FOR TEXAS YOUTH

There are more than two and one half million youths between the ages of 16 and 25 in this country. Texas is well represented in this vast and promising army of both boys and girls. They are members of families of all walks of life, many of them with income of less than \$40.00 per month.

President Roosevelt has asked the United States Congress to provide \$123,000,000 to insure the future of these youths who figure in the National Youth Administration's program that serves Texas along with all other States.

"There is no one who can gainsay the fact that the youth of today are the foundation of flesh and bone, brain, heart and character upon which the future is solidly laid," stated Pierce Brooks, Dallas business man. "The surest and only way to build a better Texas or a better America is to train youth for the responsibilities of citizenship. With work scare and the ranks of the unemployed ever lengthening, the N.Y.A. has come to this country to stay. It is as permanent as any branch of government and perhaps the wisest investment our governments make is in the young life about us. The record of the National Youth Administration is that of major accomplishment. In front and around N.Y.A. projects you will not find the modern saloon, honkeytonks and gambling devices such as may be seen near some quarters where government projects, under the social security measures, are to be seen. We know of no governmental agency that has done more for building manhood and womanhood than the National Youth set up.

"The greatest objection to it seems to be in the fact that its advantages are not open to every boy and girl from 16 to early manhood and womanhood. It is a well known fact that the greatest crime in the ranks of youngsters is between the ages of 19 and 21. That is the age when they feel that everyone is against them and that is the age that the N.Y.A. serves. Keep the good work going."

### FIRE PREVENTION IS EASY

Fire loss in the United States is disgracefully high. It would be far higher were it not for the unending efforts of the stock fire insurance industry, carried on through the National Board of Fire Underwriters, in the interest of fire prevention and control.

Few of us realize what this work means to all business and to everyone with a home, a job, or an investment. According to the National Association of Credit Men, a saving of a quarter-billion dollars annually in fire waste, means a gain of close to a billion dollars for American business. In other words, the indirect cost of fire is much greater than the direct cost, so that when we prevent a dollar of direct loss we save several dollars of indirect cost.

The efforts of the fire insurance industry have thus saved untold billions that otherwise would be destroyed. Yet this work cannot produce its maximum benefit without public understanding and cooperation. At the present time, direct fire waste runs to several hundred millions of dollars a year in this country—which means that total waste approaches two billion. Reliable estimates say that about 90 per cent of fires are preventable, and are the result of carelessness or ignorance, individual or civic.

Fire prevention requires little time or money. Periodic inspections of home and places of business, check-ups on heating and lighting systems, careful storage and disposal of inflammables and waste—it is little things like these that prevent fires. From the community standpoint, an adequate, modern building code, buttressed with good fire department and water facilities, are vital weapons in the war against fire.

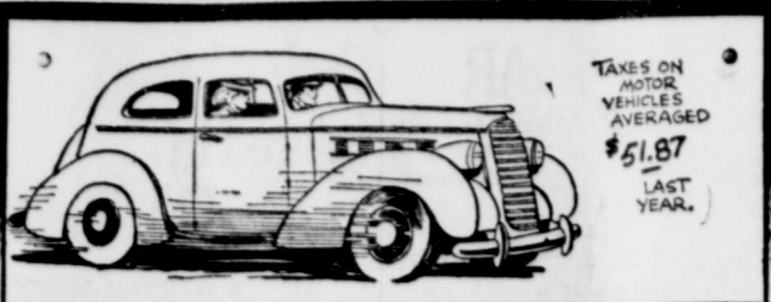

A great industry is working day and night to protect you and yours against fire. It asks, needs and deserves your help.

## Burkburnett . . . . History

As revealed by the files of The Star 10 years ago.

At a recent meeting of the teachers of Wichita County held at Iowa Park, Burkburnett was chosen as host city for the activities of the interscholastic league this year.

1065 students enrolled at Burkburnett schools the first day of school.

Mayor S. T. Smith has issued a proclamation setting Thursday, September 19, as official cleanup day for Burkburnett.

Rex Smith, R. H. Henry, Joe H. Davis, Butler Westerfield, Lynn Kincaid, W. D. Utts, C. J. Bohner, J. B. Joyce, Edd Lewis, and Ben McDonald, rode as guests of the Caro Motor company on the first flight of the 14 passenger tri-motor all metal Ford airplane which is here carrying passengers on short trips over Burkburnett.

Glenn Howard of the Texas company is suffering from an arm injury in the General Hospital in Wichita Falls.

Miss Margaret Tanner of Ardmore, representing Knickerbocker Fine Arts Studios, has arrived in Burkburnett to open her classes of expression. She is located in the home of Mr. and Mrs. B. H. Alexander.

### American Boy Magazine Companion To Thousands

Hundreds of thousands of boys and young Americans read the American Boy Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "The American Boy seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in The American Boy."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in The American Boy Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys clubs also recommend The American Boy enthusiastically. They have found that as a general rule regular readers of The American Boy advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff

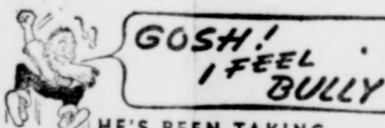

to produce in The American Boy the sort of reading matter boys like best.

The American Boy sells on most newsstands at 15c a copy. Subscription prices are \$1.50 for one year or \$3.00 for three years. Foreign rates 50c a year extra. To subscribe simply send your name, address and remittance direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. 52-2tp

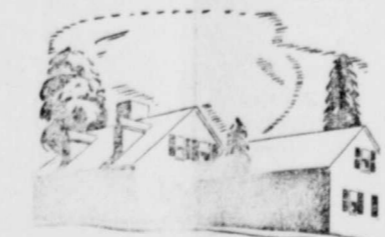

### Light From Stars Travel 10,000 Years To Reach Human Eyes

Light from some stars visible to the naked eye travels 10,000 or more years before it falls upon the human eye, according to the Better Vision Institute. Light from the sun, which is only 92,000,000 miles distant from the earth, takes about one and one-half minutes to travel to the earth. But the next nearest star is 300,000 times as far away, so that light, traveling at the enormous speed of 186,000 miles per second, takes 10 months to make the journey from the nearest star. The Pleiades are 500 light-years away, and other visible stars are 10,000 or more light-years distant.

Some star groups have been studied with the telescope that are 500,000 light-years away. Their rays reach the earth after having traveled in celestial space for 500,000 years, a period of time believed to be longer than that during which the human race has existed.

### New Rules Passed For Preparation Of Meat Products

At a meeting held in Austin by the State department of Health with the meat packers of Texas to discuss new rules and regulations governing the preparation of meat and meat products, the rules adopted met with the approval of those present. Briefly the new rules are:

Meat, meat by-products or prepared meats shall not contain cereal, vegetable starch or vegetable flour, individually or collectively in excess of 3 1/2 per cent.

To facilitate grinding, chopping and mixing not more than 3 per cent of water or ice may be added to sausage. These meats or meat by-products shall not contain any artificial coloring nor any quantity of soy bean flour or any other product of the soy bean.

Milk, skimmed milk, dried milk, dried skimmed milk, malted milk, and analogous substances and products which may be approved for such purpose by the Federal Department of Agriculture, may be added to meat, meat by-products, prepared meats and meat food products, provided their use does not result in added water or moisture in excess of 3.5 per cent. Meat, meat by-products, prepared meats and meat food products shall not contain dried milk, dried skimmed milk, malted milk, or other dehydrated milk product, in excess of 3.5 per cent, and if cereal, vegetable starch or vegetable flour is also added, the combined amount of cereal, vegetable starch, vegetable flour, and dehydrated milk product shall not exceed 3.5 per cent. Meat, meat by-products, prepared meats and meat food products shall not contain any quantity of artificial color.

These regulations were prepared by the State Department of Health in order to protect the consuming public against adulteration and to assure them that they are getting a pure product when making purchases of ground meat.

Spring and deep well waters usually are well filtered, but contain large quantities of dissolved salts.

Contrary to popular opinion all trout have scales, although they are small and inconspicuous in some species.

### Market Demand For Livestock Slumps

Market demand for Texas livestock slumped during June to a point drastically below that of June last year, the University of Texas Bureau of Business Research announced recently.

Reports from all railroad shipping stations in Texas and the Fort Worth stock yards show total shipments of 5,545 cars during June, a drop of 26.2 per cent from the 7,516 cars forwarded during June, 1938.

Cattle shipments dropped 38.7 per cent to 2,841 cars and sheep shipments, 1,053, dropped 33.1

per cent. On the other hand, shipments, at 744 cars, were 100 per cent above June last year, and sheep shipments, at 907 cars, were 100 per cent above June last year.

Margaret Russell Complimented With Lawn Party And Bridal Shower Tuesday

Miss Margaret Russell, whose approaching marriage to Lawson Bennett of Duncan, Oklahoma, has been announced, was the inspiration for an unusually lovely lawn party and miscellaneous shower at the home of Miss Crystal Waddell Tuesday evening, August 1.

Assisting Miss Waddell as hostesses were Mesdames Hubert Thompson, Morris Bookbinder, J. M. Morrison, Clarence Pool, W. A. Roberts, Misses Mildred Morrison, Leona Bunjes, Gladys Pinkston, Margaret Matthews, Ellis Mae Oualine and Cordie McPherson.

Mrs. Bookbinder presided at the bride's book and secured the names of guests. The honoree was directed to a chair which had been beautifully decorated for the occasion.

Miss Lela Mae Pinkston gave a reading and Miss Margaret Matthews made the presentation of gifts which she and the honoree drew from a well; the gifts being chained together with a gold chain. Refreshments were drawn from another well.

The guest list included Mesdames J. M. Patterson, C. F. Brookover, J. G. Cheney, A. W. Salter, W. A. Lawson, Dink Lawson, J. T. Finch, Bill Hinant, J. A. Johnson, B. H. Preston, Carl Miller, M. E. A. Lawson and Leon Pace.

Those present were Billy Gilbow, Earl Wayne Mills, Donna Browning, Billy and Susie Ross, Veda and National King, Hazel Beckham and Mrs. and Mrs. Raymond Holland and daughter, Bobetta, of Electra.

Those who sent gifts were Mr. and Mrs. W. T. Vance, Carlton Gibson, Mr. and Mrs. Jack Jones of Wichita Falls and Mr. and Mrs. Hut Buzbee and daughter, Winette, of Thrift.

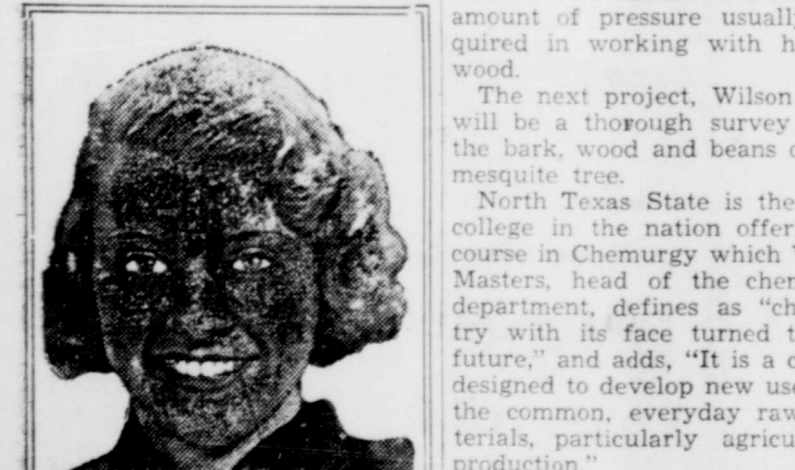

Bull Nettle May Be Used To Make Face Powders

The provoking bull nettle of the pastures and fields which has caused many a fine man to "lose his religion" and many a dainty girl to forget her gracefulness and poise, is likely to be the determining factor in nation-wide courtships and marriages if the "honeymoon" complexion still continues to be cupid's gift to women.

Reynolds-Sims Wedding An Event Of July 31

Mr. and Mrs. C. Sims have announced the marriage of their daughter, Lois Dale, to Albert Reynolds. The ceremony took place on Sunday July 31, at the county court house in Wichita Falls. Attending the young couple was a sister of the bridegroom, Miss Vera Reynolds, of Corpus Christi.

Both young people attended the local high school and Mr. Reynolds is employed by J. A. Suttles. They will make their home here.

Mr. Reynolds is the son of Mr. and Mrs. A. M. Reynolds, long time residents of this community.

Wanda Jean Redman Honored With Birthday Party

Mrs. Durward Redman entertained in her home at Clara Friday afternoon honoring her daughter, Wanda Jean, who was celebrating her first birthday.

The little honoree received many lovely gifts which she tried to open herself. After the gifts were shown to her many little friends, they all gathered around the dining table while the candle on the beautifully decorated cake was lighted.

Those who enjoyed refreshments of ice cream and cake were little Misses Betty Gail McHam, Sherry Ann Walkup, Gracie Lee Welborn, Marilyn Sue Chapman, Barbara Anne Brooks, Peggy Jo Beavers, Wanda Jean Redman, and Masters Jerry Don Morris, J. W. Whitten, Philip Beaver, Bobby Whitney, James Edward Welborn, and Charles Good of Burkburnett, Charles and Gloria Ruth Carnes of Wichita Falls, Mesdames Lee McHam, Carvel Good, Albert Walkup, Luther Welborn, Johnny Whitton, Millard Chapman, Raymond Beavers, Jack Whitney, Joe Beavers, Mrs. R. E. Carnes of Burkburnett, and the hostess, Mrs. Durward Redman.

Allan Walkup sent a gift but was unable to attend.

Louise McKown Became Bride Of Houston Man

Miss Louise McKown, charming daughter of Mr. and Mrs. Ed McKown of this city, became the bride of L. V. Bonham of Houston in a simple ceremony performed by Rev. C. W. Thomas, pastor of the First Methodist church, Tuesday evening.

The wedding took place at the home of the pastor and the young couple were attended by the bride's parents and Mr. and Mrs. J. D. Rogers.

Mrs. Bonham attended the local high school and has been a member of the Burkettes, a girls' softball team which has earned a statewide reputation.

The couple left Wednesday for Houston where they will make their home.

Morgan Circle Met At Mrs. Turner's

The Morgan Circle met at the home of Mrs. B. L. Turner on Monday afternoon, July 24. The meeting opened with song which was followed with prayer by Mrs. Al Lohofener.

Mrs. Mae Brumme gave the devotional and Mrs. B. L. Turner circle chairman presided during a brief business session, which was followed with special vocal numbers by Earlene Reed and Lela Mae Pinkston. Mrs. Hattie Buchanan dismissed with prayer.

Eight members and two visitors, Mrs. W. J. Justice and Mrs. Leonard O'Connor were present. The hostess served a dainty refreshment plate.

Rebekahs Finish Intalling Officers

Officers of the Burkburnett Lodge No. 67 were installed in a special meeting held at the I.O.O.F. hall Monday evening.

Mrs. Pauline Brightwell was installed as Vice Grand; Mrs. Lou Ethel Boyd as Right Supporter to the Vice Grand; Mrs. Dorothy Allen as Left Supporter to the Vice Grand. Other officers were installed at a precious meeting.

The Noble Grand appointed committees and a report was given by delegates who attended the County association meeting held recently in Wichita Falls.

All members were urged to be present Monday evening, August 7, for Degree Practice.

Lawn Party At Harris Home

Mr. and Mrs. L. L. Harris entertained with a lawn party and watermelon feast at their home on Avenue C Monday evening. Honor guests were Misses Betty Joe Hawkins of Dallas and Juanita Harris of Gilmer, young nieces of Mr. and Mrs. Harris.

Approximately thirty guests were present.

Rural School Board To Act On Transfers

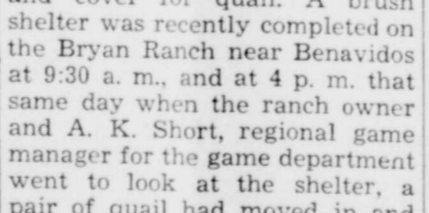

Applications for transfers of scholastics among Wichita county school districts will be approved by the school board Saturday afternoon at 2:30 o'clock in a meeting with J. B. Golden, county school superintendent, at the latter's office in the courthouse, it was announced Wednesday.

Any patron or trustee from any district who may wish to protest any transfer should attend Saturday's meeting, Golden said.

Visitors from Temple Here To Advertise Rodeo Thursday

A caravan of twenty-five cars from Temple, Oklahoma, came through Burkburnett Thursday morning at 9 o'clock on an advertising campaign on behalf of Temple's 37th anniversary celebration and rodeo which will be held August 8 and 9.

A delegation wearing cowboy regalia and carrying placards entered all places of business and invited citizens of Burkburnett to attend the celebration.

That the quail restoration projects being carried on in several sections of the state by the Texas Game, Fish and Oyster Commission, and which it is hoped will eventually be made state-wide, is highly beneficial is vividly illustrated by an occurrence in Duval county recently.

The department's objective is to provide proper natural food and cover for quail. A brush shelter was recently completed on the Bryan Ranch near Benavidos at 9:30 a. m., and at 4 p. m. that same day when the ranch owner and A. K. Short, regional game manager for the game department went to look at the shelter, a pair of quail had moved in and

was making preparations to start nesting.

The most prolific pair of doves reported to the game department this year are nesting in Dimmitt county near Catarina, it is reported by State Game Warden Herbert Ward. The pair is now raising its fifth pair of young. Several times the female has laid eggs the same day she shoved her young out of the nest.

A ten inch bass and a three-inch perch may be alive today in Texas Panhandle streams because Ted Haughton, a ranch owner on the plains, prevented the pair from dying and at the same time kept the bass from making a meal of the perch.

Mr. Haughton, while fishing, saw a bass floating stomach up on a stream, but paid little attention, believing the bass dead. However, he saw the same bass an hour later and it was attempting to swim. Investigating more closely, Mr. Haughton found that the bass, in attempting to swallow the perch had got it caught crosswise in his mouth. The sportsman extracted the smaller fish, released both and each swam away.

Fish dynamiters in Terrell, Crockett and Pecos counties have every reason to be more cautious than usual. The sportsmen of those three counties have banded together to co-operate with the game department in preventing dynamiting of fish and have raised a considerable fund to be paid to the person or persons responsible for the arrest and conviction of persons dynamiting in the streams and lakes of those three counties. State Game Warden O. Z. Finley of Del Rio and Warden Tom Redford of Fort Davis are co-operating.

There are more snowy egrets and blue herons in Texas than it had been thought. State Game Warden E. T. Dawson of Houston recently discovered a new bird rookery about thirty-five miles north of Houston near New Caney. There were more than 200 snowy egrets in the rookery. More than 100 blue herons were found in a previously unknown rookery about five miles away from the egret rookery. Both the snowy egrets and blue herons are far from being plentiful in the United States.

Distribution of nearly 4,000,000 fish produced by the game department's ten hatcheries is under way at this time, but only the public waters of the state are being stocked now. Three kinds of bass, northern small-mouthed, spotted or Kentucky and the more common large-mouthed bass, are being planted in the streams and lakes. Later on calico bass, four types of bream, red-eared, long-eared, native and bluegill; crappie, goggle-eye, green perch, rock bass and channel catfish will be distributed, making a total of thirteen species produced by the department's hatcheries this year. The total of 4,000,000 is an increase of 10 per cent over the 1938 production.

An experiment in breeding of tame and wild ducks by E. E. Rainey, ranchman near Dimmitt in Castro county is producing some unusual results. Mr. Rainey crossed a wild gander with two tame geese. The offspring have not had their wings clipped, but none have attempted to leave the place of their birth, it is reported by State Game Warden R. N. Barnott.

**No Wonder**  
An Irishman bought an alarm clock and after setting the alarm several nights and it failed to go off, he decided to take the back off and see if he could find the trouble. When he removed the back he found a large dead roach and said, "No wonder the thing wouldn't run, the engineer is dead."

Two elderly men at a club were discussing the table manners of a new member.

"Well, what do you think of him?" asked one.

"Very remarkable," replied the other, thoughtfully. "I've heard soup gargled and syphoned, but upon my word, that's the first time I've ever heard it to be yodelled."—M-K-T Employees' Magazine.

Izzy: "What's the difference between a sewing machine and a kiss?"

Lizzie: "I know they're different, but you tell me."

Izzy: "One sews seams nice, and the other seems so nice."—Erie R.R. Magazine.

Teacher: "What do you know about Atlas?"

Student: "He was the world's greatest gangster."

Teacher: "Gangster? Where did you get that idea?"

Student: "The history book says he held up the world."

A man was fumbling at his keyhole in the wee hours of the morning. A policeman saw the difficulty and came to the rescue.

"Can I help you find the keyhole, sir?"

he asked.

"Thash all right, old man," said the other cheerily, "you just hold the housh and I can manage."

Two business men were riding in the subway, side by side, saying nothing, but looking very worried. After many minutes one of them heaved a long deep sigh. The other looked at him for a moment and said, "You're telling me"

**Kenny Baker, Air, Screen Ace, New Casa Manana Star**

Fort Worth, Aug. 3—Kenny Baker, star of the second show of this season's Casa Manana, has been among the three top-ranking tenors in the last three annual major radio polls. His week's engagement in the big Fort Worth musical spectacle begins Friday night, August 4.

A boy violinist, Kenny found he had a voice, sang in church choirs, slipped off from a movie

studio where he had a minor part to enter a contest held by Band Leader Eddy Duchin, returned to find he had held up the company nearly two hours, but won the contest which gave him a spot in the famed Coconut Grove. It was here that Jack Benny heard him—and Kenny was off to stardom on the air. His trip east, by the way, was his first train ride.

Success in motion pictures followed, including "King and the Chorus Girl," "Mr. Dodds Takes the Air," "52nd Street," "Goldwyn Follies" and "Mikado."

He is 26, is six feet, weighs 165, has blue eyes, naturally wavy hair, a fair complexion, a boyish smile. His hobbies are playing golf and handball and doing wood work. He is married to his high school sweetheart. Besides Baker, Casa Manana offers Abe Lyman and his band, Trixie (only girl juggler in the world), the Gracella adagio dancers, the newly-crowned Texas Sweetheart No. 1 and 70 Texas beauties, with acts, costumes and scenery changed from the opening two-weeks show.

### Sudden Death

The thoughtless public official who "fixes" a traffic law violation with the city judge for a friend, may be the innocent cause of a tragic death.

Cities and towns of the state are daily becoming more conscious of the fact that the persistent traffic law violator is a lethal enemy of society, whether innocently or not.

Traffic ordinances have been adopted by cities and towns and villages for the protection of their citizens, young and old. Included in these traffic laws is the regulation of pedestrian traffic—and these too, should observe the rules.

"Instead of traffic law violation fixing, our public officials and influential citizens should shame an offender when he comes to them and asks for such relief," Pierce Brooks, Dallas, runoff candidate last year for Lieutenant Governor, and President of the Texas Safety Council said. "These officials and public men are becoming daily more conscious of the constantly mounting death toll from automobile driver negligence, and failure of pedestrians to exercise ordinary safety. As a result 'fixing' is decidedly on the decrease and soon will be a forgotten art."

Those convicted in any court of a negligent collision, whether fatal or not, should have their license suspended and placed on the ground for at least twelve

months. It the accident is particularly inexcusable, they should be permanently grounded. Severe penalty, you may say, but even that will not bring back the life of an innocent child or another dear relative or friend.

### EAGLES DISPOSE OF FAIRVIEW, 8-6

For the second consecutive week a hit in the clutch by J. Corona of the Mexican Eagles won a Wichita-Archer baseball game Sunday. Corona's single in the eighth scored two runs to break a tie and defeat Fairview 8 to 6.

## Give You Texas

By Boyce House

Experiences in a tality have produced the most beautiful and the most profound thoughts of great writers. Shakespeare has Hamlet saying, "To die, to sleep—but in that sleep, what dreams may come?" In Holy Writ are found rich promises of another life; and, agnostic though he was, Robert Green Ingersoll—when he stood beside the bier of his beloved brother—declared, "In the night of death, Hope sees a star and listening Love can hear the rustle of a wing."

A philosopher exclaimed, "It would be no more miraculous that the dead can live than that the living die." Life is a miracle that none can understand; only immortality can give meaning to the events of earthly existence.

Mark Twain said that everybody talked about the weather but nobody does anything about it. Well, Jerry Sadler talked about the danger of numerous trucks on the highway Sunday, which is the only day that most of us private citizens get a chance to enjoy motoring, and then Sadler went ahead and did something about it. As a member of the State Railroad Commission, he caused an order to be written keeping trucks (except those handling perishables or doing emergency hauling) from stretches of the five principal highways in Texas. This action will reduce the toll of death and injury and has been applauded by the people generally. Several spokesmen of the truck industry have approved it and, though some modification may be necessary, those in the trucking business would be well advised to agree to the principle. After all, the roads were built by the people and the people have a right to use them in safety, particularly on Sunday which is, by religion

and law, a day set aside from business pursuits.

Newsboys are among the most interesting people to me. Of course, not all of them are boys; some are middle-aged, some are stooped and gray. A few are women—there is a blind woman in Fort Worth who chants alternately the headlines and passages from the Bible.

One newspaper vendor in Cowtown has long, curly, white hair, and a distinguished mustache. He occupies a folding chair and has the demeanor of a Congressman—or a demeanor that we think of a Congressman as having. Then there is another "newsboy" there who is the double of the late Andrew Mellon.

Several years ago, this chronicler wrote a poem about Fort Worth in which it was referred to as "the city of infinite noise." One reader commented:

"You don't mention the chief noises—the yelling of the newsboys. But then, I suppose, since you are a newspaper man, you didn't want to knock your line of business."

Truth to tell, I hadn't thought of the newsies' cries as noise. Their shouts are music to one who grew up amid the smell of printer's ink and makes a living rattling a typewriter in a busy newsroom.

If it were not for the newsboy, the reporter would gather his facts and write his stories in vain. And vainly the mats of the linotype would click and the big presses rumble, were it not for these patient heroes plodding through the ice of winter and summer's heat to place your paper on your porch or those others who cry their wares a hundred times to make a single sale.

Another favorite story (don't stop me if you've heard it).

A negro man, pursued by his angry wife (who was armed with a club), took refuge under the bed.

"Rastus, come out from undah that bed," she yelled.

"I'll not do it," he replied. "I'll show you who's boss around heah."

## Big Rabbit Creek

July 30, 1939

Just one month to the day Big Rabbit Creek was visited with ½-inch of rain. Friday afternoon from 1:35 to 2:15 p. m. there was a fine little rain for cotton and feed and also helped to fill the corn out some.

Mr. and Mrs. O. H. Darter, accompanied by his brother-in-law, a Mr. Tate and his son, who lives up near Clinton, Oklahoma, came down to visit his sister, Mrs. Darter, and her family. O. H. motored down to his farm Friday afternoon. He was very much elated over the crops, especially the corn prospects, that's growing on his Big Rabbit Creek farm. Mr. Tate informed Hawkeye that up in his part of the country that the crops are very poor, corn especially. What cotton and feed they have is so much later than it is down in this part of the state. He also stated that his country had hot winds and lots of sandstorms and but a very little rain.

Over a month past Tobe Hardin, Mrs. Martha Nails and her son, Charlie, left the Big Rabbit Creek community for Knox, Texas, to chop cotton for a Mr. Blair. They chopped out 500 acres and their work was done for Mr. Blair. They left for the Rio Grande Valley. When they arrived they found from 3 to 5 persons for every job, mostly Mexicans, so they beat it back for good old Big Rabbit Creek, arriving Wednesday. They motored down Thursday to the Owens family and spent the afternoon visiting. Sunday morning they left at 3 a. m. for Millburn, Okla., in the Eastern part of the state, to visit with her sister, whom she hasn't seen for over 16 years. They will be gone about three weeks before coming back to their old stomping grounds. After a short stay back home they will go back to Knox City to pull cotton.

J. E. Wood finished moving his several acres of cane for feed one day last week, getting it ready for be put into the bale some time in the near future.

Say, folks, when you think at any time it don't get hot down here on Big Rabbit Creek, just motor over to our quiet little neighborhood some day and see for yourself. Not a day of the past week that the temperature hasn't been a 100 or better. This morning the temperature is 97½ at 10:55 a. m.

Our esteemed manager of the Palace and Tex theatres over in Our Friendly Little City, Buck Zimmerman, motored over to God's country, Big Rabbit Creek neighborhood, where the jack rabbits and the coyotes are so fat from eating watermelons you can see them a distance of half a mile off. Buck drove over Tuesday. His call was very much appreciated by Hawkeye and the family.

As Saturday was another one of those awful hot days, it didn't have any effect at all to prevent thousands from attending the big trades day event over in Our Friendly Little City. It was almost impossible to get inside of those big stores to do any shopping, especially the big grocery stores and dry goods department stores. There were many hundred dollars spent in the city during the day and up till 12 p. m.

Lee Stafford and family spent part of Saturday evening and night visiting and hearing the Saturday night's program over Mr. and Mrs. Jess Kinnaird's new Silvertone Radio.

Fletcher Baber and John Ashton drove several head of their fine white faced cattle up to Ed Martin's home place and turned them in Ed's fine pasture last Tuesday. Ed has good pasture and plenty of good stock water from Big Rabbit Creek.

Mr. and Mrs. Joe Gloger motored over by moonlight to the Owens family residence Sunday night and visited several hours with the family. Mr. and Mrs. Gloger are old settlers in Our Friendly Little City, Burk Burnett, Texas.

One day this past week, while Hawkeye and his brother, Johnny, were cutting and nailing thistles, Hawkeye had the misfortune to get one of the stickers in his right hand and at this writing, his hand is in bad shape and is giving Hawkeye lots of misery and pain.

Hawkeye Owens.

## Gossett Demands Destruction of Farm Machinery Trust

On July 19, Representative Ed Gossett of this district introduced in congress a resolution requesting the Anti-Monopoly Committee of the congress to bring in a bill for the destruction of the farm implement and machinery trust.

Speaking in support of this resolution on July 27, Representative Gossett stated that a monopoly existed in the farm implement and machinery industry, that exorbitant, unfair, and unreasonable charges were made to farmers for such machinery, that the prices of farm implements and machinery had gone steadily up while the prices of farm commodities had gone down.

Representative Gossett entered into the record numerous facts and figures from a 1200 page report of the Federal Trade Commission investigation of farm implement and machinery monopolies.

"They stand convicted by their own testimony," stated Representative Gossett.

Representative Gossett continued: "Economic justice and fairness to the farmers of this country demands that we do something about it. The courts have been unable to break up the farm machinery trust under present laws. Legal proceedings were instituted against the International Harvester company in 1912 for a violation of the Sherman Anti-Trust Act. This case terminated in 1918 after running the gamut of the courts with little accomplished. The case was reopened in 1923, and again the International Harvester company escaped unharmful and continued its domination

of the farm machinery field." "The situation demands new and effective legislation in order to destroy this trust and monopoly that has for years preyed upon farmers of this country."

"A free and prosperous agriculture is essential to a free and prosperous nation. The farmers of America must not become economic slaves. When the farmers can sell for a fair price and when the farmers can buy for a fair price, Government subsidies will not be necessary. Let us hasten this day by the destruction of the farm machinery trust."

## TAYLOR'S POWERHOUSE MASHES RANDLETT, 17-7

The Burke Taylor's Service station entry of the Wichita-Archer league Sunday showed the power that won the first half championship by steam-rolling Randlett 17 to 7. Pitcher Scarbrough never had to worry since his mates clubbed Gordon and Alexander for four runs in the first two innings and always kept safely ahead, climaxing the rabbit-chase with three runs in the seventh, three in the eighth and six in the ninth.

## Hardin-Simmons University Plans for Golden Jubilee

Dr. J. D. Sandefur, dean of senior college and university presidents in Texas, completes thirty years as president of Hardin-Simmons University, in Abilene, as Hardin-Simmons makes plans to celebrate its semi-centennial or golden jubilee, in 1941-42. Erection of a new \$150,000 library building to house the university's general library and numerous outstanding collections, Sandefur, president of Hardin-Simmons since 1909, begins his thirtieth year as its head, in the fall. Insets show Dr. J. B. Simmons, late New York educator and Baptist pastor, and John G. Hardin, late Burk Burnett, Tex. philanthropist, for whom Hardin-Simmons University, established in 1891, is named. Buildings are Science Hall, top, and Mary Frances Hall, memorial girls' dormitory, below.
