## F. U. Planning Rallies Across State Naman Tells Farmers In Meeting

"There is adequate sentiment among key members of the Congress that the intent of the 1965 Farm Bill is being thwarted by the Department of Agriculture and with the grassroots support of the farmers, the Congress will do what is necessary to see that the new program works in the interest of farmers instead of against them," Jay Naman, president of Texas Farmers Union told a group of Haskell County farmers in a meeting here Friday at 2:00 p. m.

"Farmers Union is planning a wave of farm income rallies across the state to point up the inequities which are evident in the way the new farm program is being administered. From

these meetings, we plan to launch another campaign to fly farmers to Washington to take documented information direct to key members of Congress and Agriculture Department officials," Naman said.

"We can't afford to stand idly by and let our hard-won victory in the last congress be lost without a fight. Net farm income is still too low in spite of the rose-colored figures flowing from Washington and conditions will worsen under the announced farm program regulations for 1966," Naman concluded.

Allen Davis, president of the Haskell County Farmers Union, presided over the meeting.

## Last Day Filings Reveal Only Three County Contested Races

### "Agriculture Picture For The Future Is Gloomy," Feemster Tells Rotary

Mr. Lloyd Feemster, County office manager of the Agriculture Stabilization and Conservation Service office, addressed the Haskell Rotary Club last Thursday at its luncheon meeting in a strong, straight-from-the-cuff talk on the agricultural picture in Haskell County. Mr. Feemster was introduced by Rotarian R. C. Couch, Haskell farmer-rancher, and program chairman for the day.

Mr. Feemster cited the fact that when he came to Haskell in 1953, there were 3600 farm producers in Haskell County. During his tenure of service in this community he has observed a drop in producers to a current 1800 or less. The able speaker indicated that he expects this figure to possibly level off at 1200 producers for the whole county. The County of Haskell is losing from 50 to 300 producers per year...men who are forced by conditions to retire from the farming industry. The conditions, observed Mr. Feemster, are not conducive to optimism.

The future of agriculture forces a farmer to consider, too, whether the investment in land and equipment is commensurate with the return. A farmer today, said Mr. Feemster, could expect a better return on his money if he liquidated his holdings and put his money in Federal Savings and Loan at 4 to 4 1/2 per cent interest.

Overall, Mr. Feemster indicated that the agriculture picture for the future is gloomy. What Haskell should do, the speaker advised, is to begin doing what many other communities are doing (and some with great success), and that is to seek new industry for the community. Even a "ghost town" has buildings, but what sustains a community is economic activity and traffic. In a predominantly agricultural economy such as Haskell has, the receding economy reflects upon the welfare and prosperity of the whole community, but most directly upon the retail business com-

munity. What Haskell needs to meet the future is aggressive and enthusiastic leadership, coupled with civic cooperation. We need now to begin making plans for the future. A bright future includes the seeking out of new industry for our community.

In the ensuing discussion, it was cited that Haskell cannot expect that it will be sustained as a community by the fact that we are the County seat, either. We need only to look at Guthrie to see that this is not a sustaining factor for a continuing healthy economy. We need to overcome our apathy, begin to read the signs of the times, and begin to build for the future...and this with carefully and intelligently formulated plans.

Guests for the day included Howard Sloan, Veterans' Service Officer for this district, from Rochester; Al Johannes, pastor of the Trinity Lutheran Church; Mrs. Opal Adkins, representing the Business and Professional Women's Club of Haskell; Mr. Robert King, formerly Superintendent of Schools in Haskell and now living in Fort Worth; and Mrs. Roy Johnson, wife of Rotarian-Banker Roy Johnson. Student guests for the month of February are Gerre Colbert, Haskell High School senior and daughter of Dr. and Mrs. Robert Colbert; and Gene Hester, son of Rotarian-Rancher Ed Hester, and a senior in Haskell High School.

Plans were formulated and a committee appointed to request that the Rotary Club, the Lions Club, the Business and Professional Women's Club, and the Haskell Jaycees have a combined meeting and invite Mr. George Jagers, President of Graham Magnetics, Inc., of Graham, Texas, to speak to the combined group on the subject: "Why our industry chose Graham as the site of its new plant." Committee members are: Dr. T. W. Williams, Douglas B. Finch, Tom Barfield and Roy Johnson.

"BUGS OR PEOPLE"

Winds of controversy, sometimes violent, have swirled around the use of pesticides in agriculture. Deep fears have generated. Some people have gone so far as to oppose all applications of these chemicals to crops.

Fortunately, moderate and authoritative voices have been raised in answer. One is found in an arresting new book entitled "Bugs or People?" and carrying the subtitle "A Seasoned Answer to Opponents of Pesticides." It has been published by the old firm of Appleton-Century, and its author is Wheeler McMillen whose credentials are outstanding. He has been a writer on farm subjects for over 40 years, has edited leading rural magazines and is the author of other books on agricultural practices.

Mr. McMillen takes a moderate, convincing position. He is no opponent of reasonable controls and safeguards so far as chemicals are concerned. In this, he enjoys much company. All manner of institutions and pensions seek the maximum safety in their use ... the manufacturers, the users, government agencies, health departments, farm organizations, and agronomists. But Mr. McMillen finds ... and his arguments are documented and compelling ... that pesticides are as a rule perfectly safe and are absolutely essential to our food supply. He cites chapter and verse of ruinous blights and crop failures caused by plant diseases. Science, through chemistry, has provided the answer.

The need ... a need that cannot be reasonably contradicted ... for pesticides is summed up in this passage from the book: "Let the insects go unchecked? They will go their relentless ways. For humankind they will produce disease and death, poverty, hunger and discomfort. Man has no intelligent choice except to fight back with the best weapons he can command."

GEARED FOR MEDICAL PROGRESS

"The American Medical Association is of such nature, and its commitment to medicine and the public health is so great, that it cannot escape new and larger responsibilities. The interests and activities of the Association are widespread. All are important... and some are vital...to the health of the nation and its well being."

That statement recently came from F. J. L. Blasingame, M. D., the Association's executive vice-president. And, as he went on to show, the AMA is aggressively facing up to those responsibilities. It is now conducting more than 80 separate programs, in-to such areas as air pollution, drugs, environmental health, venereal disease, industrial health, foods and nutrition, quackery, communications, research, medical education and health education.

To quote Dr. Blasingame again, "Much more can and should be done ... The United States has become the world center of medical education ... but is it good enough? ... What are the deficiencies in our system? Are we attacking rising health costs as forthrightly as this problem demands ... We can, and should, act more aggressively to insure high quality in all areas of medicine ... and to move against the incompetent and the unethical."

The AMA, and the medical fraternity at large, is never satisfied, no matter how great the progress made in advancing our standards of health care. It is dedicated to doing an ever-improving job. It welcomes challenges ... and it is superbly geared to deal successfully with them.

Attend Physics Show In N. Y.

Mr. and Mrs. William Adol, h Hirsch, of Providence, Rhode Island, attended the 14th annual National Physics Show held in conjunction with the combined annual meeting of the American Physical Society and The American Association of Physics teachers at the New York Hilton, New York, N. Y., January 25-29.

This convention and Physics Exhibition attracts Physics and scientists from all over the world.

Haskell Garden Club meets on February 18th in the spacious home of Mrs. R. C. Couch Sr. Mrs. T. J. Finley will conduct a craft workshop. It should be very interesting as Mrs. Finley is a talented teacher.

My husband dug some carrots today to see what, if any, damage the cold had done. The roots are still firm and crisp with no cold damage.

The onion tops were killed down but the bulb is still nice and firm. We hope they stand the winter, as we planted two or three hundred plants last fall.

One year at Abilene our fall-planted onions lived through a very severe winter and made large, sweet bulbs the next spring. Onions planted in the fall are much milder and sweeter than those planted in the spring.

We cooked the last of our spring-grown potatoes the 15th day of January. I gathered them the day after a rain. Fearing they would rot because of so much moisture, I bought 5 pounds of lime and put on the potatoes. I do not believe we lost over five potatoes from two No. 2 tubs and a half bushel. We used the same lime to dust our fall spuds.

Do not forget to save milk cartons to cover plants with this spring. One can cut little doors in opposite sides and run a string through the openings. Connect the string to the garage wall in such a way that cartons can be added from time to time. This method keeps them from looking messy and they are also ready to put over transplants. Place the windows north and south so the plant can get air but remain in the shade.

I'm wondering how good a job I will do gardening this spring. My husband, who does all my plowing and bedding, is running for commissioner, and it will be very time-consuming for him, about the time gardens need plowing. But knowing how much my husband loves gardening, I'll bet he finds time to bed one up. He planted and worked the fall garden almost all-together.

It's hard to tell which one of us likes gardening the most, my husband or I. Our grandson, Steven Gaskins, is a dyed-in-the-wool gardener also. He transplanted several plants last year that didn't even wilt. Many of his games are about gardening. The knowledge Steven has picked up from us about gardening never ceases to amaze me.

#### PAINT CREEK VINE

**H. A. G. SMITH**  
Jubey Morrison easily dropped in three free throws in the final seconds to give Paint Creek a 34-28 win over Cross Plains and the championship in the 15th annual Hawkins-Simmons Girls Invitational Basketball Tournament last weekend.

Earlier she had connected on a pair of field goals to push the champions out from 36-26 and then followed with one gratis shot.

Both Hutchinson got Cross Plains back in the game with a field goal and then Junice Reed of Paint Creek missed in a free throw attempt to give the leaders an opportunity to take the lead.

However, there was a three-second violation called and Miss Morrison then made the championship shot with 12 seconds left.

Cross Plains got off two shots in the final seconds, but neither counted the range.

Miss Morrison was named in the all-tournament team by Carolyn Ringrove of Cross Plains, Colleen Davis of Edinburg, Barbara Tucker of Edinburg and Beverly Smith of Garden City.

## VARIETY SCOUT CITIZENSHIP TRIPS ARE BEING OFFERED

Scoutmasters and committee chairmen in the Chisholm Trail Council, received first information this week concerning two different trips that are available to scout units this spring.

The first trip will take place March 10, 11, 12, and will be a bus tour including several points of interest in Dallas and Fort Worth, including the General Motors assembly plant, Southland Life Center, Texas Hall of Fame, Health and Science Museum, Planetarium and the Fort Worth zoo.

The second trip will be April 8th and 9th and will include a trip on the train to Houston, where the group will tour the San Jacinto battleground and museum, the Battleship Texas, and take in the first afternoon game of the 1966 exhibition season between the Houston Astros and the Detroit Tigers in the new Astrodome.

Either or both side trips are open to all scout units in the council and where these trips work into the unit's program, troop leaders have complete information and will make reservations for their group.

All scouts on these trips will be under competent, adult leadership during the trip and will travel on regular commercial transportation.

In the past several years, hundreds of scouts have been able to enjoy these trips, the Council is again making them available to the units.

The variation of having two different trips this year is expected to give each unit a better opportunity of working a trip into their program if they desire one.

### VA Questions And Answers

Editor's Note: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

**Q:** In figuring income to determine eligibility for a veteran's non-service-connected pension, can the veteran deduct 10 percent of his Social Security income?

**A:** The veteran does not take the deduction himself. He reports all his income to the Veterans Administration including Social Security payments, annuities, private pensions, etc. The Veterans Administration

then calculates the 10 percent exclusion as provided by law.

**Q:** I am receiving additional disability benefits for a child who is attending the University. How long may I receive this additional benefit?

**A:** The additional benefit may

be paid up until the child's 23rd birthday as long as he (she) remains in school and is unmarried. Do not confuse this with the VA Orphans Education program where marriage has no effect on the benefit.

**Q:** I have a National Service Life Insurance term policy, paying dividends each year. If I convert to the Modified Life Insurance plan, will I continue to receive dividends?

**A:** Yes, but you should understand that dividends at first, if any, will be very small.

### Age 65 Time To File Claims With Social Security

"If you have reached 65 and are not receiving social security or railroad retirement benefits, and have not signed up for Medicare, now is the time for action," R. R. Tuley, Jr., social security district manager in Abilene, stated today.

He explained that almost every older person in the nation is eligible for health insurance under the new law passed by Congress last year.

"The major part of hospital charges and doctor bills will be paid for those people 65 or older who sign up for the health protection," Tuley said.

"We are especially trying to reach two groups of people right now. One group includes those over 65 who have not applied for social security retirement benefits because their earnings are too high to permit cash payments. These people will have Medicare protection by applying for it.

"The second group we need to get in touch with may have had little or no work under social security," he explained. "If they are 65 or over, they can get the health protection by enrolling for it.

Tuley said that health insurance benefits begin next July. "I cannot over-emphasize the importance of prompt action by all those who are eligible," he said.

Further information can be obtained in person, by mail, or by telephone from the social security office in Abilene, located at room number 2321 Federal Building, or meeting a representative at Annex, City Hall, 305 N. First, Haskell, at 10:00 o'clock. Mr. Austin is there every Thursday; in addition he will be there on Wednesday, Feb. 16, March 2, 16 and 30.

### Electricity Makes A World Of Difference

We've come a long way since the Stone Age. Wouldn't the cave man be awed by our Space Age? Through the years, we've grown so accustomed to electricity we have taken it for granted. And yet, we are more dependent on electricity than any other source of energy. One of the jobs of West Texas Utilities Company is to make electricity so available, we can take it for granted. There's nothing quite like electricity... it can't be seen, heard or smelled... yet it is used daily in dozens of different ways to make our life easier and better. So sit back, relax and enjoy life...

## Jean-Pierre Filipinetti, driver of a \$14 Mercedes, test-drove a '66 Ford.

### His opinion: Ford rides quieter.

**"It's incredible," said M. Filipinetti, "the Ford is quieter."**

"The quiet, it's tremendous," continued M. Filipinetti, "it's incredible that you could build a car so luxurious as this at such a price." Ford's amazing quietness is the result of deep-down quality and engineering excellence.

And Ford for '66 offers more engineering magic: Optional new Stereo-Sonic Tape System that turns your Ford into a concert hall. Exclusive Magic Doorgate for wagons swings out like a door for people and down like a tailgate for cargo. Convenience Control Panel one button locks all doors and warns when fuel's low or a door is ajar and remind you to fasten seat belts. Quiet test a '66 Ford soon.

Bobby Neil is now in Seattle, Washington, where he is employed by Boeing Air Craft.

Each year, for the past 5 years, over 2,000 fires occurred annually in the pine-hardwood area of East Texas, burning 47,000 acres of valuable timberlands. In addition, improvements such as homes, barns, fencing, and improved pastures were destroyed. These fires were man caused, for the most part, and could have been prevented if someone had used care with firebrands out of doors. Your Texas Forest Service urges you to take every precaution when doing any outdoor burning.

### Long Range Plans For The Cattleman

The importance of long range planning in maintaining economic stability in the cattle industry will be emphasized in a featured address at the 89th annual convention of the Texas and Southwestern Cattle Raisers Association at Fort Worth, Texas, March 7-9.

John H. Guthrie of Portersville, Calif., president of the American National Cattleman's Association, will outline factors affecting cattle prices and the role individual beef producers

play in balancing supply of beef with effective demand. He will speak Tuesday, March 8. Guthrie is one of several distinguished speakers who will bring cattlemen up to date on developments most likely to affect cattlemen in the upcoming months and years. Headquarters for the convention will be Hotel Texas, and a record number of cattlemen are expected to attend, according to Joe S. Fletcher of Fort Worth, TSCRA secretary-general manager.

Fred Wulff of Brady, TSCRA president, has issued an invitation to all who are interested in the cattle business to attend.

### Haskell Indians Drop 'Close-One' To Winters

The Winters Blizzards knocked the Haskell Indians out of a tie for the District 5-AA lead and boosted their own chances while doing so Tuesday night with a 61-55 victory at Winters.

Winters is now 8-3 while the idle Anson Tigers keep a 7-2 mark. The Indians are now 7-3.

Four competitors, two on both sides, hit 17 points in the contest—Johnny Beck and Larry Hensley for the winners and Perry Turnbow and Ronnie Jossel for the Indians.

Also scoring in double figures were Blizzards center Paul Jones with 13 and the Indians' Douglas Bartlett with 10.

The Blizzards played consistent ball all the way, scoring 16 points in each quarter except for a 13-point third period. Winters held a one-point first quarter lead and three at halftime.

Hensley scored seven himself in the third period, while the Blizzards boosted their margin to nine by holding the Indian regulars to a total of seven.

Turnbow poured in 12 of his points in the last period as the Indians took a three-point scoring edge, but the rally wasn't enough to overcome the Blizzards lead.

Winters won the B-game 47-45. Jerry Await had 16 for Winters while Riley Couch had 12 for Haskell.

Winters also took the girls' game 44-27. Ida Martin had 18 for Winters and Jennabeth Pitman had 17 for Haskell.

### CARD OF THANKS

February "Dollar Day" sponsored by Haskell merchants comes next Tuesday, February 15th, only four weeks from the first day of Spring.

The nearness of spring with Easter not far behind, makes this month's Dollar Day an important event for budget-conscious shoppers.

Many of the stores cooperating in Dollar Day will be featuring some of the new spring and Easter merchandise on special sale for that day. This will afford thrifty shoppers an opportunity to make timely selections at reduced "D-Day" prices.

In addition to merchandise items for the family, many stores will feature articles for the home, car or the farm, all at reduced prices.

The big monthly, four-page circular check-full of Dollar Day items, will be mailed and distributed throughout the area this weekend. Watch for your copy and use it in making out your shopping list.

### Court Invited To Dedication

County Judge James C. Alvis and members of the Haskell County Commissioners Court have been invited to attend the dedication of the "Texas Confederate County Commissioners Courts" historical marker in Brenham on Feb. 18, at 2:00 p. m. on the Washington County courthouse lawn.

A history of the Commissioners Courts in Texas during the Civil War years to the present time will be made by Shepperd. Harold Green, president of the County Judges and Commissioners Association, of Water Valley (Tom Green County) will accept the official marker on behalf of the association.
