woman listened a moment and then put her head into the shaft and called "What's that?" The small piping treble continued: "T'row de basket down, will yer, Mrs.? Me arms is near broke." And as the basket went hurtling down, "Mrs." couldn't help but admire the lad's labor-saving idea,-New York | Foley's Honey and Tar Compound

Chinese Pirates Meet Bitter Disappointment After Risking Their Necks for Loot.

It was a surprise to the Chinese pirates who looted the Pacific Mail liner Asia, wrecked in Oriental waters sometime ago, when what they believed to be slabs of silver turned out to be nothing but tin. They were more than disappointed in view of the fact that they had risked their necks to get the supposed precious metal and had conveyed it a great distance in sampans to dispose of it.

According to W. W. Pipkin, connected with the Chinese maritime customs service, who arrived the other day of the liner Persia, there were at least 100 small Chinese fishing boats that put in at various places laden with tin. In their haste to get away with the cheap but shining metal the pirates had overlooked the more valuable silks and other rich far eastern products which were in the

There is nothing now visible of the old Pacific mailer, according to passengers on the Persia, which passed close to where her sister ship went to her doom on the treacherous crags that seem to beckon mockingly out of the mist that incessantly hangs over them. What portions of the steamer were not broken up by salvers were dismembered by the beating seas .-San Francisco Chronicle.

How Long a Lantern Will Burn. A merchant at Olathe filled a lantern with oil, lighted it and placed it in his show window, offering the lantern as a prize to the one who made the best guess as to the length of time it would burn.

A young woman guessed forty-five hours and won the prize. The lantern burned forty-four hours and thirty-three minutes. One man who went to the trouble to work out the problem to a mathematical certainty, after fluring for an hour, gave the answer as three hours and eight minutes.— Kansas City Star.

CURED OF SOLITAIRE PLAY THOUGHT TIN WAS SILVER

> How One Wife Put Stop to Her Husband's Preoccupation With the Game.

"My husband used to be a solitaire flend," said a woman the other day "He used to come home nights and play several games while I was preparing dinner. After eating-and he would hurry that-he would rush to his card table and play until late at night. If this had happened only once a week it would have been different and I would not have said a word about it. As it was, he would play ev ery night we were not going out together.

"I like card playing, but when it comes to making the game of solitaire an occupation, I draw the line.

"I worried and fretted about the proposition as I thought it was doing my husband harm, as well as keeping him from being sociable, until 1 thought I would have gray hair. I remonstrated, argued, fought and shed tears, but all to no avail. Finally I hit upon a scheme.

"As I was an unusually poor card player my husband had criticized me several times for my ignorance, good humoredly, of course, and I decided to learn to play solitaire also. I bought a pack of playing cards and one evening at dinner I told the solltare flend that I wanted him to teach me the game. He was delighted to think I at last had come to his side and he said he would instruct me that very night.

"Accordingly, after we had tidied up the dining room-he helped me that time-we started in on the single handed game. My husband sweated and almost swore at times and he called me a bonehead' and several other names that mean the same thing. Finally he gave it up in disgust and he has not played cards

"This Chicago woman wrote the name in her address book. Then she showed me the names of saleswomen in several other stores.

'This is only a preliminary to real shopping,' she said. 'It pays me to take the extra trouble. If I expect to buy more than \$5 worth of anything at a strange store I learn beforehand the names of the saleswomen whose looks I like best.

Minerals in the Human Body.

The human body contains, among other constituents, about two pounds of phosphorus, which is esesntial to the health of the bones and the vigor of the brain. This phosphorus, if extracted and put to another use, would make up about 4,000 packages of friction matches.

Besides phosphorus, the body contains a few ounces of sodium and half an ounce of potassium. The quantity of the latter would be sufficient for many experiments in a class chemistry.

In addition to sodium and -- assium there are a few grains of L enough to make the "silver rain" for a family's stock of rockets on a Fourth of July evening or to create a brilliant light visible at a considerable distance.-Harper's Weekly.

Bees as a Weather Bureau.

Those who have studied the bees in the mountains say their combs always foretell the length of the coming seasons to a nicety. As they always build their combs first, if the spring is to be early and warm the combs at the top of the hive are built long, but if the first season of the year is to be cold and short the combs are made small. It is the same with the summer and fall season. Mountaineers who have cleared lands in the valley say they can predict scant or bountiful crops merely by opening and examining the combs in a beshive.— New York Press.

Artificial Wood.

Louis Carre, in England, has invented a process for the artificial production of wood from straw or dried grass. It is proposed to use the wood, not only in the manufacture of matches, for which purpose it is said to be cheaper than natural wood. The straw is passed through crushing rolls and then through cylindrical cutters. which divide it into strips. Afterward, supplied with an adhesive, the strips, enclosed on top and bottom with layers of paper, are passed between other rolls, and through linked moulds in the form of a chain, where they are subjected to pressure and heat, from which they issue in the form of round splints, which are then cut into the proper length for matches.-Scientific American.

Twenty years from now, when your earning power has become less, when you will not be as free as you are now, will you be giving orders or taking orders? Will you be working for another man or will he be working for you? If you start an account with this bank at the beginning of 1912, 1912 and all the years to come will bring you many opportunities.

Lamar-Lewis

The Free Press inadvertantly failed last week to mention the marriage of Mr. C. L. Lewis and Miss Louise Lamar, which took place at 4:30 p. m. Sunday, December 1st, at the home of the bride's sister in Abilene. They came to Haskell that night, where they will reside in the future.

Mr. Lewis is the popular operator for the Western Union Telegraph Company at this place, and his large number of friends admire his many manly traits. His bride has resided in Haskell cold, but you never heard of a cold and is deservedly popular with a large circle of friends. She is a young lady of exceptional woman- used. DANDRUFF AND ITCHING SCALP YIELD TO ZEMO TREATMENT

Why should you continue to experiment with salves, greasy lotions and fancy hair dressings trying to rid your scalp of germ life. They can't do it because they cannot penetrate to the seat of the trouble and draw the germ life to the surface of the scalp and destroy it.

Why not try a PROVEN REM EDY? One that will do this. We have a remedy that will rid the scalp of germ life and in this ITCHING SCALP.

This remedy is ZEMO, a clean refined, penetrating scalp tonic that goes right to the seat of the trouble and drives the germ life to the surface and destroys it.

A shampoo with ZEMO (antiseptic) SOAP and one application of ZEMO will entirely rid the scalp of dandruff and scurf. Do not hesitate, but get a bottle 1912. of ZEMO today. It acts on a new principle and will do exactly what we claim for it.

SALE CONTINUED

Despite the bad weather and bad roads our Stock Reducing Sale has attracted sufficient attention to show us that the people appreciate the quality of our goods and the very low prices at which we have been selling them. We are informed that scores of people, especially the ladies residing at some distance in the country, have been prevented from coming, although they desired to do so and secure goods at our

Money Saving Prices.

For the above reasons and the further reason that we have a large stock of winter Dry Goods, Clothing, Shoes, Etc., which we can not afford to carry over until another winter, but for which we must have the money to put into a Spring Stock, we have decided to continue our

COST SALE UNTIL JAN. 20th.

In doing this we have also determined to make a still greater sacrifice in prices than at first intended, in order to make a certainty of disposing of the goods. You can readily see that, late as it is in the season, we can better afford to sell our

Winter Goods at Cost

than to carry them over a year. While it is our winter weight and style goods that we are especially desirous of disposing of we have decided to include our entire stock of dry goods in this strictly cost sale. Not an article in the store will be held back--anything you want goes at cost. This is to give you a further inducement to come to our sale. We are thus offering you an opportunity that you will not often meet with, to save money on such goods as you must have.
