Mrs. M. Ragsdale New Manager Of United Gas Corp.

Women Taking Place Of Men Going To War

In spite of losing 700 men to the armed forces, United Gas Pipe Line company and associated companies are continuing to meet the needs of war industries and other customers by employing women. When the men marched off to war, the women marched in to fill the gap.

Mrs. Marlan Ragsdale has replaced Woody Carter as local manager of the United Gas Corp. in Burkburnett. Mrs. Ragsdale has been undergoing training for the past few weeks under Mr. Carter, preparatory to taking over when he was called to the service. Mr. Carter reported as apprentice seaman at San Diego, Calif., Wednesday.

At many company locations women have taken on such jobs as firemen, oilers or dispatchers after a training period under expert supervision. There are women chart changers, warehouse clerks, draftsmen, blueprint and photostat helpers, even an engineer, all on jobs formerly done by men.

Organizations such as United Gas Pipe Line company and its associated companies are essential to the war for the production, transportation and processing of natural gas and oil. Men can be deferred unless they are readily replaceable. This has not been done, however, except when the work of men is of such nature that they cannot be replaced within a reasonable time and when the loss of the men will mean an impairment in the operation of the companies.

Employment of women has been greatest in the offices where they are filling the jobs which formerly would have been taken by the younger men of the organization, such as in the accounting and engineering departments and the many other clerical jobs which are necessary in the work of supplying the Gulf South with Natural Gas.

Both the men and women employees of the United Gas Pipe Line company and its associated companies know that continued operation is essential to the success of the war effort. Natural Gas must flow steadily to the city gates and industries of the Gulf South area to make possible the ever-increasing flow of war material to our armed forces and to our Allies.

It still takes male pipeliners to operate United's more than 6000 miles of pipe lines, but "Take a letter, Miss Jones," no longer defines the scope of duties of women employees.

Sect Member Convicted Of Draft Evasion

Marvin Junior White, 21 of Vernon was assessed 15 months in the federal reformatory at El Reno, Okla., by Judge William H. Atwell of Dallas Monday afternoon in federal district court on a charge of draft evasion.

Young White's defense was that he is a minister for Jehovah's Witnesses, appointed to that work by "The Watch Tower Bible and Tract Society," which he said has been duly incorporated in Texas.

The same society, he related, outlined the territory in which he was to operate.

This was the first case ever brought before Judge Atwell in which a defendant's adherence to religious scruples of Jehovah's Witnesses resulted in a charge of draft evasion. The courtroom was almost filled with listeners, approximately 50 of them from the Vernon community.

In the other criminal case, Earl Nance, 33, was given a year and a day in the federal prison at Leavenworth, Kan., following jury conviction on a charge of having violated the Mann Act.

Early Diagnosis Campaign Planned By T.B. Association

Each year the T.B. Association carries on an educational campaign throughout the month of April. Pamphlets are available to be distributed throughout the city, speakers are to be made available to the service and study clubs who desire them, and a film is to be shown later in the month for the school children and others.

The public is not entirely aware of the facts as they are now understood about T.B. No one is exempt from the possibility of this dreaded disease. It may follow any other disease that leaves the body in a weakened condition.

Infectious cases easily infect others, and advanced cases are far harder to arrest than those discovered in the early stages. One of the greatest services the County Board feels that it can render to the community is to help people understand what is involved and to assist in finding cases during the early period of infection.

Dr. I. D. Russell, a new member of the Board, is in charge of arranging for speakers for the Clubs and other groups. Mrs. H. R. Hayes is in charge of the work in the schools, and Rev. DeVore is in charge of the publicity work.

Said Expectetus: Nature has given to man one tongue, but two ears, that we may hear from others twice as much as we speak.

BURKBURNETT, THURSDAY, MARCH 25, 1943

Official Table of Consumer Point Values for Meats, Etc.

WASHINGTON, March 24.—Point values that consumers will pay beginning next Monday morning, March 29, for meats, cheeses, fats and oils, and canned fish under the newest and largest wartime food rationing program were released Wednesday by the Office of Price Administration.

Examination of the "official table of consumer point values," which every seller of the newly rationed foods will be required to display in his store, discloses that meats-fats rations are relatively more liberal than the rations of processed foods.

The weekly allotment of 16 points per person, represented by red stamps in War Ration Book No. 2, compares with an average allotment of 12 points per person under the canned goods program. On a "per pound" basis, the point values of individual items under the meats-fats program are sharply lower.

Almost all popular meat cuts have point values of eight points a pound and less. Butter is assigned a value of eight points a pound and a similar value is given to all of the rationed cheese. All canned fish is valued at seven points a pound.

OPA officials emphasized that while the first point values under the new program have been set with the most careful regard to supply and consumer preferences, it is not possible to gauge these and other factors in advance with absolute accuracy. Adjustments will be made whenever they are indicated to be necessary by actual operations under the program.

A list of the principal items on the official consumer point table in terms of points per pound follows:

Burk Burnett . . . History

As revealed by the files of The Star 10 and 20 years ago.

10 YEARS AGO—

An entirely new feature will be inaugurated here April 1, the first trade day for the year, according to the committee in charge. The services of an auctioneer will be secured to sell any stock, farm implement, household goods, poultry, or farm products—anything the farmer wishes to sell.

W. P. Griffin was elected president of the Burk Burnett All-Stars at a meeting Wednesday night. The team has recently been entered in the Red River Valley League. Other officers are: Vice-president and treasurer, A. R. Hill; secretary, Horace Woods; manager, Sike Smith, assistant manager, Horace Woods; Sandy Fox, field captain; Johnny Pickrel and Mack Turner, publicity managers.

Burk Burnett will send six of the 13 delegates from Wichita County to a meeting of the Pan-American League which convenes in Dallas this week-end, according to Miss Norene Kirby, sponsor of the Wichita County chapter. The delegates from here are: John Ellis, Alberta Brannon, Maurine Goodwin, Joy Kirsh, Martha Kate Alexander, Margaret Boden. They will be accompanied by Mr. and Mrs. Dudley Ellis and Miss Kirby.

Oscar Frye Post of the American Legion honored two past commanders at its meeting last week when Post Commander H. R. Hays presented N. R. Vaught and S. E. Marchand with a gold watch fob bearing the Legion crest.

20 YEARS AGO—

A special election has been called for May 5th, for the purpose of voting on the adoption or rejection of a new charter for the city of Burk Burnett. The action calling the election was taken by the council in special session Tuesday afternoon and was in accordance with provisions of the charter requiring that the election be called by that body.

Representatives from Electra, Iowa Park, Wichita Falls and Burk Burnett Chamber of Commerce together with the County School Superintendents and principals of schools from all over the county, met in the office of the County Judge last Saturday morning to discuss the County Library possibilities as proposed by the local Chamber of Commerce.

Dr. and Mrs. W. H. Lewis of Wichita Falls are spending a few days this week with their daughter, Mrs. E. L. Blum, while en route from New Orleans, where Dr. Lewis has been taking a post-graduate course in his Alma Mater, Tulane University.

HARDIN GRADE SCHOOL NEWS

I. C. EVANS, Principal

Billy Bean spent the week-end visiting in Ranger.

Only four boys and girls in our room bought defense stamps last week. We bought \$2.75 worth. Up to the present time, we have bought \$83.75 worth. Some of our boys and girls have been buying stamps and bonds at the post office. Last week Joy Preston finished filling her defense stamp album and bought a bond at the post office. We are going to discontinue this practice and get our stamps and bonds at school from now on.

Annie L. Billingslea H-1.

Two of our pupils that moved away are back again with us. Bobby Ray Boydston has moved back from Amarillo and Robert Ensey is back from Wink.

The attendance in the room has been so much better this week. Wilma Loy Spivey is the only one that has been absent lately. She just doesn't seem to like school

well enough to come.

We are sorry that Betty Jo Bell decided to quit school this year. Since she is still in town, she needs to be in school.

We are also sorry to lose Derral Fooley who is moving away.

The following children made S all week in spelling: Leonard Gatewood, Harlan Hicks, John Powell, Bobby Whitney James Carver, Shirley Ann Garrett, and Wanda Moore.

Pauline Evans H 1-2.

We can almost smell spring in the air now, and we enjoyed the warm days so much.

One of our boys is moving to Electra and we surely hate to see him leave. Benny McHugh is his name. He is in our "Group One" in reading. We hope he is happy in his new home.

We had nine boys and girls buying "Savings Stamps" this week. Kay Morrison bought another bond.

THE OLD JUDGE SAYS...

"I can't think of anything else you'll need for your Victory garden, Judge... you've got pretty nearly everything."

"I think so, too, John. Ever get your asparagus patch going?"

"I gave that up last year, Judge. Tried it six years in a row with no luck. Just haven't got the right soil, I guess?"

"Well, I think you're wise, John... no use keeping on trying things you know won't work. Just like prohibition. State-wide prohibition has been tried in this country

seventy-two times in the last ninety years. It has been adopted forty-seven times in the past thirty-three years and discarded everywhere except in three states. Same thing was tried in eight provinces in Canada and in Norway, Sweden, Finland and Russia but it was an admitted failure and universally abandoned.

"The reason is prohibition does not prohibit. All you get is bootleg liquor instead of legal liquor, plus no end of crime and corruption."

WEEKLY NEWS ANALYSIS

Ration Orders Assure Healthy Diet; Nazi's Kharkov Offensive Recalls Drive That Preceded Collapse in World War I; Congress Ponders Postwar Security

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

The direction in which the Nazis launched their counteroffensive against the Russians in the Kharkov area is indicated by the above map.

WAR PROGRAM: Centralization Needed

Like doctors in a clinic, members of the senate's Truman investigating committee gave the progress of the war program a thorough examination.

First reason was "inadequate over-all planning within government agencies at the beginning of the various programs"; second was "contending authority over various phases of the war program"; and third, hesitancy of the government to adopt unpopular or unpleasant policies long after the facts indicated such policies were necessary.

HEALTHY DIET SURE

Americans tightened their belts in anticipation of the slimmer portions of meat, canned fish, butter, cheese and edible fats the new rationing regulations effective March 29 would impose.

To those who for months had been following the Food Administration's request to ration themselves voluntarily, the new estimated ration of about two pounds weekly of meat per person "more or less" represented only a slight shift downward.

All things considered, the new regulations would reduce consumption of the foods they covered by from 2 to 15 per cent. That supplies assured a healthy diet was emphasized by Food Administrator Wickard.

NORTH AFRICA: Axis Hopes Dimmer

Holed up in the Mareth line after having received a punishing beating Nazi Marshal Rommel has had to see the consequences of being ringed in by an Allied line of steel.

HIGHLIGHTS . . . in the week's news

CANBERRA: Diplomatic relations between Australia and Russia were brought closer together when Lord Gowrie, governor general of the commonwealth, received the credentials of the new Soviet minister, M. Vlasov.

NAZI OFFENSIVE: Same Result as '18?

Military historians were drawing parallels between the latest German offensive whose initial operations had hurled the Russians back in the Kharkov area, and the historic Ludendorff-Hindenburg offensive in July, 1918, which preceded Germany's final collapse.

As in World War I, this new offensive was undertaken after weeks of costly defeat. A major victory now was urgently needed—the same as 25 years ago, if the military gains resulting from invasion were to be held.

Whether the final result this time would be as rapid as before, time alone would tell. But it was clear that the Nazis had thrown in superior forces and equipment in a gamble to prevent a complete loss of their conquests.

Further north the picture was different. The fall of Vyazma had clearly proved that Nazi pressure on the Kharkov front did not prevent the Russians from continuing their advances toward Smolensk.

FARM DEBTS: Repayment Rapid

How farmers are using their war expanded income to set their financial house in order was indicated by a department of agriculture report, showing that more than 100,000 farmer-borrowers from the 12 Federal Land Banks had repaid their loans in full in 1942.

A total of \$303,000,000 was repaid by all farmers during the year and in addition they deposited \$21,239,169 to be used in paying future installments on land bank and commissioner loans.

SECURITY TO GRAVE: Security Plan Proposed

A postwar economy in the United States in which "freedom from want" would be translated from a pious theory to an operating reality was envisioned in a revolutionary social security plan drawn up by the National Resources Planning board and laid before congress by President Roosevelt.

Stating that it should be the declared policy of this government "not only to promote and maintain a high level of national production and consumption," the board's report urged:

1—Guarantee of a job for every man released from the armed forces and war industry after the war's conclusion, with fair pay and working conditions; 2—Government underwriting of full employment for all employables.

Among other recommendations were plans for joint private-government partnerships in various post-war industries; creation of a national unemployment compensation fund; increased old age benefits; expanded public works programs.

ANKARA: The elevation of Col. Gen. Rudolph Haarde to the post of commander in chief of German forces in Greece, Thrace and the Aegean area was reported here.

He succeeds General Stuntz who was reported to have died in a railway accident in Bulgaria in which sabotage was suspected. Haarde was described as a close friend of prominent Bulgarian military leaders.

TAX PLANS: Ruml Revived

Like the cat with nine lives, the Ruml plan to skip a tax year and put America's 44,000,000 taxpayers on a pay-as-you-go basis, was hard to kill.

Even though the house ways and means committee had approved a plan imposing a 20 per cent withholding levy from pay envelopes effective July 1 and making "pay-as-you-go" optional with each taxpayer, proponents of the Ruml plan, principally in the ranks of the Republican minority, had ranged themselves solidly behind a bill embracing the Ruml principles.

Sponsors of the house ways and means committee's tax program pointed out that the withholding levy would not be a straight 20 per cent deduction against wages and salaries, but against the portions of such earnings remaining after deductions were made on the basis of dependents. The levy would not be an additional tax, but merely a means of collecting actual taxes through wage and salary deductions.

LEND-LEASE: Diplomacy Weapon

Predictions that lend-lease shipments in the coming year would dwarf all previous records and that Uncle Sam would use it more and more as a means of obtaining agreements with nations receiving it for postwar security, were voiced by Washington observers, after the house and senate had approved extension of lend-lease for another year.

What eventual payment this nation will seek for its wartime aid to its allies and friendly neutrals remained to be seen. Two major principles were involved, however. One was the promotion of a stable economic situation throughout the world after the war. The other was the necessity of America obtaining additional naval and air bases to help prevent a recurrence of Axis aggression.

A report to congress by Edward R. Stettinius Jr., lend-lease administrator, disclosed that aid extended by the United States under the act aggregated \$9,632,000,000 in its first two years of operation. Mr. Stettinius reported Russia was allotted 29 per cent of all lend-lease shipments last year, including half of all tanks shipped and 40 per cent of all tactical planes.

CHINA AIR FORCE: Victory for Mme. Chiang

The labors of Madame Chiang Kai shek had not been in vain. One of the first fruits of her American visit and Washington conferences was the creation of a full-fledged U. S. air force command in China.

Hailed as the fulfillment of long deferred Chinese hopes this move indicated a sizable expansion of

MME. CHIANG KAI-SHEK . . . first fruits succeed.

American air power in the China war theater and a new phase in the war against Japan.

Under the new arrangement the newly activated 14th U. S. air force under command of Brig. Gen. Claire L. Chennault replaced the former China Air Task force. Famous as the trainer of the "Flying Tigers" which scoured Jap air invaders, Chennault with augmented manpower and planes would now be able to expand his operations greatly.

FRANCE: Patriots Fight

As repressive measures by the Nazis had failed to halt the underground revolt by French patriots against conscription into German slave legions, it became clear that this movement was well organized and had the leadership of key men in General De Gaulle's Fighting French forces.

As hundreds of thousands of youths were reported fleeing from their homes to escape conscription, the flareup of anti-Nazi sabotage and terrorism resulted in the wrecking of German troop trains, the killing of German soldiers and attempts to assassinate pro-Nazi French leaders.

PACIFIC FRONT

Over widely scattered fronts in the East, Allied forces continued their battles against the Japanese. One major action in the Pacific area was reported from China's capital, Chungking, where it was announced that the Chinese had driven the Japs back toward the Burma frontier above Tung-yueh in the Salween river area.

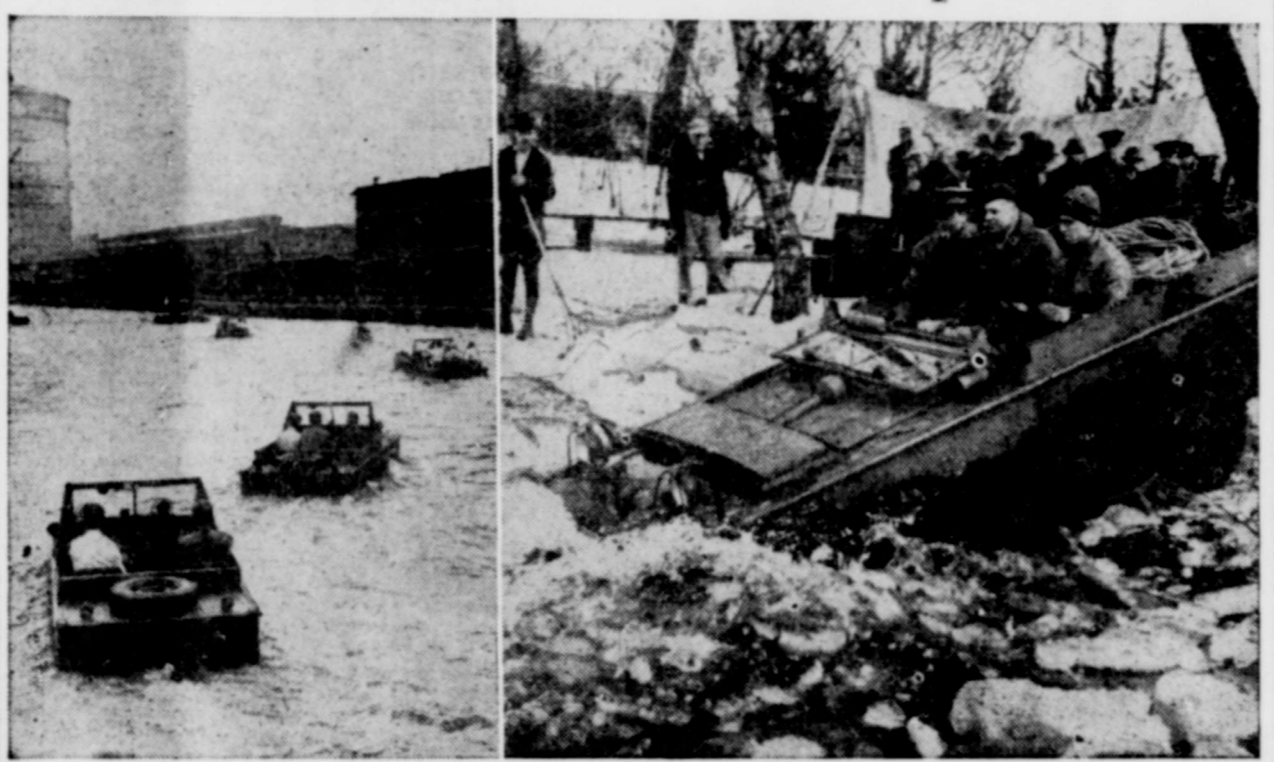

In the Solomon Islands area, American dive bombers continued their attacks on Jap-held Munda, important sea and air base.

After Nazis Hit Casablanca With 500-Lb. Bombs

American soldiers are shown filling a flooded bomb crater (left) after a Nazi air raid upon Casablanca, North Africa. Very little damage was done to military establishments, though the native quarters took quite a beating from the Germans' 500-pound bombs. At right, two stunned women sit amidst the ruins of their home in Casablanca. The bombs caused terrific damage among the flimsy houses. Inset: A native mother is shown with her six-year-old boy who, just before photo was taken, was removed from the ruins of his bombed home with scarcely a scratch. Both boy and mother took the affair stolidly.

Quarter-Ton Four-Wheel Drive Amphibian Car

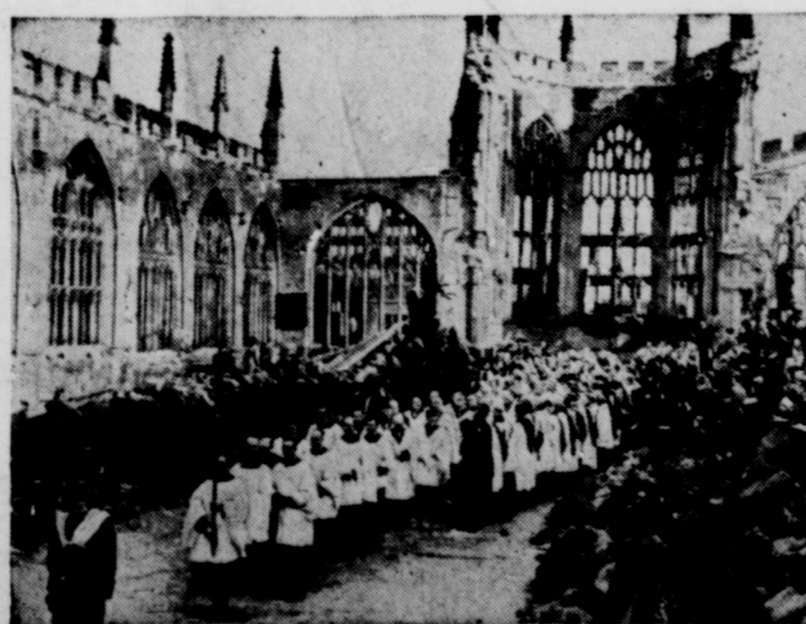

The most flexible new machine of the war, on land or in the water, is the new quarter-ton four-wheel drive Ford-built amphibian car, used by the U. S. fighting forces in war zones. With a carrying capacity of five men, the new addition to the army's transportation arm can plunge into water and propel itself as a boat, as shown in picture at left, where several of the new craft are undergoing various tests in the Detroit area. At right the amphibian is about to enter the water to do its stuff.

As SS President Coolidge Went Down

The SS President Coolidge, former luxury liner, was lost off a small South Pacific island after hitting a mine. While survivors look on (top) the great troop ship settles slowly beneath the surface. Below: Survivors used boats, rafts and their own power to reach the nearest shore. Of some 4,000 aboard, Capt. Henry Nelson, the skipper, said only two were lost. The 22,000-ton converted liner cost \$8,000,000 and was completed in 1931.

Installation of Bishop of Coventry

A view of the scene in Coventry cathedral during the procession marking the installation of the Right Reverend Neville V. Gordon as bishop of Coventry. The historic English cathedral was ruined by German bombs during the big air blitz of 1940.

Victory Pigs

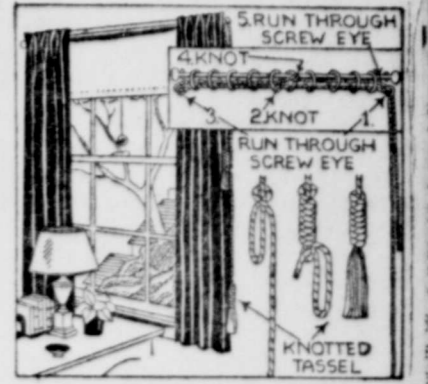

Gail Daly, student in agriculture and husbandry at the University of New Hampshire, is holding some little pigs as she gives them dinner via the bottle. A third pig does some foraging for himself in the hay. More girls than ever are taking this course in farming to equip themselves to help their country at war by taking the place of a trained farmer who is now shouldering a gun.

Here's Easy Way to Make Draw Curtains

IT IS easy to make draw curtains with the fixtures you have, plus a pair of large screw-eyes, some wood or brass rings, and about five yards of cord.

The screw-eyes are placed just under the hooks for the curtain rods; then run the cord through the screw-eye at the right; then through the rings, knotting it to the left ring at center; then

through the rings and the screw-eye at the left; and back through the rings, knotting it to the right ring at center.

Now pass the cord through the rings and the right screw-eye and then make the tassels; raveling the ends of the cord after making the knots. Sew safety pins to the back of the curtains so that they may be fastened quickly to the rings.

NOTE—The curtains shown here are from BOOK 1 of the series available to readers at 15 cents each. BOOK 1 also contains directions for making curtains for various rooms; also cutting and making directions for bedspreads, dressing table skirts and slip covers. Methodist Church News

April, Go To Church Month is being stressed in the classes, and through the work of the Board of Christian Education. It is expected that a number of the new families can be reached for Christ and the Church between now and Easter, with this special emphasis.

Federated Missionary Society is meeting at the Central Christian Brother DeVore will preach Sunday morning on the theme, "The Church Serves The World," and Sunday night from "The Churches of Revelation."

Mrs. A. R. Bunstine, Mrs. DeVore and Mrs. Melton have been elected delegates and alternates to the Annual Conference of the Women's Society of Christian Service which meets at Oak Cliff Methodist Church in Dallas, April 6-7-8. Attendance at the Christian Worker's Training School at the First Methodist Church, for the District, increased from night to

night, until it was well up to former years. Seven attended from Burkburnett. A very fine corps of teachers led the school.

In spite of the rain, a good attendance from over the district attended the Daily Vacation Bible School Institute held at the First Methodist Church on Wednesday afternoon. Mrs. DeVore is District Director of Children's work and invited representatives from 44 churches to attend this Institute. Mrs. Outman of St. Louis, who is teaching a Course in Beginner Work in the Training School, and Mrs. Kent of Waxahachie who is teaching a Course, "The Use of The Bible With Children" in the Training Class, assisted Mrs. DeVore in the Institute.

The Board of Stewards had an

inspiring meeting, with excellent attendance, Monday night. The entire work of the Church was reviewed and excellent reports were heard. Special Bulletins for Easter were ordered.

Brother DeVore is to preach Iowa Park next Tuesday. Burkburnett probably holds the record in the district with more than 70 enrolled to date this year in Training Classes. There is a hearty response to the class being taught each Wednesday on the "Origin and Growth of the Bible".

oint Per Pound feet (bone in), and

cut of beef—boneless k—has a point value

tioned foods, whether fresh, frozen, cured or smoked, and none of the foods involved may be sold or transferred without points.

The housewife is informed that the dealer will weigh and determine the point value of her purchase. If she then has the dealer "bone" or grind or "dice" an item, the point value will not be figured again. The customer is entitled to the bones since she has paid points for them.

The official list does not set a point price for rolled rib roasts—one of the more popular cuts of beef. OPA rationing officials explained that this type of purchase must be made with the rib in and points accordingly, after which the butcher will bone and roll the roast. The same applies to any other cut that is bought "bone in".

In addition to the consumer point value table, the meat rationing program provides a table of "trade" point values which lists hundreds of wholesale cuts in many cases, these cuts having different point values than the corresponding retail cuts on the consumer table to allow for shrinkage, trim, and waste. Each retail store will have a copy of the trade point values to guide his wholesale buying. A special table of point values for Kosher retail cuts also will be issued.

The definition of "hamburger" on the point table sets a precedent, in that it marks the first time that the federal government has undertaken to give specifications that retailers selling to consumers are required to follow for this popular type of ground beef. By reason of this definition, no ready ground meat may be sold for more than five points a pound.

Ground round steak, ground chuck, ground rump, or ground sirloin, for example, cannot be prepared and point "priced" in advance by a retailer after rationing begins. In other words, a housewife will buy any of these meats in whole form, paying the correct number of points and then will have them ground to order. This restriction applies similarly to ground veal and lamb, which are defined in the same manner as is beef hamburger.

There is no point value assigned to any type of ground pork (other than sausage) and, here again, the customer will pay points for a whole piece and have it ground to order.

In addition to the "ready-to-eat" meats—cooked, boiled, baked and barbecued—that are listed on the consumer point table, a footnote explains that the point value of any other "ready-to-eat" item must be determined by adding two points per pound to the point value of the whole uncooked item from which it is prepared, or three points per pound if it is cooked and sliced.

In the same manner a footnote under the values of butter, lard, and shortening explains that if a consumer buys in bulk of more than five pounds, she is entitled to use the slightly lower "trade" point values, rather than the consumer point values.

Because meat and cheese cannot be cut to the exact pound, the consumer chart contains a simple table of point values for ounces.

The left-hand column of this table goes from one to 16 ounces, while across the top are columns of one to 15 points. If a purchase of chuck roast, for example, came to three pounds, 10 ounces the point price would be computed by multiplying the per-pound value of 6 by 3, a total of 18, and adding four points as discovered by following the "10-ounce" line to the "6-point" column. The full "point-price" thus would be 22.

Any fractions of a point are dropped if less than 1/2 point; but if the fraction is 1/2 point or more, the dealer will collect a full point. Fractions of exactly 1/2 point on two or more items bought in a single purchase are added together.

As announced previously retailers will begin to collect red stamps from customers beginning March 29, but do not surrender points for their wholesale purchases until April 11. The purpose of this "point holiday" is to enable storekeepers to build up a point "working capital".

THE APPEARANCES AFTER THE RESURRECTION

LESSON TEXT—John 20:19-31. GOLDEN TEXT—I am alive for evermore.—Revelation 1:18.

The most important day in all history was the first day of the week following the crucifixion of Christ. Then He appeared to His disciples as their risen Lord. All the hope of all mankind for all eternity depended on His victory over death.

By eventide news had come to the disciples of His resurrection, and half in hope and half in uncertainty they had gathered to talk over these matters. Fearful of the Jews, they met behind closed doors. All at once He was there—the Lord Himself. What a wonderful change came over them as He made Himself known to them. They went

I. From Fear to Gladness (vv. 19, 20).

Their eyes had been upon their enemies and they were afraid. Now they "were glad, when they saw the Lord." We need to learn that lesson. If we look within we are ashamed and discouraged. If we look around us we are confused and fearful. If we look to Christ we are glad and strong.

Notice that their joy was not based only on an emotional impulse. They saw Christ in His resurrection body—the very One who had died. The evidence was there before them. Now they could understand the things He had said to them. The whole realm of spiritual truth was now in focus again, and they were glad. So are we when we really see Christ.

II. From Weakness to Strength (vv. 21-23).

The disciples who were called to be witnesses for Christ had lost their testimony when He died on the cross. Unbelief and discouragement had so weakened them that they were in hiding instead of being out proclaiming His truth.

Now the risen and victorious One sent them forth with the Father's blessing. They were empowered by the Holy Spirit, and given great authority (v. 23). Note that it was given not to one man or to the leaders, but to all the disciples. It was "a declarative right, and it belongs to every true disciple. Those who have received the gift of the Holy Spirit are in a position to declare to men that their sincere repentance brings forgiveness" (Douglass). The opposite is also true.

III. From Doubt to Faith (vv. 24-28).

Thomas, who had doubts and who cultivated them by his stubborn attitude (v. 25), did himself and his brethren a serious disservice by being absent from the meeting on the evening of the first Easter Day. When he did appear he had only doubts to contribute. Let those who make a custom of absenting themselves from the place and hour of service beware lest they do likewise.

His doubts were honest ones—and God always meets such questions, honestly and intelligently. When the evidence was before him, the heart of Thomas leaped the chasm from doubt to faith in one cry of complete devotion (v. 28).

It is significant that down through the ages many doubters have been won to Christ by the proof of the resurrection of Christ, which is by the testimony of historical scholars "the best authenticated fact in all history." The risen Christ stands before men today and says, "Be not faithless but believing." Many respond with Thomas, "My Lord and my God."

IV. From Death to Life (vv. 29-31).

Christ arose from the dead not just to show that He had power to do so, but as Paul puts it, "for our justification" (Rom. 4:25). The reality and dependability of the entire plan of salvation hinged on the return of Christ from the dead. Had the grave held Him, His claims of deity and of the ability to forgive sin would have been entirely discredited. Because He lives we shall live.

The experience of regeneration is therefore likened in Scripture to a passing from death to life (John 5:24). Thomas saw the Lord, and believing, passed from doubt to faith. We cannot see Him now, but we have the blessed privilege of believing and thus receiving life (vv. 29, 31).

This was the message which the now radiant and empowered disciples went out to preach. The book of Acts tells us how effectively they did it, and shows how much of their preaching centered on the fact of the resurrection.

The command and the commission was not to them alone, but also to all of us who believe in Christ. May God take out of us the fear of men, overcome our weakness, and send us out with renewed faith to make this life-giving message known to our fellow men.

Household Hints

Gold-trimmed china needs special care if the beauty of the gold is to be preserved. Wash the plates in water less hot than for ordinary dishes and always use a mild soap. Do not rub at gold trim more than is absolutely necessary. Rinse well and drain on rubber-covered rack or on towels. This will prevent chipping of gold-trimmed edges.

Stippling a floor isn't hard to do if you are your own decorator. Use a sponge with a flat surface and when your ground color is dry, take a piece of board and paint on it the stippling color. Then, press the sponge on the stippling color and then on floor. In this way you transfer the pattern of the sponge from the board to the floor.

Ukrainians Are Russians With Their Own Republic

The Ukrainians are Russians, and they have a republic of their own which is a constituent member of the Union of Socialist Soviet Republics. By origin, however, they differ from the "Great Russians," and they have their own language. Their land is one of the most fertile in the world; hence the German desire to conquer it.

Ukrainians were often in conflict with the Czars of Russia, but the disappearance of their native aristocracy has demolished most of their nationalism.

The revival was a success—but what shall we do now? Shall we just rest for another season and then put forth efforts to win others, or shall we keep the Revival Spirit going? There are many others yet to be won, and now is the best time to win them.

If each church member will pledge himself to the task of winning someone else, there will be great joy in many hearts as well as rejoicing in heaven.

Our attendance in Sunday School was around the 350 mark. Why not keep it climbing now? Each Sunday there are in Burkburnett, around 2500 people in no Sunday School. Surely enough of those could be reached by our Sunday School, Church, and workers to run our number far over the 400 mark.

I am sure many are interested in the visible results of the meeting. Here is the report. There were 27 saved—22 joined for baptism, nine by letter, making a total of 31 additions in all, with the other five who were saved yet to join.

The pastor expresses his great-

est thanks for all the co-operation of the members of the First Baptist church for their loyalty and work, and also to all other christians, some from every church, for their support in attendance and otherwise. Many from the other churches were very faithful and loyal in attendance.

We want you to remember you are always welcome to all of our services, and we pledge never to be antagonistic toward you, your church your denomination, for using the words of the son, "There is a place in the Ranks for us all." Thrice welcome.

THE CHURCH OF CHRIST

Presents A Lesson On "APOSTASY"

There is a question in the mind of some people as to whether or not a child of God can so sin as to finally be lost. There was no question in Paul's mind, for he continually warned the children of God against this danger. It matters not what a preacher may say about the matter for there are many well educated preachers who differ on the question. It is not a matter of wisdom against wisdom. There are many educated men who do not believe the Bible. The thing that counts is what God's Word says about the question. Preachers should be very careful to never so construe one passage of scripture so as to contradict other plain teach-

ings and passages of Scripture.

What does the Bible say regarding saved people and their possibility of sinning and being lost? Christ said, "If a MAN abide not IN ME, he is cast forth as a branch, and is withered; and they gather them and cast them into the fire and they are BURNED." Jno. 15:6. Paul said, "Ye are SEVERED FROM Christ, ye who would be justified by the law; ye are FALLEN FROM grace." Gal. 5:4. You cannot be cut off from something you are not attached to and you cannot fall from some place that you are not. Read the scripture carefully. Paul said regarding himself, "But I keep under my body, and bring it into subjection; lest that by any means, when I have preached to others, I myself should be a CASTAWAY." 1 Cor. 9:27. Peter said, "Wherefore, BRETHREN, give the more diligence to make your calling and election sure." 2 Pet. 1:10. Paul in writing to the church of God at Corinth said, ". . . wherefore let him that thinketh he standeth take heed lest he FALL." 1 Cor. 10:12. Paul wrote to Timothy that one could make SHIPWRECK of his faith or OVERTHROW his faith. 1 Tim. 1:18-20, 2 Tim. 2:18.

The grace of God cannot fail it is true, but we have access to that grace by FAITH. Rom. 5:1-2. God's grace will not fail, but WE may fail. Gal. 5:4. The faith of God's children overcome the world it is true, but we may lose our faith. 2 Tim. 2:18. Some people cannot understand these passages because they do not know what sin is. James said, "Each man is tempted when he is drawn away by his own lust, and enticed. Then lust when it hath conceived, beareth sin: and sin when it is fulgurn bringeth forth death." Jas. 1:14-15.

Read this carefully and see if there might not be a difference between the temptation, the lust, and the sin. To teach that one who is a child of God cannot sin so as to be lost puts a premium on sin. People who teach such things and believe such teaching
