**Garden Club Officers Installed April 13th In A Very Impressive Ceremony**

With the president, Mrs. E. L. Wyche, presiding, the Haskell Garden Club met Thursday, April 13th, in the community room of the Haskell National Bank, for the last session of the season.

Mrs. R. C. Couch, Sr., installed the following officers: Mrs. C. B. Rhea, president; Mrs. B. F. Cobb, first vice-president; Mrs. E. L. Wyche, second vice-president; Mrs. S. P. Kuenstler, recording secretary; Mrs. Ed Fouts, corresponding secretary; Mrs. Ed Hester, treasurer, and Mrs. Kenneth Thornton, reporter.

Mrs. Couch used a study of the Praying Hands by Albert Durer with an added touch of palmistry interwoven, to tell each officer her duties. She presented each officer with a crayola painting of the "Praying Hands" done by Mrs. Albert Barnett, a local artist. Mrs. Couch then included all members of the club in a brief summary: Our hands must be challenging to meet every new situation, seeking to find new ways to promote the work of the club, and compassionate as we seek to bring sunshine, beauty and cheer to those about us. She urged each member to: "Use the talents you possess, for the woods would be silent if no birds sang but the best."

The installation was very impressive. Mrs. Couch also installed the first officers of the club in 1957, when the club was organized.

Colors of yellow and white were carried-out for the char-

ter members table, favors and refreshment plates.

There were a number of lovely floral arrangements designed by club members. The centerpiece honored Mrs. R. C. Couch Sr., organizer and sponsor of the Garden Club and five charter members who are still active in the club. Mrs. W. E. Atchison, Mrs. Jetty Clare, Mrs. Morrell Dick, Mrs. Ed Fouts and Mrs. Raleigh Lemmon. To these ladies who have kept the flame of gardening aglow in our community these ten years, we give our sincere thanks, and in appreciation of their interest and hard work, a rose garden has been planted at the courthouse in their honor.

Mr. Ed Hester did a lovely iris arrangement honoring the Stamford National Flower Show Judges who have worked so diligently with the club in giving programs and judging our flower shows. Mrs. Lee Roy O'Neal did an all-green arrangement honoring the Haskell Garden Club and columnist, Mrs. B. F. Cobb.

Guests included Mrs. Herbert Boese, Mrs. Marvin Stanford and Mrs. Earl Stagner from Stamford and Mrs. W. P. Trice, Haskell.

Club members present were Mrs. Jetty Clare, R. C. Couch, Sr., Ed Fouts, Raleigh Lemmon, Ed Hester, S. P. Kuenstler, Lee Roy O'Neal, C. B. Rhea, Kenneth Thornton and E. L. Wyche.

Hostesses were Mrs. Kenneth Thornton, Mrs. S. P. Kuenstler and Mrs. E. L. Wyche.

The third week in April is Garden Club Week and the fourth week of April is "Operation Sparkle" ... the Haskell Garden Club will observe these by working at the Depot Museum, watering the shrubs and trees put out in March.

**Golden Wedding Anniversary Reception To Honor Mr. and Mrs. A. C. Pierson**

Mr. and Mrs. Alfred Carroll Pierson, of Haskell, will celebrate their Golden Wedding Anniversary with a reception Sunday afternoon, the twenty-third of April, from three until six o'clock at the Haskell National Bank (changed from the Magazine Club). The couple's daughter and her husband, Colonel and Mrs. James A. Isbell, will host the reception.

Mr. and Mrs. Pierson were married April 22, 1917, in Dallas, and lived for four years on a ranch near Aspermont, then moved to Haskell where Mr. Pierson joined the Haskell National Bank as bookkeeper and advanced through successive promotions to its presidency. He has been connected with the bank for 47 years.

Mrs. Pierson was born in Alvord, Texas and is the daughter of Mr. and Mrs. I. D. Killingsworth. The Killingsworth family came to Haskell in 1900. She attended school here and later attended C.I.A., Denton. Mrs. Pierson, like her husband, has been active in church and social affairs and for 35 years was organizer for the First Baptist Church and still serves as assistant organist.

Mr. Pierson was born in Haskell, September 18, 1895. He was reared here and graduated from Haskell High School with the class of 1915. He later completed his education at Simmons College, Abilene.

Mr. Pierson has been active in both civic and church. He has held just about every office in the Chamber of Commerce, including the presidency twice, is a charter member of the Lions Club and served twice as its president. He has also been active in other civic affairs. He is a Deacon in the First Baptist

Church and has taught a Sunday school class for more than 20 years ... a class which he still teaches.

Mr. and Mrs. Pierson had two children, a son, Alfred Carroll, and a daughter, Louise. The son passed away in 1945 at the age of 17.

The Pierson's daughter was married to a homesteader, James A. Isbell, a career Air Force officer, now a Colonel. They reside at Richards-Gebaur AFB, Missouri.

The Piersons have a grandson, James Carroll Isbell, and a great grandson, James Robert, of Denton.

Don't go near a "friendly" wild animal. Haskell's Junior Fire Marshals warn, if a skunk or fox or a chipmunk doesn't run away from you, don't touch, he may be diseased and undoubtedly will bite. Rabies, a fatal disease, can result.

A campfire should only be built in an area cleared ten feet across, advise safety-minded Junior Fire Marshals.

## "Hazards In Nature"

Safety has taken a new direction. We can't say enough for the accident prevention efforts in industry and for highway safety, but today our attention is directed toward a safety program called, "Hazards in Nature." Our elementary school children are learning to recognize poison ivy, being warned against eating unknown berries, or allowing friendly-seeming wild animals to come too close for fear of the animal being diseased, biting and causing rabies.

Some school classes are seeing actual sprigs of poison ivy, sealed in plastic envelopes and receiving pamphlets on how their parents can get rid of the pesky, poisonous weed. While the children are being told, "Leaflets three, let it be," their parents are learning how to yank out the vines or kill with sprays. It is another worthy chapter of the Junior Fire Marshal children's safety program, a public service of The Hartford Insurance Group.

We heartily endorse this teaching children when to love nature and when to leave her alone.

## HOPE IN A HUNGRY WORLD

Public opinion polls generally place such things as the Viet Nam war, the cost of living and racial strife at the head of the list of great issues that concern people the most. But one growing problem over-riding all others is that of world-wide population growth. Senator George McGovern of South Dakota, speaking on this problem, called it, "the most challenging crisis for the rest of this century," and he speaks with good reason. World population in the year 1887 was 1.3 billion persons. By 1957, just 70 years later, it doubled to 2.6 billion. By the year 2000, careful projections indicate a world population of 5 billion people must be provided with a minimum diet in order to exist.

In the matter of food production, the United States has become the shining hope of the world for the simple reason that it has demonstrated what modern technology can do to increase the productivity of the land. Free enterprise agriculture, coupled with revolutionary advances in the development and use of machinery, chemical fertilizers and pesticides, has produced dramatic results. In the forefront of the list of tools upon which we must increasingly depend to augment agricultural production are pesticide chemicals ... the wide variety of insecticides, fungicides, weed killers, rodent destroyers, and plant growth regulators available for safe use in food production, processing and marketing.

The United States, among the developed countries, faces the challenge of playing a decisive leadership role in helping teach two-thirds of the world's people how to produce enough food to feed themselves. Advanced agricultural techniques cannot be applied overnight in countries with vastly different eating habits, crop requirements and political systems. U. S. agricultural progress itself depends upon public understanding of our economic system of free markets and private enterprise. This system provides the incentives to create and apply the constant flow of technological developments on which we and the rest of the world's people depend for survival.

## Haskell County History

### 30 YEARS AGO 4 (April 23, 1927)

Plans for making the opening of the Municipal Park and Swimming Pool one of the outstanding celebrations of the year are being considered by the committee in charge, headed by Mayor F. G. Alexander and City Attorney French M. Robertson. Date for the opening of the park here has been definitely set for Friday, April 30.

Deputy Sheriff Ollie Kittley, of Rule, was in Haskell on business Monday.

Collection of approximately \$100,000 in delinquent taxes due the county will be undertaken by Vance Swaim, of Lubbock, attorney, specializing in the collection of delinquent taxes.

Plans have been completed for the District meeting of Lions Clubs from five cities in this section, to be held here Tuesday evening, April 27. Approximately 150 representatives are expected in attendance, from Albany, Abilene, Roscoe, Merkel and Sweetwater, including district officers of Group 4, district 2E.

Formal opening of the Clover Farm Store in this city, formerly the Atkinson's Food Store will be observed Friday and Saturday, and for this event the store is advertising a number of especially attractive prices on items in every department of the store.

"The town of Haskell, during the past year, has evidenced a more progressive spirit, and has made more concrete advancement in a visible business way, than any town of similar size in the state of Texas," was the comment recently of J. M. Wood, representative of a Rochester, N. Y., business house who regularly visits sections of the state. Mr. Wood's comment was elicited after he had noticed the many new residences built and remodeled recently, and the numerous improvements being made on business property in Haskell.

Selma Steinfath of the Irby school won first place in the Ready Writers contest, rural division at the district meet held in Breckenridge last Friday.

### 40 YEARS AGO (April 21, 1927)

The Texas Fox and Wolf Hunters Association opened their annual three-day hunt on the Sam Davis ranch between Haskell and Throckmorton, on Tuesday. Several hundred enthusiastic hunters were in attendance upon the meet, with blooded dogs and hounds from every section of the state. Two hundred and forty hounds entered the first chase Tuesday morning at four o'clock, with more hunters expected to arrive for the second day of the meet. Among those attending from Haskell are: W. M. Reid, C. W. Wilson, T. A. Payne, S. N. Neathery, C. O. Scott, Luther and Owen Tolver, Cliff Ammons and Reverends G. R. Forrester and H. R. Whatley.

According to announcement made this week, Haskell is to have a new drygoods store within the next few weeks. Messrs. Guy Mays and Ben Bagwell have leased the Hancock building on the north side

of the square and expect to have their stock and fixtures installed in time to open for business on May 1st.

Plans have been made and all arrangements are now practically complete for a Motor-cycle Race Meet on the Haskell County Fair Track in this city on July 4th, according to Henry Alexander, president of the Fair Association.

The past few weeks have been busy ones for Sheriff J. C. Turnbow and his deputies and they have been successful in confiscating quite a quantity of intoxicating liquor, whiskey, beer and wine in a number of raids made by them.

Mrs. R. C. Montgomery is in Graham this week, the guest of relatives.

Miss Marion Guest, student in McMurry College, Abilene, spent the Easter season with her father, Dr. O. M. Guest and family.

Editor E. B. Harris of the Rule Review was in the city Tuesday on business.

Miss Agnes Cox spent the Easter holiday in Dallas with friends returning to Stamford on Monday, where she teaches in the primary department of the Stamford schools.

### 60 YEARS AGO (April 20, 1907)

A petition was put in circulation yesterday evening recommending and endorsing the following gentlemen for election as the officers of the town of Haskell, For Mayor, R. E. Sherrill; For Alderman, A. C. Foster, R. C. Montgomery, T. E. Ballard, A. J. Smith and G. R. Couch. For City Marshal, Warren Fitzgerald.

At the election held Monday to determine whether or not the town of Haskell should be incorporated under the general laws of the state, the vote was more than three-to-one in favor of incorporation, to-wit: 134 for incorporation and 40 against incorporation.

The Haskell National Bank has just put in a Victor patent manganese steel safe with automatic time lock and of the latest fireproof and burglar defying construction.

For the information of those of our people who contracted for a railroad, I will state that nearly all the amount promised has been paid. Only one note of any consequence has not been paid the Wichita Valley in full. Most of the right-of-way has been paid. Some of it is not settled because the title is in the name of minor heirs, etc., and it requires time to get all of it adjusted. After enough has

## -THIS WEEK'S- SERMONETTE

Charles Scott, Jr.,  
Wesley Methodist Church  
CENTRALITY OF LOVE

Christian love has been rightly called the greatest thing in the world. For it binds us to God and to our fellow men. It's the law of life because it fulfills every law. "Owe no man anything, but to love one another; for he that loveth another hath fulfilled the law." (Rom. 13:8-10). Without love we do not really live, we merely exist, and the supreme reason for exalting Jesus Christ as Lord is that He perfectly embodies the love of God.

Jesus placed a high emphasis on love, Jesus showed us that love is the basic principle of human relations. "By this shall all men know that we are my disciples, if ye have love one to another."

So let's join all Christians in believing in the life of love. There is no alternative to it. We are not free to take it or leave it; our salvation depends upon it; Jesus commanded it; we must obey Him. God will conquer war by the love that works for peace. He will banish ignorance and prejudice by love that strives for truth.

### GOOD RECORDS SAVE TAX DOLLARS

Now that most of us have finally filed our income tax return for this year we are ready to forget about the task until 11:30 p. m. next April 15. The Internal Revenue Service says that good record keeping throughout the year can save you tax dollars at income tax filing time. If you plan to itemize your deductions on page 2 Form 1040 you should keep cancelled checks, receipts, statements and other data to support your deductions. Keep your records and your job will be easier next year.

been held back to pay for all this unsettled right-of-way there will be something like \$4,000.00 left to be distributed back to the proper parties at the direction of the Railroad committee. This money is now in the hands of the two banks here; and whenever the committee can have a meeting, and directs it paid back, checks will be given for it. Respectfully, R. E. Sherrill, Sec'y., R. R. Com.

Quite a large crowd of citizens met at the courthouse Thursday night on invitation of the Commercial Club, including a number of ladies, to again take up the matter of subscriptions to the capital stock of the proposed cotton factory.

## The Good Earth

By Mrs. B. F. Cobb

(By Mrs. B. F. Cobb)

How much a part of Haskell's history is the sight of Mrs. John Crawford pattering around in her yard. Her yard shows it has had lots of tender, loving care.

The Crawford home, like so many in Haskell, is blessed with lots of nice shade trees. Trees shed water and help plants to thrive in dry weather. Honey-suckle and wisteria twine their tendrils over trellises all around the house. Blaze and Tallisman roses add color to the front yard. Iris beds dot the yard, front and back. In the summer one can rest on the concrete bench, beneath large shady trees, and have a view of the side porch where Mrs. Crawford has many pots of house plants. These plants winter on this same porch which is converted into a greenhouse. A large concrete pool, in the back yard, is covered with water lilies. Large white lotus blossoms float among the lily pads.

The lawn in the south yard is from a plant the Crawford's found on one of their trips. I've never seen anything like it before, but the plant is beautiful, it blooms tiny yellow blossoms.

Mrs. Crawford paints when she can't garden. Her paintings are often done according to the

mood she is in. She shows lots of talent for one who has learned to paint so late in life.

I learned something new about rooting coleus in water. I let the cuttings to be rooted, stay out of the water for about 30 minutes to dry. They didn't wilt but very little. After the cuttings had been in the water only one day they had roots beginning to show. In three days the roots were two to two and a half inches long and very large and strong. I set the rooted plants in the soil on the third day. They didn't even wilt. I've never had any root plant so fast. I always let water set over night before using it to root plants in.

Thanks to the Haskell Garden Club for the arrangement honoring me because of my writing this column. I'm afraid I do not deserve it. Sometimes when I see the mistakes I've made, I almost quit writing; then some "shut-in" phones and tells me how they see beauty through this column. I am filled with

new zeal to paint words so vivid they can have a picture of the year scribble.

Mrs. Carlton Couch added a new attractive yard - a bird bath and a cherub, pansies and a circle at the base of bath. Towering trees, Cedar waxwings, pike and Carlton a brief view

## LEAFLETS THREE - LET IT

Spring is bustin out all over but it blooms with other beauty.

Local school children are learning about the hazard nature in a new chapter of the Junior Fire Marshal program. The program is sponsored by The Hartford Insurance Group, and this agency in cooperation with school and fire officials. In this spring chapter, children learn to recognize poison ivy (leaflets three-let it bloom) to eat unknown berries; to avoid pets and wild animals acting in an unusual way. The latter is for protection against a rabies-causing bite. Rabies is a killer.

We ask your support in this part of the program by telling your children when to love nature and when to leave her alone.
