## WKY's New Steel Radio Tower

One of the tallest structures in the southwest—it is sixth tallest man-made structure in the world—is a new, steel radio tower owned and operated by WKY, NBC affiliate in Oklahoma City, Okla.

The tower is 915 feet tall, two times as tall as Oklahoma's tallest skyscraper. A can standing on top of the tower, given perfect weather conditions, could see 80 cities in central Oklahoma.

The tower is so tall that on murky days, or days when clouds hang low, its top cannot be seen from the ground. It is marked on all air maps, a welcome aid and a warning to all aviators flying within miles of Oklahoma City.

## Revival Meeting Begins July 22nd At Valley View

A revival meeting starts at Valley View on Sunday, July 22. Everyone is invited to attend. Services will be conducted by C. D. Mullins of Burkburnett and the Rev. Head from Walters, Oklahoma.

C. D. Mullins, Pastor.

## Oklahoma Rites Held For Burk Resident

Services were held Sunday at 3 p. m. in Randlett, Okla., for Ralph Witherspoon, 59, resident of Burkburnett who died Friday afternoon in Wirt, Okla., at the home of his sister, Mrs. R. E. Curwood.

Interment was at Randlett Cemetery under the direction of Owens & Brumley Funeral Home following the rites at the Randlett Baptist Church.

Included in the survivors are two other sisters and a brother.

## Veterans' Readjustment Allowances Under

### "G. I. Bill of Rights"

For Further Information Write Texas Unemployment Compensation Commission, 723 Tenth St. Wichita Falls, Texas.

**Title 1 Provides:** Care in hospitals or facility of veterans who are disabled or sick, irrespective of whether or not such disability or sickness was in the service of the military or naval forces.

**Title 2 Provides:** Education, refresher or training course in any accredited school of the veteran's choice, at Government expense. Up to \$500 is paid for tuition and books and \$50 per month if no dependents or \$75 per month if dependents for subsistence allowance.

**Title 3 Provides:** Guarantee by the Federal Government of not more than 50 per cent of a loan for the purchase or construction of a home, purchase of a farm, stock or equipment, purchase of business property or loan for private enterprise. The total amount guaranteed by the Government, however, may not exceed \$2,000.

**Title 4 Provides:** A special Veteran's Employment service by establishing representatives in the United States Employment Service offices to assist in securing employment for unemployed veterans.

**Title 5 Provides:** Weekly or monthly readjustment allowances (unemployment insurance) for unemployed or self-employed veterans. It is administered by the Unemployment Compensation Commission of Texas, and is the subject of this booklet.

**Readjustment Allowances For World War II Veterans**

Title V of the GI Bill of Rights (Servicemen's Readjustment Act of 1944) provides for readjustment allowances (unemployment insurance) for unemployed veterans of World War II after they are discharged from the armed forces.

The Veteran's Administration has entered into an agreement with the Texas Unemployment Compensation Commission for the administration of the readjustment allowance provisions of the GI Bill in Texas.

(Continued next week.)

## TSCW Honor Roll

SPECIAL to the Star—Miss Mary Anne Danforth of Burkburnett is listed on the honor roll of Texas State College for Women, Denton, for outstanding work during the second semester of the past regular session, Dean E. V. White announced this week. She received a letter of congratulation from the TSCW dean for her excellent scholarship.

She is the daughter of Mr. and Mrs. B. Danforth and is majoring in English.

## Former Burk Woman Died At Ft. Worth

Mrs. E. C. Myers, 70, of 937 East Mulkey, Fort Worth, died at her home after a three weeks' illness.

She was a member of the Holy Name Catholic Church. Surviving are her daughter, Miss Marie Byers of the Mulkey street address; a brother, James J. Logue of Clarksburg, West Virginia, and 11 nephews.

Burial was in Greenwood Cemetery, Fort Worth. Mrs. Myers had made her home in Fort Worth for the past 12 years, following the death of her husband in Burkburnett. Mr. and Mrs. Myers made their home here for 15 years, where Mr. Myers was an employee of the Magnolia Company. Their home was at Stringtown, West of Burkburnett.

## Rabbit Creek Revival In Progress

The Revival meeting at Rabbit Creek, which began last Sunday night and scheduled to run for fifteen consecutive nights, is already experiencing God's blessings.

A very nice crowd turned out for the opening night and we wish to thank the Lord for their presence.

The attendance there was somewhat smaller on Monday night, but praise the Lord, it will be a never forgotten incident for one soul who was saved.

We are so glad that in these evil days of money making, and drowning of the souls of men, that we can still find those that are hungry and thirsty for the blessed word of God, and to find God's way of Salvation. (The way of the Cross.)

The woman that found Christ as her Savior has been walking two miles to attend the meeting. Surely it is a God given privilege for the speaker to drive 10 miles from Burk, to bring the Gospel to souls like this.

We wish to thank our friends here in Burkburnett who have been attending these meetings and giving of their talents; may God richly bless them for it.

An urgent invitation is given to all in this vicinity to come to this revival.

Bill Monson, Preacher.

## Thomas E. Walker Funeral Services Held At Randlett

Funeral services were held for Thomas Edgar Walker, 70, a former resident of the Randlett community, Thursday afternoon (today) at the Methodist Church in Randlett, Okla. Rev. McBride of Walters, Okla., officiated.

Interment was in the Randlett cemetery, under the direction of the Owens & Brumley Funeral Home of Burkburnett.

Mr. Walker was employed with the Douglas Aircraft Company in Wilmington, Calif., at the time of his death. He resided East of Randlett until three years ago when he moved to California.

Pallbearers were Claude Thompson, Odell Hooper, Bill Stripling, Wylie Sanders, and J. L. Thompson.

Survivors include three daughters, Mrs. W. P. Bentley, Wilmington, Calif.; Mrs. Fred C. Hunt, San Pedro, Calif.; and Mrs. J. C. Sanders, Lone Pine, Calif.; four brothers; a half-brother, and three sisters.

## FROM NEW MEXICO

July 12, Artesia, N. M.

Burk Star Staff and Readers:

Here we are way out West and each week we look forward to our reading the Star and believe me, we read it from cover to cover. So please readers put your news in the Star. We feel like we are still part of Burkburnett and love the people there. And we sure do like to read what's going on.

We are very successful farmers now, looking at our nice corn and cotton, we feel like we are, anyhow. We also feel we are very lucky too, as it came a big hail about 3 miles from us, and ruined all gardens, corn, cotton and feed.

I know you are tired of this chatter, so I'll ring off, adding, we still love Burkburnett and miss all of you.

Sincerely,  
The Lorangs,  
Box 231, Artesia, N. M.

## Fuzz Floats Off

Those who'd like to eat their peaches whole sometimes—if it weren't for the fuzz—might do a Westinghouse home economist loes: Dip peach in pan of boiling water for just an instant, and watch the fuzz float to the top.

## Legion To Hold Joint Memorial Service Aug. 12th

Members of the local American Legion would like to get the names of all members of the armed forces from the Burkburnett area that have paid the supreme sacrifice.

These names are needed for the purpose of holding a joint Memorial service on August 12. Please turn in names at the Burk Star office, H. D. Mabry, at the Famous, R. P. Thaxton at Thaxton Hardware, or J. T. Brady at the Post Office.

## C. of C. Sponsoring Scout Troop 155

At a called meeting of directors of the Chamber of Commerce Monday night those present voted unanimously to sponsor Boy Scout Troop 155, which has been sponsored by the C. of C. for the past several years.

Dr. Carl Morrison, chairman of the Civic Affairs committee, presented a recommendation passed by his committee that the Chamber of Commerce continue to sponsor this Troop, and also presented a list of committeemen to carry on the work. Both were accepted by the directors.

Following is a list of the committeemen:

Dr. Carl Morrison, Committee Chairman.

Harry Dodson, Advancement and Training Chairman.

Dave McNeill, Transportation and Camping Chairman.

Parent Contact Man and Chaplain, Rev. P. G. Hightower.

Homer Garrett will continue as Scoutmaster of this troop.

Assistant Scoutmaster will be selected in the near future.

## Rotary Club

Gerald Smith was the only member absent at the regular meeting of the Rotary Club Tuesday noon.

Sid Gamblin was in charge of the program and introduced his little daughter, Sidney, who sang "Mother Machree" and "Meet Me in St. Louis," accompanied by Blanche Butler. After the solos, Sid introduced Harry Creel, an employee of the Skelly Oil Co., who made a very interesting talk on "The Manufacturing of Gasoline."

Morris Bookbinder will have charge of the program for next week.

## Scout Troop 35 Enjoying Outing

Thirteen members of Scout Troop 35 of Burkburnett have been enjoying a week at Camp Perkins, Southeast of town.

Excellent meals are prepared and served at the new screened in mess hall by experienced cooks. Sunday's dinner menu included baked ham, salad, potatoes, sweet milk and ice cream. Cleanliness is the watchword at all times.

Swimming is permitted only under the watchful eyes of competent instructors who teach non-swimmers how to swim and give instructions to beginners and advanced students.

Other activities include row boating and canoeing under instructors. Everything is supervised.

## Thrift Baptist Church Revival Progressing

Increasing interest is being shown in the revival meeting at Thrift Baptist Church, which began last Sunday and goes through Sunday, July 29th. Rev. Norman Sanders of Wichita Falls is the evangelist. Song services are conducted by Rev. Haskell Beck pastor of the church.

Prayer meeting is held each night before the regular service. Evening services begin at 8:45. Morning services at 10 o'clock.

Friends from Burkburnett and surrounding communities are cordially invited to attend the services.

## Safety First

## Rites Read For Etier Infant

Funeral services for Stanley Thomas Etier, three months old son of Pvt. and Mrs. Troy L. Etier, were held at the Owens & Brumley Chapel Friday, July 13th. Rev. Ray C. Morrow, pastor of the Calvary Baptist Church officiated. Interment was in the Burkburnett cemetery under the direction of the Owens & Brumley Funeral Home.

The baby died in a Sheppard Field hospital Thursday, July 12. Survivors include the parents, the grandparents, Mr. and Mrs. Ira Hullum, and Danny Hullum.

## Lions Club

Tuesday night a good percentage of the membership was in attendance, however, it is still possible to have 100 per cent in actual attendance. The program was in charge of Homer Gilbert and Harliss Goodwin. Harliss presented Miss Betty Jane Richardson, who sang two songs, accompanied by Miss Janice Caffee, club Sweetheart, which was appreciated very much. Next Homer Gilbert presented his nephew, Pfc. Clarence Winston Gilbert, just back from overseas duty in Europe, who gave an interesting talk of his experiences, later displaying a table covered with souvenirs, all of which was very interesting.

Visitors were Henry Grace, Maurice Stephens, S. G. Waggoner and Gus Hecht all of the Wichita Falls Club.

Program next week will be in charge of Lions Harrison and Hicks.

Lions on the scrap paper pick-up for next Friday are: Cruce, Dodson, Douglas and Dodson.

## New Shoe Stamps Valid In August

The new shoe ration stamp that OPA announced would become valid August 1, 1945, will be Airplane Stamp No. 4 in War Ration Book No. 3, the agency said. Airplane stamps Nos. 1, 2, and 3 are good indefinitely, OPA added. The last stamp was validated November 1, 1944. OPA pointed out that the intervals between validation of stamps depend on the available supply of shoes.

## SUGAR SHORTAGE FOR CANNING

Sugar is a strategic food and with a stricter rationing for commercial uses and a lower supply for home users, including their canning sugar, the supply will be less than last year and probably remain so through the summer. Government controls say the canning program for sugar last year was too easy since it resulted in an over-drawal of 300,000 tons. Perhaps we had figured with the 500,000 tons of sugar coming from the Philippines, as stated by government agencies, that sugar would be more plentiful, but along comes news that the Cuba crop was not as large. Bakeries and manufacturers of soft drinks will especially feel the pinch and restaurants will watch their bowls too.

## PEACE RUMORS

There is little doubt we will continue to hear rumors of peace with Japan until the war is at an end. We have come through enough to discount many of the tales we hear of Japan's peace offers. The plight of the Japs, destruction of their cities, shows the doom in sight, but many seasoned fighters of our own land say it will not be over soon. The purpose of seeking peace by putting out feelers has been the report. There will be negotiations and meetings to decide the fate of the conquered, but it has not come yet. We must not be overly optimistic when we hear of peace terms. Rumors of even little importance, can effect war production at home. It is well to remember that more than 30 actual overtures for peace were made before an armistice brought World War I to a close.

## BETTER HEALTH PROGRAMS

Sanitation and immunization through Boards of Health have brought about a lot for communities but what is to be said of the health programs of a country such as ours when More Than Twice The Number of Men Who Served Abroad, Were Declared Unfit For Duty as Soldiers. That is between 8 and 9 million. The Army is credited with doing a splendid job in caring for the soldiers physically, but there are many men, women and children who are not included in any Army health plan. A national health survey in 1935, found more than 23 million people had a chronic disease or a physical disability. We may be further advanced in public health service than European countries but in a land where we brag of our living conditions, we aren't up to scratch. We have more autos than bathtubs. 10 million live in communities where sewer extensions are needed and more than 2,800 incorporated towns have no form of sewage treatment.

## Burk Burnett . . . . History

As revealed by the files of the Star 17 years ago.

A white man about 40 years of age, giving his name as W. H. Bennett and his home as Vernon, was arrested Monday evening charged with attempting to pass forged checks.

There were two checks involved in the case. One was made to the Caro Motor Co. for \$10, bearing the signature of A. O. Williams, which he tried to get cashed at Piggly-Wiggly and at the Majors Variety Store. The other check was drawn on himself and bore the signature of A. O. Allen. This also was for \$10. Vaughn's Garage and the Burk Burnett Pharmacy turned it down.

Suspicion pointed to the man, he was taken in custody by Constable Sanders. Waving a preliminary trial before Justice H. I. Johnson he was taken to jail at Wichita and is being held subject to the action of the Grand Jury.

The man was accompanied by a man some years younger than he, who was not made to figure in the case.

It is with a great deal of regret that the editor announces that Mr. Walt Worley serves his connection with the Star, Saturday, after about ten years as foreman of the mechanical department; five years of which was spent since the present owner took charge. Mr. Worley is an all-round newspaper man and his association has been agreeable to the extent of cementing a friendship with the publisher that is prized very highly. He is a man of high moral character and a

printer of unusual ability. He expects to take an extended rest at his home in Bowie before going back to the printing game. Mr. Worley has many other friends in the city who will regret to learn of his leaving.

About one hundred farmers of the city's trade territory and local merchants and business men are promoting a movement to organize a Farmers' Co-Operative Gin Company in this city this week.

A meeting was held Thursday night for the purpose of perfecting the details as to officers, plans and the completion of necessary funds to buy or build a gin in Burk Burnett soon; and in time to take care of ginning of the coming cotton crop.

About \$11,000 worth of stock had been sold late Thursday evening following the general canvass of the business men of the town. The greater portion of this sum has been donated by the farmers of the surrounding district.

Mr. and Mrs. B. L. McDonald returned Tuesday from Lott where his sister, Miss Jimmie Ballard was married to Mr. Dudley Gibbs of Manning, Monday at 6:30.

Miss Mary McGinnis, who has been a summer student at the State Teachers Normal in Canyon, Texas returned home this week, and is reported ill at her home on East Fourth St.

## LOOKING AHEAD

BY GEORGE S. BENSON  
President—Harding College  
Scottsboro, Arkansas

### China's Future

Farmers in the United States made up 72% of the whole nation's population back in 1820. That was just half-way between the invention of the iron plow and the mechanical reaper for small grain crops. Only 23% of our people live on farms now. China still has the "good old days" if you like that kind. Some 80% of her people are farmers even yet.

If an American farmer's hired man earned 50¢ a day in 1820 he had to be a good one. The farmer was not to blame. In order to pay better wages he had to get better prices for what his hired man produced, or manage some way for the worker to produce more. Even then both developments had begun. The plow and the reaper improved farm income and farm wages also.

**Supply and Demand**  
Using improved machinery one workman could do the work three had done with crude tools, so two out of three farm hands eventually quit the farm. Some of them went to work at transportation, taking farm products to cities where there were quick markets. Others got jobs in factories making desirable things to sell to the farmers who, by this time, had quite a little money to spend.

The two farm workers out of three who left the farm did not quit using farm products. Wherever they worked they bought and consumed farm produce, also made more profitable work for people in transportation. This is a simple outline of the growth of American prosperity, and it is a rough sketch of what must take place in China, starting after the war, if China is to prosper.

**A Unification Plan**  
High-brow students of political economy talk about "social, political and economic unification of China." Those are 35-cent words, trying to say that China is all broken up and needs to be made one. Nothing that is broken can be welded again until the pieces are brought close together. China's dismembered parts need to be brought close together; close in time; close in spirit.

China already has everything needed to live well: livestock and grain, timber and fiber, coal and oil, iron and copper. China has supply and demand also—450 million people anxious to earn more and live better. One trouble is, there are 360 million farmers when 12 million with good tools would be enough. There is much other work to do: ore to mine, timber to cut, roads to build.

**Hidden Treasures**  
Roads will bring the empire's far-flung segments near in time. Business dealings will create mutual confidence and make China's remote tribes close in spirit. There is money in the Orient—most of it hidden, but it's there. More, much more will come from other lands as soon as investors learn of the empire's rich resources and great markets. Only fear of robbery and fraud can keep it away.

These fears can be removed by a strong central government, able to maintain order and security for investment at home, and able to command the respect of other world powers. Chiang Kai-Shek has promised these things for postwar years and rebel rulers already are learning to trust him and work with him. The United States should help him, for China is America's natural ally in the East, for mutual profit in time of peace and mutual protection in time of war.

Miss Velma Wood returned to her home in Tulsa, Texas, after a visit with her sister, Mrs. E. W. Roderick.

Two young men, John Harris and Carl Pirtle of Randlett, Oklahoma were slightly injured Wednesday evening about 7 o'clock when the Ford roadster in which they were riding collided with the engine of the M. K. & T. passenger train, No. 63 at the Eighth street crossing in the northern part of the city.

Harris received a cut above the left ear and minor body injuries; Pirtle was cut on the back of the head and bruised on the left side and shoulder. They were given first aid treatment by a local physician; neither was considered seriously hurt.

According to a report of the accident, Pirtle was driving the car and did not see the approaching train in time to avoid the collision. He applied his emergency brake but before he could stop, the car sideswiped the engine.

**The Texan's Share in the War**  
Texans, whose forefathers more than 100 years ago carved tradition with outnumbered swords on the bitter battlefronts of San Jacinto and at the Alamo, are writing a new page of bloody history in the war against Japan.

The gigantic part which Texans are playing in World War II was stressed this week in an official statement issued by the Navy. It said:

"Navy records tend to bear out the Texas' claim that the state has sent, on a percentage of population basis, more men and women to the naval forces—the navy, marine corps, and coast guard—than any other state in the union.

"This is attributable largely to the fact that so many thousands of Texans volunteered prior to and early in the war.

"Since December 7, 1941, a total of 134,396 Texans have gone into the navy as enlisted personnel. This figure does not include 11,400 officers, the groups enlisted through V-5, V-12, and naval ROTC units and more than 3,000 WAVES, SPARS, and women marines.

"Texans in the United States marine corps number 19,570 enlisted men and 322 enlisted women, and a total of 1,960 male officers and 27 women officers.

"In the coast guard, Texas has sent 1,245 enlisted men, 229 enlisted women, 294 male officers and 20 women officers.

"A roster of the marine corps shows that nearly 12 per cent of the entire corps are from Texas.

"Of the marine garrison captured at Pegin, China, Dec. 8, 1941, 139 were Texans. Of the 162 marines on Guam at the time of the Japanese invasion of that island, 15 were Texans. Of the 357 defenders of Wake Island, 36 were Texans. Of all the men who participated in the bloody battle of Tarawa, seven per cent were Texans."

"Texans on the home front, too, are "Giving a Texan's Share" to the war against the Japs. In the 1944 campaign on behalf of the National War Fund, people of the Lone Star state contributed approximately 10 per cent more than the state's quota to the great humanitarian agencies serving Our Own and Our Allies."

They will be called upon again in October to give to their county war chests, to support USO, War Prisoners Aid, Philippine Relief and the other great agencies back up our fighting men and give new hope to suffer war victims throughout the world. That they will again meet the Texas obligation and surpass it, just as Texas fighting men have always done more than their part in all wars, is to be expected.

## Maternity Care For Servicemen's Wives

A serviceman's wife may apply for maternity care and care for her baby, under the emergency maternity and infant care program, even after her husband has been honorably discharged, promoted, or demoted, provided she was pregnant during the period when he was in one of the four lower pay grades of the services or was serving as an aviation cadet. On the same basis she may apply if the husband and father is a prisoner of war, missing in action, or dead.

This clarification as to who is entitled to care under the Government's emergency maternity and infant care program was made today by Dr. Geo. W. Cox, State Health Officer. The State Department of Health administers the program in Texas.

Heretofore the application for care had to be made while the serviceman was in one of the eligible grades. Now all that is required to establish eligibility is proof that the wife was pregnant while he was in one of the eligible grades. The infant in these cases is also eligible for full care during his first year of life. Similarly, if the father of an infant whose mother did not receive care under the program was in one of those grades at any time during the infant's first year of life, the infant's eligibility for care under the program is established.

The greatest effort of the new policy, which is retroactive to January, 1945, will be in bringing infants of discharged servicemen under the program for the full year in which the infant is entitled to care. The new regulation also clears up a matter about which some confusion has existed,

that is whether widows and their infants are eligible. Under this interpretation they are without question eligible.

The procedure to be followed in establishing eligibility is simple. The wife has only to show to her physician or other authorized person assisting her in filling out the application form an envelope or V-mail letter from her husband, her allowance card or other official communication dated at a time when he was in one of the eligible grades. If she does not have such evidence the State Health Department can make inquiry of the appropriate armed service.

"Clarification of this matter

by Congress brings the whole matter in line with the intent of the law," Dr. Cox said. "The important matter is to get to these women and their infants. The fine points of their application was made. She can see the justice of taking care of these men's wives and infants."

**Smart Cover for an Old Sewing Machine**

If it is necessary to keep an old-fashioned treadle machine in a bedroom, it may serve as a dressing table if attractively covered. In the dining room it may do double duty as a serving table. Here, it is shown in a living room. The full skirt matches curtains and slip

covers, and the scalloped felt top repeats the covers of the stools that serve as lamp stands and the chair cover.  
The difficult problem is to make the top of this type of machine level. This is done here with a removable top of plywood. Cleats are screwed to the under part of this top and the cover is tacked to it. The whole thing may be lifted off easily when it is time to use the machine.

NOTE—The sewing machine cover is from BOOK 9 of the series of homemaking booklets. This book also contains complete directions for the spool lamps shown here and for more than 30 other money-saving projects that will help you to keep your home attractive. **Kathleen Norris Says:**  
**Returning Husband Brings Tragedy**  
Bell Syndicate.—WNU Features.

"She has loved Peter all her life. He is her ideal of a husband and father. He loves little Bob as if he were the child's own father and he idolizes Baby Mollie."

**By KATHLEEN NORRIS**

HERE is a real puzzler and a sad tragedy, too. I am at a loss what to advise Rosamond Kay, who writes me a charming letter from East St. Louis. Her's is one of those problems that can be solved only in her own heart—she must weigh the claims of the two men in her life, one against the other, and decide which is the real claim.

Rosamond was married seven years to Robert. She was then 20. She loved him very truly and when he was numbered officially among the dead in Tunisia, she grieved for many months. Then she married Peter.

By Robert she had a son, now five years old; by Peter she has a daughter, just one year old. Rosamond is 31. She writes me that her heart aches for Robert, coming home tired and sad after a long and agonizing imprisonment and illness. But she says she has loved Peter all her life. He is her ideal of a husband and father. He loves little Bob as if he were the child's own father and he idolizes Baby Mollie. Rosamond has to meet Robert in a week or two, and she doesn't know what to do, for Robert is living and coming home to rejoin his wife and child.

Pete's Finer in Every Way.  
"He has my letter now explaining the situation," writes Rosamond. "It was a terrible letter to write. I was prostrated with the shock of knowing that the man who was actually a ghost to me was coming back. These years with Peter have been heaven—he is the more successful man, the more popular, the finer in every way.

"Robert is of a moody, jealous nature. He was always unhappy if I took Bob to visit my mother; he disliked my having guests in the house; he made enemies in his business. We had not been married long before I spent many hours in tears and doubt and realized the extreme difficulty of the path I had chosen. To emerge from all this into the security and joy of Peter's companionship, his enthusiasms and plans, was to come out into the sunlight after a time of shadows. I really had mourned Robert; I was genuinely shocked by his reported death, but after that I learned what true married felicity can be.

"Now as to the children—Bob is a shy, affectionate little fellow who clings to me. He has all but recovered physically from a bad session with infantile paralysis, but it has left him dependent and nervous. He dearly loves Mollie, who is a fat, riotous, laughing little tyrant already. I cannot bear to separate them and yet it is inconceivable that I should take Mollie to Robert's house. Robert, as a matter of fact, has no house, no job, and not a single living relative. Also I must say that he always was devoted to Bobby and Bobby to him, although naturally the small boy hardly remembers him now.

Still Robert's Wife.  
"I know," the letter concludes, "that Peter and I are not legally married. I am still Robert's wife. Shall I return to him? Or shall I ask him for a divorce and turn him over to loneliness and perhaps heartbreak? In my letter I said,

Bob is shy, affectionate, clinging. . . .

**Household Hints**

When making pies that are likely to be juicy, cut the lower crust larger than the upper and fold over like a hem to prevent leaking at the edges.  
Saw off the legs of an old wobbly card table to about 18 inches long, and use it as a play table for the children. It can be moved easily from room to room and taken also on trips.  
Grease the spout of the pitcher when you use it for muffin or waffle batter. It will make pouring smoother.

## Former Burk Girl Camp Fire Leader

A special group leadership course at Texas State College for Women, Denton, which will produce leaders for 10,000 additional Camp Fire Girls, will be completed Tuesday (July 17) by two members of the North Central Texas Area, headquarters of which are in Wichita Falls.

The new field workers are Misses Virginia Vaught, who will be stationed in Wichita Falls and Frances Mosman, located in Vernon.

The area executive is Miss Corinne Moller, who has an outstanding record for her work with girls.

The concentrated three-week course, covering all phases of group work and recreational leadership, was directed by Misses Harriet Dively and Margaret Rockwell, national Camp Fire Girls associate field secretaries, and was the first to be held in the Southwest.

Miss Vaught, daughter of Mr. and Mrs. N. R. Vaught of Wichita Falls, is a 1942 graduate of NTSC. She will be counselor in nature study and dramatics July 25-August 18 at Camp Leto-Li, Wichita Falls Camp Fire Girls Camp at Lake Murray. She was reared in Burkburnett and graduated from Burkburnett High School in 1938.

The national Camp Fire Girls organization, which has enrolled more than two million girls, is celebrating its 33rd anniversary this year.

## Wichita Co. IOOF Rebekahs Met Thursday Night

Wichita County Association I. O. O. F. and Rebekahs met in Burkburnett Thursday evening, July 12.

Mrs. Mary Cecil was in charge of the program and Mrs. Kathleen Moore of Wichita Falls, Association President, presided over the business. The session opened by singing the opening Odd. Mrs. Bertha Wood gave the presentation of the flags. Minnie Bauch led the assembly in singing the National Anthem and reciting the pledge of Allegiance.

The welcome address was given by B. O. Willis and the response by Mrs. Julia Allbritton of Wichita Falls. Those on the Entertainment committee were Mrs. Grace Noe and Miss Alice Wyatt of Wichita Falls. Mrs. H. C. Preston gave two enjoyable readings. Johnnie Cecil gave two piano selections. Mrs. M. E. Lewallen, Mrs. Joe Rhinefeldt, Dr. I. D. Russell and Earl Robertson played two violin numbers accompanied by Miss Christine Suttles. Miss Arnelia Mueller and Miss Mary Jo Haley sang several selections.

During the business session, Guy McNeeley of Wichita Falls gave a short history of the association which was organized during a meeting held in Iowa Park in 1924. Sal Glickman of Wichita Falls gave a report of recent visits to Government hospitals. Mrs. Ranbarg gave a report of her recent attendance of a board meeting in Corsicana. Ruby McNeeley introduced newly elected noble grands.

The next meeting will be at Electra with Owen McLardy as program chairman.

A song by the Assembly and prayer by Chaplain O. A. Meyer dismissed the meeting for a social hour during which refreshments were served to approximately 150 members and guests.

## Miss Bettye Miller and Pvt. Harley G. Evans United In Marriage Sun., July 15th

Miss Bettye Miller of Burkburnett and Pvt. Harley Gene Evans of Sheppard Field and Myrtle Point, Oregon, were united in marriage at the First Baptist Church, Sunday, July 15th at 4 o'clock. Rev. A. E. Harrison read the double ring ceremony.

The traditional wedding march and recessional was played by Miss Mamie Browning. Mrs. Kathryn Johnson sang "I Love You Truly."

The couple stood before an archway of daisies and fern, flanked on either side by branched candelabras holding lighted tapers and tall baskets of pink and white gladiolas and white daisies and greenery.

Given in marriage by her father, the bride was attractive in a white floor length dress of marquisette and fingertip length veil extending from a white beaded halo. Her bouquet was pink and white carnations. For something old, the bride wore a labelier, something new, her dress; borrowed was a watch which belonged to the maid of honor. A blue handkerchief was carried by the bride to complete the good luck tradition.

Betty Jean Turner of Wichita Falls was maid of honor. She wore a pink marquisette floor length with a nosegay bouquet.

Pvt. Paul Major of Sheppard Field was best man. Jerry Jack Miller, brother of the bride, and Wayne Lax, cousin of the bride were the ushers. Miss Allynne Jeffers presided at the bride's book.

Mrs. Evans is a 1944 graduate of the Burkburnett High school. She is a member of the First Baptist Church of this city and is a past Worthy Advisor of the Order of Rainbow for Girls. She is the daughter of Mr. and Mrs. Jerry Miller of this city.

The groom is the son of Mr. and Mrs. Marlin D. Evans of Myrtle Point, Oregon. He was high honor student of the 1944 graduating class of Myrtle Point High school. He is stationed at Sheppard Field as a permanent party.

Immediately following the ceremony, an informal reception was held in the home of the bride's parents. The reception rooms were beautifully decorated with pink and white gladiolas and pink roses.

Miss Allynne Jeffers presided at the tree tiered wedding cake topped with a miniature bride and groom. Miss Christine Suttles presided at the punch bowl. Those attending the reception were Messrs and Mesdames Robert E. Brown, Sam Lax, J. H. Stubblefield, T. R. Rushing, Pvt. and Mrs. Oren L. Sutter, Rev. and Mrs. A. E. Harrison, Mesdames Joe N. Adair, B. L. Turner, F. M. McMurtry, Sam Weaver, Charles W. Boyd, C. R. Chambers, F. G. Jeffers, C. B. Beldon and Wanda June Clinton, Lt. Eugene G. Henry, Pvt. David B. Squibb, Pvt. Paul Majors, Wayne and Bennie Lax, Melvin Sutter, Joe Adair, Misses Allynne Jeffers, Nadine Edwards, Janet Thompson, Rita Joyce Adair, Gwendolyn Turner, Christine Suttles, Mamie Browning and Norma Lee Orms.

The couple are making their home at 1214 North Ninth St. in Wichita Falls, Texas.

## Christian Science Services

"Life" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 22.

The Golden Text is: "Now that the dead are raised, even Moses shewed at the bush, when he calleth the Lord the God of Abraham, and the God of Isaac, and the God of Jacob. For he is not a God of the dead, but of the living: for all live unto him" (Luke 20:37, 38).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Fight the good fight of faith, lay hold on eternal life, whereunto thou art also called, and hast professed a good profession before many witnesses." (I Timothy 6:12.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality" (page 487.)

## Mrs. King Honored Granddaughter

Mrs. S. A. King entertained with a ten o'clock breakfast, honoring her granddaughter, Miss Joe Anita Cloud who is visiting here from Chickasha, Oklahoma.

Those enjoying the breakfast were Misses Norma Lincoln, Beth Brookshear, Jessie Preston, Vivian Suttles and the honoree.

## Calvary Baptist Church

10 A. M. Sunday School, with all classes studying the last chapter of Acts—"The things which happened unto me have fallen out rather unto the furtherance of the gospel." (Philippians 1:12.) Don't try to stop God's called ones. You are only butting your head against a brick wall. They will move to the place God wants them.

11 A. M.—Preaching. Subject of sermon by the pastor, "How God Shows His Power."

Night services: Young people and Boosters meet at 7:45. There will be guest speaker for the young people.

8:30 P. M.—Song and preaching service. Sermon subject by pastor, "World Union—How Near Are We To It—What does God say about it?" This will be a prophetic message that deals with the trend of current events as they are related to the prophetic word of God.

Saturday night street service at 8:30 on corner next to City Cafe. Singing and preaching. Topic of discussion, "What Makes People Do Wrong? When Will They Cease to do Wrong?—Or will they?"

We have definite plans now for our big tent meeting to begin September 16th. The tent will set up on a lot near town, and the evangelist will be Rev. Loys Vess of Denton, Texas. Vess is an outstanding evangelist, and we are expecting to reach and stir all this surrounding territory. Calvary Baptist Church extends to one and all warm-hearted welcome to all its services. Ray C. Morrow, Pastor.

## "Peach Week" to Be July 16-21

Proclaiming July 16-21 as "Peach Week," Governor Coke Stevenson has asked all Texas housewives to use fresh and home can maximum quantities of the abundant crop now moving to markets.

Coming at the peak of Texas harvest, the governor's proclamation adds emphasis to the all-out consumption campaign launched by the United States Department of Agriculture, E. C. Munro, acting district representative, commented.

The governor pointed out to the nation's large crop including a Texas crop 100 per cent above usual production and explained severe loss will be experienced by growers unless consumption is greatly and immediately expanded.

Commercially canned fruit supplies will again be below requirements while peaches are adaptable to fresh use and home canning, requiring a minimum of sugar, the proclamation stated.

## Words Without Music:

The Warner Brothers' film biog of George Gershwin reminds of several musical oddities which should be new to most of us. For example, the origin of "Yankee Doodle." . . . During the French and Indian War in 1755, a ragged army was camped on the Hudson, a little south of Albany. The militia was so pitiful an Englishman named Shuckberg just for giggles revived a ditty tagged "Yankee Doodle," which was whistled in Cromwell's time. . . . He passed the tune off as a celebrated European martial air, scribbling some double-talk lyrics for it. . . . The gag was on him. Two decades later, a tiny American army won its independence from Britain to the tune of "Yankee Doodle."

Four hundred thousand juke-boxes will go overseas to keep our men entertained with the latest recordings. . . . C. Porter's "Begin the Beguine" and "Night and Day" are still printed in lots of 100,000. Known as "popular standards" in the music biz. . . . Otto Harbach is doing a musical play named "Meet Miss April." . . . Four hundred million recordings were sold this year. . . . They say 100 new recording firms have popped up. . . . "Rose of No Man's Land" (which sold 5,000,000 copies) and "Till We Meet Again" (which sold 6,000,000) were the biggest song hits of World War I. All the ditties of this war haven't equalled the sale of any of the above standouts.

Mention of "Yankee Doodle" above recalls that an American gratefully returned the British favor in another war over a century later. . . . Most of us know "Keep the Home Fires Burning" was probably the most popular of English songs during World War I. . . . Ivor Novello, English actor, created its lyrics, of course. But a little known fact is that Iena Guilbert Ford composed its melody, reportedly in 10 minutes after Novello had excitedly read her its words via the phone. . . . Miss Ford was killed in 1918 in a German air raid over London. She was an American, born in Elmira, N. Y.

Speaking of the Gershwin flicker here is how wrong some critics can be. . . . This is what the concert appraiser of the N. Y. Herald Tribune (Lawrence Gilman) had to say of the now-famed "Rhapsody in Blue" when Paul Whiteman premiered it here: "Most ambitious piece on yesterday's program was the 'Rhapsody in Blue' of Mr. Gershwin. Weep over the complete lifelessness of its melody and harmony—so derivative, so stale, so inexpressive!"

Only one Gershwin tune was ever network-banned. That was the ditty tagged "Nice Work If You Can Get It." The air censors decided its lyrics were a bit too risqué. . . . Cole Porter's "Love for Sale" from the "New Yorkers" had the same trouble. . . . Jimmy Walker did his unsuccessful best to get them radio airings.

The first blues song, according to authority Isaac Goldberg, was performed in New York on May 29, 1769. . . . Then a comic opera tagged "The Paddock" premiered in a theatre in Gotham. It was an adaptation of a diversion written by Charles Dibdin and first performed at the Drury Lane Theatre in London. Lewis Hallam, playing the part of a West Indian slave, had this for the punchline of his big musical number: "Me wish to de Lord me was dead!"

In the Warner film, there is a scene demonstrating how Al Jolson inserts Gershwin's "Swanee" in "Sinbad," at the Winter Garden. . . . Old-timers in show biz will pardon the dramatic liberty. First time "Swanee" was heard on B'way was in the initial show opening the Capitol Theatre on the Stern. . . . Jolson later interpolated it in his show. . . . This is not the first time a hit song was pushed into a Broadway production and made a smash of the opus. Some years ago a show called "The Girl Behind the Counter" was playing to moderate houses at the Herald Square Theatre. . . . One night the management inserted a Paul Lincke tune tagged "Glow Worm." Next day the song and the show were the talk of the town. . . . Another time, a Reginald de Koven opus was playing the Standard Theatre at 34th St. Business was off, so a new song was written into the production. It carried the show successfully through the season—"Oh, Promise Me!"

General Grant and a regiment of his men were marching through a northern town and were greeted by the shouting and cheering of mobs. "Who are those people?" asked a junior officer. "Those are the people who aren't going," answered Grant.

Thea there's stripteaser Betty Rowland of Hollywood, who put so much heart into her work that she bumped one of her swivel-hips against a wall and took off for the hospital, partially paralyzed.

## WEEKLY NEWS ANALYSIS

# Japan Begins to Feel Full Weight Of Allied Air, Sea, Land Blows; Europe Warned of Food Shortage

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union and not necessarily of this newspaper.

July sides of beef, whole hogs, veal and lamb hang in the aging room of a quick freeze and food locker plant in Towson, Md., near Baltimore, while OPA investigators question locker holders about their meat supplies. The OPA reported that it was not satisfied with the explanations of holdings given by half of the group questioned to date.

### JAPAN: Target for Onslaught

Japan's dwindling empire was given a thorough going over with bombs, warship strikes and offensives by American and Australian land forces. In an attack that carried American naval power almost within sight of Russian Siberia, a U. S. battle fleet made a surprise bombardment of the Japanese-held southern half of Sakhalin island in the Sea of Okhotsk. The Tokyo radio reported that American surface units had broken through the Kurile barrier and steamed more than 500 miles westward to attack Sakhalin. Tokyo likewise reported an American battle fleet threatening the northern coast of Japan.

Meanwhile the relentless air offensive snuffing out Japanese war production cities continued unabated. Climaxed by an hour-long radio challenge of American fighter planes circling three Tokyo airfields for the Japanese air force to come up for battle, approximately 800 planes set off the latest fires and explosions in Japan. Fires in four Japanese cities burned so brightly they could be seen simultaneously by returning B-29 pilots. Everything from power houses to light houses was strafed. Six Tokyo air fields were riddled with bombs. Two Japanese destroyers were hit in the Yellow Sea.

### Borneo Oil

On Borneo the coveted oil fields held by the Japs since early 1942 came closer into Allied hands. Destruction of well facilities by the Japs had been widespread, but engineers were prepared to work on repairs. Australian and American forces were co-operating in the liberation of this former Dutch holding. With Australian infantrymen battering at the last Jap footholds in Balikpapan, this major oil port was in Allied hands. Across the bay from the city, artillery had shelled strongly placed enemy guns. Meanwhile engineers had rushed reconstruction of the captured Sepingang air strip.

### RUSS AID: For China Foreseen

To Japan the dread question of possible Russian participation in the Pacific war was heightened by the cordial reception Chinese Premier T. V. Soong received in Moscow on his official visit to the Soviet Union. Foreign diplomats in the Red capital reported that the Japanese mission there were highly nervous over the friendly relations evident between the Chinese and Russians. The Japs were the only diplomats who did not attend a sumptuous reception that Vacheslav Molotov, soviet foreign commissar, gave for Premier Soong.

Whether the Russ-Chinese meetings presaged future action by the Soviets against Japan continued to be a moot question, but reports were current that Soong might at least negotiate a mutual aid pact whereby Russia would undertake to supply Chinese armies without lending them direct military aid. In return it was assumed that China would make certain concessions to Russia—possibly granting a warm water naval base in the Liaotung peninsula of Manchuria and certain railway transportation rights through Manchuria.

### CABINET CHANGES: Morgenthau No. 6

The resignation of Secretary of the Treasury Henry Morgenthau marked the sixth member of President Truman's official family who has severed his ties with the cabinet. The five who preceded him were Secretary of Labor Frances Perkins, Postmaster General Frank Walker, Secretary of Agriculture Claude Wicard, Attorney-General Francis Biddle and Secretary of State Edward Stettinius. Successors to all five have assumed their offices. Secretary Morgenthau's resignation was accompanied almost simultaneously by the resignation of Associate Justice Owen D. Roberts from the Supreme court. This was the first resignation from the high tribunal in President Truman's term, but unlike those of the cabinet, it was not expected to set a precedent for others. Justice Roberts, appointed by President Hoover had served 15 years on the Supreme court. One of his most notable public services was performed as head of the committee that investigated the Pearl Harbor disaster.

There is no call for compromise with untruth, nor any occasion for softhearted generosity which will only spoil its recipients. We are talking about the honest and intelligent use of kindness and tact between brethren. When kindness meets problems, the problems disappear. Why not try it?

### PHILIPPINES: Springboard for Tokyo

In one of the proudest moments of his thrill-studded career, Gen. Douglas MacArthur proclaimed that the Philippine Islands had been won back "in the greatest disaster ever sustained by Japanese arms." The doughty American commander announced that the islands' 115,000 square miles are being transformed into bases "comparable to the British Islands" to pace the march on Tokyo. The saga of the Philippines triumph disclosed that in 250 days of campaigning, 17 American divisions defeated 23 Jap divisions in "one of the rare instances when . . . a ground force superior in numbers was entirely destroyed by a numerically inferior opponent."

It was estimated that 420,000 Japanese were slaughtered, including such hated outfits as the 16th Imperial division which had tortured American and Filipino prisoners in the "Death March" of 1942 following the fall of Bataan.

### FOOD: Europe Must Speed Output

A blunt warning to the liberated nations of Western Europe to speed up their own food production because relief shipments from abroad may fall short of expectation has been delivered, according to Dennis A. Fitzgerald, United States deputy on the combined food board. Officials of the nations involved have been told that "they'd better start pulling themselves up by their own bootstraps and use every conceivable device to increase their production." Fitzgerald disclosed. Liberated countries have been assured that vigorous efforts are being made to give them all assistance possible, he said, but they have also been reminded that the United States "still has a full-sized war in the Pacific" which will get first call on our own food stocks.

By far the largest share of relief shipments to Europe will be composed of wheat and flour, Fitzgerald reported. Approximately 650,000 bushels of wheat are expected to go out from the U. S. and Canada.

#### ABRAHAM'S PRACTICE OF BROTHERHOOD

LESSON TEXT—Genesis 13:1-12. GOLDEN TEXT—Let there be no strife. I pray thee, between me and thee . . . for we be brethren.—Genesis 13:8.

As we study the contrasting selfishness of Lot, we see the true generosity of Abram and the brotherly love which prompted it in bold relief. In a world where men reckon even their friendships as something which must yield some financial return, it is good to stress the fact that kindness and sacrifice are recognized and rewarded by God.

Abram, after dwelling for a time in Canaan, had gone down into Egypt because of a famine in his own land. After many trying experiences, he returned to his promised land and there he prospered mightily under the good hand of God. Unlike many who forget God when they become rich, we find Abram

**I. Meeting Prosperity With Godliness (vv. 1-4).** Abram "was very rich." That would be almost enough to constitute a spiritual obituary notice for many a man's spiritual life.

But Abram did not let his riches come between him and God. He sought out the altar which he had first built at Bethel, and there he called upon the name of the Lord once again. Note then, that riches in themselves need not destroy a man's character or spirituality if they are held as a gift from God, and for His glory. Meet growing prosperity with increased godliness and all will be well.

**II. Meeting Problems With Kindness (vv. 5-9).** Abram's riches, and those of Lot, were largely in flocks and herds. For them there had to be great areas of grazing land, and in the rocky section where they found themselves, grass was scarce. Result? A fight between the herdsmen.

Lot, the younger, should have taken the lead in meeting that situation, but his selfish heart was too small for that. But Abram, eager for peace and brotherly love, indicated at once his willingness to do anything necessary to preserve peace.

One could not ask a finer indication of true bigness in a man. "Big men use their prestige to serve great ideals. Abram used his tremendous advantage to do a beautifully generous thing to eliminate strife. Not many men are big enough to follow this course" (W. R. White).

Only God can make a man that big, but God can do it for any one of us. If Christian people would listen to the words of Abram, "we are brethren" (v. 8), and put them into practice, there would be an immediate end to all the foolish strife which divides God's people.

There is no call for compromise with untruth, nor any occasion for softhearted generosity which will only spoil its recipients. We are talking about the honest and intelligent use of kindness and tact between brethren. When kindness meets problems, the problems disappear. Why not try it?

#### III. Meeting Selfishness With Love (vv. 10-12).

Lot made the typical choice of the worldly-minded man, the one which would give him the best returns in dollars and cents. It seemed like a shrewd thing to do, but it resulted in disaster, for it meant pitching his tent over toward the wickedness of Sodom.

Abram had to rescue Lot again and again from the results of his decision; but thus in love he met the arrogant selfishness of his foolish nephew.

God rewarded Abram by a renewal of His covenant with him (Gen. 15:18-19). God understands and values the kind and thoughtful act, even though the world may ignore it or sneer at it.

Lot probably did not intend to go all the way into wicked Sodom to live, but having once started that way, it was easy to go on and on. Even so Christians in our day may not intend to slip off into worldliness, but if they continue to pitch their tents toward Sodom, they will find themselves there one sad day.

This may be done by seeking wealth or worldly advantage at the expense of association with unbelievers, or by some manipulations or maneuvers which will involve compromise. It may come about by reason of indulgence in worldly amusements which dull spiritual perceptions and kill an appetite for the Word of God and prayer.

Abram is a character who "wears" well. We see him meeting one situation after another, and making the right choice. Oh, he was not perfect! His mistakes are noted in Scripture, and he suffered for them, too. But because his heart was fundamentally right, and he had a constant desire to do the will of God, he found his way through, and justified the name which God gave him—"The friend of God" (see James 2:23; Isa. 41:8).

### Kite Target

A unique type of kite is used by the army and navy as a target to train their AA gunners because it can be made to climb, dive, bank, loop, do figure eights and all other maneuvers of an airplane quickly that it is rarely hit by more than one out of 50 shots.

Of traditional shape, without tail and only five feet in both height and width, the kite is controlled through two lines that operate its rudder and other parts.

Board members, who meet annually in Austin, are the guiding directors of all phases of the Texas drive. The board, composed of members representing every county and every strata of citizenship, establishes general policies, acts on acceptance of the state's war fund quota and goal, sets the sum to be budgeted for expenses of the campaign, employs the general manager of the state war chest, passes upon all financial matters and, thru the executive committee and several specialized committees, assigns local quotas and directs all other phases of the vast program.

Thus this county, as all other Texas counties, has a definite an demphatic voice in the operation of the war chest program, through its local leaders who are members of the board of the various important committees.

Office Supplies—Star Office

Aboard the Battleship U. S. S. New York in the Pacific.—Thomas W. Glass, chief fire controller, USN, son of Mrs. Fannie Glass of Rt. 1, Burkburnett, Texas, came through the battle for Okinawa aboard this battleship without a scratch, helping fire more than five million pounds of shells at enemy targets. This tonnage exceeds that fired by all ships combined during the invasion bombardment of Tarawa or Makin, Roi-Nmua or Eniwetof.

One of the grand old ladies of the fleet, the New York celebrated her 31st birthday during the battle. The only capital ship to stay on the job without relief, she kept her 14 inch guns

firing salvos at island targets steadily.

The men spent the equivalent and two solid weeks at their air defense stations during more than 200 air raids alerts. One Jap plane made an unsuccessful suicide run through a hail of anti-aircraft fire, but crashed harmlessly into the sea. Not one Jap bomb, torpedo or artillery shell found its mark on the ship, although all were tried.

S/Sgt. Floyd L. Jackson, son of Mrs. Beulah Jackson, has been awarded the Silver Star, the Bronze Star Medal, and the Purple Heart for services with the 14th Armd. Division. He was cited for heroic achievement near

Hatten, France on January 17, 1945. Observing a nearby tank hit and set afire by enemy artillery, Sgt. Jackson drove his tank forward to give assistance. Under a hail of enemy machine gun fire, he dismounted, placed the wounded crew member on the rear deck of his tank and evacuated him to medical aid. Sgt. Jackson's courage, quick thinking and devotion to duty reflect credit on himself and the Armed Forces.

comfort facilities. Improvement in springs and shock absorbers have been added. Seats are better positioned and spring cushioned. A heater is available, and front and rear tops have been

# TOKYO KNEW ABOUT THE B-29 BEFORE YOU DID

**Captured evidence reveals that the Japs knew the story six months before most Americans knew it existed**

In far-away Burma, early in 1944—long before the B-29 became front-page news at home—long before our own forces in China and in India were notified to expect this great super-bomber—came news of its existence—uncomfortably accurate technical description—positive facts as to proposed bases... from the JAPS. It was all in an official bulletin of the Japanese Army found among the papers captured in a Jap stronghold in Burma.

This was not information obtained by the enemy through air reconnaissance or the capture of prisoners or official documents in combat—it was a leak of supersecret information right out of this country, transmitted directly to the High Command in Tokyo.

What did Tokyo do with this information? What action did they take?

What did it mean to our Chinese allies and our own troops? It is significant that shortly after they obtained this information the Japs mounted a new offensive in China and set out to capture the specially constructed air fields built by hand by the Chinese people for the heavy B-29s. Months of laborious, back-breaking labor of thousands of Chinese workers were sacrificed by demolition in a heart-breaking few hours in the retreat before the onslaught of the attacking Japanese. Stores of precious gasoline—parts—and other scarce hard-to-get stores flown at great risk over the famous "Hump" were put to the torch. A terrific set-back—an almost unendurable discouragement.

We must keep our secrets. The best way is to keep quiet.

## HELPFUL SUGGESTIONS for the many electric refrigerator owners we serve

Your electric refrigerator is waging a continual battle with your home against harmful bacteria, against waste. It is as important in the war effort on the home front as are planes and ships on the battle fronts.

Take good care of your refrigerator and enjoy even greater efficiency and longer life from your food-saving electric servant by following these simple suggestions:

- Don't place hot foods in your refrigerator. Let them cool first.
- Place a cover over warm foods.
- Don't open the refrigerator door more often than absolutely necessary.
- Don't leave the door open while carrying food to other places.
- Defrost frequently, at least once a week. When the frost on the freezer unit becomes more than a quarter of an inch thick, it lowers efficiency of your refrigerator.
- Speed up defrosting by placing hot water in the ice cube trays. After defrosting is completed, change the hot water to cold water for making ice cubes.
- Keep the refrigerator at the normal temperature recommended by the manufacturer. Too low a temperature isn't necessary and may be wasteful.

### Fear This

Political developments in England this summer have made a show, profitable for Americans to watch. Peace in Europe is really felt in England; terror and bloodshed ceased for a time—for a long time we hope. Britain's post-war problems are upon her and they are almost exactly like ours will be when our war is over in the Pacific. There is however one big difference. The difference lies in what the working people think. British labor is socialistic, in large part; American labor is not. The British workers don't think they fared very well under the system in which private capital owned the factories and private management operated them in so-called competition. English laborers figure they would be better off if the government owned everything.

### Workers Prosper

Workers in America still favor the system of free enterprise. Most of our labor is in favor of open competition. The reason is that working people in America see how they have fared all right with private enterprise. Labor leaders express themselves freely in favor of capitalism. Our workers probably will not turn against the American system since it has not turned against them.

Nobody has the working people of either country fooled. They have the truth in both cases. In England, labor has had a pretty shabby deal; in America the worker has lived well. The important question is this: British workers oppose capitalism and American workers favor it—can it be possible that they are talking about the same thing?

### Have Same Name

Prior to World War II, the economic system in Britain was called private enterprise—same as in America. Moreover, the two were quite a little alike, at first glance, except that wages on this side of the ocean were high and American workers earned more than twice as much as the British workers, trade for trade. The difference was that private enterprise in Britain was not free.

Private enterprise in England was hog-tied. Competition there was not actually open. Wasteful monopolies operated within the law. Private business concerns were fenced in with legal restraints on this and government restrictions on that. What they had was government-bossed private enterprise. Business men couldn't make any money and therefore couldn't pay their workers.

### Socialistic Labor

Working as hard as they could, British workers could not earn enough to live well. They needed new tools and modern methods so they could produce more; so their employers could pay them better, but the employers couldn't buy better tools. They were so restricted that they couldn't make any profit. Result: Labor unions formed a socialist party and now are bidding strongly for control of the government for the third time.

The same thing can happen here. America can keep free private enterprise and the prosperity that goes with it. With prosperity and progress, American firms can pay their workers well. But silly restrictions and heavy taxes can choke out profits. Without profits there will be no new tools, no progress, no better wages. Unhappy workers bring socialism. Socialism, nowhere in the world, has brought wages half as high as America now enjoys.

### Maximum Sugar For Canning 15 Pounds

Fifteen pounds of sugar is the maximum to be allotted to any one person for home canning, OPA emphasized, correcting a misunderstanding by housewives concerning home canning sugar allotment. Only housewives planning to can enough foods to require this amount of sugar are eligible to receive it only where local sugar quotas permit such allocation, OPA said. In order to secure this amount, the housewife must establish to the satisfaction of her local ration board that she actually is going to do this much canning.

In other words, local ration boards are empowered to allot only the amount of sugar to each individual (up to 15 lbs.) required for her actual canning needs.

### Railway Workers Needed From Texas

Wanted: 5,727 railway workers from three states of Texas, Louisiana and New Mexico.

Movement of troops and millions of tons of war freight to the West to smash the Japs and end the war in the Pacific is creating the most acute shortage of railroad workers in the three states of the region since the beginning of the war.

The three states of this region hold 5,727 openings for railroad workers, including approximately 1,500 in skills. Ninety thousand additional workers are needed by railroads loading to the West to handle the war job.

Three government agencies—The War Manpower Commission, the Railroad Retirement Board, and the Office of Defense Transportation—are appealing to men in Burkburnett and vicinity to help in the big task. It offers opportunity to learn railroading, earn good pay, and help finish the war.

The Railroad Retirement Board employment office at 723 Tenth Street in Wichita Falls is recruiting workers.

Mr. and Mrs. C. L. Rigby and daughter, Phyllis Jane, of Wichita Falls spent the weekend with Mr. and Mrs. John H. Rigby.

S/Sgt. and Mrs. Raymond as and daughter visited home of Mr. and Mrs. E. J. this week. Sgt. Lucas is now home from overseas and battle stars, 3 Oak Leaf and the Distinguished Cross and the Air Medal now receiving special at Big Spring, Texas.

T/Sgt. Clifford Wells of Spokane, Washington, is home on furlough. He has a 14 day furlough.

THE unique balance of power, weight, size, four-wheel drive, dependability and ruggedness which characterized the famous military Jeep, have been adapted for peacetime service by Willys-Overland Motors. The new postwar Jeep, just unveiled to the public, combines the basic functions of tractor, light truck, mobile power unit and passenger conveyance. The pictures above show some of the new Jeep's many farm applications: buzzing wood, pulling a trailer load of baled hay, plowing and digging holes for fence posts.
