BURKBURNETT, WICHITA COUNTY, TEXAS THURSDAY, JULY 25, 1935

NUMBER 49

Climax Of The Week Will Be Trades Day Presented Saturday

Feature Will Be Held At
E and Main Street Near
Lee and Poultry Co.

The people and business men
Burkburnett are inviting the
of this territory to be honor
of the city at the tremendous
that will be staged by
at 4:30 Saturday after-
noon at E and Main streets.
Merchants have been issuing in-
vitations to the customers all this
week to attend the gathering that
will present another large crowd.
The group met at Burk,
and gay, and we expect
a large or even larger num-
ber to town this week.
A cooperative movement on
the part of the business men
of Burk, and it has been un-
der way in order to make Burkbur-
nett a better place in which to live.
A movement that has been join-
ing every progressive and pat-
ron in the city.
An excellent program with an in-
teresting climax of the main event
will be presented, music, song and
drama of the day will be pre-
sented exactly 4:30 o'clock at
E and Main street and Ave. E.

Library Reduces Rental On Books

A public library announced
that the rental on the
rental shelf would be
reduced to 3 cents each day. In the
past the institution has charged 5
cents a day for the rental for the
day this was judged to be too
high and the executive board low-
ered the rate forty percent. The
library may keep the books at
the new rate if they please at the new
rate, charged a straight rate per
book. The shelves contain several
of interesting novels and
of literature, and the
library is invited to view the col-
lection.

Best Celebration For September 6 Will Be A Gala Affair

Officers Appointed For Celebrations
To Be Presented by Band
And Firemen

70th JUBILEE IN BURK

The bull rolling toward
the celebration of the plans for the
celebration of the Harvest Festi-
val committee meeting of
C. Band and Firemen ap-
pointed the leaders for the jubilee
and the dates for September 6
the climax of the affair will
be a parade of queens that will
be decided by popular vote the 7th
of the month.
The celebration will be a com-
munity affair that will sponsor a
contest in connection with
the festival and there will
be a musical aspect in the streets.
The purpose of the cele-
bration will be to raise funds for
the firemen, and the
celebration will be managed by these two or-
ganizations.

A trade extension committee
will meet with the organizations Fri-
day night the committee
will offer all the support of the
board of Commerce to the band
men in the presentation. The
committee appointed to act
as a board for the celebra-
tion are: W. A. Roberts, chairman;
Brown, secretary; J. W.
representative of the C. of C.
schools, band; and Frank Kel-
ley, department.

A committee board will meet to
discuss details of the fair, and they
will be interested in this organization.
The committee to the other communities
will be issued this week.
Monday Meeting
Monday night the committee
will meet the second time and com-
mittee plans for the Fair. Walter
presided at the meeting and
representatives from the Agricul-
tural Merchants committee of
board of Commerce, fire de-

W. A. (Mutt) ROBERTS
N. R. (Jeff) ALLEN

N. R. Allen and W. A. Roberts, the
longest and shortest men in the Fire
Department. Allen is 5 feet and 4 1/2
inches tall and weighs 150 pounds.
Roberts is 6 feet and 7 inches tall
and weighs 185 pounds. Allen is
former secretary of the association
and Roberts is now president of the
group. Both are charter members.

Repeal Election For County Will Not Be Delayed Says Judge

The repeal movement in Wichita
County ran into a snag of legal
opinion Wednesday when the civil
district attorney Mac Taylor gave
the opinion that the election held
by the county would be invalid. The
attorney stated that no election
could be held and be valid until the
legislature set up the machinery in
event of the passage of the amend-
ment.

However, the county judge H. W.
Filtmore issued the statement Thurs-
day that the election would be held
on the advice of the county attorney
Mike Anglin. Anglin stated that the
election could be held at the same
time as the general election. The
motive of holding the two elections
at the same time, in case the higher
courts sustain the opinion of the
county attorney is to save the ex-
pense of the extra election. The ex-
pense involved is \$2,000.00. Both
elections will be held August 24. The
county will supervise each election.

A. F. Edwards Speaks At Lions Club Tues. On Recent U.S. Laws

Government Experts Tells Members
Of Changes In Policies Of
This Period

GOLD CLAUSE EXPLAINED

Professor A. F. Edwards, head of
the government department of Wich-
ita Falls Junior College, told the
Lions club Tuesday that Roosevelt
may have made the mistake of some
of the former presidents of being too
progressive for his age, and expect-
ing the populace to change a little
too rapidly. However, there was ad-
miration for his attempt to do some-
thing.

In the discussion, the speaker said
that the constitution was written
during the oxcart period, and was
subject to supervised changes, but
that certain principles were eternal
and should never be changed. The
desire for the most of the change
in the uniformity of ideals needs, and
desires brought about by a cohesive
nation, unified by a more progres-
sive system of communication. This
fast transport and communication
system has made us a melting pot.
The melting pot idea created a com-
munity feeling resulting in democ-
racy.

In the past local self government
was vital because local problems dif-
fered from the problem of the dual
national government, but with the
progress that we have made our
problems have become common, and
the nation must fight them as a
whole. This means encroachment by
the national government on some
ground considered sacred for local
governments in the past.

Gold Clause

It is difficult for us to concede
(Continued on page 4)

Relief Officials Ask People Bring More Vegetables To Plant

Local Federal Relief Cannery
Capable Of Canning More Ma-
terials For Public

12,000 SAVED HERE

H. D. Smith, administrator of the
relief offices in Burk asked the peo-
ple this week to assist in the em-
ployment of the 8 to 12 people six
days a week by bringing in more
materials to be canned on a toll basis
at the plant. Since its opening eight
weeks ago the plant has canned 11,
727 cans of material including all
kinds of vegetables, greens and fruit,
and the plans for the present are to
keep the plant open in the city after
school opens so that meat can be
saved for next winter.

The canned materials include:
3424 cans beans, 178 cans of peaches,
101 cans of spinach, 962 cans of
squash, 647 cans of beets, 140 cans
of other greens, 312 cans of carrots,
1092 cans of plums, 712 cans of peas,
308 cans of pumpkins, 36 cans of
kraut, 3598 cans of corn, 63 cans of
okra, 44 cans of tomatoes.

All these materials except those
from the relief garden have been
canned on a toll basis, and they will
be saved for relief administration
next winter.

Relief Roll Reduced

The report from the offices showed
the greatest decrease of any period
since the relief work started here.
The peak of the relief was during the
winter when 308 families of about
1,000 people were supported here
and in this area by the government,
and this was a heavy burden for the
district administration. At the pres-
ent the roll includes only 160 fami-
lies, which number represents ex-
actly a 50 per cent decrease over the
peak roll.

This reduction has been partly due
to the new policy of more thorough
examination, and partly because of
the employment in the various pro-
jects that are under way. The great
number of hands that are used in
the field during the harvesting and
cotton chopping period accounts for
the rest of the people.

Relief Garden

The relief garden has been re-
planted for the fall crops, and some
of the production on spring garden
has been startlingly large. The total
in pounds include: 12,260 spuds, 667
onions, 654 beets, 315 carrots, 2060
beans, 146 black eyed peas, 1043
pumpkins; and the harvest of the
peas and pumpkins have just start-
ed.

This material has been canned or
stored for issue next winter. Such
part of it that has been perishable
has been issued at the relief offices.
There will be a further production,
especially among the pumpkins and
the peas.

Allen To Open Ice Cream Plant Tues.

G. F. Allen from Denison, Texas,
will open an ice cream factory in
Burkburnett next Tuesday in the
business place formerly occupied by
the Mity Nice Bakery. The new busi-
ness enterprise will be called the
Burkburnett Ice Cream Factory, and
will specialize in retail curb serv-
ice. The plant will manufacture its
own cream, and will sell only di-
rectly retail.

Mr. Allen will have the direction
of the making of the cream and he
has had 12 years experience in the
manufacturing of the product. He is
a married man, and he has arranged
for furniture in Burk where he will
move his family some time this
week. The opening will be one of
the business events of the year for
the city, and the company promises
a pure, tasty product manufactured
in this city.

Betty Jean Turner Honored On Birthday

Betty Jean Turner was honored
on the occasion of her tenth birth-
day at the home of her mother, Mrs.
B. L. Turner, last Tuesday afternoon.
The honoree received the guests, and
game and contests were enjoyed by
the members of the party. Refresh-
ments were served to the following:
Jackie, Theima, and Betty Joe Self,
Peggy Dot Busby, Valta Brookman,
Fannie Marie Ashman, Mona June
Cheney, Earline and E. J. Reed,
Gwendolyn and B. Menny Jack Turner,
Jack Willis, W. A. Strickland,
Meddie Wolf, Opal McGuire, Ear-
ma Strickland, Rita Joyce, Billy Joe
and Mrs. J. T. Adair of Wichita Falls.
Mrs. B. L. Turner, hostess and the
honoree, Betty Jean Turner. Those
sending gifts were: Miss Edna
Styles and Jimmy Roy Morris.

Three Burkburnett Boys Get Suspended Sentence Monday

Prize Winner

The Country News correspon-
dents contest conducted by a na-
tional farm weekly developed
some interesting stories, and
among the winner for the indi-
vidual paragraphs was one that
the editors of the Star thought
good enough to repeat. This pa-
ragraph won first place and is a
prize of country writers:
"At the Marion County line
highway 15 indulges in a Mae
West curve. At least this curve
proved dangerous to the man who
tried to go straight. It also proved
equally dangerous to the man
who attempted to hug the curve
too tight."

Trio Charged With Theft Of Pipe From Fort Worth Pipe And Supply Company

Ed Stradley, Elmer Smithson, and
Hobart Swan, all of Burkburnett,
received sentences of five years each
in the District court at Montague
Monday morning. These terms were
suspended after the boys had plead-
ed guilty. Stradley was tried before
a jury and the other two before
Judge Vincent Stine.

The trio were charged with the
theft of 19 joints of pipe from the
Fort Worth Pipe and Supply com-
pany of a Continental Oil Company
lease north of Nocona several weeks
ago. The theft was discovered about
sun down one evening, and the boys
were alleged to have driven to Burk-
burnett. In Burk they attempted to
sell the pipe at dawn the next morn-
ing. After some intensive detective
work by N. H. Harris, acting chief
of police, and Ben Howell, deputy
sheriff, the boys were charged and
carried to Montague county jail the
same night. Stradley was defended
by attorney Earle Kuntz of Wichita
Falls and Earl C. Fitts defended
Swan and Smithson. The cases were
prosecuted by county attorney Glen
Wilson. The probationary sentence
was pronounced by Judge Stine.

First Water Well Is Uncovered At City Light Plant

Romantic Episode In City's History
Revealed When City Moves
Old Shack

DUG IN EARLY DAYS

The progress that has been made
by the city of Burkburnett was dem-
onstrated last Thursday when the
city moved an old shack that has
stood back of the city jail for sev-
eral years and found an old well that
served as the first water source of
the city of Burkburnett. The old tin
shack was moved this week to be
used by A. H. Howard as a cement
shack at the new municipal plant,
and when it was moved the workers
were surprised to find an old well
that had been forgotten or which
was not even known about by the
majority of Burkburnett citizens.

The first water works bonds were
voted by the city council and ac-
cording to Mr. C. A. Purcell, who
was a member of the city council at
that time the amount was \$8,000.00.
This money was divided between
the digging of the well, water pipes,
a pumping system and several fire
plugs.

Deep Wells

After the system was installed
there were several other water parts
purchased and installed. The stand
pipe was erected and an electric
pump was placed at the well. It is
forty or fifty feet deep, and about
(Continued on page 5)

Revision Of Cotton Standards To Help The Burk Territory

The United States bureau of stan-
dards will soon announce the re-
vision of the cotton types. The rare
types will be eliminated and two
cast out of rating entirely. The an-
nouncement will aid the farmers of
the Burkburnett and Wichita area. A
few years ago this territory earned
an unenviable reputation by the
selfishness of a few men. Some men
grew a little long staple cotton and
mixed it with short on the inside.
They sold the bales as whole spec-
imen.

This trickery caused a lowering of
the standard of the whole area and
since that time the farmers of the
section have paid a high price for
that selfishness on the part of a few.
The new rating will give this area a
start that will in time serve to the
benefit of the whole area.

Arrangements of samples within
the grade boxes has been changed to
facilitate use of the standards.

The suggested changes involve
dropping the grades for blue stained
cotton as well as the grade strict
good middling yellow tinged, and
combining the light yellow stained
with the yellow stained grades. Two
new grades, strict good ordinary ex-
tra white good ordinary extra white
would be added, making a total of
32 grades instead of 37 as at present.
Only 13 of these grades would need
to be represented by physical type
boxes of which at present there are
25. The standard set of boxes would
include eight grades of white and
five of yellow tinged. This change
would reduce the cost of a complete
set of standard grade boxes from
\$125 to \$65.

Nine Arrested For Gaming Last Sat.

Nine negroes were arrested by the
night police last Saturday night
when they raided a house in Burk-
burnett, and the negroes were charged
for participating in an alleged
poker game. The police discovered
the game in progress, and two of
them descended on the celebrating
squad and lined them up for exami-
nation. The negroes were brought
to the city hall and released after
examination on bond to report back
to the city hall at Monday's court.

Prohibition Meeting Held Here Next Wed.

SINGERS ATTEND MEETING

The churches and other societies
interested in the drive against re-
peal will hold a district rally in
Burkburnett next Wednesday night
at the junction of Main and Ave. C,
with Dr. O. L. Powers, pastor of the
First Baptist church of Wichita
Falls making the main address. The
meeting was announced by the sec-
retary of the prohibition forces, and
every body in the 13th senatorial
district has been invited to attend
the meeting here at that occasion.

The purpose of the meeting is to
arouse sentiment against the repeal
of the Deane law, the liquor control
law of Texas. This law will be voted
on by the electorate of the state
along with several other amend-
ments to the constitution on the 24th
of August.

In addition to the speech of the
Rev. Powers, there will be singing
by members of Dr. Powers church in
Wichita Falls. Some of the most
notable speakers in the prohibition
movement will accompany the
speaker on his trip to Burkburnett.

The meeting will be sponsored by
the local churches and the anti-
saloon league of the state. There will
be a program presented by the spon-
sors several times in Burkburnett
before the date for the election. So
far as could be discovered at this
time, those that are favoring the re-
peal movement has arranged no
meeting in Burkburnett.

Clemons' Infant Rites Held Here Wednesday

The last rites of the infant of Mr.
and Mrs. F. M. Clemons were held
Wednesday morning with Rev. L.
G. Hagar, pastor of the First Meth-
odist church reading the service.
The burial was in the Burkburnett
cemetery under the direction of the
Owens and Brumley funeral home.
The survivors are Mr. and Mrs. F.
M. Clemons, Mr. and Mrs. J. W.
Bradley, grandparents, and several
aunts and uncles. The services were
held at 10 o'clock Wednesday morn-
ing.

THURSDAY, JULY 25, 1935

REPEAL ELECTION

Regardless of which way you believe, it is our positive conviction that everyone possessing a poll tax ought to vote on August 24 either for or against the repeal amendment submitted by the state legislature. This will be an opportunity to settle the argument for many years. There has been a lot of bitterness in the past over the prohibition elections, and we hope that this election will pass without the repetition of many of the feuds.

This will be about the ninth time that the vote has been taken in Texas and Wichita county. Some of the elections have gone with a predominant majority one way, others have reversed the stand with equally large majority. It is unfortunate that the election should come on an off year, when so few taxes have been paid, but it will teach us a lesson to pay every year.

We would like to see both sides bring out their biggest force so that no one could say later that they didn't have a chance. Following the enactment of the Dean law (which is being repealed or appeal of which is being attempted.) Many service men said that they didn't get a chance to express an opinion. After this campaign is over, let us hope that no one can say that. It won't be possible if all the temperance and anti-prohibition workers each get their crowds out to the polls.

A REAL CIRCUS

We do not wish to be uncharitable or to poke fun at our neighbors, the citizens of Wichita Falls, but we can't help making a slight comment on the political situation there. It hasn't been many years since the reporters hated the assignments to cover the council meetings there as a dull hour or two. Now it constitutes one of the most exciting assignments in the routine. The observers are liable to see anything from a mob in action to a duel at arms.

We are sure that the majority of the people of Wichita regret that this situation has arisen. Even the most partisan political men, can not get much pleasure out of making that city the laughing stock of the whole state. A few days ago we were in Dallas and mentioned that we lived in Wichita, and the friend said "Oh, yes, that's where the city government is always fussing."

When people lost the respect for the government, they just don't care what laws are or why. The quarrels of that group have left the employees of the city and the citizens as a whole up in the air. No body knows exactly what is taking place and the general public outside of Wichita finds it a very laughing matter, a sort of a circus; but I don't imagine it's so funny to the Wichitans. At least it serves as a warning to the rest of the cities around to be careful about their elections.

WEEDS

This city has been blessed this season with a prolific growth of weeds and mosquitoes, and a great number of the citizens have been thoughtful enough to keep their property in good trim. However, there is a large amount of property on which oil wells are located or which is owned by people out of town. Even some of this property is owned by people here.

Nothing is as productive of unhealthful conditions as a rank growth of weeds. We don't know just exactly what ought to be done about it, but something should be undertaken to correct such a condition. Flies, insects, and vermin of all sorts breed in such places. We don't think that the city or government should have to cut the weeds no matter how many jobs it would create, but pressure of some sort ought to be exerted to achieve the results.

It is possible to assess the people and send out men authorized to demand that the property be cleared. We are not sure, but possibly some official demand could be made. There is no sense in allowing the laziness or selfishness of a few to endanger the health and beauty of a whole community.

FEE SYSTEM

There is one amendment that the state will vote on that may work out to be the greatest blessing that our legislature ever offered us. That is the sixth amendment that will abolish the fee system of the state. We believe that our officers ought to be paid a salary and not have to depend on the number of arrests they make or trials they prosecute for their salary.

Since the constitution was first made nothing has led to more wholesale graft and deliberate theft on the part of officials than the present fee system. We have even known of men getting arrested and fined by frame-ups, purely to fatten some officers' fee list. This is especially true in the large cities that deal with vice circles. In the small city it has been true of the fining of passerbys. An officer will wait for speeders and traffic violators just to fatten his salary.

In the case of vice, we do not wish to be sentimental. The women and men that manage the illicit traffic pay high enough a price without being prey of selfish authorities.

We believe that it would give more dignity and efficiency to our system if a civil service method with regular salary were used. Under such a system we believe that the business that deserves attention would get it, and not merely a case that might put more money into an officials pocket.

News of Week

The most important development of the past week was the passage in the house of the bill that will make impossible court action on the gold clause in the bonds and stocks issued in the past. There have been issued in the U. S. enough bonds which guarantee payment in value of gold at time of maturity to cost governmental and private agencies from 10 to 29 billion dollars since gold has gone so high.

When the dollar was pushed down to 59 cents, gold went up to almost forty cents an ounce. It would bankrupt the nation and all industries to have to pay in gold. We could never regain our gold standard until this law is passed. For instance, for each railroad bond of \$1.00 par, the company would have to pay \$1.69 to the holder. That is impossible. This law will prevent such suits.

Gas Waste Cases

The cases that are being watched with most interest right now are the gas waste cases that are being filed in the federal court in New Orleans. Texas passed a law regulating the waste of sweet and sour gas in the Panhandle and other fields. At the present rate the fields that should last a century or two will be exhausted in less than a half century. This is useless. The law reads that only sour gas can be used to make casing head and carbon black, and the wells from which it is drawn must be repressed periodically.

Emperor of Ethiopia

When the Emperor said to his people last week "I am ready to die with you-my people" he probably meant it. That nation isn't so civilized that its rulers stand back and let the people do the fighting, but they still have the old fashioned idea that a king ought to go out and lead the men in battle. The people will fight the bitterest battle humanity ever saw, because they are religious fanatics in the first place who think it is glorious to die in combat. Heaven with wine and beautiful women are promised to any soldier who dies on the field of action.

In the second place they are defending their homes and families. Nehemiah is credited with pulling that gag for the first time. When the enemies surrounded Jerusalem, the old prophet put the family of each man immediately behind that man. So the warrior fought until death to protect the family. Ethiopia is in much the same situation. They have their homes to protect. Italy is merely fighting because she must have room for her expanding population.

Censorship

Germany is in the same muddle again. They jailed an editor from the United States this week. Some day rulers will learn that the quickest way to spread a false rumor is to shut off the news sources. United States is practically the only country

besides England where freedom of press is prevalent. Also these are the only two countries that haven't definite governmental disturbances. That can't be just a coincidence.

New War Spots

Two new spots of tension developed in the world over the week-end. In Asia, Japan and Russia were at each other throats over the alleged violations of agreements by the Japanese government with Russia. Last spring it looked like the Russians and the Japanese had made up and were to have a love feast. The trouble broke out again a couple of weeks ago as the result of the new Japanese offensive in and near Jehol. The Russians are aching for a fight, and they just as soon fight Japan as anybody. Or they probably would rather fight Japan and get a chance at revengeing the terrible defeat the little men of the Rising Sun handed them back at the turn of the century. The recent fuss developed when a troop of Japanese pushed across into Russian territory, claiming to hunt bandits. Japan denies the allegations.

Germany

The second high spot developed with the new program of the German Reich. This body decided that they could have it out with the church people that had not been supporting the Hitler government as enthusiastically as they ought to support it. There were wholesale jailing of preachers and priests in Germany. The whole world will be even less sympathetic with the German cause as the result of this act. Rome, Warsaw, London and Paris have all protested. It won't do much good for these governments to protest, but the situation adds a little fuel to a very complicated fire that is smoldering in all Europe. Germany may need all the friends that she can get some day. Offending the church is no way to hold those friends.

Current Literature

We know that several of the women of the local Garden club are interested in birds and bird houses, and for that reason we would like to recommend that they read the book by Gladys Hastings Carrol, "A Picture of the Birds," from "A Foolish Ones". You will be delighted and at the same time shed a few tears over the pictures that are drawn.

For instance this passage? Tough little fellows; they dipped and soared as if it were summer, or bit and tore in a frenzy of industry or foot tucked in among their feathers." We have all seen birds that way in the winter.

While we are talking about it, read a passage of Tolstoi occasionally for your literary advancement. We are thinking particularly where he describes the peasant who set out one winter night to murder an old woman in her cottage. He tramped through the snow with the hatchet in his coat, when it suddenly occurred to him that it was All Saints Day. He fell on his knees and begged God to forgive him for his evil intention on All Saints holy celebration. He rose up feeling he had been forgiven.

Then he postponed the murder until the next day. That's Tolstoi. No other artist compares with him.

Many of us have enjoyed Louis Stevenson, primarily we thought of him as a writer of adventure stories as is evident in Treasure Island. But very few brilliant philosophical and work that he did write in a few years of his life. He was to write in a popular style cause of his health. He never reconciled his ideals with the usual novels and stories he wrote. They are the best type, but he desires more stuff. He called such writing "Playing the sedulous ape."

If you find a copy and read his essays: "Aes Triplex."

On especially hot days some times irritated by men persons bubbling with surly gy. If you feel that way find sympathetic interpretation the idea in Resurrection.

However, if you want heavier reading for a philosophical mood, there is "Permanent Change." Get a dictionary you read it, and immerse up the of philosophy that you see by in college and high school intriguing beyond understand

MILLIONS OF POUNDS HAVE BEEN USED BY OUR GOVERNMENT

Chrysler Broadcast "G-Men" Stories

Dillinger's reign as a modern hero of the middle west and how he was captured by the Department of Justice agents took up the trail of the first of the Chevrolet "G-Men" dramatizations to be broadcast on NBC-WEAF coast to coast Saturday, July 20, 1935. (E. D. S. T.)

The story of Dillinger and his associates in the weekly half hour series are based on actual facts from the files of the Federal Bureau of Investigation. Phillips H. Love, author of the scripts and direct material, has been granted access to the government archives for authenticating the radio series of "G-Men", the sponsor submitting all manuscripts to J. Edgar Hoover, director of the Federal Bureau of Investigation, for approval before putting them on the air.

The outlaws Dillinger and his associates are a natural result of the special interest of the automobile industry in the writing of which finally enabled the

Federal authorities to take up the pursuit of the killer-fugitive and annihilate him after he had baffled local enforcement agencies for weeks.

A violation of the Dyer act, promoted by the automobile manufacturers in 1920 and making it a Federal offense to transport stolen automobiles from one state to another, occurred when Dillinger crossed the state line from Indiana into Illinois. It offered the government's special agents, previously hamstrung by jurisdictional red tape, a legal right to enter the chase and their efficacy aroused public demand that the bureau be given wider latitude. The case proved the forerunner of a notable string of Federal successes in the extermination or breaking up of criminal gangs.

The program will make no efforts to color the records to gain theatrical punch. It sponsors believe the public will find in the factual scripts all the required dramatic elements and also will get a clearer and more truthful picture of the Government operatives at work if the records are simply allowed to speak for themselves.

G-Men activities in kidnaping cases, in the hunts for "Pretty Boy" Floyd and "Baby Face" Nelson, in cases of crimes at sea and in the scientific development of meager clues, will be acted out in subsequent broadcasts.

STOP! AND CONSIDER THE DIFFERENCE

How many miles per gallon of gas did your car make when it was new? Alright. How many miles per gallon is it making now? Perhaps three or more less. Figure the loss over a period of several thousand miles driving. Surprising? Drive in and let us "TUNE UP" your motor with our "KING MOTOR TUNER" and correct this loss. A trial will convince.

Big Rabbit Creek

July 21, 1935

The sad news arrived in our neighborhood late Saturday that Mrs. D. L. Williams' father, Mr. Rhodes, who lives out in California passed away. Mr. Rhodes had a stroke about three weeks ago. The Rabbit Creek community joins the writer in sending to the bereaved relatives our heartfelt sympathy in losing of their father and husband.

The writer called on Mr. Martin Sunday forenoon and spent the forenoon visiting Mr. Martin for several weeks has been very poorly, but at this writing he is getting along fine, but isn't able to do much farming yet.

Mr. Tobe Hardin and Mrs. Martha Nails and her son Charlie and a Mr. Grady Harris spent Saturday evening visiting the Owens family.

Mrs. Martha Nails, Mrs. Ed Owens, and Mr. Tobe Hardin and Charlie Nails spent Sunday visiting in the home of Mr. and Mrs. Charlie Griffith and family.

Mrs. Charlie Mouser was quite sick Saturday morning but at this writing she is much better.

Well it's still very dry over on this side of the big pond. We had a little Jack County, Texas, shower a few evenings ago. Cotton is still doing fairly well but June Corn and late planted feed stuff is needing rain. One good thing this neck of the woods is well supplied with stock water.

Mr. J. H. Stiggins and Mr. Jack Williams is working at the big air dome that is being built at Walters, Okla.

Our good, old-time friend, Br. John Ashton was sure enjoying himself Saturday afternoon over in Burkburnett. Sitting around in his hitchhiking chair.

Well sir, folks, one day last week Hawkeye and his better half motored up to Uncle Will Day's peach orchard in their big Cadillac to purchase 5 bushels of peaches. Of course Hawkeye was under the wheel all of the way over there and back, and believe me we never had a flat or a blow out on the whole trip. Readers instead of making our trip with our Cadillac is powered by old Ned and Jack. We made the trip safe and sound. Well, a few minutes after arriving in Uncle Willis' orchard, Hawkeye's old-time friend Will Day came out of a near-by cotton field where he was planting his cotton with a brand new Farmall tractor. So the next thing Hawkeye noticed was that Will had 18 big, large, selected peaches in his arms and in just a few seconds they were all consumed. So Will went after more peaches and he got 20 that time, and they went the same route, 38 in all. So Hawkeye says to Bro. Will: "What's the big idea of eating all of them big peaches" and Bro. Will

says: "You know Uncle Ed I'm riding that tractor over there and some times it try's to buck me off in that deep sandy soil, so I am eating these peaches to help hold me down in my seat." Brother Will only weighs 200 pounds. Will was planting this cotton on his father's land where it easily makes a bale of cotton per acre. Hawkeye asked his friend Peach Eater Will how often did he visit his father's peach orchard. He said he made about 8 or 9 trips during the day. He just had to in order to stay on good terms with his Farm-all.

Brother John Ashton, his good wife and daughters were all shopping over in one of the best little cities in the state of Texas, Burkburnett, Saturday afternoon.

W. A. Cannington of Altus, Okla., a field man for the Kansas City Life Insurance Co. was here looking after land holdings in this part of the county.

HAWKEYE

Library Purchases Books And Magazines

The library board approved the purchase of eight volumes of Jack London's popular novels and a copy of the standard dictionary Thursday afternoon. Along with the purchase of the association, the association subscribed for three magazines, including "Forbes," "Popular Mechanics," and "Review of Reviews." These magazines will come for two years and the books and dictionary will be shipped in the near future. The novels are among the most popular for youngsters, and they are the greatest written by the author.

The library has been increasing the volumes on the lending shelf as the result of the increased summer demand by school children released for the vacation. The books now amount to more than a thousand volumes.

Harvest Festival—

(Continued from page 1)

partment and band were present. This committee appointed a committee to decide the location of the fair. The location was given to the merchants committee. The report from the committee indicated that the fair would be held in centrally located building with all exhibits submitted massed together.

The exhibits will be a colt show. The breeders of the district will be asked to submit for competition all of the colts and young horses of all kinds at the show for competition and prizes.

Merchants Prizes

The poultry show will be held in the same building. The committee selected for the prizes to be offered for the exhibits was M. D. Dean and Henry Grace, chairman. The committee will select another member to survey the town. The merchants will be offered an opportunity to give prizes that will be given to the winners of the first places in actual competition.

The agriculture exhibit will be divided into two parts. There will be prize competition on various farm products entered at the fair, and the farmers may enter any type of material offered. Then there will be prizes offered for the best booth featuring everything that any farmer produces. These booths will be arranged by the farmers and they will be given room at the fair building.

Queen of Harvest

The climax of the celebration will be the coronation of the Queen of Harvest. A popularity and beauty contest will be held by the representatives of the most beautiful and popular girls in the Burk trade territory. Two or more representatives will be selected in Burk Burnett. These will oppose each other here.

The votes for the queen can be secured from the merchants in the city of Burk Burnett. This queen will be designated and crowned queen on the last night of the festival. She will be presented in a parade and then at a pageant at the finale.

History of Burk

The grand finale will be the presentation of the queen at the pageant that will present the history of Burk Burnett. This pageant will be written and directed by local talent, and the work in the writing of the script has started.

The committee for the queen, parade, and pageant is Oscar Kemp, Jack Brumley and E. L. Nichols. This committee will send invitations to the princesses of all the trade communities in the area. Fairview,

Lions Club—

(Continued from page 1)

that any emergency has arisen to justify the violation of the guarantee of a contract. However, according to the speaker, the persons holding gold bonds, receive in value or purchasing power the same dollar that they invested in the bond several years ago.

The decrease of the gold content of the dollar made cheaper money, and therefore was a benefit to the debtor. The debtor can pay his obligation in a dollar that is just as valuable as the day he made the debt.

The closing of the banks was a result of lack of confidence, and gold isn't necessary if we have confidence in our government. It has a psychological value.

The speaker was asked about third party movements, and said that he didn't think any would succeed, and especially Long. Further he stated that municipal utilities and other utilities were vitally interested in the cases at Washington. And so long as Roosevelt stood strong against the utilities that he would be elected president.

Frank Kelley presided at the meeting, and D. R. Peevey was a guest of the club. Henry Grace and Frank Kelley made announcements about the plans for the Harvest Festival.

Oregon reports that a CCC man was chased into camp by a bear. It is to be hoped that he successfully led the wild life.

In Louisiana, they work by Long measure.

Clara, Bridgetown, Stringtown, Valley View, Randlett, Devol, Rabbit Creek, Charlie, Cashion, and all other communities will be visited by delegates this week.

There will be contests and carnivals directed by local talent and the funds derived will be given to the band and the fire department. These will be given on the street Friday and Saturday, September 6th and 7th.

"SWELL HEAD" PROVES TO BE GENUINELY ENTERTAINING FILM

Starting off with its right foot forward "Swell Head," the Columbia picture which opens Saturday midnight at the Palace Theatre, promises to be a very entertaining film and it certainly keeps its promise. With Wallace Ford doing a fine bit of characterization as a famous home-run king afflicted with a superiority complex, and Barbara Kent a sly girl who tries to reform him from his boastful ways, the picture slips easily from one interesting situation to another.

Terry McCall, the great ball player, is in love with Mary Malone, who serves at the counter of a restaurant favored by members of his team. His constant quarreling with his lover, Rube, a pitcher, leads to Rube's transfer to another team.

When Rube's team next plays the team Terry is on, Rube is pitching. When the home-run king gets up to

bat he again begins kidding Rube. In a wild attempt to slip a strike past Terry when he is off guard, Rube accidentally beans his old teammate, who suffers a bad concussion of the brain.

Blindness followed in the wake of this accident causes Terry to be benched by the manager, and broken hearted and wounded he disappears. When Billy, Mary's kid brother, goes searching for him in a rainstorm he catches cold and is soon dangerously ill. Deliriously, the child calls constantly for the absent Terry.

The ultimate finding of Terry, his groping arrival at the boy's bedside and the restoration of his eyesight and position on the team, coupled, of course, with another victory so far as Cupid is concerned, brings "Swell-Head" to a swift and satisfactory conclusion.

First Oil Well

The first oil well was a water well. The men had been short of water during the drouth, and a well was dug. Much to the disgust of the natives, it turned out to be a well into which seeped a sticky black tar like substance. The natives used it for painting chicken houses and such things to prevent mites and insects. It was located west of Herville not far from the Byers ranch.

The whole history is a romantic story of the hardihood and adventure of a great number of men that stood the test with courage and persistence, and established a community that has given every advantage possible to the present generation. Fighting drouth, storm, and Indians, facing starvation one year and wars the next, these people of the area left a tradition for the present generation to uphold.

Professor Householder

Professor Householder is remembered by the old time football fans of the state as one of the best players that ever wore the Longhorn uniform. He went out for the team, according to his statement with his only knowledge confined to what he had read in "Tom Brown at Oxford" and was one of the greenest of the green. After a preliminary wrestling match one of the players asked him to sign up for football.

The first assignment was tackling practice. The coach showed him how to tackle, and on the next play he set the end down with a smashing tackle. The coach hadn't said anything about tackling the man with the football.

For punishment he was asked to run around the track. The team went on practicing and after a few days they noticed him still trotting around the field a couple hours later. Dr. Householder says that the story was slightly exaggerated.

Later he became one of the stars of the team, and coached the Householder Pets, the second string while he served as a teacher at the school from 1906 to 1909. It was during this period that the famous squabble over his playing against A. & M. arose. Each side had a player they wanted to play that wasn't eligible, after one down A. & M. decided to withdraw their ineligible player and asked Texas U. very forcefully to do so. It developed into one of the biggest arguments of the year.

Mathematics

As professor of Mathematics, Dr. Householder stated that the history of the subject was the history of civilization. It originally consisted of plane and solid geometry. This was the result of a civilization that was largely agriculture. With Sir Isaac Newton's inventions of Calculus modern math started. Asked about the practicability of Math studies, Dr. Householder, said that the question was a foolish one. He stated further that no one ever did anything today without applying some form of math. In reference to the Einstein theory he stated that it was still in process of exploration and little of interest could be said for the layman.

Rotary Club

Describing the Harvest Festival as the greatest opportunity that our community will have this year to cooperate in a constructive advancement of the town, Oscar Kemp asked the Rotarians to pledge themselves to unstinted cooperation with the firemen and band this fall in the celebration. The program at the Rotary club noon Tuesday was devoted to the analysis of the festival that is to be presented by the organizations. The plans for a centrally located fair with the climax coming at the coronation of the Queen of harvest were announced, and the merchants and business men and all other citizens of the city will join to help the organization in the affair.

The program was under the direction of C. P. Logan, and the visitor from the Wichita Rotary club was John Sullivan. The club formerly endorsed the celebration and will cooperate with the local groups in the presentation of the fair.

WHY! DRINK COOL BEER IN A HOT BUILDING. WHEN! You Can Drink COLD Beer In A COOL Building! The Biggest and Best Hamburgers in town. JACKSON NEWS STAND ROY JACKSON, Prop Building Cooled By Washed Air

Production Credit Unit Reorganized

Farmers and Ranchers of This Area To Benefit By System

Production credit, which has been in operation in Texas almost two years, provides a permanent source of short-term credit on a co-operative basis to farmers and ranchmen. It is adapted to their needs; and more and more, farmers and stockmen are becoming acquainted with its many attractive features, including a very low interest rate, which is five per cent at the present time.

Mr. Lee also discussed the four permanent units of the Farm Credit Administration of Houston and pointed out the benefits Texas agriculture has derived from the tremendous volume of credit that these institutions have extended to the farmers and stockmen of the state. Credits and collections and various other problems of production credit were touched on by the speaker and later came up for round table discussion by the group.

In addition to Mr. Sherrill and Mr. Hamlett, the Wichita Production Credit Association, which serves Wichita, Wilbarger, Clay, Montague, Baylor, Archer, Young, Jack, Palo Pinto and Throckmorton counties, was represented at the meeting by Mr. S. W. Dykes, of Seymour, and J. J. Keeter of Throckmorton directors. Other associations represented at the Stamford meeting included the Sweetwater Association and the Stamford association.

Film Players Always Learn Something New

Lionel Barrymore had to experiment with lacerant and tourniquet, vein-clips and arterial apparatus. He even took a practical course, under an experienced physician.

Barrymore's surgical incursion was in his new role in "Public Hero No. 1," gripping drama of the work of the secret service in combating criminals and gangsters which comes Sunday and Monday to the Palace Theatre.

In the new Metro-Goldwyn Mayer picture, he gave a transfusion, Chester Morris donating the blood, and Joseph Calleia, as the gangland overlord, receiving it.

Ramblers Defeat Thaxton Team Here Monday Afternoon

The Ramblers, recently organized ball teams of the boys too young to play in the league took the Thaxton team for a game Monday night 8 to 5. The game was played after the regular battle between the Mag and Thaxton teams. The Ramblers were held without a run until the 5th inning, and they made a big spurge then to tally five times. In the 6th they added three more runs to make a margin for the game.

The Ramblers and Kenkos are playing a series of games before they meet again for the city championship a Kenko game later in the week. The Ramblers meet the Perkins Timberlake team next Wednesday night.

Lion Delegates Are Enjoying Convention

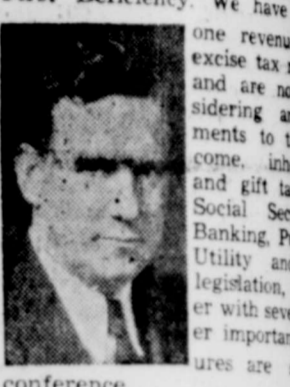

The ten Lions and visitors that are attending the Lions convention at Mexico City are enjoying the meeting, according to the word that was received in a telegram from the Mexican capital Tuesday. The telegram said that the delegates recommend the city very highly for convention, implying that the representatives were receiving every possible attention and courtesy. The representatives of Burk are Mr. and Mrs. Clyde Bohner, Mr. and Mrs. Randle Watkins, Mr. and Mrs. Y. C. Paschall, Johnnie Anderson, Wylie Browning, and Luther Caffee.

Star Ads Bring Results!

Capitol News Letter

by W. D. McFarlane, M. C.

Status of Major Bills This Session. The following major appropriations bills have passed; Independent Offices, district of Columbia, Treasury, Post Office, State Justice, Commerce, Labor, War, Interior, Navy, Legislative and First Deficiency. We have

Farm Tenant Bill

The Bankhead-Jones Farm Tenant Act passed the Senate and is now pending before the House Agriculture Committee for a fair chance of becoming a law this session.

Frazier Loanke Bill

This measure was favorably reported by the House Agriculture Committee. The petition was to discharge the Rules Committee and bring this measure before the House for a vote and several have come within four signatures of the required 216 of discharging the Committee to force this bill to the House for consideration. Members have been argued into moving their names from the list. House leaders declare they have not tried to intimidate members. They have taken no action in this regard, however, members who have moved their names, state otherwise. Only 4 signatures are needed to charge the Committee at this time. Had it not been for adopting "gag" rule requiring a majority of the House to discharge a Committee and force legislation upon the floor for a vote, this measure would have been considered earlier this session.

Utility Lobby Investigation

The Senate Utility Investigation Committee has revealed how the Utility Lobby has been operating. Hearings disclose that the Associated Gas and Electric Company is spending over \$700,000 to defeat this legislation and further that its directors were responsible for ordering all fake telegrams to Members of Congress to be buried. Further startling disclosures are expected from this committee in the near future. The House Committee investigating the subject has made little, if any, progress toward unearthing any of the activities of the Power Trust, but 4 of this Committee voted to Secretary Ickes charges that the ties are blocking Municipal Plant projects. He states that each of 22 cases the legal language of legal documents presented against the municipal power projects is similar in so far as questions of similarity are concerned. Secretary said "in some instances it is identical."

National Youth Movement

The writer is receiving many inquiries regarding the Administration's Youth educational program. Mr. Dewit Edward Kinard, has been appointed director of the National Youth Administration in Texas with headquarters at Austin, Texas. Inquiries and applications for relief under this program should be filed with Mr. Kinard.

"Lady," said the policeman, "had motioned her to stop, but she long do you expect to be out?" "What do you mean by that question?" she demanded indignantly. "Well," he replied sarcastically, "there are a couple of thousand of her motorists who would like to see this street after you get through with it."

There are more automobiles than locomotives, but this doesn't mean that the majority is always right. Florence (Ala.) Herald.

Goliath frogs have bodies 12 inches long, exclusive of their long legs.

Local police are beginning to get a head start on the making of books there no end.

Loehfener Will Be Judge In Amendment Vote

Loehfener will be the judge for the matter of amendment of the state constitution of the state of Oklahoma August 24. The list of judges released for Wichita county includes Loehfener's name for box 29. It is presumed that he will be located at the place it has been during the years at such elections. There will be two provisions that will be held at the same time as the state repeal. These two votes will be held in this county. Seven amendments to be considered include: The old age pensions not to be per month for all persons of age 2nd to all special session of the legislative session for submission of the constitution in the 3rd giving the courts jurisdiction in criminal to suspend enforcement during the period of the prohibition amendment would give students of school and private schools books on condition the state books. 6th the would be able to come not charged with crime Social Security for mental disorder. 7th the fee system of the state and county of counties having more than 10000. The method in counties would be left to the

Why Not A Boys Club Here

(An Editorial News Story)

Our community has too many things to think about right now in preparation for the festival, community house and various other civic enterprises, but there is one thing that this community needs more than any other project at this time. The community house will have to be delayed for some time. Until the light plant is moved, nothing can be done about it. The festival preparations are in full swing, and they are very important. However, nothing could ever add as much permanent value to our city as a boys organization of some kind.

Coach Volney Hill, exchanging gossip with the Star reporter over a cup of coffee, suggested that the project could be achieved in connection with the football plant. Mr. Hill is a very capable man when it comes to handling boys. The average boy, under his direction for any length of time, is loyal to him and trusts him more than they do most people.

The football field needs a dressing and recreation room near the field. This could be a place of recreation and a training center outside of the school building. Besides serving a very useful purpose for the football team, it could become a community house for the boys of the community.

There is nothing that is as detrimental to the average youth as too much unguided time; and if that time can be filled with a recreational and properly directed training period, the investment that we make in such a project would pay inconceivably large dividends in a few years.

Now if some club, or a group of clubs are looking for a project, here is one that is made to order. It would keep the boys off of the streets and save them from petty and some times major violations of social laws.

Several years ago the writer had the good fortune of assisting in the organization and direction of the same type of club in Wichita Falls. The most apparent result was the rapid decrease in juvenile delinquency. The work was all volunteer at first, and it was undertaken by a bunch of men that asked for nothing, not even publicity.

The value of the work was so great and so immediately apparent that it received recognition and support both from the clubs and the city government. Now the Federal government actually appropriates a sum each year for the club.

They started in an old broken down hotel. Today they boast of a club room envied all over the state.

We can do that much. Take the boys out of the alleys and streets, give them some real intelligently directed programs. Give them a pride of accomplishment in vocational training. Give them a proper influence. Then they will be men tomorrow that we will be proud of when we think of our part in their training.

Goodyear Tire Co. Opens Drive Against Worn Tires

Federal "G-Men" are relentlessly tracking down criminals who have been preying upon society, but right in Burkburnett employes of Goodyear service are just as busy running down dangerously smooth and worn tires, according to Jim Alexander, manager.

"The similarity between worn tires and criminals is apparent to most motorists who realize that personal injury, property damage and death frequently result from skids and blowouts which are likely to occur with tires that have outlived their usefulness," Mr. Alexander said.

"Just as the government men find finger prints very useful in identifying suspected criminals our service station attendants have found that by taking the tire tread prints the tire that should be replaced is very easily identified.

"In order to further emphasize the importance of "tire detection," our store attendants now are wearing the type of hat made famous by Sherlock Holmes, hero of a Conan Doyle's dramatic detective stories, as a constant reminder to patrons that in a few brief seconds the staff of the service court can readily detect a bad tire by this tread-print method," Mr. Alexander continued.

"Tread printing was first used by Inspector Faurot, nationally known New York detective, when he made a coast-to-coast tour for Goodyear in search of evidence on performance of the company's new G-3 tire, which was designed to give 43 per cent more non-skid mileage.

"The noted detective has asserted that the tread print is a certain evidence on the non-skid quality of a tire, as the finger print is a mark of identification of an unidentified individual," Mr. Alexander declared.

Bakers Command Softball League Victory Thursday

Coming from behind in the sixth inning with a seven run rally last Thursday night, the Mity Nice Bakers defeated the Magnolia team 9 to 6 and proved that they were the most dangerous team in the league. The Magnolia appeared to have iced away the game with the six runs early in the game, and they coasted along toward victory until the fatal inning. The Bakers big guns started speaking in the sixth, and before the dust cleared away the seven runs were in and the Bakers took the league lead.

Both teams entered the game undefeated and the championship of the last half depended a great deal on this game. It gave the Bakers an advantage that will be hard to overcome before the season ends the last of next month.

Thaxton broke into the victory column for the first time with a victory over the Bell team Tuesday. The Thaxton team seemed to have broken its morale after the double loss to the Bakers early in the second half. Since that time they have been unable to get a winning combination. But the defeat at the hands of the Barrow-Grace that was only 3 to 2 proved that they had struck a new pace. Barrow-Grace climbed with that victory.

The Skelley and Tucker teams fought a real battle Friday afternoon when the Skelley took a game 7 to 4. The game was well played and the teams fighting hard for the victory.

Thaxton Bros. pulled the biggest surprise of the week Monday night when they took an extra inning game from the Magnolia 7 to 6 in nine innings. The Thaxton team went into the lead early in the seventh inning when the Mags scored three runs to tie the game. In the ninth berak up the best ball game of this Daniels scored on Landis' single to half. The Mags threatened when two men got on the paths via errors, but the rally was stopped.

Mity Nice took an easy game from the Barrow-Grace team. The big bats of the Bakers overwhelmed the Kneec-Action boys with hits and their pitcher held the Chevrolet to four runs.

Team	G	W	L	Pct.

over the panhandle are invited by the Amarillo C. of C. to be their guests at the meeting. The meeting will feature several other important conferences for the farmers and business men.

Don't worry about the craziness of the younger generation. You were like that, and look how well you turned out.

LOOK AT THESE FOOTPRINTS FOR PROOF OF VALUE

Goodyear's high reputation for quality doesn't mean Goodyear tires cost more money—it means you get more value at competitive prices.

It stands to reason that Goodyear, world's largest tire maker, can give you greater value per dollar. Detective Faurot's investigation proved it—verified that Goodyear's great "G-3" All-Weather delivers more miles, at lowest cost per mile!

SEE EVIDENCE HERE

Let us show you actual footprint records of "G-3's" on your neighbors' cars—cold-turkey evidence that you'll get better than 43% LONGER NON-SKID MILEAGE AT NO EXTRA COST!

Look at these prices FOR PROOF OF ECONOMY

Pathfinder \$5.25 30x3 1/2 CL. With a Liberal Trade-In Allowance A real Goodyear—with all latest features. Center-traction safety tread. Supertwist Cord body. All new rubber. Exceeds many highest priced tires. Used by millions.	Speedway \$4.70 30x3 1/2 CL. WITH YOUR OLD TIRE Genuine Goodyear-built quality at lowest price. Tough long-wearing rubber. Thick non-skid tread. Supertwist Cord blowout protection in every ply. A thrifty "buy."

Iowa Park Girls Take Close Game

After trailing for six of the seven periods of the special game the Iowa Park Lassies came from behind to win a thriller from the PTA Pals of Burkburnett Wednesday night, by a score of 14 to 12. The first five innings the Burk girls played the best game of their career, but in the sixth inning they went wild to allow eight runs to trickle across the plate. Then in the last inning three more runs for Iowa Park won the game.

The Burk pitcher, Elizabeth Faulk allowed only 8 hits while her team mates were gathering 11 bingles, but also the team made 11 errors to allow score to stack up. Orr and Shuffler of Burk and Crickett and Medlin of Iowa Park each hit for the circuit. The battery for Iowa Park, Litchfield, Crickett, Honeycutt and M. Stewart, and for Burk E. Faulk and Key.

Secretary Wallace To Be At Amarillo

Henry Wallace has been invited to speak at the annual farmers meeting held by the Amarillo Chamber of Commerce held in the Panhandle city, August 5th. The secretary of agriculture will speak on the AAA and matters concerning the farmer. The things that are being done in Wallace's department are of more importance than the work in any other national department so far as this area is concerned, and the business men and farmers from all

Richard Dix As Clay Tallant, Peacemaker, Said to Surpass Immortal Characterization

Bringing to the theatre-going public a saga of the settling of the American West, Richard Dix in "The Arizona," from RKO Radio coming to the Palace Friday and Saturday could well be called a sequel to the star's immortal "Cimarron." Just as "Cimarron" depicted the settling of the Southwest, "The Arizona" delineates the early Western frontier in Arizona and the problems confronting the citizens in bringing law and order out of the chaos created by gunmen, robbers and crooked politicians.

Dix is seen in the new production as a hard fighting, quick-thinking marshal, in a job thrust upon him in order that he protect his brother and sweetheart. It is not so much by the gun that he rules as by his superior courage and intellect. His job was as was that of marshal of the '80's and '90's, a job of suppressing rather than killing the wild men of his time.

There is gunplay in the picture and action galore as was the case during the period upon which the production was based, but thrills depend less upon shooting than upon suspense and twist of plot.

History has been carefully interwoven with a story of resource and conflict between law and banditry. A parallel to the story is said to have actually occurred when a famous early marshal had a like situation on his hands.

When it comes to the real test, there are very few of us who don't put all our biggest potatoes on top of the basket.

When somebody tells a Burkburnett girl that she has dramatic talent and ought to be in the movies her usefulness as a dishwasher is practically ended.

Ruby Chapman Becomes Bride Of Ralph Spenser

Miss Ruby Chapman of Burkburnett became the bride of Ralph Spenser of Lawton, Okla., in a ceremony performed by the Rev. Kuntz at Lawton, Okla. The bride was accompanied by a few intimate friends from Burkburnett and Lawton. The bridesmaid was Miss Margaret Hollingshead. The bride was lovely in pink ensemble with accessories and the bridesmaid in brown and yellow.

Those accompanying the young couple at the ceremony were Ed Sims of Lawton, Margaret Hollingshead of Wichita Falls, Fay Ivey of Burkburnett and J. H. Brown of Burkburnett. The bride has been a resident of Burkburnett for the last year, and the bride groom is a radio technician for the United States government at Ft. Sill. Both young people are well known in this city, and have many friends here and in Lawton.

Mrs. W. C. Wheeler Honored Friday

Mrs. C. O. Marker and Mrs. A. C. Harris were hostesses Friday night in one of the delightful social occasions of the season, when they directed a host of friends of Mrs. W. C. Wheeler in a farewell surprise party at the honoree's home. The party was given on the occasion of Mrs. Wheeler's moving out of town, and the party was in the form of a lovely handkerchief shower that brought many beautiful handkerchiefs to the honoree.

Honored At Dinner Former Burk People

Complimenting Mrs. Dick Bowers of Dallas, former Burk teacher, and Mr. and Mrs. Herndon Henderson of Frijoles, Texas, and also formerly of Burkburnett, a group of friends met at the home of Miss Katherine Lasseter for a luncheon Monday. The centerpiece of summer flowers and the other table decorations were carried out in pastel shades.

Burk Demonstration Makes Excellent Record This Year

According to the report submitted by the county agent Mrs. John Muller of the Burk Hardin Demonstration club, has made an excellent record in raising chickens this year. The report submitted is as follows: "I have raised 300 fryers," reports Mrs. John Muller, poultry demonstration club.

Y. W. A. Met Monday At Baptist Church

The Y. W. A. met at the First Baptist church Monday night, July 22, and the meeting was opened by the song "I choose Jesus". The vice president was in charge of the meeting. Mrs. M. B. Hayes opened the sentence prayer which was closed by Edna Styles. Mrs. Hays read the 116 Psalm as the devotional lesson. The business session planned a social meeting for next week. The meeting was closed by Zelma Riddle.

Church of Christ

The D street and Ave E Church of Christ reports the largest crowds Sunday and Sunday night they have had since the beginning of the new congregation, at this location. Evangelist, C. L. Taylor, who is home for a few days between meetings, preached both morning and evening.

Jolly Seniors of BYPU Hold Special Meeting

The Jolly Seniors of the B. Y. P. U. met at the First Baptist church Sunday evening at seven o'clock, with a minister from Wichita Falls in charge of the service that installed the new officers. The officers elected were: Edna Styles, president; Marie England, vice-president; Bernice Smith, corresponding secretary; Katie Mae Taylor, daily Bible leader; Mildred Simmons, captain of group one; Zelma Riddle, captain of group two. There were 23 present at the meeting, and Roy Magers, sponsor, served ice cream to all the members present.

Ruth Class Hold Party Friday Night

The members of the Ruth class of the First Baptist church gathered at the home of their teacher, Mrs. E. H. Carver south of the city for an ice cream party, last Friday night. After games, joking and fun-making ice cream was served to the following: Katie Mae Taylor, Margeret Coats, Ruth Coats and Mary Virginia Coats, Gladys Pinkston, Maurine Goodwin, Ruth Willis and Hazel and Modene Pinkston.

Woman in the crowded tram, to her friend: "I wish that good looking man would give me his seat."
Five men stood up.

This Area Assigned 54 Scout Trippers Quota

Wichita Area Council, Boy Scouts of America has been allotted 54 boys to make the trip to Washington and there has only been 25 registered, and Regional office has advised Wichita Falls that they must have at least 35, this means that 10 more boys must register for the trip. The first papers out, stated that a boy must have been a first class Scout for a year—this had been changed so that any first class Scout can go. There has been allowed a leeway of 10% for boys who are Tenderfoot Scouts, that means that they can take 4 Tenderfoot Scouts.

Already over enough boys have applications filed to take place of unused quotas, so that over 30,000 Scouts are assured of being present at the Jamboree.

Paul Sipple the young Eagle Scout that has accompanied Commander Bird on two expeditions to the South Pole will be in camp the entire period, every Scout will have an opportunity to talk to him, as well as talk to Commander Bird and see part of his equipment, as it will be at the Jamboree.

Every day some expedition will be made to a place of interest in Washington, one of the days a boat trip will be made down the Potomac river to Mt. Vernon. These sight seeing trip expenses are all included in the fee of \$67.00 which covers all the actual expenses of the trip.

The trip will cost \$67.00 for Railroad fare meals on train to and from Washington and expenses for 13 days while in Washington.

Reservations are still being received at Wichita Falls office of the Boy Scouts. Any added information may also be received from Scout Executive Frank B. Creighton at Wichita Falls.

Rites Thurs. In Electra For Mrs. R. C. Barnett

Funeral services for Mrs. R. C. Barnett, 69, who died at her home in Electra Thursday morning at 5:20 o'clock were held at the First Baptist church there Friday afternoon at 2 o'clock. The Rev. Lum Hall, pastor officiated, assisted by Rev. E. B. Crump, pastor of the Electra Assembly of God church. Burial was in the Harold cemetery, with Owens and Brumley Funeral home of Burkburnett in charge.

Mrs. Barnett is survived by her husband, five sons, W. M. and J. L. Barnett of Electra, Levy Barnett of Devine, E. O. Burnett of Gladewater, and J. B. Barnett of Granger; and four daughters, Mrs. Oliver McDonald of Buckholtz, Mrs. W. H. Turner, Snyder, Okla., Mrs. Bob Hill of Electra and Mrs. Chick Eaton of Gladewater.

Pallbearers included G. T. Johnson, J. R. Corder, W. C. Bailey, W. T. Dodson, J. O. McCullough and Willard Parsons.

"What's the difference between a grass widow and a sod widow?"
"Just a lot of dirt."—Plate Maker Criterion.

Interesting Book Review Presented

The library association presented Curtis Cook in a review of the Mikhail Sholokhov "Quiet Flows the Don" at the library Friday night. The review was the first of a series that will be presented every two weeks at the library, and in the future a book is of equal interest will be given by some member of the staff or a visiting lecturer.

The review Friday analyzed the origin of Don Cossacks, the soldiers of the Russian steppes, and told of the influence of the River on the lives of the Russian people. The story is developed as a demonstration of the psychology of the average Cossack soldier during and before the Russian War and Revolution.

One of the most interesting facts was the adoration that is in the heart of the Cossack for the River Don. These people have a feeling for the stream that amounts to almost worship. All of the folk lore and songs of the people are built around this reverence for the "Father Don."

The library association promises that the reviews will be interesting, and as far as possible brief. The small charge that will be made will be applied to the purchase of new books for the library shelves.

Most of the books reviewed will be those that are available at the library and it will be possible for the people to read after hearing the discussion.

Junior G. A.'s Meet Monday Afternoon

The Junior G. A.'s met at the First Baptist Church Monday, July 22 at the church. The girls opened with the class song, and the devotional was presented by Lela Mae Pinkston, taken from Math. 28:19-20. Dorothy Beldon led in prayer. The business meeting was brief, and the girls extended the invitation to any of the girls of the Junior age to attend the meeting held each Monday afternoon at the First Baptist church. Those present were: Lela Mae Pinkston, Myrta May White, Mona June Chesney, Betty June Turner, Fannie Marie Ashman, Floy Simmons, Dorothy Beldon, and Noka Brice. There was a visitor present.

Methodists Closed Meeting Sunday Nite

The Methodist meeting that has been held for the last two weeks under the leadership of Rev. T. L. Huffstutler, closed last Sunday night with Rev. Hagard preaching the last service. Rev. Huffstutler returned to his own pastorate Sunday afternoon. The meeting was successful in that several new members were added to the church, and the church as a whole gained a greater spiritual insight. The message of the pastor-evangelist both at the morning and evening services were appreciated by large audiences at every meeting. The meetings were held on the church lawn.

The other churches in the city cooperated with the Methodists and their cooperation was appreciated by the leaders and the church. There will be several other persons who will join as the result of the meeting as soon as arrangements are made.

for the entrance into the The young people and the had special services of some votional in the morning and respectively. These meetings under the direction of Mr. wards, who also led the the meeting proper.

Fans Ought To Know About Football

Coach Volney Hill
This is a series of articles written by the coach of the high school for his football fans. In the lessons of the summer of training, these fundamentals were taught the players:

Lights of Football

Find the optional receiver is covered, run with the ball. On a punted ball, line the backs to foul (fall on it and near the opponents goal line). The player is on defense, the opponents coming down the field so that they can't prevent if from going back. The goal line for touch back. From the ball, don't let the kicker is standing behind the goal and a bad pass from the back makes it impossible for the kick. he should pass out of the end of the goal line.

Football teams are nothing but eleven bird dogs, all point to the well drilled team. The well drilled team is only looking for tipoffs on the plays, and equally alert to mislead, rather than to spot the opponents to the spot the ball is to go. The successful team talks it up on the field. The talk being directed to the eyes and not the opponents. They should talk to one another to their advantage.

Center back plays will be largely by knowing who they tackle. As a ball carrier, they can be looking for him. The quick kick and the quick pass are the best plays in football. The yardage, with the least effort, energy, and the opponents. A safety kick as far as twenty yards. The quick kicked, but the ball is kicked away from him.

Place kick is the next best in football. Use it when the tactical situation is right. There is a rule in the game that says teams cannot score goals. Now the end of the game, and the score in your favor. Line up slow, call the play. On defense hold the line down as long as possible. In the breaks, be looking for when they come work capitalize on them. Call the play. A long pass here might make pass; you are an offensive player, and the defensive half is you; yell out and claim the ball. Take time out when the play goes against you, or operate making constant gains. Measurement to cool them down.

Four ways to score while on offense. First, if you intercept a pass or a lateral pass. If you can steal the ball from the opponent before the whistle blows, when you have block-kick and recover it. If you recover, fumble beaches the ground. When in contact with the ball, the referee will tell you whether you are legally advance it. Four plays so that you know what you are supposed to do in each play, but what every play is supposed to do. Also know what each play is used for. A football player is not concerned about the play that has been called, but about making two or three plays and watching for a change in the play that will bring into the defense that will shake the defense loose for a touchdown.

Along these dog days, you will be hot air conditioned.

Watch Your Kidneys!

Be Sure They Properly Cleanse the Blood

Your kidneys are constantly filtering waste matter from the blood. But kidneys sometimes lag in their work—do not act as nature intended—all to remove impurities that clog the system when retained. If you may suffer nagging backaches, scanty or too frequent urination, getting up at night, swollen feet, feel nervous, miserable—don't delay! Use Dean's Pills. They are especially for poorly functioning kidneys. They are recommended by grateful users the country. Get them from any druggist.

DEAN'S PILLS

T. U. Students To Have Federal Aid At Austin '35-'36

AUSTIN, Tex., July 25—With the receipt of a telegram from L. R. Alderman, director of the educational division of the National Youth Administration, giving notification that the student aid program has been definitely authorized for 1935-36, the University of Texas is in a position to receive applications for part-time student jobs for next long session, according to V. I. Moore, dean of student life. Details of administration of the student aid fund have not yet been received by University authorities, but it is stated that jobs will be available on the basis of 12 per cent of the total enrollment as of October 15, 1934. A total of 6,346 full-time students were enrolled in the University on that date, affording 761 jobs for main University students next year.

Last year there were 651 students workers employed with Federal funds in the main University and 60 workers in the School of Medicine at Galveston. This quota was based on the 1933-34 enrollment. It is expected that approximately the same number of students will be employed in the Medical Branch as last year.

Applications will be received after Saturday July 20. An order has been sent to the University Press for the printing of 5,000 application blanks. Last year 2,400 applications were made. Dean Moore estimated that one job would be found for each four or five applicants. Appointments will be made after September 1.

Jack Land Honored On Birthday Wed.

Jack Land was honored Wednesday night on the occasion of his birthday by the members of the Fun Club with Mrs. Land as hostess of the members and their husbands. There were four tables of bridge for the members of the club, and the high prize for girls went to Ruth Patterson. The high for boys was won by Truman Garland. Lovely refreshments were served to the guests. Those present were Messrs. and Mesdames Cecil Wheeler, J. A. Johnston, Joe Coffey, Truman Garland, Marshall Chrestman, and Misses Ruth Patterson, Guinn Brumley and Harold VanLoh and Elmer White, and the host and hostess.

Former Burk Pastor At Greenville, Texas

Rev. Marshall Masters Accepts Call To Church Last Sunday

Rev. Marshall Masters, former pastor of the Central Christian Church in Burkburnett, has accepted a call as pastor of the Central Christian Church at Greenville, Texas, according to word received by his friends in Burkburnett. Since leaving Burkburnett, Rev. Masters has been attending Trinity University while serving as pastor of the Waxahachie Christian Church.

The pastor took charge of the church at Greenville last Sunday, July 21. His first sermon was Sunday morning at that organization. Rev. Masters filled the pulpit at the church June 23, and the reaction of the congregation caused his call by the executive board of the church.

Masters was one of the most popular young men to ever preach in Burkburnett. He came here from Paris, Texas, where he had attended the Paris Junior College. As a student of the college he was one of the best speakers and debaters of the college. In 1930 he represented that school at the championship debate tournament held at Temple, Texas. With his partner, he advanced to the finals of that tournament.

One of the teams that he defeated was the strong representative of the Wichita Falls college. His work in Burkburnett was unusually successful, and he worked here and in Iowa Park at the same time. The two pastorates kept him busy in the inter-city drives.

Members Of Girls Team Are Listed

The Burkburnett Pals, a team that has been playing games for the PTA have had from 20 to 30 girls out for each practice. The team has not met with unusual success so far, but they have been matched with teams that have been organized for several years; one of the features that will be staged in the near future will be an intra-squad game among the members of the local squad.

The members of the team are: Viola Key, Mrs. Fairchild, Guthrie, Wilma Faulk, Elizabeth Shuffler, Logan, Vella Mae Chesney, Mrs. Kenneth, M. Bowden, Elva Stimpson, Milford, Pace, Miller, Rogers, Foster, T. Andrews, Dorothy Bowden, Ashburn, Frith, Elizabeth Faulk Landrum, Anders, Helen Faye Bennett and Carrie Ruth Stonecipher.

Burk Amateurs Go To Wichita Finals

Five Burkburnett performers went to the finals in Wichita Falls, including Roy Jackson Jr., Marion Boden, Jo Ella Morgan, Jack Grant and Justine Nichols. These entertainers did not place in the finals, but they received ovations on their appearance. They started at the Palace Theatre.

The winners were the Gibbs brothers fiddle band—Leon, Nathaniel and Samuel—of Wichita Falls; Bob McDonald, baritone of Wichita Falls; Dorothy Rale Roach whistler of Mineral Wells; Mrs. Ruth Welty Stewart, soprano of Vernon and O. T. Craig of Vernon.

Performers from Wichita Falls, Vernon, Olney, Mineral Wells, Burkburnett and Stephenville competed in the finals. The auditions were arranged by the Dallas zone of the Chevrolet Motor company, the Interstate theatres and radio station WFAA in Dallas.

The winners will compete on the Melba theatre stage in Dallas at 8 o'clock Sunday night and the program will be broadcast over WFAA. Two of the group from this district will appear on the Major Bowes amateur program on the Majestic theatre stage in Dallas Monday night.

First place winner in the zone will be awarded a free trip to the west coast in September.

Miss Helen Clark of Simpsonville, Ken., and Miss Blanche Elizabeth Beavers of Chickasha, Okla., students at the O. W. C. were guests of Miss Vermont Beavers over the week-end.

Mr. B. B. McBride was admitted to the Carrol Driver and Garad Clinic at Dallas for an operation this week. McBride hasn't walked for four years and the operation is an attempt to restore to him the use of his legs.

Another tarantula challenged the championship of the office Friday night when Will Roney discovered a larger specimen in the new addition and brought it to the Star office.

West Wolfe and family of New Mexico, formerly employee of the Texas company in Burkburnett, is here on a vacation. He is visiting friends and relatives in Burk.

Rev. T. L. Huffstutler and Marvin Edwards who have been assisting in the Methodist meeting returned home to Commerce and Lewisville respectively early this week.

Charlie Meisner, who has been away several weeks returned to Burkburnett this week and will resume his work with the Northwest Supply Co.

Mr. and Mrs. J. J. Blackstone returned from a vacation Tuesday night. Mr. Blackstone took a short course in fire control at College Station. Mrs. Blackstone with Mary visited friends and relatives in East Texas.

R. P. Briggs of Frederick, Okla., salesman for the Wilson C. of Oklahoma City took suddenly ill in Burkburnett Saturday. He was carried to the General hospital in Wichita Monday by the Owens-Brumley ambulance.

Mrs. Herbert Fike from Bakersville, Calif., and Mrs. Susie Baldwin of Whittier, Calif., are visiting in the home of Mr. and Mrs. Dudley Ellis, and Mr. and Mrs. John Ellis.

Mr. and Mrs. Herman Brown left for Dallas Sunday morning where Mr. Brown will attend the C of C school and Mrs. Brown will visit with relatives and friends.

Mrs. W. E. Turner, mother of Mrs. B. L. Turner is visiting in the home of her son and his family this week. Mrs. Turner is a citizen of Stamford, Texas.

Mr. and Mrs. N. P. Craig and son, N. P. Jr., of Rosebud, Texas spent last week in the home of Mr. and Mrs. M. E. Lewallen. They left the first of the week for a visit with friends in Chillicothe. They will return here next week for a week's visit before returning to their home.

Mr. and Mrs. Herdon Henderson were in Burk early this week visiting with G. A. Henderson and family. They were guests of the Presbyterian church Sunday in a special meeting held for their honor.

The zoological and botanical collection of the Star increased this week when Mr. and Mrs. Herdon Henderson added a prize cactus to the collection. Before long we will have a regular museum.

M. M. Moore of Neches, Texas, employees of the Humble Oil, and former resident of Burk was in the city Sunday visiting friends and relatives here.

How About Love At First Crash

Love at first, or even twenty-first sight is the ordinary recipe for romance, whether fictional or cinematic.

Love at first crash—two speed cars—is something else again. It is the impetus that starts a merry mix-up of romance and comedy in the new Fox Film picture, "It's A Small World," which starts its engagement today at the Palace Theatre for one day only.

A crash up at eighty miles starts a 16-cylinder love match in a one-horse town. A stream line motor car wreck results in screamin' comedy. Spencer Tracy plays the fresh young lawyer who leaves his wrecked car to indulge in a little traffic pow-wow. Wendy Barrie, the English actress who makes her Hollywood bow, plays the headstrong girl from Kansas City who won't be talked to, even by the most persuasive student of Blackwood.

The tangle of cars, love and injustice becomes inextricable in this merry fast-moving comedy, which has been enjoyed hilariously in other cities.

In the cast of this Edward Butcher production, which Irving Cummings directed, are, beside the principals mentioned these able players: Raymond Walburn, Virginia Sale, Astri Allwyn, Irving Bacon, Charles Sellon, Nick Foran, Belle Daube, Frank McGlynn, Sr., Frank McGlynn Jr., Bill Mills, Ed Brady and Harold Minjir.

SOMETHING IN COMMON
Guide: "This castle has stood for 600 years. Not a stone has been touched, nothing altered, nothing replaced."
Visitor: "Um, they must have the same landlord as we have."

CENTENNIAL OFFICIALS HELP CHRISTEN TRAIN

Honoring the celebration next year of the 100th anniversary of Texas independence, M-K-T Railroad officials last week changed the name of the Katy Flyer to the Katy Centennial Flyer. Walter D. Cline left, managing director of the Centennial Commission and R. L. Thornton, executive committee chairman, had a part in the formal christening ceremony at Dallas when Miss Carolyn Padgett broke a bottle of Trinity River water over the train's new name plate. The christening was witnessed by a large group of Centennial officials and other prominent Dallasites.

Firemen Approve Of Festival Plan Friday

In their regular meeting following the joint meeting of the festival committee the firemen of Burkburnett expressed a determination to carry out the preliminary plans for the organization of the Harvest festival. The meeting followed the regular procedure of the organization, and after the business the members of the organization drilled.

The drills included a demonstration of the use of the various mechanisms of the fire truck. The pumping, boosting and other parts of the apparatus were shown to the members. Even the siren received attention of the student firemen. The drill is required by state law, and the firemen actually add to the fire rating or key insurance credit of the city by the bi-weekly drills.

Her Greatest Role Since She Left Stage

Ann Harding will be seen in a tense, dramatic role for the first time since she abandoned the stage for the talking screen when Edmund Goulding's production of "The Flame Within," co-starring Herbert Marshall, opens a 2 day's engagement at the Palace Theatre Tuesday and Wednesday.

Though she soared to stardom on Broadway as a dramatic star of the first water the majority of her outstanding picture vehicles have been of the smart, sophisticated comedy type, such as "When Ladies Meet," "Biography of a Bachelor Girl," "Animal Kingdom" and "Holiday." In Metro-Goldwyn-Mayer "The Flame Within," she portrays a famous woman psychiatrist who devotes a year of her life to the redemption of a ne'er-do-well, giving so much of herself to the man that she inevitably falls in love with him.

Federated Society To Be Entertained By Christians Mon.

The Federated Missionary societies of Burkburnett will be entertained by the Central Christian church Monday afternoon at 2:30 with a program and social hour that will be interesting to all the women of the community. The Federated society is one of the most active associations for civic and religious good of the community.

The program Monday afternoon will include the play that will be presented by the Highlands Height church of Wichita Falls. The sponsors of the players promise an interesting and instructive program at that hour. The quarterly session of the association includes representatives from all of the active churches in the city. Every woman of the city is invited to attend.

PROMISE YOURSELF

To be so strong that nothing can disturb your peace of mind.
To talk health, happiness, and prosperity to every person you meet.
To make all your friends feel that there is something in them.
To look on the sunny side of everything and make your optimism come true.
To think only of the best, to work only for the best, and to expect only the best.
To be just as enthusiastic about the success of others as you are about your own.
To forget the mistakes of the past and press on to greater achievements of the future.
To wear a cheerful countenance at all times and have a smile ready for every living creature you meet.
To give so much time to the improvement of yourself that you have no time to criticize others.
To be too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of troubles.
To think well of yourself and to proclaim this fact to the world—not in loud words, but in great deeds.
To live in the faith that the world is on your side so long as you are true to the best that is in you.
