Win Bonus First Bale At Burk Burnett Gins

Clark, Randlett farmer, Henderson a Burk Burnett gin won the \$25.00 offered by the Burk Burnett of Commerce and Henderson Tuesday when they won the first Texas and bales of cotton.

Henderson won the annual race by bringing the 1900 pound load to the Cooperative gin. The gin 493 pounds of lint and 407 pounds of seed. It was the prevailing mar-

Revival Speaker

Rev. D. W. Thom of Amarillo, Texas is conducting a series of meetings in the big gospel tent at the corner of West Fourth and Holly Streets, this week. The speaker will select the subjects, Healing from Heaven, The Spirit of Baptism, Eternal Salvation, The Return of the Lord and other interesting discussions. Services each morning, except Saturday, at 10 o'clock and each night at 8 o'clock. The services will be directed by A. B. Sharp, pastor of the local Assembly of God.

Thaxton Enters Ball Tournament In Wichita Falls

Thaxton Hardware has entered the state softball tournament beginning in Wichita Falls August 16 with one of the greatest array of local stars to ever assemble on a softball field. Mr. Thaxton has entered his team in this tournament every year for the last three years and has gone into the semifinals each year.

Manager, Truman Garland, who has assembled these star players is very confident his team will be called the champions when the finals are played in Chicago.

Proclamation

Inasmuch as a good laugh is one of the best of life's tonics and a sense of humor essential to happiness, and the welfare of any community depends a great deal on the broad human outlook of its people. And since the local theatre is starting one of the best comedy programs ever offered to local patrons, shows with hundreds of laughs.

Therefore, I Mayor Alvin R. Hill, of Burk Burnett, Texas, do declare and affirm that the week of August 17 until August 23 Happiness Week for Burk Burnett, Texas and the surrounding area. During the week four big laugh hits will be exhibited by the Palace Theatre including: "She Had To Eat," Jack Haley and Rochelle Hudson, Tuesday August 17; "Nobody's Baby," Patsy Kelly and Lyda Roberts, Wednesday and Thursday August 18 and 19; "Riding On Air," Joe E. Brown, Friday and Saturday, August 20 and 21; and finally closing the fun feud of a week a Hill Billy Prevue, Saturday night and regular showing Sunday and Monday of "Mountain Music" featuring Bob Burns and Martha Raye.

So for the week let's forget the troubles and laugh with our fellow citizens at the humorous features.

(Signed) ALVIN R. HILL
Mayor

Tennis Finalists Play For Titles At Court Sunday

Married Women Have Special Division In Tournament Play

SINGLES FEATURED

Tennis championships in all divisions will be determined in Burk Burnett Sunday in an all day session of the net sport. The players in each division have reached the final stage except the senior men's singles. The finalists in this division will be determined before Sunday.

The mixed doubles championship was completed Thursday when Mildred Milford and Al Ragsdale defeated Reger Kent and Manila Milford 4-6, 6-3, 6-3.

The finalists in other divisions will be Elmer Russell and W. A. Strickland, boys singles; Russel Cope and Bill Amyx, junior boys singles; Georgia Mae Lamb and Mildred Milford, junior girls singles; Mrs. Otis Gay and Manila Milford, senior girls singles.

The winners in the contests Sunday afternoon will enter the state tournament at Wichita Falls. The meet will be held September 4 and 5, and local players go directly into the state elimination.

The players in the senior mens singles are Grady Ragsdale, Truman Garland, Al Ragsdale, Kent Reger, W. D. Yeary, and Chester Roberts.

Girls Beat Fat Men Benefit Game

The Burk Burnett Hornets representing the Barrow Grace Chevrolet company defeated the fat men's team Tuesday night in a laugh producing contest at the city association diamond. For the first three innings the girls held the opponents to one run and piled up a lead of 9 to 1. At that point, the manager Ross Reagan decided that the men had not run enough to satisfy the crowd. He put in a less effective pitcher and the men piled up a score of seven runs before they were retired.

The high point of the game was Clyde Elders sensational slide that came near making him eligible for the nudist colony. With many sore and tired muscles the business men ended the game with a feeling of having done well in aiding the Hornets make a trip to the state tournament in Austin, Texas.

Clyde, (air conditioned pants) Elder, Ben Winkles, Roy Hill, John Smith, Bern Alexander, Charles Walling and Hodges.

Old Fiddlers To Play For Contests At Theatre Aug. 23

Fiddle players will clash in mountain music and old fashioned squares and jigs at the Palace Theatre Monday August 23 at the showing of the funniest picture of the year, "Mountain Music." The show that features Bob Burns and Martha Raye will be presented on the screen the same night, and the fiddle players will hold their contests between the performances.

Any one is eligible to enter the contest, according to Stanley Gartside, manager of the show. The entrants should apply at the office of the theatre as soon as possible, and the list of entries will be run in the paper next week.

Each player will be allowed to play only one number during the contest, and the judges will select the best fiddler for the cash prize during the contest.

Mountain Music is a showing in which the fiddling is predominant, and many of the numbers that will be selected by the players for the contest are used in the show.

Most girls are like parlor lamps—out for a good time.

Burkburnett Team Attends Fire Meet

Members of the Burk Burnett fire department left Thursday morning for the West Texas fire association convention in Olney, Texas where they attended the meeting of the volunteer firemen of this district. The team from Burk Burnett will try for the hook-up and water polo cups.

After keeping the coveted hook-up cup for two conventions, the local organization lost possession at the contest with Archer City last year, and this time the team set out to regain possession of the trophy. The cup is designated as one of the greatest honors that the fire departments of West Texas can win in any event. It represents the efficiency of the departments that are in the contest in activities which constitute the normal routine of the departments.

The team that left Thursday morning from which contestants were picked included Frank Kelley, John Blackstone, Bob Laney, Curtis Mathews, Grover Posey, John Musick, Charles Grace and Werner Keisling. Herman Engelman joined the group later.

The tentative teams for the hook-up contest was Curtis Mathews, Bob Laney, Frank Kelley, John Blackstone and Herman Engelman. This team was required to take three lengths of hose, attach to the plug, attach the nozzle and turn on the water. The prize for the events make one of the highest honors in the district.

Burkburnett first won the cup at the Throckmorton convention, and then repeated the victory giving two legs on the trophy. But on meeting the Archer City team the local ran a poor record.

In the water polo division, the main stay is John Musick, one of the best nozzle men in this district. He is feared for his accuracy and timing by all the fire teams in the entire area. He was appointed as the leader of the Burk Burnett team in the important championship meeting.

Burk C Of C Asks Passage Of Farm Loan Legislation

Wires Sent To Congressmen By Local Board Of Directors Tuesday

ACTION DEMANDED

Members of the board of directors of the chamber of commerce asked the senators and representatives of this district to use all influence possible in securing the passage of farm loan provision of the cotton legislation at this session of the national legislative bodies. The directors voted to send resolutions by wire to Morris Shephard, Tom Connally, and Representative W. D. McFarlane at the meeting Monday night.

The argument of the board was that further delay would make it impossible for the features of the bill to aid the farmers in this district. Delay until the special session or next regular session of the congress would make it impossible for Burk Burnett area farmers to benefit from the legislation. The application and return of the funds and accompanying red tape would carry the benefit past the next regular crop.

In the meantime congress and the president seemed to be unable to agree on a program. With adjournment starting the legislative bodies in the face of hasty action may prevent the passage of this feature before adjournment.

The local board of directors also appointed a committee composed of Ray Hill, D. R. Peevey, Alvin Hill and W. T. Holman to consider a beautification project in connection with the establishment of a nursery for the State Highway Department in Burk Burnett district.

Given Appointment

DAVID SIDES

One of Burk Burnett's own boys who came to the city thirty years ago a babe in the arms of his mother. He and his parents, Mr. and Mrs. W. J. Sides were among the leaders in the city's history. He was graduated from the Burk Burnett high school and later from Oklahoma University. He married Miss Gladys Bates of Farwell and both have been teaching there for eight years. Recently he was called to Washington D. C., where he will work as a government accountant.

Ball Throwing To Feature Contest Theatre Monday

The Thaxton Hardware team challenged the Wichita Falls softball team to a ball throwing contest to be held starting in front of the Palace Theatre Monday night August 16. The teams will lineup around the block at seven o'clock. At the signal the teams will start throwing the ball to team mates. The first team completing the circuit of the block will receive passes to the showing of Mountain Music at the Palace which shows August 22 and 23.

The challenge was issued by the manager of the team R. P. Thaxton, and the two teams will play that night at the softball stadium. The winning team in the throwing contest will be guests of Stanley Gartside at the show the following Monday to see Mountain Music.

The teams will lineup around the block of the theatre and the block just north of the theatre. They will flip a coin for the choice of the blocks. A huge crowd is expected to witness the contest.

Gene Watson Joins Modern Shop Staff

Gene Watson, former employe at the Modern Barber Shop, re-joined the staff at the shop again this week, and will be glad to meet all his friends. Mr. Watson has been working in the oil fields near Electra for several months, but returned to Burk Burnett to make his home. Jess Griffin, owner and manager, of the air conditioned barber shop issued a special invitation to the friends and customers of the shop to meet the new employe.

Rites Held For Edward D. Brack

Funeral services were held for Edward D. Brack, 91, 12 years a resident of Burk Burnett who died at the home of his daughter, Mrs. J. R. Gordon in Wichita Falls Saturday afternoon, Sunday afternoon from the Church of Christ in Burk Burnett. Taylor Davis pastor of the church officiated and services were under the direction of the Thomas Funeral Home.

The interment was in the Burk Burnett cemetery. Brack had been a Confederate soldier. He was born in Mississippi in 1846. He is survived by three daughters Burchard of Burk Burnett and Mrs. Mrs. Gordon, and Mrs. C. H. Lee Pane of Dickens, Texas two sons, H. Brack and J. C. Brack of Bowie.

Wichita Dentist Speaker At Club

Dr. V. E. Wratten, Wichita Falls dentist was speaker at the Lions club Tuesday night on the subject of safe driving. The speaker emphasized the necessity of driving carefully watching both your own progress and the progress of persons you meet on the highway. The statistics related to accidents were read by the speaker. Dr. Wratten was introduced by K. C. Spell of Wichita Falls.

"Hell, yes," said the devil, picking up the phone.—University of Montana Mountain Goat.

Ft. Worth Fiesta Gave Burk Royal Time At Show

Burk Makes Hit At Grounds Of Huge State Celebration

BEAUTY INTRODUCED

Burkburnett delegates received a royal reception at the Fort Worth Fiesta last Tuesday afternoon and night as 75 local citizens including the Burk Burnett cowboy band attended the huge show at the state celebration. Music by Whiteman, side shows an escort through the city, and a big hand was offered to the local visitors.

The delegation left Burk Burnett Tuesday afternoon at 2 o'clock led by Mayor Alvin Hill. After stopping at almost every shady place to cool off and secure a drink of water, the band and delegates were met at the city limits by two cars of Fiesta officials and two mounted patrolmen.

The delegation was escorted through the city with the sirens of the official cars providing the music. At the fair grounds the cowboy band under the direction of E. L. Nichols played for several special performances.

At night the local delegation received the choice seats at Casa Manana and enjoyed the show and dancing.

Rites Held For Edward D. Brack

Funeral services were held for Edward D. Brack, 91, 12 years a resident of Burk Burnett who died at the home of his daughter, Mrs. J. R. Gordon in Wichita Falls Saturday afternoon, Sunday afternoon from the Church of Christ in Burk Burnett. Taylor Davis pastor of the church officiated and services were under the direction of the Thomas Funeral Home.

SUPERSITION AND PROGRESS

Many of the benefits of science have been achieved in spite of the stubbornness and superstitions of mankind. We are stubborn animals. When something new appears which we do not understand, most of the time rather than trying to find out what it is all about merely say "Impossible." From the dawn of history curious-minded men have studied in the face of the handicap of knowing that what progress they made would be condemned by their fellow men more often than it was praised.

Railroad trains were legally condemned in Ohio because the community felt that since the Bible didn't mention them that they were works of the devil. Paster, Lister, Galileo, and almost any other progressive mind suffered for their irrespressible curiosity.

An occasional rare soul is able to combine an understanding of the community mind and create new ideas without being offensive to society. Most of the progressives suffer a martyrdom.

These men are called radicals in politics, fanatics in religion, fools in industry, and maniacs in the world of science. Even such men as doctors and learned scientists are not always ready to accept new ideas. Lister had a very difficult time trying to teach the necessity of sterilization to prevent post-operation infection.

The foolish dreams of men today may be the basis of great progress tomorrow. But progress will be denied as long as superstition prevents unprejudiced and intelligent examination of new thought.

A GOOD FIGHT

The fight that Wichita Falls has made against completion of the Trinity Canal project should have been supported by all West Texas communities. The project to make a stream that is a sluggish mud hole most of the time carry freight is an impossible or at least impracticable dream.

The only thing that could recommend such a project was that it would give a lot of work to a large number of men during its construction. However, it is impossible to conceive intelligent men proposing such a project as a serious transportation system. About the only object was that the fact of its existence might force down other transportation rates.

Wichita Falls and other West Texas communities are to be complimented for the fight for a re-hearing. The army engineers will rehear the evidence submitted after the West Texas Chamber of Commerce board recommended the project.

The fact that Fort Worth and Dallas would receive freight rates which would be detriment to this area and all West Texas is not justification of a huge pork barrel appropriation to satisfy the members of that district.

The West Texans who have led this fight could continue their efforts to see that the silly dream is stopped. It has been repeatedly rejected. Even the people in the district created by the state legislature for the voting of expenses for the project rejected the idea. If these who would benefit rejected, those who would be hurt surely should fight.

CLEARING SLUMS

One of the most heart breaking tours that any person can make is to go through the slums of a large city and watch the children at play in those sections. If a person is required to go to inspect the homes from which these children come, the tour becomes even more heart rending. It is occasionally the duty of a newspaper man to go to such places. Even in a small community like Burkburnett we have hovels in which people of the lower social strata live that seems impossible to believe.

We, the average people, who take for granted the luxuries which we enjoy have little understanding of the mental attitude of those who must live under such conditions. We take for granted the fact of a little cleanliness and a little luxury. We believe that they are inherent rights and necessary to existence. We close our eyes to those who live in less fortunate conditions.

The Wagner Housing bill has been created for the purpose of providing better conditions for such people. It is an intelligent effort of the administration to provide homes that will have at least comfort and sanitation for those who have been denied by poverty such things.

Wagner in his work in New York has seen many children wilted by heat, hanging from fire escapes to catch a single bit of breeze, or playing in streets between the flow of traffic, stealing from garbage cans or fruit stands occasional bits to eat.

Out of those experiences he developed a hope to make conditions better for those children.

The housing bill is noble in purpose. Whether or not it will work is another thing. Slums are not created by selfish landlords alone. They are developed by the demand for them. Cheap rent is necessary. The poverty stricken strata could not pay more than the lowest rate for a fire trap. In many instances when the slums have been cleared those for whom they were cleared for whom better apartments were built moved out into still dirtier and more squalid sections, leaving the new apartments and houses for the middle classes that could afford to pay for them.

It is hoped that this bill will make it possible for those evicted by the rebuilding plans can come back to the

HOGS ON PARADE

by

FRED HALE, Chief,
Division of Swine Husbandry,
Texas Agricultural Experiment Station

On Tuesday of this week top hogs sold for \$12.35 on the Fort Worth market—the highest price paid for market hogs in ten years. The spring pig crop for the United States is reported to be 7.4 per cent less than the small crop of a year ago and the number of sows bred to farrow is estimated at 3.4 per cent less than in the fall of 1936. It looks like a tight pork crop and high prices for the next eighteen months or longer. The condition offers ample opportunities for profits for those able to properly appraise the situation. There is a distinct shortage of seed stock in the country and owners of this commodity will find themselves in an enviable position.

There are many hours of labor, both mental and physical, waiting for the farmer who raises hogs as a cash crop and many difficulties will present themselves, but it is said, "The optimist sees opportunities in difficulties—while the pessimist sees difficulties in opportunities." Too many hog producers sell out lock, stock and barrel during price depressions and find out later when prices are like they are today that they should have kept a few sows about the place for just such conditions as now prevail.

A 225-pound market hog selling for \$27.75 at Fort Worth today means that one brood sow raising twelve market hogs per year would gross \$333.00. With present feed prices, about \$80.00 of this amount should be net profit. For this reason, one will find high class bred gilts and good boars selling for unusually high prices at the present time. A good registered bred gilt now will sell for \$50.00 to \$75.00.

The wise farmer or hog producer, however, will know that the present high prices of hogs and the present favorable corn-hog ratio will not go on forever. Hogs will be cheap again, and unless one can see a good source of feed supply being produced on his farm this year, he had better go slow in getting into the hog business. It takes such times as now exist, however, to convince some farmers that money can be made with hogs. One cannot overlook the fact that the hog makes one hundred pounds of gain on less feed than does any other farm animal; sells for higher average price per pound than do other farm animals; returns come quickly due to the fact that pigs may be marketed within six months after birth; the initial investment necessary to engage in the hog business is comparatively low; hogs use by-products and waste to good advantage; and finally hogs furnish a meat for home use that is almost ideal, being high in food value and is peculiarly suited for home use on farms because of the ease with which it can be cured and kept throughout the year.

Not every farmer is suited to the raising of a large number of

hogs, but we believe that every farmer can afford to raise his own meat requirements as a minimum. There is a place on practically every farm for at least one brood sow. One sow will produce enough pork for home use, besides a few surplus hogs which usually can be sold at a very nice profit.

Success in the hog business is readily attainable by any good farmer who will equip himself with the knowledge of the practical methods of swine production. As feed represents about 80 per cent of the cost of producing pork, its importance is apparent. It is necessary that farmers understand the feed question or its importance in producing the greatest gain in the quickest time, at the least cost, in order to obtain the greatest financial return with hogs.

The annual increase of swine is from 500 to 1,000 per cent, with the possibility of doubling this. It, therefore, makes a difference whether the sow produces from eight to ten pigs twice per year or only three to five twice per year, or perhaps six once per year. This shows the importance of selection, with proper management in breeding, sanitation, feeding, and caring for the sow. It is a simple business proposition to designate the profitable sow. The unprofitable sow should be fed and consigned to the pork market now while prices are high (a 500-pound packer sow will sell for \$50.00 on today's market) so that she will not be bringing into existence a strain of inferior small-litter breeders.

With the present prospect of higher prices for hogs, breeders should gain much by preparing and exhibiting a show herd this fall. At the fairs one comes in direct contact with a great many hog men and new buyers, and if one has creditable exhibit, it is bound to bring new customers, beginners and those with less experience should exhibit in the main at county fairs, district fairs, and in some cases the home state fair. The fat barrow classes afford the beginner a good opportunity to gain some good experience in feeding and showing hogs, but the beginner may profitably prepare and exhibit a few breeding hogs at the smaller fair. Be good to your hogs and they will be good to you.

A CLOSE GAME

When men wore long beards—a wife showed her husband to play poker twice a month while she had a party of lady friends. The husband came home one night while all were there, his whiskers loaded with tobacco juice.

Wife: Dear me, John, couldn't you turn your head to spit?
Husband: Nope, not in that game.

"Here's a boy called John Simpson working here. May I see him? I'm his grandfather."
"You've just missed him. He's gone to your funeral."

Does she have her own way?
"Does she? Why, she writes her diary a week ahead of time."

HARLEY SADLER

The one and only, West Texas own showman, will be here with his big tent theatre stage show for one night only, Wednesday night August 25.

We'd rather listen to the story of a public hanging than hear the details of a unsuccessful speculation in real estate.

To find a good market for one's services one must have some financial independence.

We dislike people who insist that we must read the book they have just finished.

Tender, Aching, Swollen Feet

Your feet may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting right into the flesh. You feel sick all over with the pain and torture; you'd give anything to get relief.

Two or three applications of Moone's Emerald Oil and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And as for Soft Corns and Callouses, a few applications each night at bed time and they just seem to shrivel right up and scale off. No matter how discouraged you have been, if you have not tried Emerald Oil then you have something to learn—best of all any offensive odor is gone for good—druggists everywhere.

Letter To Editor

BROADVIEW FARM,
W. J. Sides and Sons
Farwell, Texas
August 3, 1937.
To The Burkburnett Star—
I want to thank the good peo-
ple of Burkburnett and anyone
else that cooperated in putting
on the pioneer celebration. We
enjoyed it to the utmost. We also
thank the Chuck Wagon Gang
for the excellent lunch at the
park, and the bands that furnish-
ed music and all other entertain-
ers.
It was a great pleasure to meet
so many of the first settlers, and
talk over ye old times. We know
we are appreciated by Burk's
young generation for our early
efforts in trying to do our bit in
helping build the city. By calling
us all home for a reunion ever so
often and I want to sincerely
thank you again in behalf of all
the people including our family
for the wonderful time we had
on account of your loyalty. Ex-
cuse this delay in writing to you.
I left immediately after I was
their on my vacation, but I would
feel like an ingrate if I never
wrote at all to tell you how much
we enjoyed it.
Respectfully,
Mr. and Mrs. W. J. Sides
and Family.
Wife: The new nurse is very
scientific. She never lets anyone
kiss the baby while she is around.
Husband: Who would want to?

Famous Composers Appear In Fiesta Free Attraction

FORT WORTH, Aug. 10. (Spe-
cial to the Star)—Melody Lane,
starring the composers of the
greatest song-hits of yesteryear,
is now offered as a free attraction
at the Fort Worth Frontier Fiesta.
Think of hearing "Sweet Ade-
line" sung by a quartet consist-
ing of Harry Armstrong, who
wrote the immortal song; Joe
Howard, composer of "I Wonder
Who's Kissing Her Now"; Phil
Baxter, "Piccolo Pete," and J.
Russell Robinson, "Margie." This
is just one of the highlights in
Billy Rose's sentimental show
with its circle of eight grand
pianos and a white piano in the
center where the composers, one
by one, play their great songs.
Some of the composers sing and
the other melodies are sung by
Bess Coughlin, "songbird of the
Southwest," and Charles King,
star of the great motion picture,
"Broadway Melody."
Melody Lane has been one of
the most popular shows on the
grounds and, now that admission
is free, even larger crowds are
expected to enter the huge cir-

lar red building, with a seating
capacity of 3,500. There will be
three performances nightly. Mel-
ody Lane succeeds Flirting with
Death as a free attraction.
Composers—besides Armstrong,
Howard, Baxter and Robinson—
are Vincent Rose, who wrote
"Avalon"; Ernie Burnett, "Mel-
ancholy Baby"; David Gulon,
"Home on the Range," and Euday
Bowman, "Twelfth Street Rag."

Texas Farmers And Ranchmen Approve Game Conservation

COLLEGE STATION — That
Texas farmers and ranchmen ap-
prove the game management dem-
onstration plan offered by the
Extension Service of Texas A. &
M. College is evident from the
enrollment of 1,597,600 acres in
30 counties, according to R. E.
Callander, game management spe-
cialist.
The plan, which has been in
operation less than a year, calls
for demonstrations featuring deer,
wild turkey, antelope, beaver,
prairie chicken, quail fish and
other forms of wild life. Farmers
and ranchmen who enter the
game management program or-
ganize into associations and set
aside their land as game preserve
demonstrations.
In most cases the preserves will
be open to restricted hunting.
Hunters will pay a nominal fee,
part of which will go to the own-
er of the land, and the remainder
to the association to be used to
provide cover, feed, and protec-
tion for the game.
Dallas county leads in number
of individual demonstrations as
well as in total acreage involved
with 648 land owners and 150,000
acres. Other counties listed by
Callander as high in the state
ranking include Stephens, with 124
demonstrators and 110,000 acres;
Baylor, with 98,077 acres; Young,
83,586; Callahan, 76,500; Kauf-
man, 42,000; and Colorado 40,000
acres. In Wheeler county 36,000
acres along Sweet Water Creek

are devoted to beaver manage-
ment.
In addition to working with
farmers and ranchmen on the
plan, county agricultural agents
have a number of demonstrations
with 4-H club members, Callan-
der said.

Candid Snaps

Pretenders
"Let's play like" are words most frequently used by children who draw on their imagination to create an illusion of being something grand or having something that they desire. Real enjoyment can be achieved by watching children "play like."

While we smile at the antics of the children, we grownups are just as guilty of pretending as the kiddies. Our whole society is built on pretense of likes and dislikes. We pretend to be things that we are not and assume a load of dignity that would make a jackass bowlegged.

This desire for pose leads us to praise painting that we think are ugly, and to politely applaud music that we do not understand. More seriously it leads us to be nice to people we do not like.

Meow

Existing in society leads women to calling each other "dear" and "darling" at a bridge session when they would rather call their partner "dumb fools." Or we have seen both men and women greet a fellow man or woman with sticky sweetness and cut their throats when the same person leaves the room or party.

Dangerous Truth

If a person had to tell the truth all the time and stop pretending or "play-liking" for even a short period of time things would become extremely complicated for him. Imagine the trouble a married man would be in if he tried to tell his mother-in-law just what he thought. Or expressing his sincere feeling when his wife attempts to sing a complicated soprano solo. Even when a person is bored to death by a speech he compliments the speaker. The truth under such circumstances would be unacceptable.

Business Pretenses

Imagine what a handicap a business man would be under if he had to tell the truth about his products ALL the time. For instance we heard a man say to a customer "This suit has the best wool on the market in it." But he didn't say how much of that good wool was used. In selling an oil field lease a salesman said there is a producer right on the next lease. But he refrained from mentioning that the next

lease was a ranch of 35,000 acres and that the producer was on the opposite side.

Professional Necessity

Now certain classes of people particularly preachers and school teachers are required to pose more than the average person. This group beset by the same desires and ambitions as any normal people are forced by society into an elaborate control of their behavior that sometimes is silly. We know a school teacher that was dismissed without explanation after it was discovered that she possessed books that were standard texts at her college but considered "naughty" by a hick school board.

Dream On

But its lots of fun to pretend. Dreamers achieve a sense of power that nothing else can bring to them by flights of fancy.

WANTED — To borrow 15 brown jugs. Anyone having a brown jug may obtain pass to Mountain Music for its use during showing of picture. Must be at Theatre Wednesday August 18, 52-11c.

Fire Destroys Negro's House

A flame starting from an oil stove burned the home of Douglas McGown, employe at the Modern Barber Shop last Sunday at noon. The stove was turned over when a whirlwind whipped through the house, and before the fire department could be summoned the home was practically destroyed. The firemen and neighbors of McGown battled the stubborn blaze to prevent spread to adjacent buildings. The department members controlled the blaze only after the house had fallen in from the intense flames. Practically nothing was saved in the home.

Visitors Guests At Buffet Supper Mon.

One of the delightful social occasions of the week was the buffet supper at the home of Mr. and Mrs. Mitchell Wolfe's home west of Burkburnett honoring Mr. and Mrs. C. H. Wolfe of Hot Springs, N. M. The honorees are here as visitors of relatives this week. The delicious luncheon served as the motif for the meeting. Those present were Mr. and Mrs. Dutch Wolfe, Mr. and Mrs. R. O. Choate, Doris Mae Wolfe, and the honorees.

Sunday Wedding Well Known Burk Couple

Mrs. Edna Marshall well known Burkburnett matron and Ralph White of this city were united in a simple ceremony at the study of the pastor of the First Baptist church last Sunday night. Rev. Miles B. Hays, pastor, read the beautiful ceremony.

Immediately after the ceremony the bridal couple left on a vacation trip and will make their home in Burkburnett.

The bride has been an employe at the Famous Store, and Mr. White is associated with the Magnolia Petroleum Company.

Junior "42" Club

Members of the junior "42" club met at the home of Betty Louise Barnes for an evening of the game. Jessie Mae Grady won high prize and Christine Turner the low. Refreshments were served to Jessie Mae Brady, Bula Miller, Mary Blackstone, Christine Turner, Bonny Dell Smith, Betty Jane Hill, Betty Marie Kelley and the hostess Betty Louise Barnes. The next meeting was planned for the home of Mary Blackstone.

A Portable Yard Lamp Adds An Outdoor Room To Your Home

● Add new zest and relaxation to your evenings at home, and add new life to outdoor parties and games with this new, portable yard light. This well-made lamp and the 50 feet of weather-proof cord will provide light for many pleasant evenings outdoors, at a cost of only about 1½ cents an hour on your low electric rate.

We will bring one of these lamps to your home, if you like, and show you how it sticks easily in the ground and can be moved from place to place.

Relax in comfort in an easy chair in the back yard and read where it is cool. This new type of portable light sticks in the ground anywhere.

This light gives you brilliant illumination for bridge, picnic suppers at home or for dozens of other outdoor entertainments and games.

Leave your yard work until the cool of the evening and work cooler and easier under this light, which can be moved to any part of the yard.

Punts And Passes

Next Monday afternoon the fans will start the annual pastime of sitting on the rail and guessing about what will happen this year. About this time every summer football fans start blowing bubbles. This fond illusion of greatest create a real profound and sincere belief in each time that this year's team will be the greatest ever. Every summer the fans are able to see real possibilities in the coming season, and regardless of how any team in the past failed to develop that hope still springs up with the fans. Teams that look like world beaters in August often settle down into the second division by October and November. The slightest sort of accident or change of program may make a championship outfit over into a complete flop. But fans can't believe that when their hearts start beating a little faster as they hear the thump of a well kicked ball in Mid-August.

The Question This Year is not so much about how the veterans will behave. They are expected to do their part of the work as they did last year. The main question mark will be the new boys. Will Fred Brown, Murray Evans, Bobb Bates, and other boys that furnished cannon fodder for last year's first string come through with the goods when the regular season opens. What about that right tackle position. Montgomery was a very bad tackle when the season started, but he improved every game, and before the season was over was one of the most valuable men on the squad. Who will Coach Hill find to stop that gap out of the new men on the squad. Will he use Cook at tackle, or guard. Will Elliott stay in his old position where Will Pappy Whitton play? How about Orto Elliott?

McKewn Will Call Signals, pass and punt in addition to carrying the ball once in a while. He has the rare form of being able to pass to his weak side. He can punt consistently but hasn't a lot of distance. Will Buck Willet developed consistency in punting? He is one of the best so far as distance is concerned, but occasionally he doesn't get the ball into coffin corner or in the excitement fails to get all the distance that he can get. There will not be a better punter than we had in Finch last year.

When Nocona and Burk meet for the first game, the two best

dressed teams in the state will march onto the field. Those satin suits that each team has will make them the classiest outfits so far as dress is concerned. Last year in the regional game the Indians had a slick set of uniforms, and they were hard to hold. That was both a real and psychological advantage. This year the Burkburnett boys will do the same type of uniforms. It will be a colorful and interesting game to watch.

The Burkburnett Team Will be on the spot this year. Every team in the district, Crowell, Archer City, Throckmorton, Seymour, Chillicothe, and Iowa Park will be pointing to the game that they will play with the Burkburnett boys. There will not be an easy game on the schedule. These teams will be at their best for the entire year when they meet the Bulldogs. It will be more on an honor to whip the local team than any other team in the district this year. That is why the fans should back the boys more than ever. It is easy to back a winner in the football game. But there will be times this year when the boys need more than just a lot of yelling. They will need the assurance that each person in the city is personally interested in their success.

Football Season

(Continued from Page 1)
redoubtable Crain to Burkburnett bring the squad that includes the again this year. The largest crowd that ever gathered at Burkburnett for any game is expected to find the boys opening with the Indians this year.

That team which carried the banners into the regional will be ready to tackle the proverbial tough Noconites. The bitter memory of the last game is one that only a bitter fight this year could erase. The strongest competition of many years has been built in the meeting of the two teams.

Quannah Tough
Reports from Nocona Thursday afternoon indicated that the Montague team's fans are planning on closing the town that night and moving everything in the town and area right down into the Burkburnett stadium for the game.

Summer School For Scandal

School out and all that sort of thing, the younger generation, v. i. z., the high school Juniors, Sophomores, and Seniors, have found numerous ways of keeping themselves busy.

First and most important on the time-passing list is the tennis court. Not only is it something to play tennis on, but also it serves as a dance floor and a sort of a social clearing house. Romance occasionally flares there, and most note-worthy is that of our boy's singles' champion, Russell Cope, and racket-slinger, Mary Emma Hodges.

Next in importance is going places and doing things. That, however is a luxury in which few take part. Those who have been out of town in the past few weeks are Billy Walker and Virginia Vaught—Tyler and points east—Mary Jo Henson—Fort Worth, Christine Millikin—Denver and Kansas, Barbara Crissey—Wichita, and, of course, the whole sale excursion to the Fiesta on Burkburnett Day.

Thirdly comes the most wide and least important form of summer time wasting, running around town and dropping in on people. The Paul Browning household seems to be very popular in that the icebox, cake plate, and oven invariably yield such things as cheese, icing, steak, pie (apple and chocolate), cake, and gallons of ice water. Not as vitaminous, but as entertaining as the inimitable antics of the irrepressible Browning brat. Cold water, cake, and pickled peaches are also to be found in the Hodges Crissey, and Millikin homes, respectively. "Dropping in" includes such things as gossiping, knitting, and acting crazy. Dan Hofacket was the victim of five girls who called the bakery for Kent Riger about every three minutes for over an hour and a half, just to hear him answer the phone. Between tennis games Hodges has knitted twelve inches of grey skirt, and Polly Hall has started crocheting Christmas presents. As for the gossip—Kemp and Finch are still together. Pauline enjoys alternating between Bill and Wayne. Derby and Rike almost went piffitt. Dan still follows LaNelle around. Was there anything to the Cope-

Chambers duo Sunday before last? Our history teacher is missed quite some. Whozit Clark goes with from Wichita? Derby had a nice birthday party last Friday night. Why was it Bill was so down in the dumps at fore-mentioned party? Harriet Chambers and Margetta are seen occasionally with some boys from Wichita. Tommy and Mary Margaret are a new two-some.

NOTICE OF PUBLIC HEARING

The Board of Education of the Burkburnett Independent School District will meet at the office of the Burkburnett High School Thursday August 19, at 8 p. m. for the purpose of adopting a budget for the school year of 1937-1938. Such meeting shall be public. Any taxpayer of the Burkburnett Independent School District may be present and participate in this hearing.

C. J. DUNCAN
Deputy Budget Officer.
52-1tc.

Some 3,000 special events, from sports to opera, will be staged during the 288-day run of the Golden Gate International Exposition in 1939.

Bids For County Funds

The County Auditor of Wichita County, Texas, will receive bids until 9:00 o'clock, a. m. August 23, 1937, from any banking corporation, association or individual banker, and deposit offers to pay on the daily balances of all county funds, including permanent school funds, and for trust funds, for a term between the date of bid and the next regular time for the selection of a depository (two years). Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the County Revenue of the preceding year as a guarantee of the good faith on the part of the bidder, and that if his bid should be accepted he will enter into the bond hereafter provided, and upon failure of the banking corporation, association or individual banker in such County that may be selected as such depository to give the bond required by law the amount of such certified check shall go to the county as liquidated damages.

J. R. Jones, County Auditor, Wichita Falls, Texas, 50 3tc

Big Rabbit Creek

August 8th, 1937.

Mrs. W. H. Martin who were operated on last Wednesday morning for appendicitis in the General Hospital in Wichita Falls at this time and date is getting along fine. If no complication sets up, Mrs. Martin should be able to come home in the next few days.

Will the day and hot weather is still prevailing. All over the country the majority of the cotton crop has just about seen its best days. A large per cent is opening up. The bolls are very small and the lint will be very short.

Some of the farmers here in this neighborhood will start gathering their corn this coming week. It's thought that the corn crop will average about 20 bushels per acre in spite of the drought. This average just covers the Rabbit Creek and Red River Valley farming vicinity. There isn't any corn at all on the upland.

The grasshopper pest that has been trying to eat up the cotton crop, is getting to be something of the past from the effects of poisoning.

Clarence LaBarre who owns a fine Red River bottom farm has just arrived home from his vacation trip up through Kansas, Nebraska, Illinois, Iowa and Missouri. Mr. LaBarre reported to Hawk Eye that all of the above mentioned states that he visited sure have fine crops. Corn would make from 50 to 65 and maybe 70 bushels per acre at gathering time.

Hawk Eye accompanied J. E. Wood and his two sons, Clifton and Dan over to our friendly little city, Burkburnett, Saturday. W. H. Martin's little 2-year-old step-daughter, Margaret were very sick Friday and Saturday at this writing she is much better.

Well Sir, every Saturday that Hawk Eye goes to the City of Burkburnett he sees hundreds of new faces from other states he met several Saturday, who was from Iowa and Illinois, they had heard so much about the big oil city back at their home town, while traveling through they just stopped. They was so impressed with the city and its business men they told Hawk Eye they were going to stay over for another week before going on.

The busiest places in Burkburnett Saturday were at the following places, Boyd Bros. Little Henry's and Hicks Cooper Bros. big dry goods store, Elijah Crestman, The Big Famous Store and the Big Ice Cream Store also the Parker Big Grocery Store. Boy believe it or not, Crestman's were packed in these stores all day just like sardines.

Hawk Eye called on his old friends Mrs. Fred LaBarre and her two sons, Clarence and Freddie Sunday afternoon the writer had a fine visit with his old-time friends.

Freddie LaBarre returned home a few days ago from Hobbs N. M. Freddie reports that its very hot out there and everything is burning up out in that part as it is here.

While Hawk Eye was in the City of Burkburnett Saturday he dropped in the Major's Big Variety Store as he wanted to see just how his old friend Joe looked

Falls; Mrs. Mary Newsome, Wichita Falls; Mrs. A. D. Woodward, Wichita Falls; and Mrs. L. S. Wright, Wichita Falls.

IDAHO'S WILD HORSES BECOME MOVIE STARS

Two thousand wild range horses, unbroken outlaws of the plains, were "stampeded" by cowboys in order to get them in front of the camera for this thrilling scene from "Forlorn River," the Zane Grey outdoor romance which opens Friday, through Saturday at the Theatre.

and talked after spending a week in Chicago. Say, folks of Burkburnett and all who knows Joe Hawk Eye don't think it's a good idea to let Joe go back any more as this trip has made a big Chicagoan out of him, especially in his talk as he just tries his best to talk and act just like those Chicago guys talk. The best thing for him to do if there is anymore Chi—trips to be made is for him to send his better half and he stay at home, he may get back to normal again but it will take him a long time.

The lowest estimation of human flesh that were on the streets of Burkburnett Saturday all day 600 or more people in the city and stores then there were a week ago Saturday, which placed the estimation 5,386 people on the streets and in the leading stores in the city.

You know folks Hawk Eye just felt real sorry for poor little Herman Engleman the city's C. of C. manager, had to call Mrs. R. H. Porter back to pay her the second time, little Herman was so dumfounded, Hawk Eye thought sure he would have to get up on the truck himself and call the lady back to give her the 5 bucks. Hawk Eye were glad to see the lady, Mrs. Porter draw the money, no doubt but what they needed the 30 bucks I will say this in behalf of little Herman that he must keep that honesty business down, as the whole public knows that every Saturday drawing is pulled off fair and square. So hereafter Hermie when Hawk Eye draws the whole cheese \$40.00, you will have to holler louder then you did for Mrs. Porter. If Hawk Eye should draw any of the \$40 or all, you will have to carry him to the truck as he will never be able to walk.

Yours truly, H. E. By E O

The new reporter wrote his concluding paragraph concerning the murder as follows: "Fortunately for the deceased, he had deposited all his money in the bank the day before. He lost practically nothing but his life."

He will be glad to show you how easy it is to enjoy healthful temperatures all winter long. UNITED GAS CORPORATION"

Proud Father: Of course, my son has studied foreign languages. Say "Hello" to the man in Algebra, son. "You've already had leave, Jones, to see your wife off on a journey, for your mother-in-law's funeral, for your little girl's measles, your boy's christening—what is it now?" "I'm going to get married."

The teacher had asked her class to write a short composition on the subject, "Water."

One scholar seemed to be having difficulty, but finally he turned in his paper, and here is what he wrote:

"Water is a light-colored, wet liquid which turns dark when you wash in it."

"Can you imagine it! I know of a chorus girl who made a millionaire out of the man she married."

"Was he a poor man when she married him?"

"No, he was a multi-millionaire!"

"And what was your husband doing while you were trying to sleep by counting sheep?"

"Pulling the wool over my eyes!"

Of WPA Educational Classes Between 16 And 25 Years Of Age

ANTONIO Aug. 10. — More than one fourth of the Texans currently enrolled in the Progress Administration educational classes are between the ages of 16 and 25, a study by C. W. Huser, assistant director of the program, disclosed today.

The study was made by the State Department of Education and by the division of the University of Texas, the education projects out-of-school unemployed youths, those enrolled in camps, many at work on projects, and others holding positions in private in-

high school work occupies 2,264. Vocational training is taught in classes for 1,259 young people.

Utilizing the WPA training as a means of assisting youths to find employment and to increase their earning capacities, supervisors record the number of students who have gained employment and job promotions. Commercial training for those unable to continue their educations through their own efforts has been instrumental in placing several hundred former WPA students into stenographic and clerical jobs, Huser stated. Similarly, many of the teachers themselves were unemployed young people who have graduated from WPA teaching positions to jobs in public schools. A number of persons, beyond high school age but temporarily unemployed, have taken advantage of WPA educational opportunities to bridge the gap between incomplete high school grades and college and have been enabled to enroll in Texas institutions of higher learning, districts reported.

The Rest of The Record

JAMES V. ALLRED
LUIS POTOSI, MEXICO,
1937.

As we boast of our southern hospitality in Mexico, they don't boast of it; they live in the moment when Mrs. Allred, wife of the Mexican consul at Laredo, presented a bouquet to Mrs. Allred.

As you perhaps know, a fine new highway has been completed all the way from Texas to Mexico City. It is wide open, a marvelous drive and perfectly safe. Since things are so much cheaper, I want to suggest to all of you who can that you make plans to spend a vacation down here some time in the future. You will enjoy it. My wife's mother and my oldest son, Jim Boy are with us, and they, too, are having the time of their lives. Like every other boy of his age, Jim Boy is full of curiosity. He has been all over the train to find out how things work, turning off lights, turning on water, etc., but he is a little timid about seeping around these Mexican places much.

sd in Texas. On every hand were evidences of culture and refinement—a wonderful art gallery, fine school buildings and music everywhere. The people are overly friendly. They are completely wedded to the "Good Neighbor" policy of President Roosevelt; they love him almost as much as we do and they adore their own President, Lazaro Cardenas. I felt like saying in Saltillo, "Thank God for a people with friendship in their hearts and music in their souls."

The Mexican Government sent Consul Dominguez from Laredo with us, and the American Government ordered Bill Blocker, our consul at Monterrey to accompany us throughout our stay. They have insisted on us staying at the American Embassy in Mexico City, so we are looking forward to grand time this week. I'll try to have something more interesting to tell you next week. "ADIOS!"

The old chisler limped painfully up to the bar and leaned against it in an attitude of dejection.

"What's the matter?" asked a sympathetic friend. "Have an accident?"

"No," replied the chisler. "I've just had a touch of the yooors."

The sympathetic guy scratched his head. "What's yooors?" he wanted to know.

"I'll take a straight whisky, thanks."

—Pure Oil News.

Chaplain: "How could you have the heart to swindle people who trusted in you?"

Prisoner: But, parson, people who don't trust you cannot be swindled.

RELIEVE DIZZY SPELLS OR MONEY BACK

She gives wonderful advice to Women passing thru those 40 to 50 "critical years."

Mrs. L. B. writes: "I'm going thru change of life and been having hot flashes, blood rushing to head. Also such sweats, perspiration would run from my head, after I finished the first bottle, the flashes were getting further apart and the night sweats less. I and my friends swear byeta and my friends swear by Kruschen."

If you want to help avoid headaches, dizziness, smothering spells, weakness, fits of depression—if you want to keep feeling more healthy and happy—up and about your work—take a third teaspoonful of Kruschen Salts in a glass of hot water first thing in the morning.

Kruschen is a superb blend of 6 mineral salts, each with its own special work to do — kidneys, liver, gall bladder and bowels are helped kept functioning normally and when important body organs are working properly you may be sure there will be less constitutional agitation. It costs but little and if it doesn't help you wonderfully in a month—money back.

HEADLINES

Clearing of the slums under the revised Wagner housing act will offer an escape from the unhealthy conditions for thousands of people in the major population centers. Whether or not these people will take advantage of the new centers sponsored by the government is another matter. In the Tennessee Valley the government offered an ideal living conditions with beautiful modern homes that had everything from modern electrical devices to running water for the people that for generations had been accustomed to only rudimentary huts and poverty in the mountain area. At first they enjoyed the wonder of the new gadgets and were properly awed by the shiny new fixtures. However, in almost every case the modern fixtures were abandoned, and the mountaineers returned to their customary order of living. That is what will happen in the slums. The people who have been accustomed to dirt and squalor all their lives will be properly impressed with the new conditions, but it will not be long before they return to places where the carelessness and indifference to property, sanitation and health is in order.

Same Problem
The problem of helping people is the same all over the world. The class of people who would endure the rotten conditions under which they live in the slums have lost their personal pride and self respect that would make their improvement of these conditions improbable. It is almost equally improbable that they will accept better conditions created by legislation. People cannot often be lifted by legislation. They must be inspired to assert independence and pride before any outside agency can improve to any great degree their status.

Trade Agreement
United States and Soviet Russia will continue their policy of mutual trade for another year. The old agreement worked out under the plan to recognize Russia a few years ago had expired. The Russians agree to spend at least \$40,000,000 in the United States on major industry materials during the year. The Russians have showed a willingness to trade heavily for it, both in trade and treaty concessions.

Control On The Brazos
Possum Kingdown will be the

center of the new \$4,500,000 project to control the Brazos River. This project was approved last Friday, and after the red tape has been unwound a magnificent structure accompanied by a series of auxiliary dams will be erected along the river with the primary purpose of controlling the huge stream during flood season, creating irrigation lakes, and finally a minor amount of electricity. Residents in the Pease River area, which includes Burkburnett, should push the flood control project before the government stops the policy of aiding the district suffering from the eccentric streams in Texas. The average person watching the small flow of water along the Pease River and its tributaries during the drouth season would find it difficult to believe that the stream can become such a raging flood in proper season. Bridges, towns, farms and railways are endangered each year by the streams impetuous notions to run wild.

Pick Cotton Or Else
Each year the argument starts about relief workers and cotton pickers. Many relief workers do not wish to nor know how to pick cotton. The orders from state headquarters Saturday indicated the persons on relief at the present would "pick cotton or else." All relief will be shut down during the period that the cotton reaches maturity, and the relief clients will have cotton picking as the only source of income. In the Burkburnett area there will be an especially acute problem created by this order. The cotton in this area will be only fair in spots and absolutely bad in other spots. That will mean that a lot of those clients will have to pick cotton under conditions where little money can be made, and will not be accepted very peacefully.

Pork A Luxury
It will not be long before only the aristocrats can eat pork. Hogs reached a 11 year high over the week-end. The plebian dish of ham and eggs will soon become the food of kings and rich men alone.

Another Hoax
In every major news story, kidnapping, tragedy fire, flood, or any event of importance, some crank and many times more than one crank attempts to take advantage of the suffering of people. The officials dare not disregard the slightest clue for fear that the evidence offered may be real and sincerely submitted. But these cranks sometimes cause the loss of time and many times actually make impossible the solu-

tion of crime or mysteries. Wilber Rothar recently attempted to extort money from George Palmer Putman by claiming to be able to find Amelia Earheart. It is good that he has been arrested. Possibly his conviction would prevent further hoaxes or attempts on the part of the selfish to profit by the suffering of a few. In the Lindbergh case many false clues were offered by people who wished to attain publicity or personal profit.

"Why wouldn't you go to the masquerade with Jim last night in your Hawaiian costume?"
"Well, I found out he was going as a harvest hand."

Because

- Rates are lower
- Revenues stay at home
- Personalized service is the keynote
- Civic affairs benefit
- Experience proves its wisdom
- It is a mark of a progressive citizenship

You Want To Own Your Own At Home

Municipal light and power plants are sign-posts along the road of progress, and towns sponsoring them are wide-awake communities. The greater the number of patrons of such plants, the greater the benefits to the town's citizenship. Join your neighbor in supporting the local municipal light and power plant.
