**The Good Earth**

by MRS. R. F. COBB

Peace settles o're the garden. Shadows creep across the lawn. Flowers gently fold their petals To sleep until the wakening dawn.

Have you ever walked in the garden as evening begins to wane and noticed the flowers beginning to close for the night? Mimosa trees gently fold their leaves when light steals into the garden.

How like people flowers are; they arise all sparkling in the morning dew; then along about 10 o'clock in the morning until 3 o'clock in the evening their foliage droops and sags. Then late in the evening they are once more fresh and crisp and inviting, as the day cools, are fresh and sparkling early in the morning... and as the day lengthens our spirits start to lag. As the sun begins to drop behind the horizon we are once more filled with renewed zeal. Most all garden activity is now early in the morning. Water evaporates far less when applied early in the morning or late in the evening. Plants should never be sprinkled after the sun goes down for fungi spores grow and spread on damp foliage. Mildew and blackspot both attract wet foliage.

If one is not able to devote all their time to caring for flowers they can still enjoy the beauty of plants by growing them in pots, as does Mrs. G. F. Seago. Her front porch is graced by three benches of pot plants. Mrs. Seago has a rock flower box planted with several different varieties of flowers.

Along the south line of Mrs. Seago's yard is a very attractive flower bed of hollyhock, cannas, chrysanthemums, and daisies. The colors blend in beautifully in the bed.

Mrs. Seago has several varieties of pot plants and very graciously offered to share cuttings with Mrs. Strain, Mrs. Clare and I. We each took a start of Aloc Vera (the burn plant) to keep on our kitchen shelf in case we

should be burned by topping grease.

All of Mrs. Seago's plants are dark green and very healthy looking. She truly has a green thumb.

Haskell Garden Club members, now is a good time to start pots of perennials you wish to set in the garden this fall. Put the pots in the shade of a tree to shield them from this blazing sun. Daisies, perennial phlox and many other perennials can be started this month so they can be planted in the garden in September. They will be become established before winter.

**JUST FOR THE ASKING**

America's more than 211,000 "service" stations are so well named that we often take for granted the wealth of information and materials that are available from them, just for the asking. This summer, for example, service stations throughout the country will be on the job as friends in need to millions of vacation travelers. Station attendants will provide automobile tourists with road and weather conditions. They point out what to see, where to fish, where to hunt, where to eat, where to sleep, various church locations, recreation areas and other points of interest. They can provide town-to-town, city-by-city travel information, complete with state and regional maps. And, for the tourist who have strayed off course, or is just plain lost, the station attendant can often offer re-routing suggestions, taking the traveler back toward his planned destination with perhaps a few added side attractions.

Using up-to-date information provided by their respective oil companies, and state and local travel bureaus, service stations are top-notch, coast-to-coast travel guides for the American tourist. And it's all "just for the asking."

**Small Enterprise... Big Job**

In an age when big business seems to have become a necessity in government and industry... in fact in virtually any activity you can name... it is gratifying to find one place where size is not necessary to success and has no relationship to quality of service nor the importance of the enterprise. That is the hometown community newspaper.

A national directory of weekly newspapers reports that there are more than 8,000 "home-town" newspapers in the country. These newspapers reach approximately 32 million homes. While the metropolitan papers have been beset by circulation troubles, strikes and shutdowns, the smaller papers have been flourishing and enjoying steady circulation increases.

The thousands of smaller papers are a bulwark of independent thought, without them, there would be no freedom of the press. There would be no record of community life, no reporting of important community events, no expression of editorial views or opinions that gradually crystallize into public sentiment on issues of the day.

In fact, without the thousands of editors to give it meaning, the institution of a free press would wither and die and with it the freedom of the people. The local newspaper is a small enterprise that does an important job.

### Haskell's Jehovah Witnesses At District Meeting

Congregational activity of Haskell's Jehovah's Witnesses will be suspended this week as the entire group has been invited to serve as official delegates to the "God's Sons of Liberty" district assembly in Dallas, on August 3-7.

"All program sessions will originate at Dallas' giant new Market Hall," W. Clayton Short said. "The Dallas convention is one of ten set for the United States this summer, and our delegation will help make up more than 30,000 anticipated for the five-day event."

Short said several car caravans were being organized for the trip and that any interested Bible students wishing to attend the convention with the lo-

cal group may do so by making their needs known. "We are going to Dallas for Bible education and fortification," he said. "We are certainly living in critical times when the Christian's spiritual strength is being tapped constantly. We plan on the Dallas assembly to replenish and vitalize us spiritually."

Short added that the program will be bilingual to assist the many Spanish-speaking Witnesses making the trip to Dallas also.

A series of Bible-based discourses, dramatizations, symposiums and panel discussions will complement the total program. All local meetings will be held at the regularly scheduled time next week at Kingdom Hall.

## This We Believe...

BY THE WEINERT FOURSQUARE GOSPEL CHURCH

THE INTERNATIONAL CHURCH OF THE FOURSQUARE GOSPEL

### XVIII. THE FINAL JUDGMENT

We believe that the dead both small and great shall be raised up and stand with the living before the judgment seat of God; and that when a solemn and awful separation shall take place wherein the wicked shall be adjudged to everlasting punishment and the righteous to life eternal; and that this judgment will fix forever the final state of men in heaven or in hell on principles of righteousness as set forth in His Holy Word.

#### Scripture References Where Taught

<sup>1</sup>For we must all appear before the judgment seat of Christ; that every one may receive the things done in his body, according to that he hath done, whether it be good or bad. II Cor. 5:10.

<sup>2</sup>The Son of man shall send forth His angels, and they shall gather out of His kingdom all things that offend, and them which do iniquity; and shall cast them into a furnace of fire; there shall be wailing and gnashing of teeth. Then shall the righteous shine forth as the sun in the kingdom of their Father. Who hath ears to ear, let him hear. Matt. 13:41-43.

### XIX. HEAVEN

We believe that Heaven is the indescribably glorious habitation of the living God; and that neither the Lord has gone to prepare a place for His children; that unto this four-square city, whose builder and maker is God, the earnest believers who have washed their robes in the blood of the Lamb and have overcome by the word of their testimony will be carried; that the Lord Jesus Christ will present them to the Father without spot or wrinkle; and that there in unutterable joy they will ever behold His wonderful face, in an everlasting kingdom whereunto comes no darkness nor light, neither sorrow, tears, pain, nor death and wherein hosts of attending angels sweep their harps, sing the praises of our King, and bowing down before the throne, cry "Holy, holy, holy."

#### Scripture References Where Taught

<sup>1</sup>Eye hath not seen nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love Him. I Cor. 2:9.

<sup>2</sup>In My Father's house are many mansions; if it were not so I would have told you. I go to prepare a place for you. John 14:2.

<sup>3</sup>And there shall be no night there; and they need no candle neither light of the sun; for the Lord God giveth them light: and they shall reign forever and ever. Rev. 22:5.

<sup>4</sup>And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain; for the former things are passed away. Rev. 21:4.

<sup>5</sup>Therefore are they before the throne of God, and serve Him day and night in His temple; and He that sitteth on the throne shall dwell among them. They shall hunger no more; neither thirst any more; neither shall the sun light upon them, nor any heat. For the Lamb, which is in the midst of the throne, shall feed them, and shall lead them unto living fountains of water. Rev. 7:15-17.

### XX. HELL

We believe that hell is a place of outer darkness and deepest sorrow, where the worm dieth not and the fire is not quenched; a place prepared for the devil and his angels where there shall be weeping and gnashing of teeth, a place of grief and eternal regret on the part of them who have rejected the mercy, love and tenderness of the crucified Saviour, choosing death rather than life; and that there into a lake that burns with fire and brimstone shall be cast the unbelieving, the abominable, the murders, sorcerers, idolaters, all liars, and they who have rejected and spurned the love and sacrifice of a bleeding Redeemer,—passing the cross to their doom, in spite of every entreaty and warning of the Holy Spirit.

#### Scripture References Where Taught

<sup>1</sup>The Son of man shall send forth His angels, and they shall gather out of His kingdom all things that offend, and them which do iniquity; and shall cast them into a furnace of fire; there shall be wailing and gnashing of teeth. Matt. 13:41, 42.

<sup>2</sup>And the devil that deceived them was cast into the lake of fire and brimstone, where the beast and the false prophet are, and shall be tormented day and night forever and ever. And whosoever was not found written in the book of life was cast into the lake of fire. Rev. 20:10, 15.

<sup>3</sup>The same shall drink of the wrath of God which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb; and the smoke of their torment ascendeth up forever and ever. Rev. 14:10, 11.

<sup>4</sup>Then shall He say unto them: Depart from me, ye cursed, into everlasting fire, prepared for the devil and his angels. Matt. 25:41. And if thy hand offend thee, cut it off; it is better for thee to enter into life maimed, than having two hands to go into hell, into the fire that never shall be quenched; where their worm dieth not and the fire is not quenched. Mark 9:43, 44.

<sup>5</sup>As I live, saith the Lord God, I have no pleasure in the death of the wicked; but that the wicked turn from his way and live; turn ye, turn ye from your evil ways; for why will ye die, O house of Israel? Ezek. 33:11.

Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 79 proposing an amendment to Article VIII, Constitution of the State of Texas, by adding Section 1-d to provide that all land owned by natural persons designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article VIII, Constitution of the State of Texas, be amended by adding Section 1-d to read as follows:

"Section 1-d. (a) All land owned by natural persons which is designated for agricultural use in accordance with the provisions of this Section shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use. 'Agricultural use' means the raising of livestock or growing of crops, fruit, flowers, and other products of the soil under natural conditions as a business venture for profit, which business is the primary occupation and source of income of the owner.

(b) For each assessment year the owner wishes to qualify his land under provisions of this Section as designated for agricultural

use he shall file with the local tax assessor a sworn statement in writing describing the use to which the land is devoted.

(c) Upon receipt of the sworn statement in writing the local tax assessor shall determine whether or not such land qualifies for the designation as to agricultural use as defined herein and in the event it so qualifies he shall designate such land as being for agricultural use and assess the land accordingly.

(d) Such local tax assessor may inspect the land and require such evidence of use and source of income as may be necessary or useful in determining whether or not the agricultural use provision of this article applies.

(e) No land may qualify for in this Act unless for at least three (3) successive years immediately preceding the assessment date the land has been devoted exclusively for agricultural use, or unless the land has been continuously developed for agriculture during such time.

(f) Each year during which the land is designated for agricultural use, the local tax assessor shall note on his records the valuation which would have been made had the land not qualified for such designation under this Section. If designated land is subsequently diverted to a purpose other than that of agricultural use, or is sold, the land shall be subject to an additional

tax. The additional tax shall equal the difference between taxes paid or payable, hereunder, and the amount of tax payable for the preceding three years had the land been otherwise assessed. Until paid, there shall be a lien for additional taxes and interest on land assessed under the provisions of this Section.

(g) The valuation and assessment of any minerals or subsurface rights to minerals shall not come within the provisions of this Section."

### Haskell Man Shot To Death In Stamford

Murder charges were filed on Sunday against a 27-year-old Abilene man in connection with the fatal shooting of another Nero man, James Randle, 21, of Haskell, earlier Sunday at a cafe in Stamford.

Randle was shot with a 22-caliber pistol about 12:25 a. m. Sunday during an argument at Grigg's Cafe, Stamford police officials said.

Charged before Justice of the Peace Albert Story of Anson was Henry Grady Coleman of 2901 Fannin, Abilene, said Jones County Sheriff Dave Reeves. He was arrested in Abilene by Abilene police two hours after the shooting.

Coleman, who was first advised of his rights by Story, is being held without bail in Jones County jail, Reeves said.

Funeral for Randle was held at 3 p. m. Tuesday at the Hopewell Baptist Church here with the Rev. Otis Jackson officiating. Burial will be in Willow Cemetery under direction of Holden Funeral Home of Haskell.

Randle was born May 20, 1945, in Haskell, the son of Mr. and Mrs. Martin Randle. He was employed by Baird's Cleaners here.

Survivors include his parents; three brothers, Martin Randle Jr., Anthony Randle, Jeffrey Randle, all of Haskell; four sisters, Barbara Jean Randle and Sandra Fae Randle, both of Braly, and Jeanette Lynn Randle and Sheila Dean Randle, both of Haskell; his paternal grandparents, Mr. and Mrs. Adam Randle and his maternal grandmother, Mrs. Estelle Thompson, all of Haskell.

Mr. Havemann died Sunday in Stewart Nursing Home in Abilene following an illness of several years. He was a member of the Lutheran Church.

Survivors include three sisters, Mrs. Ike Shultz of 1529 N. 12th, Abilene, Mrs. Alfred Shultz and Mrs. Eddie Otto, both of Waco; and a brother, Fritz Havemann Jr., of Florida.

#### CARD OF THANKS

We take this means to try in some way to express our thanks and appreciation for the many things that have been done for us in this hour of bereavement in the loss of our Daddy and Granddaddy. We can't find words to express how much everything has been appreciated. For the wonderful food and the ones that prepared and served it, the beautiful floral offerings, and to Rev. H. H. Sero and Rev. Sheets for the messages. Mr. Holden, who was so kind and thoughtful, those who sat up at the funeral home, the ones who sang, also the pallbearers, and for every act of kindness we want to say "thank you." — The family of John Campbell. 31p

### GREAT PLAINS CONSERVATION PROGRAM CONTRACTS OK'D

Great Plains Conservation Program contracts for A. H. Becker, R. G. Foote, C. A. Wheeler and Charles Swinson, all of Haskell, have recently been approved by State Conservationist H. N. Smith, according to J. C. Yearly Jr., Work Unit Conservationist for the Haskell Soil Conservation Service.

Becker, whose farm is located 11 miles northeast of Haskell in the Mattson community, has 160 acres on which he plans to install a system of parallel terraces. He also will have a conservation cropping consisting of cotton, wheat and Austrian winterpeas in rotation; with the proper management of crop residues from wheat and winterpeas for soil improvement. Contour farming also is to be practiced.

Another farm of 160 acres owned by Becker and operated by Foote is located 10 miles north of Haskell in the western part of the Weinert community. Becker and Foote plan to construct a diversion terrace to intercept outside water entering the farm on the west, a grassed waterway along the south of the farm to receive water from the diversion, a system of parallel terraces, and 17 acres of Bermuda grass for hay production. A conservation cropping system consisting of cotton, grain sorghums and small grains or forage sorghums in rotation is planned along with the use of some high residue crops for green manure to aid in the improvement of the soil. Residues of sorghums and small grains not used for green manure will be managed to protect the soil from wind erosion.

The third contract approved is on 184 acres owned by C. A. Wheeler and operated by Wheeler and Chas. Swinson, located at the southeast corner of the Haskell town section. Wheeler and Swinson plan to install a system of parallel terraces and practice contour farming. A conservation cropping system of cotton, grain sorghums, wheat and winterpeas in rotation has

### 27 Fields In County Checked For Insects

The Cotton Insect Survey Team working in Haskell County has been checking 27 fields in all areas of the county, according to R. W. Schumann, County Agricultural Agent.

Although the cotton insect infestation has been fairly light until now, the survey team has reported an average of 25 bollworm eggs per acre this past week. These eggs should be hatching about now, says Schumann, and the team should be finding bollworms in damaging numbers this week. The boll weevil count has remained light, probably due to the uniform planting date this year.
