As Mrs. Morris recovered this week, she told a story to the news paper reporters that demonstrated her courage and coolness during the shooting. After the first shot had pierced her body, Mrs. Morris feigned unconsciousness. She thought that he would stop shooting after she appeared to be dead. However, he fired the second shot at her that grazed her head.

McDonald Speech Postponed Tues.

James K. Hendricks of Eastland, Texas, who planned to address the citizens again Tuesday night after speaking here in the afternoon at the request of several citizens in the interest of W. H. (Bill) McDonald's candidacy for the land commission in Texas, postponed his speech for a later date. Mr. Hendricks had planned to speak from the sound car after the McFarlane speaking, and declined after being notified that the candidate for congress had previously scheduled the work with the local group.

Mr. Hendricks also stated a 15 minute intermission speech offered by McFarlane, feeling that he would have worked an injustice to the land commission candidate and to McFarlane himself. However, Hendricks announced that he would return at an early date if at all.

SOFTBALL FUSS WILL BE SETTLED AT WESTERFIELD NEXT FRI. NIGHT

Barrow Grace has acquired the oldest Modle T ford in this area and will be ready to sell it at public auction next Friday night at the softball stadium to complete the settlement of the softball quarrel that threatened to develop into a minor revolution. The war was averted when Fred Flanagan and Jingle Hays were punished by the league officials.

The largest crowd of the year is expected for the event. The feature game will be Barrow Grace versus Thaxton, and Flanagan probably will oppose his former team mates by pitching for Barrow Grace.

The big war started when Flanagan was traded to the First National bank. The league decreed that for punishment he should be traded to the Barrow Grace team for one Ford car and that the car should be sold at public auction. The money is to go to the treasurer of the league.

At first Barrow Grace balked at meeting the terms of the league. Charlie Grace offered the

The books circulated averaged more than 50 volumes per day for the entire year. This circulation has been achieved with a total number of books only slightly more than 1,000.

During the year the service has been extended by both the binding of books and the purchase of new books. More than 200 books have been rebound for use in the library. DELINQUENT SCHOOL TAX

The school board has found it necessary to publish the list of those who have not paid their school taxes during the last few years. The long list of the delinquent is a blot on the civic pride of our community.

It is right that we have pride in achievement, but at the same time we hypocritically hide a dirty bit of linen that we should be ashamed even to possess—a delinquent list of school taxes.

How can a community in times of distress and trouble retain even an atom of civic pride when a large number fail to pay this obligation. If we boast of achievement today, tomorrow our neglect of the schools will be a boomerang that will slap us in the face with its harsh compensations.

For every neglect today there will be a problem of social and economic consequence in a few years. If any child or group of children's education is neglected, or if the program of education is of necessity made less elaborate, each neglect of essentials will grow to place a real mocking blot on our community pride.

There are of course times when people can't meet the school or any other taxes. These who have felt the depression in such a severe manner of course can't pay, but the large majority that has wilfully neglected the assessments ought to have the severest shame possible for the almost criminal neglect.

Whatever civic and social bodies of the city may plan as projects this year, nothing could be more important than plans to create a mass feeling of the importance of keeping up this record.

LOSS OF FACE

When Japan started her invasion of Manchuria a few years ago, the white nations seemed to be solidly faced on the side of China. Janan was called an outlaw among nations was held a menace of world peace, yet the league of white observers have returned from the Orient since that time, bringing the news that China feels betrayed.

The victory of Italy in Ethiopia confirms the rapidly growing suspicion among the colored races, black and yellow. Inter-racial complications may rise out of the conquest that in the long view will be potentially explosive. It may be a costly victory. For all the world as well as Italy. All that vast mass of men who have felt the oppression of the whites, the insults, the slavery and exploitations for ages will say "I told you so."

Nothing is more horrible to contemplate than a racial war. The great majority of people in the world are colored and a great majority of these colored people are dominated by whites. If the Italo-Ethiopian disorder leads to a decisive split between the two general groups, it will be one of the most important events in history. It has possibilities to change the maps of the world.

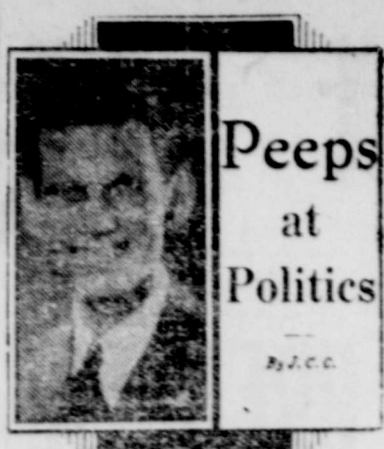

UNIVERSAL FINGERPRINTING

O. A. Robertson, deputy sheriff of Wichita county, has spoken to both the Lions and Rotarians during the last few weeks on the subject of fingerprinting. In each of these lectures, the officer pointed out the advantages of the system used and urged the adoption of a law for universal and compulsory printing. Both for the protection of the individual and of society as a whole, no more valuable law could be passed.

However, there are more valuable uses than mere apprehension of criminals. So far as catching the criminal for a certain crime, the prints are of little value. The greatest value is in keeping the records of the criminal and in identifying persons who have been killed in accident.

In Wichita county there have been several persons who have met their death, and have never been identified. These persons, who probably had homes and relations, even children somewhere, were buried in potters field. Their families will wonder for many years what became of the one whom they loved.

On the other hand the federal government has two sets of finger prints. The first is the criminal section. The second is the civilian section. To the latter any print could be sent. The identity of the murdered person could be established, and all persons related to him or her could be investigated. In a recent case, four lives would have been saved by such procedure.

Third Party—Sinclair Lewis in his recent book "It Can't Happen Here" pointed out a form of dictatorship arising from a political party. The third party under Lemke might provide just such a form of government.

Political School—The Texas Weekly suggests a school for politicians. The suggestion was made in mackery, but it sounds like a good idea to me.

Collector-Assessor—Arthur Howard, Harry Daugherty, and Jim Robinson promise a very brilliant battle. Howard and Robertson are veteran opponents. Daugherty is practically an unknown in Burkburnett.

Allison—In reference to the Allison case, I asked for an explanation of the fact that Wade Allison was free since his conviction. The district attorney's office informs me that he had made bond while waiting for the appeal of his case.

Illustration—Here is a story we heard about Tom Hunter the other day. The first time we heard it, it applied to Williams Jennings Bryan, then Jem Ferguson and probably it was used before that about some populist. It might be even possible that Cicero used it in reference to Cataline.

Adapting a well-known story or play to the screen invariably elicits criticism from hecklers of all sort. Quite often, Hollywood takes too great liberties with some tale or other and is observing of the abuse that falls on its head.

Such is the opinion of Richard Arlen, who enacts the stellar role in the film. And what he has to say on the subject seems to have some quality.

"The Calling of Dan Matthews" was first published in 1909," Arlen points out. "It has remained a permanent best seller because of its sound philosophy, its clean cut characters and its wholesome appeal.

Unquestionable integrity and correct performance is sure to bring forth favorable comment; and natural discretion and professional tact have enabled us to render a service that is second to none.

Rookies Defeat State Champions
Again refusing to be beaten, the Northwestern Supply Company Rookies came from behind to nose out the Well's Centennial Aces from Dallas, 8 to 5, Sunday night at the polo grounds.

The Rookies went into the last half of the fifth inning on the short end of a 5 to 2 score. After Hill warked, Myrtle Raub supplied the turning point in the game with a chashing home run to left field.

The Rookies scored in the first inning to take an early lead with singles by Raud Kennett and Fox. The lead was short lived as the Aces came back to score in the second inning on a single by Price and two infield errors by the Rookies.

The Rookies came back in the third inning to score again and take the lead, but the Aces came right back again in the fourth to tie the score on singles by Price, Petty and Marshik.

Ruby Kennett and Aubrey McFall led the Rookies attack for the night with three clean blows each, while Raub, Arbuckle and Fox each contributed two. Noble, Dobbins, Price and Patty accounted for eight of the Aces' hits with two each.

Russian Presents American Scenes

The artistic genius of the Moscow Art Theatre has invaded the American desert. Heretofore, America's colorful desert has served chiefly as back-grounds for innumerable Western films, often called "horse operas" with the heroine dashing up with the governor's reprieve just as the sheriff is about to yank the hero to Kingdom-Come on a false horse theft charge.

"But there is more in the American desert besides a setting for stereotyped Western pictures," Director Richard Boleslawski protests.

Boleslawski proves this in "The Three Godfathers", which comes Friday and Saturday to the Palace Theatre. "One thing must be understood," said Mr. Boleslawski, "and that is, though 'The Three Godfathers' is the story of the Western desert, it is NOT a 'Western' picture. It is a gripping story of human emotions under the stress of great sacrifices and the struggles of three doomed men to save the life of a little baby on the desert."

"The story is from the pen of Peter B. Kyne, faithful chronicler of stories of pioneer America. I have read it and think so much of its dramatic values that I selected Chester Morris, Lewis Stone and Walter Brennan as the three godfathers.

Many of my friends may wonder why I have chosen to direct this little dramatic story for the screen after my work on many larger and more spectacular pictures. They need not wonder for I love the beautiful things of life and I have found new beauties in the desert.

Sunday Services At First Baptist Church

The pastor and members of the First Baptist church are making a determined fight against "Old Man Summer Slump," and as a result of this there has been a noticeable increase in the attendance of the regular services of the church.

Sunday morning will be the "Young Peoples Day," and the pastor will use as his subject, "Four Young Men Who Won An Eating And Drinking Contest." This will be a message in which there is a challenge to young people, and all of these young people of the church are urged to be present. Other young people are invited.

The Sunday evening services will be held out on the church lawn where it is cool, and also convenient for every man to attend. This service will be featured by good congregational singing, of old time gospel songs, and a message by the pastor. The subject for this message will be "One of Life's Greatest Dangers."

All of the members of the First Baptist church are urged to attend these services, and a more cordial invitation is extended to our friends, in the city, who do not worship regularly with some other congregation. Strangers are always most cordially welcomed to the services of this church.

Sanderford Announces For Re-Election To Office Of District Clerk

R. L. (Bob) Sanderford, who is completing his first term as the District Clerk of Wichita County, announced Thursday that he would be a candidate for re-election, subject to the Democratic primary in July. In his announcement to the voters of Wichita County, Mr. Sanderford made the following statement.

"Two years ago you made me very happy by naming me your District Clerk. To show my appreciation, I have exerted every effort to make the District Clerk's Office in our county one of the most efficient in the state. To this end I spend considerable of my own money in trips to other offices in the state and I have incorporated the best features of these offices in our own office.

"It is my wish that all my friends and voters know something about the conduct of the office of District Clerk under its present management. In 1934 the office of District Clerk earned \$9,300, of which amount \$864, was reported uncollected. After assuming in 1935 I collected \$814, of this uncollected fee and turned it in to the county.

"During my first year in office the Clerks office earned \$11,283 of which \$9,411 was cash. Jury fees, stenographer fees and prior fees collected by me and turned in to the county, amounted to \$2,872.

"Without going into detail, I want to say that the cooperation of all my friends has made my term in office a very pleasant one. I have tried to stay on the job at all times and have worked diligently—spending as little time as possible out of the office. The confidence of all my friends and the voters in general has been a great source of inspiration to me and I want to say to all of you that I will make it my goal to give you a constantly improving administration of this office during the coming term.

Forfeits Change Ball Averages

The standings of the Burkburnett Softball league were seriously rearranged this week by the protests that flew fast and thick at the first regular meeting of the league assembly. The big meeting of the teams will be next Friday night when the modie T Ford will be auctioned by the league secretary. Jew Bent has been appointed to sell the car for the benefit of the league.

The secretary announced this week that July 15, would be the last day for the trading of players for the teams. After that day no new players can be listed nor can players be traded from one team to another.

The Magnolia continued to lead the league with a perfect average of 13 games played and 13 won. The league voted to confirm an earlier order to play a four team playoff at the end of the season.

"TRAIL OF THE LONESOME PINE" IS A MOTION PICTURE MILESTONE

"The Trail of the Lonesome Pine", first natural color motion picture of the outdoors, opens next Sunday and Monday at the Palace Theatre, with Sylvia Sidney, Fred MacMurray and Herry Fonda in the starring roles, and Fred Stone at the head of the supporting cast. "The Trail of the Lonesome Pine", based on John Fox Jr.'s famous novel of the same title marks a milestone in the history of the movies. It is the first picture in which the color element is taken as a matter of course, and subordinated to the story interest.

and subordinated to the story interest. Filmed entirely at Big Bear, California, where the scenery almost duplicates that of the Cumberland mountain region where Fox's novel is set. LaSalle Trip In Texas In The Theme of Book

AUSTIN, Texas, June 25—The tragic expedition of LaSalle's colony in Texas has been recorded in many accounts. But by a significant coincidence, the first account of the destruction of the unfortunate settlement of the French on the Texas coast appears to

have been published in Mexico in 1691, it is pointed out by Dr. Carlos E. Castaneda, Latin-American librarian at the University of Texas.

"This account, generally unknown, was written by Mexico's outstanding scholar and scientist of the seventeenth century, Don Carlos de Siguenza y Gongora," Dr. Castaneda said. "It was to Don Carlos that Father Massanet, the founder of the missions in East Texas, wrote his long letter describing the first establishment by the Spaniards in this region, and it is Don Carlos who claims

account to be published of this tragic expedition in the history of the State. This rare account is found in the Garcia Library of the University of Texas."

The first chapter in this valuable and little known book is entitled, "Fatal Events That Befell M. LaSalle on the Lake of San Bernardo (Matagorda Bay), and Happy Success with Which Several Expeditions to the Providence of Texas Have Been Undertaken to Settle Carolina (Georgia)."

These plaintiffs would further show the Court that all of the plaintiffs and all of the defendants, except Herman E. Kiel, immediately upon the execution and delivery of the respective deeds to each other in partitioning said estate as above alleged, accepted their respective tracts of land as their full share of said estate and went into immediate possession of same and are now in possession of same. That they each have rendered their respective tracts of land for taxes and have used, occupied and enjoyed the possession of same, and have each and all made valuable improvements upon their respective tracts of land.

These plaintiffs would further show the Court that said partition among the plaintiffs and defendants was and is a fair, just and equitable partition by and between all of the plaintiffs and defendants of the estate of Louis H. Kiel, deceased. That the defendant, Herman E. Kiel, by reason of the deed made and executed and delivered by all of the plaintiffs and other defendants herein, owns the same in fee simple title, as his full share of said estate, but that by reason of the plaintiffs and other defendants herein being unable to locate and find Herman E. Kiel, the said Herman E. Kiel still owns an undivided one-seventh interest in and to all of the land described in this petition as belonging to the plaintiffs and all of the other defendants herein, and that by reason thereof the title to all the plaintiffs' and other defendants' respective tracts of land herein is clouded, and the Court should render a judgement and decree upon the trial of this cause divesting out of the said Herman E. Kiel all of his right, title and interest in the above described tracts of land belonging to the plaintiffs and to each and all of the other defendants herein, as above alleged, and vesting his said title to said respective tracts of land in each of the plaintiffs and defendants herein, as the same has heretofore described and partition in said deeds, and as above alleged, and quitting the title to said plaintiffs' and defendants' tracts of land.

These plaintiffs would further show the Court that the land and premises partitioned by these plaintiffs and defendants herein to the said defendant, Herman E. Kiel, as described in said deed of partition is a fair, just and equitable partition and share awarded to said defendant, Herman E. Kiel, and that the Court should enter a decree and judgement herein ratifying and confirming the share deeded and partitioned to said defendant, Herman E. Kiel, and partitioning the land and premises described in said deed to be a full, just and fair share for the defendant, Herman E. Kiel, out of the estate of Louis E. Kiel, deceased.

These plaintiffs would further show the Court that if upon the trial of this cause the Court should be of the opinion that the defendant, Herman E. Kiel, has not received a fair, just and equitable share in the partitioning of the estate of Louis E. Kiel, deceased, then and in that event, said Court should enter such judgement and decree against each and all of the plaintiffs and all of the other defendants herein, requiring them to respond in the payment of such an amount of money as may be necessary to make said share of the defendant Herman E. Kiel, equal to the shares of the plaintiffs and other defendants herein.

This suit is brought in trespass to try title, as well as for damages and for the purpose of removing a cloud from the title of the land belonging to plaintiffs and defendants, and for the purpose of partitioning the land belonging to the defendant, Herman E. Kiel, and his unknown heirs, out of the estate of Louis H. Kiel, deceased, and is for the benefit of the defendants, as well as the plaintiffs, and that all of the Court costs, including a reasonable attorneys' fee of \$150.00 for bringing this suit, should be taxed against the defendants as well as the plaintiffs in this suit.

WHEREFORE, premises considered, plaintiff prays the Court that citation issue to the defendant, Herman E. Kiel, and his unknown heirs, by publication, as is required and provided by law, and that citation issue to each and all of the other defendants herein, requiring each and all of said defendants to answer this petition, and that on a trial hereof of the plaintiffs and all of the other defendants herein have judgement against the defendant, Herman E. Kiel, divesting out of said Herman E. Kiel all of his rights, title and interest in and to the land described in this petition as belonging to respective plaintiffs and defendants, and vesting the title of said Herman E. Kiel in and to their respective tracts of land is described in

PERFECT HEALTH ESSENTIAL IN FILM WORK, SAYS

Art and technique compose only seventy-five per cent of a motion picture performance, according to Josephine Hutchinson, star of the Warner Bros. picture, "I Married a Doctor," which comes to the Palace Theatre on Saturday at Midnight.

The important remaining twenty-five per cent is good physical condition. Because of the sustained hard work on a motion picture set, Miss Hutchinson has outlined a program for physical fitness of extremely wide scope.

The dietary rules which she follows are neither faddish nor extreme. She has found them effective in her own case but does not advise every one to follow them.

Previous to starting her health regime, she regarded food as merely a means to satisfy ones appetite and was an excellent judge of good cooking. Now she coldly calculates it is fuel.

Miss Hutchinson eats only vegetables three days a week. They do not pall because she has them prepared by a variety of methods. On the other days she eats only one protein dish a meal, preferably fowl.

Sunday school at 10 o'clock; preaching at 11 a. m.; evening services at 7:30. At each of the preaching services the pastor will preach and the congregation will assist in excellent singing.

this petition, and quieting the title and removing cloud from each of the plaintiffs' respective tracts of land and the other defendants' tracts of land heretofore described in this petition.

That the Court enter a judgement decreeing and partitioning to the defendant, Herman E. Kiel, all of the land described in plaintiffs' petition as the share belonging to and set aside to the defendant, Herman E. Kiel, in the partition made by the plaintiffs and defendants, as alleged in this petition, and decreeing that said share so given to said Herman E. Kiel is a full, fair and equitable share belonging to him out of the estate of Louis H. Kiel, deceased.

That all costs in this suit, as well as a reasonable attorney's fee of \$150.00, be taxed against each and all of the plaintiffs and defendants in this cause in equal amounts, and for such other and further relief, general and special in law and equity, to which they may show themselves justly entitled.

Herein fail not, but have before said Court, at its next aforesaid regular term, this writ with your return thereon showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of said Court, at office in Wichita Falls, Texas, this 15th day of June, A. D. 1936.

First Unit Of Paving Complete

F. R. Knauth announced this week that a three way traffic lane would be used on the first unit of the paving on West Main street which was completed re- cently and cleaned for traffic. The first unit constitutes a strip from the edge of the business section of the creek running west of the city. This strip has been widened eight feet with the addition of four feet on each side of the road. The pavement was started when an emergency load of cement of about 500 sacks was purchased. An additional 2,000 sacks were bought by closed bids. At the present Mr. Knauth is asking for an additional 2,000 sacks of cement. There have been five cars of crushed rock used up to complete the unit. The second unit, which will carry to the PWA project recently, will add six feet to the highway. The local project has been a county job, and private labor has been used for the work. It has kept more than 50 men constantly employed on a stagger system.

Howard Announces For Re-Election To Joint Tax Offices.

Efficient Staff Established As Is Shown By Record Of Previous Term

Wichita County's Tax Assessor and Collector, Arthur C. Howard, makes formal announcement this week of his candidacy for a second term for combined offices. Following is Mr. Howard's state- ment:

"I have sought to gather together the most efficient staff that could be obtained in order to give the people of Wichita County the best service possible." Mr. Howard declared.

"I believe my long experience, together with the highly trained deputies working under me, enables me to give the people of the county as well kept an office and records as can be found in the state."

Mr. Howard points out that the office handles approximately \$1,000,000 annually in taxes and license fees collected and that such a huge sum imposes a great responsibility of the assessor and collector.

While in office Mr. Howard has insisted on the maintenance of sub-stations at Electra, Burkburnett, and Iowa Park for the convenience of citizens in those precincts.

When the rush to obtain state driving license occurred at the same time as late comers began to purchase automobile tags, Mr. Howard established a set-up that enabled his office to issue 32,000 drivers' permits and 15,000 vehicle license plates within a few weeks time without keeping anyone waiting in line for more than a few minutes.

From Feb. 1 to April 10, inclusive, the office took in \$211,046.00 through the sale of motor vehicle license alone. The first \$50,000, and half of the remainder goes to Wichita County, and is divided equally among the four precinct road and bridge funds. The other half goes to the state. This included 12,385 passenger automobiles, 2,204 commercial, 290 farm license and 540 chauffeur's permits.

Paul Denton, inspector for the State Department of Public Safety, when here on an official visit here recently, declared that Mr. Howard's manner of handling driving license records was practically perfect and would mean a minimum of effort on the part of the state bureau in handling the records sent there from Wichita county.

Mr. Denton said he had found no county where the work was being conducted any better than in Wichita.

Mr. Howard came to Wichita Falls as a "barefoot boy" in 1880. He was born in McLennon Co., in Texas.

"I want to express my gratitude to all the people of Wichita Co. for their patience and co-operation" Mr. Howard said. "Without their assistance, no office-holder can make a success."

"I also want to take this opportunity to publicly thank the members of my staff who have loyally supported the office and given their best in an effort to give the people the best service possible. The late hours and constant strain of the recent driving license and automobile tag rush proved their ability and worth."

Jealousy Makes Dog Pals Bitter Enemies

A real-life drama of dogdom is finding its counterpart in motion as Buck, giant St. Bernard star of "The Call of the Wild" returns to the screen as the canine of "The Country Beyond." Fox picture coming to the Palace Theatre Tuesday and Wednesday.

In the picture, which features Rochelle Hudson, Paul Kelly and Robert Kent, Buck's savage enemy is a Great Dane named Prince, and the brilliantly staged battle to the death between these two is the dramatic highspot of the story.

A brief year ago the roles might have been reversed, with Prince playing the heroic role. Then Prince was a favored dog performer, the star dog of the kennels of Carl Spitz, who trained both for film work.

When Darryl F. Zanuck, in charge of production at 20th century Fox, was seeking a dog for the role in "The Call of the Wild"

Prince was slated for the position—until Zanuck saw Buck, then a gangling youngster. Zanuck switched plans, insisted that Buck be trained for the role and that Prince be assigned to the supporting dog role.

More Kilowatt-Hours Consumed Yet Bills Lowered

A leading department store in Burkburnett in May 1933 used 586 kilowatt-hours and received a bill for \$33.87.

With the later establishment of a municipal light plant and the resultant lowering of electrical rates, this same firm was free to install additional equipment for the comfort and convenience of its customers.

As a result, in May, 1936 it consumed 890 KWH, and had a bill of \$30.33. Under the influence of a home-owned light plant, it could use 354 KWH more and yet pay \$3.54 less.

Can you afford not to be a patron of such a beneficial plant?

BANKS INDICATE BUSINESS JUMPS

The local banks stated in an in-
terview with the reporters Thurs-
day morning that a very definite
pick-up in business followed the
payment of the first series of
checks for bonus this week. The
reaction had not touched the bank
so that an increase in deposits
was much larger than normal,
but that increase was expected
in the final reaction of the in-
crease of business. According to
the authorities of each of the
banks, the Farmers State and the
First National, the soldiers were
mostly married men with families,
and spent the money adjusting
family finances. There was an in-
dication, according to the bank-
ers, of a wholesale payment of
due credit units. The money was
deposited for convenience and
then used for the transaction al-
most immediately.

Both banks indicated that the
money had not been concentra-
ted in any type of business, but
that every kind of business in the
city received a share. The veter-
ans spread the payments over a
wide area. A few left the money
in the original bonds which were
deposited in the safety boxes of
the institutions. Notes on homes,
cars and many other businesses
were taken up in advance by the
available cash.

ion of Jim Alexander, local dealer for the Goodyear Tire & Rubber Company.

"With Independence Day falling on Saturday this year, many persons ordinarily not so bene-fitted, will get a two-day holiday," Mr. Alexander said. "This means that drivers can plan trips farther afield than is their usual custom."

"The great majority of motorists in this vicinity are not anticipating inconvenient road delays, if the manner in which they have been buying new tires is an indication."

"And motorists who check up on their tires thoroughly before starting out on a trip in warm summer weather are really showing excellent judgement," he continued. "Old worn smooth tires are dangerous, because they permit skids at times when quick stops are imperative, and also because they are much more susceptible to blowouts."

"New tires, such as the Good-year line we sell, with gripping traction in the center of the tread, give the utmost protection against skids and blowouts. Motorists who start out on trips with poor tires are really asking for trouble, and should not be surprised if they encounter irritating delays along a hot, dusty roadside, at a time when they should be traveling along toward their destinations."

Mr. and Mrs. Cecil Wheeler left Thursday for Breckenridge, where they will make their home. Mr. Wheeler will have charge of a barber shop in that city.

Mrs. F. E. Scruggs returned recently from an eight days vacation trip.
